COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM

The Honorable Joseph P. Clancy
Director
U.S. Secret Service
950 H Street NW
Washington, D.C. 20223

Dear Mr. Clancy:

On February 15, 2015, the Federal Aviation Administration (FAA) released a proposed rule on the commercial use of unmanned aircraft systems (UAS), commonly referred to as “drones.”¹

Among the major provisions, the FAA’s rule proposes limiting the size, speed, and range of the drones; testing, certification, and vetting requirements for drone operators; and air space restrictions around airports. The proposed rule, however, does not expand the restrictions near high value terrorist targets such as the White House and the Vice President’s residence.

The Committee is interested in ensuring the Secret Service has the tools it needs to fulfill its protective mission, while allowing for the safe use of technology in major metropolitan areas, such as Washington D.C. and New York City. We do not want the proposed rule to adversely impact the Secret Service’s ability to fulfill its mission, specifically as it relates to protecting the President, Vice President, and their families. Our goal is to identify and address any concerns you may have before the FAA finalizes its rule to ensure there is an appropriate balance between national security and commercial interests.

Toward that end, please provide any concerns about the proposed rule, and any related recommendations, to the Committee as soon as possible, but no later than March 5, 2015. In addition, please provide a briefing for Committee staff on or before that date.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
