

**AMENDMENT TO THE RULES COMMITTEE PRINT
FOR H.R. 3080
OFFERED BY MR. KING OF IOWA**

At the end of title I, insert the following:

1 **SEC. 1 ____ . UPDATE OF MISSOURI RIVER RESERVOIR SYS-**
2 **TEM MASTER CONTROL MANUAL.**

3 (a) IN GENERAL.—The Secretary of the Army, acting
4 through the Chief of the Army Corps of Engineers, shall
5 revise the Missouri River Mainstem Reservoir System
6 Master Water Control Manual to ensure that the System’s
7 flood control storage allocation has been—

8 (1) recalculated so that it is based on the va-
9 cated space required to control the largest flood ex-
10 perience in the System and to control the serious
11 downstream flooding associated with such flood; and

12 (2) adjusted, prior to each runoff season, such
13 that the space allocated for flood control purposes in
14 the Exclusive Flood Control Zone and the Annual
15 Flood Control and Multiple Use Regulation Zone is
16 increased by an amount necessary to ensure that the
17 storage capacity of the two zones is adequate to
18 avoid contributing to serious downstream flooding.

1 (b) APPLICABILITY.—The Secretary of the Army,
2 acting through the Chief of the Army Corps of Engineers,
3 shall carry out the requirements under subsection (a) not
4 later than 90 days after the date of the enactment of this
5 section.
