Vol. 161

WASHINGTON, THURSDAY, NOVEMBER 5, 2015

No. 165

## House of Representatives

The House met at 9 a.m. and was called to order by the Speaker.

### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Dear God, we give You thanks for giving us another day.

We ask Your special blessing upon the Members of this people's House. They face difficult decisions in difficult times with many forces and interests demanding their attention.

We are grateful, O God, that You have given to them the goals of justice and the designs of freedom. Remind each Member that it is their work to develop the strategies of achieving those goals and designs, being mindful of the prompting of Your spirit.

You have given to each of them, and to us all, the abilities to do good works. So we pray that we will be faithful in our tasks, responsible in our actions, and fervent in our desire to serve.

Bless us, O God, this day and every day to come. May all that is done be for Your greater honor and glory.

Amen.

### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. HECK of Nevada. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. HECK of Nevada. Mr. Speaker, I object to the vote on the ground that a

quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Texas (Mr. CONAWAY) come forward and lead the House in the Pledge of Allegiance.

Mr. CONAWAY led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

### SAVE THE CHRISTIANS FROM GENOCIDE ACT

(Mr. ROHRBACHER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROHRBACHER. Mr. Speaker, I rise today to introduce legislation declaring the Christians and Yazidis of Syria, Iraq, Pakistan, Iran, Egypt, and Libya as targets of genocide. This bill will make them eligible for expedited refugee and visa processing for entry into the United States and give them priority over other applicants.

The Save the Christians from Genocide Act is imperative at this time. The alarm bell is ringing. Ancient long-standing communities of Christians in the Middle East are being murdered individually and en masse, targeted for extinction. Under President Obama's

leadership, our government has stood by impotently and watched this crime against humanity.

I call on my colleagues and Members of this House to join me in cosponsoring this bill to save the Christians from genocide. Hundreds of thousands of Muslims are finding safety and economic handouts in Europe, but what about the true targets of genocide? Where is their safe haven?

I rise now and will ask my colleagues to support the Save the Christians from Genocide Act to prioritize our immigration and refugee policy to save these Christians from facing brutal extinction.

I rise now and will ask my colleagues to join me in cosponsoring this bill. I, at this moment, will submit it to Congress for consideration.

### ROYALS 2015 WORLD CHAMPIONSHIP

(Mr. CLEAVER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLEAVER. Mr. Speaker, I am very pleased to be here this morning.

On Sunday, November 1, the Kansas City Royals took game five of the World Series from a very good New York Mets team. They beat them in the 12th inning, and they bring the Commissioner's Trophy back to Kansas City for the first time in 30 years.

The Royals' championship season had the best record in the American League: 95 wins, defeated the Astros in five games, defeated the Blue Jays in six, and defeated the Mets in the World Series in five games. These unheralded comeback kids scored 51 runs in the seventh inning or after in the postseason, shattering the previous record by 15 runs.

It was made clear on Tuesday that this championship was not only about the Royals, but about their loyal fan

base. Mr. Speaker, 800,000 people turned out for the celebration. Every school within 100 miles was closed.

The 2015 Royals team epitomizes what it means to play like a team. Our players never gave up. They have respect for themselves and the game, and they treat each other like family.

I want to congratulate my team, the Kansas City Royals, and express sympathy for the losers.

#### SALVAGE TIMBER BURN

(Mr. LAMALFA asked and was given permission to address the House for 1 minute.)

Mr. LAMALFA. Mr. Speaker, California and the West continue to be ravaged by wildfires each summer and fall, which is especially devastating to our forests in a time of record drought. Much is done on suppressing fires as they happen, to the tune of hundreds of millions of dollars of sometimes unplanned emergency funds, as well as hundreds of millions in loss of the people's assets: the forestland and trees are in that inventory and, with it, the habitat, all of value not frequently accounted for on public lands.

What I am immediately frustrated by is the lack of mobilization after a fire for the important salvage work needed on public land and how important it is that it be timely. Large trees after a fire, many of them can be salvaged within a year, and their value, sold to help recover costs for needed reforestation.

This is important for many reasons, such as: habitat; the renewal of the forest; and the critical prevention of massive erosion into our streams, rivers, lakes, and other waterways after a fire, which replantings help mitigate. Indeed, with the EPA's waters of the United States emphasis, they should be looking at their own timely treatment of their own jurisdictional public lands first.

We need timely issuance now of the permitting that the Forest Service and the U.S. Fish and Wildlife Service are holding in their hands for even modest work still pending on 2014 fires. I urge these permitting entities to expedite the paperwork now to salvage what we can of 2014 timber burn that has little time left to salvage at a value that will help taxpayers, instead of cost them.

#### UNIVERSITY OF CALIFORNIA AT MERCED

(Mr. COSTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COSTA. Mr. Speaker, today I rise with a heavy heart to convey my thoughts, prayers, and support for the students, the faculty, and the staff of the University of California at Merced in my district, one of the rising stars and the newest university in the University of California system. It is 11 years old, with 6,700 students.

Yesterday was a very sad and unfortunate day. An incident occurred where four individuals were stabbed by a student on campus. The good news is that I am told that they will all recover, but it was a tragic act of violence. The campus was shut down.

My thoughts and prayers are with the victims, their families, and all those who are part of the University of California campus at Merced, a wonderful community that I am honored to represent.

I am touched, but not surprised, by the courage and the bravery that the students have shown during this difficult time. I am also not surprised by the amount of community support that has come together over the last 24 hours.

The university community that Chancellor Dorothy Leland and the faculty have built is a tremendous support within the Merced campus. It is very special, and I know everybody is reaching out to support everyone at this difficult time.

Again, my prayers and thoughts are with the victims and their families, the faculty, the students, and the administration. We, today, are all University of California Merced Bobcats.

Stay strong and courageous. We are all with you. God bless.

#### STAFF SERGEANT RYAN D. HAMMOND

(Mr. MCKINLEY asked and was given permission to address the House for 1 minute.)

Mr. MCKINLEY. Mr. Speaker, I rise today to pay tribute to Staff Sergeant Ryan Hammond of Moundsville, West Virginia. Staff Sergeant Hammond was one of six airmen killed last month when their C-130 crashed at Jalalabad.

A native of Moundsville, Staff Sergeant Hammond joined the Air Force after graduating from John Marshall High School in Glen Dale.

On Tuesday, I joined with Ryan's family and friends to honor his life, service, and sacrifice at Arlington National Cemetery. The burial service was a reminder that the expense of individual freedom is steep, row after row of white headstones with names of Americans who gave their ultimate sacrifice.

Dozens of his fellow squadron members paid tribute to Staff Sergeant Hammond during the ceremony. As they filed past, they laid their wings upon his coffin, a final salute to a young airman who followed his dream of flying. There was not a dry eye at the grave site.

Thomas Paine said, 200 years ago:

Those who expect to reap the blessings of freedom, must undergo the fatigue of supporting it.

I offer my condolences to Staff Sergeant Hammond's family; his wife, Holly; his parents, David and Cathy; and his friends.

Staff Sergeant Hammond will be missed, but his sacrifices will never be forgotten.

#### REVIVE THE SALTON SEA

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Mr. Speaker, today we are leading the way at the Red Hill Bay to revive the Salton Sea. The Salton Sea is the largest body of water in and poses the largest public health and economic threat to California.

As the sea recedes, windblown dust containing arsenic and pesticides can cause respiratory distress in kids and seniors in the surrounding communities. The noxious odors may reduce home values and harm our tourism industry, costing billions of dollars. For too long, there has been study after study but no concrete action.

Today, at the Salton Sea's Red Hill Bay, we break ground on the first large-scale project to help prevent dust exposure and promote renewable energy development.

Imagine a Salton Sea that hosts the largest renewable energy industrial park in the Nation, creating jobs in southern California, while preserving wildlife habitat and preventing the noxious dust our children may breathe. Imagine a Salton Sea that, once again, attracts tourists from throughout the globe.

This is my vision for the Salton Sea, and today we took the first step to making this vision a reality.

#### GOFFSTOWN HIGH SCHOOL FOOTBALL

(Mr. GUINTA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUINTA. Mr. Speaker, I rise to salute the Goffstown Grizzlies football team, a high school with just 1,000 students who have an amazing story of perseverance and achievement.

Thanks to great coaching and hard work, the team qualified for a division 3 championship a few years ago and has since advanced to division 1, the toughest in the Granite State. Even their fans thought competing at this level would be a tall order.

The Grizzlies are undefeated this season. They entered Saturday's playoff game ranked number one; and they got there with exciting defense and special teams blocking punts and returning kickoffs for touchdowns.

The Grizzlies have the Granite State's fiercest linebacking crew and a sack leader. Their kicker boots 45-yard field goals, helping his team to average more than 42 points a game. The running back rushed for over 1,000 yards this season and scored over 20 touchdowns. They have New Hampshire's most potent passing attack and incredible local support.

Their spirited fans make it easy to like the Grizzlies, who take on the Second District's North Nashua Titans this weekend.

I wish both teams well but the Grizzlies just a little bit better.

#### TRUMP'S SNL APPEARANCE

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I rise today to encourage Saturday Night Live to disinvite Donald Trump from hosting their show this weekend.

Many may believe that Mr. Trump is just causing controversy so that he can get media attention, but his divisive and racist rhetoric has very troubling and real-world consequences.

Many businesses and individuals have severed ties with Mr. Trump. Even SNL's owner, NBC Universal, stated that, "At NBC, respect and dignity for all people are cornerstones of our values," and they ended their relationship with Mr. Trump.

Perhaps this blunder happened because currently there is no Latino cast member on SNL, and there have only been two in the entire history of SNL.

I hope Saturday Night Live's producers, writers, and cast members will consider how Donald Trump hosting SNL will compromise the integrity of their show. Having Mr. Trump degrades the quality of SNL's humor because racism isn't funny. It is lazy, and it is cheap.

Comedy has the power to highlight hypocrisy in society and reveal important social truths and political commentary. SNL has achieved that in the past, and I hope it returns.

#### HAPPY 100TH BIRTHDAY TO TSCPA

(Mr. CONAWAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CONAWAY. Mr. Speaker, I rise today to congratulate the Texas Society of CPAs on their 100th birthday. As a lifetime member of the TSCPA and a past chairman of the Texas State Board of Public Accountancy, the TSCPA holds a special place in my heart.

While not in plain view and often not recognized, CPAs are a special part of our communities. They do important oversight and regulation work that is integral to the functioning of our society. Bottom line, CPAs are essential for facilitating a thriving commercial system.

Some important TSCPA initiatives include financial literacy education and financial preparation in the event of a disaster. Both of these outreach programs are designed to help the general public improve their lives. Simply put, TSCPA is teaching people how to fish. In a complex world, these financial skills will benefit them and their children for the rest of their lives.

For 100 years, the TSCPA has been growing the profession, maintaining the profession's integrity, molding leaders, and helping others. Its growth is in the evidence of its success. Since its founding in 1915, the TSCPA has grown to 20 chapters and a membership of nearly 28,000 CPAs.

I am a proud member of the profession. I am proud to be a CPA, I am proud of my fellow CPAs, and I am proud of the TSCPA. I wish them happy birthday on their 100th birthday.

