

## Republican Budget Would Be Devastating for Nebraska Women

*Senate Democrats are working to provide a fair shot for everyone to succeed by creating good paying jobs and opportunity for working women. Instead of protecting programs critical to women across the country, Republicans have again introduced a budget that would take an enormous toll on women by cutting the services they rely on for their health and the health of their children.<sup>1</sup>*

**2,546 fewer Nebraska women could be screened for cancer.** The Republican budget would cut funding for the National Breast and Cervical Cancer Early Detection Program, which helps low-income, uninsured, or underinsured women gain access to diagnostic services like clinical breast examinations, mammograms, pap tests, and pelvic examinations. The deep cuts in the Republican budget could result in Nebraska receiving \$641,264 less funding. **7,254 fewer children could receive life-saving vaccinations.** Grants for childhood immunizations help to purchase and distribute vaccines for poor and uninsured children. The Republican budget could cut \$495,506 in funding for life-saving vaccinations in Nebraska. **Reproductive health programs in Nebraska could be cut by \$381,369.** The Republican budget could cut \$381,369 in services funding for the Title X family planning program in Nebraska, which provided access to contraceptives supplies, reproductive health information and counseling, breast and pelvic examinations, breast and cervical cancer screening, STD and HIV prevention education, and pregnancy counseling to 25,047 women in 2012 alone. **Over 257,000 women in Nebraska will lose access to health benefits.** The Republican budget repeals the Affordable Care Act, eliminating health insurance coverage and new benefits for millions of Americans and jeopardizing their access to stable, secure, affordable care. 257,000 women and 192,000 children in Nebraska would have a lifetime limit on their coverage under the Republican budget. **19,263 fewer women and children could have access to maternal and child health services in Nebraska.** The Maternal and Child Health Block grant helps states provide critical

<sup>1</sup> Reductions to discretionary programs are determined by calculating the percentage reduction from the non-defense budget authority provided under the Budget Control Act for FY16 before sequestration to the budget authority provided under the House Republican Budget in FY16, and applying that reduction (15 percent) to the most recent programmatic levels to illustrate potential differences.

maternal and child health services, including prenatal care, well-child services, and other services through clinics, home visits, and school-based health programs. The Republican budget could cut \$697,610 million in funding from Nebraska, resulting in 19,263 fewer women and children served. **666 fewer victims of domestic violence could be served through the STOP Violence Against Women Program.** Funding for the STOP Violence Against Women Program helps states provide support services for victims of domestic violence. The Republican budget could cut \$171,420 in funding from Nebraska, resulting in 666 fewer women and children served. Additionally, the Republican budget could cut \$37,525 in funding to Nebraska, for the Sexual Assault Services program, which is dedicated to assisting victims of sexual assault through rape crisis centers and other programs. At the same time, because the Republican budget repeals the Affordable Care Act, insurance companies will again be able to say that being a victim of domestic violence or sexual assault is a “pre-existing condition” that will force women to pay more for their health insurance. **Millions more women will have to pay more for contraceptive coverage.** The Republican Budget repeals the Affordable Care Act, which requires that insurance plans provide coverage without cost sharing for a variety of preventive health services, including cervical cancer and breast cancer screenings as well as contraceptive drugs. In 2013, more than 24 million more contraceptive prescriptions were filled without a co-pay than the previous year, resulting in savings to women throughout the country of more than \$483 million.
