

THE PATH TO COLLEGE

College • Planning For College • Paying for College • Scholarships

Senator Harry Reid, Nevada
Democratic Leader

United States Senate

WASHINGTON, D.C. 20510

Dear Fellow Nevadan,

A college degree can open the door to many professional opportunities and increase your earning potential. However, as higher education has become more and more important to success in our global economy, rising costs have put it out of reach for an increasing number of Nevadans. For this reason, making higher education more affordable and accessible for Nevada students has been one of my top priorities in Congress.

With planning and hard work, anyone can make it to college. *The Path to College* is meant to serve as a resource guide for students, parents, teachers, guidance counselors, and administrators to use when planning for college or other postsecondary options. Included in this book are checklists of important tasks for middle and high school students, high school graduation requirements, information about Nevada's excellent colleges and universities, resources for finding grants, loans, and scholarships, and much more information.

I hope it will be helpful to you when navigating the path to college.

Sincerely,

Harry Reid

United States Senator for Nevada
Democratic Leader

Acknowledgements

We are grateful to the Clark County School District (CCSD) for providing much of the background material for this guide.

WHY GO TO COLLEGE?

Why should I go to college?

U.S. Department of Labor statistics show that education and earnings are closely related. Think of college as an investment. When you finish college, you will have a wider variety of jobs to choose from that pay higher salaries. You invest in yourself now to earn more later.

Can I get a job now?

Yes, maybe you can, but the statistics are stacked against you. Below is a chart of the unemployment rates for people 25 years and older with the different levels of education. As you can see, higher education often ensures higher earnings and lower rates of unemployment.

I do not know which career field to choose!

If you are having trouble deciding what to do, you can talk to your school counselor, or visit www.nvcis.intocareers.org to fill out an interest inventory or www.bls.gov/k12 to explore career information based on what you like to do. Based on your answers, the questionnaires will provide you with a list of careers that fit your interests.

Still have questions?

Call the Federal Student Aid Information Center at (800) 4-FED-AID (800-433-3243).

PLANNING FOR COLLEGE

When planning for college or other post-secondary options, it is important to get an early start. This checklist will help you and your family navigate the many requirements for high school graduation and college admissions, and plan ways to finance your college education. It is never too early to begin.

Things to Do from 6th-12th Grade

Grade 6

- Parents, encourage your child to challenge him- or herself academically, attend school regularly, develop good study habits, and get involved in school- and community-based extracurricular activities.

- Visit the middle school counselor to learn about college preparatory classes that might be offered.

- History or geography, math, English, and science should be taken every year of middle school. These subjects form the core of academic preparation for college.

- Attend college information day programs at your school to find out about Nevada colleges and universities.

- Parents and students, develop a savings plan for college.

Grade 7

- Keep your grades up and put special effort into math and English.

- If possible, take a foreign language.

- Visit a college campus.

- Continue to save for college.

- Parents, discuss career and college options with your child and encourage him or her to aim high and to explore all options.

- Parents, make sure that your child starts on a college preparatory track in middle school and junior high school. If students do not take the right courses in middle school, they may be shut out of the college preparatory track in high school.

- Parents, if your child is struggling in college preparatory coursework, find an appropriate tutor.

- Continue to take history, or geography, math, English, and science courses, or other college preparatory classes during each year of middle school.

- Attend college information sessions at your school to learn about about Nevada colleges and universities.

Grade 8

- If you have not taken algebra yet, now is the time.

- Begin to explore the many college and career information resources that are available on the Internet.

- Take a foreign language.

- Take the ACT EXPLORE assessment test.
www.actstudent.org/explore

- Think about college expenses. The best way to prepare for meeting the costs of college is to begin saving early. Set aside money each month, starting now, to build a college fund.

Grade 9

- As a high school student, you should begin to take on more college planning work. Learn about the Nevada high school graduation requirements and diploma options.

- You should attend high school open houses, meet with your high school counselor, and become familiar with all the college admissions and financial aid processes.

- Develop a student planner for courses you will need to take over the next four years to graduate and be eligible for college admission. *Use the chart located on the right-hand side of this page.* Coursework should include algebra or geometry, English, social studies, biology, and a foreign language.

- In your student planner, include the projected test dates for the SAT and ACT that will be offered during your junior and senior year. In addition, identify the grade point average (GPA) you will need to meet current admission requirements.

- Learn about Nevada's Millennium Scholarship Requirements at *www.nevadatreasurer.gov*. The Nevada Millennium Scholarship is a unique opportunity for Nevada residents to obtain financial assistance to attend a Nevada college or university. Become familiar with eligibility requirements by visiting the website.

Review your high school course catalog for appropriate course sequence and selection.

Grade 9

- English I
- Algebra I
- Biology
- Health/Careers
- Physical Education I
- Foreign Language I

- Elective

How Your School Guidance Counselor Can Help

Your high school guidance counselor can be a valuable resource in helping you plan for college. You should meet with your guidance counselor early in your high school career to map out a path to college, and visit with them often to ensure you are meeting all graduation and college acceptance requirements.

High school counselors advise students regarding college majors, admission requirements, entrance exams, financial aid, scholarships, trade or technical schools, apprenticeship programs, military academies, or other post high school options. They help students develop job search skills, such as resume writing and interviewing techniques.

- Begin a resume file. Attach to your planner a list of your activities, awards, community service, and other unique educational experiences. This will serve as the beginning of a resume that you can use when writing college and scholarship applications. Think about activities to get involved in over the next three years.

- Use the Nevada Career Information System (NCIS - free of charge from the Nevada Legislature; *user name: ncis; password: nevada*) at www.nvcis.intocareers.org to obtain information about different career options.

- Volunteer and get involved in community service events.

- You may wish to explore the opportunities offered at community college high schools. Students can take both high school and college courses. Students may graduate high school with college credits completed.

- If you have not already done so, consider taking the ACT EXPLORE assessment test.

- Continue to save for college using your savings plan.

Grade 10

- Update your planner to include completed 9th grade classes and upcoming 10th grade classes.

- Meet with your high school counselor to confirm that you are on the right track. Remember that college requirements and application deadlines might have been updated since you created your student planner during the prior year. You should request updated information annually.

- Take the PSAT (Preliminary Scholastic Assessment Test) to help prepare for the SAT (Scholastic Assessment Test), which most students take during their junior or senior years of high school.

- Prepare for the math and reading sections of the Nevada High School Proficiency Exam (HSPE). Check out www.succeedinmath.com for practice math exams.

- Consider taking Advanced Placement (AP) courses and exams during your junior year. AP courses are advanced courses that help prepare you for college-level work. Students who take AP courses are often more prepared for the academic challenges presented in college. Check with your counselor to see if your high school offers AP courses and exams.

- Continue to keep track of the requirements for the Nevada Millennium Scholarship.

- In addition to the placement exams, you will be required to pass the Nevada High School Proficiency Exam (HSPE). Your high school will provide you with information on test dates, test content, and on retaking the exam. You must achieve passing scores in the reading, math, science, and writing sections in order to receive a Nevada standard high school diploma.

- As your college fund continues to grow, begin to investigate federal, state, and private financial aid. Visit local campuses, take visitor tours, and ask the guides about their college experiences.

- Your coursework should include geometry or algebra II, English, social studies, chemistry, and a foreign language.

- If you have not already done so, consider taking the ACT EXPLORE assessment test.

- Parents, help your child research and make a list of colleges that he or she would like to attend. Start to investigate price, distance from home, and curriculum.

Grade 11

- Update your student planner to include completed 10th grade classes and upcoming 11th grade classes. Your coursework should include advanced math, physics, social studies, and English. Maintain A's and B's. Your Nevada Millennium Scholarship depends on it.

- Nevada's colleges and universities offer courses for dual credit. That means when you take a recognized college course you receive both high school and college credit. Talk to your counselor to see if your high school has a dual credit agreement with your local university or community college.

- Consider taking AP (Advanced Placement) classes.

- Check if your school offers the Preliminary Scholastic Assessment Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT). This practice test helps prepare you for the Scholastic Assessment Test (SAT). A student who does well on this test, and who meets many other academic performance criteria, may qualify for the National Merit Scholarship Program. For more information, talk to your guidance counselor, or call the National Merit Scholarship Program office directly at (847) 866-5100.

- Create a list of potential colleges that you would like to attend. Send letters or emails to the colleges on your list requesting information, and evaluate the materials with your parents.

- Remember, the Millennium Scholarship is your financial passport to Nevada's colleges and universities.

- Attend college fairs and sessions with college representatives at your school to get more information. All Nevada colleges and universities have programs for visiting high school students. Make an appointment to attend a campus tour.

- Schedule an appointment with a college financial aid counselor to learn more about the college's financial aid opportunities. Be sure to bring your parents or family members; their participation is important and everyone will gain very valuable information.

- Take your college entrance exams (ACT or SAT) in the spring or summer. You will get the results back in time to see if you need to retake the test in the fall of your senior year. Register for exams one or more months in advance, or sooner. Add test scores to your student planner when received.

- Prepare for the ACT or SAT by reviewing books with testing tips and sample questions. These can be found in bookstores, libraries, and schools, or accessed on the Internet. Attend a workshop on how to prepare for the exam. Financial aid may be available for some workshops and test fees. Find more information about these tests by visiting their websites at www.act.org (ACT) and www.sat.collegeboard.org/home (SAT).

- Ask your parents to help you obtain a Social Security number since it is required on many college and financial aid applications. Continue your research on federal, state, and private scholarships. Find out what awards students in your school and community are receiving.

- Parents, make sure your child takes any required college admissions tests and submits all admissions, financial aid, and any campus housing paperwork on time. It is crucial that you are aware of the submission deadlines. They vary among schools and are subject to change.

Grade 12

Early August:

- Update your student planner to include completed 11th grade classes and upcoming 12th grade classes.
-

- Review transcripts with your guidance counselor to ensure that they are accurate and you are meeting all of your college preparatory and Nevada Millennium Scholarship requirements. Review your college plans and evaluate them in light of your test scores and junior year grades.

- Continue the college application process. You and your family should meet with your guidance counselor to become familiar with the college admission and financial aid processes. Some universities and colleges have fall deadlines while others have spring deadlines.

- Setting up a calendar with all the various tasks and deadlines associated with the application process will be very helpful to submit paperwork on time. Set aside plenty of time to draft, edit, and re-write application essays.

- Register for the ACT or SAT if you either did not take the test last year, or if you have decided to retake the test.

- Continue to visit and obtain information on the colleges or universities that you have included on your potential list.

Early October:

- Keep track of all college application deadlines and file yours accordingly. If you want to live on campus, and have not already done so, complete a housing/meal plan application.

December:

- Begin researching the Free Application for Federal Student Aid (FAFSA) available through your high school or on the Internet at the U.S. Department of Education website www.studentaid.ed.gov. The website also provides financial aid and eligibility information and can calculate your estimated financial aid award.

- Work with your parents to complete the FAFSA on or as soon after January 1 as possible. Send it no later than February 1 to be considered for the maximum amount of available awards. Once you complete your FAFSA, you should receive the Student Aid Report (SAR) from the financial aid processor. If you provide a valid e-mail address on your FAFSA, you will receive an e-mail within 3 to 5 days with instructions on how to access an online copy of your SAR. If you do not provide a valid e-mail address, your SAR will be mailed to you via postal mail within 7 to 10 days. If you have not received your SAR within the appropriate time line, check your status online at www.fafsa.ed.gov, or call 1-800-4-FED-AID (1-800-433-3243).

