SEC. 409. Notwithstanding any other provision of law, amounts appropriated to or otherwise designated in committee reports for the Bureau of Indian Affairs and the Indian Health Service by Public Laws 103–138, 103–332, 104–134, 104–208, 105–83, 105–277, 106–113, 106–291, 107–63, 108–7, 108–108, 108–447, 109–54, 109–289, division B and Continuing Appropriations Resolution, 2007 (division B of Public Law 109–289, as amended by Public Law 110–5) for payments for contract support costs associated with self-determination or self-governance contracts, grants, compacts, or annual funding agreements with the Bureau of Indian Affairs or the Indian Health Service as funded by such Acts, are the total amounts available for fiscal years 1994 through 2007 for such purposes, except that for the Bureau of Indian Affairs, tribes and tribal organizations may use their tribal priority allocations for unmet contract support costs of ongoing contracts, grants, self-governance compacts, or annual funding agreements.

SEC. 410. Prior to October 1, 2008, the Secretary of Agriculture shall not be considered to be in violation of subparagraph 6(f)(5)(A) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604(f)(5)(A)) solely because more than 15 years have passed without revision of the plan for a unit of the National Forest System. SEC. 411. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar.

Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, all of the western redcedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, the volume of western redcedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (1) which is surplus to the needs of domestic processors in Alaska; and (2) is that percent of the surplus western redcedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a "rolling basis" shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed "surplus to the needs of domestic processors in Alaska" when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

SEC. 412. directly or through its fire organization) agrees to assume any and all liability for the acts or omissions of American firefighters engaged in firefighting in a foreign country: *Provided further*, That when an agreement is reached for furnishing fire fighting services, the only remedies for acts or omissions committed while fighting fires shall be those provided under the laws of the host country, and those remedies shall be the exclusive remedies for any claim arising out of fighting fires in a foreign country: *Provided further*, That neither the sending country nor any legal organization associated with the firefighter shall be subject to any legal action whatsoever pertaining to or arising out of the firefighter's role in fire suppression.

EXPLANATORY STATEMENT, DIVISION F

DIVISION F—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this Division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Interior, Environment and Related Agencies Appropriations Act, 2008 (H.R. 2643 and S. 1696) passed by the House of Representatives and reported by the Senate Appropriations Committee.

A detailed table has been included at the end of the Division F portion of this statement showing amounts agreed to by activity and sub-activity. The House and Senate Appropriations Committees note that this statement remains silent on many directives or instructions which were included in the House Report (H. Rpt. 110–187) or the Senate Report (S. Rpt. 110–91) accompanying this bill. The House or Senate report language that is not changed by this statement should be treated as approved when administering the appropriations included in this Division.

REPROGRAMMING GUIDELINES

The House and Senate Appropriations Committees have agreed to the updated reprogramming guidelines for agencies funded by Division F of this amended bill as recommended by the House and set out in H. Rept. 110–187 (pages 190–191). The changes agreed to principally update thresholds for reprogramming from \$500,000

¹This Explanatory Statement was submitted for printing in the *Congressional Record* on December 17, 2007, prior to House consideration of the Consolidated Appropriations amendment and as directed by the House of Representatives in section 3 of H. Res 869. The Statement appears in books II and III of the December 17 *Congressional Record*, with the division F portion beginning on page H16122 of book II.

to \$1,000,000 and provide for procedural simplifications. Nothing in these changes alters the requirement that any use of eminent domain or condemnation authorities must be approved in statute.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The amended bill provides \$867,463,000 for management of lands and resources instead of \$888,628,000 as proposed by the House and \$902,883,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

The amended bill provides an increase \$5,000,000 above the request for the National Landscape Conservation System (NLCS), instead of \$10,000,000 as proposed by the House and \$8,000,000 as proposed by the Senate. The Appropriations Committees direct the Bureau to present line item program elements for National Monuments, National Conservation Areas, and National Scenic and Historic Trails in future budget justifications. To further ensure fiscal accountability, the Committees direct the BLM to present annual NLCS expenditure and outcome reports which break out expenditures by unit and subactivity no later than December 31 of the subsequent fiscal year.

The Healthy Lands Initiative (HLI) is funded with \$5,000,000 instead of \$15,000,000 as proposed by the House and \$6,000,000 as proposed by the Senate. The Committees are encouraged that the BLM intends to leverage millions of dollars in partnership funds and looks forward to an accounting of the partner contributions in next year's annual performance report.

The increases for the NLCS and the HLI are to be allocated as specified in the following table:

	N.L.C.S.	H.L.I.
Soil, Water, and Air Management	\$200,000
Range Management	300,000	2,500,000
Forestry Management	125,000
Riparian Management	200,000	500,000
Cultural Resources Management	350,000
Wildlife Management	225,000	1,500,000
Fisheries Management	100,000	500,000
Threatened & Endangered Species	225,000
Wilderness Management	1,000,000
Recreation Resources Management	1,350,000
Resource Management Planning	225,000
Resource Protection and Law Enforcement	150,000
Operations	100,000
Annual Maintenance	350,000
Challenge Cost Share	100,000
Total	5,000,000	5,000,000

Land Resources.—As described by the Senate, \$1,000,000 is provided for abandoned mine reclamation in California and \$1,000,000 is provided for the Idaho Department of Agriculture weed control project. The Appropriations Committees urge the Bureau to main-

tain its wild horse and burro management program at current levels. Specific funding recommended by the Senate for the slickspot peppergrass project in Idaho is not included, but the Committees do not oppose the Bureau providing funding for this effort if the project is needed to accomplish public land management goals.

Wildlife and Fisheries Management.—The Administration proposed reduction for the National Fish and Wildlife Foundation (NFWF) is countered with increases above the request of \$575,000 in wildlife management and \$75,000 in fisheries management. Bill language is included providing a total of \$2,900,000 for the NFWF to use for activities benefitting the Bureau.

Recreation Management.—Recreation resources management funding includes an increase of \$750,000 for National scenic and historic trails as described by the House and \$750,000 for exhibits at the California National Historic Trail Center, NV, as described by the Senate.

Energy and Minerals.—The amended bill provides a total of \$117,129,000 for oil and gas management instead of \$112,129,000 recommended by the House and \$119,318,000 as proposed by the Senate. This funding level is equal to the fiscal year 2007 level, and is \$28,167,000 above the fiscal year 2006 funding. The amended bill modifies the House recommendation for a new cost recovery program for applications for permits to drill oil and gas wells (APD's). A similar program was requested by the Administration. The recommendation requires \$4,000 for each application for a permit to drill, which is less than the actual cost to the BLM. The estimated \$25,500,000 in revenues yielded will be used to offset appropriations for the oil and gas management activity. The Appropriations Committees expect that, given this new and additional cost to permittees, permits will be processed as efficiently as possible with a high level of public service, consistent with all applicable regulations and within the timeframes directed by existing law. Note that the President's budget for fiscal year 2008 had originally estimated an APD workload of 12,000 permits but now the Administration estimates that only 8,500 will be requested in fiscal year 2008.

The recommendation does not include the Administration request to amend the Energy Policy Act of 2005 to stop the use of \$21,000,000 in mandatory funds for the pilot oil and gas permitting offices.

The amended bill does not agree that the Bureau should continue receiving the full requested \$12,400,000 for Alaska North Slope activities, but does recognize the ongoing need for abandoned well remediation. Therefore, the recommendation includes \$6,000,000 for North Slope activities in the oil and gas management activity, an increase of \$6,000,000 from the fiscal 2006 level. Increases in the request for monitoring and enforcement are approved. Funds are not provided in this account for the oil and gas leasing internet pilot program but this effort is supported with funding provided in section 117. Wilderness and wilderness study areas should be very carefully examined and only used for oil and gas leasing when less sensitive lands are not available and when existing permitted areas are fully developed.

Realty Ownership and Management.—The Alaska conveyance program receives \$36,922,000 instead of \$33,922,000 proposed by the House and \$39,972,000 proposed by the Senate. The cadastral survey program includes \$250,000 for GIS mapping in Utah and \$80,000 for Wyoming soil surveys.

Resource Protection and Maintenance.—The resource protection and law enforcement activity receives a \$4,000,000 increase above the request to assist law enforcement needs in the vicinity of the southwestern border and as a general program increase.

CONSTRUCTION

The amended bill provides \$6,476,000 for construction as proposed by the House instead of \$11,476,000 as proposed by the Senate. The President’s budget should be followed in allocating these funds.

Fire facilities	6,234,000
Joint fire science	6,000,000
Rural fire assistance	6,000,000
Total	820,878,000

Bill Language.—Senate proposed items are included dealing with authority for rural fire assistance, certain leases of real property with local governments, and inter-departmental transfers with the Forest Service of up to \$10,000,000 for jointly funded wildland fire management programs and projects. A minor technical correction to the emergency suppression funding language provided in P.L. 110–116 is included; this correction allows repayment of funds borrowed within this appropriation account at the Department of the Interior.

Preparedness.—The Appropriations Committees remain dissatisfied that the Department of the Interior and the Forest Service have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

Fire Suppression Operations.—The amended bill includes \$294,398,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression increased for inflation, an increase of \$45,213,000 above the fiscal year 2007 funding level. Note that Title V includes \$78,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Hazardous fuels.—The amended bill provides an increase of \$3,005,000 over the fiscal year 2007 level. The joint report with the Forest Service on hazardous fuels funding allocations is required as

directed by the House and should be delivered 120 days after enactment.

Burned Area Rehabilitation.—The Department of the Interior and the Forest Service should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program. The House recommendation restricting reprogramming of rehabilitation funds need not be followed.

Fire Facilities.—Funding is included to conduct all but the lowest Administration priority project. The House recommendation to request fire facilities funds in the various bureau construction accounts need not be followed.

