In addition, the conference agreement includes authority to collect \$8,158,305 from certain authorized fees and payments. The Department of State also projects that authorized fee revenues for the Border Security Program of the Department of State will total \$1,657,515,000 in fiscal year 2010.

The conference agreement includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the Emergencies in the Diplomatic and Consular Service heading for emergency evacuations and rewards payments, as authorized, as proposed by the House and Senate.

The conference agreement includes a requirement that the Secretary of State submit to the Committees on Appropriations a report detailing planned expenditures for funds appropriated under this heading, not later than 45 days after enactment of this Act, which was not in the House or Senate bills. The conferees expect the report to include accompanying tables that compare the planned fiscal year 2010 spending levels to the actual expenditures for the prior fiscal year and that these tables be updated and submitted when any reprogramming notification is submitted.

Worldwide Security Protection

The conference agreement provides \$1,586,214,000 for Worldwide Security Protection, which is \$8,787,000 above the House and \$8,786,000 below the Senate. The conferees note that \$13,375,000 requested for fiscal year 2010 was included in the Supplemental Appropriations Act, 2009 (Public Law 111-32), bringing the total available for Worldwide Security Protection in fiscal year 2010 to \$1,599,589,000. Within the amount provided, \$221,926,000, and a projected 200 security positions, are to strengthen the Department's capacity to respond to the growing security challenges at posts around the world, including the requested positions for the second year of the Visa and Passport Security Plan.

Enhancing Diplomatic Capacity and Readiness

Human Resources Initiative (HRI).—The conference agreement does not include a provision specifying an amount for the HRI, as proposed by the Senate. Instead, the amount for the HRI is included in the table above.

The conference agreement includes \$344,190,000 and a projected 745 positions to enhance the diplomatic capacity and readiness of the Department of State. Within the total, \$118,279,000, and 565 new positions, is for phase II of the HRI, as proposed by the House and Senate. These additional funds provided in fiscal year 2010 will continue the expansion of the Department's training capacity, increase representation on interagency and Defense staffs, and augment the overseas diplomatic presence at strategic posts worldwide. The balance, \$225,911,000 and a projected 180 positions, is to meet workload demands and resource requirements at posts in Africa, East Asia and the Pacific, Europe and Eurasia, the Near East, South Central Asia, and the Western Hemisphere, as well as to begin to address the vacancy rate in domestic Foreign and Civil Service positions. The conferees agree that the Secretary of State should give priority to overseas assignments in allocating these positions.

Locally Employed Staff (LES).—The conference agreement does not include a provision regarding LES, as proposed by the Senate. However, the conferees recognize and appreciate the invaluable contributions of LES to overseas operations and programs, and note that they often serve without adequate salary increases and/or at less-than-prevailing wages and compensation packages.

The conferees recommend \$695,000,000 for salary and compensation (including awards and special benefits) for LES, and endorse the directive in the Senate bill regarding the review/database, guidelines, and the definition of LES in section 7069(b), (c), and (d), respectively, except that the Department of State shall consult with the Committees on Appropriations on the appropriate length of periodic reviews of salary and compensation guidelines.

Personnel Strategy.—The conference agreement requires the Secretary of State to submit to the Committees on Appropriations a strategy for projected personnel requirements for the Department of State over the next three fiscal years, similar to that proposed by the Senate. This strategy should describe the resources required for hiring, training, and deploying new personnel to domestic and overseas positions, including resources necessary for office and housing facilities. Concurrent with the submission of this strategy, the Secretary of State is directed to submit a report describing the hiring, training, and deploying of new staff since fiscal year 2008, including resources expended for such purposes to date, and to update this report on a semi-annual basis.

Funding Issues

Afghanistan Operations.—The conference agreement provides \$485,595,000 for diplomatic operations in Afghanistan for fiscal year 2010, which is the same as the request, after including funds requested for fiscal year 2010 that were appropriated in the Supplemental Appropriations Act, 2009 (Public Law 111-32). The conferees understand that operational requirements in Afghanistan may change, and direct that any such change be subject to the regular notification procedures of the Committees on Appropriations, including changes to the civilian staffing surge that are above the previously justified levels.

The conferees direct the Secretary of State to submit to the Committees on Appropriations not later than 45 days after enactment of this Act and every 60 days thereafter through September 30, 2010, a report detailing all United States Government personnel serving in Afghanistan, including on a temporary duty basis. This report may be submitted in classified form, if necessary, and may be consolidated with the reporting requirement on civilian staffing levels in Pakistan.

The conference agreement does not include a prohibition on the use of funds in the Act to acquire property in Kabul, Afghanistan, as proposed by the Senate. Instead, section 7004(c) of this Act requires the Secretary of State to consult with the Committees on Appropriations prior to any final decision to acquire property for diplomatic facilities in Kabul.

The conferees note that \$25,000,000 was included for the Department of State's Afghanistan airwing in the Supplemental Appropriations Act, 2009 (Public Law 111-32). The balance of the funds requested for fiscal year 2010, \$35,000,000, is included in this conference agreement.

Cultural Heritage.—The conference agreement provides \$5,750,000 for the Ambassador's Fund for Cultural Preservation, of which \$1,000,000 is to support at least two large projects of historic cultural significance, as proposed in the Senate Report. The conferees are aware that the Department of State may use funds made available under the Economic Support Fund (ESF) heading in title III to support additional cultural preservation projects. The conferees intend that all funds made available from this Act for cultural preservation projects be subject to the Committee's regular notification procedures and that the projects should be selected utilizing the technical expertise of the Department's Cultural Heritage Center, including the technical review and competitive process established by the Center.

Iraq Operations.—The conference agreement provides \$1,121,641,000 for Department of State Operations in Iraq. This is in addition to \$336,000,000 appropriated under this heading in the Supplemental Appropriations Act, 2009 (Public Law 111-32) for fiscal year 2010, bringing the total available for such purposes in fiscal year 2010 to \$1,457,641,000.

