

Guide to Grants

From the Office of Congresswoman Terri A. Sewell
Proudly Representing Alabama's 7th Congressional District

June 27, 2016

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. One of the most important responsibilities as your representative is to provide you with information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our local governments, organizations and other entities. This weekly guide will identify federal and foundation grant opportunities to assist you in goals for our communities. This Guide will include links to grant writing resources to help you make your proposals more successful. This Guide will also describe new funding opportunities for economic development, infrastructure, healthcare and educational projects as example. In addition, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Please let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit the website at <http://sewell.house.gov/> and you can subscribe to *Guide to Grants* at: [Subscribe to Weekly Guide to Grants | Congresswoman Terri Sewell](#) or call 202-225-2665. Labor Department announces availability of \$50.5M to help states expand, diversify registered apprenticeship opportunities

Part of a \$90M funding strategy to further grow apprenticeships nationwide

WASHINGTON – States across the nation have the opportunity to expand registered apprenticeship programs that provide pathways for American workers from all backgrounds to acquire the skills and knowledge needed for good-paying jobs in fields such as information technology, healthcare, advanced manufacturing, building trades, cybersecurity and business services, through a new U.S. Department of Labor grant competition announced today.

Ranging from \$700,000 to \$3.2M each, the department will award *ApprenticeshipUSA State Expansion Grants* to help states to integrate apprenticeship into their education and workforce systems; engage industry and other partners at scale to expand apprenticeship to new sectors and populations; support the state’s capacity to conduct outreach and work with employers to start new programs; provide support to expand opportunities for at-risk youth, women, people of color, Native Americans and individuals with disabilities, groups typically under-represented in registered apprenticeships; and implement state innovations, incentives and system reforms.

“The Obama Administration is ‘all in’ on apprenticeship for a simple reason: it works,” said U.S. Secretary of Labor Thomas E. Perez. “Apprenticeships are a time-tested, earn-while-you-learn model that helps create opportunities for American workers to succeed while providing employers with the reliable pipeline of skilled talent they need to thrive in today’s global economy.”

The department will award approximately 33 grants totaling \$50.5 million.

The ApprenticeshipUSA State Expansion Grants are the second phase of the department’s \$90 million funding strategy announced in April to grow and diversify registered apprenticeship. These grants build on historic bipartisan Congressional support and follow an unprecedented \$175 million investment in apprenticeship announced by the Obama administration in September 2015.

Apprenticeships benefit employers seeking a highly skilled workforce, and improve workers’ career prospects. Research shows more than 87 percent of apprentices retain their jobs after completing their programs, with an average starting wage above \$50,000 per year. In addition, studies from around the globe report that for every dollar spent on apprenticeship, employers get an average of \$1.47 back in increased productivity, reduced waste and greater front-line innovation.

The Funding Opportunity Announcement that includes information about how to apply is available at www.grants.gov. Grant applications must be received by Sept. 7, 2016.

Rep. Terri Sewell Joins Members of Congress to Stage a Sit-In Demanding a Vote on Commonsense Gun Laws

Too many lives have been lost and too much time has passed. The time to act is right now!

WASHINGTON, D.C. – Today, Congresswoman Terri Sewell joins her colleagues sitting in on the House floor in tribute to the victims of the Orlando nightclub shooting and all those who have lost their lives or loved ones to senseless gun violence.

“Congress has repeatedly failed to pass gun safety measures that would protect our communities while preserving the rights of responsible gun owners. While I am a staunch supporter of the Second Amendment, I believe that strengthening background checks, eliminating gun show loopholes, and preventing potential terrorists from acquiring assault weapons will not limit the rights of lawful gun owners to protect and defend themselves.

“Make no mistake; this is not an attempt to take guns away from law-abiding citizens—these are common sense gun safety measures. We must set aside party politics and work together in the best interests of our nation to reduce gun violence and senseless killings.

“The rising tide of gun violence continues to claim far too many lives. It’s time for Congress to act. I urge my colleagues to take up gun safety measures that will protect our families and our communities. We cannot continue to mourn these tragedies without doing all we can to prevent them.”

Congresswoman Terri Sewell responds to the Orlando Nightclub Shooting of June 12, 2016

WASHINGTON, DC – Rep. Terri Sewell comments on the tragic loss of life from the mass shooting in Orlando, FL. on June 12, 2016.

“I offer my deepest condolences to the victims of the Orlando nightclub shooting, their families and friends. Our thoughts and prayers are with those impacted by this tragic act of terror and hatred. It is times like these when we must remember that when one community suffers, we all suffer. This act of terror and hatred against the LGBT community is the deadliest mass shooting in American history.

“As a Member of the Intelligence Committee, our nation’s security is paramount to me and these types of incidents remind me that we must remain diligent in protecting Americans from threats and attacks both domestic and abroad. The senseless murder of innocent people is a too common occurrence in this country. This is a problem that has touched thousands of people and families all over this country. Collectively, we must be proactive in preventing as many of these incidents as possible in the future.

“While our hearts are lifted by the powerful outpouring of selfless acts of bravery and public support, we must ask ourselves if we have done all we can to prevent such tragedy. Congress needs to work together to protect our homeland against these mass killings. This approach must include commonsense gun safety reform. While I am a strong supporter of the Second Amendment, I believe that strengthening background checks, eliminating gun show loopholes, and preventing terrorist from acquiring assault weapons will not limit the rights of lawful gun owners to protect and defend themselves. We need real leadership. We cannot continue to mourn these tragedies without doing all we can to prevent them.”

Congresswoman Terri Sewell Signs Discharge Petition to Force Vote on Bill to Restore the Voting Rights Act

Congress must act now to make it easier for all Americans to vote

WASHINGTON, D.C. – Yesterday, U.S. Representative Terri Sewell signed a discharge petition to bring to the House Floor and force an immediate vote on H.R. 2867—Voting Rights Advancement Act of 2015 (VRAA), an bipartisan bill introduced by Rep. Sewell last year. June 25 will mark the third anniversary of the *Shelby County v. Holder* decision by the Supreme Court that struck down a key component of the Voting Rights Act of 1965 that identified and attacked discrimination before it occurred. As a result, many states around the country, including Alabama, introduced restrictive voting laws preventing eligible Americans from easy access to the ballot box. New restrictions have been put in place in 22 states – 18 of them Republican led –since 2010, making it much harder for millions of Americans to exercise their right to vote.