ADMINISTRATIVE PROVISIONS

The amended bill includes the House proposed language concerning enterprise information technology procurements.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The amended bill provides \$1,099,772,000 for resource management instead of \$1,104,572,000 as proposed by the House and \$1,079,772,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Ecological Services.—The amended bill provides \$267,570,000 for Ecological Services instead of \$266,370,000 as proposed by the House and \$270,870,000 as proposed by the Senate.

The amended bill moves \$3,000,000 from the critical habitat program to the listing program and has limited the total amount of funding that can be spent on critical habitat to \$9,926,000.

The amount provided for the national wetlands inventory should be used to provide for general program activities and to respond to increased demand for wetland inventory maps due to climate change management.

In addition to other established methods, the Service is encouraged to utilize biological pattern recognition technology where appropriate for tagging threatened or endangered fish and animal species.

The Service is encouraged to continue efforts to implement the snakehead management plan and the brown bullhead catfish cancer study in the Potomac River.

The amended bill includes \$1,000,000 for spartina grass eradication at Willapa National Wildlife Refuge but funding for this program is moved to the Partners for Fish and Wildlife program.

The increased funding for refuge operations should be used to reestablish basic operating capacity and staffing shortfalls at all refuges nationwide. In addition, these funds should be used to begin to alleviate the shortfalls identified in the refuge workforce plans and should be distributed outside the Refuge Operations Needs System (RONS) and other traditional allocation formulas.

The Refuge System is directed to report to the House and Senate Committees on Appropriations on the planned allocation and expenditure of the increased funding within 60 days of enactment of this bill.

The amount provided for refuge maintenance includes increases of \$3,000,000 for annual maintenance and \$3,000,000 for maintenance support.

Migratory Birds and Law Enforcement.—The amended bill includes \$101,667,000 for migratory birds and law enforcement as proposed by the House instead of \$102,167,000 as proposed by the Senate. Within the amount provided for migratory birds and law enforcement, \$41,082,000 is for the migratory bird management program and \$60,585,000 is for the law enforcement program.

The amended bill includes \$88,122,000 for the U.S. Park Police within this amount, the same amount requested in the budget and approved by the House. The Senate had provided the same amount in a separate appropriations account for the Park Police.

The amended bill provides for an overall increase for Park Service operations of \$153,387,000 over the amount available in fiscal year 2007. This amount fully funds all fixed costs, as requested in the budget, as well as the \$100,000,000 requested to begin preparing the National Parks for the Centennial in 2016. The amount provided is \$55,323,000 below the amount requested; \$25,000,000 of this reduction has been used as an offset to provide interim funding of the new Centennial Challenge matching program described below. Reductions below the budget request should be allocated among initiatives proposed in the budget as determined by the Director after consultation with the Appropriations Committees.

In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Maintenance.—Within the amount provided for maintenance of park facilities and properties, the amended bill provides \$50,000 for repairs at the Appomattox Courthouse NHP, \$100,000 for the Booker T. Washington NM, and \$200,000 to continue the multi-year historic landscaping project at Gettysburg NMP. No funding has been provided in fiscal year 2008 for the Hetch Hetchy study requested in the President's Budget.

Park Support.—In addition to the amounts requested in the budget, the amended bill provides \$10,000,000 for the National Trail System as provided by the House and Senate. The amended bill also includes \$1,500,000 for the National Wild and Scenic Rivers program instead of \$2,000,000 as proposed by the House and \$858,000 as proposed by the Senate. While the amended bill does not provide the \$1,000,000 increase proposed by the House to expand the Park Service social science program, the Appropriations Committees believe that, within the large increase approved by the Congress, the Director should take steps to enhance the Service's capacity to analyze and understand variations in park use among

different demographic groups. This effort will be critical as the Parks prepare for a new generation of users.

Funding for the National Underground Railroad program, the Brown v. Board of Education Foundation, and the Chesapeake Bay Gateways Network programs have been included in the National Recreation and Preservation account as proposed by the Senate rather than in this account as proposed by the House.

The Appropriations Committees are fully supportive of National Park Service financial contributions towards the Summer concerts series staged on the Capitol Grounds. Within the amounts approved for park support, the funding for this effort, which has not increased since 2003, is expected to be increased by \$300,000.

Japanese American Confinement Sites Act.—Legislation passed at the end of the 109th Congress authorized a new program of grant support to preserve Japanese American World War II confinement sites through partnerships with local, regional and national groups and/or institutions for the purpose of identifying, researching, evaluating, interpreting, protecting, restoring, repairing, and acquiring historic confinement sites in order to educate and provide inspiration to present and future generations (P.L. 109–441). The Committees are pleased that the Park Service has initiated the planning process for implementing this legislation and direct that the Service submit a report on progress in implementing the law to the House and Senate Committees on Appropriations prior to the fiscal year 2009 appropriation hearings.

Staffing of National Park Service units in the Hawaiian Islands.—The House and Senate Appropriations Committees have been made aware of the Park Service efforts that have been undertaken with respect to staffing levels in the State of Hawaii. As such, staffing restrictions imposed in the Senate report are no longer necessary.

Public Lands Corps.—The amended bill does not include a specific set-aside of funds within the Park Service for the Public Lands Corps as proposed by the House. The Committees are fully supportive of the continuation of the Park Service partnership with the Public Lands Corps but do not believe a specific statutory allocation of funds is necessary.

CENTENNIAL CHALLENGE

The amended bill includes \$25,000,000 for the Centennial Challenge program instead of \$50,000,000 as proposed by the House. The Senate deferred consideration for this program when it reported its bill from Committee. These funds have been provided to initiate the new Centennial Challenge matching grant program which has been proposed as a ten-year effort to generate \$2 billion for the renewal of the National Park system for its next century of service following its Centennial celebration in 2016. All funds must be matched on a 50/50 basis. The Appropriations Committees have agreed to these funds as interim funding to allow the program to commence in 2008. Funds will be administered under the existing challenge cost share program structure. The Appropriations Committees expect that permanent authorization will be enacted during the 110th Congress for the full ten-year program effort. In carrying out the interim program during fiscal year 2008, the Ap-

appropriations Committees expect the National Park Service to follow the guidelines for managing the Centennial Challenge program in House Report 110–187. These will ensure that projects are selected competitively and that they serve Park Service needs and priorities.

NATIONAL RECREATION AND PRESERVATION

The amended bill provides \$68,481,000 for national recreation and preservation programs instead of \$62,881,000 as proposed by the House and instead of \$63,756,000 as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Preserve America.—The amended bill includes \$7,500,000 for the Preserve America program under the National Recreation and Preservation appropriations account instead of \$5,000,000 as proposed by the Senate. The House bill provided \$10,000,000 for Preserve America under the Historic Preservation account.

Heritage Partnerships.—The amended bill provides \$15,500,000 for the heritage partnerships program. The amended bill does not earmark specific amounts for the 37 existing individual heritage areas. The Park Service is continuing to develop new competitive criteria for the distribution of this funding and expects to make a formal proposal for a new system as part of the fiscal year 2009 budget. As an interim process, the Appropriations Committees have agreed that \$13,000,000 of the funds provided for heritage partnership grants should be allocated in identical amounts to each grantee as was awarded by the Park Service competitive process in 2007. In addition \$150,000 should be allocated to each of the 10 new heritage area partnerships authorized during the 109th Congress. The remaining \$1,000,000 is provided to the Park Service to cover national and regional administrative costs of this labor-intensive program.

Cultural programs.—The amended bill includes \$21,742,000 for cultural programs, the same level as provided by the House and the Senate. Within this total, \$750,000 is provided for the National Underground Railroad program. The House bill provided \$1,000,000 for this purpose under the Park service operations account.

Statutory and contractual aid.—The amended bill provides \$7,600,000 for the statutory and contractual aid program as follows:

National Voting Rights Interpretive Center	\$500,000
Angel Island Immigration Ctr	1,125,000
Brown V Bd of Education Fdn	300,000
SW Penn Heritage Presv. Comm	1,200,000

Funding for the Eisenhower Memorial Commission, provided for under the statutory and contractual aid program in the House bill, has been funded at a level of \$2,000,000 as a “related agency,” as requested by the President.

Language proposed by the Senate related to cooperative agreements under the rivers and trails program is not included in the amended bill.

HISTORIC PRESERVATION FUND
(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$71,500,000 for the historic preservation fund program, instead of \$81,500,000 as proposed by the House and instead of \$75,000,000 as proposed by the Senate. Funding for the Preserve America program, funded in this account by the House, has instead been funded under the National Recreation and Preservation account as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Save America’s Treasures.—The amended bill provides that \$11,200,000 of the amount provided for the Save America’s Treasures historic preservation grants program be awarded under the existing competitive process. The remaining \$13,800,000 is provided for the following projects:

Bill language.—The amended bill includes programmatic requirements for the Save America's Treasures program as proposed by the House rather than similar language proposed by the Senate.

Bill language.—The amended bill does not include bill language proposed by the Senate related to pre-approval of National Park Service partnership agreements. The Appropriations Committees, however, are agreed that the Park Service should continue to follow pre-approval procedures for projects with a value in excess of \$5,000,000 as in previous years. The amended bill includes bill language proposed by the Senate related to the Yellowstone National Park municipal solid waste construction project.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The amended bill includes the rescission of \$30,000,000 in annual contract authority as proposed in the budget request and approved by the House and the Senate bills.

LAND ACQUISITION AND STATE ASSISTANCE

The amended bill includes \$70,070,000 for land acquisition and State assistance instead of \$99,402,000 as proposed by the House and \$78,700,000 as proposed by the Senate. This includes \$25,000,000 for the State Assistance Program, instead of \$50,000,000 as proposed by the House and \$30,000,000 as proposed by the Senate. State assistance funding includes \$1,500,000 for federal administrative costs.

Federal land acquisition is funded at \$45,070,000, distributed as follows:

	Subtotal, Land Acquisition	\$45,070,000

The amended bill provides \$2,000,000 for a grant to the State of Mississippi for acquisition of Cat Island in the Gulf Island National Seashore. This completes the Service's commitment for acquisition of land on Cat Island.

