The Carlyle Group is a global alternative asset manager with \$203 billion of assets under management across 129 funds and 141 fund of funds vehicles. We have four business segments: corporate private equity, real assets, global market strategies, and Solutions. It is possible that there are federal contracts related to infrastructure within our over 200 portfolio companies under our private equity umbrella; however, I will not be representing the portfolio companies in my remarks. I am testifying as a representative of Carlyle, the asset manager. We do not have any federal contracts related to infrastructure at the asset manager level.
