

Guide to Grants

From the Office of Congresswoman Terri A. Sewell
Proudly Representing Alabama's 7th Congressional District

July 27, 2015

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. One of the most important responsibilities as your representative is to provide you with information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our local governments, organizations and other entities. This weekly guide will identify federal and foundation grant opportunities to assist you in goals for our communities. This Guide will include links to grant writing resources to help you make your proposals more successful. This Guide will also describe new funding opportunities for economic development, infrastructure, healthcare and educational projects as example. In addition, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Please let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit the website at <http://sewell.house.gov/> and you can subscribe to *Guide to Grants* at: [Subscribe to Weekly Guide to Grants | Congresswoman Terri Sewell](#) or call 202-225-2665. Rep. Sewell Joins President Obama on His Africa Trip

Congresswoman Terri Sewell is visiting Kenya and Ethiopia as part of the Presidential delegation to East Africa.

"I am honored to join President Obama during his official visit to East Africa. I welcome the opportunity to promote Alabama products and businesses abroad. It is my hope that this trip will be a catalyst for a stronger partnership between the United States and our allies in East Africa, and stimulate economic development in this emerging continent.

"Connecting Alabama businesses with new opportunities for growth is of critical importance to me, particularly in the Black Belt where our agricultural sector is strong. Exports drive Alabama's economy, and I hope this trip provides some insight into how Alabama businesses will benefit from stronger economic ties between the United States and East Africa.

"I am excited to be a part of this historic journey. I look forward to continuing to work with President Obama to create more avenues for prosperity right here at home."

Rep. Sewell Announces Marion Added to Selma to Montgomery National Historic Trail

Today Congresswoman Terri Sewell joined National Parks Service Director Jonathan Jarvis for a ceremony at Zion Methodist Church to announce that the City of Marion, Alabama has been added to the Selma to Montgomery National Historic Trail.

The death of Jimmie Lee Jackson was among the catalysts for the Selma to Montgomery marches of 1965.

"It was in honor of Jimmie Lee Jackson that ordinary men and women who were tired of injustice gathered in my hometown of Selma to march across the Edmund Pettus Bridge for equality. It was in honor of Jimmie Lee Jackson, who was also a devoted activist and church deacon that we marched to a new America and signed the Voting Rights Act of 1965 into law. And it is in honor of Jimmie Lee Jackson that we celebrate this exciting new chapter in the history of Marion, Alabama." Rep. Sewell said.

Rep. Sewell Calls on Congress to Restore the Voting Rights Act

Today, Congresswoman Terri Sewell spoke of the urgent need to restore federal voter protections alongside Rep. John Lewis and members of the House Democratic leadership team. A transcript of her remarks follows:

“Today I stand with my colleagues to demand that Congress act to restore the Voting Rights Act of 1965. We must not allow ourselves to be distracted by all this talk about the Confederate flag, symbols, and statues. To be sure, these offensive symbols are relics of the past and that’s where they belong – in the past. But to truly change the hearts and minds of people we must – and we must do it now – have policies and laws that change behavior. So today we declare that restoring the Voting Rights Act is the most tangible, substantive way that we in Congress can level the playing field, and ensure that all Americans have access to the ballot box.

It is a unique and positive action that only Congress can do. Two years ago the Supreme Court in Shelby decision obliterated Section 4 pre-clearance and federal protection for vulnerable communities. The Supreme Court issued Congress a challenge. They said that we needed a modern day formula in order to have federal protection. They didn’t say federal protection wasn’t needed. They said that we needed a modern day formula. Well Congress can and must answer that challenge. The fate of a democracy depends on its citizens having the unfettered, unrestricted right to vote.

Our vote is our voice, and no voice should be silenced. We must never surrender the voice – our voice – that was died for, prayed for, and marched for by brave Americans like our beloved Congressman John Lewis.

When we place barriers to voting or support voting practices that have the intended or unintended consequences of impacting vulnerable communities we’re restricting their rights.

The hypocrisy of this Congress really baffles to me. On March 7, Congressman Lewis and I welcomed over 100 members of Congress to Selma to commemorate Bloody Sunday. The fact that the brave men and women – ordinary Americans – could collectively achieve extraordinary social change is something that both the Republicans and Democrats who showed up in Selma could do.

