Representative Geoff Davis
1119 LHOB
Washington, DC 20515

Dear Congressman Davis,

On behalf of Americans for Limited Government (ALG), a leading proponent of small government and liberty, I would like to thank you for introducing the Regulations from the Executive in Need of Scrutiny (REINS) Act.

This legislation is extremely important in maintaining the integrity and efficacy of our system of government. One way that the Constitution protects our freedom is through a system of separation of powers that puts the responsibility for overseeing the executive branch firmly within the purview of the legislative branch. If the executive branch is allowed to make economy-shaping decisions simply by creating regulations that far exceed the law's intent or scope without review by Congress, our system of government will begin to fall apart.

Passage of this bill would only further the proposed ideals of limited government and protection from autocracy and will allow Americans the freedom and security of knowing that their interests are represented in determining these important decisions on how government will impact their lives.

Congressman Davis, you are to be commended for tackling this fundamental issue and attempting to re-establish the constitutionally mandated separation of powers between the executive and legislative branches of our government. We are pleased to support the REINS Act and will work toward promoting its passage.

Sincerely,

Bill Wilson
President
Americans for Limited Government