“For three years, Congress has failed to act to restore the full protection of the Voting Rights Act.

House Republicans are not at a loss for words but are certainly at a loss for action when it comes to the issue of voting rights in our democracy,” said Rep. Sewell. “Actions speak louder than words. If House Republicans claim to support voting rights, their words must be manifested through their actions and votes. We must not continue to drag our feet on this serious matter”.

I am proud to join the Democratic Caucus’ effort to force an immediate vote on legislation that I introduced to restore and strengthen the Voting Rights Act. America represents the greatest democracy in the world. How can we claim that title when the path to the ballot box continues to be obstructed by restrictive laws that make voting harder and not easier for eligible voters? The answer is this—we cannot. We must renew our commitment to protecting the right to vote for all Americans.

“By passing the Voting Rights Advancement Act of 2015, Congress provides a modern day coverage test to restore the preclearance provisions gutted by the *Shelby v. Holder* decision. Congress has an obligation and the responsibility to address the threat to free and fair access to the polls through federal legislation to restore and strengthen the Voting Rights Act. I call on House Republican leadership to allow an immediate vote on the bipartisan Voting Rights Advancement Act of 2015.”

Congresswoman Terri Sewell Congratulates Lawson State Community College on Receiving NASA STEM Grant

Birmingham, AL – NASA's Minority University Research and Education Project (MUREP) has announced the selection of [two minority serving institutions for cooperative agreement awards totaling approximately \\$1 million](#), to help strengthen science, technology, engineering and math (STEM) curricula at their schools.

Lawson State Community College in Birmingham, Alabama, and New York City College of Technology in Brooklyn, NY, will receive as much as **\$500,000 each** toward efforts to increase the number of historically underserved students studying STEM fields relevant to NASA's diverse exploration missions.

“This is more outstanding news for Lawson State Community College and continues to show why this institution is one of the crown jewels for educating students in our area,” **states Congresswoman Sewell**. “These funds will allow students from communities that have been historically disadvantaged to receive high quality training in advance science fields. By developing strong science, technology, engineering and math skills, these students will put themselves in competitive position to compete for the jobs of tomorrow.”

"We are delighted and very fortunate to be in a position to inspire tomorrow's leaders in science and engineering through a partnership with Dr. Larry DeLucas, former Chief Scientist for the International Space Station at NASA headquarters," **said Dr. Perry W. Ward**, president of Lawson State Community College. "This NASA award will allow science and engineering majors at Lawson State to use experiments conducted in the International Space Station to provide a comprehensive understanding of the underlying theories and experimental techniques utilized in microgravity research. This is a wonderful opportunity for our students to experience world class scientific techniques and I am confident this will excel them to greater heights."

"NASA's MUREP program helps colleges and universities give students from underrepresented and underserved communities a strong foundation in STEM fields, which in turn helps create a strong STEM workforce," said Donald James, associate administrator for NASA's Office of Education, in a statement as a part of the announcement.

Background

Through MUREP's competitive awards, NASA provides financial assistance to minority serving institutions, including historically black colleges and universities, Hispanic serving institutions, Asian American and Native American Pacific Islander serving institutions, tribal colleges and universities, American Indian and Alaskan Native serving institutions, predominantly black institutions and other minority serving institutions and eligible community colleges. These institutions recruit and retain underrepresented and underserved students, including women, girls, veterans and persons with disabilities, into STEM fields.

Section II PROGRAM FUNDING THROUGH FEDERAL AGENCIES

Administration For Children And Families - OPRE

Program: [Behavioral Interventions Scholars](#)

Description: The Administration for Children and Families (ACF), Office of Planning, Research, and Evaluation (OPRE) anticipates soliciting applications for Behavioral Interventions Scholars grants to support dissertation research by advanced graduate students who are using behavioral science approaches to examine specific research questions of relevance to social service programs and policies. These grants are meant to build capacity in the research field to apply a behavioral lens to issues facing poor and vulnerable families in the United States, and to foster mentoring relationships between faculty members and high-quality doctoral students. The deadline is Mar 31, 2017.

Website: Emily.Schmitt@ACF.hhs.gov

Centers For Disease Control

Program: [Comprehensive HIV Prevention Programs for Health Departments](#)

Description: The Centers for Disease Control and Prevention announces the availability of Fiscal Year (FY) 2017 funds for a cooperative agreement program for health departments. The purpose of this funding opportunity announcement is to implement comprehensive human immunodeficiency virus (HIV) prevention programs to reduce morbidity, mortality, and related health disparities. This FOA focuses on addressing the national HIV epidemic by reducing new infections, increasing access to care, improving health

outcomes for people living with HIV, and promoting health equity. The deadline is Sep 02, 2016.

Environmental Protection Agency

Program: [2016 Targeted Air Shed Grant Program](#)

Description: This notice announces the availability of funds and solicits applications from eligible entities to compete for financial assistance through the Targeted Air Shed Grant Program. This program will assist local, state and/or tribal air pollution control agencies in developing plans, conducting demonstrations, and implementing projects to reduce air pollution in nonattainment areas that EPA determines are the top five most polluted areas relative to ozone (O3), annual average fine particulate matter (PM2.5), or 24-hour PM2.5 National Ambient Air Quality Standards (NAAQS). The overall goal of the Targeted Air Shed Grant program is to reduce air pollution in the Nation's areas with the highest levels of ozone and PM2.5 ambient air concentrations. Deadline is July 11, 2016.

Institute of Museum and Library Services

Program: [Museum Assessment Program](#)

Description: The Museum Assessment Program (MAP) is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Alliance of Museums. It is designed to help museums assess their strengths and weaknesses, and plan for the future.

A MAP assessment requires members of the museum staff and governing authority to complete a self-study. After completion of the self-study, a site visit is conducted by one or more museum professionals, who tour the museum and meet with staff, governing officials, and volunteers. The reviewers work with the museum and MAP staff to produce a report evaluating the museum's operations, making recommendations, and suggesting resources.

