The Honorable Ike Skelton Chairman Committee on Armed Services United States House of Representatives Washington, DC 20515

Dear Mr. Chairman:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5 (the Recovery Act), was designed to stimulate economic growth by creating millions of jobs through investments in infrastructure improvements and expanding energy research in an effort to lead the way toward energy independence for our country. On March 20 and April 28, 2009 the Department submitted its initial plans to implement the Recovery Act identifying specific military construction and facility sustainment, restoration, and modernization (FSRM) projects that improve facilities and energy efficiency.

At that time, the Department indicated that it would amend the plans if significant changes occur during implementation. The Department notified the Congress of Recovery Act plan revisions on September 14, 2009, December 24, 2009 and January 22, 2010. This letter notifies the Congress of additional FSRM program changes affecting the Air Force. This revision:

- Cancels 10 projects and identifies 12 replacement projects (enclosure 1), and
- Corrects one project title and location (enclosure 2)

A revised state summary is provided in enclosure 3. The Department appreciates the continued support of the Congress for Defense facility and infrastructure programs. Similar letters have been sent to the chairmen and ranking members of the Senate Armed Services Committee and the Committees on Appropriations of the House and Senate.

Sincerely,

Robert F. Hale

The Honorable Thad Cochran Ranking Member

Consistent with White House guidance to expeditiously award and start activities that will assist in the creation and preservation of jobs, the Department is cancelling projects that are no longer required or have been accomplished using non-Recovery Act funds and adding replacement projects from within the same appropriation, state, and congressional district.

1183	Tinker Air Force Base	OK	Repair/Replace Asphalt Approach End, Runway 12 (bid savings \$153K)*	2,556
1713	Tinker Air Force Base	OK	Repair Roof, Comprehensive Engine Management Facility 4008	220

PNs 1148 and 1558 were combined with non-Recovery Act work to realize cost savings. These projects were funded entirely by non-Recovery Act funds to avoid comingling funds and ensure transparency. The replacement project is expected to be awarded by end of March and is funded by the two cancelled projects at Tinker AFB and bid savings from PN 1183 (\$153) at Tinker AFB. \* Revised Cost Estimate net of bid savings reflected in "Cost Estimate" column.

Consistent with White House guidance to expeditiously award and start activities that will assist in the creation and preservation of jobs, the Department is cancelling projects that are no longer required or have been accomplished using non-Recovery Act funds and adding replacement projects from within the same appropriation, state, and congressional district.

PN 1610 was previously completed with non-Recovery Act base funding and inadvertently included in the ARRA program. PN 370 cannot be executed in a timely manner because low bids have exceeded the original government estimate and resolution is not expected to result in a timely award. Cancellation funds exceed replacement costs by \$22 thousand and will be used in a future Recovery Act plan revision. (Note: Peterson AFB is responsible for Cheyenne Mountain, AS).