It was Kumbaya moment, but what did we do when we came back to Congress? Nothing. Yes, we agreed to give a Congressional Gold Medal to the Foot Soldiers of the Voting Rights Movement, and it is a long time coming. But instead of simply awarding them with a Gold Medal, my challenge to my colleagues – Republicans and Democrats – is that we actually restore the Voting Rights Act.

I along with Senator Leahy and Congresswomen Sanchez and Chu introduced a bill on June 25, 2015, the second anniversary of the Shelby decision. It was called the Voting Rights Advancement Act and it is an expansive bill that not only restores pre-clearance, but it has a modern day pre-coverage formula. It has a look back to 1990 and going forward. Thirteen states are captured by this new formula including states Alabama, California and New York. This Act is what we want people to act on now. It’s expansive, and includes provisions to protect Native Americans and ensures that ballots are translated into multiple languages. It also calls out known practices like redistricting jurisdictions to at-large districts that often dilute the vote of African-Americans and other vulnerable communities.

In closing, I think that we in Congress are the only ones who can truly act on the challenge presented from the Shelby case. My hope is that we act now, and that we take this opportunity as our country mourns the loss of nine Americans due to hatred. We can level the playing field and restore the Voting Rights Act. We must do so. We have to do so and we should do it now.

USDA Announces \$349 Million in Funding for Rural Electric Infrastructure Projects including \$17 Million in Smart Grid Technology

WASHINGTON, July 21, 2015 - Agriculture Secretary Tom Vilsack today [announced \\$349 million in funding](#) for 15 rural electric infrastructure projects to build or improve more than 1,844 miles of transmission and distribution lines for rural electric cooperatives and utilities in 13 states.

"Eighty years ago, USDA took on the challenge of bringing power to rural America and it helped make this the greatest, most productive country on Earth," said Vilsack. "Today we are continuing that commitment by investing in the next generation of power transmission – smart grid technology – to make our electric system more reliable, efficient and effective. Upgrading the electric grid will not only improve reliability and better manage costs, but it will also bring jobs and increased economic opportunities, helping to build a sustainable and dynamic future for rural residents and businesses."

The funding is being provided through USDA Rural Development's [Electric Program](#), which makes insured loans and loan guarantees to non-profit and cooperative associations, public bodies and other utilities. The loans primarily finance the construction of electric distribution facilities in rural areas.

For example, the Macon Electric Cooperative in Missouri has been selected to receive a \$15.2 million loan to build or improve 51 miles of line and make other system improvements. The loan includes \$2 million for smart grid projects.

The Douglas Electric Cooperative, Inc. in South Dakota is receiving \$1.3 million to build and improve 15 miles of line and make other system improvements. The loan amount includes \$270,000 for smart grid projects.

The Minnesota Valley Electric Cooperative will receive a \$25.5 million loan to build or improve 171 miles of line and make other system improvements. The loan includes \$2 million for smart grid projects and \$222,000 for service to Native Americans.

The total of \$349 million in electric loans includes a \$44 million loan to Eastern Iowa Light & Power Cooperative announced by Vilsack on July 17.

Smart grid increases the reliability of electric power by helping utilities better manage the electric grid to improve operational efficiencies. It includes metering, substation automation, computer applications, two-way communications, geospatial information systems, and other system improvements.

USDA has been committed to improving production and transmission of electricity for rural America since the creation of the Rural Electrification Administration in 1935. In 2014 alone, USDA's Rural Utilities Service awarded \$2.7 billion in electric loans. These loans helped 4.6 million rural residents receive improved electric service.

President Obama's plan for rural America has brought about historic investment and resulted in stronger rural communities. Under the President's leadership, these investments in housing, community facilities, businesses and infrastructure have empowered rural America to continue leading the way - strengthening America's economy, small towns and rural communities.

Agriculture Secretary Vilsack Announces Available Funding and Changes to USDA's Biorefinery and Biobased Product Program

WASHINGTON, July 16, 2015 – Agriculture Secretary Tom Vilsack today announced that USDA is accepting applications for funding under a program that supports the production of advanced biofuels, renewable chemicals, and biobased product manufacturing.