#### NOVEMBER IS MEN'S HEALTH MONTH

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Mr. Speaker, in our national conversation on health and health disparities, we often forget that men face some unique health and health access challenges. So I rise today on behalf of men around the world to recognize November as Men's Health Month and to raise awareness for men's health issues.

Today American men face a mortality rate 41 percent higher than women. Life expectancy for men is 76 years compared to 81 for women. American men face a higher mortality rate than women for 8 of the 10 leading causes of death, including cancer, liver disease, and heart disease. Additionally, men are at increased risk of mental health problems and 4.1 times more likely to commit suicide than women.

These are serious issues facing men around the world. Every November men around the world grow out their mustaches to raise awareness for these and other issues facing men. While I won't be able to join my colleagues in growing facial hair to raise awareness, I will be working behind the scenes to spread the word. In the meantime, I urge my colleagues to become educated about men's health and to stay healthy.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. HULTGREN). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on the motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Any record vote on the postponed question will be taken later.

“(B) In the case of any supplies and associated support services that, as determined in writing by the Secretary of Defense, are urgently needed to eliminate a documented deficiency that impacts an ongoing or anticipated contingency operation and that, if left unfulfilled, could potentially result in loss of life or critical mission failure, the Secretary may use the procedures developed under this section in order to accomplish the rapid acquisition and deployment of the needed supplies and associated support services.

“(C)(i) In the case of any supplies and associated support services that, as determined in writing by the Secretary of Defense without delegation, are urgently needed to eliminate a deficiency that as the result of a cyber attack has resulted in critical mission failure, the loss of life, property destruction, or economic effects, or if left unfulfilled is likely to result in critical mission failure, the loss of life, property destruction, or economic effects, the Secretary may use the procedures developed under this section in order to accomplish the rapid acquisition and deployment of the needed offensive or defensive cyber capabilities, supplies, and associated support services.

(b) **AMENDMENTS TO DEFENSE CONTRACT AUDIT AGENCY ANNUAL REPORT.**—Section 2313a(a) of title 10, United States Code, is amended—

(1) in paragraph (2), by amending subparagraph (D) to read as follows:

“(D) the total costs of sustained or recovered costs both as a total number and as a percentage of questioned costs; and”;

(2) in paragraph (3), by striking “; and” and inserting a semicolon;

(3) by redesignating paragraph (4) as paragraph (5); and

(4) by inserting after paragraph (3) the following new paragraph:

“(4) a description of outreach actions toward industry to promote more effective use of audit resources; and”.

(c) **REVIEW OF ACQUISITION OVERSIGHT AND AUDITS.**—

(1) **REVIEW REQUIRED.**—The Secretary of Defense shall review the oversight and audit structure of the Department of Defense with the goals of—

(A) enhancing the productivity of oversight and program and contract auditing to avoid duplicative audits; and

(B) streamlining of oversight reviews.

(2) **RECOMMENDATIONS.**—The Secretary shall ensure streamlined oversight reviews and avoidance of duplicative audits and make recommendations in the report required under paragraph (3) for any necessary changes in law.

(3) **REPORT.**—

(A) Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on actions taken to avoid duplicative audits and streamline oversight reviews.

(B) The report required under this paragraph shall include the following elements:

(i) A description of actions taken to avoid duplicative audits and streamline oversight reviews based on the review conducted under paragraph (1).

(ii) A comparison of commercial industry accounting practices, including requirements under the Sarbanes-Oxley Act of 2002 (Public Law 107-204; 15 U.S.C. 7201 et seq.), with the cost accounting standards prescribed under chapter 15 of title 41, United States Code, to determine if some portions of cost accounting standards compliance can be met through such practices or requirements.

(iii) A description of standards of materiality used by the Defense Contract Audit Agency and the Inspector General of the Department of Defense for defense contract audits.

(iv) An estimate of average delay and range of delays in contract awards due to the time necessary for the Defense Contract Audit Agency to complete pre-award audits.

(v) The total costs of sustained or recovered costs both as a total number and as a percentage of questioned costs.

(d) **INCURRED COST INVENTORY DEFINED.**—In this section, the term “incurred cost inventory” means the level of contractor incurred cost proposals in inventory from prior fiscal years that are currently being audited by the Defense Contract Audit Agency.

**SEC. 894. SENSE OF CONGRESS ON EVALUATION METHOD FOR PROCUREMENT OF AUDIT OR AUDIT READINESS SERVICES.**

(a) **FINDINGS.**—Congress finds the following:

(1) Given the size, scope, and complexity of the Department of Defense, the statutory deadline to establish and maintain auditable financial statements, starting with the fiscal year 2018 financial statement, is one of the more challenging management tasks that has ever faced the Department.

(2) As the military services have never received a clean opinion on their consolidated financial statements and only recently begun auditing portions of their financial statements, the audits of military service financial statements will also be a complex challenge for companies selected to provide audit services.

(3) The acquisition of services by the Department abides by many rules and parameters, one of which is the lowest price, technically acceptable (LPTA) evaluation method. LPTA is generally appropriate for commercial or noncomplex services or supplies where the requirement is clearly definable and the risk of unsuccessful contract performance is minimal.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that, before using the lowest price,

technically acceptable evaluation method for the procurement of audit or audit readiness services, the Secretary of Defense should establish the values and metrics for evaluating companies offering audit services, including financial management and audit expertise and experience, personnel qualifications and certifications, past performance, technology, tools, and size.

**SEC. 895. MITIGATING POTENTIAL UNFAIR COMPETITIVE ADVANTAGE OF TECHNICAL ADVISORS TO ACQUISITION PROGRAMS.**

Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Defense for Acquisition, Technology, and Logistics shall review, and as necessary revise or issue, policy guidance pertaining to the identification, mitigation, and prevention of potential unfair competitive advantage conferred to technical advisors to acquisition programs.

**SEC. 896. SURVEY ON THE COSTS OF REGULATORY COMPLIANCE.**

(a) **SURVEY.**—The Secretary of Defense shall conduct a survey of contractors with the highest level of reimbursements for cost type contracts with the Department of Defense during fiscal year 2014 to estimate industry's cost of regulatory compliance (as a percentage of total costs) with Government-unique acquisition regulations and requirements in the categories of quality assurance, accounting and financial management, contracting and purchasing, program management, engineering, logistics, material management, property administration, and other unique requirements not imposed on contracts for commercial items.

(b) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the findings of the survey conducted under subsection (a). The data received as a result of the survey and included in the report shall be aggregated to protect against the public release of proprietary information.

**SEC. 897. TREATMENT OF INTERAGENCY AND STATE AND LOCAL PURCHASES WHEN THE DEPARTMENT OF DEFENSE ACTS AS CONTRACT INTERMEDIARY FOR THE GENERAL SERVICES ADMINISTRATION.**

Contracts executed by the Department of Defense as a result of the transfer of contracts from the General Services Administration or for which the Department serves as an item manager for products on behalf of the General Services Administration shall not be subject to requirements under chapter 148 of title 10, United States Code, to the extent such contracts are for purchases of products by other Federal agencies or State or local governments.

**SEC. 898. COMPETITION FOR RELIGIOUS SERVICES CONTRACTS.**

The Department of Defense may not preclude a non-profit organization from competing for a contract for religious related services on a United States military installation.

**SEC. 899. PILOT PROGRAM REGARDING RISK-BASED CONTRACTING FOR SMALLER CONTRACT ACTIONS UNDER THE TRUTH IN NEGOTIATIONS ACT.**

(a) **PILOT PROGRAM AUTHORIZED.**—The Secretary of Defense may conduct a pilot program to demonstrate the efficacy of using risk-based techniques in requiring submission of data on a sampling basis for purposes of section 2306a of title 10, United States Code (popularly known as the “Truth in Negotiations Act”).

(b) **INCREASE IN THRESHOLDS.**—For purposes of a pilot program under subsection (a), \$5,000,000 shall be the threshold applicable to requirements under paragraph (1) of section 2306a(a) of such title, as follows:

(1) The requirement under subparagraph (A) of such paragraph to submit cost or pricing data for a prime contract entered into during the pilot program period.

(2) The requirement under subparagraph (B) of such paragraph to submit cost or pricing data for the change or modification to a prime contract made during the pilot program period.

(3) The requirement under subparagraph (C) of such paragraph to submit cost or pricing data for a subcontract entered into during the pilot program period.

(4) The requirement under subparagraph (D) of such paragraph to submit cost or pricing data for the change or modification to a subcontract made during the pilot program period.

(c) **RISK-BASED CONTRACTING.**—

(1) **AUTHORITY TO REQUIRE SUBMISSION OF COST OR PRICING DATA ON BELOW-THRESHOLD CONTRACTS.**—Subject to paragraph (4), when certified cost or pricing data are not required to be submitted pursuant to subsection (b) for a contract or subcontract entered into or modified during the pilot program period, such data may nevertheless be required to be submitted by the head of the procuring activity, if the head of the procuring activity—

(A) determines that such data are necessary for the evaluation by the agency of the reasonableness of the price of the contract, subcontract, or modification of a contract or subcontract; or

(B) requires the submission of such data in accordance with a risk-based contracting approach established pursuant to paragraph (3).

(2) **WRITTEN DETERMINATION REQUIRED.**—In any case in which the head of the procuring activity requires certified cost or pricing data to be submitted under paragraph (1)(A), the head of the procuring activity shall justify in writing the reason for such requirement.

(3) **RISK-BASED CONTRACTING.**—The head of an agency shall establish a risk-based sampling approach under which the submission of certified cost or pricing data may be required for a risk-based sample of contracts, the price of which is expected to exceed \$750,000 but not \$5,000,000. The authority to require certified cost or pricing data under this paragraph shall not apply to any contract of an offeror that has not been awarded, for at least the one-year period preceding the issuance of a solicitation for the contract, any other contract in excess of \$5,000,000 under which the offeror was required to submit certified cost or pricing data under section 2306a of title 10, United States Code.

(4) **EXCEPTION.**—The head of the procuring activity may not require certified cost or pricing data to be submitted under this subsection for any contract or subcontract, or modification of a contract or subcontract, covered by the exceptions in subparagraph (A) or (B) of section 2306a(b)(1) of title 10, United States Code.

(5) **DELEGATION OF AUTHORITY PROHIBITED.**—The head of a procuring activity may not delegate functions under this subsection.

(d) **REPORTS.**—Not later than January 1, 2017, and January 1, 2019, the Secretary of Defense shall submit to the congressional defense committees a report on activities undertaken under this section.

(e) **DEFINITIONS.**—In this section:

(1) **HEAD OF AN AGENCY.**—The term “head of an agency” has the meaning given the term in section 2302 of title 10, United States Code.

(2) **PILOT PROGRAM PERIOD.**—The term “pilot program period” means the period beginning on October 1, 2016, and ending on September 30, 2019.

**TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT**

Sec. 901. Update of statutory specification of functions of the Chairman of the Joint Chiefs of Staff relating to joint force development activities.

Sec. 902. Sense of Congress on the United States Marine Corps.