The conferees direct the Department of State to use funds provided for operations in Iraq to address the requirements identified by the Office of Inspector General in Report Number MERO-A-09-10 that arise from the anticipated military drawdown, including enhanced security around Embassy Baghdad's compound, convoy security for fuel, food, and other supplies, commercial air travel as an alternative to military transport, and contracting issues regarding the replacement of United States Army Corps of Engineers' support services.

The conferees continue to encourage the Chief of Mission in Iraq to conduct periodic rightsizing reviews to ensure appropriate civilian staffing levels before, during, and after the anticipated United States military drawdown.

Intelligence and Research.—The conferees endorse Senate Report language regarding the Department of State's Bureau of Intelligence and Research, including \$1,000,000 above the request to support six additional analysts for priority countries.

Joint Action Plan.—The conference agreement includes sufficient funds for the Secretary of State to allocate the resources and experienced personnel necessary to staff and implement the United States-Brazil Joint Action Plan to Eliminate Racial and Ethnic Discrimination and Promote Equality (JAPER), as proposed by the House.

Leahy Vetting.—The conference agreement does not include a Senate provision to transfer funds appropriated under the Foreign Military Financing Program (FMF) heading to the D&CP heading for the Department of State's Bureau of Democracy, Human Rights and Labor to support monitoring of the uses of FMF assistance. However, the conferees direct that not less than \$2,000,000 from funds made available under this heading be used for such purpose, and that the Secretary of State consult with the Committees on Appropriations prior to the obligation of these funds.

Pakistan Operations.—The conference agreement provides \$45,837,000 for diplomatic operations in Pakistan for fiscal year 2010, which is the same as the request. The conferees understand that operational requirements in Pakistan may change and direct that any such change be subject to the regular notification procedures of the Committees on Appropriations, including changes to the civilian staffing surge that are above the previously justified levels.

The conferees direct the Secretary of State to submit to the Committees on Appropriations not later than 45 days after enactment of this Act and every 60 days thereafter through September 30, 2010, a report detailing all United States Government personnel serving in Pakistan, including on a temporary duty basis. This report may be submitted in classified form, if necessary, and may be consolidated with the reporting requirement on civilian staffing levels in Afghanistan.

Other Issues, Directives and Reporting Requirements

American Corners.—The conferees support the mission of American Corners and Centers in making information about the United States readily available to the public in foreign countries through open and accessible places of learning. The conferees support relocating such Centers outside of New Embassy Compounds wherever feasible, consistent with appropriate security considerations. The conferees support the timely relocation of the American Center in Rangoon, Burma.

The conferees direct the Deputy Secretary for Management, in consultation with the Under Secretary for Public Diplomacy and Public Affairs, the Director of the Office of Overseas Building Operations and the Assistant Secretary, Bureau of Diplomatic Security, to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, identifying possible Centers for relocation. The report should include security parameters, cost estimates, and proposed funding resources for such relocations.

The conferees endorse the Senate Report requirement for an assessment of the security implications and public diplomacy gains of establishing United States public diplomacy facilities in locations that maximize their use, except that the assessment may be submitted in classified form, if necessary.

International Child Abductions.—The conferees are concerned with custody cases involving American children in Jordan, Japan, Brazil, Lebanon, Syria, and other countries, and expect the governments of such countries to expeditiously enforce court orders related to such cases.

The conference agreement does not include a provision proposed by the House related to international child abductions. Instead, the conferees direct the Secretary of State to provide periodic updates to the appropriate congressional committees on international child abductions, including information regarding international parental child abductions that are reported to the Office of Children's Issues. The conferees expect the Department of State to maintain an electronic database in order to track international child abduction cases and facilitate the provision of timely information to interested members of the House and Senate, to the extent that the parent or guardian provides written authorization to do so.

Overseas Schools.—The conferees commend the consolidated Overseas Schools Assistance Program for its work in improving educational standards for the children of American families living abroad, and the contributions of the Overseas Schools Advisory Council and its Program of Educational Assistance that helps bring quality educational services to American overseas schools.

Report on Procurement and Acquisition.—On January 9, 2008, the Assistant Secretary for Legislative Affairs notified the Committees on Appropriations of the Department of State's intent to fund the acquisition function of the Department on a "fee-for-service" basis through a one percent assessment on the appropriations accounts funding the acquisition. The conferees understand that the rationale for this change was to improve both the responsiveness and accountability of the acquisition/procurement process at the Department. The conferees direct the Undersecretary for Management to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, which details the manner in which the "fee-for-service" plan was and is being used to improve the responsiveness and oversight of the Department's procurement and acquisition processes. The conferees expect the report to include the number of direct-hire and contract personnel added in fiscal years 2008 and 2009, and the benefit of these personnel and funds in providing increased technical assistance and oversight to these activities.

Report on Agreements for Transfer and Release of Detainees.—The conferees direct the Secretary of State to report in writing to the Committees on Appropriations when any agreement is concluded with any country that will receive, by transfer or release, any individual detained at Naval Station, Guantanamo Bay, Cuba. This requirement includes agreements with states with a compact of free association with the United States. The report shall be submitted not later than five days after the conclusion of such agreement.

Secure Passports.—The conferees endorse House Report language on secure United States passports, and believe that the passport should provide the highest levels of resistance to counterfeiting, alteration and image substitution. The conferees further expect the Department of State to undertake a review of the current security materials used on the passport, particularly the data page, in order to strengthen its security.

CIVILIAN STABILIZATION INITIATIVE

The conference agreement provides \$120,000,000 under this heading for the Civilian Stabilization Initiative (CSI), which is \$5,000,000 below the House and \$30,000,000 below the Senate. In addition, \$30,000,000 is provided under title II for the United States Agency for International Development (USAID) for the CSI, as proposed by the House, for a total of \$150,000,000 to stand-up, equip and deploy a coordinated civilian response capacity.