"This critical financing will enhance our efforts to build a robust, rural bioeconomy by helping to expand the availability of biobased products and to increase the number of commercial-scale biorefineries in the country," Vilsack said. "In addition to the available funding, I am proud to announce that USDA has significantly improved the biorefinery program to help create lasting job opportunities in rural America."

USDA is making the funding available through the [Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program](#). It was formerly known as the Biorefinery Assistance Program.

The new program provides loan guarantees of up to \$250 million to construct and retrofit commercial-scale biorefineries and to develop renewable chemicals and biobased product manufacturing facilities. Vilsack and USDA [Rural Business-Cooperative Service](#) Administrator Lillian Salerno today hosted a seminar at USDA headquarters to discuss changes to the program and the opportunities available to produce more biobased products.

Two funding cycles are being held. Applications for round one are due October 1. Applications for the second round are due April 1, 2016. For information on how to apply, see page 38432 of the July 6, 2015 [Federal Register](#).

USDA has made significant improvements to the program. Biorefineries are now able to receive funding to produce more renewable chemicals and other biobased products in addition to advanced biofuels.

Also, biobased product manufacturing facilities are eligible to convert renewable chemicals and other biobased outputs into "end-user" products. Further, USDA has streamlined the application process.

Sapphire Energy's "Green Crude Farm" in Columbus, N.M., is an example of how USDA funding and partnerships with the private sector are helping to support the development of biorefineries. In 2011, USDA provided Sapphire Energy a \$54.5 million loan guarantee to build a refined algal oil commercial facility.

The plant opened in May 2012 and is producing renewable algal oil that can be further refined to replace petroleum-derived diesel and jet fuel. According to the company, more than 600 jobs were created throughout the first phase of construction at the facility, and 30 full-time employees currently operate the plant. After Sapphire received additional equity from private investors, it repaid the remaining balance on its USDA-backed loan in 2013.

USDA released a [new report](#) on June 17 that shows America's biobased industry is generating substantial economic activity and creating American jobs. According to the report, the U.S. biobased industry contributed four million jobs and nearly \$370 billion to the American economy in 2013 alone.

Today's funding announcement was made possible by the 2014 Farm Bill, which builds on historic economic gains in rural America over the past five years while achieving meaningful reform and billions of dollars in savings for taxpayers. USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life.

USDA Seeks Applications to Expand Economic Development in Rural Communities

Agriculture Under Secretary Lisa Mensah today announced that USDA is seeking applications for grants to support rural community economic development.

“This funding from USDA will ensure that technical and financial assistance is available for those who wish to improve the quality of life in rural communities,” Mensah said. “Very often, great visions for better rural communities exist, but the next steps toward positive change are unclear. These grants will help rural communities build a path to community economic development so rural America can share in the nation’s economic recovery.”

Approximately \$10.4 million is being made available under the [Rural Community Development Initiative \(RCDI\) program](#). Eligible applicants include public, private, and non-profit intermediaries, and federally recognized tribes.

RCDI grants can be used to provide training or technical assistance. Training may be focus on homeownership education, minority business entrepreneurship, strategic community planning or accessing alternative funding sources. Intermediary organizations must provide matching funds at least equal to the RCDI grant. Grants range from \$50,000 to \$250,000.

USDA has invested more than \$33 million through the RCDI program since 2009. In 2013, the Choctaw Nation of Oklahoma received a \$150,000 grant to provide home buying and home maintenance education to 50 Native American women in the community of Broken Bow.

For information on how to apply contact your Rural Development [state office](#) or see Page 27887 of the [5/15 Federal Register](#). **Applications must be submitted by August 13, 2015.**

President Obama’s plan for rural America has brought about historic investment and resulted in stronger rural communities. Under the President's leadership, these investments in housing, community facilities, businesses and infrastructure have empowered rural America to continue leading the way - strengthening America's economy, small towns and rural communities.

