SEP 20 2012

The Honorable Congresswoman Donna Edwards,

The Mayor and Staff at the City of District Heights would like to thank you for your recent visit to our community during your "Economic Development Tour". Your visit to our community spurred enthusiasm in the local commercial district and further connected the Urban Planning and Community Development Team with local small business leaders, further allowing our team to share additional resources and knowledge. We sincerely appreciate your efforts to support our community on our path to future growth and sustainable development.

The City of District Heights agrees with you that small business development is important in our community and was very proud to show you the progress we have made with our Commercial District Revitalization Plan. Taking into account the Congresswoman's continued support in our revitalization efforts over the years, the members of the Community Development and Urban Planning Team in the City of District Heights would like to request a formal meeting with the Congresswoman and / or her representatives to discuss in further detail the future of the City of District Heights Economic and Community Development endeavors.

In closing, we appreciate your continued support over the years and look forward to meeting with you soon to discuss further economic and community development goals.

Sincerely,

The Honorable James L. Walls Jr.

Mayor, City of District Heights
