Our breweries cannot operate without a reliable, clean water supply. We strongly support the Clean Water Act, one of our nation's bedrock environmental laws, as well as the Clean Water Rule, which provides important clarity regarding which waterbodies are covered by the Act.

That is why we urge you to oppose Senate Joint Resolution 22, that would prohibit the Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers from doing "a new rule that is substantially the same" as the Clean Water Rule. That could be read to prohibit EPA and the Army Corps from issuing any rule that establishes protections for waters that the Clean Water Rule protects, like lakes, streams, and wetlands.

Our breweries – and the communities in which we operate – need a strong Clean Water Act, as well as the clarity provided by the Clean Water Rule.