Section II PROGRAM FUNDING THROUGH FEDERAL AGENCIES

Consumer Product Safety Commission

Program: **Pool Safely Grant Program**

Description: The purpose of this program is to prevent the drowning and drain entrapments of children in pools and spas. The PSGP seeks to provide state and local governments with assistance for prevention education and enforcement of pool safety requirements. Deadline is August 19, 2015.

Website: <http://www.poolsafely.gov/grants/vgbfy16/>

Environmental Protection Agency

Program: **FY 2015 TRIBAL WASTE MANAGEMENT CAPACITY BUILDING TRAINING GRANT**

Description: The recipient will conduct trainings that will assist tribes in the development and implementation of sustainable waste management programs. The trainings will focus on: (1) developing Integrated Waste Management Plans (IWMPs); and (2) developing Tribal Codes and Ordinances. In addition, the recipient will offer travel scholarships to support the trainings as well as provide travel scholarships to financially assist tribes that voluntarily participate in the EPA's National Peer Matching Program. Deadline is July 31, 2015.

Website: <http://www.epa.gov/oswer/docs/grants/epa-oswer-orcr-15-03.pdf>

Institute of Museum and Library Services

Program: **National Conservation Assessment Program**

Description: The Institute of Museum and Library Services (IMLS) is releasing a special Notice of Funding Opportunity under the National Leadership Grants for Museums (NLG for Museums) program to fund a cooperative agreement to develop, test, and implement an affordable and accessible conservation assessment program for small and midsize museums to help them care for their collections. IMLS anticipates awarding a three-year cooperative agreement, although funding will be obligated annually with additional amounts subject to the availability of funds, IMLS discretion, and notification to the cooperator. Deadline is September 1, 2015.

Website: <http://www.ims.gov/applicants/detail.aspx?GrantId=6>

National Archives and Records Administration

Program: **Literacy and Engagement with Historical Records**

Description: The National Historical Publications and Records Commission seeks projects that encourage citizen engagement with historical records, especially those available online, and/or projects that train people on how to enhance digital literacy skills for using historical records. Deadline is October 8, 2015.

Website: <http://www.archives.gov/nhprc/announcement/literacy.html>

Program: **State Government Electronic Records**

Description: The National Historical Publications and Records Commission seeks projects that will accession, describe, preserve, and provide access to state government electronic records of enduring value. Government information maintained by state archives is a national asset, serving as important resources for documenting rights and capturing the national experience. The NHPRC will support projects that actively engage in activities that preserve electronic record assets and make them available for public discovery. The Commission encourages collaborative projects that bring together multiple parties to plan for and carry out project goals and outcomes. Deadline is October 8, 2015.

Website: <http://www.archives.gov/nhprc/announcement/electronic.html>

Program: **Digital Dissemination of Archival Collections**

Description: The National Historical Publications and Records Commission desires to make historical records of national significance to the United States broadly available by disseminating digital surrogates on the Internet. Projects may focus on the papers of major figures from American life or cover broad historical movements in politics, military, business, social reform, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. The Commission will not consider proposals that charge for access. Deadline is October 8, 2015.

Website: <http://www.archives.gov/nhprc/announcement/digital.html>

Program: **Publishing Historical Records in Documentary Editions**

Description: The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Deadline is October 8, 2015.

Website: <http://www.archives.gov/nhprc/announcement/editions.html>

National Endowment for the Arts

Program: **NEA Arts Education Partnership (AEP) Program Solicitation, FY2015**

Description: This Cooperative Agreement will begin no earlier than December 15, 2015, and end on September 30, 2016. The purpose of this Program Solicitation is to select an organization (Cooperator) to administer the Arts Education Partnership (AEP), a national coalition of more than 100 organizations representing the arts and education fields as well as the government and private sectors. Deadline is August 4, 2015.

Website: <http://arts.gov/program-solicitation-arts-education-partnership>

Program: **NEA Our Town, FY2016**

Description: The Our Town grant program supports creative placemaking projects that help to transform communities into lively, beautiful, and resilient places with the arts at their core. Creative placemaking is when artists, arts organizations, and community development practitioners deliberately integrate arts and culture into community revitalization work - placing arts at the table with land-use, transportation, economic development, education, housing, infrastructure, and public safety strategies. Deadline is September 21, 2015.