**SEC. 901. UPDATE OF STATUTORY SPECIFICATION OF FUNCTIONS OF THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF RELATING TO JOINT FORCE DEVELOPMENT ACTIVITIES.**

Section 153(a)(5) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

“(F) Advising the Secretary on development of joint command, control, communications, and cyber capability, including integration and interoperability of such capability, through requirements, integrated architectures, data standards, and assessments.”.

**SEC. 902. SENSE OF CONGRESS ON THE UNITED STATES MARINE CORPS.**

(a) **FINDINGS.**—Congress finds the following:

(1) As senior United States statesman Dr. Henry Kissinger wrote in testimony submitted to the Committee on Armed Services of the Senate on January 29, 2015, “The United States has not faced a more diverse and complex array of crises since the end of the Second World War.”.

(2) The rise of non-state forces and near peer competitors has introduced destabilizing pressures around the globe.

(3) Advances in information and weapons technology have reduced the time available for the United States to prepare for and respond to crises against both known and unknown threats.

(4) The importance of the maritime domain cannot be overstated. As acknowledged in the March 2015 Navy, Marine Corps, and Coast Guard maritime strategy, “A Cooperative Strategy for 21st Century Seapower: Forward, Engaged, Ready”: “Oceans are the lifeblood of the interconnected global community. . . 90 percent of trade by volume travels across the oceans. Approximately 70 percent of the world’s population lives within 100 miles of the coastline.”.

(5) The United States must be prepared to rapidly respond to crises around the world regardless of the nation’s fiscal health.

(6) In this global security environment, it is critical that the nation possess a maritime force whose mission and ethos is readiness—a fight tonight force, forward deployed, that can respond immediately to emergent crises across the full range of military operations around the globe either from the sea or home station.

(7) The need for such a force was recognized by the 82nd Congress during the Korean War, when it mandated a core mission for the nation’s leanest force—the Marine Corps—to be most ready when the nation is least ready.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Marine Corps, within the Department of the Navy, remain the Nation’s expeditionary, crisis response force;

(2) the need for such a force with such a capability has never been greater; and

(3) accordingly, in recognition of this need and the wisdom of the 82nd Congress, the 114th Congress reaffirms section 5063 of title 10, United States Code, which states that the Marine Corps—

(A) shall—

(i) be organized to include not less than three combat divisions and three air wings, and such other land combat, aviation, and other services as may be organic therein;

(ii) be organized, trained, and equipped to provide fleet marine forces of combined arms, together with supporting air components, for service with the fleet in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign; and

(iii) provide detachments and organizations for service on armed vessels of the Navy, provide security detachments for the protection of naval property at naval stations and bases, and perform such other duties as the President may direct; but these additional duties may not detract from nor interfere with the operations for which the Marine Corps is primarily organized;

(B) shall develop, in coordination with the Army and the Air Force, those phases of amphibious operations that pertain to the tactics, techniques, and equipment used by landing forces; and

(C) is responsible, in accordance with the integrated joint mobilization plans, for the expansion of peacetime components of the Marine Corps to meet the needs of war.

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—

(1) AUTHORITY.—Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 2016 between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) LIMITATION.—Except as provided in paragraph (3), the total amount of authorizations that the Secretary may transfer under the authority of this section may not exceed \$4,500,000,000.

##### SEC. 1004. SENSE OF CONGRESS ON SEQUESTRATION.

It is the sense of the Congress that—

(1) the fiscal challenges of the Federal Government are a top priority for Congress, and sequestration—non-strategic, across-the-board budget cuts—remains an unreasonable and inadequate budgeting tool to address the deficits and debt of the Federal Government;

(2) budget caps imposed by the Budget Control Act of 2011 (Public Law 112-25) impose unacceptable limitations on the budget and increase risk to the national security of the United States; and

(2) shall not be construed to alter the requirement under section 3521(e) of title 31, United States Code, that the financial statements of the Department of Defense as a whole be audited by the Inspector General or by an independent external auditor, as determined by the Inspector General; and

**SEC. 1013. SENSE OF CONGRESS ON CENTRAL AMERICA.**

(a) FINDINGS.—Congress makes the following findings:

(1) The stability and security of Central American nations have a direct impact on the stability and security of the United States.

(2) Over the past decade, increased stability and security in the Republic of Colombia has displaced illicit trafficking to Central America, bringing with it increased violence and instability.

(3) According to the Global Study on Homicide 2013 of the United Nations Office on Drugs and Crime, four of the top five countries with the highest homicide rates in the world were Central American nations, including Honduras, Belize, El Salvador, and Guatemala.

(4) In 2014, approximately 65,000 unaccompanied alien children from Central America entered the United States through its southwest border.

(5) In November 2014, Guatemala, Honduras, and El Salvador announced a Plan for the Alliance for Prosperity of the Northern Triangle, which is a comprehensive approach to address the ongoing violence and instability facing these three nations by stimulating economic opportunities, improving public safety and rule of law, and strengthening institutions to increase trust in the state.

(6) The United States Government is supportive of the Alliance for Prosperity, and President’s strategy for support includes \$1,000,000,000 focused on promoting pros-

(2) competition of the management and operating contracts of the nuclear security enterprise is an important mechanism to help realize cost savings, seek efficiencies, improve performance, and hold contractors accountable;

(3) when the Administrator for Nuclear Security considers it appropriate to achieve those goals, the Administrator should conduct competition of such contracts while recognizing the unique nature of federally funded research and development centers; and

(4) the Administrator should ensure that fixed fees and performance-based fees contained in management and operating contracts are as low as possible to maintain a focus on national service while attracting high-quality contractors and achieving the goals of the competition.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. THORNBERRY) and the gentleman from Washington (Mr. SMITH) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. THORNBERRY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and insert extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. THORNBERRY. Mr. Speaker, I yield myself 4 minutes.

Mr. Speaker, first let me say I very much value and appreciate the partnership that I have on the Committee on Armed Services with the gentleman from Washington (Mr. SMITH). I also very much value and appreciate the work of our staff on both sides of the aisle during what has been something of a roller coaster year.

Let me take just a moment to review where we are and how we got here. Mr. Speaker, the Committee on Armed Services reported out the fiscal year 2016 Defense Authorization Act on April 29, 2015, by a vote of 60-2.

During full committee markup, 211 amendments were adopted, about evenly divided between Republicans and Democrats. Then on the floor, 131 amendments were adopted, again, from both sides of the aisle. After weeks of conference with the Senate, a conference report containing 647 provisions was reported out.

Now, that conference report was the result of bipartisan effort and bipartisan input every step of the way. The conference report passed this House 270-156, and then it passed the Senate by a vote of 70-27. Then, on October 22, the President vetoed the bill to try to force Congress to increase spending in other areas. As The Washington Post

wrote: "It was historic, but not in a good way."

Well, last week the Congress passed and the President signed the Bipartisan Budget Act of 2015 not because of the President's veto of the defense bill, but because we were up against the debt limit and because Speaker Boehner was on the way out and was trying to get some things resolved. So what we have before us now is the same bill as the conference report, with funding adjustments to reflect the bill we passed last week. Otherwise, it is the same bill.

Now, I understand the White House press secretary has said the President will not veto the bill this time. So I hope, Mr. Speaker, that this year has been an anomaly, that never again does the bill that supports our troops become a political bargaining chip in a political game. I would just say, our troops deserve better than that.

This bill has a lot of important provisions, and we have talked about them on this floor before: acquisition reform; a new retirement system for the military that allows the 83 percent of the people who serve who leave with no retirement to put aside a nest egg and save for retirement; and changes to the formulary so that, if someone is on a particular drug for post-traumatic stress when they are in the military, they can stay on that drug when they move to the VA.

This bill takes additional steps for sexual assault, authorizes defensive weapons for the Ukraine, gives the President more options to assist the Kurds, the Sunnis, and others who are fighting ISIS. We take steps to help protect the country against missile attacks.

It increases support for Israeli missile defense by about \$300 billion over what the President requested. It allows commanders the discretion to determine when and where folks on their military base can carry personal firearms. It sunsets a number of reports. The list could go on and on.

Bottom line, Mr. Speaker, is this bill is good for the troops and good for the country. Hopefully all of the political maneuvering is behind us and, as we move into Veterans Day, we can do the right thing and pass this bill with a very, very strong vote.

Mr. Speaker, I reserve the balance of my time.

**JOINT EXPLANATORY STATEMENT TO ACCOMPANY S. 1356, THE NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2016**

The following consists of the explanatory material to accompany S. 1356, the National Defense Authorization Act for Fiscal Year 2016.

Section 5 of the Act specifies that this explanatory statement shall have the same effect with respect to the implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

In this joint explanatory statement, the provisions of H.R. 1735, the National Defense Authorization Act for Fiscal Year 2016 as

passed by the House of Representatives on May 15, 2015, are generally referred to as "the House bill." The provisions of the Senate amendment to H.R. 1735, the National Defense Authorization Act for Fiscal Year 2016 as passed by the Senate on June 18, 2015, are generally referred to as "the Senate amendment." The final form of the agreements reached during negotiations between the House and the Senate are referred to as "the agreement." References in the joint explanatory statement that "the House recedes" or "the Senate recedes" on a particular provision reflects the outcome from the conference agreement on H.R. 1735.

On October 1, 2015, the Conference Report to accompany H.R. 1735 was agreed to in the House by the Yeas and Nays [270-156]. On October 7, 2015, the Conference Report was agreed to in the Senate by the Yeas and Nays [70-27]. On October 22, 2015, H.R. 1735 was vetoed by the President and was returned to the House.

On October 28, 2015, the House passed H.R. 1314, the Bipartisan Budget Act of 2015, by the Yeas and Nays [266-167], and on October 30, 2015, the Senate also passed H.R. 1314 by Yea-Nay vote [64-35]. The President signed the bill on November 2, 2015. The Bipartisan Budget Act of 2015 (Public Law 114-74) did not fully fund account 050 to the level requested by the President in his budget submission, and as agreed to by the conferees and authorized in H.R. 1735. As a result, the agreement includes a reduction of \$5.0 billion from the level authorized in H.R. 1735 to conform to Public Law 114-74. The agreement between the two Houses addressed, in part, the concerns regarding the budget impact of H.R. 1735 expressed by the President in his veto message returning H.R. 1735 to the House. The resulting agreement was incorporated S. 1356, the National Defense Authorization Act for Fiscal Year 2016.

*Compliance with rules of the House of Representatives and Senate regarding earmarks and congressionally directed spending items*

Consistent with the intent of clause 9 of rule XXI of the Rules of the House of Representatives and Rule XLIV of the Standing Rules of the Senate, neither the bill text reflected in the agreement nor the accompanying joint explanatory statement contains any congressional earmarks, congressionally directed spending items, limited tax benefits, or limited tariff benefits, as defined in such rules.

*Summary of discretionary authorizations and budget implication*

The budget request for national defense discretionary programs within the jurisdiction of the Committees on Armed Services of the Senate and the House of Representatives for fiscal year 2016 was \$604.2 billion. Of this amount, \$534.2 billion was requested for base Department of Defense programs, \$50.9 billion was requested for overseas contingency operations, and \$19.0 billion was requested for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board.