There are three types of MAP assessments:

Organizational Assessment: Reviews all areas of operations.

Collections Stewardship Assessment: Focuses on collections policies, planning access, documentation, and collections care within the context of the museum's total operations.

Community Engagement Assessment: Assesses the museum's understanding of and relationship with its communities as well as its communities' perceptions of and experiences with the museum. Two Application Deadlines is July 1 and December 1.

National Endowment for the Arts

Program: [NEA Research Labs, FY2016](#)

Description: Through a new program, the National Endowment for the Arts Research Labs (NEA Research Labs), we seek to support a series of transdisciplinary research partnerships,

grounded in the social and behavioral sciences, to produce and report empirical insights about the arts for the benefit of arts and non-arts sectors alike. Each NEA Research Lab will define a research agenda, conduct a research program to implement that agenda, and prepare reports that will contribute substantively to a wider understanding of one of three areas of special interest to the National Endowment for the Arts: 1. The Arts, Health, and Social/Emotional Well-Being 2. The Arts, Creativity, Cognition, and Learning 3. The Arts, Entrepreneurship, and Innovation

Website: <https://www.arts.gov/program-solicitation-national-endowment-for-the-arts-research-labs>

Program: [Our Town FY 17](#)

Description: Organizations may apply for creative placemaking projects that contribute to the livability of communities and place the arts at their core. Our Town offers support for projects in two areas: • Arts Engagement, Cultural Planning, and Design Projects that represent the distinct character and quality of their communities. These projects require a partnership between a nonprofit organization and a local government entity, with one of the partners being a cultural organization. Matching grants range from \$25,000 to \$200,000. • Projects that Build Knowledge About Creative Placemaking. These projects are available to arts and design service organizations, and industry, policy, or university organizations that provide technical assistance to those doing place-based work. Matching grants range from \$25,000 to \$100,000. Deadline is September 12, 2016.

Website: <https://www.arts.gov/grants-organizations/our-town/introduction>

Program: [NEA FY 2017 Art Works II Application](#)

Description: Grant Program Description The guiding principle of "Art Works" is at the center of everything we do at the NEA. "Art Works" refers to three things: the works of art themselves, the ways art works on audiences, and the fact that art is work for the artists and arts professionals who make up the field. Art works by enhancing the value of individuals and communities, by connecting us to each other and to something greater than ourselves, and by empowering creativity and innovation in our society and economy. Deadline is July 14, 2016.

Website: <http://www.arts.gov/grants-organizations/art-works>

National Endowment for the Humanities

Program: [Public Humanities Projects](#)

Description: Public Humanities Projects grants support projects that bring the ideas and insights of the humanities to life for general audiences. Projects must engage humanities scholarship to illuminate significant themes in disciplines such as history, literature, ethics, and art, or to address challenging issues in contemporary life. NEH encourages projects that involve members of the public in collaboration with humanities scholars or that invite contributions from the community in the development and delivery of humanities programming. This grant program supports a variety of forms of audience engagement. Deadline is August 10, 2016.

Website: <http://www.neh.gov/grants/public/public-humanities-projects>

Program: [Media Projects Grants](#)

Description: The Media Projects program supports film, television, and radio projects that engage general audiences with humanities ideas in creative and appealing ways. All projects must be grounded in humanities scholarship in disciplines such as history, art history, film studies, literature, drama, religious studies, philosophy, or anthropology. Projects

must also demonstrate an approach that is thoughtful, balanced, and analytical (rather than celebratory). The approach to the subject matter must go beyond the mere presentation of factual information to explore its larger significance and stimulate critical thinking. NEH is a national funding agency, so the projects that we support must demonstrate the potential to attract a broad general audience. Deadline is August 10, 2016.

Website: <http://www.neh.gov/grants/mp>

Program: [Summer Stipends](#)

Description: Summer Stipends support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Eligible projects usually result in articles, monographs, books, digital materials and publications, archaeological site reports, translations, editions, or other scholarly resources. Summer Stipends support continuous full-time work on a humanities project for a period of two consecutive months. Summer Stipends support projects at any stage of development. Deadline is September 29, 2016.

Website: <http://www.neh.gov/grants/research/summer-stipends>

Program: [Humanities Collections and Reference Resources](#)

Description: The Humanities Collections and Reference Resources (HCRR) program supports projects that provide an essential underpinning for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials, from works that provide basic information quickly to tools that synthesize and codify knowledge of a subject for in-depth investigation. HCRR offers two kinds of awards: 1) for implementation and 2) for planning, assessment, and pilot efforts (HCRR Foundations grants). Deadline is July 19, 2016.

Website: <http://www.neh.gov/grants/preservation/humanities-collections-and-reference-resources>

Program: [Humanities Connections](#)

Description: Through this new grant program, NEH invites proposals that reflect innovative and imaginative approaches to preparing students for their roles as engaged citizens and productive professionals in a rapidly changing and interdependent world. Grants support the development and implementation of an integrated set of courses and student engagement activities focusing on significant humanities content. A common topic, theme, or compelling issue or question must link the courses and activities. Deadline is October 5, 2016.

Website: <http://www.neh.gov/grants/education/humanities-connections>

Website: <http://www.neh.gov/grants/preservation/research-and-development>

Program: [Humanities Open Book Program](#)

Description: The Humanities Open Book Program is designed to make outstanding out-of-print humanities books available to a wide audience. By taking advantage of low-cost “ebook” technology, the program will allow teachers, students, scholars, and the public

to read humanities books that have long been out of print. Deadline is September 13, 2016.

Website: <http://www.neh.gov/grants/odh/humanities-open-book-program>

Program: **Programming Grants to Accompany NEH on the Road Exhibitions**

Description: These grants support ancillary public humanities programs to accompany NEH on the Road traveling exhibitions. Typical formats involve lectures, reading and discussion programs, film discussion programs, Chautauqua presentations by scholars, family programs, exhibition tours, and other appropriate formats for reaching the general public. Deadline is December 29, 2016.

