

"In response to the recent action taken by the Superior Town Council in regards to the Mutual Benefits Agreement with Resolution Copper Mining Company, I would like to go on record to say that I declared myself in conflict with RCM so I excused myself from the executive session meeting room. I also declared myself in conflict with RCM in open meeting and recused myself from the vote and stepped off the dais before any action was taken. I was and remain unaware of the reasons that this action was taken, other than what was written in the press release. I am in full support of Resolution Copper Mining Company and the land exchange bill as long as it benefits the Town of Superior".

John Tameron

Superior Town Council Member