The agreement would authorize \$599.2 billion in fiscal year 2016, including \$521.9 billion for base Department of Defense programs, \$58.8 billion for overseas contingency operations, and \$18.6 billion for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board. The agreement reflects the \$5.0 billion reduction to the President's budget request for national security (050) in order to conform to the revised budget caps contained in the Bipartisan Budget Act of 2015 (Public Law 114-74). It further reflects a realignment of some funds from the accounts for overseas contingency operations to the base budget.

The two tables preceding the detailed program adjustments in Division D of the ac-

companying joint statement of managers summarize the discretionary authorizations in the agreement and the equivalent budget authority levels for fiscal year 2016 defense programs.

*Budgetary effects of this Act (sec. 4)*

The Senate amendment contained a provision (sec. 4) that would require the budgetary effects of this Act be determined in accordance with the procedures established in title I of the Statutory Pay-As-You-Go Act of 2010 (Public Law 111-139).

The House bill contained no similar provision.

The agreement includes the Senate provision.

**DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS**

**TITLE I—PROCUREMENT**

**BUDGET ITEMS**

**ARMY**

*Stryker vehicle lethality upgrades*

The House bill contained an increase in funding for Stryker vehicle lethality upgrades of \$35.0 million in Research, Development, Test & Evaluation, Army and \$44.5 million in Procurement of Weapons and Tracked Combat Vehicles, Army respectively.

The Senate amendment contained an increase in these same funding areas of \$97.0 million and \$314.0 million, respectively.

The agreement, in Sections 4101 and 4102, includes increased funding in line with the Senate amendment.

We support the Army's plan to upgrade 81 Stryker vehicles with increased lethality as requested by the U.S. Army Europe in a recent Operational Need Statement. We understand the urgency for this requirement given heightened security concerns of our NATO partners due to Russian aggression in Ukraine. As such, we expect the rapid production of fully serviceable, upgraded Strykers. In order to meet the compressed timeline for fielding upgraded Strykers to the 2nd Cavalry Regiment, we expect the Army to manage this program with dispatch and efficiency. Identified risks associated with cost, schedule, and performance are to be managed with focused controls and leadership. We view this initiative, which is intended to increase the combat power of a forward deployed unit, as an opportunity to succeed in accordance with significant acquisition reforms illustrated in many provisions within this bill.

With regard to cost, we note the Army currently plans on starting with existing chassis of Stryker vehicles discarded during the upgrade to Double V Hull (DVH) Strykers. This approach appears to add significantly to the unit cost for the lethality upgrades which the Army has informed the defense committees may be approximately \$4.5 million per vehicle. We note that the Army already has extensive upgrade programs for the Stryker vehicle to include additional DVH Strykers and the Engineering Change Proposal modernization program. It is unclear if the Army ultimately plans on adding the lethality initiative to DVH Strykers, including those equipped with the Engineering Change Proposal upgrade. We are concerned that simply adding a broad Stryker lethality package for the Army's Stryker Brigade Combat Teams could add billions of dollars to the already stressed resources of the combat vehicle portfolio. Therefore, the committee encourages the Army to reduce the unit cost of the Stryker lethality upgrade program and evaluate ways to more efficiently pursue upgrades to the Stryker vehicle fleet and Stryker Brigade Combat Teams.

## AIR FORCE

*C-130H Modifications*

The base budget request included \$7.0 million in Aircraft Procurement, Air Force, Line 44 for C-130.

The House bill authorized a funding increase in that line item of \$73.2 million for the restructured C-130 Avionics Modernization Program (AMP) Increments I and II (\$10.0 million), T-56 3.5 Engine Modification (\$33.2 million), and Eight-bladed Propeller (\$30.0 million).

The Senate amendment would authorize an increase in that line item by \$123.2 million for the restructured C-130 AMP Increments I and II (\$75.0 million), T-56 3.5 Engine Modification (\$33.2 million), Electronic Propeller Control System (\$13.5 million), and In-flight Propeller Balancing System certification (\$1.5 million).

The agreement authorizes a total funding increase for Aircraft Procurement, Air Force, Line 44 of \$139.2 million for the restructured C-130 AMP Increments I and II (\$75.0 million), T-56 3.5 Engine Modification (\$33.2 million), Eight-Bladed Propeller (\$16.0 million), Electronic Propeller Control System (\$13.5 million), and In-flight Propeller Balancing System certification (\$1.5 million).

## SUBTITLE A—AUTHORIZATION OF APPROPRIATIONS

*Authorization of appropriations (sec. 101)*

The House bill contained a provision (sec. 101) that would authorize the appropriations for procurement activities at the levels identified in section 4101 of division D of this Act.

The Senate bill contained an identical provision (sec. 101).

The agreement includes this provision.

## SUBTITLE B—ARMY PROGRAMS

*Prioritization of upgraded UH-60 Blackhawk helicopters within Army National Guard (sec. 111)*

The House bill contained a provision (sec. 112) that would require the Chief of the National Guard Bureau to issue guidance that prioritizes UH-60 helicopter upgrades within the Army National Guard to those units with the highest flight hour aircraft and highest utilization rates, as well as require the Chief to submit a report to the congressional defense committees within 30 days after issuing such guidance, that describes such guidance.

The Senate amendment contained no similar provision.

The Senate recedes.

*Roadmap for replacement of A/MH-6 Mission Enhanced Little Bird aircraft to meet special operations requirements (sec. 112)*

The House bill contained a provision (sec. 142) that would direct the Secretary of Defense to submit to the congressional defense committees a strategy for the replacement of the A/MH-6 Mission Enhanced Little Bird aircraft to meet requirements particular to special operations for future rotary-wing, light attack, and reconnaissance requirements.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Report on Options to Accelerate Replacement of UH-60A Blackhawk Helicopters of Army National Guard (sec. 113)*

The House bill contained a provision (sec. 113) that would require the Secretary of the Army to submit a report to the congressional defense committees by March 1, 2016, containing detailed options for the potential acceleration of the replacement of all UH-60A helicopters of the Army National Guard.

The Senate amendment contained no similar provision.

The Senate recedes.

*Sense of Congress on Tactical Wheeled Vehicle Protection Kits (sec. 114)*

The House bill contained a provision (sec. 114) that would express the sense of Congress regarding the survivability and operational performance benefits provided by tactical wheeled vehicle add-on armor protection kits for the Army's heavy tactical wheeled vehicle fleet.

The Senate amendment contained no similar provision.

The Senate recedes.

## SUBTITLE C—NAVY PROGRAMS

*Modification of CVN-78 class aircraft carrier program (sec. 121)*

The Senate amendment contained a provision (sec. 114) that would amend subsection (f) of section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat. 2104), as added by section 121(c) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66; 127 Stat. 692), by adding a reporting requirement to the USS *John F. Kennedy* (CVN-79) quarterly report. Beginning January 1, 2016, the Secretary of the Navy would be required to submit, as part of the CVN-79 quarterly report, a description of new design and engineering changes to CVN-78 class aircraft carriers that exceed \$5.0 million and occurred during the reporting period. The provision would require the report to include program or ship cost increases for each design or engineering change and any cost reduction achieved. The Secretary of the Navy and Chief of Naval Operations would each be required to sign this additional reporting requirement and would be precluded from delegating the certification. The required certification would have to include a determination that each change serves the national security interests of the United States; cannot be deferred to a future ship due to operational necessity, safety, or substantial cost reduction; and was reviewed and endorsed by the Secretary of the Navy and Chief of Naval Operations.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*Amendment to cost limitation baseline for CVN-78 class aircraft carrier program (sec. 122)*

The Senate amendment contained a provision (sec. 111) that would further amend section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) as amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66) by adjusting the procurement cost cap for USS *John F. Kennedy* (CVN-79) and subsequent CVN-78 class aircraft carriers from \$11,498,000,000 to \$11,398,000,000.

The House bill contained no similar provision.

The House recedes with an amendment that would add an additional amendment to section 121(b) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364), as amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66). We recognize that the Department of the Navy has made considerable gains in controlling the cost of CVN-78 class aircraft carriers and believe further efforts at cost reduction are warranted. The current cost cap and cost estimate for CVN-79 is \$11.5 billion, which includes only limited program management reserve for unforeseeable issues during CVN-79 construction. We expect the Department to continue to employ efforts to

reduce costs on this ship class and accordingly are lowering the Congressional cap to \$11.4 billion. However, if during construction of CVN-79 the Chief of Naval Operations determines that measures required to complete the ship within the revised cost cap shall result in an unacceptable reduction to the ship's operational capability, the Secretary of the Navy may increase the CVN-79 cost cap up to \$11.5 billion. If such action is taken, the Secretary of the Navy shall adhere to the notification requirements specified in section 121(d) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364).

We note that section 122 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) set the cost cap for the lead ship at \$10.5 billion, plus adjustments for inflation and other factors, and at \$8.1 billion for subsequent CVN-78 class carriers, plus adjustments for inflation and other factors. Section 122 was amended by section 121(a) of the National Defense Authorization Act for Fiscal Year 2014 (Public Law 113-66), which revised the cost cap for the lead ship to \$12.9 billion, plus adjustments for inflation and other factors, and to \$11.5 billion for subsequent CVN-78 class carriers, plus adjustments for inflation and other factors. We understand 90 percent or \$3.1 billion of the \$3.4 billion increase in the cost cap for follow-on ships is attributable to economic inflation, which includes actual inflation realized and updated projections of future inflation based on Navy shipbuilding inflation indices. In view of this significant cost growth attributed to inflation, the Congressional Budget Office is directed to provide a report to the congressional defense committees no later than December 1, 2015 that includes the following elements:

(1) Explanation of how inflation was calculated and projected in the cost estimates for CVN-78 class aircraft carriers in each annual budget from fiscal year 2007 to fiscal year 2015;

(2) Description of inflation rates for CVN-78, CVN-79, and CVN-80, by fiscal year, from fiscal year 2007 until the obligation work limiting date for each ship;

(3) Comparison of projected inflation rates vs. actual inflation rates for CVN-78 class aircraft carriers, by fiscal year, from fiscal year 2007 to fiscal year 2015;

(4) Explanation of the key factors that are used to plan for and calculate current and projected inflation rates for CVN-78 class aircraft carrier cost estimates;

(5) Explanation of root causes of inflation escalation above the planned inflation assumed in CVN-78 class aircraft carrier cost estimates; and

(6) Component-level explanation of the \$3.1 billion increase in the cost estimate for CVN-79 and following aircraft carriers attributable to economic inflation.

*Extension and modification of limitation on availability of funds for Littoral Combat Ship (sec. 123)*

The Senate amendment contained a provision (sec. 116) that would amend section 123 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291) by extending the limitation on funds for LCS-25 and LCS-26 until pre-existing requirements are met and would additionally require the Navy to provide to the congressional defense committees the following: an acquisition strategy for LCS-25 through LCS-32; a LCS mission module acquisition strategy; a plan to outfit Flight 0 and Flight 0+ Littoral Combat Ships with capabilities identified for the upgraded Littoral Combat Ship; and a current test and evaluation master plan for the Littoral Combat Ship mission modules.

The House bill contained no similar provision.