Website: <http://www.neh.gov/grants/public/programming-grants-accompany-neh-the-road-exhibitions>

Program: **Humanities Initiatives at Community Colleges**

Description: NEH Humanities Initiatives at Community Colleges are intended to strengthen the teaching and study of the humanities in subjects such as history, philosophy, and literature. These grants may be used to enhance existing humanities programs, resources, or courses, or to develop new ones.

NEH Humanities Initiatives may

- create opportunities for faculty members to study together, in order to improve their capacity to teach the humanities;
- support new humanities programs (which may include but are not limited to new humanities minors, first-year seminars, and capstone courses), and enhance existing ones;
- support humanities contributions to professional training (in such fields as business, law, economics, technology, and nursing and medicine);
- develop bridge programs for at-risk and nontraditional students;
- help institutions take advantage of humanities resources, especially in the digital humanities; and
- support collaborative projects in the humanities between the applicant institution and another institution, such as a college or university, a school or school system, a museum or library, or a historical or cultural society.

Each project must be organized around a core topic or set of themes.

National Science Foundation

Program: **Campus Cyberinfrastructure**

Description: The Campus Cyberinfrastructure (CC*) program invests in coordinated campus-level cyberinfrastructure (CI) components of data, networking, and computing infrastructure, capabilities, and integrated services leading to higher levels of performance, reliability and predictability for science applications and distributed research projects. Learning and workforce development (LWD) in CI is explicitly addressed in the program. Science-driven requirements are the primary motivation for any proposed activity. Deadline is August 23, 2016.

Program: **Centers for Chemical Innovation**
Description: The Centers for Chemical Innovation (CCI) Program supports research centers focused on major, long-term fundamental chemical research challenges. CCIs that address these challenges will produce transformative research, lead to innovation, and attract broad scientific and public interest. CCIs are agile structures that can respond rapidly to emerging opportunities and make full use of data infrastructure and other approaches to enhance collaborations. CCIs may partner with researchers from industry, government laboratories and international organizations. CCIs integrate research, innovation, education, broadening participation, and informal science communication. Deadline is October 11, 2016.

Program: **Next Generation Networks For Neuroscience**
Description: The goal of this solicitation is to foster the development and dissemination of (1)innovative research resources, instrumentation, and neurotechnologies, and (2) theoretical frameworks for understanding brain function across organizational levels, scales of analysis, and/or a wider range of species, including humans. This program solicits proposals that will develop and disseminate innovative neurotechnologies and/or theoretical frameworks that will transform our understanding of the linkages between neural activity and cognition and behavior across different systems, environments, and species, while also providing an avenue for widespread dissemination of these technologies and theoretical frameworks as well as broad training opportunities. Deadline is October 21, 2016.

Program: **Prediction of and Resilience against Extreme Events**
Description: PREEVENTS is designed as a logical successor to Hazards SEES and is one element of the NSF-wide Risk and Resilience activity, which has the overarching goal of improving predictability and risk assessment, and increasing resilience, in order to reduce the impact of extreme events on our life, society, and economy. PREEVENTS will provide an additional mechanism to support research and related activities that will improve our understanding of the fundamental processes underlying natural hazards and extreme events in the geosciences. Deadline is September 19, 2016.

Program: **Robert Noyce Teacher Scholarship Program**
Description: The National Science Foundation Robert Noyce Teacher Scholarship Program seeks to encourage talented science, technology, engineering, and mathematics majors and professionals to become K-12 STEM teachers. The program invites creative and innovative proposals that address the critical need for recruiting and preparing highly effective K-12 STEM teachers, especially in high-need local educational agencies. The program offers four tracks: Track 1: The Robert Noyce Teacher Scholarships and Stipends Track, Track 2: The NSF Teaching Fellowships Track, Track 3: The NSF Master Teaching Fellowships Track, and Track 4: Noyce Research Track. In addition, Capacity Building proposals are accepted from proposers intending to develop a future Track 1, 2, or 3 proposal. Deadline is September 6, 2016.

Program: **Cybermanufacturing Systems**

Description: There is an opportunity for researchers to pursue research and educational efforts to accelerate the creation of an interoperating, cross-process manufacturing service layer that enables the rapid, bottom-up transformation of access to manufacturing services. Such a service layer can allow creative entrepreneurs and companies to both furnish and access manufacturing apps that span the full spectrum from ideation to physical realization, giving rise to an era of cybermanufacturing. The cybermanufacturing service layer differs from existing Internet services in that it needs an architecture that can incrementally incorporate and organize the rich and deep semantic elements of manufacturing knowledge, requiring an almost unlimited capacity to expand the range and depth of content contributed in the form of partitioned, but interoperating, manufacturing applications. Deadline is OPEN.

Program: [Historically Black Colleges and Universities - Undergraduate Program](#)

Description: To meet the nation's accelerating demands for STEM talent, more rapid gains in achievement and successful degree completion in STEM for underrepresented minority populations are needed. The Historically Black Colleges and Universities Undergraduate Program (HBCU-UP) is committed to enhancing the quality of undergraduate STEM education and research at HBCUs as a means to broaden participation in the nation's STEM workforce. To this end, HBCU-UP provides awards to develop, implement, and study evidence-based innovative models and approaches for improving the preparation and success of HBCU undergraduate students so that they may pursue STEM graduate programs and/or careers.

Program: [Expeditions in Computing](#)

Description: The far-reaching impact and rate of innovation in the computing and information disciplines has been remarkable, generating economic prosperity and enhancing the quality of life for people throughout the world. The Directorate for Computer and Information Science and Engineering (CISE) has created the Expeditions in Computing (Expeditions) program to provide the CISE research and education community with the opportunity to pursue ambitious, fundamental research agendas that promise to define the future of computing and information. In planning Expeditions projects, investigators are encouraged to come together within or across departments or institutions to combine their creative talents in the identification of compelling, transformative research agendas that promise disruptive innovations in computing and information for many years to come. Funded at levels up to \$2,000,000 per year for five years, Expeditions represent some of the largest single investments currently made by the directorate. Together with the Science and Technology Centers CISE supports, Expeditions form the centerpiece of the directorate's center-scale award portfolio. With awards funded at levels that promote the formation of research teams, CISE recognizes that concurrent research advances in multiple fields or sub-fields are often necessary to stimulate deep and enduring outcomes. The awards made in this program will complement research areas supported by other CISE programs, which target particular computing or information disciplines or fields. Deadline is January 18, 2017.