January:

- Request that your high school send the transcript of your first semester senior year grades to the colleges to which you've applied.
-

February/March:

- Make sure that all application materials are sent and received on time. Review your Student Aid Report (SAR) for accuracy. If necessary, correct any inaccurate items on your SAR on the Web page fafsa.ed.gov. If you filed a FAFSA online, you must make your corrections online. If you filed a paper FAFSA, you may make your corrections online or on your paper SAR and mail it to the federal processor. For electronic corrections, you will receive an email notification that your corrections are processed within 3 to 5 days. In order for colleges to receive your SAR information, you should list them on your FAFSA. You may add colleges after your FAFSA is processed by making a correction. Even if your SAR says you are not eligible to receive a Federal Pell Grant, you should list all prospective colleges on your FAFSA because the college may be able to offer you other aid based on the information in that report.
-

April:

- Review your financial aid award letters with your parents; be sure that you understand the terms and conditions that apply to each type of aid offered, as well as how much of your educational expenses the aid will be covering. Many institutions send financial aid award notifications electronically; it helps to know what to expect from your chosen college.
 - Review all college acceptance letters. Decide on the one college that you will attend and send in your tuition deposit. If you are unable to cover the tuition deposit, contact the financial aid or admissions office at the college you plan to attend to inquire about deposit waivers. Notify all other colleges in writing that you have selected another school by May 1. Other applicants will be hoping to receive your spot.
 - If you are on a college waiting list, notify the admissions office that you are still interested.
-

May:

- Parents, devise a budget with your child and determine how much will be covered by financial aid, how much you'll provide, and how much your child will contribute by working and/or borrowing.
-

June:

- Request that your high school send a copy of your final transcripts to the college you will attend. Notify the college of any private grants or scholarships you will receive, as this may affect your other financial aid awards.

- Find out when payment for tuition, room, board, etc., will be due. Be sure that you understand how financial aid will be disbursed and whether you can defer bill payments until the funds are available.

July/August:

- Look for information from your new college about housing, orientation, course selection, etc.

- If you are attending a Nevada college or university, you will receive a Millennium Scholarship award notification. Your notification comes from the Nevada Treasurer's Office and will include instructions on how to complete your Letter of Acknowledgement. This step must be completed before your college can process your Millennium Award. Once this is done, verify that the Millennium Scholarship appears on your financial aid award letter. If it does not, you should contact your campus financial aid office.

- Pack for college and look forward to an exciting and rewarding experience!

Nevada High School Graduation Requirements

To graduate from a Nevada high school, you must complete the following course requirements:

- English - 4 courses
- Mathematics - 3 courses
- Science - 2 courses
- U.S. History - 1 course
- U.S. Government - 1 course
- Arts/Humanities - 1 course
- Physical Education - 2 courses
- Health Education - ½ course
- * Use of Computers - ½ course
- Electives - 7.5 courses

Total - 22.5 courses

*One-half credit can be earned in middle school if the student has successfully completed a semester of computer literacy with a passing grade.

Nevada High School Diploma

The Nevada State Legislature eliminated the Certificate of Attendance, which was made available in prior years to students who failed to pass the High School Proficiency Exam but satisfied all other graduation requirements. Students wishing to graduate with the class of 2014 must pass all four subtests of the Nevada High School Proficiency Exam and meet all graduation requirements to receive a diploma and participate in graduation ceremonies.

Beginning in the year 2014-15, high school juniors will be required to take a college readiness assessment, in addition to four end-of-course exams in order to graduate

14 Millennium Scholarship Requirements

To be eligible for the Millennium Scholarship, you must complete the following core curriculum courses, as defined in the NSHE Governor Guinn Millennium Scholarship Policies and Procedures of the Board of Regents. Your total GPA for all classes taken must be a minimum of 3.25 un-weighted.

- English - 4 courses
- Math (including Algebra II) - 4 courses
- Natural Science – 3 courses
- Social Science and History – 3 courses

Total – 14 courses

For more information on Millennium Scholarship qualifications, visit www.nevadatreasurer.gov/documents/millennium/Doc-FactSheet.pdf.

UNLV and UNR Admission Requirements

High school students who intend to apply to UNLV or UNR must graduate from an accredited or approved high school with a 3.0 GPA in the following required courses for admission:

- English: emphasis on composition, rhetoric, American, English, and world literature (4 courses/units*)
- Mathematics: algebra or higher level mathematics, including first and second year algebra, geometry, analytic geometry, trigonometry, pre-calculus, probability and statistics, and other advanced mathematics (3 courses/units*)
- Social Science: world history, geography, U.S. History, economics, government, and law (3 courses/units*)
- Natural Science: biology, chemistry, or physics, etc., with at least two years in a laboratory science (3 courses/units*)

Total – 13 course/units

*Units mean high school credits/course. You may view the official list of approved high school courses for both university admissions and Governor Guinn Millennium Scholarship eligibility on the Nevada System of Higher Education (NSHE) website at www.system.nevada.edu.

To discuss university policies for alternative methods to satisfy course admission requirements, or to discuss students who have been officially excused from compulsory high school education (i.e., home school), contact the following offices: UNR at (702) 940-5416, toll-free at (866) 2NEVADA (866-263-8232), or by email at asknevada@unr.edu; or UNLV's Office of Undergraduate Recruitment at (702) 774-8658, or by email at admissions@unlv.edu.

RESEARCHING AREAS OF INTEREST

RESEARCHING AREAS OF INTEREST

Picking a college is a big decision that will have a major impact on your future. You will want to consider your areas of interest and career plans when selecting a college. The following section will offer some tips for researching areas of interest.

Setting Priorities

Use the following questions to help you set priorities and plan your high school curriculum:

What kinds of work do I want to do?

I am interested in the following career cluster:

- | | |
|--|--|
| <input type="checkbox"/> Arts/Humanities | <input type="checkbox"/> Human Resources |
| <input type="checkbox"/> Business/Management | <input type="checkbox"/> Natural Resources |
| <input type="checkbox"/> Health Services | <input type="checkbox"/> Technology/Industry |

*For more career information, visit the Nevada Career Information System (NCIS) at www.nvcis.intocareers.org (User name: **ncis**; Password: **nevada**).*

What is my goal after graduation?

My plans after high school may include the following:

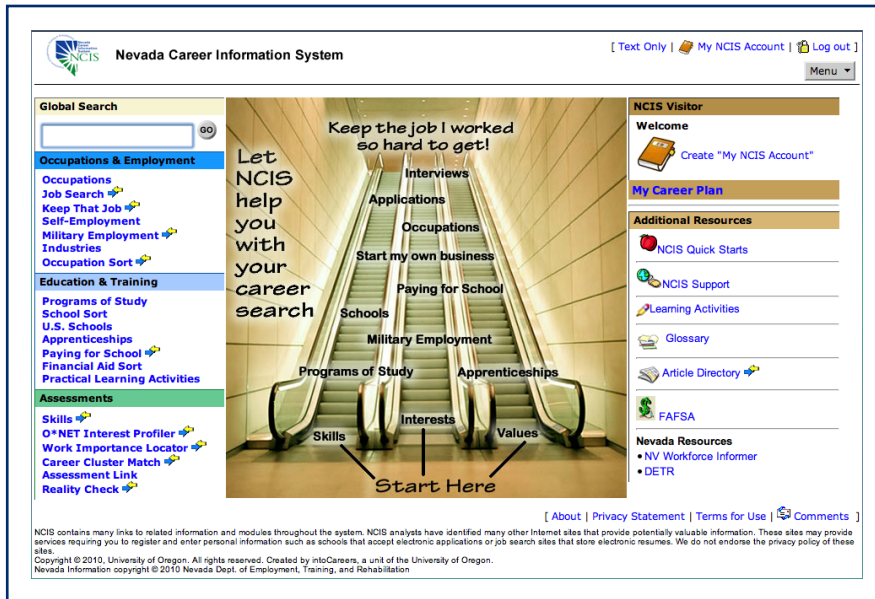

- | | |
|---|---|
| <input type="checkbox"/> Apprenticeship | <input type="checkbox"/> Technical/
Trade School |
| <input type="checkbox"/> Community/Two-Year College | <input type="checkbox"/> University/
Four-Year College |
| <input type="checkbox"/> Military Service | <input type="checkbox"/> Work |

What kind of classes do I need to take in high school to be prepared for my goal?

I am interested in the following school pathway:

- | | |
|---|---|
| <input type="checkbox"/> Trade/Technical/Work | <input type="checkbox"/> College Prep |
| <input type="checkbox"/> Advanced Diploma | <input type="checkbox"/> Honors Diploma |

16 Exploring Career Interests

What are my interests?

My College Quick Start™ and MyRoad™ are available to all students who take the PSAT in October. These online tools assist students with college planning, college majors, SAT test preparation, and career guidance. See your high school counselor for more information.

To access My College QuickStart or MyRoad, visit www.collegeboard.com/student/testing/psat/quickstart.html and myroad.collegeboard.com/myroad/navigator.jsp, respectively.

Where can I get more information on various careers?

For Nevada residents only: The Nevada Career Information System (NCIS) is available at no charge on the Internet at www.nvcis.intocareers.org (username: **ncis**; password: **nevada**, or use the Zip Code feature by selecting your town and entering your area code and zip code).

If you have any questions or comments, please feel free to contact the NCIS staff at:

Department of Employment, Training and Rehabilitation Research & Analysis Bureau/Nevada Career Information System

500 East Third Street

Carson City, Nevada 89713-0021

Telephone: (775) 684-0477

E-mail: detrncis@nvdetr.org

MyRoad includes:

- Major and career profiles
- Firsthand stories from students and professionals
- A personality test

Explore Majors on MyRoad

- Get the big picture
- Focus on specific topics
- Hear from students in the field
- Read about college preparation
- Learn about college study
- Connect to related careers

Research Careers on MyRoad

- Try careers on for size
- Weigh rewards and responsibilities
- Check academic requirements
- Learn the economic outlook for the field
- Hear from working professionals
- Discover the unknown

Unsure of your interests? That's no problem: MyRoad is packed with tools and articles—including a personality test—to help you discover new majors and careers.

Internship Opportunities

Internships are an exciting way to explore career interests, and they come in all shapes and sizes. Some are paid, and some are unpaid. Some last for a summer while others continue through the school year. Some internships are local, but others offer employment abroad.

Internship opportunities are available for both high school and college students. A high school internship can open the doors to the working world, showing you what it's like to have a boss, attend meetings, and meet deadlines. Internships also introduce you to experienced people who can help guide you toward a career.

How do I find the right internship for me?

Start by answering these questions:

- What interests you? Do you like photography? Flying? Computers?
- What kind of internship do you seek? Do you want to work during the summer or the school year?
- Do you need to earn money or could you work for free?
- What do you want out of an internship? If you're interested in the legal field, your search should start with law firms.