Website: <http://arts.gov/grants-organizations/our-town>

Program: **Art Works**

Description: To support the creation of art that meets the highest standards of excellence, public engagement with diverse and excellent art, lifelong learning in the arts, and the strengthening of communities through the arts. Matching grants generally range from \$10,000 to \$100,000.

Deadline: July 23, 2015

Notification: April 2016

Earliest Start Date: June 1, 2016

Website: <http://arts.gov/grants-organizations/art-works/grant-program-description>

National Endowment for the Humanities

Program: **Humanities Initiatives at Community Colleges**

Description: NEH Humanities Initiatives at Community Colleges are intended to strengthen the teaching and study of the humanities in subjects such as history, philosophy, and literature. These grants may be used to enhance existing humanities programs, resources, or courses, or to develop new ones. NEH Humanities Initiatives may • create opportunities for faculty members to study together, in order to improve their capacity to teach the humanities; • support new humanities programs (which may include but are not limited to new humanities minors, first-year seminars, and capstone courses), and enhance existing ones; • support humanities contributions to professional training (in such fields as business, law, economics, technology, and nursing and medicine); • develop bridge programs for at-risk and nontraditional students; • help institutions take advantage of humanities resources, especially in the digital humanities; and • support collaborative projects in the humanities between the applicant institution and another institution, such as a college or university, a school or school system, a museum or library, or a historical or cultural society. Each project must be organized around a core topic or set of themes. Deadline is August 24, 2015.

Program: **Museums, Libraries, and Cultural Organizations: *Implementation Grants***

Description: Museums, Libraries, and Cultural Organizations grants provide support for museums, libraries, historic places, and other organizations that produce public programs in the humanities. Deadline is August 12, 2015.

Implementation grants support the following formats:

- exhibitions at museums, libraries, and other venues;
- interpretations of historic places, sites, or regions;
- book/film discussion programs; living history presentations; other face-to-face programs at libraries, community centers, and other public venues; and
- interpretive websites, mobile applications, games, and other digital formats.

Implementation grants support final scholarly research and consultation, design development, production, and installation of a project for presentation to the public.

Program: **Enduring Questions**

Description: The NEH Enduring Questions grant program supports faculty members in the preparation of a new course on a fundamental concern of human life as addressed by the humanities. This question-driven course would encourage undergraduates and teachers to join together in a deep and sustained program of reading in order to encounter influential ideas, works, and thinkers over the centuries. Deadline is September 10, 2015.

Program: **Digital Humanities Start-Up Grants**

Description: The Digital Humanities Start-Up Grants program awards relatively small grants to support the planning stages of innovative projects that promise to benefit the humanities.

Proposals should be for the planning or initial stages of digital initiatives in any area of the humanities. Digital Humanities Start-Up Grants may involve

- research that brings new approaches or documents best practices in the study of the digital humanities;
- planning and developing prototypes of new digital tools for preserving, analyzing, and making accessible digital resources, including libraries' and museums' digital assets;
- scholarship that focuses on the history, criticism, and philosophy of digital culture and its impact on society;
- scholarship or studies that examine the philosophical or practical implications and impact of the use of emerging technologies in specific fields or disciplines of the humanities, or in interdisciplinary collaborations involving several fields or disciplines;
- innovative uses of technology for public programming and education incorporating both traditional and new media; and
- new digital modes of publication that facilitate the dissemination of humanities scholarship in advanced academic as well as informal or formal educational settings at all academic levels.

Deadline is September 16, 2015.

National Science Foundation

Program: **Collections in Support of Biological Research**

Description: The Collections in Support of Biological Research (CSBR) Program provides funds: 1) for improvements to secure and organize collections that are significant to the NSF BIO-funded research community; 2) to secure collections-related data for sustained, accurate, and efficient accessibility to the biological research community; and 3) to transfer ownership of collections. The CSBR program provides for enhancements that secure and improve existing collections, improves

the accessibility of digitized specimen-related data, and develop better methods for specimen curation and collection management. Requests should demonstrate a clear and urgent need to secure the collection, and the proposed activities should address that need. Biological collections supported include established living stock/culture collections, vouchered non-living natural history collections, and jointly-curated ancillary collections such as preserved tissues and DNA libraries. Deadline is September 10, 2015.