Bill language.—The amended bill does not include language proposed by the Senate prohibiting States from establishing contingency funds under the “State Assistance” grant program. The House bill did not include this language. Nor does the amended bill specify in statute an amount for federal administrative costs of the State Assistance program as proposed by the Senate.

NATIONAL PARK SERVICE ADMINISTRATIVE PROVISIONS

The amended bill modifies language included by the House but not the Senate regarding rights of appeal related to contested possessory interest determinations under the Park Service concessions program. The revised language provides the right of “de novo” appeal to both the Park Service and private parties when disagreements cannot be resolved administratively. The House language provided this right only to the Park Service.

The amended bill includes language proposed by the House allowing certain relocation benefits for individuals displaced as a result of acquisitions. The amended bill also includes language proposed by the House extending the legislative authority for the National Park Service Advisory Board. The Senate did not include similar provisions.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The amended bill provides \$1,022,430,000 for Surveys, Investigations, and Research instead of \$1,032,764,000 as proposed by the House and \$1,009,933,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

Geographic Research, Investigations, and Remote Sensing.—A total of \$1,000,000 is provided for the national cooperative geographic information system mapping effort. Funding for geographic analysis and monitoring follows the House recommendation to include \$3,000,000 for the multi-hazard initiative and restore ongoing geographic research which was slated for reduction in the budget request. The Senate recommendation for a priority ecosystems program increase is not included.

Geologic Hazards, Resources and Processes.—The recommendation increases funding above the request for earthquake hazards and the multi-hazard initiative within geologic hazards assessments by \$2,000,000, and \$500,000 above the request for both volcano hazards and the global seismographic network. Geologic landscape and coastal assessments funding includes the \$1,000,000 increase above the request recommended by the House for national cooperative mapping and a total of \$1,000,000 for the ocean action plan. The Appropriations Committees continue strong support for the multi-hazards initiative and encourage its continuation and enhancement. Note that the amended bill provides full support for the minerals assessment program despite the Administration's irresponsible proposal to decrease or eliminate funding for this important Federal program.

Water Resources Investigations.—Funding is provided for the following projects mentioned in the House or Senate recommendations: \$350,000 for the Memphis aquifer study (TN, MS, AR); \$200,000 for the Hood Canal dissolved oxygen study (WA); \$300,000 for the San Pedro partnership (AZ); \$500,000 for the Long-term Estuary Assessment Group (LA); and \$500,000 for the US-Mexico Aquifer Assessment Act (NM). A general increase of \$1,500,000 over the request is included for the national streamflow information program and the multi-hazard initiative. Funding for hydrologic networks and analysis includes the Senate recommended \$1,000,000 for the ocean action plan, \$500,000 for Lake Champlain toxic materials study (VT), and \$500,000 for Hawaii water monitoring. The Federal-State cooperative water program is increased by \$1,464,000 over the request for a total funding level of \$63,845,000. The water resources research institutes allocation is \$6,404,000 as recommended by the House and Senate.

Biological Research.—Overall funding for biological research and monitoring is \$143,514,000, an increase of \$5,442,000 over the fiscal year 2007 level. Specific project or program funding levels include: \$1,500,000 for the new healthy lands initiative; \$2,779,000 for Pacific Northwest forest biology as provided in fiscal year 2007; \$2,000,000 for contaminant/endocrine biology research; \$150,000 for anadromous fish research equipment (MA) as recommended by the House; \$43,900,000 for the overall wildlife, terrestrial and endangered species research effort as provided in fiscal year 2007; \$500,000 for Great Lakes research vessel infrastructure (WI) as recommended by the House; \$500,000 to support the San Francisco salt ponds restoration (CA) recommended by the Senate; and \$800,000 recommended by the Senate for Leetown Science Center (WV) molecular biology research. Funds are not provided for the Senate recommendations for the Fish and Wildlife Service science excellence program or the Leetown endocrine research. The National Biological Information Infrastructure effort receives a \$500,000 increase over the request for a total of \$6,849,000. The Cooperative research units funding is \$16,430,000, a \$1,000,000 increase over the request.

Enterprise Information.—The amended bill includes the House and Senate funding recommendation of \$112,120,000.

Science Support.—The amended bill includes the Senate funding recommendation of \$68,231,000.

Facilities.—The amended bill includes the House and Senate funding recommendation of \$101,553,000.

Global Climate Change Research Increase.—The amended bill includes a general program increase of \$7,500,000 instead of \$10,000,000 as proposed by the House. The funds should be allocated for high priority research efforts, and up to \$2,500,000 should be used by the Survey to establish the National Global Warming and Wildlife Science Center. The Survey is directed to notify the Committees on Appropriations of its allocation of global climate change research funds within 60 days of enactment.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The amended bill provides \$157,202,000 for royalty and offshore minerals management instead of \$153,552,000 as proposed by the House and \$159,948,000 as proposed by the Senate. Non-competitive alternative energy lease sales receive increases of \$2,000,000 over the request in the leasing and environmental program and \$250,000 in the regulatory program. The leasing and environmental program is reduced \$500,000 below the budget request. The Center for Marine Resources and Environment, MS, allocation is \$900,000 as recommended by the Senate.

The amended bill modifies language proposed by the House concerning lease sales in the North Aleutian Basin (NAB). Bristol Bay is home to one of the world's great fisheries; outer continental shelf drilling must only be conducted pursuant to all applicable environmental laws because it is vital that outer continental shelf oil or gas drilling be conducted only after detailed studies and information are available and ensure safety. MMS should continue to work

with technical and scientific bodies, State and local representatives, and industry and environmental representatives to document state-of-the-art oil spill containment and responses to blowouts. The Appropriations Committees also understand that oil spill response planning and compliance is a comprehensive program that involves input from the MMS, the U.S. Coast Guard, the Alaska Department of Environmental Conservation and the Aleutians East Borough to ensure that adequate oil spill resources and capabilities are available in the event of a release. Operators are required to have available, without delay, sufficient quantities of dedicated response equipment and trained response personnel necessary to meet the worst case discharge from their offshore activities. Before making a decision to proceed with the proposed NAB sale, MMS will complete an anticipated 2½ to 3 year pre-sale and NEPA process, which will include preparation of an environmental impact statement based on the most current and best scientific information. The MMS will use new information obtained through its Environmental Studies program and other available information acquired from other research programs and studies in that region. In addition, the Appropriations Committees direct the MMS to coordinate with the National Marine Fisheries Service, the Fish and Wildlife Service and the National Meteorological Center and to conduct a gap-analysis literature review of all available peer-reviewed scientific papers to determine what studies must be subjected to further analysis, including a literature review on the impacts of oil spills on commercial fisheries and marine mammals. The GAO study and other House report direction are not required at this time. The Committees agree that the MMS should develop a research agenda in association with stakeholders, scientists, and government administrators.

OIL SPILL RESEARCH

The amended bill provides \$6,403,000 for oil spill research as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

Bill language is included, recommended by the House and by the Senate (in Senate section 424) and consistent with the Administration request, to allow State oil and gas payments to help cover administrative costs of the program. The amended bill does not include the House recommendation to prevent transfers of funds into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The amended bill provides \$120,337,000 for regulation and technology instead of \$117,437,000 as proposed by the House and \$121,460,000 proposed by the Senate. This total includes an indefinite appropriation estimated to be \$100,000 and a total increase above the request of \$5,000,000 for the State and Tribal regulatory programs.

ABANDONED MINE RECLAMATION FUND

The amended bill provides \$52,774,000 for the abandoned mine reclamation fund as proposed by the House instead of \$52,835,000 as proposed by the Senate.

ADMINISTRATIVE PROVISION

The amended bill includes the provision recommended by the House and Senate allowing the transfer of title for computer hardware, software and other technical equipment to State and Tribal regulatory and reclamation programs.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes \$2,080,261,000 for the operation of Indian programs instead of \$2,093,545,000 as proposed by the House and \$2,046,341,000 as proposed by the Senate. This includes \$862,309,000 for tribal priority allocations instead of \$866,250,000 as proposed by the House and \$838,889,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Tribal Government.—The amended bill provides \$406,198,000 for tribal government instead of \$403,009,000 as proposed by the House and \$406,398,000 as proposed by the Senate. The funding distribution follows the Senate proposal except that the funding for the Western Shoshone Claims Distribution Act is \$300,000.

Human Services.—The amended bill provides \$141,548,000 instead of \$146,548,000, as proposed by the House and \$134,128,000 as proposed by the Senate. The housing improvement program is funded at \$13,830,000.

Trust: Natural Resources Management.—The amended bill provides \$149,489,000 for natural resources management instead of \$152,684,000 as proposed by the House and \$147,489,000 as proposed by the Senate.

The amended bill includes \$12,062,000 for irrigation operations and maintenance instead of \$11,062,000 as proposed by the Senate.

The amended bill includes \$1,740,000 for the Washington Timber-Fish-Wildlife program; \$4,134,000 for the U.S.-Canada Pacific Salmon Treaty; \$350,000 for Lake Roosevelt Management; \$315,000 for Upper Columbia United Tribes; \$600,000 for Circle of Flight; \$1,000,000 for the Inter-Tribal Bison Cooperative; and \$1,247,000 for endangered species management.

The funding provided for the Inter-Tribal Bison Cooperative should be distributed by the cooperative to participating tribes and not used for administrative expenses.

Trust: Real Estate Services.—The amended bill includes \$150,722,000 as proposed by the House instead of \$151,722,000 as proposed by the Senate.

Education.—The amended bill includes \$700,540,000 instead of \$699,040,000 as proposed by the House and \$685,540,000 as proposed by the Senate.

The amended bill does not include a provision contained in House section 115 which limits funding for Outer Continental Shelf leasing where such existing leases are not subject to limitations on royalty relief based on market price. The Appropriations Committees remain committed to this issue and expect the authorizing committees with jurisdiction to complete legislative action on this vital matter.