Use a Variety of Resources

Many resources exist for finding internships. Employers often advertise internship positions through schools. Ask your high school career counselor teacher about these opportunities. You might also find out about internships in particular fields through a school club, family, or friends. If there is a specific company or organization you would like to work for, inquire directly. Even if they have never had an intern, you might be able to convince them they need one! Be clear about how you could help. Ask your librarian for recent internship guidebooks, such as *Internships (Peterson's)* and *The Internship Bible*, which lists hundreds of opportunities for high school students. More specific guides can help you find internships in the arts or those available to minorities. Many libraries have a career center that can help, too.

The Internet also provides a wealth of resources. Helpful sites include:

www.internshipprograms.com
www.goabroad.com

www.idealist.org
 (searches for internships at nonprofits such as environmental groups)

www.volunteerinternational.org
 (lists volunteer opportunities abroad)

Source: Plan for College, The College Board

Directly to Work

Some students may prefer to go directly to work. For students who opt to pursue a trade directly after high school, it is worth investigating the following apprenticeship programs.

Apprenticeship Programs

An apprenticeship is an “earn while you learn” training opportunity that includes paid on-the-job training as well as related classroom instruction. The following pages include a partial list of the many apprenticeships available in the Las Vegas area. For more information, call the Bureau of Apprenticeship and Training at (702) 486-2738 or visit www.laborcommissioner.com.

Since you will be competing with many other applicants, it is essential that you are well-prepared before you apply for a job. Develop an “application portfolio” containing documents such as an up-to-date resume, letters of reference/recommendation, copies of competency certificates, samples of your work, and copies of completed job applications. Adhere to application deadlines; be sure the application is neat and complete; and be well-dressed and prepared for an interview.

Apprenticeship Guidelines

Applications

- Most programs take applications and select their apprentices/trainees in the early spring. A few accept applications all year round.

Qualifications

- All apprentices/trainees must be at least 18 years of age (no upper age limit) and have a high school diploma or G.E.D. Some programs require that applicants pass a reading comprehension and math test; algebra may also be a requirement of some programs.

Related Instruction

- All apprentices/trainees are required to attend a minimum of 144 hours of related instruction per year.

Technical/Trade Schools

More than 100 privately-owned postsecondary schools are licensed by the State of Nevada. The trade/training schools are short-term programs with immediate placement in the workforce as the goal. Many of these licensed schools are also accredited by regional and/or national accrediting associations. A school does not have to be accredited to operate in Nevada as long as the school has met all the state requirements for licensing. A school cannot operate without a state license. Accredited schools have access to Federal funding and can offer Federal loans and grants. Non-accredited schools often create their own form of financial aid for qualified students. For more information, call the Commission on Postsecondary Education at (702) 486-7330, or visit www.cpe.state.nv.us.

22 Military Opportunities

There are many advantages to military service. Immediate benefits include educational and career training through graduate degrees, the opportunity to become a commissioned officer through military academies or college Reserve Officer Training Corps (ROTC), travel, specific guaranteed training upon entry, a community with a variety of attractions, free medical and dental care, lower cost commissary and post exchange service, guaranteed pay, promotion opportunities, access to a cadre of trained consultants and counselors, and free legal assistance. Long-term benefits may include the new G.I. Bill awards, scholarships and fellowships, pay bonuses, 30-day paid vacations every year, development of leisure-time skills, certain housing, medical, and educational services for families, low-cost life insurance, FHA loans, lifetime retirement benefits after 20 years of service, and job retention rights over all nonveteran federal workers.

Terms of Enlistment: There is a mandatory eight-year service obligation for all branches of the military, which is split between active duty and inactive reserve duty. The required proportion of time spent on active duty and reserve duty varies with each branch of the military. Check with the military recruiters for details.

Qualifications: All prospective recruits take the Armed Services Vocational Aptitude Battery (ASVAB). Test results on the ASVAB determine your qualifications for enlistment and job-training opportunities. The ASVAB is given at high schools, or testing arrangements can be made with the military recruiters.

United States Military Academies

Military awards include service academy appointments and Reserve Officer Training Corps Scholarships. The academies are very competitive and the selection is based on GPA, extracurricular activities, and physical aptitude. Most nominations are made by members of the U.S. Congress. It is highly advised you inform your U. S. Representative and both U.S. Senators of your interest so they can open a file for you. Your Congressional files must be complete by November 1 of your senior year. If you would like to learn more about what it's like to attend a United State Military Service Academy, please contact my regional office about an upcoming Academy Information Event in your area.

United States Air Force Academy

Eligibility: To qualify for consideration, you must be at least 17 years old by July 1 of the year admitted; be of high moral character; meet high leadership, academic, physical and mental standards; be unmarried with no dependents; and have participated in extracurricular activities. The recommended high school course of study is four years each of English, math, and science; three years of social studies; one year of computer science; two years of a foreign

language; and one year of computer science. Applicants must achieve test scores of at least 580 verbal, and 560 math on the SAT or English 24, reading 24, math 25, and science 25 on the ACT.

Application Requirements: Letters to U.S. Senators and Representative requesting nominations after February 1 of junior year; ACT or SAT I scores by December of senior year; completed Pre-Candidate Questionnaire; formal application if selected after initial screening; and physical fitness examinations.

United States Coast Guard Academy

Eligibility: The United States Coast Guard Academy is the only Armed Forces service academy which tenders appointments solely on the basis of an annual nationwide competition. There are no congressional appointments, nor are there any geographical quotas. The competition for appointment as a cadet is based on your high school rank; your performance on the SAT I or ACT; and your leadership potential as demonstrated by participation in high school extracurricular activities, community affairs, or part-time employment. You must have reached the age of 17, but not have reached the age of 22 by July 1 of the year you are to be admitted as a cadet. You must be a U.S. citizen, unmarried, and of good moral character.

United States Merchant Marine Academy

Eligibility: To qualify for appointment consideration, you must be at least 17 years old; be a U.S. citizen; be of high moral character; meet leadership, academic, physical, and medical standards; have participated in extracurricular activities; and obtain a Congressional nomination. The academy strongly recommends four years of math, chemistry, and/or physics. Applicants must achieve test scores of at least 580 verbal, and 560 math on the SAT or English 24, reading 24, math 25, and science 25 on the ACT.

United States Military Academy (West Point)

Eligibility: Each candidate must be 17 but not yet 21 years of age by July 1 of the year admitted; be a U.S. citizen at the time of enrollment (exception: foreign students nominated by agreement between U.S. and another country); be unmarried with no dependents or pregnancy; have an above-average high school or college academic record; plus strong performance on the ACT or SAT I. West Point encourages a strong college preparation: four years of English — with emphasis on composition, grammar, literature, speech; four years of math — algebra, geometry, algebra II, trigonometry; two years of a foreign language; two years of laboratory science such as chemistry and physics; and one year of U.S. History.

Director of Cadet Admissions Office

U.S. Air Force Academy
Colorado Springs,
CO 80840-5025

U.S. Coast Guard Academy
New London, CT 06320-9807

U.S. Merchant Marine Academy
Kings Point, NY 11024-1699

U.S. Naval Academy
Annapolis, MD 21402-5018

U.S. Military Academy
West Point, NY 10996-1797

Application Requirements: Letters to U.S. Senators and Representative requesting nomination; apply for a nomination in the spring of the junior year; start a file at West Point by completing a Pre-Candidate Questionnaire; fill out U.S. Military Academy forms; take the ACT by February or the SAT I by January of your senior year; take Qualifying Medical Exam and Physical Aptitude Exam. Applicants must achieve test scores of at least 580 verbal, and 560 math on the SAT or English 24, reading 24, math 25, and science 25 on the ACT.

United States Naval Academy (Annapolis)

Eligibility: The candidate must be at least 17 years old and not yet 23 years old on July 1 of the year of admission; unmarried; not pregnant and have no legal obligation to support a child, children, or other individual; a United States citizen (except for the limited quotas of foreign midshipmen specifically authorized by Congress); be of good moral character; be scholastically qualified; be medically and physically qualified; and receive an official preparatory background as a prerequisite for admission. Recommended areas of preparation include four years of English; four years of math including algebra, geometry, algebra II, trigonometry, pre-calculus or calculus; two years of a foreign language; two years of laboratory science, including chemistry and physics; one year of U.S. History; one year of world history; and introductory computer courses.

Application Requirements: Letters to U.S. Senators and Representative requesting nomination during spring of your junior year; Pre-Candidate Questionnaire; an official transcript, including ACT or SAT I scores; the donor's application (if passed initial screening); a physical aptitude examination; a qualifying medical examination; and an interview.

Reserve Officers' Training Corps (ROTC) Scholarships

ROTC is a highly selective process whereby a student must be admitted to a college/university that offers ROTC (Army/Navy-Marines/Air Force) and their academic major of study. The process includes an evaluation of your high school grades, ACT/SAT scores, your stated major of study in college, and a personal interview by a military officer. If you are awarded an ROTC scholarship, you will attend a traditional college/university, which will include ROTC classes once or twice a week and the wearing of a military uniform one day a week. This may vary depending upon the branch of the military and the college you attend. There are also two- and three-year ROTC scholarships available to students while in college. A student may enter the ROTC program without a scholarship, with the goal of becoming a military officer upon graduation from college. A scholarship may be awarded before the 2nd or 3rd year of college attendance and is determined by college GPA and ROTC participation and leadership.

General Armed Services Information

Air Force

Telephone: (866) 423-7682

Website: www.afrotc.com

Eligibility: Applicant must be a U.S. citizen; be 17 years of age; be in good physical condition; and have good moral character. Selection is based on ACT or SAT I scores, high school academic record, recommendation of high school official, record of extracurricular activities, personal interview, results of medical exam, and acceptance at a college offering the Air Force ROTC. You must have a 3.0+ GPA, 24 ACT, or 1100 SAT math and verbal.

Army

Telephone: (888) 550-ARMY or (888) 550-2769

Website: www.goarmy.com/rotc

Eligibility: Applicant must be a U.S. citizen; be 17 years of age; have at least a 2.5 GPA, 920 SAT, or 19 ACT; participate in leadership, extracurricular, and athletic activities; meet required physical standards; be accepted by one of the colleges or universities that hosts Army ROTC; pursue a Department of Army approved academic discipline; and agree to a commission as an Army officer.

Navy-Marine Corps

Telephone: (800) NAV-ROTC or (800) 628-7682

Websites: www.marineofficer.com (Marines); www.nrotc.navy.mil (Navy)

Eligibility: Applicant must be a U.S. citizen; be 17 years of age; be physically qualified in accordance with Navy standards; have no moral obligations or personal convictions that will prevent conscientious bearing of arms and supporting and defending the Constitution of the United States; and have acquired a high school diploma or equivalent by Aug. 1 of year attending. Selection is based on academic achievement, extracurricular activities, ASVAB, and high school standing in top 10 percent of class. Applicants must achieve test scores of at least 580 verbal, and 560 math on the SAT or English 24, reading 24, math 25, and science 25 on the ACT.

Nevada National Guard

Telephone: (702) 251-7676, **Telephone:** (775) 220-9203 (Northern Nevada)

Website: www.nv.ngb.army.mil/army/recruiting.cfm

Eligibility: Take and obtain qualifying scores on ASVAB. Pass a full examination. Meet high moral standards as determined by police record and interviews. Must be at least 17 years old. If still attending high school, must be a junior or senior in good standing (i.e., on track to graduate) or possess a high school diploma or equivalency. Must agree to work one weekend each month and two weeks one time each year after initial training (paid for time worked separately from school benefits).