Program: **Ideas Lab: Measuring "Big G" Challenge**

Description: This solicitation describes an Ideas Lab on "Measuring Big G" Ideas Labs are intensive meetings focused on finding innovative solutions to grand challenge problems. The ultimate aim of this Ideas Lab organized by the Physics Division of the Mathematical and Physical Sciences Directorate at the National Science Foundation (NSF), in collaboration with experts in the field, is to facilitate the development of new experiments designed to measure Newton's gravitational constant G with relative uncertainties approaching or surpassing one part in 100,000. The aspiration is that mixing researchers from diverse scientific backgrounds will engender fresh thinking and innovative approaches that will provide a fertile ground for new ideas on how to measure G that can be used to validate and extend current calculations. US researchers may submit preliminary proposals for participation in the Ideas Lab only via FastLane. The goal is to develop multidisciplinary ideas that eventually will be submitted as full proposals. Deadline is October 26, 2016.

Program: **Street Outreach Program**

Description: Today, in communities across the country, young people are living on the streets after running from or being asked to leave homes characterized by abuse, neglect, or parental drug and alcohol abuse. Once on the streets, such youth are at risk of being sexually exploited or abused by adults for pleasure or profit. In addition, youth may engage in shoplifting, survival sex, or drug dealing in order to provide for their basic needs. Since 1996, Street Outreach Program (SOP) has been aiding this population by funding grantees to provide street-based services to runaway, homeless, and street youth who have been subjected to, or are at risk of being subjected to, sexual abuse, or sexual exploitation. These services, which are provided in areas where street youth congregate, are designed to assist such youth in making healthy choices and providing them access to shelter. This funding opportunity is a 36-month project with three 12-month budget periods. Deadline is July 5, 2016.

Program: [Centers for Agricultural Safety and Health \(U54\)](#)

Description: The National Institute for Occupational Safety and Health (NIOSH)/Centers for Disease Control and Prevention (CDC) invites applications for Centers for Agricultural Safety and Health (Ag Centers). Ag Centers are expected to conduct high quality research and help translate scientific discoveries into practical applications to improve

worker safety and health in the areas of agriculture, forestry, and fishing. Center functions should include developing integrated approaches that link basic science with translation and outreach activities. Center structure should take advantage of diverse scientific resources and focus on local, regional, and/or national worker safety and health issues. Centers should place emphasis on the creation and implementation of evidence-based solutions that address important agricultural safety and health problems. Collaborations with other academic institutions, nonprofit organizations, and other occupational safety and health focused groups are expected. Deadline is November 30, 2017.

Program: **Occupational Safety and Health Training Project Grants (T03)**

Description: The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC), invites grant applications for Training Project Grants (TPGs) that are focused on occupational safety and health training. NIOSH is mandated to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Safety and Health Act, and the TPGs are one of the principal means for meeting this mandate. The majority of TPGs are in academic institutions that provide high quality training in the core occupational safety and health disciplines of industrial hygiene (IH), occupational health nursing (OHN), occupational medicine residency (OMR), occupational safety (OS), as well as closely related allied disciplines. NIOSH also funds non-academic programs to meet specific training needs of targeted populations including firefighters, commercial fishermen and occupational health and safety interns. Deadline is November 3, 2019.

Program: **The Pancreatic Cancer Detection Consortium (U01)**

Description: This Funding Opportunity Announcement (FOA) invites applications from multi-disciplinary teams of researchers and clinicians to establish the Pancreatic Cancer Detection Consortium (PCDC) to conduct research to improve the detection of early stage pancreatic ductal adenocarcinoma (PDAC) and characterization of its precursor lesions. This initiative addresses one of the four research priorities identified in the National Cancer Institute's 2014 Scientific Framework for Pancreatic Ductal Adenocarcinoma. The PCDC is intended to support research for the development and testing of new molecular and imaging biomarkers for identifying patients at high risk for PDAC (because of genetic factors or the presence of precursor lesions) who could be candidates for early intervention. The research will be conducted by individual multi-disciplinary research teams, hereafter called Units. The Units will undertake studies on the following areas: identification and testing of biomarkers measurable in bodily fluids for early detection of PDAC or its precursor lesions; determine which pancreatic cysts are likely to progress to cancer; develop molecular- and/or imaging-based approaches for screening populations at high risk of PDAC; conduct biomarker

validation studies; and collect longitudinal biospecimens for the establishment of a biorepository. All Units are expected to participate in collaborative activities with other Units and share ideas, specimens and data within the Consortium. Deadline is April 6, 2018.

Description: The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency, or a reduction in waste.

Program: **Environmental Research & Education Foundation Grants**

Description: The Environmental Research & Education Foundation (EREF) accepts proposals for research projects and educational initiatives for developing tools that promote awareness or increase knowledge of the solid waste industry. Awards are generally up

to \$500,000. Because the amount of funding for research is limited, the foundation encourages submitting parties to form partnerships with other funding sources (real-dollars or in-kind services). Parties should identify the sources and amounts of external funding in their submissions. The development of tools to be used for commercial purposes, or that will be considered proprietary, will generally not be considered unless approved by EREF a priori.

Successful pre-proposals will be invited to submit a full proposal. Pre-proposals are accepted 10 days prior to each deadline date. Pre-proposals are due by 5 p.m. each May 21 and October 1.

Program: **William H. Johnson Foundation Invites Applications from African-American Artists for 2016 Johnson Prize**

Description:

The William H. Johnson Foundation for the Arts was established in 2001 in honor of William H. Johnson, an American artist known primarily for his Scandinavian landscapes and his witty and poignant depictions of African-American daily life.

Recognizing that minority artists often need economic assistance, the foundation seeks to encourage artists early in their careers by offering financial grants. To that end, the foundation is accepting applications for the 2016 William H. Johnson Prize.

The Johnson Prize is awarded annually to an early-career African-American artist working in the area of painting, photography, sculpture, printmaking, installation, or a new genre. For award purposes, "early career" is a flexible term that should be interpreted liberally to include artists who have finished their academic work within twelve years from the year that the prize is awarded. Age is not determinative, and artists who have not earned a BFA or MFA are eligible so long as they have not been working as an artist for more than twelve years.