*Modification to multiyear procurement authority for Arleigh Burke-class destroyers and associated systems (sec. 124)*

The House bill contained a provision (sec. 121) that would amend section 123(a) of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239) to clarify that the Secretary of the Navy has the authority to procure Flight III destroyers as part of the existing Arleigh Burke-class multiyear procurement authority.

The Senate amendment contained no similar provision.

The Senate recesses.

The Senate report accompanying S. 3254 (S. Rept. 112-173) of the National Defense Authorization Act for Fiscal Year 2013 described Senate intent regarding the current multiyear procurement authority for Arleigh Burke-class destroyers and associated systems. The Senate report supported the change to buying Flight III destroyers through an engineering change proposal and the inclusion of such ships in the multiyear procurement authority, following submission of a specified report. The House report accompanying H.R. 1960 (H. Rept. 113-102) of the National Defense Authorization Act for Fiscal Year 2014 expressed concern about the physical limitations associated with the integration of the Air and Missile Defense Radar on the Flight III version of the Arleigh Burke-class destroyer and requested a report to assess this integration process. Having received the required reports, we support the changes proposed by the Secretary of the Navy to integrate the Air and Missile Defense Radar into the Arleigh Burke-class destroyers and the addition of these Flight III ships to the current Arleigh Burke-class multiyear procurement contract.

*Procurement of additional Arleigh Burke class destroyer (sec. 125)*

The Senate amendment contained a provision (sec. 117) that would allow the Secretary of the Navy to enter into a contract beginning with the fiscal year 2016 program year for the procurement of 1 Arleigh Burke-class destroyer in addition to the 10 DDG-51s in the fiscal year 2013 through 2017 multiyear procurement contract or for 1 DDG-51 in fiscal year 2018. The Secretary may employ incremental funding for such procurement.

The House bill contained no similar provision.

The House recesses.

*Refueling and complex overhaul of the USS George Washington (sec. 126)*

The House bill contained a provision (sec. 122) that would provide economic order quantity authority for the construction of two Ford-class aircraft carriers and incremental funding authority for the nuclear refueling and complex overhaul of five Nimitz-class aircraft carriers.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would limit new aircraft carrier program procurement authority to the nuclear refueling and complex overhaul of USS *George Washington* (CVN-73).

The Department of the Navy awarded a detailed design and construction contract for the USS *John F. Kennedy* (CVN-79) on June 5, 2015. At the time of award, Program Executive Officer (PEO), Aircraft Carriers, Rear Admiral Thomas Moore, indicated “. . . with a stable design, mature requirements and an improved build process, we will reduce construction hours by 18 percent, lower the cost to build the ship by almost \$1 billion in real terms compared to CVN-78 . . .”. Following

\$2.4 billion in cost growth on the lead ship, CVN-78, we are encouraged by the ongoing collaboration between the Department of the Navy and industry to achieve cost reductions. We note that other ship construction programs have been able to reduce costs through acquisition efficiencies and economic order decisions. Therefore, to better assess acquisition options, we direct the Secretary of the Navy to submit a report to the congressional defense committees by March 1, 2016, that provides an assessment of the merits associated with using economic order quantity procurement with CVN-80 and CVN-81. This report should assess the specific aircraft carrier components that would be best suited to include in a potential economic order quantity contract, and the estimated cost savings that could be achieved using this procurement authority.

*Fleet replenishment oiler program (sec. 127)*

The Senate amendment contained a provision (sec. 118) that would grant the Secretary of the Navy contracting authority to procure up to six fleet replenishment oilers (T-AO(X)). This new ship class is a non-developmental recapitalization program based on existing commercial technology and standards. The ship design is considered to be low risk by the Navy, with the design scheduled to be complete prior to the start of construction on the lead ship. This provision would enable an estimated \$45.0 million in savings per ship, for ships 2-6, for a total of \$225.0 million in savings compared to current annual procurement cost estimates.

The House bill contained no similar provision.

The House recesses.

*Limitation on availability of funds for USS John F. Kennedy (CVN-79) (sec. 128)*

The Senate amendment contained a provision (sec. 112) that would limit \$100.0 million in Shipbuilding and Conversion, Navy procurement funds for USS *John F. Kennedy* (CVN-79) subject to the submission of a certification regarding full ship shock trials and two reports.

The House bill contained no similar provision.

The House recesses with an amendment that would provide the Secretary of Defense with waiver authority to delay full ship shock trials on the USS *Gerald R. Ford* (CVN-78) until after the ship's first deployment but prior to the first major maintenance availability.

*Limitation on availability of funds for USS Enterprise (CVN-80) (sec. 129)*

The Senate amendment contained a provision (sec. 113) that would limit \$191.4 million in advance procurement funds for USS *Enterprise* (CVN-80), until the Secretary of the Navy submits a certification and report to the Committees on Armed Services of the Senate and of the House of Representatives. \$191.4 million is the sum of funding requested for plans (detailed) and basic construction for CVN-80.

The House bill contained no similar provision.

The House recesses with an amendment that would require submission of the certification and report to all four congressional defense committees, as well as require the certification be provided within 90 days of enactment of this Act.

*Limitation on availability of funds for Littoral Combat Ship (sec. 130)*

The Senate amendment contained a provision (sec. 115) that would limit 75 percent of fiscal year 2016 funds for research and development, design, construction, procurement or advance procurement of materials for the upgraded Littoral Combat Ships (LCS), designated as LCS-33 and subsequent, until the

Secretary of the Navy submits to the Committees on Armed Services of the Senate and of the House of Representatives: a capabilities-based assessment to assess capability gaps and associated capability requirements and risks for the upgraded LCS, an updated capabilities development document for the upgraded LCS, and a report describing the upgraded LCS modernization.

The House bill contained no similar provision.

The House recesses with an amendment that changes the limitation to 50 percent of fiscal year 2016 funds and allows for a capabilities-based assessment or equivalent report.

*Reporting requirement for Ohio-class replacement submarine program (sec. 131)*

The Senate amendment contained a provision (sec. 119) that would require the Secretary of Defense to submit Ohio-class replacement submarine cost tracking information, together with annual budget justification materials. While the first Ohio-class replacement submarine is not planned to be authorized until fiscal year 2021, the national importance of this program and significant cost will continue to merit close oversight by the congressional defense committees.

#### SUBTITLE D—AIR FORCE PROGRAMS

*Backup inventory status of A-10 aircraft (sec. 141)*

The House bill contained a provision (sec. 132) that would amend section 133(b)(2)(A) of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3316) to where the Secretary of the Air Force may not move more than 18 A-10 aircraft in the active component to backup flying status pursuant to an authorization made by the Secretary of Defense under such section.

The Senate amendment contained no similar provision.

The Senate recesses.

*Prohibition on availability of funds for retirement of A-10 aircraft. (sec. 142)*

The House bill contained a provision (sec. 133) that would prohibit the use of any funds during fiscal year 2016 to retire, prepare to retire, or place in storage any A-10 aircraft. The provision would also require the Secretary of the Air Force to maintain a minimum of 171 A-10 aircraft in primary mission aircraft inventory (combat-coded) status. The provision would also direct the Secretary of the Air Force to commission an independent entity outside the Department of Defense to conduct an assessment of the required capabilities and mission platform to replace the A-10 aircraft.

The Senate amendment contained a similar provision (sec. 134).

The Senate recesses with an amendment that aligns technical provisions of both versions and refers to sec. 141 regarding moving A-10 aircraft to backup inventory status.

*Prohibition on availability of funds for retirement of EC-130H Compass Call aircraft (sec. 143)*

The House bill contained a provision (sec. 134) that would prohibit funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the Department of the Air Force to be obligated or expended to retire, prepare to retire, or place in storage or on back up flying status any EC-130H aircraft. The provision would also require the Secretary of the Air Force to commission an assessment of the required capabilities or mission platform to replace

the EC-130H aircraft, and to submit a report on that assessment to the congressional defense committees not later than September 30, 2016, and would also prohibit the Secretary of the Air Force from retiring, preparing to retire, placing in storage or placing on back up flying status any EC-130H aircraft until 60 days after the Secretary submits the specified report.

The Senate bill contained a similar provision (sec. 135).

The Senate recedes with an amendment changing the prohibition limitation date to December 31, 2016, and combining the report requirements from the House and Senate versions.

*Prohibition on availability of funds for retirement of Joint Surveillance Target Attack Radar System, EC-130H Compass Call, and Airborne Warning and Control System aircraft (sec. 144)*

The Senate amendment contained a provision (sec. 138) that would limit the retirement of Joint Surveillance Target Attack Radar System (JSTARS), EC-130H Compass Call, and Airborne Early Warning and Control System (AWACS) aircraft until the follow-on replacement aircraft program enters low-rate initial production.

The House bill contained no similar provision.

The House recedes with an amendment to change the provision to apply only in fiscal years 2016 or 2017, and other technical clarifications. The provision would not apply to individual aircraft if the Secretary of the Air Force, on a case-by-case basis, determines an individual aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

*Limitation on availability of funds for F-35A aircraft procurement (sec. 145)*

The Senate amendment contained a provision (sec. 133) that would limit the availability of fiscal year 2016 funds for F-35A procurement to not more than \$4.3 billion until the Secretary of Defense certifies to the congressional defense committees that F-35A aircraft delivered in fiscal year 2018 will have full combat capability with currently planned Block 3F hardware, software, and weapons carriage.

The House bill contained no similar provision.

The House recedes with an amendment to amend the certification level from the Secretary of Defense to the Secretary of the Air Force, and to amend the effective date of certification criteria from “full combat capability as currently planned . . .” to “full combat capability, as determined on the date of enactment of this Act . . .”

*Prohibition on availability of funds for retirement of KC-10 aircraft (sec. 146)*

The House bill contained a provision (sec. 135) that would prohibit any funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 for the Air Force to be obligated or expended during such fiscal year to divest or transfer, or prepare to divest or transfer, KC-10 aircraft.

The Senate bill contained no similar provision.

The Senate recedes with an amendment to change the provision to apply only in fiscal years 2016 or 2017. The provision would not include the prohibition on transfer of aircraft, and would not apply to an individual KC-10 aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

*Limitation on availability of funds for transfer of C-130 aircraft (sec. 147)*

The Senate amendment contained a provision (sec. 136) that would limit the avail-

ability of all funds authorized to be appropriated for the transfer from one facility of the Department of Defense to another any C-130H aircraft, initiate any C-130 manpower authorization adjustments, retire or prepare to retire any C-130H aircraft, or close any C-130H unit until 90 days after the date on which the Secretary of the Air Force, in consultation with the Secretary of the Army, and after certification by the commanders of the XVIII Airborne Corps, 82nd Airborne Division, and United States Army Special Operations Command, certified that the Air Force would maintain dedicated C-130 wings to support the daily training of Army airborne and special operations units, and the failure to maintain such Air Force operations would not adversely impact the daily training requirement of those airborne and special operations units.

The House bill contained a similar provision (sec. 1060c).

The House recedes with an amendment that would change the required certification to be made by the Secretaries and Chiefs of Staff of the Army and the Air Force, in consultation with the commanders of the XVIIIth Airborne Corps, 82d Airborne Division, and Army Special Operations Command. The amendment also contains other minor technical clarifications.