The amended bill does not include language contained in Section 116 of the Senate bill concerning winter use rules at Yellowstone National Park and surrounding facilities. The Committees are aware that the National Park Service issued a Record of Decision on winter use management for the parks on November 20, 2007, with implementing regulations to be issued shortly thereafter. The Committees are also aware of two lawsuits that have been filed which challenge the final environmental impact statement and the Record of Decision and that these matters will be litigated in the Federal courts. It should be noted that the legal challenges did not request a preliminary injunction, thereby allowing local operations to continue for the current 2007–2008 winter season. The Committees believe this to be in the best interest of all concerned parties.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The amended bill includes \$7,579,819,000 for the Environmental Protection Agency, instead of \$8,090,915,000 as proposed by the

House and \$7,772,928,000 as proposed by the Senate. In addition, the General Provisions section includes a total of \$11,000,000 as transfers for two remediation projects. The allocation of the total for the Agency, by account, program area, and where applicable by program-project and/or activity, is detailed on the table at the end of this Division.

Reprogrammings: The Environmental Protection Agency is held to the bill-wide reprogramming limitation of \$1,000,000, as recommended by the House. The limitation will apply to the program areas specified in the detailed table at the end of Division F, as proposed by the House. However, where a specific level for program-project or activity within a program area is cited, either in the detailed table or the explanatory statement below, the reprogramming limitation will apply at that level.

The Agency must provide better information in its Congressional Budget Justification and is directed to include those improvements cited in House Report 110-187. In addition, the Justification should contain a comprehensive list of programs which have been eliminated in the request.

Fixed Costs: An additional \$7,878,000 has been provided in five of the Agency's accounts to cover the fixed personnel costs and to ensure staffing levels consistent with the prior year. This increase is not spread by program area, as proposed by the Senate. Rather, a total increase for each account is provided, as indicated on the detailed table at the end of this Division. The Agency is directed to spread the funds as needed and submit a report to the Committees on Appropriations by March 1, 2008 on the allocation of these funds by program area and program-project.

SCIENCE AND TECHNOLOGY

The amended bill provides \$772,129,000 for Science and Technology, instead of \$783,269,000 as proposed by the House and \$772,530,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Air Toxics and Quality: \$3,950,000 for the CASTNET program, an increase of \$1,000,000 over the request;

An additional \$2,000,000 for ongoing work on Greenhouse Gas Regulations dealing with renewable or alternative fuels and vehicle efficiency.

Climate Protection Program: \$18,604,000 for the Clean Automotive Technology Program, as proposed by the House.

Homeland Security: \$11,884,000 for the Water Security Initiative, as proposed by the Senate and \$10,000,000 less than proposed by the House. The Agency has carried forward into fiscal year 2008 a large unobligated balance and will fund new pilots in fiscal year 2008. Therefore, the funding for additional pilots has been reduced until the Agency moves forward with the projects already funded. The Agency is directed to provide a report on the status, accomplishments, and future schedule for the Water Security Initiative. The report should be included as part of the Agency's FY 2009 Con-

gressional Budget Justification. \$2,000,000 for the Safe Buildings program, as proposed by both the House and the Senate.

The \$1,000,000 general reduction proposed by the House is not included.

Operations and Administration: The \$3,884,000 reduction proposed by the House is not included.

Research: Clean Air: \$20,000,000 for Global Change Research, instead of \$33,308,000 proposed by the House and \$18,619,000 proposed by the Senate. The increase is intended to fund research in support of future rulemaking efforts on Greenhouse Gases. The Agency is urged to award a portion of these funds through the STAR grant program.

Research: Clean Water: An additional \$1,000,000 for research on the human health effects and environmental impacts of carbon storage and sequestration to better inform regulatory decision making.

Research: Congressional Priorities: \$5,400,000, instead of \$7,000,000 as proposed by the Senate, for the following high priority projects:

\$2,100,000—Water Environment Research Foundation (WERF);

\$1,725,000—American Water Works Research Foundation (AWWRF)

\$1,050,000—Southwest Consortium for Environmental Research and Policy (SCERP)

\$525,000—Consortium for Plant Biotechnology Research

Research: Extramural Research Grants: Funds are not included for a new extramural research grant program, as proposed by the Senate.

Research: Human Health and Ecosystems: \$38,856,000 for Human Health Risk Assessment;

\$12,327,000 for Research: Computational Toxicology;

\$10,481,000 for Research: Endocrine Disruptors;

\$10,000,000 for Research: Fellowships: The increase above the request is to be used for STAR fellowships.

\$155,046,000 for Research: Human Health and Ecosystems, which is an increase of \$10,000,000 above the request. From within the amount provided, the Agency is directed to allocate \$6,000,000 to restore basic human health research and \$4,000,000 to restore the proposed reduction to the EMAP program.

The increases to these programs include the Administration's request for a \$6,098,000 increase to Human Health Risk Assessment. In recognition of these increases, the Agency is directed to follow the language in House Report 110-187 on the following issues:

Trichloroethylene

Polycyclic Aromatic Hydrocarbons (PAH)

The mineral Trona

In addition, the Agency is urged to report to Congress on the PAH study referenced in the House Report and also to develop an updated health standard for ingested hexavalent chromium, which then should be used to revise the Maximum Contaminant Level Goal as soon as possible.

In addition:

1. The Agency is directed to report on the short term results and long term assessment plans to reduce lab support costs Agency-wide.

2. The general reduction to this account, as proposed by the House, is not included.

3. It is imperative that EPA issue its decision on the December, 2005 waiver application submitted by the State of California to enact vehicle emission standards to reduce greenhouse gases by 30 percent in 2016 by no later than December 31, 2007. The Committees on Appropriations are dismayed that the EPA Administrator has unreasonably delayed his decision on the petition and forced the State of California to file suit in order to compel a decision. If no decision is made by that date, the Agency is directed to provide a report detailing why there is further delay, as proposed by the House.

Further, the Committees on Appropriations are concerned by reports that officials at other Federal agencies, including the Department of Transportation and the White House Office of Environmental Quality, may have engaged in inappropriate lobbying efforts to deny the waiver. The decision on California's waiver petition must be made on the petition's legal and technical merits and the approval process must not be politicized in any way.

CLIMATE CHANGE COMMISSION

The amended bill does not include the House proposal to fund a new Climate Change Commission.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The amended bill provides \$2,364,854,000 for Environmental Programs and Management, instead of \$2,370,582,000 as proposed by the House and \$2,384,121,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Brownfields: \$527,000 above the request to restore the Smart Growth program to prior year levels.

Climate Protection Program: \$49,000,000 for the Energy Star program;

\$4,436,000 for the Methane to Markets program;

\$3,500,000 within the Federal Support Air Quality Management program for the Agency to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. Bill language to this effect is provided in the administrative provisions section. The Agency is directed to publish a draft rule no later than nine months after the date of enactment of this Act, and a final rule no later than 18 months after the date of enactment of this Act. The Agency is further directed to include in its rule reporting of emissions resulting from upstream production and downstream sources, to the extent that the Administrator deems it appropriate. The Administrator shall determine appropriate thresholds of emissions above which reporting is

required, and how frequently reports shall be submitted to EPA. The Administrator shall have discretion to use existing reporting requirements for electric generating units under Section 821 of the Clean Air Act, and;

\$250,000 for the Agency to modify existing programs to accommodate quality assurance and quality control for emissions submitted via and regulated by the established northeastern Regional Greenhouse Gas Initiative (RGGI), in the same manner as set forth under Title IV of the Clean Air Act.

Funding is not included for the Asia-Pacific Partnership program. The general increase for climate protection programs, as proposed by the House, is also not included.

 \$9,786,000 for Compliance Incentives;
 \$90,128,000 for Compliance Monitoring.

In addition, the Agency is directed to develop a Chesapeake Bay action plan for the remaining years of the Chesapeake 2000 Agreement. This plan must: (1) clearly articulate realistic targets the Chesapeake Bay Program expects to achieve in each of the remaining years; (2) describe the actual activities the Chesapeake Bay Program will implement in each year to achieve these annual targets; (3) identify the amount and source of funding that will be used to accomplish each of these activities; and, (4) describe the process the Chesapeake Bay Program will use to track and measure the progress of these actions. The Agency is directed to implement the directives for this program included in House Report 110–187, should future budgets propose funds for this program, and report to the Committees on Appropriations on the use of prior year funds by March 1, 2008.

Indoor Air: An additional \$500,000 above the request for the Reduced Risks from Indoor Air program.

Information Exchange/Outreach: \$9,000,000 for the Environmental Education Program; \$6,241,000 for Children and Other Sensitive Populations. For the Environmental Education funds, the Agency is directed to apply the distribution formula in the authorizing statute to the entire amount provided.

International Programs: \$5,500,000 for the US/Mexico Border Program.

IT/Data Management/Security: The amended bill includes \$1,000,000 above the request to restore the network of EPA libraries recently closed or consolidated by the Administration, instead of \$2,000,000 as proposed by the Senate. The Agency is directed to submit a report to the Committees on Appropriations regarding actions it will take to restore publicly available libraries to provide

environmental information and data to each EPA region within 90 days of enactment of this Act.

Legal/Science/Regulatory/Economic Review: \$40,106,000 for Legal Advice: Environmental Program;
 \$14,246,000 for Legal Advice: Support Program;
 \$21,511,000 for Regulatory Innovation;
 \$16,551,000 for Regulatory/Economic-Management and Analysis.

Of the funds provided for Regulatory Innovation, the Agency is directed to provide at least \$1,015,000 to the Smart Growth program to restore it to prior year levels.

Operations and Administration: \$28,992,000 for Acquisition Management;

\$301,728,000 for Facilities Infrastructure and Operations, which reflects a reduction to the Agency's rent budget. The general reduction proposed by the House is not included.