The 2016 prize recipient will receive \$25,000. The winner will be announced in December 20.

Society of Teachers of Family Medicine Invites Applications for Program Enhancement Award

Description:

The Society of Teachers of Family Medicine is an association of nearly five thousand family medicine educators, including medical school professors, preceptors, residency program faculty, residency program directors, and others involved in family medicine education.

Through its annual Family Medicine Program Enhancement Award program, STFM awards grants of up to \$2,000 to family medicine programs to implement enhancements at their institutions while developing the leadership skills of family medicine faculty. Preference is given to programs whose project leaders are at an early stage of their academic careers.

Eligible projects must be designed to enable a hands-on learning and leadership opportunity for a faculty member (project leader) based on a specific program enhancement. In addition, a project consultant(s) from another institution must be identified. Throughout the duration of the project, the project leader receives skills/training related to the defined program enhancement and is expected to serve as the leader of the implementation at his or her home institution. This training experience may be conducted at the applicant's institution or at the consultant's institution. Deadline is September 16, 2016.

Program: [Chef Ann Foundation Accepting Applications for School Fresh Produce Program](#)

Description: The [Chef Ann Foundation](#) provides tools that help schools serve children healthy and delicious scratch-cooked meals made with fresh, whole food. To that end, the foundation, in partnership with [Skoop](#), is accepting applications for Project Produce: Fruit and Veggie Grants for Schools, a program that aims to expand students' palates and encourage increased consumption of and exposure to fresh produce.

Grants of up \$2,500 will be awarded to school districts for programs that engage students in lunchroom education activities that encourage students to taste new vegetables and fruits offered either in a dish, cooked, or raw. Grant funds must be used to purchase fresh fruits and vegetables to support each school's planned Project Produce programming. In addition, the majority of the produce must be locally accessible and at a price point affordable to all households.

Any district or independent school participating in the National School Lunch Program is eligible to apply. Applications must be submitted by the school district's food-service director. Districts may apply for up to ten schools at \$2,500 per school. Deadline is Rolling.

Program: **IDA Seeks Applications to Support Independent Documentary Films**

Description: The International Documentary Association is accepting applications for the creation of original, independent documentary films that illuminate pressing issues in the United States.

Through the Pare Lorentz Documentary Fund, IDA will award production grants of up to \$25,000 to up to a dozen projects that tell a compelling story and focus on one of Pare Lorentz's central concerns -- the appropriate use of the natural environment, justice for all, and/or the illumination of pressing social problems. The fund supports full-length documentary films that reflect the spirit and nature of Pare Lorentz's work and exhibit objective research, artful storytelling, a strong visual style, high production values, excellent writing, and outstanding music composition, as well as skillful direction, camerawork, and editing. A program of the International Documentary Association, the Pare Lorentz Documentary Fund is made possible by the New York Community Trust.

Projects must be in production at the time of application, with the bulk of research and development completed but still having substantial production or post-production related work and expenses remaining. Grant funds may be used for production and post-production related expenses incurred during the period of support.

To be eligible, the applicant must be 18 years of age or older and be a producer and/or director of the submitted work. In addition, the applicant must be an independent filmmaker working on an original project. The applicant also should be an experienced filmmaker with at least one key above-the-line (producer, director, co-director, co-producer) or other principal creative (director of photography, editor) credit on a previously completed documentary.

IDA will be accepting applications on a rolling basis until July 31, 2017. Applications will be reviewed throughout the period, with grants being awarded quarterly.

Program: **Rubin Foundation Accepting Applications for Social Justice Arts Projects**

Description: Founded in 1995, the Shelley & Donald Rubin Foundation is committed to providing grants that support access to art for a broad audience, art in the service of social justice, art in the service of social change and discourse, and under-recognized artistic practice. Through its art-focused social justice mission, the foundation seeks to catalyze collective action, promote equality, contribute to advocacy and policy change, and develop capacity for greater civic engagement.

To that end, the foundation is accepting applications from arts and cultural organizations active in New York City for projects that embody ethical artistic practice and broaden access to the arts in the five boroughs of New York. Past grants have ranged from \$2,500 to \$100,000. Funding is not provided for grants to individuals, capital (building) projects, endowment funds, scholarships or fellowships, or fundraising activities.

The foundation is open to reviewing requests on a variety of scales, but it will not be the sole funder of an organization or a project.

Only art organizations with 501(c)(3) tax-exempt status under the Internal Revenue Code, or those with a qualifying fiscal sponsor, will be considered.

Deadline is September 15, 2016.

Program: **Detwiler Family Foundation Invites Applications for Projects Benefitting Children**

Description: The National Fish and Wildlife Foundation, with additional corporate sponsorship from Enbridge, has issued a Request for Proposals for projects that assist refuge friends organizations in being effective co-stewards of the nation's important natural resources within the National Wildlife Refuge System.

Through the 2016 National Wildlife Refuge Friends Program, NFWF will award grants of up to \$15,000 for creative and innovative projects that aim to increase the number and effectiveness of organizations interested in assisting the refuge system nationwide.

The overarching goals of the program are to help refuge friends organizations build their expertise, expand and increase their capacity and skills, gain and build community recognition and support, build long-term relationships, and encourage the sharing of expertise within the refuge friends network. Within each area of emphasis outlined below, priority will be given to proposals that demonstrate their ability to meet some or all of these overarching programmatic goals.

1) Nonprofit Capacity Building Grants: Grants will be awarded to assist both startup and established refuge friends organizations build their capacity. Funds for newly formed organizations may include formative and/or initial operational support. Funds for established refuge friends organizations may include activities that strengthen the organization's ability to fully achieve its mission and sustain itself over time.

2) Project Specific Grants: Grants will be awarded to refuge friends organizations seeking support for projects initiated and managed by friends. For these grants, friends must clearly demonstrate their involvement in all elements of the project, including how it will benefit the friends and foster increased engagement on the part of the public, community, volunteers, and/or members.

3) Peer-to-Peer Coaching: Funds will be provided to refuge friends organizations that propose to coordinate and execute a friends training workshop for a minimum of four other refuge friends organizations.