*Limitation on availability of funds for executive communications upgrades for C-20 and C-37 aircraft (sec. 148)*

The House bill contained a provision (Sec. 131) that would limit availability of funds to upgrade the executive communications of C-20 and C-37 aircraft until the Secretary of the Air Force certifies to certain specified criteria.

The Senate bill contained no similar provision.

The Senate recedes.

*Limitation on use of funds for T-1A Jayhawk aircraft (sec. 149)*

The Senate amendment contained a provision (sec. 137) that would limit all the funds authorized or appropriated by this Act or that otherwise may be obligated or expended for fiscal year 2016 for avionics modifications to the T-1A Jayhawk aircraft until 30 days after the Secretary of the Air Force submits to the congressional defense committees the report required under section 142 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291).

The House bill contained no similar provision.

The House recedes with an amendment to amend the provision to state: “Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2016 Aircraft Procurement, Air Force, for avionics modification to the T-1A Jayhawk aircraft, not more than 85 percent may be obligated or expended until a period of 30 days has elapsed following the date on which the Secretary of the Air Force submits to the congressional defense committees the report required under section 142 of the Carl Levin and Howard P. “Buck” McKeon National Defense Authorization Act for Fiscal Year 2015 (Public Law 113-291; 128 Stat. 3320).”

*Notification of retirement of B-1, B-2, and B-52 bomber aircraft (sec. 150)*

The Senate amendment contained a provision (sec. 131) that would limit the retirement of B-1, B-2, or B-52 bomber aircraft during a fiscal year prior to initial operational capability of the Long Range Strike Bomber unless the Secretary of Defense certified to specified criteria in the materials submitted in support of the budget of the President for that fiscal year as submitted to Congress.

The House bill contained no similar provision.

The House recedes with an amendment that would change the limitation to a notification requiring that in the period before the date of initial operational capability of the long-range strike bomber aircraft, before retiring or preparing to retire any B-1, B-2, or B-52 bomber aircraft the Secretary of the Air Force includes in the defense budget materials a notification of the proposed retirement including the rationale for the retirement, the effects of the retirement, and how the Secretary will mitigate any risks relating to the retirement. The provision would not apply to individual B-1, B-2, or B-52 aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

*Inventory requirement for fighter aircraft of the Air Force (sec. 151)*

The Senate amendment included a provision (sec. 132) that would amend section 8062 of title 10, United States Code, by adding a new subsection requiring the Secretary of the Air Force to maintain a minimum total active inventory of 1,950 fighter aircraft, within which the Secretary would also be required to maintain a minimum of 1,116 fighter aircraft as primary mission aircraft inventory (combat-coded). The provision would also provide additional limitations on fighter retirements by requiring the Secretary of the Air Force to certify to certain specified criteria, and also require a detailed report in advance of retiring fighter aircraft.

The House bill contained no similar provision.

The House recedes with an amendment to strike the amendment to section 8062 of title 10, change the limitation period to a 2-year period beginning on October 1, 2015, and reduce the minimum numbers of fighters required to be maintained by the Air Force to 1,900 total aircraft inventory and 1,100 primary mission aircraft inventory (combat-coded). The amendment would also eliminate the certification and detailed report requirements, and require specified information in a report to be included in the material submitted in support of the budget for a particular fiscal year, if proposing the retirement of fighter aircraft in that fiscal year's budget. The report would not apply to individual fighter aircraft if the Secretary of the Air Force, on a case-by-case basis, determines the aircraft to be non-operational because of mishaps, other damage, or being uneconomical to repair.

We recognize that based on the 2010 Quadrennial Defense Review, the Air Force determined through extensive analysis that a force structure of 1,200 primary mission aircraft and 2,000 total aircraft is required to execute the National Defense Strategy with increased operational risk. Subsequently, based on the 2012 Defense Strategic Guidance and fiscal constraints, analysis showed the Air Force could decrease fighter force structure capacity by approximately 100 additional aircraft; however, at an even higher level of risk.

We agree reductions in fighter force capacity below the 1,900 total and 1,100 combat-coded inventory levels, in light of ongoing and anticipated operations in Iraq and Syria against the Islamic State of Iraq and the Levant, coupled with a potential delay of force withdrawals from Afghanistan and a revanchist Russia, poses excessive risk to the Air Force's ability to execute the National Defense Strategy, causes remaining fighter squadrons to deploy more frequently, and drives even lower readiness rates across the combat air forces.

*Sense of Congress regarding the OCONUS basing of F-35A aircraft (sec. 152)*

The Senate amendment contained a provision (sec. 139) that would express the sense of Congress regarding basing of the F-35A aircraft outside of the continental United States.

The House bill contained a similar provision (sec. 136).

The House recedes with an amendment to make technical and clarifying corrections.

SUBTITLE E—DEFENSE-WIDE, JOINT, AND  
MULTISERVICE MATTERS

*Limitation on availability of funds for Joint Battle Command-Platform (sec. 161)*

The House bill contained a provision (sec. 141) that would require the Assistant Secretary of the Army for Acquisition, Logistics, and Technology to submit a report by March 1, 2016, to the congressional defense committees that addresses the effectiveness, suitability, and survivability shortfalls of the joint battle command-platform equipment identified by the Director of Operational Test and Evaluation in the Director's fiscal year 2014 annual report to Congress. This section would also further limit the obligation or expenditure of 25 percent of the funds for the joint battle command-platform until 30 days after the Assistant Secretary submits such a report.

The Senate amendment contained no similar provision.

The Senate recedes.

*Report on Army and Marine Corps modernization plan for small arms (sec. 162)*

The Senate amendment contained a provision (sec. 151) that would require the Secretaries of the Army and Navy to jointly submit to the Committees on Armed Services of the Senate and House of Representatives a report on the plan of the Army and Marine Corps to modernize small arms.

The House bill contained no similar provision.

The House recedes.

*Study on use of different types of enhanced 5.56mm ammunition by the Army and the Marine Corps (sec. 163)*

The House bill contained a provision (sec. 144) that would require the Secretary of Defense to submit a report to the congressional defense committees on the use of two different types of enhanced 5.56mm ammunition by the Army and the Marine Corps.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that requires the Secretary of Defense to enter into a contract with a federally funded research and development center (FFRDC) such as the Center for Naval Analyses (CNA) to conduct a study on the use of two different types of enhanced 5.56mm ammunition by the Army and the Marine Corps. We note that the CNA has conducted similar studies on small arms and small caliber ammunition and believe the CNA could meet the requirements of this study.

LEGISLATIVE PROVISIONS NOT ADOPTED

*Limitation on Availability of Funds for AN/TPQ-53 Radar Systems*

The House bill contained a provision (sec. 111) that would limit the obligation or expenditure of 25 percent of the funds for AN/TPQ-53 radar systems until 30 days after the date on which the Assistant Secretary of the Army for Acquisition, Logistics, and Technology submits to the congressional defense committees a review of the current delegation of acquisition authority to the Program Executive Officer for Missiles and Space.

The Senate amendment contained no similar provision.

The House recedes.

*Stationing of C-130 H aircraft avionics previously modified by the Avionics Modernization Program (AMP) in support of daily training and contingency requirements for Airborne and Special Operations Forces*

The Senate amendment contained a provision (sec. 120) that would require the Secretary of the Air Force to station aircraft previously modified by the C-130 Avionics Modernization Program (AMP) to support United States Army Airborne and United States Army Special Operations Command unit daily training and contingency requirements in fiscal year 2017, and not require the aircraft to deploy in the normal rotation of C-130H units. The provision would also require the Secretary to provide such personnel as required to maintain and operate the aircraft.

The House bill contained no similar provision.

The Senate recedes.

We agree the Air Force must develop a plan that incorporates the five C-130H aircraft previously modified with the AMP upgrade, the four purchased AMP installation kits, the associated simulator equipment, and sustainment and training software into the restructured AMP Increments I and II effort. We also direct the Air Force to provide a briefing on this plan to the congressional defense committees not later than 60 days after enactment of this Act. We agree the American taxpayers to date have expended considerable funds on the C-130 AMP and deserve to receive maximum value for that expenditure.

*Sense of Congress on F-16 Active Electronically Scanned Array (AESA) radar upgrade*

The Senate amendment contained a provision (sec. 140) that would express the sense of Congress on F-16 Active Electronically Scanned Array (AESA) radar upgrades that it is essential to our Nation's defense that: (1) Air Force aircraft modification funding be made available to purchase AESA radars as the Air Force bridges the gap between 4th- and 5th-generation fighters; (2) The U.S. Government must invest in radar upgrades to ensure 4th-generation aircraft succeed at zero-fail missions; and (3) The First Air Force Joint Urgent Operational Needs request should be met as soon as possible.

The House bill contained no similar provisions.

The Senate recedes.

We agree on the importance that should be accorded to funding AESA radar upgrades for existing aircraft.

*Stryker Lethality Upgrades*

The Senate amendment contained a provision (sec. 161) that would authorize an increase in funding for Stryker vehicle lethality upgrades of \$97.0 million in Research, Development, Test & Evaluation, Army and \$314.0 million in Procurement of Weapons and Tracked Combat Vehicles, Army respectively.

The House bill contained no similar provision.

The Senate recedes.

The outcome is reflected in the tables of this report in Sections 4101 and 4201 and includes additional funding in line with the Senate amendment.

TITLE II—RESEARCH, DEVELOPMENT, TEST,  
AND EVALUATION  
BUDGET ITEMS

*Unmanned Carrier-Launched Airborne Surveillance and Strike System*

The budget request included \$134.7 million in PE 64501N for the Unmanned Carrier-Launched Airborne Surveillance and Strike (UCLASS) system.

The House bill would authorize the budget request.

The Senate amendment would not approve the request in PE 64501N due to contracting delays caused by waiting on the results of the Department of Defense Intelligence Surveillance, and Reconnaissance Strategic Portfolio Review. These delays resulted in the Navy's having excess fiscal year 2015 funds in the program. The Senate amendment would instead provide an additional \$725.0 million in Research, Development, Test and Evaluation, Defense-wide, including \$350.0 million for continued development and risk reduction activities of the Unmanned Combat Air System Demonstration (UCAS-D) aircraft that would benefit the overall UCLASS program, and \$375.0 million to be used for a competitive prototyping of at least two follow-on air systems that move the Department toward a UCLASS program capable of long-range strike in a contested environment.

We believe that the Navy should develop a penetrating, air-refuelable, unmanned carrier-launched aircraft capable of performing a broad range of missions in a non-permissive environment. We believe that such an aircraft should be designed for full integration into carrier air wing operations—including strike operations—and possess the range, payload, and survivability attributes as necessary to complement such integration. Although the Defense Department could develop land-based unmanned aircraft with attributes to support the air wing, we believe that the United States would derive substantial strategic and operational benefits from operating such aircraft from a mobile seabase that is self-deployable and not subject to the caveats of a host nation.

Therefore, we recommend an increase of \$350.0 million to the UCLASS program and direct the Secretary of Defense to use these funds to conduct competitive air vehicle risk reduction activities that would lead to fielding penetrating, air-refuelable, UCLASS air vehicles capable of performing a broad range of missions in a non-permissive environment.