The conference agreement includes a provision, similar to that proposed by the Senate, withholding \$10,000,000 from obligation until the Secretary of State reports to the Committees on Appropriations that the Department of State has signed a memorandum of understanding with the Department of Defense relating to the provision of airlift for deployment of Civilian Response Corps (CRC) Standby and Active personnel and equipment.

The conference agreement does not include bill language limiting to \$5,000,000 the amount made available for procurement of armored vehicles, as proposed by the Senate. However, the conferees agree with this limitation and direct that not more than \$5,000,000 of the funds made available under this heading be used for such purpose.

The conference agreement does not include a provision prohibiting the use of funds to establish a Reserve component of the CRC. However, the conferees direct that no funds be made available for this purpose. The conference agreement requires the submission of a joint spending plan, coordinated with USAID, for funds made available under this heading and the CSI heading in title II not later than 45 days after enactment of this Act, as proposed by the House and Senate. The conferees also endorse House Report language requiring notification to the Committees on Appropriations within 15 days of any deployment of a CRC Active and/or Standby unit, to include the destination, size, composition, and expected duration of deployment of such unit.

Funds made available under this heading are to be allocated according to the following table, subject to the provisions of section 7019 of this Act:

TITLE I, CIVILIAN STABILIZATION INITIATIVE (Budget authority in thousands of dollars)	
Activity	Budget Authority
Salaries, benefits and other personnel costs for Active CRC	21,000

CAPITAL INVESTMENT FUND

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$100,000,000 for the Office of Inspector General (OIG), which is \$8,000,000 below the House and the same as the Senate, of which \$23,000,000 is for

the Special Inspector General for Iraq Reconstruction (SIGIR), and \$23,000,000 is for the Special Inspector General for Afghanistan Reconstruction (SIGAR) for reconstruction oversight, as proposed by the Senate.

In addition to the amount made available under this heading, \$2,000,000 is transferred to this account from funds made available under the ESF heading to augment funds made available to the OIG for oversight of assistance activities in Pakistan, which brings the total available in this Act for the OIG to \$56,000,000.

Within the total amount made available to the OIG in fiscal year 2010, the conferees understand that the current program plan includes \$20,100,000 for the OIG's oversight of programs and investigations of fraud, waste, and abuse in the Middle East and South Asia, including Afghanistan, Iraq, and Pakistan, and to establish an OIG satellite office in Islamabad and support the regional office in Amman and the existing satellite offices in Baghdad, Cairo, and Kabul. The conferees further understand that future events may require the modification of this plan and that such modifications are subject to the regular notification procedures of the Committees on Appropriations.

The Inspectors General of the Department of State, USAID, SIGIR, and SIGAR each have independent oversight and investigative responsibilities in Iraq and Afghanistan. The Inspectors General should, to the maximum extent practicable, coordinate, and de-conflict all activities related to oversight and investigation of assistance programs for the reconstruction of Iraq and Afghanistan to ensure that resources are used effectively and are not unnecessarily duplicative. The Inspectors General of the Department of State and USAID are directed to consult with the Committees on Appropriations on the joint oversight plan in Afghanistan.

The conferees understand that SIGIR will use a portion of the funds made available in fiscal years 2009 and 2010 to make short-term appointments of experienced, career prosecutors and detail them to the Criminal Division of the Department of Justice, where they will work on cases that fall within SIGIR's jurisdiction. The conferees strongly support efforts by SIGIR and the Department of Justice to investigate and prosecute cases of fraud and criminal activity associated with assistance programs in Iraq.

The conferees do not intend for the SIGAR to utilize funds made available under this heading in this or prior Acts to conduct training or other development programs for Afghan ministries.

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

FUNDS APPROPRIATED TO THE PRESIDENT

OPERATING EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,388,800,000 for Operating Expenses, which is the same as the House and Senate.

The conference agreement provides funding to support the hiring of an estimated 300 additional USAID Foreign Service Officers under the Development Leadership Initiative (DLI). The conference agreement includes a provision requiring the USAID Administrator to submit a strategy for projected personnel requirements over the next three fiscal years, similar to that proposed by the Senate. This strategy should describe the resources required for hiring, training, and deploying new personnel to domestic and overseas positions, including resources necessary for office and housing facilities. Concurrent with the submission of this strategy, the USAID Administrator is directed to submit a report describing the hiring, training, and deploying of new staff since the DLI began in fiscal year 2008, including resources expended for such purposes to date. This report should be updated on a semi-annual basis. The conferees intend that one of the outcomes of the personnel expansion at USAID will be increased oversight of programs and activities.

The conferees are aware of concerns with civilian capacity necessary to effectively administer programs in Pakistan and Afghanistan and have provided funds in this Act and prior Acts to support a civilian surge. The conferees direct the USAID Administrator to provide a report to the Committees on Appropriations on a semi-annual basis that describes the USAID workforce in both countries, including geographical distribution, skill sets, and training, as well as the physical space and capacity to absorb additional personnel.

The conferees believe that USAID's increased reliance on sole source contract awards,

indefinite quantity contracts, and large umbrella awards undermines competitive processes, inhibits the participation of small organizations with niche expertise, limits creative and innovative approaches to programming, and is neither cost effective nor consistent with sustainable development. The conferees endorse the notification requirements in the House Report and the reporting requirement in the Senate Report, and require the USAID Administrator to consult with the Committees on Appropriations on steps that will be taken to reduce reliance on these mechanisms in the future and increase support for building capacity of local organizations and institutions, including the training that will be provided to new personnel hired under the DLI.

The conferees endorse the small minority-owned and disadvantaged business enterprises reporting requirement, as proposed in the House Report.

The conference agreement provides up to \$1,000,000 for special compensation for LES in section 7059(n), as proposed by the Senate, and requires the USAID Administrator to consult with the Committees on Appropriations on proposed guidelines for special compensation of these employees.

Implementation of USAID's Partner Vetting System is addressed in section 7034(o) of this Act.