Program: **Computer and Information Science and Engineering (CISE) Research Initiation Initiative**

Description: With the goal of encouraging research independence immediately upon obtaining one's first academic position after receipt of the PhD, the Directorate for Computer and Information Science and Engineering (CISE) will award grants to initiate the course of one's independent research. Understanding the critical role of establishing

that independence early in one's career, it is expected that funds will be used to support untenured faculty or research scientists (or equivalent) in their first two years in a primary academic position after the PhD, but not more than a total of five years after completion of their PhD. Deadline is September 30, 2015.

Program: **Office of Innovation and Improvement (OII): Skills for Success Program CFDA Number 84.215H**

Description: The Skills for Success Program supports Local Educational Agencies (LEAs) and their partners in implementing, evaluating, and refining tools and approaches for developing the non-cognitive skills of middle-grades students in order to increase student success. Grants provide funding for the implementation, evaluation, and refinement of existing tools and approaches (e.g., digital games, growth mindset classroom activities, experiential learning opportunities) that integrate the development of students' non-cognitive skills into classroom-level activities and existing strategies designed to improve schools. As grantees implement their projects, we expect them to collect, analyze, and use data to improve their tools and strategies throughout the project period. Ultimately, we expect grantees to identify and validate scalable tools and approaches that can be used by educators of high-need middle-grades students across the country. In addition, we expect that these grants will help build the capacity of LEAs and their partners to conduct research and apply that research to school- and district-level practices. This program also encourages sustainable partnerships that can continue the use of effective tools and approaches beyond the grant period. Deadline is July 29, 2015

Program: **Connecting Latino and African American Males to Sexual Health Services: An Adaptation of Project Connect**

Description: The goal of this new FOA is to complete the work of PS12-1212, which was to adapt the Project Connect health systems intervention to better target adolescent males, particularly African American and Latino males in urban areas. By identifying providers who are meeting the sexual and reproductive health care needs of young men and creating a guide and a system for connecting young men to those providers, this FOA will result in increased access to and use of care by young men, increased identification and treatment of new STD cases, and increased identification and referral of new HIV cases. Deadline is August 25, 2015.

Website: <http://www.grants.gov/web/grants/search-grants.html>

Program: **Evaluation of STD Programs Deploying Disease Intervention Specialist (DIS) to Improve Human Immunodeficiency Virus (HIV) Outcomes**

Description: This FOA will help advance the goals of the National HIV/AIDS Strategy, by evaluating STD program models that use DIS workforce to improve HIV outcomes, particularly those related to identification of new HIV cases, linkage and re-engagement in HIV care, and linkage and referral to HIV prevention services, including PrEP. This FOA helps address the need to advance National HIV/AIDS Strategy goals related to identifying people with HIV, linking and re-engaging them in care (US NHAS 2010), and to advance HIV prevention through use of Pre-Exposure and Post-Exposure Prophylaxis (PrEP and PEP). The intervention to be evaluated under this proposal is the deployment of the skilled Disease Investigation Specialist (DIS) workforce to focus on these HIV outcomes in their routine interactions with people at high risk of HIV. Deadline is August 25, 2015.

Program: **The Pancreatic Cancer Detection Consortium (U01)**

Description: This Funding Opportunity Announcement (FOA) invites applications from multi-disciplinary teams of researchers and clinicians to establish the Pancreatic Cancer Detection Consortium (PCDC) to conduct research to improve the detection of early stage pancreatic ductal adenocarcinoma (PDAC) and characterization of its precursor lesions. This initiative addresses one of the four research priorities identified in the National Cancer Institute's 2014 Scientific Framework for Pancreatic Ductal Adenocarcinoma. The PCDC is intended to support research for the development and testing of new molecular and imaging biomarkers for identifying patients at high risk for PDAC (because of genetic factors or the presence of precursor lesions) who could be candidates for early intervention. The research will be conducted by individual multi-disciplinary research teams, hereafter called Units. The Units will undertake studies on the following areas: identification and testing of biomarkers measurable in bodily fluids for early detection of PDAC or its precursor lesions; determine which pancreatic cysts are likely to progress to cancer; develop molecular- and/or imaging-based approaches for screening populations at high risk of PDAC; conduct biomarker validation studies; and collect longitudinal biospecimens for the establishment of a

biorepository. All Units are expected to participate in collaborative activities with other Units and share ideas, specimens and data within the Consortium. Deadline is April 6, 2018.