We direct the Navy to leverage both the lessons learned from the UCAS-D program and the existence of two operational UCAS-D demonstrator aircraft in support of these efforts. We also encourage the Secretaries of Defense and the Navy to consider all appropriate flexible acquisition authorities granted in law and in this Act, including those for rapid prototyping. Finally, we recommend that any contractual arrangements executed with this funding provide the Navy with sufficient technical data rights to support a subsequent competitive prototyping, follow-on development, or future multiple-sourced production efforts.

We look forward to reviewing the results of the Department of Defense Intelligence Surveillance, and Reconnaissance Strategic Portfolio Review and also the report directed in section 217 of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015.

*Integrated personnel and pay system for Army*

The budget request included \$136.0 million in PE 65018A for the Integrated Personnel and Pay System—Army (IPPS-A).

The House bill included the full requested amount.

The Senate amendment included \$86.0 million for IPPS-A, a reduction of \$50.0 million.

The agreement authorizes \$121.0 million in PE 65018A for the Integrated Personnel and Pay System—Army (IPPS-A). Elsewhere in this Act, we include a legislative provision that limits obligation of funds for the program, until provision of a required report to Congress on program plans.

SUBTITLE A—AUTHORIZATION OF  
APPROPRIATIONS

*Authorization of appropriations (sec. 201)*

The House bill contained a provision (sec. 201) that would authorize the appropriations for research, development, test, and evaluation activities at the levels identified in section 4201 of division D of this Act.

The Senate bill contained an identical provision (sec. 201).

The agreement includes this provision.

SUBTITLE B—PROGRAM REQUIREMENTS,  
RESTRICTIONS, AND LIMITATIONS

*Centers for Science, Technology, and Engineering Partnership (sec. 211)*

The Senate amendment contained a provision (sec. 211) that would authorize a program to enhance the Department of Defense laboratories with innovative academic and industry partners in research and development activities.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*Expansion of eligibility for financial assistance under Department of Defense Science, Mathematics, and Research for Transformation program to include citizens of countries participating in The Technical Cooperation Program (sec. 212)*

The Senate amendment contained a provision (sec. 212) that would expand the Department of Defense's Science, Mathematics, and Research for Transformation (SMART) program to include students from the United Kingdom, Australia, New Zealand, and Canada.

The House bill contained no similar provision.

The agreement includes the provision with an amendment to cap the number of new foreign students entering the program at five per year. We believe that this cap will help to ensure that the majority of the students in the program are U.S. citizens, while also giving the Department the flexibility to include foreign students on a trial basis. We also believe that this cap will allow the Department the opportunity to work out procedures and processes for the potential expansion to include other kinds of foreign students, should the Secretary of Defense determine that is in the national security interest.

*Expansion of education partnerships to support technology transfer and transition (sec. 213)*

The House bill contained a provision (sec. 221) that would allow institutions that support technology transition or transfer activities, such as business schools or law schools with technology management programs, to participate in education partnerships with Defense laboratories, as authorized in Section 2194 of title 10, United States Code.

The Senate amendment contained no similar provision.

The agreement includes the provision with amendments that would clarify to which institutions such authorities would extend, authorize a sabbatical and internship program for university faculty and students to work in Defense laboratories, and provide additional emphasis on technology transfer and transition projects. We believe that these amendments, taken together, would strengthen the purpose of the provision, which is to ensure that education partnerships are available for those wishing to engage in technology transfer or transition, in addition to traditional research projects.

*Improvement to coordination and communication of Defense research activities (sec. 214)*

The House bill contained a provision (sec. 231) that would improve the coordination and

communication of defense research activities and technology domain awareness. The House bill directs the Secretary of Defense to promote, monitor, and evaluate programs not only among Defense research facilities, but also among other government facilities, as well as commercial and university entities. The House bill would also encourage the Department to achieve full awareness of scientific and technological advancement and innovation throughout the technology domain.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would add additional direction to the Secretary of Defense to develop and distribute clear technical communications to all internal and external entities. We believe it is important that the Department more completely and robustly convey successes of Defense research and engineering activities.

The Senate amendment would also direct the Secretary of Defense to ensure that publicly-funded Defense research facilities support national technological development goals and technological missions of other federal agencies, as appropriate. We believe that taxpayer funds used for scientific research should be used in support of the best interests of the U.S. government as a whole. *Reauthorization of Global Research Watch program (sec. 215)*

The Senate amendment contained a provision (sec. 214) that would reauthorize the Global Research Watch program for an additional 10 years. The Senate provision would also expand the responsibilities of the program to include private sector entities, in addition to foreign governments.

The House bill contained no similar provision.

The agreement includes this provision.

*Reauthorization of Defense research and development Rapid Innovation Program (sec. 216)*

The House bill contained a provision (sec. 211) that would extend the authorization for the Department of Defense to execute activities for the Rapid Innovation Program through 2020.

The Senate amendment contained a similar provision (sec. 213) that would reauthorize the Rapid Innovation Program for 5 years. The Senate provision would also make technical changes to the program's guidelines and reporting requirements.

The agreement contains the Senate provision with a technical edit from the House to extend the program through 2023. We believe that it would be more effective to extend the program in a manner consistent with the end of the next program objective memorandum.

*Science and technology activities to support business systems information technology acquisition programs (sec. 217)*

The Senate amendment contained a provision (sec. 215) that would mandate the establishment of science and technology activities that would help reduce the technical risk and life cycle costs of major information technology acquisition programs. The provision would require the Department to fund appropriate research, development, and capability-building activities to make it a "smarter buyer" of these programs.

The House bill contained no similar provision.

The agreement includes the provision with an amendment directing the Department to conduct a gap analysis to identify relevant activities that are not being pursued in the current science and technology program.

We recognize and appreciate that the Department does currently engage in some activities that address those described in this provision and the original report language

from the Senate Armed Services Committee. However, we note with dismay the significant gaps in activities and technologies continue to exist. Examples of these gaps include lack of support for business process re-engineering, for lowering costs of customization of commercial software, for lowering maintenance costs, for open architectures, for engagement with management schools and small businesses, and for the conversion of legacy software to modern systems. We remain concerned that such gaps in science and technology activities related to business systems information technology acquisition, if left unaddressed, have the potential to severely hamper the Department's ability to field a modern and efficient information technology enterprise that meets the current and future needs of the Department.

*Department of Defense technology offset program to build and maintain the technological superiority of the United States (sec. 218)*

The Senate amendment contained a provision (sec. 212) that would establish and initiate within the Department of Defense to maintain and enhance the military technological superiority of the United States. The provision would establish a program to accelerate the fielding of offset technologies, including, but not limited to, directed energy, low-cost high-speed munitions, autonomous systems, undersea warfare, cyber technology, and intelligence data analytics, developed by the department and to accelerate the commercialization of such technologies. The provision would also direct the Secretary to establish updated policies and new acquisition and management practices that would speed delivery of offset technologies into operational use. The provision would authorize \$300.0 million for fiscal year 2016 for initiative, of which \$150.0 million would be authorized specifically for directed energy.

The House bill contained no similar provision.

The agreement includes this provision with an amendment to remove the requirement for a strategy on the development of directed energy technologies.

We are aware of the challenges facing the Department in maintaining technological superiority with regards to potential future adversaries. In authorizing the technology offset program in this provision, we recognize the need for the Department to have sufficient flexibility and resources to make sound strategic decisions for technology investment to respond to a more dire future security environment. We note that the Department has a number of initiatives, such as the Defense Innovation Initiative, and the Long-Range Research and Development Plan, to help guide those investments.

In particular, the Armed Services Committees of the Senate and the House of Representatives have been focused on the role directed energy weapons will have in our future security environment, and have been proponents of maturing directed energy technologies to transition them to the warfighting community as quickly as possible. We are aware that the Department and the military services have various roadmaps for deploying these technologies, and consider this fund a major forcing function to drive accelerated development and transition.

To better understand how the funds authorized in this section, in combination with other funds for directed energy programs, will be used to identify and transition promising directed energy technologies to the warfighting community, we direct the Secretary of Defense to provide a briefing to the Armed Services Committees of the Senate

and the House of Representatives no later than 180 days after the enactment of this Act. This briefing should include:

1) A description of a program management process for the identification of directed energy efforts, including prototyping or exercise opportunities, where additional funding may support accelerated transition to urgent operational needs or programs of record;

2) A description of coordination mechanisms between services and agencies undertaking directed energy activities, including coordination of science and technology prototyping, and programs of record;

3) An identification of challenges from the warfighting community currently impeding the adoption of or confidence in directed energy weapons systems.

4) An identification of policy, regulatory, or legislative impediments or challenges that currently constrain accelerated transition to the warfighting community; and

5) Recommendations for how to improve the department's ability to transition promising directed energy technology initiatives to the warfighting community.

*Limitation on availability of funds for F-15 infrared search and track capability development (sec. 219)*

The House bill contained a provision (Sec. 213) that would limit the availability of funds for fiscal year 2016 for the research, development, test, and evaluation of F-15 infrared search and track capabilities until 30 days after the Secretary of Defense submits a specified report.

The Senate bill contained no similar provision.

The Senate recedes.

*Limitation on availability of funds for development of the shallow water combat submersible (sec. 220)*

The House bill contained a provision (sec. 225) that would require a briefing to the congressional defense committees on the U.S. Special Operations Command (SOCOM) Shallow Water Combat Submersible (SWCS) program.

The Senate amendment contained a provision (sec. 218) that would prohibit the expenditure of more than 25 percent of the funds available for the SWCS program for fiscal year 2016 until the Under Secretary of Defense for Acquisition, Technology and Logistics designates a civilian official within his office responsible for providing oversight and assistance to SOCOM for all undersea mobility programs and, in coordination with the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict, provides the congressional defense committees a report on the SWCS program.

The House recedes with an amendment that would modify to 50 percent the amounts available for the SWCS program and modify associated reporting requirements.

*Limitation on availability of funds for Medical Countermeasures Program (sec. 221)*

The House bill contained a provision (sec. 212) that would limit the obligation and expenditure of 50 percent of the funds made available for the Department of Defense Medical Countermeasures program within the Chemical-Biological Defense Program until the Secretary of Defense provides a report to the congressional defense committees that validates the requirements and conducts an independent cost-benefit analysis to justify funding and efficiencies. This section would also require the Comptroller General of the United States to submit a review of the certification to the congressional defense committees within 60 days after the date on which the Secretary submits his report.

The Senate amendment contained no similar provision.

The agreement contains the House provision with an amendment that would decrease the limitation from 50 percent to 25 percent pertaining only to those funds used for research development test and evaluation (RDT&E) activities in the Advanced Development and Manufacturing facility per se and not all the RDT&E activities associated with the Medical Countermeasures Program.

We further note that Consistent with GAO report 15-257 (June 2015), the Secretary shall report to the congressional defense committees no later than February 28, 2016 on the designation of an individual responsible for managing infrastructure for the Department of Defense Chemical and Biological defense programs, to include shared-use facilities such as those within the Advanced Development and Manufacturing program, in order to minimize duplication of effort within the Department of Defense and other agencies of the federal government. The Secretary of defense shall notify the congressional defense committees of the appointment of such individual no later than 15 days after such designation. Further, we direct the Comptroller General to review the roles and responsibilities of the official designated to be responsible for infrastructure management, and to brief the congressional defense committees no later than March 31, 2016.