Eligible applicants include U.S. Fish and Wildlife Service Refuge Friends organizations whose primary mission is to support a refuge or complex of refuges. Applicants must either be tax exempt under section 501(c)(3) of the Internal Revenue Code, or in the process of applying for 501(c)(3) status. Applicants in the latter category must submit a copy of the letter from the IRS confirming their determination application has been filed with their grant application. Deadline is July 12, 2016.

Program: [**Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities**](#)

Description: The mission of the [Captain Planet Foundation](#) is to promote and support high-quality educational programs that help children and youth understand and appreciate the natural world through learning experiences that engage them in active hands-on projects.

Grants are intended to serve as a means of bringing environment-based education to schools and of inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match its grant guidelines but otherwise promote its focus on hands-on environmental activities.

The foundation makes grants to U.S.-based schools and nonprofit environmental and educational organizations with annual operating budgets of less than \$3 million.

Preferential consideration is given to grant requests that include at least a 50 percent matching or in-kind funding component. (Because external funding is a good indicator of the potential long-term sustainability of the activity, projects with matching funds or in-kind support are given priority.) The foundation will on occasion consider grants of up to \$2,500. Deadline is September 30, 2016.

Program: **NEEF Accepting Applications for Greening STEM Integration Grants**

Description: The National Environmental Education Foundation (NEEF), with major funding support from the Mitsubishi Corporation Foundation for the Americas, is offering

funding for teachers, afterschool programs, and nature organizations for projects that support the integration of Greening STEM into current or new programming or curriculum.

NEEF believes that the natural world offers a compelling and universal context for investigations and applications of many STEM lessons, an approach it calls Greening STEM. By learning about STEM concepts in reference to real-life environmental examples or issues, the subject matter is more tangible and extends beyond the textbook or classroom, influencing the way students think about the world and the way they view their connection to it.

Program: [Carey Institute for Public Good Invites Applications for Fall Nonfiction Residencies](#)

Description: The [Carey Institute for Global Good](#) is dedicated to making a better world by contributing to a strong, educated, and just society. The institute is located in the historic hamlet of Rensselaerville, New York -- a community of farmers, writers, artists, and civic advocates -- just a two-hour drive from New York City. Nestled on a one-hundred-acre campus in the heart of a pristine nature reserve, it offers an inspiring place to convene and advance the work of journalists, policy makers, artists, agricultural innovators, entrepreneurs, and other changemakers seeking sustainable solutions to local and global challenges.

The institute is accepting applications for its fall nonfiction residency program. Applications for residency are judged on the quality of the applicant's work and

professional promise. Residencies vary in length. The minimum stay is two weeks; the maximum stay is three months.

Documentarians, journalists, and nonfiction writers working at the professional level in their fields are eligible to apply once each calendar year. Particular areas of emphasis relate to the most pressing issues of our day, including but not limited to war and conflict; social justice and human rights; science, health, agriculture, environment and technology; biographies, histories and government; education; journalism and the media; and economics and business.

Pre-applications are due by July, 2016, with applications due no later than August 1, 2016.

Program: **Rockefeller Archive Center Accepting Applications for Grant-in-Aid Program**

Description: The Rockefeller Archive Center in Sleepy Hollow, New York, annually offers a competitive grant-in-aid program to foster, promote, and support research by serious scholars in the collections located at the center, which includes the records of the Rockefeller family, Rockefeller University, the Rockefeller Foundation, and other Rockefeller-associated philanthropies and individuals.

An independent committee reviews each application based on research topic and the availability of relevant material in the RAC collections. Awards are made to individuals only; institutions are not eligible to apply. Awards do not support research at other institutions and cannot be used for general tuition support. Application to the grant-in-aid program is open to citizens of the United States and foreign countries.

Awards will provide for reimbursement of up to \$4,000 in expenses after the award recipient has finished his or her research visit and submitted expense receipts.

Applicant must contact the center via email or by fax with a description of the project no later than October 15, 2016. Upon review, selected applicants will be invited to submit a complete application by November 1, 2016.

Program: Donaghue Foundation Invites LOIs for Improvements to Senior Care
Program: Good Sports Accepting Applications for Sports Equipment Program

Description: Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization is able to focus on the respective needs of each individual program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for a two-year period. During that time, organizations can make up to six separate donation requests — as long as need is well documented, donations will be granted. There is no need to resubmit a full application again during the two-year period.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks prior to the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time

Program: **[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)**

Description: The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores. Deadline is OPEN.

Program: **[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)**

Description: Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The Unmet Needs Program provides financial assistance of up to \$5,000 to assist with basic life needs in the form of a grant — not a loan — so no repayment is required. Eligible expenses include housing and vehicle payments; utility and phone bills; food and incidentals; children's clothing, food, diapers, school, and childcare; and medical bills, prescriptions, and eyeglasses. Each expense will be considered on a case-by-case basis, and payments will be made directly to the recipient's creditors.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy. Deadline is OPEN.

Start a Snowball Invites Applications for Youth Philanthropy Projects

Description:

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows (“snowballs”) into something that inspires and benefits an entire community.

In order to help kids kick off their philanthropy efforts, Start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group, or support projects that are discriminatory or political in nature. Deadline is Rolling.

Program: [**Home Depot Foundation Offers Grants to Support the Housing Needs of Military Veterans**](#)

Description:

The Home Depot Foundation's Veteran Housing Grants Program awards grants to nonprofit organizations for the development and repair of veterans housing. To date, the foundation has awarded more than \$80 million and has helped impact more than 17,000 units of housing for veterans.

Veteran Housing Grants are best suited to fund single family home repairs when they are a part of a permanent program managed by the nonprofit partner.

Eligible projects include new construction or the rehab or repair of single or multifamily permanent supportive or transitional housing. Grants are awarded solely for the physical construction or repair of housing for veterans (hard costs). Preference will be given to projects that serve the housing needs of women veterans with children, post-9/11 wounded veterans, veterans with caregivers, homeless veterans, and senior veterans aging in place; are located in a major metropolitan area; address the needs of veterans with supportive services or opportunities for community service activities; are supported by a mix of local private/public financial support as well as a mix of local, city, state, federal, and private funding; involve multifamily developments with a successful track record, or new construction or repair for single-family homes; and provide volunteer opportunities for local Home Depot store associates.