Resource Conservation and Recovery Act (RCRA): Because Congress has not authorized fees necessary to administer an electronic manifest for hazardous waste, the requested \$4,000,000 for the manifest is not provided. Consistent with language in House Report 110-187, the Agency is directed to use a portion of the increase over the prior fiscal year to expedite completion of the final rule on disposal of industrial wipes and to report to the Committees on Appropriations by March 1, 2008, on the status of its efforts.

Toxics Risk Review and Prevention: \$12,240,000, an increase of \$1,225,000 above the request, for the High Production Volume Challenge (HPVC) and Voluntary Children's Chemical Evaluation Program (VCCEP), as proposed by both the House and Senate.

\$8,800,000 for Endocrine Disruptors, as proposed by the Senate. The Agency is directed to follow the report language on this subject in both the House and Senate Reports;

\$16,621,000 for Pollution Prevention, as proposed by the Senate.

Water: Ecosystems: \$35,000,000 for the Great Lakes Legacy Act, as proposed by the Senate and instead of \$37,000,000 proposed by the House.

\$27,203,000 for National Estuary Program/Coastal Waterways, as proposed by the House. The Agency is directed to allot \$16,832,000 of these funds to the National Estuary Section 320 grant program, consistent with the House recommendation.

Water: Human Health Protection: The amount provided includes an additional \$1,000,000 above the request for the Agency's work on the Underground Injection Control, Carbon Sequestration Rule. Funding for rural water programs is provided in the Environmental Protection/Congressional Priorities program area, as proposed by the Senate, and not as a competitive program here, as proposed by the House.

In addition:

1. The Agency is directed to fund the Smart Growth program at the fiscal year 2007 level in all program-projects which support the program. Based on information provided to the Committees, this amount should be no less than \$1,542,000 in the EPM Account.

2. The Agency is directed to submit a report on Environmental Justice, consistent with the directive in House Report 110-187.

3. Consistent with Senate Report 110–91, the Agency is urged to adopt final pesticide container recycling regulations within 180 days of enactment of this Act.

4. While the Agency is not directed to implement the WaterISAC program through a grant to the Association of Metropolitan Water Agencies, as outlined in Senate Report 110–91, given AMWA’s experience, the Agency is encouraged to consider this option.

5. The general reduction to this account, as proposed by the House, is not included.

6. The Agency was mandated by Congress in 1992 to adopt a rule pursuant to 15 USC 2692(c)(3) before October 28, 1996, to protect children from lead poisoning caused by renovation or remodeling activities in target housing, public buildings constructed before 1978, and commercial buildings that create lead-based paint hazards. More than 10 years after the deadline, EPA has not promulgated regulations, putting thousands of children at risk of the irreversible damage of lead poisoning. The EPA Administrator is directed to finalize the rule by March 31, 2008, and is urged to ensure that the rule is no less protective of children than the Lead-Safe Housing Rule adopted by the U.S. Department of Housing and Urban Development at 24 CFR Part 35 in 1999.

7. The Committees on Appropriations are aware of concerns about the potential environmental and health impacts of proposed new coal-fired power plants in the Central Texas region. The Government Accountability Office is requested to review the adequacy under the Clean Air Act of the determinations about such impacts carried out by the Environmental Protection Agency directly and as delegated to the State of Texas. The report should also include information on current electric power supply and demand in the region including fuel diversity and consumer electricity costs.

8. The Committees on Appropriations are aware of concerns about the classification of Great Basin National Park as a Class II rather than as a Class I area under the provisions of the Clean Air Act (title 42, Chapter 85, Subpart 1, Part C). The Government Accountability Office is requested to review whether the current classification of the Park is adequate to ensure long-term protection of air quality and visibility in the Park under the Environmental Protection Agency’s direct and delegated authorities.

OFFICE OF INSPECTOR GENERAL

The amended bill provides \$41,750,000 for the Office of the Inspector General account, instead of \$43,500,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

Audits, Evaluations, and Investigations: \$41,750,000 for general IG work, instead of \$43,500,000 proposed by the House and \$40,000,000 proposed by the Senate. This \$3,742,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the amount transferred from the Superfund account. None of the funds provided are to be used for buyouts associated with staffing reductions. The Inspector Gen-

eral is directed to submit quarterly staffing reports to the Committees on Appropriations.

The amended bill provides that \$11,668,000 be paid to this account from the Hazardous Substance Superfund Account. Bill language in Title III continues the mandate that the Agency's Inspector General serve that function for the Chemical Safety and Hazard Investigations Board.

BUILDINGS AND FACILITIES

The amended bill provides \$34,801,000, the same as both the House and the Senate. The table at the end of this Division allocates the total for this account by program area.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,273,871,000 for the Hazardous Substance Superfund, instead of \$1,272,008,000 as proposed by the House and \$1,274,643,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Audits, Evaluations, and Investigations: The amended bill includes \$11,668,000 to be paid from this account to the Office of the Inspector General account, instead of \$10,000,000 proposed by the House and \$13,337,000 proposed by the Senate. This \$4,519,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the Office of the Inspector General account. None of the funds provided to the Inspector General from this account are to be used for buyouts associated with staffing reductions.

Enforcement: \$167,000,000 for Superfund Enforcement, of which \$26,000,000 is directed to the Interagency Agreement with the Department of Justice;

\$9,843,000 for Federal Facility Enforcement;

\$ 3,802,000 for Forensics Support.

Legal/Science/Regulatory/Economic Review: \$750,000 for the Legal Advice: Environmental program.

Superfund Cleanup: \$192,880,000 for Superfund: Emergency Response and Removal;

\$9,318,000 for Superfund: EPA Emergency Preparedness;

\$31,879,000 for Superfund: Federal Facilities;

\$600,000,000 for Superfund: Remedial;

\$6,575,000 for Superfund: Support to Other Federal Agencies.

Bill Language: Language is included to provide up to \$1,273,871,000 as the maximum payment from general revenues for Superfund, instead of \$1,272,008,000 as proposed by the House and \$1,274,643,000 as proposed by the Senate. Language is also included to pay from this account, \$11,668,000 to the Office of Inspector General account and \$26,126,000 to the Science and Technology account.

The following reports should be submitted to the Committees on Appropriations no later than March 1, 2008:

1. The report on Army Corps of Engineers oversight of Superfund Cleanups, as outlined in House Report 110–187.
2. The report on Superfund Alternative Sites, as outlined in House Report 110–187.
3. The report on Human Health Risks, as outlined in Senate Report 110–91.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The amended bill provides \$107,493,000 for the Leaking Underground Storage Tank Account, instead of \$117,961,000 as proposed by the House and \$72,493,000 as proposed by the Senate. The amended bill includes the House proposal to fund Underground Storage Tank grants through this account instead of through the State and Tribal Assistance Grants account, as proposed by the Senate. This is consistent with the Energy Policy Act of 2005 and the Agency is expected to request future funding through the Leaking Underground Storage Tank Program account. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Underground Storage Tanks (LUST / UST): \$10,558,000 for the LUST/UST program;

\$62,207,000 for the LUST Cooperative Agreements, instead of \$68,207,000 proposed by the House and \$58,207,000 proposed by the Senate;

\$31,000,000 for the Underground Storage Tank Grants, authorized by the Energy Policy Act of 2005, instead of \$35,500,000 proposed by the House and \$22,500,000 proposed by the Senate in the State and Tribal Assistance Grants account.

Bill Language: The amended bill includes language proposed by the House which clarifies that \$76,493,000 is for activities authorized by section 9003(h) of the Solid Waste Disposal Act, and thus subject to the 80 percent set-aside requirement for state cooperative agreements. The language also clarifies that the remaining funds, \$31,000,000, is available for the activities authorized by the 2005 Energy Policy Act. In addition, bill language is included to authorize Tribal grants for those same functions. The amended bill does not accept the President's proposed language to amend the Energy Policy Act to change the types and frequency of state inspections.

OIL SPILL RESPONSE

The amended bill provides \$17,326,000 for oil spill response, instead of \$17,280,000 as proposed by the House and \$17,487,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

STATE AND TRIBAL ASSISTANCE GRANTS

The amended bill provides \$2,972,595,000 for state and tribal assistance grants, instead of \$3,406,514,000 as proposed by the House and \$3,181,853,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. In addition, the Agency is further directed to:

Infrastructure Assistance:

1. Mexico Border: Of the funds provided for this program, \$5,000,000 is directed to the El Paso and Brownsville projects funded in prior years. The Agency is directed to report to the Committees on Appropriation on a proposed distribution of these funds between the two projects. The Agency further is directed to report to the Committees on Appropriations by May 1, 2008, on actions taken to reform the program and report quarterly on unobligated and unliquidated balances.

2. Diesel Emission Reduction Grants: The amended bill reflects the House recommendation to make Diesel Emission Reduction Act (DERA) grants available to all areas, not just those that are currently not in attainment with the national ambient air quality standards. Noted, however, is the importance of continuing to target limited Federal diesel emission reduction funds to areas that face the worst air quality and the greatest risk to public health. The Agency is urged to develop an allocation methodology for DERA funds consistent with the underlying authorizing statute which gives priority to non-attainment areas as well as other important priorities to address the overall emission reduction needs of the Nation.

3. California Diesel Emission Reduction Projects: The amended bill includes \$10,000,000 for this program, instead of \$15,000,000 proposed by the Senate. The funds should be divided equally between the San Joaquin Valley Air Pollution Control District and the South Coast Air Management District, with each district receiving \$5,000,000. Further, the Agency is directed to follow the language in Senate Report 110–91 governing this program.

Categorical Grants: 1. Pollution Control Sec. 106 grants: The Agency may not withhold funds for an NPDES permit fees pilot program and is directed to use the same allocation method as used in prior years.

2. Targeted Remediation Project Grants: Funding is provided through General Provisions in Title IV.

3. Targeted Watershed Grants: The funds provided for this program are directed to the continuation of grants provided in the prior year for the Western Estuaries Program.