*Limitation on availability of funds for distributed common ground system of the Army (sec. 222)*

The Senate amendment contained a provision (sec. 219) that would limit the amount of funds available to be obligated or expended by the Secretary of the Army to not more than 75 percent of the amounts authorized to be obligated for fiscal year 2016 until a review of the program planning for the distributed common ground system of the Army is submitted to the congressional defense and intelligence committees.

The House bill contained a similar provision (sec. 1624).

The House recedes with a clarifying amendment.

*Limitation on availability of funds for distributed common ground system of the United States Special Operations Command (sec. 223)*

The House bill contained a provision (sec. 1625) that would limit the availability of funds for the Special Operations Command's Distributed Common Ground System to 75 percent of the funds authorized to be obligated by the program until the Commander of U.S. Special Operations Command conducts a review of the program planning and submits the findings of such review to the congressional defense committees and the congressional intelligence committees and the House Permanent Select Committee on Intelligence.

The Senate amendment contained a similar provision (sec. 220) that would limit the availability of research, development, test, and evaluation funds for the distributed common ground system of the U.S. Special Operations Command (SOCOM) until the Commander of SOCOM submits a report to the congressional defense committees.

The House recedes.

*Integrated personnel and pay system for Army (sec. 224)*

The agreement includes a provision (sec. 224) that would limit the ability of the Secretary of the Army to obligate more than 75 percent of the total authorized amount of fiscal year 2016 program funds for Integrated Personnel and Pay System—Army (IPPS-A) program until the Secretary of the Army provides a report to the congressional defense committees on the performance of legacy systems, changes in human resources or-

ganization and financial system capabilities, and alternatives to the current cost of IPPS-A.

*SUBTITLE C—REPORTS AND OTHER MATTERS  
Streamlining the Joint Federated Assurance Center (sec. 231)*

The Senate amendment contained a provision (sec. 217) that would streamline the Department of Defense's Joint Federated Assurance Center by eliminating an unnecessary layer of bureaucracy between the Center's steering group and its working groups.

The House bill contained no similar provision.

The agreement includes this provision.

*Demonstration of persistent close air support capabilities (sec. 232)*

The Senate amendment contained a provision (sec. 233) that would require the Secretary of the Air Force, the Secretary of the Army, and the Director of the Defense Advanced Research Projects Agency (DARPA) to jointly conduct a demonstration of the Persistent Close Air Support (PCAS) capability in fiscal year 2016.

The House bill contained no similar provision.

The House recedes with an amendment to strike the phrase "as identified by the United States Air Force Close Air Support Forum" from subparagraph (b)(1). The amendment would also replace all occurrences of the word "shall" with "may," and add a paragraph directing a briefing to the congressional defense committees by December 1, 2016 on the assessment of demonstration results and cost estimates for transition of any desired technologies.

We strongly encourage the three parties to conduct the PCAS demonstration, as the benefits would likely provide a large payoff in increased capability for what is estimated to be minimal resource investment. In response to the challenge of diverse platforms and user populations of the close air support mission, the Joint Requirements Oversight Council, in 2009, in its Close Air Support Capabilities-Based Assessment, recommended that "Platforms should field flexible systems that utilize an improved architecture which migrates the processing of digital messages to a Commercial-off-the-Shelf (COTS) based processor and away from the [aircraft] operational flight programs."

We observe that with repeated Air Force proposals to retire their fleet of A-10 aircraft, the integration of game-changing and relatively inexpensive technologies to improve close air support mission operations and results on other platforms could be beneficial in assuaging concerns of divesting a particular aircraft, even a type with close air support as its primary mission.

We also agree that the Director of DARPA should provide resources to the maximum extent practical to minimize costs borne by the participating Services to accomplish the demonstration activities.

*Strategies for engagement with historically black colleges and universities and minority-serving institutions of higher education (sec. 233)*

The House bill contained a provision (sec. 222) that would require the Secretaries of the military departments to each develop a strategy for engagement with and support of the development of scientific, technical, engineering, and mathematics capabilities with historically black colleges and universities and minority-serving institutions. The provision would also require the Secretary of Defense to develop a strategy that encompasses the strategies developed by the military departments.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that ensures that such strategies are developed by all organizations within the Department of Defense that are engaged in basic research, thereby broadening the provision to cover all appropriate Defense entities.

We note that in implementing the requirements of this provision, the Secretary of Defense may seek information from the directorates of the Louis Stokes Alliances for Minority Participation program (LSAMP) and Historically Black Colleges and Universities Undergraduate Program (HBCU-UP) of the National Science Foundation; the American Association for the Advancement of Science; the Emerging Researchers National Conference in Science, Technology, Engineering, and Mathematics; the University of Florida Institute for African-American Mentoring in Computing Sciences (IAAMCS); the Hispanic Association of Colleges and Universities; the National Indian Education Association; and such other institutions, organizations, or associations as the Secretary deems useful.

*Report on commercial-off-the-shelf wide-area surveillance systems for Army tactical unmanned aerial systems (sec. 234)*

The House bill contained a provision (sec. 229) that would express the Sense of Congress on the capabilities provided by unmanned aerial systems that use wide area surveillance sensors. The provision would also require the Secretary of the Army to conduct a market survey and flight assessment of commercial-off-the-shelf wide area surveillance sensors suitable for insertion on Army tactical unmanned aerial systems.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would remove the sense of Congress, modify the reporting requirements for the market survey, require an assessment of current wide area surveillance systems that are currently used or could be used on Army tactical unmanned aerial systems, as well as require the Secretary of the Army to assess the advisability and feasibility of upgrading wide area surveillance systems for Army tactical unmanned aerial systems.

*Report on Tactical Combat Training System Increment II (sec. 235)*

The House bill contained a provision (sec. 230) that would direct the Secretary of the Navy and the Secretary of the Air Force to submit a report to the congressional defense committees, not later than January 29, 2016, on the baseline and alternatives to the Navy's Tactical Air Combat Training System Increment II. The provision would also limit the Navy from approving or designating a contract award for the specified system until 15 days after the date of the submittal of the report.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment striking subparagraph (c) to remove the limitation.

*Report on technology readiness levels of the technologies and capabilities critical to the long range strike bomber aircraft (sec. 236)*

The Senate amendment contained a provision (sec. 235) that would require the Secretary of Defense to submit to Congress, not later than 180 days after enactment of this Act, a report on the Technology Readiness Levels and capabilities critical to the Long Range Strike Bomber aircraft. The provision would also require the Comptroller General of the United States to review the Secretary's report and submit an assessment to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with an amendment to have the Secretary report to the congressional defense committees.

*Assessment of Air-Land Mobile Tactical Communications and Data Network Requirements and Capabilities (sec. 237)*

The Senate amendment contained a provision (sec. 231) that would require the Director of Cost Assessment and Program Evaluation (CAPE) to contract with an independent entity to conduct a comprehensive assessment of current and future requirements and capabilities to determine the technological feasibility, achievability, suitability, and survivability of a tactical communications and data network. The provision would also prohibit the Secretary of the Army from obligating more than 50 percent of funds available in Other Procurement, Army for the Warfighter Information Network-Tactical, Increment 2 program subject to the submission of the independent entity's report.

The House bill contained no similar provision.

The House recedes with an amendment that would strike the limitation of funds, and require the Director of CAPE to seek to enter into a contract with a federally funded research and development center to conduct a comprehensive assessment of current and future requirements and capabilities of the Army with respect to air-land ad hoc, mobile tactical communications and data networks, including the technological feasibility, suitability, and survivability of such networks.

We believe the Director of CAPE shall select a federally funded research and development center with direct, long-standing, and demonstrated experience and expertise in program test and evaluation of concepts, requirements, and technologies for joint tactical communications and data networking to perform the assessment. The Institute for Defense Analysis may be such an entity with expertise needed for such a detailed assessment.

*Study of field failures involving counterfeit electronic parts (sec. 238)*

The Senate amendment contained a provision (sec. 232) that would require the Secretary of Defense to task the Joint Federated Assurance Center (JFAC) to conduct a hardware assurance study to assess the presence, scope, and effect on Department of Defense operations of counterfeit electronic parts that have passed through the Department of Defense supply chain and into fielded systems.

The House bill contained no similar provision.

The agreement includes the provision with an amendment to assign responsibility for the study to the executive agent for printed circuit board technology. We believe that the executive agent is the most appropriate official to conduct such a study. The amendment would also require JFAC to conduct a technical assessment for indications of malicious tampering on any parts assessed that demonstrate unusual or suspicious failure mechanisms. We believe that such follow-up is critical for ensuring maximum impact and benefit of the study.

*Airborne data link plan (sec. 239)*

The Senate amendment contained a provision (sec. 234) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics and the Vice Chairman of the Joint Chiefs of Staff to jointly, in consultation with the Secretary of the Air Force and the Secretary of the Navy, to develop a plan on airborne data links between fifth-to-fifth, and fifth-to-fourth generation aircraft. The provision would also limit funding for the TALON HATE and Multi-Domain Adaptable Processing System programs until the plan was briefed to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with an amendment to add a date of February 15, 2016 for the plan briefing, and to strike subsection (c).

*Plan for advanced weapons technology war games (sec. 240)*

The House bill contained a provision (sec. 223) that would require the Secretary of Defense, in coordination with the Chairman of the Joint Chiefs of Staff, to develop a plan for integrating advanced technologies, such as directed energy weapons, hypersonic strike systems, and autonomous systems into broader title 10 war games to improve socialization with the warfighter and the development and experimentation of various concepts for employment by the Armed Forces.

The Senate amendment contained no similar provision.

The Senate recedes with some technical amendments.

*Independent assessment of F135 engine program (sec. 241)*

The House bill contained a provision (sec. 214) that would require the Secretary of Defense to enter into a contract with a federally funded research and development center to conduct an assessment of the F135 engine program, and submit a report to the congressional defense committees not later than March 15, 2016.

The Senate amendment contained no similar provision.

The Senate recedes.

*Comptroller General Review of autonomic logistics information system for F-35 Lightning II aircraft (sec. 242)*

The House bill contained a provision (sec. 224) that would direct the Comptroller General of the United States to conduct a review and submit a report to the congressional defense committees on the autonomic logistics information system for the F-35 Lightning II aircraft program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to make technical corrections to correct typographical errors.

*Sense of Congress regarding facilitation of a high quality technical workforce (sec. 243)*

The House bill contained a provision (sec. 227) that would express a sense of Congress that the Department of Defense should explore using existing authorities for all Federally Funded Research and Development Centers to help facilitate and shape a high quality scientific and technical workforce that can support the Department's needs. In addition, the provision would make a number of findings, including that the country's scientific and technical workforce is a matter of national security, that the Department's support for technical education programs facilitates the training of the future workforce, and that the highly skilled workforce already employed is qualified to facilitate training of a future workforce.

The Senate amendment contained no similar provision.