CIVILIAN STABILIZATION INITIATIVE

The conference agreement provides a total of \$150,000,000 to continue to stand up a capacity for the Department of State, USAID, and other relevant civilian agencies to respond to post-conflict stabilization and reconstruction challenges, which is \$5,000,000 below the House and the same as the Senate. Within the amounts provided in this Act, \$30,000,000 is included under this heading, as proposed by the House, and \$120,000,000 is included under a similar heading in title I for this purpose.

Funds provided under this heading are intended to support costs associated with implementation of the Civilian Deployment Center; operational costs of the Office of Civilian Response; relevant USAID personnel salaries, expenses and training; and some deployment costs. The conferees direct that none of the funds provided under this heading may be used to establish a Reserve Corps component of the Civilian Response Corps. USAID and the Department of State shall jointly consult with the Committees on Appropriations prior to the obligation of funds made available under this heading.

The conference agreement includes language proposed by the House requiring the USAID Administrator and the Secretary of State to submit a coordinated joint spending plan for funds available under this heading and the CSI heading in title I.

CAPITAL INVESTMENT FUND

The conference agreement provides \$185,000,000 for Capital Investment Fund, which is the same as the House and \$28,000,000 below the Senate, of which up to \$134,500,000 is provided for implementation of the Capital Security Cost-Sharing Program. The conferees endorse the reporting requirement, as proposed in the House Report.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$46,500,000 for the Office of Inspector General, which is the same as the House and Senate. The conferees continue to believe that programs funded through emergency appropriations should be regularized into the annual budget process.

The conferees direct the USAID Inspector General to continue to expand oversight activities of United States Government assistance programs in Pakistan and Afghanistan. The conferees understand that by the end of fiscal year 2010, the USAID Inspector General will have a fully staffed office in Islamabad that will consist of seven auditors, two investigators, and five Foreign Service National auditors/investigators, and a fully staffed office in Kabul that will consist of three auditors and two investigators. The Office of Inspector General is directed to ensure that efforts are de-conflicted from the oversight plans of other agencies and to consult with the Committees on Appropriations on the joint oversight plan in Afghanistan and Pakistan. In addition, the Office of Inspector General is directed to inform the Committees on Appropriations if gaps in oversight are identified.

The conferees endorse House Report language directing the Office of Inspector General to consult with the Committees on Appropriations on a regular and on-going basis.

* Funding in italics denotes a non-add and is not in addition to the subcategory total.

The conference agreement includes language that allows funding provided under this heading to be used for programs to address neglected tropical diseases, as proposed by the Senate; language on the determination related to organizations that have been found to support or participate in the management of a program of coercive abortion, as proposed by the Senate; and language on the procurement of condoms, similar to that proposed by the House.

The conferees endorse the reporting requirement on global health program effectiveness, similar to that proposed by the House. The report should include an analysis of key global health challenges, a review of the interventions that have been found to have the greatest impact in addressing these challenges, and opportunities for the United States to increase support for these interventions in order to significantly reduce mortality and morbidity. The report should pay special attention to those issues that have not received adequate support in the past, including maternal health which is directly related to child survival; the role that the United States could play in promoting best practices; and the role of other donor countries in expanding access to these critical interventions. The conferees direct the Secretary of State to consult with the Committees on Appropriations prior to, and during, the development of this report.

The conferees endorse the HIV/AIDS prevention reporting requirement, as proposed by the House, which should include a description of HIV/AIDS prevention interventions that could be components of a United States global HIV/AIDS strategy and their effectiveness; an analysis of how these interventions should be implemented in order to address key drivers of the epidemic; the goals of the United States prevention strategy and how progress toward these goals will be measured; and a review of how the United States will collaborate with other bilateral and multilateral donors to reduce duplication. This report should include country-by-country prevention interventions and goals to ensure that unique conditions on the ground are taken into account.

The conferees direct OGAC to include, in future quarterly Summary Financial Status Reports of the global AIDS program, data on outlays as a percentage of the total amount of appropriated funds available for each country and Federal agency. Third quarter reports shall include a brief explanation of the factors contributing to countries falling behind target obligation and outlay rates.

The conferees are aware of the fiscal year 2010 Coordinated Audit Plan for global AIDS programs that has been developed by the relevant Inspectors General and are concerned that the Office of Inspector General at the Department of Health and Human Services does not plan to audit global AIDS funds transferred to the agency in the coming year. The OGAC Director is to

report to the Committees on Appropriations on steps taken by OGAC to ensure that all program funds, including funds transferred to other agencies, are audited on a regular basis.

The conferees provide \$750,000,000 for the Global Fund to Fight AIDS, Tuberculosis and Malaria in this Act. The conferees remain committed to supporting a performance-based, results-oriented, multilateral financing instrument to combat these diseases. The conferees support efforts by the "Working Group to Manage the Tension between Demand and Supply in a Resource Constrained Environment" to ensure that Global Fund resources are used efficiently and effectively. The Committees on Appropriations expect to be updated by OGAC on further efforts of this group. The conferees endorse the Global Fund reporting requirement, as proposed by the House.

The conferees endorse the research and development reporting requirement, as proposed by the Senate, which should include a discussion of microbicides research and development and opportunities for expanded research and development related to child immunizations.

The conference agreement includes \$106,000,000 for pandemic preparedness and response activities to support H1N1 influenza and avian influenza surveillance, immunization delivery, and treatment programs internationally. The conferees note that the budget request did not include specific funding to address the H1N1 influenza outbreak and continue to support the transfer authority provided in the Supplemental Appropriations Act, 2009 (Public Law 111-32) to combat an H1N1 influenza pandemic, if the President determines that the human-to-human transmission of the virus is virulent, efficient and sustained, severe, spreading internationally to multiple regions, and has been designated by the World Health Organization to be at the highest phase of Global Influenza Pandemic Alert. The conferees also continue to support the use of funds provided in title VIII of the Supplemental Appropriations Act, 2009 (Public Law 111-32) to support USAID's international response to H1N1 influenza.