SELECTING A COLLEGE

Finding a College That Fits

As you begin to think about applying to college, take time to think about who you are. Think about your goals, your likes and dislikes, your abilities, and your resources.

Some Questions to Consider

Of the more than 2,000 American colleges and universities, no two are alike. Choosing the one that is just right for you requires research. This research must be done at two levels: externally and internally. The external research can be done on the Internet, by reviewing catalogs, visiting the campus itself, or by talking to students who have attended the college in question. The internal questions you must ask are: What are my needs? What kind of college or university will satisfy those needs?

What size school would be best for me?

- Large universities often provide many academic, athletic, and social options for their diverse student populations.
- Small universities typically offer a more intimate setting.

What kind of school would be best for me?

- Private schools may have high entrance standards and high tuition rates.
- Public schools generally offer lower tuition rates to in-state students.
- Liberal Arts colleges emphasize a well-rounded educational foundation upon which further studies can lead to success in a number of possible careers. Because enrollment is usually small, students and faculty have more opportunity to interact.
- Specialized colleges offer focused study in a particular area of interest, such as computer graphics, business, or the arts. If you are certain of your career field, these schools will allow you to specialize in that area.

Where do I want to go?

- You will attend college for at least 2 years, perhaps as many as 4 or more years. In what kind of setting are you most comfortable? Near a big city? In a small town? Close to home? Out of state? Your comfort level will affect every aspect of your time in college.

How difficult are the entrance requirements?

- Some schools have rigid entrance policies, while others are more flexible. Your task is to review the requirements of the schools that interest you and compare them to your high school record. Most of your applications should go to the schools whose requirements most closely match your record; however, a few applications to schools whose criteria you 'just miss' are recommended.

How much can I afford to spend?

- Even though the cost of a college education will repay itself many times over during your lifetime, you must start with a practical assessment of your resources: your family's contribution, scholarships, grants, loans, part time work, etc.

How do I choose a major?

- The choice of a major also hinges upon your choice of a career. What kind of work do you want to do? Once you decide this, your major will effectively be chosen. Choosing a college then will be a matter of researching schools which offer programs in your chosen career.

Checklist for the Campus Visit

- Meet with an admissions counselor.
- Verify admissions requirements.
- Determine actual college costs.
- Ask about financial aid opportunities.
- Take a campus tour.
- Investigate your academic program.
- Attend a class.
- Talk with students and faculty.
- Discuss your chances for success, admission, graduation, and placement.

The Campus Visit

Two of the best reasons for the campus visit are to see first-hand what the physical facilities are like and to get a sense of the atmosphere of the college. It is also an opportunity to talk to a student tour guide and ask about student life. Try to take the tour before your interview.

Questions to Ask the Tour Guide or Admissions Counselor

- How do students feel about the course load?
- What is the relationship between faculty and students?
- Are professors available or required to see undergraduates during office hours?
- Are most courses taught by professors, or are most courses taught by graduate students?
- What is an average class size?
- Is there a fraternity and/or sorority system?
- Is the student social life centered on campus? What kinds of activities are offered?
- Do students stay on campus on the weekend?
- Do students need a car on campus? Can freshmen have cars on campus?
- Are students advised well? Is academic counseling easily accessible?
- What academic tutoring and/or personal counseling services are available for students who are experiencing difficulties adjusting to college?
- What provisions are made for campus safety? Is the surrounding area safe?
- Is on-campus housing available? Where do most students live?
- Are health services available on campus?
- What departments have the best reputations?

APPLYING TO COLLEGE

The Application Process

When you are seeking admission to a postsecondary school, the application process will be time-consuming. Not all institutions use the same process, but some aspects of the application process are common to most. Remember that you will be competing with other applicants, you will want to adhere to deadlines and complete the process thoroughly. You can use the information and samples on the following pages to help you prepare for the application process. The typical application process involves the following:

- The **application** is a comprehensive form from a school that you fill out so the school can gather information about you.
- The **entrance exams** such as the ACT or SAT are necessary for applications for most schools.
- **Transcripts** are required by nearly all postsecondary schools to review courses taken, grades received, attendance, and test scores.
- The **resumé** is a written summary of your educational background, achievements, experience, awards, and so forth.
- The **letters of recommendation** are letters written about your qualifications.
- The **essay** is a composition written by you on a topic selected by the school.
- **Application fees** are charged by some schools.
- The **interview** is a question and answer session between you and the representative of a school.
- The **campus visit** is an opportunity for you to gather information firsthand and to experience the campus atmosphere.

Navigating College Websites for Information

The post-high school planning process begins by obtaining information from college/university websites. To locate a college/university website, conduct a search using a familiar search engine. Most websites include the name of the college/university or its initials followed by “.edu,” for example, *www.unlv.edu* or *www.unr.edu*. Once you have located the website, look for the following information:

- Admissions Requirements
- Application Procedures/Deadline Dates
- Tuition Costs/Fees
(Each institution should have a cost calculator that will provide information on fees and financial aid.)
- Financial Aid and Scholarships/Deadline Dates
- Housing/Dormitory Procedures/Costs
- College Majors and Requirements
- Campus Tours

34 The Application Form

Many institutions use *the Common Application* (www.commonapp.org), a sample application is included on pagepage 35. However, some institutions may require their own application.

The Transcript

A transcript is the official record of your high school grades, test scores, class rank, and grade point average (GPA). Most often, it will include information on the following:

- The GPA is an average of the semester grades the student earned in all his/her classes.
- The GPA summary may include:
 - An unweighted GPA, which refers to the GPA for which all classes are given the same value, regardless of the difficulty level of the class.
 - A weighted GPA, which refers to the GPA that takes into account the difficulty level of the classes and gives higher numerical grades for advanced courses, i.e., AP and Honors classes.
- Class rank shows the student's place in his/her graduating class according to the weighted GPA as compared to other students.
- Credit Summary for a Standard Diploma includes:
 - Req. - Credit(s) required.
 - Comp. - Total credits completed to date in specific courses.
 - Def. - Credits needed in specific courses to be completed for graduation.

The Resumé

A resumé should be a typed, accurate list of your activities, including afterschool and summer employment, beginning with grade nine and continuing through grade twelve. No one resumé fits the needs of all people or applications. Therefore, it is important that you look at several resumé styles and choose items that reflect you most favorably. You want to impress someone, whether it is a scholarship judge, college admissions officer, or a prospective employer.

Correct spelling, neatness, grammatical accuracy, and honesty are important features. An original resumé is more impressive than one which has been copied from a template. Your resumé should be roughly one page.

The resumé on page 40 is a sample you can follow, using only those items that apply directly to you. Don't draw attention to any area in which you might not have a lot of experience. For example, do not include a heading such as "Community Activities" if you have not volunteered or do not participate in community affairs.

Be advised that prospective universities are looking for students who have demonstrated perseverance. They are also looking for students involved in sports, clubs, or leadership activities.

SAMPLE: FIRST-YEAR APPLICATION

APPLICANT

Legal Name _____
Last/Family/Sur (Enter name exactly as it appears on official documents.) First/Given Middle (complete) Jr., etc.

Preferred name, if not first name (only one) _____ Former last name(s) _____

Birth Date _____ Female Male US Social Security Number, if any _____

Siblings

Please give names and ages of your brothers or sisters. If they are enrolled in grades K-12 (or international equivalent), list their grade levels. If they have attended or are currently attending college, give the names of the undergraduate institution, degree earned, and approximate dates of attendance. If more than three siblings, please list them in the Additional Information section.

WRITING

Please briefly elaborate on one of your extracurricular activities or work experiences in the space below.

Please write an essay of 250 – 500 words on a topic of your choice or on one of the options listed below, and attach it to your application before submission. **Please indicate your topic by checking the appropriate box.** This personal essay helps us become acquainted with you as a person and student, apart from courses, grades, test scores, and other objective data. It will also demonstrate your ability to organize your thoughts and express yourself. *NOTE: Your Common Application essay should be the same for all colleges. Do not customize it in any way for individual colleges. Colleges that want customized essay responses will ask for them on a supplement form.*

- 1 Evaluate a significant experience, achievement, risk you have taken, or ethical dilemma you have faced and its impact on you.
- 2 Discuss some issue of personal, local, national, or international concern and its importance to you.
- 3 Indicate a person who has had a significant influence on you, and describe that influence.
- 4 Describe a character in fiction, a historical figure, or a creative work (as in art, music, science, etc.) that has had an influence on you, and explain that influence.
- 5 A range of academic interests, personal perspectives, and life experiences adds much to the educational mix. Given your personal background, describe an experience that illustrates what you would bring to the diversity in a college community or an encounter that demonstrated the importance of diversity to you.
- 6 Topic of your choice.

Additional Information Please attach a separate sheet if you wish to provide details of circumstances or qualifications not reflected in the application.

Disciplinary History

- ① Have you ever been found responsible for a disciplinary violation at any educational institution you have attended from the 9th grade (or the international equivalent) forward, whether related to academic misconduct or behavioral misconduct, that resulted in a disciplinary action? These actions could include, but are not limited to: probation, suspension, removal, dismissal, or expulsion from the institution. Yes No
- ② Have you ever been adjudicated guilty or convicted of a misdemeanor, felony, or other crime? Yes No
 [Note that you are not required to answer “yes” to this question, or provide an explanation, if the criminal adjudication or conviction has been expunged, sealed, annulled, pardoned, destroyed, erased, impounded, or otherwise ordered by a court to be kept confidential.]

If you answered “yes” to either or both questions, please attach a separate sheet of paper that gives the approximate date of each incident, explains the circumstances, and reflects on what you learned from the experience.

Note: Applicants are expected to immediately notify the institutions to which they are applying should there be any changes to the information requested in this application, including disciplinary history.

SIGNATURE

Application Fee Payment If this college requires an application fee, how will you be paying it?

- Online Payment Will Mail Payment Online Fee Waiver Request Will Mail Fee Waiver Request

Required Signature

- I certify that all information submitted in the admission process—including the application, the personal essay, any supplements, and any other supporting materials—is my own work, factually true, and honestly presented, and that these documents will become the property of the institutions to which I am applying and will not be returned to me. I understand that I may be subject to a range of possible disciplinary actions, including admission revocation, expulsion, or revocation of course credit, grades, and degree, should the information I have certified be false.
- I acknowledge that I have reviewed the application instructions for each college receiving this application. I understand that all offers of admission are conditional, pending receipt of final transcripts showing work comparable in quality to that upon which the offer was based, as well as honorable dismissal from the school.
- I affirm that I will send an enrollment deposit (or equivalent) to only one institution; sending multiple deposits (or equivalent) may result in the withdrawal of my admission offers from all institutions. [Note: students may send an enrollment deposit (or equivalent) to a second institution where they have been admitted from the waitlist, provided that they inform the first institution that they will no longer be enrolling.]