Program: **Exploration of the Roles of Brown and Beige Adipose Tissue in Humans (R01)**
Description: This Funding Opportunity Announcement (FOA) invites applications for Research Project Grants (R01) to investigate the biological functions of brown and beige adipose tissue in humans, other than heat production and maintenance of body temperature, and to explore their impact on human health. Specifically, it seeks to 1) identify physiologic or pathophysiologic conditions other than prolonged cold exposure under which browning of human subcutaneous or other white adipose depots occurs, or where the brown adipose tissue depot found in the neck region is expanded through browning; 2) test potential non-biopsy biomarkers of human subcutaneous beige fat and 3) explore the biological functions of human brown and beige fat. Deadline is March 9, 2016.

Program: **Limited Competition: Small Grant Program for NHLBI K01/K08/K23 Recipients (R03)**
Description: The purpose of this FOA is to solicit current or recently completed NHLBI K01, K08, and K23 awardees for grant support to expand their current research objectives or to branch out to a study that resulted from the research conducted under the K award. Recently completed NHLBI K01, K08, and K23 awardees are eligible to apply for this R03 FOA if the earliest possible R03 start date falls within 2 years of their prior NHLBI K award Project Period end date. Thus, this FOA is intended to enhance the capability of NHLBI K01, K08, and K23 award recipients to conduct research as they complete their transition to fully independent investigator status. Deadline is June 15, 2018.

Program: **Steinger, Iscoe & Greene Invites Applications for Child Advocates Law Scholarship**

Description: The law firm of Steinger, Iscoe & Greene dedicates a large part of its practice to helping families who have faced child abuse in any form. The firm believes that attorneys are in a unique position to be able to help families and individual victims of child abuse. While the damage that abuse causes can be life-long, a dedicated lawyer can help end the abuse, establish legal protections for victims, win custody battles, and even secure compensation to provide medical treatment and therapy. These are the essential tools for protecting child victims of abuse and helping them manage and move past trauma as they grow older.

To that end, the firm is accepting applications from a child advocate or abuse survivor seeking a law degree. Through the semi-annual Steinger, Iscoe & Greene Law Scholarship for Child Advocates, the firm will award a single scholarship of \$1,000 toward law school tuition

Applications for a fall semester scholarship must be received by July 31, 2015. Spring semester applications must be received by November 30, 2015

Program: **Arnold and Mabel Beckman Foundation Accepting LOIs for Young Investigator Program**

Description: The Arnold and Mabel Beckman Foundation is accepting Letters of Intent for its 2016 Beckman Young Investigator grant program.

The annual program is intended to provide research support to the most promising young faculty members in the early stages of their academic career in the chemical and life sciences, with the purpose of fostering their ability to invent methods, instruments, and materials that open up new avenues of research in science.

Projects proposed for this program should be truly innovative, high-risk, and show promise for contributing to significant advances in chemistry and the life sciences and should represent a departure from current research directions rather than an extension or expansion of existing programs. Proposed research that cuts across traditional boundaries of scientific disciplines is encouraged. Proposals that open up new avenues of research in chemistry and the life sciences by fostering the invention of methods, instruments, and materials will be given additional consideration.

Projects are normally funded for a period of four years. Grants will range up to \$750,000 over the term of the project, contingent on demonstrated progress after the second year of the award. LOI's must be received by September 1, 2015.

Program: **Caplan Foundation for Early Childhood Invites Letters of Intent**

Description: The Caplan Foundation for Early Childhood supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

2) Early Childhood Education and Play: Research shows that children need to be stimulated as well as nurtured, early in life, if they are to succeed in school, work, and life. That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

Letters of Intent are accepted on a rolling basis. Upon review, selected applicants will be invited to submit full applications.

