

HOW THE PLAN WORKS FOR AMERICA

Health insurance reform **puts American families and small business owners—not the insurance companies—in control of their own health care.**

Making health insurance affordable for middle class and small businesses—one of largest tax cuts for health care in history – reducing premiums and out-of-pocket costs.

Giving millions of Americans access to affordable insurance choices just as big businesses have—through a new competitive health insurance market that keeps costs down.

Holding insurance companies accountable to keep premiums down and prevent denials of care and coverage, including for pre-existing conditions.

Improving Medicare benefits with lower prescription drug costs for those in the ‘donut hole,’ better chronic care, free preventive care, and nearly a decade more of solvency for Medicare.

Reducing the deficit by \$143 billion over next ten years, and by \$1.2 trillion more over the following decade; reining in waste, fraud and abuse, paying for quality over quantity of care.

Failure to enact reform means continued double digit premium increases—some as high as 60%, arbitrary loss of coverage, and huge increases in the deficit.