Signature  _____ Date _____
mm/dd/yyyy

Common Application member institution admission offices do not discriminate on the basis of race, color, ethnicity, national origin, religion, creed, sex, age, marital status, parental status, physical disability, learning disability, political affiliation, veteran status, or sexual orientation.

student@comcast.net

ACADEMIC PROFILE

High School: Attended Windsor High School from 09/2004 – 06/2008
Address, City, and State

Curriculum: Enrolled in Honors/AP courses throughout high school

GPA: Attained a 4.114 accumulative grade point average through six semesters

Class Rank: Ranked 16th in a class of 382 students

SAT I Scores: Critical Reading - 710; Math - 650; Writing - 610 (Essay 10/12)

SAT II Scores: To be taken

IN-SCHOOL ACTIVITIES

Class Council - Grades 9, 10, 11, and 12. Class Council is a student-elected organization that is responsible for all class fundraising, class spirit events, and class charitable donations. Organized and led many successful events each year including dances, homecoming projects, and a talent show DVD.

Elected President of the Class of 2006 – Grades 9, 10, 11, and 12.

Time Commitment: 2 hours per week for entire school year

Student Council - Grades 9, 10, 11, and 12. Student Council is a school-wide student government elected by the student population. The council sponsors numerous special activities and events such as blood drives, teacher appreciation days, t-shirt sales, and the Rock for Relief fundraiser (further explanation under volunteer services). Was an active member on the council each year and served on the student body feedback and homecoming committees.

Time Commitment: 1 hour per week for entire school year

National Honor Society (NHS) - Grades 11 and 12. Selected by the faculty for membership in NHS in my junior year, which is the first year students at Windsor High School may be eligible for nomination to this academic honor society. Selection is based on high academic achievement, strong extracurricular involvement, and leadership within the school and community. NHS met twice monthly, and participation included several service projects.

Time Commitment: 1 hour every 2 weeks for entire school year

Band - Grade 9. The Windsor High School Band performs at many functions including sports events, concerts, parades, and competitions. Was a member of the percussion section and performed on the full drum set.

Time Commitment: 1 hour every day for entire school year

Letters of Recommendation

When requesting a letter of recommendation, follow these helpful hints:

- Plan ahead to meet your timeline. Allow seven to ten days for the completion of your letter. This person may have other letters to write ahead of yours. Do not request last-minute recommendations.
- Ask a teacher, counselor, administrator, employer, scout master, group advisor, or clergy man/woman who knows you well and can recommend you positively.
- Personally request your letters of recommendation and give that person a copy of your resumé. However, ask the individual to personalize the recommendation as much as possible.
- If the letter needs to emphasize a special accomplishment or skill such as leadership, community service, or music, indicate the emphasis to the person writing the recommendation.
- In most cases, have the person return the letter to you or the college counselor in your high school. If it should be sent directly to the school, be sure to provide a stamped and addressed envelope. Do not include a return address on the provided envelope.
- Do not photocopy letters of recommendation. Current date, most recent academic data, and an original signature should be included in the recommendation.
- Send typed or hand written thank you notes to the individuals who wrote your recommendations, thanking them for their time and effort.

College/Scholarship Essays

Too often the essay simply puts into prose what already has been stated in the application: a list of a student's activities in sentence form. But, what you say in your essay, and how you say it, can have a significant impact on your admission decision.

- Your essay is one chance to give admissions officers a real look at your personality and academic potential.
- You have the control to show them who you really are, so do not be afraid to do so.
- Admissions officers read thousands of application essays every year. With a great essay, you can become an extraordinary applicant in a sea of ordinary applicants. There is no better way to get noticed as a unique applicant than with a unique essay.
- There are many helpful online resources that are designed to assist you in writing admission and scholarship essays. Be sure to use only free resources, and, when in doubt, check with your high school counselor or the admissions or financial aid office at your college of choice.

Here are some tips to use when writing your college essay.

Where to Begin

- Plan ahead.
- Choose wisely if more than one topic.
- Organize your thoughts.
- Be unique. Be yourself!

After You Have Written It

- Let it sit for a day or two.
- Proofread.
- Get feedback from others.
- Check for content. Did you tell them about yourself?
- Proofread again.

42 The Interview

Not every school gives interviews, but if possible, it is highly recommended. Before you get to this point in the application process, most of what you have done is on paper. This will be your first “live” contribution to the process. Typical interview questions asked by an admissions counselor might be:

- Why are you considering this college?
- What do you want to get out of your college experience?
- What is your planned major? Why?
- What do you plan to be doing ten years from now?
- What did you like or dislike about your high school?
- If you were the principal of your high school, what would you change?
- What would you like to tell us about yourself?
- Do you have any heroes, contemporary or historical?
- What events have been significant in your life?
- What is the most significant contribution you have made to your school or community?
- What was the most important thing you learned in high school?
- What books outside of your required course reading have you read recently?
- Tell us about your family.
- What are your strengths and weaknesses?

Interviewing Tips

Before the Interview

- Call to make an appointment.
- Research the school you are applying to.
- Take a tour of the campus, preferably before the interview.
- Practice answering sample questions.
- Dress appropriately and professionally.
- Arrive early for the interview.
- Try to arrange interviews so your “first-choice college” is last. This will give you experience before that interview.

During the Interview

- Look alive! Be energetic! Be yourself!
- Maintain eye contact.
- Listen carefully.
- Answer each question briefly and specifically.
- Ask questions which reveal the research you have done.
- Be positive.

After the Interview

- Send a thank you note.

NEVADA COLLEGE AND UNIVERSITY INFORMATION

Community and Two-Year Colleges

The Nevada System of Higher Education (NSHE) has four well-regarded two-year colleges. These schools offer low tuition, substantial career preparation, and the chance to combine part-time work with education. Students can earn certificates or associate degrees.

Certificate Programs

Certificates, not degrees, are awarded for completed work in such fields as air conditioning, banking, automotive technology, office administration, child care, and many other areas. Most certificate programs take at least one year to complete, and are similar to programs that trade and technical schools offer.

Two-Year Associate Degrees — Terminal and Transfer

- A terminal degree is a two-year associate degree that is not transferable to a four-year institution. A “terminal” program is designed to make a person “job ready” for a specific occupation. Terminal degrees are available in such fields as business management, electronic engineering technology, graphic technology, and many other areas.
- A transfer degree is a two-year associate degree that is transferable to a four-year institution. After graduation with a two-year associate degree, students can transfer to a four-year institution and receive a bachelor’s degree after two or three additional years of study. It is essential that careful research into the requirements of the four-year institution be completed so that transfer of credits will occur.

Be sure to research the specific admission requirements for each community college because admissions requirements vary from school to school.

College of Southern Nevada

Website: www.csn.edu

Phone: (702) 650-2276

Location: Cheyenne, West Charleston & Henderson Campuses in Las Vegas
The College of Southern Nevada offers two-year associate degrees, one-year certificates of achievement in more than 200 career fields, university transfer preparation, and skill training to secure employment or professional development.

44 Great Basin College

Website: www.gbcnv.edu

Phone: (775) 738-8493

Location: Elko

Great Basin College serves five counties in northeastern Nevada, featuring select bachelor's degrees, two-year associate degrees, and one-year certificates of achievement.

Truckee Meadows Community College

Website: www.tmcc.edu

Phone: (775) 673-7000

Location: Reno

Truckee Meadows Community College(TMCC) is a comprehensive community college located in Reno. With five college sites and more than 20 community locations, TMCC serves more than 20,000 students each year in state-supported programs and another 12,000 students in non-credit workforce development classes.

Western Nevada College

Website: www.wnc.edu

Phone: (775) 445-3000

Location: Carson City

Western Nevada College offers more than 50 associate degrees or certificate of achievement programs.

Universities and Four-Year Colleges

Nevada has four primary four-year colleges and universities. Four-year institutions usually offer two years of general education in core courses such as English, math, and science, after which students spend the next two or more years specializing in courses related to a major field of study.

Nevada State College

Website: www.nsc.nevada.edu

Phone: (702) 992-2000

Location: Henderson

Nevada State College, the newest four-year college within the Nevada System of Higher Education, offers bachelor's degrees in business, education, nursing, visual media and computing, biology, environmental science, psychology, English, history, law enforcement, and more.

Sierra Nevada College

Website: www.sierranevada.edu

Phone: (866) 412-4636 (toll-free)

Location: Incline Village (Lake Tahoe)

Sierra Nevada College is Nevada's only private four-year liberal arts college. The college has programs in environmental science, entrepreneurship, computer science/entertainment technology, management, humanities, social sciences, and fine arts. The college also offers a Master of Arts in teaching degree.

University of Nevada, Las Vegas

Website: www.unlv.edu

Phone: (702) 774-UNLV(8658) or (702) 895-3011

Location: Las Vegas

The University of Nevada, Las Vegas (UNLV), founded in 1957, is an institution of approximately 27,000 students and nearly 2,900 faculty and staff located on the southern tip of Nevada and just minutes from the Las Vegas Strip. Classified by the Carnegie Foundation for the Advancement of Teaching as a research university with high research activity, UNLV offers more than 200 undergraduate, graduate and doctoral degree programs including innovative academic degrees in such fields as gaming management, entrepreneurship, entertainment engineering and much more. Las Vegas offers students a "living laboratory" for research, internships, and a wide variety of job opportunities. UNLV is dedicated to developing and supporting the human capital, regional infrastructure, and economic diversification that Nevada needs for a sustainable future.

University of Nevada, Reno

Website: www.unr.edu

Phone: (866) 2-NEVADA(263-8232) or (775) 784-4700

Location: Reno

Established in 1874, the University of Nevada, Reno (UNR) is the oldest institution of higher education in Nevada and offers more than 70 undergraduate majors and 150 academic programs. At the university, undergraduate students have the opportunity to participate in a diverse range of research projects, working closely with faculty mentors. With more than \$80 million in research funding, UNR is the leading research facility in Nevada's higher-education system. Students can get involved with more than 150 clubs and organizations, sororities, fraternities, and the study abroad program. Eight residence halls offer a variety of living options, including living learning communities. Aside from receiving an extraordinary education, UNR offers numerous opportunities for financial aid and scholarships. All entering students admitted with qualifying GPAs and test scores (ACT/SAT) are automatically considered for scholarships. Colleges, departments, and other student government and activity programs also offer a wide range of scholarship opportunities to qualified applicants.

PAYING FOR COLLEGE

Overview of Financial Aid

There are four basic types of financial aid: grants, employment programs, loans, and scholarships. The first two types are need-based financial aid. Scholarships and loans may or may not be need-based. To be eligible for federal student aid, a student must:

- be a U.S. citizen or an eligible non-citizen.
- be enrolled, or accepted for enrollment, in a degree or certificate program at a college, occupational, or career school approved by the U.S. Department of Education.
- have a high school diploma or GED.
- have a valid social security number.
- register with the U.S. Selective Service if required to do so.

Tips for Navigating the Financial Aid Process

1. Check college catalog(s), Internet sites, and scholarship bulletins from the college or university to which you are applying.
2. Meet all required deadlines. Start a calendar for college and scholarship applications with deadlines and due dates.
3. Read your local school's scholarship bulletin and ask the college counselor for more information and application forms. There are also many free online sources designed to help you locate scholarship opportunities. You should also use those services recommended on your future college's website.
4. Print or type your application, attach the required information, such as your transcript, letters of recommendations, essays, and so forth.
5. Make electronic or paper copies of your completed applications, transcripts, and letters. Place them in a file or envelope. This will help you with future applications.
6. Submit your financial aid application (FAFSA) as soon as possible after January 1st. Do not wait until the deadline because funds are limited. Be sure to list your college(s) of choice on your FAFSA so that they receive an electronic copy of your Student Aid Report (SAR).
7. Contact a financial aid officer at one of the local colleges if you need additional information and assistance with your financial aid application.
8. For more information on key financial aid terms, please refer to the "College and Financial Aid Glossary" on page 87 of this guide.