The conferees support the use of family planning/reproductive health funds for programs in areas where population growth exacerbates human vulnerability to the impacts of climate change, as proposed by the Senate.

The conference agreement does not include a provision proposed by the House and Senate regarding funds to monitor and provide oversight of certain global health programs. However, the conferees direct that not to exceed \$400,000, in addition to funds otherwise available for such purposes, may be used to monitor and provide oversight of child survival, maternal and family planning/reproductive health, and infectious disease programs.

DEVELOPMENT ASSISTANCE

The conference agreement provides \$2,520,000,000 for Development Assistance (DA), which is \$30,000,000 above the House and \$47,000,000 below the Senate.

The conference agreement does not include language concerning the availability of funds related to water and microenterprise/microfinance programs, as proposed by the Senate. The conference

agreement includes language requiring the relevant USAID bureaus and offices that support cross-cutting development programs, including but not limited to water, food security, and democracy and governance, to coordinate such programs on a regular basis, similar to that proposed by the Senate.

Agriculture and Food Security

The conference agreement provides a total of \$1,169,833,000 for agricultural development and food security programs, of which \$31,500,000 is for Collaborative Research Support Programs.

The conference agreement includes a provision requiring the Secretary of State, in consultation with the USAID Administrator, to submit a strategy for achieving food security and agricultural development program goals, as proposed by the House and Senate. The conferees expect this strategy to take into account the technical capacities and capabilities of other United States Government agencies. However, the conferees intend that the agencies funded in this Act should serve as the primary conduits for programmatic implementation. In cases where funding is transferred to other agencies, the conferees direct the Department of State to ensure that these funds are properly audited as directed in section 7009(e) of this Act and that oversight of these programs is conducted in a manner consistent with Department of State and USAID requirements.

The conference agreement does not include language authorizing the use of funds under this heading for local and regional purchase, as proposed by the Senate. Local and regional purchase is addressed under the International Disaster Assistance heading.

The conferees provide not less than \$30,000,000 for dairy development and livestock programs, as proposed by the House.

Gender Integration.—The conferees endorse the reporting requirement proposed in the House Report related to the integration of gender considerations into agriculture and economic development programs.

Microfinance and Microenterprise Programs.—The conferees note that while USAID has increased its microenterprise activities in Africa in recent years, there has been relatively small investment in microfinance in Africa. The conferees direct the USAID Administrator to consult with the Committees on Appropriations on a strategy to increase funding for this purpose. The

conferees further direct that up to 25 percent of funding be made available to build the institutional and human capacity of microfinance institutions.

The conferees direct that at least 50 percent of funds provided for microfinance and microenterprise programs be for grants and cooperative agreements to not-for-profit networks, practitioner institutions, and nongovernmental organizations (NGOs), and direct that USAID's Office of Microenterprise Development, in consultation with the Committees on Appropriations, develop a strategy to meet this mandate. This strategy shall be submitted to the Committees on Appropriations not later than 90 days after enactment of this Act, and shall include a description of USAID's strategy to increase outreach to women, and the poor and very poor who are currently without access to financial services.

Oversight.—The conference agreement does not include a provision regarding funds to monitor certain programs for children and victims of war, as proposed by the House and Senate. However, the conferees direct that not to exceed \$60,000, in addition to funds otherwise available for such purposes, may be used to monitor and provide oversight of programs for displaced and orphaned children and victims of war.

Education

Basic Education.—The conference agreement provides a total of \$925,000,000 for basic education programs in this Act, of which \$365,000,000 is provided under this heading. The conferees are concerned with the availability of education for children who are refugees or internally displaced, and encourage USAID to use a portion of basic education funds for programs in such settings. The conferees intend that schools supported with basic education funds appropriated in this Act should, when practicable, serve as "Communities of Learning" and should be a focal point for development programs, as proposed by the House. USAID shall ensure that pilot programs implemented pursuant to section 664 of division J of the Consolidated Appropriations Act, 2008 (Public Law 110-161) include "Communities of Learning" in the five year strategic plans, where appropriate.

Higher Education.—The conference agreement provides not less than \$200,000,000 for higher education programs in this Act, of which not less than \$25,000,000 shall be for such programs in Africa, as proposed by the Senate. The conferees believe that higher education partnerships between American and African institutions of higher education should be expanded and \$15,000,000 is provided for this purpose, as proposed by the Senate, which shall be awarded in an open and competitive process in accordance with all applicable rules and regulations.

Climate Change and Environment

Biodiversity.—The conference agreement includes a total of \$205,000,000 in title III of this Act for biodiversity programs, particularly to protect forests, wildlife, and water ecosystems. Of this amount, not less than \$25,000,000 is for USAID's conservation programs in the Amazon Basin, of which \$15,000,000 is for the Initiative for Conservation in the Andean Amazon and \$10,000,000 is for such activities in Brazil. In addition, \$20,500,000 is for the Congo Basin Forest Partnership; \$7,500,000 is for the Coral Triangle Initiative; \$5,000,000 is for international programs of the United States Fish and Wildlife Service, particularly in central Africa; \$2,000,000 is for the Department of State's Bureau of Oceans and International Environmental and Scientific Affairs and USAID to support inter-agency outreach and capacity building programs and activities in developing countries related to implementation and enforcement of section 8204 of the Food, Conservation, and Energy Act, 2008 (Public Law 110-246); and \$1,000,000 is for conservation and related programs of the Department of Interior in the Maya Biosphere Reserve in Guatemala. The conferees direct USAID to consult with the Committees on Appropriations on a multi-year strategy for forest and archeological conservation in the Peten region of Guatemala. The conferees endorse language in the Senate Report on the protection of orangutan habitat in Borneo and Sumatra, and support wildlife conservation in Southern Sudan and Niger. In addition, the conferees recommend that USAID work with the United States National Park Service and the National Oceanic and Atmospheric Administration to protect forests, wildlife, and water ecosystems in developing countries. The conferees direct the agencies administering these funds to consult with the Committees on Appropriations prior to the obligation of funds.