Program: **Advocacy Event Fund**

Description: Building public and political support is critical for successfully advocating to incorporate **permanently affordable housing (PAH)** into public policies and programs. Building this support requires bringing together the right stakeholders to inform, discuss, and strategize. We know that this is often challenging for our members who have limited resources. During 2015, the Network will award three to four grants of up to \$3,000 for eligible Network members to support the planning of one-time events that bring stakeholders together and garner support for the incorporation of PAH into state or local housing, transportation, and community development public policies and programs. The purpose of the grants is to fund events that will have a catalyzing effect on policy discussions, partnerships, advocacy campaigns, and eventually, policies and programs themselves.

Program: **Bank of America Charitable Foundation funding opportunities**

Description: **HUNGER: BASIC HUMAN SERVICES:** We're applying our philanthropic resources, employees and expertise to address the issues of hunger and lack of access to benefit resources, supportive housing and shelter. This comprehensive response helps bring significant resources to nonprofit partners serving the community – as they continue to help struggling individuals and families at their point of need – delivering integrated services and offering access to financial education and coaching.

Funding Priorities:

Hunger Relief/Food Access

Providing access to vital food supplies and services to feed individuals, children and families, with a particular focus on nonprofits that address the immediate challenges of food access and also connect the families they serve to supportive services and economic livelihood programs that help towards financial stability.

Supportive Housing/Shelter

Addressing immediate shelter needs and long-term supportive housing for vulnerable individuals and families with a focus on housing-first or place-based approaches that make supportive wraparound services available to those seeking financial security and independence.

Benefits Access/Referrals

Transitioning financially-distressed, low-to-moderate income individuals and families towards financial stability through bundled services in three core areas: employment and education, access to benefits and support resources, financial coaching and better money habits education.

SECTION IV

STATE OF ALABAMA GRANTS

Program:

ACECA-Law Enforcement and Traffic Safety Division: Juvenile Justice Program

Description:

The Title II Grants program is founded on a research-based framework that focuses on reducing risks and enhancing protective factors to prevent youth from entering the juvenile justice system. It offers funding to promote the development of effective programs to prevent delinquency, divert juveniles from the juvenile justice system, provide alternatives to institutionalization, and meet the requirements of the Juvenile Justice and Delinquency Prevention Act of 1974. The JJDP Act sought to protect juveniles from the psychological and physical harms that may occur if exposed to adult offenders by establishing guidelines for states to follow in the treatment of juvenile and by developing community based treatment of youthful offenders. The deadline is August 7, 2015.

The duration of each fellowship is generally twelve months. The program awards a stipend, which varies with each fellowship.

Currently, the program is offering two fellowship tracks, including International Affairs Fellowships and the International Affairs Fellowship in Japan.

1) International Affairs Fellowships: Launched in 1967, this fellowship assists assist mid-career scholars and professionals who want to improve their analytic capabilities and broaden their foreign policy experience. The program aims to strengthen career development by helping outstanding individuals acquire and apply foreign policy skills beyond the scope of their professional and scholarly achievements. CFR awards approximately ten fellowships annually to highly accomplished individuals who have a capacity for independent work and who are eager to undertake serious foreign policy analysis. The IAF Program is only open to U.S. citizens and permanent residents between the ages of 27 and 35 who are eligible to work in the United States.

2) International Affairs Fellowship in Japan: Founded in 1997, the IAF-J fellowship seeks to strengthen mutual understanding and cooperation between the rising generations of leaders in the United States and Japan. The program provides a selected group of mid-career U.S. citizens the opportunity to expand their professional horizons by spending a period of research or other professional activity in Japan. The fellowship is only open to U.S. citizens between the ages of 27 and 45 and is intended primarily for those without substantial prior experience in Japan (although the selection committee has made exceptions in cases where the fellowship would allow an individual to add a significant new dimension to his or her career). Knowledge of the Japanese language is not a requirement.

Deadline is July 1, 2015 and October 31, 2015 on an annual basis.

ATTENTION VETERANS:

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place. Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private

job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs>
