14 in the National Security Council which shall be the lead
15 United States Government entity in charge of formulating
16 and coordinating the national energy security policy of the
17 United States. The responsibilities of the Directorate of
18 Energy shall include—

19 (1) directing the development of the national
20 energy security strategy of the United States;

1 (2) coordinating an interagency approach to the
2 national energy security policy of the United States
3 with the Department of Energy, the Department of
4 Defense, the Department of State, the Department
5 of the Treasury, the Central Intelligence Agency, the
6 National Economic Council, and other relevant Fed-
7 eral entities, as appropriate, to address the integra-
8 tion of national security, foreign, and domestic pol-
9 icy on the national energy security policy of the
10 United States;

11 (3) coordinating interagency monitoring of
12 international and domestic energy developments to
13 gauge their impact on the national energy security
14 policy of the United States, and implementing
15 changes in such policy as necessary to maintain the
16 national security and energy security of the United
17 States;

18 (4) identifying foreign sources of energy critical
19 to the national energy security of the United States
20 and developing strategies in conjunction with the
21 Department of State for ensuring United States ac-
22 cess to critical foreign energy resources;

23 (5) developing strategies for reducing United
24 States dependence on foreign sources of energy, in-
25 cluding demand reduction, efficiency improvement,

1 and development of alternative and new sources of
2 domestic energy;

3 (6) developing strategies to reduce energy infra-
4 structure vulnerability to terrorist attacks and nat-
5 ural disasters, both domestic and international, to
6 help guard against supply disruptions;

7 (7) developing strategies in conjunction with the
8 Department of State for working with major inter-
9 national producers and consumers, including China,
10 Russia, the European Union, India, Brazil, and Af-
11 rica, to minimize politicization of global energy re-
12 sources while ensuring access through global energy
13 markets;

14 (8) developing strategies in conjunction with the
15 Department of State, the Department of the Treas-
16 ury, and other relevant Federal agencies to broaden
17 and enhance the capabilities of the International En-
18 ergy Agency to ensure open energy markets and up-
19 dated cooperative agreements among nations regard-
20 ing development and use of their strategic reserves;
21 and

22 (9) developing strategies with industry regard-
23 ing coordination of industry held reserves of oil and
24 refined petroleum products.

1 **SEC. 2402. QUADRENNIAL ENERGY SECURITY REVIEW.**

2 (a) **QESR REQUIRED.**—Every 4 years, during a year
3 following a year evenly divisible by 4, the President shall
4 conduct a quadrennial national energy security review (in
5 this section referred to as a “QESR”) to set forth the
6 national energy security strategy of the United States and
7 to establish short and long term goals to achieve energy
8 security. In preparing the QESR, the President shall con-
9 sult with—

10 (1) members of the National Security Council;

11 (2) the Secretary of Energy;

12 (3) the Secretary of State;

13 (4) the Secretary of Defense;

14 (5) the Secretary of the Treasury;

15 (6) the Director of the Central Intelligence
16 Agency; and

17 (7) Congress.

18 (b) **REPORT.**—

19 (1) **IN GENERAL.**—In a year following the year
20 in which a QESR is conducted under this section,
21 but not later than the date on which the President
22 submits the budget for the next fiscal year to Con-
23 gress under section 1105(a) of title 31, United
24 States Code, the President shall submit to Congress
25 a report on such QESR. Such report shall describe

1 the national energy security strategy of the United
2 States, including a comprehensive description of—

3 (A) the worldwide interests, goals, and ob-
4 jectives of the United States that are vital to
5 the national energy security of the United
6 States;

7 (B) the foreign policy, worldwide commit-
8 ments, and national defense capabilities of the
9 United States necessary—

10 (i) to deter political manipulation of
11 world energy resources; and

12 (ii) to implement the national energy
13 security strategy of the United States;

14 (C) the proposed short-term and long-term
15 uses of the political, economic, military, and
16 other authorities of the United States—

17 (i) to protect or promote energy secu-
18 rity and markets; and

19 (ii) to achieve the goals and objectives
20 described in subsection (a);

21 (D) the adequacy of the capabilities of the
22 United States to protect the national energy se-
23 curity of the United States, including an eval-
24 uation of the balance among the capabilities of
25 all elements of the national authority of the

1 United States to support the implementation of
2 the national energy security strategy;

3 (E) an assessment of current Department
4 of Defense energy-related vulnerabilities with
5 assessment of capabilities and recommendations
6 for overcoming such vulnerabilities; and

7 (F) such other information as the Presi-
8 dent determines to be necessary to inform Con-
9 gress on matters relating to the national energy
10 security of the United States.

11 (c) QESR FORM.—Each QESR shall be submitted
12 in unclassified form, but may include a classified annex.

Amend the table of contents accordingly.