Did You Know?

- 63 percent of all college students pursuing bachelor's degrees receive some sort of financial aid.
- 45 percent of public college students and 56 percent of private college students take out educational loans.

48 The FAFSA

The Free Application for Federal Student Aid (FAFSA) is used to determine your eligibility for financial aid and is absolutely necessary if you are seeking scholarships and financial aid from any college or university. The financial aid office of your college will not consider you eligible for any other awards unless you submit a FAFSA.

The FAFSA is available in December of your senior year of high school at www.fafsa.ed.gov, or through your college counselor's office. Application processing typically begins in January and the deadline to complete the FAFSA is usually the first week of March. Students should aim to submit their FAFSA well before the March deadline.

Financial aid is awarded on a first-come, first-serve basis. Therefore, it is critical to file early during your senior year, or you could jeopardize your eligibility for financial aid. Each year a limited amount of federal funding is available, and when these funds have been awarded, and thus depleted, funding will not be available again until the next year.

If you do not have exact information on your family's income available by the deadline, you should submit a FAFSA using estimates. Meet the deadline rather than wait until all tax return data is available. When you file your application using estimates, you will later be asked to send copies of the actual income tax returns.

After you submit your FAFSA, the Department of Education will use a standard formula with the financial information you provided and produce a "Student Aid Report" (SAR) with your family's expected contribution (EFC). You will receive a copy of your SAR and will have the opportunity to make corrections within a certain time period.

Once you are admitted to a college, career, or vocational school, the financial aid officer at the given school is the primary source of information regarding the financial aid package, which can consist of grants, loans, work study, and scholarships. You should contact the financial aid officer for assistance. Unless there is a drastic change in your family finances, the family contribution and student expected contribution will not change from year to year.

You will need the following information to complete your FAFSA form:

- Your Social Security number.
- Your parents' Social Security numbers if you are providing parent information. If you are not sure if you need your parents' information on the FAFSA, see "Am I Dependent or Independent?" at www.FederalStudentAid.ed.gov/pubs, or call (800) 4-FED-AID (800-433-3243).
- Your driver's license number if you have one.
- Your Alien Registration Number if you are not a U.S. citizen.

- Your federal tax information or tax returns, including IRS W-2 information, for yourself, your spouse if you are married, and your parents if you are providing parent information. If you have not yet filed an income tax return, complete and submit the FAFSA using estimated tax information.
- Income records for the year prior to the academic year for which you are applying. For instance, if you are filling out the 2012–13 FAFSA, you will need 2011 tax information.
- Records of your untaxed income, such as Social Security benefits, Temporary Assistance for Needy Families (TANF) or Veterans benefits, for yourself and your parents if you are providing parent information.
- Information on savings, investments, business and farm assets for yourself and your parents if you are providing parent information.
- A Federal Student Aid PIN (personal identification number) is required to visit certain U.S. Department of Education websites. If you plan to complete the FAFSA online at www.fafsa.ed.gov, it is a good idea for you to apply for a PIN at least three days before filling out the application. If you need to provide information about your parents on the FAFSA, one of your parents should get a PIN as well. You may also apply for a PIN at the time you file your FAFSA, but applying in advance can help avoid delays in the processing of your application. You and your parents can apply for PINs at www.pin.ed.gov.

For more information about federal student aid, see www.FederalStudentAid.ed.gov, or call the Federal Student Aid Information Center at (800) 4-FED-AID (800-433-3243). TTY: (800) 730-8913. Toll number for students calling from foreign countries: +1-319-337-5665.

What is “Need?”

Since financial aid is based on the concept of need, it is important that you understand the definition of “need.” Need is the difference between the total cost of attendance at the school of your choice and your family contribution, plus any aid you will receive from private sources. Need is determined by analysis of the data on your FAFSA form.

Financial Aid Package

If you qualify, you will receive a financial aid package from the college or university offering a combination of grants, loans, college work study, and scholarships based on the information you provided on your FAFSA form. The financial aid package will usually contain sufficient funds to meet your determined need. Included will be a listing of dollar amounts awarded for each category.

After receiving the package offer, you may decide to accept or reject money in *each* category. Usually a decision to accept or reject must be made within 10 days. The financial aid package normally begins arriving by mail after April 1 of your senior year; final decisions must be made (usually) by early

May. Scholarships awarded by local donors may decrease your total need as determined by the FAFSA analysis. The dollar amount of the local scholarship will normally be deducted from your financial aid package.

Myths about Financial Aid

Many students think they are not eligible for financial aid and fail to complete the FAFSA form. Here are some myths about financial aid and reasons why everyone should complete the FAFSA:

“...my parents make too much money, so I won’t qualify for aid.”

Reality: There is no income cut-off to qualify for federal student aid. Many factors besides income—from the size of your family to the age of your older parent—are taken into account. Your eligibility is determined by a mathematical formula, not by your parents’ income alone. And remember: when you fill out the FAFSA, you’re also automatically applying for funds from your state, and possibly from your school as well. Don’t make assumptions about what you’ll get—fill out the application and find out.

“...only students with good grades get financial aid.”

Reality: While a high grade point average will help a student get into a good school and may help with academic scholarships, most of the federal student aid programs do not take a student’s grades into consideration. Provided a student maintains satisfactory academic progress in his or her program of study, federal student aid will help a student with an average academic record complete his or her education.

“...you have to be a minority to get financial aid.”

Reality: Funds from federal student aid programs are awarded on the basis of financial need, not on the basis of race. The FAFSA doesn’t collect this kind of information about an applicant.

“...the form is too hard to fill out.”

Reality: The FAFSA is easier than ever, especially if you fill it out online at www.fafsa.ed.gov. There are detailed instructions for every question, and the form walks you through step-by-step, asking only the questions that apply to you. If you need help, you can access a real-time, private online chat with a customer service representative. If you’re filling out the paper FAFSA, you can get help from a high school counselor, from the financial aid office at the school you plan to attend, or from the Federal Student Aid Information Center’s toll-free number: (800) 4-FED-AID, (800-433-3243). Remember, the FAFSA and all these sources of advice are FREE.

Student Aid and Identity Theft

How does identity theft happen? Criminals use their access to personal data such as names, telephone numbers, Social Security numbers, and bank and credit card information to fraudulently obtain credit cards, buy items over the Internet, and even establish cellular phone accounts. Complaints to the Federal Trade Commission about identity theft have increased greatly each year since the Commission began compiling its complaint database.

You can reduce your risk of identity theft by making sure you:

- Apply for federal student aid by filling out the FAFSA at www.fafsa.ed.gov.
- Exit the application and close the browser after completing the FAFSA electronically.
- Keep your Federal Student Aid PIN in a secure place. (Get your PIN at www.pin.ed.gov.) Do not reveal your PIN to anyone, even if that person is helping you fill out the FAFSA.
- Shred receipts and copies of documents with personal information when they are no longer needed.

If you become a victim of identity theft or suspect that your information has been stolen, contact the U.S. Department of Education Office of Inspector General Hotline at (800) MIS-USED (800-647-8733) or online at www.ed.gov/misused.

You can also contact the Federal Trade Commission at (877) ID-THEFT (877-438-4338) or online at www.ftc.gov/bcp/edu/microsites/idtheft; and the Social Security Administration at (800) 269-0271 or www.ssa.gov/pubs/10064.html.

The following credit agencies should also be contacted should you become a victim of identity theft:

- Equifax Credit Bureau: (800) 525-6285; www.equifax.com
- Experian Information Solutions: (888) 397-3742; www.experian.com
- TransUnion Credit Bureau: (800) 680-7289; www.transunion.com

Avoiding Financial Aid Scams

Financial aid scams are a hot topic these days. You should be aware of the tactics companies use to convince students to buy their services. Here are some of the most common claims students are hearing:

“If you use our services, you’re guaranteed to get at least \$2,000 in student aid for college, or we’ll give you your money back.”

This claim doesn’t mean anything. Most students are eligible for at least \$3,500 in unsubsidized student loans anyway—and because a student loan is considered student aid, you won’t be able to ask for a refund if that’s all

you're offered. No one can guarantee to get you a grant or scholarship. Refund guarantees often have conditions or strings attached. Get refund policies in writing.

“Applying for aid is complicated. We’re the only ones who can help you through the process and find all the aid for which you’re eligible.”

Unlikely. There are many places to get free help applying for student aid. Check with your school counselor or college financial aid office for help filling out the FAFSA. Your school or college also can help you find scholarships. And be sure to try the free scholarship search at www.FederalStudentAid.ed.gov.

“I’d like to offer you a scholarship [or grant]. All I need is your bank account information so the money can be deposited and a processing fee charged.”

Watch out! It’s extremely rare for a legitimate organization to charge a processing fee for a scholarship. Some criminals imitate legitimate foundations, federal agencies, and corporations. They might even have official-sounding names to fool students. Don’t give anyone your bank account or credit card information or your Social Security number (SSN) unless you initiated the contact and trust the company. Such personal identification information could be used to commit identity theft.

If you’ve been contacted by someone claiming to be from the U.S. Department of Education and asking for your SSN or bank account information, do not provide it. Instead, immediately contact the agencies listed below.

U.S. Department of Education Office of Inspector General Fraud Hotline at oig.hotline@ed.gov or www.ed.gov/misused or call (800) MIS-USED (800-647-8733).

Federal Trade Commission at www.ftc.gov/scholarshipcams or (877) FTC-HELP (877-382-4357). TTY for the hearing impaired: 866-653-4261.

“I’ve seen advertisements for degree or training programs and financing opportunities on television and online, are these programs worth it?”

While the vast majority of colleges and universities are wholly dedicated to providing their students with a world-class education and a valid degree, unfortunately, there are a small number of private institutions and lenders that knowingly provide substandard education and loans to cash-strapped students. Prior to applying to an institution, be sure to collect as much information as possible regarding average student debt, retention and graduation rates, and employment after graduation.

If you are considering a private student loan, first be sure you have looked into all federal loan options, then contact the appropriate state agency which oversees private loan lenders. The Consumer Financial Protection

Bureau provides information on private lenders, student complaints, and predatory practices by lenders, which can be accessed at www.consumerfinance.gov/ombudsman.

Important Contact Information

To obtain general information about federal student financial assistance programs, assistance in completing the FAFSA form, and to request federal student aid publications, call: (800) 4-FED-AID (800-433-3243); TTY number for hearing impaired individuals to call with any federal student aid questions: (800) 730-8913. For general information and technical assistance with the FAFSA website, call: (800) 801-0576.

- FAFSA on the Web and Federal School Codes: www.fafsa.ed.gov
- Student Aid Home Page: www.studentaid.ed.gov
- The Guide to Federal Student Aid: www.studentaid.ed.gov/guide

Grants

Grants are direct awards of money that do not require repayment. They are based entirely on need as determined by analysis on the FAFSA.