Climate Change.—The conference agreement includes a total of \$1,257,200,000 for climate change programs in this Act, of which \$108,500,000 is for clean energy, \$74,450,000 is for sustainable landscapes, and \$122,750,000 is for adaptation programs.

The conferees intend that funds for clean energy programs will be used only to support programs that promote the sustainable use of renewable energy technologies and energy efficient end-use technologies, carbon sequestration, and carbon accounting. The primary objective of these programs should be to reduce, mitigate, and/or sequester emissions of greenhouse gases. The conferees direct that no funds shall be utilized for any nuclear, coal or other fossil fuel technology or production. The conferees intend that USAID's programs should complement the efforts undertaken by the Department of State's Bureau of Oceans and International Environmental and Scientific Affairs as well as programs implemented through the Clean Technology Fund (CTF), the Strategic Climate Fund (SCF), and the Global Environment Facility.

The conferees urge USAID to expand support in rural communities for small scale solar and other renewable energy technologies, which provide clean, healthier and more economically sustainable sources of energy than fossil fuels and help reduce migration to overpopulated urban areas.

The conferees intend that funds for sustainable landscapes programs will be used to support activities to maximize climate change mitigation, including carbon removals and avoided emissions, through efforts to protect and preserve landscapes and ecosystems. These efforts should include programs that preserve tropical forests, abandoned lands, and other endangered landscapes. In addition, programs to build institutional capacity to measure and monitor greenhouse gas emissions and removal, and policy reforms including land tenure, should be supported. These programs should not duplicate similar efforts currently implemented through USAID's biodiversity programs.

The conferees intend that a significant portion of funding provided for sustainable landscapes programs should be used to expand activities that reduce emissions from tropical forest destruction and degradation (commonly called REDD) in order to avoid the worst effects of global climate change. USAID should increase support for programs that assist developing countries in building their institutional and governance capacity to manage forest resources in a manner that demonstrates measurable, reportable and verifiable emissions reductions; develops strong forest governance laws; and improves law enforcement against illegal logging. These programs should be transparent and should respect the rights of indigenous and forest-dependent people, who should be consulted and included in the design and implementation of programs. The Department of State and USAID are directed to consult jointly with the Committees on Appropriations not later than 90 days after enactment of this Act on the United States Government strategy related to REDD and the capacity of developing countries to implement these programs.

The conferees intend that adaptation program funds will be used to ensure that on-going programs and projects are designed to be as resilient as possible to climate variability and change. This funding should be used to ensure that climate change factors are taken into account during program assessment and design and that any program modifications are included in final implementation.

This new account provides greater flexibility to USAID to prevent or respond to emerging or unforeseen complex crises overseas, and is similar to the Emergency Crises Fund account proposed by the Senate. The CCF consolidates the budget requests for a Rapid Response Fund and a Stabilization Bridge Fund to provide greater efficiency and oversight by the Administration and the Congress of these activities.

For the purposes of this account, a "complex crisis" shall mean a disaster or emergency, usually of long-term duration, that includes a combination of humanitarian, political and security dimensions which hinders the provision of external assistance.

The conferees direct that not less than \$10,000,000 of the funds in this Act for assistance for the DRC be made available to address gender-based violence, including for fistula repair and other assistance for victims, and training and support for health and law enforcement personnel. The conferees direct the Department of State, in consultation with USAID, to provide a report to the Committees on Appropriations that outlines a comprehensive strategy and budget to address gender-based violence in the DRC. The report should describe how United States Government efforts fit into multi-donor and host government strategies to address this issue. The Department shall consult with the Committees on Appropriations prior to developing the strategy. The conferees endorse the reporting requirements on the exploitation of mineral resources, as proposed in the Senate Report, to include identifying the governments and companies that are involved in or profiting from such exploitation.

The conferees are concerned with reports of corruption within the Government of Southern Sudan (GoSS), and the conference agreement includes a provision, similar to that proposed by the Senate, requiring the Secretary of State, in determining amounts and types of assistance to provide to the GoSS, to consider whether such government is conducting regular audits of its financial accounts to ensure transparency and accountability of funds, including revenues from the extraction of oil, gas, and other natural resources, and is making such audits publicly available in a timely manner. The conferees believe such audits are necessary to prevent the misuse of funds, including United States assistance.

The conferees direct the Department of State, in consultation with USAID, to provide a report to the Committees on Appropriations not later than 90 days after enactment of this Act, on the steps that will be taken by the GoSS to improve resource management and increase transparency and accountability of funds, including efforts by the United States Government to support this goal.

The conferees endorse the reporting requirement on Sudan and the People's Republic of China, as proposed in the House Report.

Asia

Burma.—The conferees recognize that the failure of governance in Burma has resulted in severe humanitarian needs throughout the country that are further exacerbated by violations of internationally recognized human rights committed with impunity by the ruling junta. The conference agreement includes language, similar to that proposed by the House and Senate, and provides \$36,500,000 for activities to address these needs, including income-generating activities, and to support ongoing democracy and humanitarian programs along the Burma-Thailand border. The Department of State is to consult on the uses of these funds, which are subject to the regular notification procedures of the Committees on Appropriations. The conference agreement also requires that funds be used in a manner that is consistent with the principles and goals of the National League for Democracy in Burma.

The requirements of section 7034(m)(4) of this Act shall apply with respect to the provision of assistance to Egyptian NGOs. The conferees provide authority under section 7042(a)(2) of this Act to use funds under this heading to establish an endowment to further the mutual interests of the United States and Egypt.

The conferees endorse the recommendations of the USAID Inspector General in Audit Report Number 6-263-10-001-P regarding democracy programs and activities in Egypt.

The report should also describe the results to date.

