

THE JOBS Act

Jumpstarting Opportunities with Bold Solutions

UNLEASH THE POWER OF AMERICAN ENERGY PRODUCTION

- Approve the Keystone XL pipeline.
- Stop the EPA's war on coal.
- Open up new areas of the Outer Continental Shelf for domestic energy production.
- Repeal the ban on energy exploration in ANWR.
- Allow states to develop resources on federal land within their borders.
- Prohibit the federal government from implementing any hydraulic fracturing regulations in a state that has already issued its own regulations.
- Green light, via DOE, all pending export applications for Liquefied Natural Gas.

GET UNIONS OFF THE BACKS OF JOB CREATORS

- Eliminate Davis-Bacon, repealing the requirement that prevailing (union) wages be paid for all government contracting jobs.
- Allow employers of unionized employees to give merit-based wage increases, bonuses, or other pay that is higher than what is provided for in the collective bargaining agreement.
- Prohibit federal employees from using official paid time for union activity.

THE JOBS Act

Jumpstarting Opportunities with Bold Solutions

REIN IN REGULATIONS TO SPUR ECONOMIC GROWTH

- Require all federal agencies to conduct an objective cost-benefit analysis of proposed regulations.
- Direct federal agencies to review the impact of existing rules and modify, consolidate or sunset these rules on a periodic basis.
- Allow a person adversely affected by federal rules and regulations to petition for a sunset review of the rule.
- Require Congress to approve all rules with an annual economic effect of \$50 million or more.

SPUR INVESTMENT IN LOCAL BUSINESSES

- Eliminate unnecessary regulations that inhibit capital from being invested in businesses.
- Provide regulatory relief to community banks and credit unions so local financial institutions can more effectively lend to small businesses and consumers.