Awards typically range from \$100,000 to \$500,000.

To be eligible, applicants must be a 501(c)(3) nonprofit organization in good standing with the Internal Revenue Service for at least five years; have an operating budget of at least \$300,000; and have developed and either currently manage or own veteran-specific housing. For rental projects, nonprofit must have an ownership stake in the development for more than fifteen years. Deadline is

Laura and John Arnold Foundation Issues RFP for Criminal Justice Research Projects

Description:

The Laura and John Arnold Foundation works to address the nation's most pressing and persistent challenges using evidence-based, multidisciplinary approaches. Its strategic investments are currently focused in criminal justice, education, evidence-based policy and innovation, research integrity, and science and technology.

To advance this mission, the foundation has issued a request for criminal justice research proposals as part of its effort to build an evidence base about the approaches, innovations, and strategies that work best to improve public safety as well as increase the fairness and efficiency of the criminal justice system. LJAF has committed up to

\$14 million in funding to support the research: \$12 million to fund at least four randomized controlled trials (RCTs) and \$2 million to fund innovative, early-stage research projects that, if successful, could advance to the RCT stage.

Program: [Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

Description: The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period of time. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal, or both.

The foundation welcomes, throughout the year, applications from visual artists (painters, sculptors, and artists who work on paper, including printmakers) with genuine financial needs. Grants are intended for a one-year period of time, with the size of the grant to be determined by the artist's individual circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories. Deadline is OPEN.

Program: [Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Description: Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury. Deadline is OPEN.

Program: **Big Read Accepting Grant Applications for Community-Wide Reading Programs**

Description: The Big Read, a program of the National Endowment for the Arts, aims to restore reading to the center of American culture. Managed by Arts Midwest, the program provides organizations with grants and comprehensive resources that support their efforts to inspire their community to read and discuss a single book or the work of a poet.

Community organizations participating in the Big Read develop and produce reading programs that encourage reading and participation by diverse local audiences. These programs include activities such as author readings, book discussions, art exhibits, lectures, film series, music or dance events, theatrical performances, panel discussions, and other events and activities related to the community's chosen book or poet. Activities must focus on a book or poet from the Big Read Library. Previous grantees must select a different reading choice from their previous programming.

The program is accepting applications from nonprofit organizations to develop reading programs between September 2016 and June 2017. Organizations selected to participate receive a grant, educational and promotional materials, and access to online training resources and opportunities. Approximately seventy-five organizations will be selected from communities of varying size in the United States.

Eligible organizations may apply for grants ranging from \$5,000 to \$20,000. Grants must be matched on a one-to-one basis with non-federal funds. Grant funds may be used for a variety of expenses, including book purchases, speaker fees and travel, salaries, advertising, and venue rental. Deadline is January 26, 2017.

Program: [**Caplan Foundation for Early Childhood Invites Letters of Intent**](#)

Description: The Caplan Foundation for Early Childhood supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

2) Early Childhood Education and Play: Research shows that children need to be stimulated as well as nurtured, early in life, if they are to succeed in school, work, and life. That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

Letters of Intent are accepted on a rolling basis. Upon review, selected applicants will be invited to submit full applications.

Program: **Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities**

Description: The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

The foundation makes grants to schools and nonprofit environmental and educational organizations in the United States with annual operating budgets of less than \$3 million

Deadline is:

January 31 (typically for fall and winter projects)

September 30 (typically for spring and summer projects)

Program: **Chambers of Commerce Invited to Start Young Entrepreneur Academies**

Description: The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Program: **Advocacy Event Fund**

Description: Building public and political support is critical for successfully advocating to incorporate **permanently affordable housing (PAH)** into public policies and programs. Building this support requires bringing together the right stakeholders to inform, discuss, and strategize. We know that this is often challenging for our members who have limited resources. During 2015, the Network will award three to four grants of up to \$3,000 for eligible Network members to support the planning of one-time events that bring stakeholders together and garner support for the incorporation of PAH into state or local housing, transportation, and community development public policies

and programs. The purpose of the grants is to fund events that will have a catalyzing effect on policy discussions, partnerships, advocacy campaigns, and eventually, policies and programs themselves.

Program: **CSX Beyond Our Rails Grant**

Description: CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment. CSX considers grant,

sponsorship, volunteer, transportation and in-kind requests from organizations that have been approved by the IRS as 501c3 charities. Government institutions, such as fire departments and schools allowed under Internal Revenue Code 170(c), are also eligible.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

An on-line application is provided for all requests and is available from January 1 through December 15 of each year. There are no deadlines for applications, but organizations are encouraged to submit all their annual requests at one time each year.

SECTION V FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID/ AWARDS

Program: Harpo Foundation Invites Applications for 2016 Emerging Artists Fellowship

Description: The Chicago-based Harpo Foundation was established in 2006 to support artists who are underrecognized by the field. The foundation seeks to stimulate creative inquiry and encourage new modes of thinking about art.

The foundation's Emerging Artist Fellowship at the Santa Fe Art Institute was established in 2013 to provide an annual opportunity to an emerging visual artist age 25 and older who needs time and space to explore ideas and start new projects. Artist fellows will receive a one-month residency at the Santa Fe Art Institute that includes a well-appointed room with private bath, a well-lit studio space, and a \$500 travel stipend.

Founded in 1985, the Santa Fe Art Institute provides a unique opportunity for emerging artists to pursue creative projects without interruption. SFAI supports over fifty residents per year and offers a cohesive, arts-focused environment that creates the ideal working conditions for resident artists. Living and studio space is located within a nearly 17,000-square-foot complex designed by renowned Mexican architect Ricardo Legoretta. The unique SFAI environment allows residents to be as interactive or private as they wish. There are no requirements on the work produced during their time at SFAI.

One fellowship is awarded annually to an emerging artist who demonstrates strong artistic ability and promise, as well as an evolving practice that is at a pivotal moment in its development.

Deadline is October 1, 2016.

ATTENTION VETERANS:

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs>