Pakistan.—The conferees support the program review conducted by the Department of State and USAID in Pakistan in order to ensure that the programs and activities funded are meeting programmatic objectives and furthering shared United States and Pakistani security interests. The results of this review should be provided to the Committees on Appropriations. The conferees are aware of the significant infrastructure needs in Pakistan, including in the energy and aviation sectors. However, the conferees are concerned with embarking on large-scale, multi-year infrastructure projects in Pakistan and believe such work should be undertaken in coordination with other donors and through multilateral financing mechanisms to the maximum extent possible, factoring in security and sustainability considerations. The conferees direct the Secretary of State to consult with the Committees on Appropriations prior to committing to such projects. The conferees provide not less than \$5,000,000 to continue a Civilian Assistance Program similar to such programs in Iraq and Afghanistan, and USAID is directed to consult with the Committees on Appropriations on the planned uses of such funds prior to the obligation of funds. Such an agreement should be structured to provide maximum accountability and oversight, and should contain conditions for disbursement of funds and detailed monitoring and reporting requirements. Funds should be deposited in and disbursed through a separate, traceable bank account for specific sectors. The Secretary of State is directed to consult with the Committees on Appropriations prior to the provision of any such assistance, including on the amounts, uses and oversight of such funds as well as on the terms of the bilateral agreement. The Secretary should suspend any government-to-government assistance to any implementing agency if there is credible evidence of misuse of such funds by such agency. The conferees encourage the Department of State to ensure that such assistance benefits Afghans and Pakistanis at the provincial and sub-provincial levels through mechanisms established with appropriate ministries, and with the concurrence of legitimate political leadership at the local level, including governors.

90 days after enactment of this Act detailing the equipment to be purchased with funds appropriated or otherwise made available under the INCLE and FMF headings. The report shall include a description of the anticipated costs associated with the operation and maintenance of such equipment in subsequent fiscal years. For purposes of the report, "equipment" shall be defined as any aircraft, vessel, boat or vehicle.

The conference agreement does not include a provision, as proposed by the Senate, which would have amended section 656 of the Foreign Assistance Act of 1961. The conferees direct the Secretary of State to submit a report to the Committees on Appropriations not later than 180 days after enactment of this Act detailing, for each country that received assistance under chapter 5 or part II of such Act during the reporting period specified in that section, the net savings to that country for training purchased at a reduced cost or incremental rate through the Foreign Military Sales program, as authorized by section 21(a)(1)(C) of the Arms Export Control Act, as amended by section 108 of the International Security and Development Cooperation Act of 1985 (Public Law 99-83).

environmental reporting requirement, as proposed by the House. The report should include all financing carried out in fiscal year 2009 for renewable energy or end-use energy efficiency technologies, as well as other environmentally beneficial exports; efforts made by Ex-Im to promote and support such exports; information on which regions and sectors exhibit the greatest potential for such exports; how Ex-Im defines and tracks such activities; data on Ex-Im's progress toward meeting the 10 percent directive and Ex-Im's planned efforts to overcome any shortfall; Ex-Im data, current policies, and mitigation measures on greenhouse gas emissions of its projects; and, as applicable, the status of implementation of recommendations made by the GAO related to the promotion of renewable energy or end-use energy efficiency technologies, as well as other environmentally beneficial exports.

The conferees endorse the reporting requirement on the impact of the global financial crisis and economic downturn on the work of OPIC, as proposed by the House. The report should include annual and quarterly data, detail and trends, both in aggregate and for each category of credit, guarantee, or insurance instrument offered by OPIC, on the following: impact on demand for OPIC's credit and other services; impact on the volume of OPIC transactions; impact on activity across specific regions or sectors; impact on risk portfolio of OPIC projects; impact on ability to partner with private sector financial institutions; likely explanations for these effects; resulting adjustments made to OPIC's management and operations; and any other opportunities, lessons, or vulnerabilities resulting from recent global economic conditions. - Sec. 7083. “Commercial Leasing of Defense Articles.”

The following provisions are new, modified from the Omnibus Appropriations Act, 2009 (Public Law 111-8), or further clarified in this joint statement.

Sec. 7004. Embassy Construction.

The provision is modified by including subsection (c), which requires the Department of State to consult with the Committees on Appropriations prior to the obligation of funds to acquire property for diplomatic facilities in Kabul, Afghanistan, similar to that proposed by the Senate.

Sec. 7006. Local Guard Contracts.

The conference agreement includes a new provision which allows the Secretary of State flexibility to award local guard contracts on the basis of either lowest price that is technically acceptable or the best value cost-technical tradeoff (as defined in the Federal Acquisition Regulation part 15.101) when awarding such contracts in Afghanistan, Iraq and Pakistan. Current law requires that all local guard contracts must be awarded on the basis of the lowest price that is technically acceptable, and if other factors had been considered, the problems reported earlier this year involving the local guard contract in Kabul, Afghanistan may have been prevented. The conferees understand that providing the Secretary with authority to make awards through the best value approach can enhance the guard force's effectiveness and justify the additional cost, particularly in countries with dangerous or hostile environments.

Sec. 7008. Coups d'État.

The conference agreement changes the heading from "Military Coups" to "Coups d'État". While there is no substantive change to the provision, the conferees are concerned that the previous title implied an unintended limitation of the provision's application, and direct the Department of State's Office of the Legal Advisor to undertake a review of events necessary to trigger the provisions of this section and submit a report on such events to the Committees on Appropriations not later than 45 days after enactment of this Act.

Sec. 7009. Transfer Authority.

The conference agreement includes a new subsection requiring notification of transfers over \$1,000,000 between either USAID or the Department of State and any department, agency, or instrumentality of the United States Government. The provision is further modified by requiring audits of funds transferred by the Department of State to any other federal agency.

Sec. 7015. Reprogramming Notification Requirements.

The conference agreement modifies subsection (c) to include the CSI and CCF headings; subsection (d) to include an exemption from the requirements of this subsection to funds transferred to title I of this Act; and subsection (f) by including Somalia and Sri Lanka on the country notification list.

Sec. 7019. Allocations.

The conference agreement modifies this section to include charts under the following headings: CSI, D&CP, American Sections, International Commissions, DF, INCLE, and PKO; and strikes Andean Counterdrug Programs.