4. Underground Storage Tanks: The amended bill retains a small amount of the requested level in this account, while moving the vast majority to the Leaking Underground Storage Tank account. The funds remaining in this account will cover the state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

Bill Language: Language is included, as proposed by the House, making up to \$75,000,000 in Clean Water State Revolving Funds available for decentralized wastewater and stormwater projects. The amended bill also includes language, as proposed by the House, to provide funds for Targeted Watershed Grants and concerning Tribal grants for the underground storage tank program. Language, as proposed by the Senate, is included referencing special projects grants and to provide funds for Emission Reduction Grants in California.

The amended bill includes a set aside of \$18,500,000 from the Section 106 Water State Grant for water quality monitoring activities. However, the amended bill does not include language, proposed by the Senate, limiting the funds for water quality monitoring to those activities that meet EPA standards for statistically representative monitoring programs.

Language proposed by the Senate for the Hunter's Point and Tar Creek projects has been moved to the General Provisions section in Title IV.

Senate Language related to the \$5,000,000 rescission of prior year funds for Title II of the Federal Water Pollution Control Act is carried in the Administrative Provisions section, as proposed by the House.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING RESCISSION OF FUNDS)

The amended bill includes minor technical corrections to the language on consultants pay. A provision rescinding \$5,000,000 from prior year funds for Title II of the Federal Water Pollution Control Act is included here, as proposed by the House. The amended bill includes language, as proposed by the Senate, to mandate that \$3,500,000 from the Environmental Program and Management account be used for activities related to mandatory reporting of greenhouse gas emissions. The language requires a draft rule nine months after enactment of this bill and a final rule 18 months after enactment. The amended bill does not include language proposed by the House on a multi-sector greenhouse gas regulation.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The amended bill provides \$290,457,000 for Forest and Rangeland Research instead of \$295,937,000 as proposed by the House and \$291,807,000 as proposed by the Senate. The forest inventory and analysis program is provided \$61,329,000 instead of \$62,329,000 recommended by the House and the Senate; this is an increase of \$1,949,000 above the fiscal year 2007 level. Fixed costs are provided as recommended by the Senate and the following specific project funding levels instead of the levels recommended by the Senate: Center for Bottomland Hardwoods, MS, \$400,000; Northeastern States Research Cooperative, \$2,200,000 including \$850,000 for both Vermont and New Hampshire, \$300,000 for Maine and \$200,000 for New York. The remaining increase above the request is for base programs. The Appropriations Committees have agreed with the Senate recommendation directing the Service to maintain the base budgets of individual research stations at or near prior year levels.

STATE AND PRIVATE FORESTRY

The amended bill provides \$266,974,000 for State and Private Forestry instead of \$280,602,000 as proposed by the House and \$272,542,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Forest Health Management.—The amended bill provides \$54,967,000 for Federal Lands Forest Health Management as proposed by the Senate instead of \$53,963,000 as proposed by the House. The amended bill includes \$45,248,000 for cooperative lands forest health management instead of \$47,104,000 as proposed by the House and \$47,248,000 as proposed by the Senate. Within available funds, the Forest Service should provide funding for gypsy moth slow-the-spread, suppression and eradication programs and western mountain bark beetle management at historic funding levels.

Cooperative Fire Protection.—The amended bill includes \$33,122,000 for State Fire Assistance as proposed by the House and the Senate. The amended bill includes \$6,000,000 for volunteer fire assistance instead of \$9,000,000 as proposed by the House and \$5,912,000 as proposed by the Senate. Note that the amended bill also includes additional funds for State fire and volunteer fire assistance as part of the national fire plan funding within the wildland fire management account and retains \$6,000,000 in the Bureau of Land Management wildland fire management account for rural fire assistance, which was eliminated in the House and administration recommendations. The Forest Service and the Department of the Interior wildfire officials are encouraged to collaborate and cooperate with States and other stakeholders when allo-

cating these assistance grants. The House recommendation should be followed so that allocations of fire assistance grants to regions and States must carefully consider actual program needs and local urgency, particularly with regard to community protection in the wildland urban interface.

Forest Stewardship.—The amended bill includes \$30,000,000 for Forest Stewardship instead of \$36,947,000 as proposed by the House and \$34,288,000 as proposed by the Senate. The Chesapeake Bay program receives \$950,000 as recommended by the Senate.

Forest Legacy Program.—The amended bill provides \$53,146,000 for Forest Legacy instead of \$56,336,000 recommended by the House and \$48,095,000 reported in the Senate. The funds for other Forest Service priority projects should be used according to the results of the national competitive selection process to fund projects in priority order, but not provide additional funds for any item listed here. Funds should be distributed as follows:

The amended bill does not include bill language proposed by the Senate requiring notification of the Committees on Appropriations when the Forest Service makes funds available for specific forest legacy projects.

Urban and Community Forestry.—The amended bill includes \$28,130,000 for the Urban and Community Forestry program instead of \$31,130,000 as proposed by the House and \$30,846,000 as proposed by the Senate. Project funding includes: \$200,000 for urban forestry cooperative activities in El Segundo, CA; \$500,000

for the Seattle-Tacoma regional urban forestry effort; \$350,000 for Chicago urban tree planting; and \$200,000 for Indianapolis tree planting.

The amended bill provides \$250,000 to the Washington Family Forest Foundation to complete a State and private landowner management database; \$200,000 to the Northern Forest Center to continue sustainable forestry grants; \$500,000 to Purdue University to fund wood products technology development at the Hardwood Scanning Technology Center; \$350,000 to the State of Vermont to fund grants and technical assistance to wood products businesses through the Vermont Wood Products Collaborative; \$1,300,000 to Forest Service Region 5 for infrastructure assistance grants to help sustain the region's small forest products businesses; and an increase of \$1,673,000 above the request to restore funding for the Wood Education and Resource Center to last year's enacted level, for a total of \$2,673,000.

Forest Resource Information and Analysis.—The amended bill includes \$4,588,000 for Forest Resource Information and Analysis as proposed by the Senate instead of \$5,000,000 as proposed by the House.

International Program.—The amended bill includes \$7,500,000 for the International Program instead of \$8,000,000 as proposed by the House and \$6,953,000 as proposed by the Senate.

NATIONAL FOREST SYSTEM

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,492,868,000 for the National Forest System instead of \$1,506,502,000 as proposed by the House and \$1,500,234,000 as proposed by the Senate. Funds should be distributed as follows:

Land management planning	\$49,607,000
Inventory and monitoring	169,220,000
Recreation, heritage & wilderness	266,797,000
Wildlife & fish habitat management	134,483,000
Grazing management	48,926,000
Forest products	327,614,000
Vegetation & watershed management	180,249,000
Minerals and geology management	85,476,000
Landownership management	92,746,000
Law enforcement operations	134,000,000
Valles Calderas National Preserve, NM	3,750,000
Total	1,492,868,000

The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Inventory and Monitoring.—The amended bill includes \$700,000 for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands pursuant to Title IV of the Healthy Forest Restoration Act.

Recreation, Heritage, and Wilderness Management.—The amended bill includes the Senate recommendation for fixed costs and \$250,000 to demarcate wilderness boundaries in Nevada. The re-

maintaining increase is for base programs and the agency is directed to use a portion of these funds to increase the base funding level for the operation of the various national scenic and historic trails over the enacted level.

Forest Products.—The amended bill provides \$327,614,000 for Forest Products instead of \$332,614,000 as proposed by the House and \$326,176,000 as proposed by the Senate. The amended bill does not include the House recommendation to set-aside \$10,000,000 for high revenue units but does include the Senate proposed earmark in bill language of \$4,000,000 for Tongass national forest timber sales preparation. The amended bill supports the policy in the budget request to fund forestry activities in support of the President's Pacific Northwest forest plan; regional allocations from this account may be adjusted but must provide at least the actual capability funding level and other sources should also be considered to further assist plan implementation. The Service should carefully consider allocating timber sales funding to those areas where existing roads are available and where there are lower engineering costs for making roads suitable for harvest activities.

Vegetation and Watershed Management.—The amended bill includes the Senate recommendation for fixed costs and \$350,000 for leafy spurge control in North Dakota. The remaining increase is for base programs.

Minerals and Geology Management.—The amended bill provides funding for fixed costs as recommended by the Senate. The direction proposed by the House is modified so that the first priority for use of the increased funds above the request should be managing geologic hazards and resources and managing environmental compliance and restoration, including mitigation of abandoned mine lands. Processing mineral applications may be considered thereafter. The Senate recommendation is retained requiring the Forest Service to provide a report on prioritization of abandoned mine land clean-up on national forest lands within 90 days of enactment of this Act.

Law Enforcement operations.—The amended bill retains the House recommended \$500,000 increase for methamphetamine prevention on the Mark Twain NF, MO and the Senate recommended \$900,000 increase for the Daniel Boone NF, KY anti-drug effort. Use of other funds above the request should follow Senate instructions.

Valles Caldera National Preserve.—The Senate proposal concerning allocation of funds is modified. Rather than directing a specific percentage of funds be split between salaries/operations and infrastructure improvements, the Preserve management should minimize overhead and administrative expenses to the greatest extent practicable and make a strong effort to improve the infrastructure at the site so that it may be enjoyed by more members of the public. The report recommended by the Senate on economic self-sufficiency is required.

Other.—The specific allocation of extra funds for challenge cost share recommended by the House is not included but the Service should continue this program with available funds in a similar manner as in the past.

Note that section 423 of the amended bill retains \$15,000,000 of the Senate-recommended transfer of purchaser elect road funds to regions for vegetative, fuels and road treatments.

