

## **ADDITIONAL ATTENDEE BIOGRAPHIES**

### **Kevin Moody, Esq., Vice President and General Counsel**

Pennsylvania Independent Oil and Gas Association (PIOGA)

- Mr. Moody is General Counsel and Vice President of Government Affairs for the Pennsylvania Independent Oil & Gas Association (PIOGA)
- Mr. Moody is a graduate of the University of Pittsburgh and the Dickinson School of Law.
- His legal experience expanded through 10 years in the Pennsylvania Public Utility Commission's (PUC) Law Bureau, handling court appeals involving natural gas, electric, water and sewer utilities, and conducting informal investigations concerning various public utility company operations and practices. In 1998, Mr. Moody went into private practice where he continued to focus on natural gas, electric, water and sewer utility matters as well as evolving competitive natural gas and electricity supply matters, and further expanded his practice into matters involving municipal corporations, municipality authorities and municipality utility issues while continuing to participate in litigating state tax appeals
- Mr. Moody helps to guide PIOGA's efforts to continue the safe, responsible and efficient development of Pennsylvania's conventional and unconventional oil and natural gas resources while working to prevent inappropriate and unnecessary regulation of the conventional industry.

### **Lauren Parker, Senior Project Manager**

Civil & Environmental Consultants, Inc.

- Ms. Parker has more than eleven years of civil engineering design experience for various natural gas Exploration & Production (E&P) and midstream projects, as well as commercial and institutional projects throughout Pennsylvania and Ohio. She is responsible for all aspects of site design, including site layout, site grading and earthwork analysis, storm water management, hydrologic and hydraulic analyses, erosion and sediment control design and permitting, stream and wetland impact permitting through the state and Army Corps of Engineers, cost estimating, and drawing preparation.
- She holds a Bachelor of Science Degree in Mechanical Engineering Technology from Penn State University and a Master of Science Degree in Engineering Management from Robert Morris University. She is a Certified Professional in Erosion and Sediment Control (CPESC); a Certified Professional in Stormwater Quality (CPSWQ) also serving as the Western Pennsylvania Area Representative for the CPSWQ program; and a Certified Erosion, Sediment, and Stormwater Inspector (CESSWI) also serving as the Pennsylvania Area Representative and an instructor for the CESSWI program.