Sec. 7030. International Financial Institutions.

The conference agreement continues prior year language related to limitations on programs in Heavily Indebted Poor Countries, as proposed by the House, and includes technical changes.

Sec. 7034. Special Authorities.

The conference agreement is modified by deleting subsections (i), (k), (m), and (o); moving subsection (f) to section 7085(c) of this Act; modifying subsection (d); and including new subsections (j), (l), (m), (n), (o), (p), (q), (r), (s), and (t).

The conference agreement includes a modified provision (subsection (o)) that restricts the use of funds in this Act for implementation of the Partner Vetting System (PVS), similar to that proposed by the Senate. The section was modified to allow for implementation of a limited pilot program, and the conferees understand that this pilot program may be conducted in up to five countries and in Washington. The provision also requires that the PVS pilot be applied equally to the Department of State and USAID. Steps to put USAID's PVS system in place began in fiscal year 2009, and the system should be designed to vet USAID partners in order to minimize the risk that taxpayer-funded assistance could be diverted for terrorist purposes, without impeding the efficient and effective implementation of United States foreign assistance programs. The conferees expect the system to be extended to the Department of State's implementing partners but do not intend for this extension to supersede current Leahy vetting requirements on security assistance.

The conferees remain concerned with the quality of the Department of State and USAID congressional budget justifications (CBJs). While the conference agreement does not include language proposed by the Senate that would have prohibited the obligation of funds to compile, produce, or publish any CBJ documents for fiscal year 2011 until the Secretary of State and the USAID Administrator consult with the Committees on Appropriations, the conferees expect consultations to continue regarding the purpose, format, and content of the CBJs.

The conference agreement includes a provision clarifying the Secretary of State's obligations regarding visa determinations for applicants of A-3 and G-5 visas, under the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110-457). For purposes of section 203(a)(2) of such Act, a final civil judgment in a trafficking case or a determination by the Department of Justice that the United States Government would seek to indict the diplomat or a family member but for diplomatic immunity shall be deemed "credible evidence" of abuse or other mistreatment.

Sec. 7040. Limitation on Assistance for the Palestinian Authority.

The conference agreement includes a new subsection (f), which is substantively identical to the provision carried in the Supplemental Appropriations Act, 2009 (Public Law 111-32). The new subsection continues to prohibit assistance to Hamas or any entity effectively controlled by Hamas, and further prohibits assistance to any power-sharing government of which Hamas is a member unless such government, including all its ministers or such equivalent, has met certain conditions.

Sec. 7041. Saudi Arabia.

The conference agreement includes a new provision prohibiting assistance for Saudi Arabia, similar to that proposed by the House. The conference agreement includes a waiver. The Senate did not include similar language.

Sec. 7042. Near East.

The conference agreement includes a new provision similar to that proposed by the Senate, which provides overall assistance levels in the Act for the countries of Egypt, Iraq, Jordan, and Lebanon. The conferees note that these levels do not include funds that may be derived through regional funding within the individual appropriations accounts. The provision also includes a funding level for the West Bank and Gaza.

The provision includes language, similar to that proposed by the Senate, regarding the establishment of an endowment to further the shared interests of the United States and Egypt, consistent with the purposes for which such funds are requested in the fiscal year 2010 CBJ materials and appropriated under such heading. The House did not include a similar provision. The conferees recognize that discussions and negotiations on such an endowment will take time, and direct the Secretary of State to consult with the Committees on these efforts. Consultation should include explanation of the specific definition of shared interests, and how such interests would be furthered through an endowment. The conferees note that such funds are subject to the regular notification procedures of the Committees on Appropriations.

The provision includes language continuing the transparency and accountability reporting requirements contained in the statement of managers accompanying the Supplemental Appropriations Act, 2009 (Public Law 111-32, House Report 111-151) under the MRA heading. The House had included the reporting requirement as a separate general provision. The Senate bill did not include a similar requirement.

Sec. 7043. Iran Sanctions.

The conference agreement includes a provision similar to that proposed by the House which modifies the reporting requirement in the Omnibus Appropriations Act, 2009 (Public Law 111-8) by adding a statement of policy in subsection (a) and including a limitation in subsection (b). The conferees intend “significant” or “material” to mean aggregate transactions undertaken in a 12-month period valued in excess of \$20,000,000. The conferees direct the Departments of State and Treasury to be responsible for determining what entities meet such standard. The conference agreement does not restrict the Export-Import Bank from modifying existing transactions. However, the conferees direct the Export-Import Bank to consult with the Committees on Appropriations prior to the modification or extension of financing to any existing project that would otherwise be prohibited by this section.

Sec. 7044. Aircraft Transfer and Coordination.

The conference agreement includes a provision, similar to that proposed by the Senate, regarding the use of Department of State and USAID aircraft, including a reporting requirement on air fleets.

Sec. 7045. Western Hemisphere.

The conference agreement includes funding and legislative requirements for a Caribbean Basin Security Initiative, as proposed by the House. The conference agreement includes a provision, similar to that proposed by the Senate, providing authority for USAID to continue support for an Economic and Social Development Fund for Central America, which is intended to address unemployment and other root causes of drug trafficking and criminal gangs, particularly among youth, in vulnerable communities. The conference agreement does not provide a specific funding level from under the ESF heading, as proposed by the Senate. The provision continues funding allocations and legislative requirements for Haiti, Guatemala, Mexico, Central America, and trade capacity building. The conferees intend that the pilot project required in subsection (h) will inform the findings and recommendations of the report required on passport cards, which should also include an analysis of the effect that expanding passport cards to air travelers may have on the fees for both the passport cards and passport books.

Sec. 7046. Colombia.

The conference agreement includes language similar to prior years except that it continues by reference the prior year funding restrictions and reporting requirements with the exception that (b)(1)(B)(iv) of the Omnibus Appropriations Act, 2009 (Public Law 111-8) is modified to include human rights defenders, journalists, trade unionists, political and religious leaders.