CAPITAL IMPROVEMENT AND MAINTENANCE

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$481,895,000 for Capital Improvement and Maintenance instead of \$520,197,000 as proposed by the House and \$444,090,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless countered by the discussion below. The amount provided includes a transfer of \$25,000,000 from the purchaser elect road fund instead of \$40,000,000 in the House bill and no transfer in the Senate recommendation. The Senate included language in Title IV (Senate section 421) which distributed \$40,000,000 from the purchaser elect road fund to Forest Service regions for certain vegetation management and maintenance needs, which is modified as noted above. In addition, funds from the road and trail fund are transferred to the Treasury as recommended by the House, providing approximately \$15,000,000 which has been included in this account. The Senate had recommended that the road and trail fund be allocated following instructions included in Title IV. House recommended bill language providing for decommissioning of certain unauthorized roads is retained. Funds should be distributed as follows:

<i>Activity/Project</i>	<i>Amount</i>
Facilities:	
Maintenance	\$64,310,000
Capital Improvement	56,039,000
Congressional Priorities:	
Chattanooga airtanker base (TN)	750,000

Subtotal Facilities	123,684,000
Roads:	
Maintenance	136,536,000
Capital Improvement	93,140,000

Deferred Maintenance	9,100,000
Legacy Road and Trail Remediation Program:	
Legacy roads and trails program	40,000,000
Total, Capital Improvement and Maintenance	481,895,000

The Service should focus its timber road program when practicable to areas that do not need expensive construction or engineering support. The recommendation includes base funding for maintenance, construction, and operation of the network of national scenic and historic trails at least \$2,000,000 above the fiscal year 2006 levels. The amended bill includes the House recommendation for the legacy road and trail remediation program but at a reduced level of \$40,000,000; these funds are for urgently needed road decommissioning, road and trail repair and maintenance, removal of certain fish passage barriers, or for protection of community water sources and the allocation of funds to regions should carefully consider regional needs and project readiness for these urgently needed activities.

The amended bill includes the Senate recommendation to transfer previously appropriated funds to West Virginia University for a shared-use research greenhouse facility as the Federal share in the construction.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides \$1,974,276,000 for Wildland Fire Management instead of \$1,974,648,000 as proposed by the House and \$1,982,482,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below. The amended bill does not require establishment of a high level commission recommended by the House to propose alternative methods to fund and manage fire suppression and firefighting capacity. The Committees on Appropriations and the authorizing committees of jurisdiction are working on these issues.

Wildfire Preparedness: \$676,370,000 for preparedness as proposed by the Senate instead of \$675,382,000 proposed by the House. The amended bill reiterates the direction contained in the House and Senate reports regarding the need to maintain the level of fire readiness established in fiscal year 2006. The Appropriations Committees remain dissatisfied that the Forest Service and Department of the Interior have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

The Appropriations Committees are aware that the Forest Service is facing challenges to recruit and retain wildland firefighters in Region 5, particularly on Southern California forests, due to the agency's vastly different pay scales and personnel policies and the high cost of living in the region. The Forest Service should examine

Federal firefighter pay and personnel policies and provide the House and Senate Committees on Appropriations with a proposal to increase recruitment and retention for Southern California forests no later than February 1, 2008. Note that flexibility has been provided to adjust preparedness and suppression funding to implement such a plan if the agency determines it is in the interest of public safety and to reduce future suppression costs.

Wildfire Suppression Operations—The amended bill includes \$859,021,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression increased for inflation, an increase of \$117,544,000 above the fiscal year 2007 funding level. Funds designated for wildfire suppression shall be assessed for cost pools on the same basis as such assessments are calculated against other agency programs. Note that Title V includes \$222,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Other Wildfire Operations.—The amended bill includes \$438,885,000 for other fire operation activities instead of \$440,245,000 as proposed by the House and \$447,091,000 as proposed by the Senate. Funds should be distributed as follows:

<i>Program</i>	<i>Amount</i>
Hazardous fuels	\$315,000,000
Rehabilitation & restoration	11,000,000
Research & development	23,892,000
Joint fire science	8,000,000
Forest health management-Federal	14,252,000
Forest health management-cooperative	10,014,000
State and community fire assistance	48,727,000
Volunteer fire assistance	8,000,000
Total other wildfire operations	438,885,000

Hazardous fuels.—The amended bill provides an increase of \$13,472,000 over the fiscal year 2007 level and \$23,467,000 over the Administration request. The ferocious 2007 fire season burned more than 8.9 million acres nationwide—including more than half a million acres alone in Southern California during an October 2007 Santa Ana wind event—and further underscores the need to reduce the risk of catastrophic wildfire and to provide community protection. The amended bill also supports direction provided by the Senate to the Forest Service to allocate hazardous fuels funds according to a model that prioritizes fuels treatments in the wildland-urban interface and gives greater weight to areas with high fuel loads, high population densities, and higher relative values at risk. The amended bill also concurs with the Senate direction and directs the Forest Service to provide recommended allocations within 30 days of the signing of the bill and 14 days prior to releasing funds to the field.

The amended bill allows up to \$10,000,000 of hazardous fuels funds to be transferred to the “National Forest System” account at the sole discretion of the Chief of the Forest Service 30 days after notifying the Appropriations Committees. A total of \$7,000,000 is provided for biomass utilization grants of which \$2,000,000 is for the biomass to ethanol pilot project managed by the Forest Products Lab. The Senate recommended funding for the Southwest Ecological Restoration Institutes is provided but this is the sole Fed-

eral support for these institutions working under authorities related to P.L. 108-317; the allocation includes \$2,000,000 for Northern Arizona University, \$350,000 for New Mexico Highlands University and \$250,000 for Colorado State University. The joint report with the Department of the Interior on hazardous fuels funding allocations is required as directed by the House and should be delivered 120 days after enactment.

Rehabilitation.—The Forest Service and the Department of the Interior should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program.

Fire plan research and development.—The University of Idaho FRAMES project total allocation is \$650,000.

State fire assistance.—The amended bill modifies the Senate recommendation to include \$4,000,000 to fund fire risk reduction activities by Fire Safe Council chapters in California and retains \$1,000,000 for the South Lake Tahoe Public Utilities District for improvements to increase water system pressure in case of fire. It also provides \$2,500,000 for Alaska, of which \$1,000,000 is for the Kenai Peninsula Borough, \$200,000 is for the Cook Inlet tribal council, \$300,000 is for Fairbanks North Star Borough, \$500,000 is for the Matanuska-Susitna Borough, and \$500,000 is for the Municipality of Anchorage. Senate instructions on distribution of these funds should be followed by the Service.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The amended bill includes the Senate limitation of funds for abolishing or moving certain offices. The House language is retained regarding use of funds for international program activities; the Foreign Agricultural Service need not be involved in Forest Service International Program activities, grants or agreements. Bill language provided by the House limits \$24,021,000 of funds available to the Forest Service for transfer to the Department of Agriculture for Department Reimbursable Programs, commonly referred to as Greenbook charges. Funds available to the Forest Service shall be available to conduct a program of up to \$5,000,000 for priority projects within the scope of the approved budget, of which \$2,500,000 may be carried out by the Youth Conservation Corps and \$2,500,000 may be carried out under the authority of the Public Lands Corps Healthy Forests Restoration Act. The House recommended funding of \$3,000,000 for the National Forest Foundation is retained, as is the Senate language which does not provide for any of these funds to be used for administrative expenses of the Foundation. Senate language is retained regarding funding for technical assistance to rural communities and certain businesses and reimbursement for limited Office of General Counsel travel expenses.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The amended bill includes \$3,018,624,000 for Indian Health Services instead of \$3,023,532,000 as proposed by the House and \$2,991,924,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

The funding distribution follows the House proposal, except that \$27,000,000 is included for the catastrophic health emergency fund; \$14,000,000 is included for the methamphetamine treatment and prevention initiative; \$14,000,000 is included for the Indian health care improvement fund; \$35,094,000 is included for the Urban health program; and \$271,636,000 is included for contract support costs.

The amended bill includes language that allows the director of the Indian Health Service to distribute the funding for the methamphetamine treatment and prevention program to the areas with the greatest need within Indian country. The bill also allows up to \$5,000,000 of these funds to be used for the behavioral health issues associated with methamphetamine use including combating youth suicide. Tele-medicine technology should be used when possible to support remote or isolated communities that would otherwise have difficulty obtaining services.

The Indian Health Service is directed to allocate the Indian Health Care Improvement Act funding to bring those units with the highest level of need up to at least 40 percent of need before allocating any additional funds to units with needs above 40 percent.

The Service is directed to provide technical assistance to the Nevada Indian Health Board, as needed, to facilitate its establishment as an entity that can both adequately address health issues of the Nevada tribes and effectively represent these same issues to the Indian Health Service at both the Phoenix Area and the national headquarters levels.

INDIAN HEALTH FACILITIES

The amended bill includes \$380,583,000 for Indian health facilities instead of \$360,895,000 as proposed by the House and \$375,475,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division. Funds should be distributed as follows:

	<i>Amount</i>
Maintenance and Improvement	\$53,727,000
Sanitation Facilities	95,747,000
Health Care Facilities Construction	37,164,000
Hospital and Clinic Construction	32,664,000
Small Ambulatory	2,500,000
Dental Units	2,000,000
Facilities and Environmental Health Support	172,326,000
Equipment	21,619,000
Total	\$380,583,000

The amended bill does not include specific recommendations for funding of health facilities construction projects as provided by both the House and the Senate. Instead, it is expected that the Indian Health Service will use the amounts provided within this activity for the highest priority projects from the Service's list, for which construction has already been initiated and for which additional funding is required to keep the project on schedule. The Service may also use construction funds to begin design on not to exceed one project from the current priority list that has met all of the program requirements and is ready to proceed without delay.