Pell Grants

Pell Grants are federal awards to help undergraduates with their educational expenses and are the foundation of student aid and the basis to determine eligibility for many other types of financial aid. To apply, you must file a FAFSA and be enrolled at least half time.

Federal Supplemental Opportunity Grants (SEOG)

Unlike Pell Grants, SEOG grants are campus-based programs to help students with exceptional financial need pay for undergraduate study. Priority is given to those students who are eligible for a Pell Grant. SEOG monies do not have to be paid back, and range from \$100 - \$4,000 per year. SEOG grants are administered by the financial aid office of the college with funds received from the federal government. These awards are based on need and the availability of funds; therefore, it is wise to apply early.

College Savings Plans

A 529 college savings plans plan is a tax-advantaged savings plan designed to encourage saving for future college costs. 529 plans, legally known as “qualified tuition plans,” are sponsored by states, state agencies, or educational institutions and are authorized by Section 529 of the Internal Revenue Code. There are two types of 529 plans: pre-paid tuition plans and college savings plans. All fifty states and the District of Columbia sponsor at least one type of 529 plan.

The State of Nevada offers a variety of 529 college savings plan options, including a pre-paid tuition program. For more information about the plans, visit the Nevada State Treasurer's Office at www.nevadatreasurer.gov/CollegeSavings.htm.

Nevada families may also be eligible for the Silver State Matching Grant program, which provides a matching grant to help increase your college savings plan. For more information, visit <https://uii.s.upromise.com/content/match.html> or call (800) 587-7305

Loans and Work Study

Loans are another type of need-based aid. Like grants, loans are based on need and the availability of funds. However unlike grants, the money must be repaid.

Who is eligible to take out federal student loans?

Any U.S. citizen or eligible non-citizen enrolled in a degree, certificate, or other approved program at an eligible institution may take out a federal student loan. You must also have a high school degree or pass a test approved by the U.S. Department of Education, and submit a FAFSA form.

What kinds of federal loans are available?

Direct Stafford Loans

Direct Stafford Loans are low-interest loans for eligible undergraduate or graduate students to help cover the cost of higher education at a four-year college or university, community college, or trade, career, or technical school. Eligible students borrow directly from the U.S. Department of Education and must repay these loans when they graduate. There are two types of Direct Stafford Loans:

- **Subsidized Stafford Loans**

Subsidized Stafford Loans are available for undergraduate students with financial need. Your school will review your FAFSA and determine the amount you can borrow. You will not be charged any interest before you begin repayment. This includes while you are in school at least half-time and during grace and deferment periods. The interest rate is calculated and fixed annually

- **Unsubsidized Stafford Loans**

Unsubsidized Stafford Loans are available for both graduate and undergraduate students and do not require students to demonstrate financial need. Like subsidized loans, your school will determine the amount you can borrow. You are responsible for paying interest on the loan, starting from the date the loan is first disbursed. The interest rate is calculated and fixed annually

Direct PLUS Loans

PLUS Loans are for parents of dependent students or graduate or professional students enrolled at least half-time. These loans are not based on financial need and are used to pay educational expenses. Parents must pass a credit check. The yearly limit on a PLUS loan is equal to the cost of your attendance minus any other financial aid you receive. Repayment of these loans begins 60 days after the final loan disbursement of the academic year. Parents are responsible for repaying their PLUS loan, even if their child does not complete his or her education. The interest rates for PLUS loans are calculated and fixed annually.

Perkins Loans

Perkins Loans are low-interest loans for undergraduate and graduate students with significant financial need. The school serves as the lender using funds provided by the federal government and students must repay this loan to the school. Interest rates are fixed at 5%. You are charged no interest while you are in school or during the 9-month grace period following graduation, and may be allowed up to 10 years to repay the loan.

How does loan repayment work?

You will have several options for repaying your loans. The amount you pay and the repayment period will vary depending on the repayment plan you choose. Generally, you will have between 10 and 25 years to repay the loans. In addition, the date to begin repayment depends on the loan you choose. You may also be eligible to participate in the loan consolidation, Income-Based Repayment, or loan forgiveness programs (see page 55).

What is loan consolidation?

Loan consolidation allows a borrower to consolidate multiple federal student loans into one loan, resulting in a single monthly payment. Most federal loans are eligible for consolidation, but make sure to carefully consider whether loan consolidation is the best option for you. Visit the U.S. Department of Education's loan consolidation website www.loanconsolidation.ed.gov for more information.

What is Income-Based Repayment?

Income-Based Repayment (IBR) is a repayment plan for Direct Stafford or PLUS loans that caps your required monthly payment at 15% of your monthly income to help make loan payments more manageable. In addition, under IBR, loans can be forgiven after 25 years of making payments. Starting in 2014, borrowers will be able to cap their loan payments at 10% of their discretionary income and have their loans forgiven after 20 years of making payments. Visit the U.S. Department of Education's website at www.studentaid.ed.gov to determine your eligibility and learn more.

What is Pay As You Earn?

In December 2012, the Obama Administration announced that almost two million college graduates with Direct Stafford, Direct PLUS and Direct

Consolidated Loans would be eligible to participate in the Pay As You Earn program. The Pay As You Earn plan allows you to adjust your payments each year according to income and family size change, capping payments at 10% of your monthly income. Additionally, loans may be forgiven after 20 years of making qualifying payments. To find out if you qualify for this repayment program, please visit the U.S. Department of Education's Pay As You Earn calculator at www.studentaid.ed.gov/repay-loans/understand/plans/pay-as-you-earn/calculator.

What is loan forgiveness?

The Public Service Loan Forgiveness Program allows balances on Direct Stafford or PLUS loans to be forgiven after 10 years of repayment if you are employed in certain public service professions. These fields include public education, law enforcement, public health, or military service. In addition, public school teachers serving in a low-income school or teaching high-need subjects may be eligible to have a portion of their loan forgiven. To learn more, visit the U.S. Department of Education's website at www.studentaid.ed.gov.

Federal Work Study (FWS)

Work study is a campus-based program that provides employment enabling students to earn money for school with the amount of the award based on need and availability of funds. Since FWS is based on availability of federal government funds, be smart and apply early. Both on campus and off campus jobs are included in the program. Off-campus usually means employment with a private or non-profit organization, or a local, state, or federal agency. Wages will be at least the current federal minimum wage, but may be higher, depending on the skills required. The financial aid office determines the amount each student can earn in a given year. The money earned does not have to be paid back.

Basic Loan Terms

Loans: Funds that must be paid back, typically with interest. Federally-guaranteed student loans allow students to borrow funds for the cost of higher education at a reduced rate. Interest can usually be deferred while a student is in school. Private loans are offered by private lenders with different terms and conditions.

Principal: The full amount borrowed. During repayment, it refers to the portion of the original amount still owed (not including interest).

Interest: An annual charge for borrowing money, expressed as a percentage of the loan balance. Interest rates are either variable (the rate can change) or fixed (the rate will not change).

Annual Percentage Rate (APR): The overall cost of borrowing money, expressed as an annual percentage of the loan balance. The APR combines the interest rate with the loan fees and also includes the effects of compounding.

Loan Fees: One-time charges to originate or guarantee a loan, expressed as a percentage of the loan balance.

Grace Period: Waiting period after graduation or withdrawal from school and before repayment begins.

Deferment: A delay of repayment due to difficult circumstances, such as military service and unemployment.

Forbearance: Temporary delay of repayments. Interest still accumulates during forbearance.

Delinquent: When at least one loan payment is late or missed. Serious delinquency may result in default.

Default: Failure to repay your loan. Default may lead to legal action to recover the money and can affect your credit rating.

Where to go for more information?

If you have additional questions about federal student loans, call 1-800-4FED-AID (1-800-433-3243).

Scholarships

Scholarships are awards of money granted on the basis of student achievement that do not need to be repaid. Typically, scholarship selection is based on academic excellence (GPA and standardized test scores), special talents (athletic, music, drama, etc.), leadership (class offices, student body offices, committee chairmanships), community service (scouting, volunteering), financial need, and written or oral communication.

Major sources of scholarship money include postsecondary schools, the military, professional, business, fraternal, religious, civic, and union organizations as well as individual donors. The largest awards of scholarship money come from the individual colleges and universities. To apply to out-of-state schools, contact the financial aid office of each school for individual applications and additional information. You should visit your high school counselor for application information for UNLV, UNR, NSC, CSN or other Nevada institutions of higher education scholarships.

There are many scholarships available from local donors. The amounts typically range from one hundred to several thousand dollars. Many of the scholarship applications are available through your local high school college counselor. It is the responsibility of each student to request, complete, and submit scholarship applications in a timely fashion.

Other sources of scholarships may be obtained through research in school libraries, school career centers, the public libraries, or through browsing the Internet. You will generally find that your research, using these sources, will be just as effective as that conducted by a scholarship search service, which charges a fee for its assistance. Parents should consult their place of employment, credit union, union affiliations, and churches for additional scholarship sources.

58 Scholarship Application Process

You must always adhere to the specific directions set by the individual donor for all applications. The guidelines below should be followed for all applications:

- Read the application for requirements and eligibility.
- Allow sufficient time to complete an application so that it looks professional.
- Always type the application unless instructions specify “handwritten.”
- Allow adequate time for teachers, counselors, and employers to write letters of recommendation.
- Edit all information for correct grammar and punctuation.
- Organize materials in the order specified.
- Enclose scholarship materials in a folder with a school cover page, if appropriate.
- If required, return scholarship applications to your counselor by the school due date.
- If you are awarded a scholarship, it is common courtesy to write a thank you note to the donor.

Millennium Scholarships

This scholarship awards Nevada high school graduates, who have successfully completed a rigorous program of study at a Nevada high school, with a scholarship towards the cost of attendance at any of the Nevada System of Higher Education’s colleges and universities.

For information on Millennium Scholarship requirements, visit www.nevadatreasurer.gov/documents/millennium/Doc-Factsheet.pdf.

Scholarships from Local, State, and National Organizations

Many local and national scholarships are available to Nevada students through the local high school counselor’s office. Each school year, new scholarships are available, while others may not be offered. It is the *student’s responsibility* to check bulletin boards, listen to announcements, read scholarship bulletins, and pursue individual research to find out about scholarships, including requirements and application deadlines.

Individual School or Area Scholarships

Individual high schools and some businesses in a particular school area might offer additional awards not listed in this booklet. Check the school’s individual scholarship bulletin for a listing of these school-specific awards.

Clark County Public Education Foundation

The Clark County Public Education Foundation facilitates numerous local scholarships. For information on these scholarships, visit the website at www.thepef.org/programs_scholarships.html.

National Scholarships

There are hundreds of scholarships available at the national level. However, it is important to be aware of several factors when applying for national monies:

- The competition for these scholarships is much greater, as you are competing with students from all fifty states, rather than with students only from Nevada.
- Both school and local libraries contain reference information for use when searching for scholarships. Bookstores offer volumes of books on how to win or obtain money for college. Some of these resources are more reliable and accurate than others due to their extensive research base (i.e., Princeton Review, College Board, Barron's).
- Be wary of mailings from profit-making companies that promise to find scholarships for a fee.
- Students are encouraged to carefully read the eligibility requirements for all scholarships. Check weekly scholarship bulletins for deadline dates, and remember, there are many more sources than those listed here.

Truckee Meadows Community College Foundation

The Truckee Meadows Community College Foundation awards more than 100 scholarships each year to current and prospective students. Scholarship awards are based on many factors: scholastic merit, college and community service, life circumstances, financial need and major field of study. Scholarship awards may vary in amount, but can range up to \$1,000 or more per academic year.

To apply for scholarships, students use one application; there is no need to apply for a specific scholarship. Student profiles are matched with appropriate scholarship funds and criteria. For more information or to apply, please go to www.scholarships.tmcc.edu.

NEVADA SCHOLARSHIPS

— A —

Alpha Delta Kappa Educator Scholarship

(Clark County)

Sponsor: Alpha Chapter-Alpha Delta Kappa

Number Awarded: 1

Amount: \$500

Eligibility: High school female senior, who is interested in majoring in education at an accredited college or university. One-page essay on why you want to become a teacher. Three letters of recommendation. Transcript. Test scores. Use the CCSD Scholarship application at ccsd.net/resources/guidance-counseling/student-scholarship-information-9-20-13.pdf.

The Adelson Family Scholarship

(Clark County)

Sponsor: Sheldon & Dr. Miriam Adelson

Number Awarded: 3

Amount: \$2,500

Eligibility: Senior. Dependent of Venetian Resort-Hotel-Casino employee. 3.5 GPA. Transcript. SAT/ACT test scores. Resume. Must demonstrate need for financial aid. Two letters of recommendation. Typed 400- to 500-word essay explaining your career goals and aspirations. For information and application, go to www.thepef.org/scholarships.xml.

COLLEGE AND FINANCIAL AID GLOSSARY

COLLEGE AND FINANCIAL AID GLOSSARY

Associate of Applied Science Degree (AS): A two-year, non-transferrable degree from a community college.

Associate of Arts Degree (AA): A two-year community college degree, generally applied to a four-year bachelor's degree.

Academic Calendar: Breaks the school year into one of the following:

Semester: Two terms of 17–18 weeks

Quarters: Three terms of 11 weeks (fourth term optional)

Trimester: Two terms of 15 weeks (third term optional)

Accreditation: The recognition by an outside agency that a school maintains high standards that enable students to qualify for admission to other accredited institutions.

ACT (American College Test): A four-year college admission test covering English, reading, science reasoning, and mathematics.

Admission Requirements: A set of rules, established by each college, by which a student is accepted.

AP (Advanced Placement): A system by which college freshmen may bypass entry-level courses by proving that they have already taken the equivalent in high school. College credit may be awarded if a student earns a certain grade on a specially designed College Board exam at the conclusion of an AP course. Whether college credit is granted or entry-level courses are bypassed is a determination made by each individual college/university.

Advanced Standing: Refers to a student who has completed more than 12 college credits.

Audit: To attend a class for the purpose of reviewing the information. No tests, grades, or credits are given.

Award Letter: A letter sent by a college/university notifying the student of the financial package he or she are being offered. Students have the opportunity to accept or decline all or part of the offer.

Bachelor's Degree (BS or BA): A four-year college degree.

Campus Based Programs: The title commonly applied to the primary student financial aid programs administered by institutions of postsecondary education. These programs include the College Work-Study Program, the Perkins Loans, and the Supplemental Educational Opportunity Grant Program.

Candidates Reply Data Agreement (CRDA): Sponsored by the College Board, this agreement establishes a common date, May 1, that is the earliest time a subscribing college may require an accepted applicant to commit to whether he or she plans to attend.

CEEB (College Entrance Examination Board): A company which provides college testing, such as SAT I, SAT II, TOFEL, PSAT, etc. ETS (Educational Testing Service) is the testing division.

Class Rank: A student's standing, as compared with that of the other members of the class, based on grade point average.

College Catalog: A book published by a college describing requirements for admission, degrees, services, and course descriptions.

CLEP (College-Level Examination Program): A program administered by the College Board, that offers a series of general and subject examinations for college applicants who have gained knowledge in nontraditional ways, such as independent reading, on-the-job training, or correspondence courses.

Cost of Attendance (COA): This figure includes the total price of tuition, fees, room, board, books, supplies, transportation, and personal expenses for one academic year of education (also known as the Student Budget).

Comprehensive Fees: Cost of education, including tuition, room and board, fees, textbooks, etc.

Credit: Also called "semester hours", "unit hours", or "units." A way of referring to the number of credits which are earned in a course. Approximately 64 total credits are needed for an AA degree and 124 total credits for a BA degree for schools on a semester calendar. A three-credit course usually meets three hours a week. The average full-time student at college usually attends five classes and earns 15 credits per semester.

CSS (College Scholarship Service): The CSS/Financial Aid Profile is through the College Board (SAT) and assists both students and colleges in finding funds for a student's education.

Dependency Status: If you are considered a dependent student, colleges will count parent income, assets, and circumstances in addition to your finances when awarding aid.

Doctorate Degree (Ph.D., Ed.D., D.D.S., J.D., or M.D.): An academic or professional degree requiring specialized training and research for several additional years beyond a bachelor's degree.

Early Studies: This plan allows students to begin college work after their sophomore year of high school. This program is usually limited to maintaining a 3.0+ GPA or meeting technical course prerequisites.

Early Decision: Some colleges offer to notify applicants of their acceptance status during the first semester of their senior year in high school. There are two types of early decision plans: the single-choice plan and the first-choice plan. With the first-choice plan, students may apply to other colleges, but name the early decision college as the first choice.

Early Evaluation Procedure: A process that provides applicants to Ivy League institutions with an evaluation of their chances for acceptance between November 1 and February 15. Categories used are "likely," "possible," "unlikely," and "insufficient evidence for evaluation." Final notification is made on a common date determined by the institution.

Elective: A course that may be applied toward graduation that does not fulfill a specific degree requirement.

Expected Family Contribution (EFC): The amount of money a student and his/her spouse or family are expected to pay toward school expenses, based on their income and assets.

Federal Work-Study: Provides part-time employment for students who have financial need. Jobs are usually available both on and off campus.

Financial Aid: Money, that may be derived from a variety of sources (grants, loans, scholarships, work study), that helps pay for college expenses. A "package" of funds is determined by financial need and the availability of funds.

Financial Aid Package: The financial aid offer from the institution. It usually is made up of a combination of grant, loan, work-study, and/or scholarship monies.

Financial Need: The difference between the student's educational costs and the Expected Family Contribution (EFC).

Free Application for Federal Student Aid (FAFSA): The only form accepted for determining the amount of money a family is expected to contribute to a student's college costs. This form is required by all students seeking scholarship/financial aid.

General Educational Requirements (also called Core Requirements): Courses selected from several areas of study required for a college degree. Core requirements are usually completed the first two years of college. The second two years involve course work in major and minor areas.

GPA (Grade Point Average): A student's average grade, computed on a four-point scale: A=4, B=3, C=2, D=1, F=0. Each student has two GPAs, one for the semester and one cumulative GPA, which includes all previous semesters.

Impacted Program: A college degree program, such as computer science, that may be temporarily closed to new students due to heavy enrollment or may require supplementary screening of students' records for selection of the strongest candidates.

International Baccalaureate (IB): IB is a demanding college preparatory curriculum. IB testing includes a variety of assessments, such as research papers, oral presentations, and/or written examinations.

Lower Division: Refers to courses usually completed in the first two years of college.

Major: The main area of study in college, requiring a planned series of courses during the four-year program.

Master's Degree: A college degree that usually requires one or two years beyond a bachelor's degree.

Minor: An area of concentration other than the major field of study.

Need: The difference between the school's cost of attendance and a student's expected family contribution.

Need Analysis System: The system that calculates an Expected Family Contribution (EFC) based on information the student reports on their FAFSA.

Perkins Loan: Fixed, low-interest loan through the student's college. The student must demonstrate financial need. Current max per year for an undergraduate is \$5,500 (max. total: \$27,500).

Preliminary Scholastic Aptitude Test (PSAT): Qualifying test for the National Merit Scholarship Program taken in the junior year at the student's high school.

Prerequisites: Courses, test scores, and/or grade level that must be completed before taking a specific course.

ROTC: Many colleges have units of the Reserve Officers' Training Corps that offer two- and four-year programs of military training culminating in an officer's commission.

Rolling Admission: When a college continuously reviews applications as they are received and gives an admission decision as soon as possible, but does not specify a notification deadline.

SAT I (Scholastic Assessment Test): The SAT I is an aptitude rather than achievement test. It contains primarily multiple-choice questions that measures verbal and mathematical reasoning. The math section allows for the use of a calculator.

SAT II or SAT Subject Test: Subject tests. One hour achievement test(s) offered in 15 subjects. Usually, 3 prescribed tests are required by selective universities. These subject tests are required by competitive universities, in addition to or as a supplement to the SAT I.

Scholarship: A gift of money awarded for achievement, skill, talent, and/or financial need.

Stafford Loan: Low-interest loan to help cover the cost of higher education at a four-year college or university, community college, trade, career, or technical school. Eligible students at participating schools borrow directly from the U.S. Department of Education. Stafford loans include: subsidized loans (for students with financial need; no interest accumulates while the student is in school), and unsubsidized loans (interest accumulates while the student is in school).

Student Aid Report (SAR): Contains information submitted on the student's financial aid application. The student's eligibility for aid is indicated by the Expected Family Contribution (EFC) on the front of the SAR.

Summer Session: College summer school. Open entry, without formal admission, makes it possible for students to take classes at almost any campus and then transfer them to their "home" campus. Students who plan to continue in the fall must file for fall admission.

TOEFL (Test of English as a Foreign Language): An English assessment for students whose primary language is not English. The assessment is used to place students in appropriate English classes. Contact your counselor for further information.

Transcript: The permanent record of all courses and grades earned, including date of enrollment, date of graduation, level of coursework, number of class absences, stanine scores, NV Proficiency Exam scores, etc.

Transfer Courses: Courses taken at one college that may be submitted for credit transfer acceptance by a different college.

Transfer Students: College students who transfer from one college to another, usually by the end of the sophomore year. It is not recommended to change colleges during the junior or senior year while the student is often completing major requirements.

Tuition: A fee that is paid for instruction in a private school, college, or university.

Undergraduate: College student who has not yet earned a bachelor's degree.

Upper-Division Courses: Advanced courses designated for students with junior or senior credit completion.

Western Interstate Commission for Higher Education (WICHE): The Western Interstate Commission for Higher Education (WICHE) is a program that allows students in twelve of the western states, through reciprocity agreements with 141 cooperating schools, to attend graduate or undergraduate programs in other states. The out-of-state tuition is reduced or even waived for specified programs.

Western Undergraduate Exchange (WUE): The Western Undergraduate Exchange (WUE) is a program that allows students in participating states to receive reduced tuition rates at designated two- and four-year institutions. Students do not need to demonstrate financial need to receive the tuition reduction.

Weighted GPA (Grade Point Average): In CCSD high schools, the Weighted GPA is the non-weighted GPA plus the weighted grade points for up to 28 semesters of AP/Honors classes completed successfully; .025 for honors, .05 for AP (4 semesters or two classes only at .05).

Work-study: A federally funded program that makes part-time jobs available for students with financial need.