The amended bill does not contain funding for the joint venture program as recommended by the Senate instead of \$2,000,000 as recommended by the House. It is understood that sufficient funds remain available from within amounts provided for joint ventures in previous fiscal years to fund an additional two projects from the last solicitation list. These funds are available because of savings achieved by the Service and tribes in negotiating their agreements. In determining priorities for project funding under the joint ventures program for hospitals and clinics, the Service should provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The amended bill provides \$78,775,000 for the National Institute of Environmental Health Sciences, instead of \$79,117,000 as proposed by the House and \$78,434,000 as proposed by the Senate.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

The amended bill provides \$75,212,000 for Toxic Substances and Environmental Health, as proposed by the House instead of \$75,004,000 as proposed by the Senate. Senate proposed language to limit the number of toxicological profiles conducted by the Agency is not included.

From within the amount appropriated, ATSDR is expected to assess the extent of children's exposure to mercury from former industrial sites and other sources nationwide, and to issue a report of its findings 12 months after the date of enactment of this bill. ATSDR is further expected, in collaboration with the Centers for Disease Control and Prevention, to continue to provide biomonitoring, exposure assessment, clinical evaluation, and education, as appropriate.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT

COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

The amended bill provides \$2,703,000 for the Council on Environmental Quality and the Office of Environmental Quality, as re-

quested by the President and as provided by both the House and Senate.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

The amended bill provides \$9,410,000 for the salaries and expenses of the Chemical Safety and Hazard Investigation Board, instead of \$9,049,000 as proposed by the Senate and \$9,549,000 as proposed by the House.

Bill Language: The amended bill includes language proposed by the House, and carried in prior years, which authorizes the Inspector General of the Environmental Protection Agency to act as the Inspector General for the Board and specifies certain personnel issues related to this role.

The additional funding is intended to fund up to three new investigators, as proposed by the House. Additional funds have not been provided for video production support, as proposed by the House.

Consistent with House Report 110–187, GAO is directed to update its 2000 study and make further recommendations on the best way to provide an IG oversight function for the Board. Based on that report, the Committees on Appropriations will revisit this issue for fiscal year 2009.

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

The amended bill includes \$9,000,000 for the office of Navajo and Hopi Indian relocation as proposed by both the House and the Senate.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The amended bill includes \$7,297,000 for the Institute of American Indian and Alaska Native Culture and Arts Development as proposed by both the House and the Senate.

SMITHSONIAN INSTITUTION

The amended bill includes a total of \$693,447,000 for the Smithsonian Institution, an increase of \$58,552,000 over the fiscal year 2007 level and an increase of \$15,000,000 over the budget request. The increase over the budget request is to initiate a new Legacy Fund described below. Funding for the Smithsonian Institution includes:

	<i>Amended bill</i>
Salaries and Expenses	\$571,347,000
Facilities Capital	107,100,000
Legacy Fund	15,000,000
	<hr/>
Total, Smithsonian Inst.	693,447,000

SALARIES AND EXPENSES

The amended bill provides \$571,347,000 for salaries and expenses instead of \$536,295,000 as proposed by the House and \$571,705,000 as proposed by the Senate. The amended bill approves the budget as requested by the President with two exceptions. The Office of Inspector General is increased by \$100,000 above the request and the Chief Financial Officer is increased by \$250,000. These increases are to be absorbed within the total request for salaries and expenses.

The large increase approved for the Smithsonian reflects increased confidence in the Institution after a period of great controversy. Since the budget was submitted in February, the Smithsonian Institution has moved aggressively to address longstanding governance and integrity issues. The senior leadership of the Institution has turned over and the Regents have reorganized themselves to ensure that the reform process begun after the departure of the previous Secretary is fully implemented. The Appropriations Committees believe that this reform effort will take many years, but the change in leadership and the reform efforts undertaken over the last eight months represent significant progress. The Committees will carefully monitor this continuing reform process to ensure that the Smithsonian does not backslide on this critical task.

FACILITIES CAPITAL

The amended bill includes \$107,100,000 for the Facilities Capital account instead of \$116,100,000 as proposed by the House and \$125,000,000 as proposed by the Senate. The amended bill does not specify amounts for individual facility construction and repair projects. The Committees are aware, however, of urgent fire safety needs at the National Zoo and expect the Institution to work as expeditiously as possible to make the National Zoo and other facilities fire safe.

LEGACY FUND

The amended bill includes \$15,000,000 to establish a Legacy Fund within the Smithsonian Institution appropriation. This new fund is intended to provide a means to address more aggressively the \$2.5 billion backlog of major repair and restoration of the Institution's facilities that now exists. The Legacy Fund has been designed as a public-private partnership whereby each federal dollar provided must be matched by twice that amount in private contributions before the full \$15,000,000 is made available. Assuming that the Smithsonian's efforts to raise the required private match are successful, the Legacy Fund will provide a total of \$45,000,000 above amounts appropriated in the Facilities Capital account to be used solely for the purpose of bringing the Institution's facilities up to the world-class standard its collections and the visiting public deserve.

NATIONAL GALLERY OF ART

The funding provided restores the reduction to repair and maintenance of fixed equipment by providing \$4,928,000. The remaining increase over the request is provided for increased utility costs, art conservation services and supplies.

Sec. 429: Modifies Senate Section 428 which provides permanent authority regarding fire fighter liability insurance. The Forest Service and Department of Interior agencies that participate in fire suppression and management activities are directed to determine the positions within each agency that are eligible to be reimbursed for professional liability insurance, not to exceed one half of the cost of such insurance. Examples of positions which should be considered for eligible for reimbursement include temporary supervision or management of personnel engaged in wildland or managed fire activities, such as a type 1, 2, 3, 4, or 5 incident commander, an operations section chief, a division group supervisor, a fire use manager, a prescribed fire manager or burn boss, a single resource boss, or a squad boss; providing analysis or information that affects a decision by a supervisor or manager about a wildland or managed fire, such as a fire behavior analyst, a safety officer, or a long term analyst; or directing the deployment of equipment for a wildland or managed fire, such as a base camp manager, an equipment manager, a helicopter coordinator, or an initial attack dispatcher.

Sec. 430: Retains House Section 501, expressing the sense of Congress on global climate change.

Sec. 431: Modifies House Section 603 which directs the purchase of Energy Star light bulbs with funds provided by this Act.

Sec. 432: Retains House Section 604 on EPA's proposal to amend the Maximum Achievable Control Technology Standards.

Sec. 433: Retains the provision contained in Section 606 of the House bill concerning the promulgation of rules in conjunction with a commercial oil shale program in Colorado, Utah and Wyoming.

The Appropriations Committees are aware that oil shale has the potential to be an important energy resource, which will be integral to our nation's future energy security. But this development must proceed thoughtfully and with the full support of the states of Colorado, Utah and Wyoming. While industry is still many years away from establishing the commercial viability of new oil shale extraction technologies, there is concern that the Department of the Interior may be moving ahead before the full impacts of such a program are known, and without full and complete cooperation of the affected States. It is essential that these States have a meaningful opportunity to review and comment on the Programmatic Environmental Impact Statement (PEIS), draft proposed commercial leasing rules and regulations, and relevant resource management planning documents. Therefore, the Secretary is directed to provide adequate time after the completion of the PEIS for the Governors of the affected States of Colorado, Utah and Wyoming to review any draft proposed or final commercial leasing regulations, with additional time for public comment as appropriate.

Sec. 434: Includes a new provision extending the Herger-Feinstein Quincy Library Group (QLG) Forest Recovery Act (P.L. 105-277) for an additional three years until 2012; directs the Forest Service to work with stakeholders on a possible alternative course for implementing the extended effort; and amends the QLG Act to clarify that certain Healthy Forest Restoration Act authorities (Sections 104-106 of Public Law 108-148) can be applied to the types of treatments prescribed under the Act.

Sec. 435: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account, which authorizes a transfer of \$8,000,000 from the Environmental Protection Agency to the Department of the Navy to fund efforts to monitor and remediate groundwater contamination and other pollution sources at Hunter's Point Naval Shipyard in San Francisco, CA.

Sec. 436: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account which authorizes the Administrator to transfer \$3,000,000 to the Oklahoma Department of Environmental Quality to fund high-priority remediation and relocation programs for the Tar Creek and Spring River watersheds in Oklahoma.

Sec. 437: The amended bill includes an across the board rescission of 1.560 percent. This reduction shall be applied to each program, project, and activity, except for Miscellaneous Payments to Indians, which has a different application of the rescission as specified in the statutory language. The bill also requires the Office of Management and Budget to submit a report within 30 days specifying the account and amount of each rescission.

The amended bill does not include the following House provisions:

Sec. 502: Limiting funds for land condemnations. This issue is addressed in section 419.

Sec. 503: Limiting funds for Tongass National Forest timber harvesting.

Sec. 504: Rescinding funds from the “Historic Preservation Fund”.

Sec. 601: A provision on reforestation of urban areas.

Sec. 602: A provision on Smithsonian outreach programs.

Sec. 605: Prohibiting contravention of the Pollution Prevention Act of 1990. The Environmental Protection Agency has confirmed that beginning in fiscal year 2008 the Protective Security Detail will no longer be charged to the Criminal Enforcement Program. The Agency is directed that none of the funds provided for the criminal and civil enforcement programs in the EPM and Superfund accounts are to be allocated to the Protective Security Detail.

The amended bill does not include the following Senate provisions:

Sec. 407: Providing additional authority to the Forest Service on use of the road and trails fund.

Sec. 424: Requiring the Minerals Management Service to withhold funds for administrative costs of mineral leasing activities. Bill language on this matter is included under the Minerals Management Service, Administrative Provisions heading.

TITLE V—WILDFIRE SUPPRESSION EMERGENCY APPROPRIATIONS

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides a total of \$300,000,000 for emergency wildfire suppression activities of the Forest Service and the Department of the Interior, including \$222,000,000 for the former and \$78,000,000 for the latter. Although this Act fully funds the anticipated wildfire suppression emergency needs by funding the average emergency suppression expenditures which occurred over the past ten years (inflation adjusted), this additional allocation is required so that, if another tragic wildfire season occurs as did last year, the Federal government will once again be able to fully respond with its exceptional firefighting resources without borrowing critically needed program funds from land management agency accounts.
