107TH CONGRESS 1ST SESSION

# H. R. 2069

## AN ACT

To amend the Foreign Assistance Act of 1961 and the Global AIDS and Tuberculosis Relief Act of 2000 to authorize assistance to prevent, treat, and monitor HIV/AIDS in sub-Saharan African and other developing countries.

107TH CONGRESS 1ST SESSION

# H.R. 2069

## AN ACT

To amend the Foreign Assistance Act of 1961 and the Global AIDS and Tuberculosis Relief Act of 2000 to authorize assistance to prevent, treat, and monitor HIV/AIDS in sub-Saharan African and other developing countries.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,

#### 1 SECTION 1. SHORT TITLE.

- This Act may be cited as the "Global Access to HIV/
- 3 AIDS Prevention, Awareness, Education, and Treatment
- 4 Act of 2001".

- 5 SEC. 2. FINDINGS; SENSE OF CONGRESS.
- 6 (a) FINDINGS.—Congress makes the following find-7 ings:
- 9 gramme on HIV/AIDS (UNAIDS) more than
  10 58,000,000 people worldwide have already been in11 fected with HIV/AIDS, a fatal disease that is dev12 astating the health and economies in dozens of coun13 tries in Africa and increasingly in Asia, the Carib14 bean region, and Eastern Europe.
  - (2) The HIV/AIDS pandemic has erased decades of progress in improving the lives of families in the developing world and has claimed 22,000,000 lives since its inception.
  - (3) More than 17,000,000 individuals have died from HIV/AIDS in sub-Saharan Africa alone.
  - (4) The HIV/AIDS pandemic in sub-Saharan Africa has grown beyond an international public health issue to become a humanitarian, national security, and developmental crisis.
- (5) The HIV/AIDS pandemic is striking hard est among women and girls. According to UNAIDS,

- by the end of 2000, fifty-five percent of the HIVpositive population in sub-Saharan Africa and 40 percent of such population in North Africa and the
- 4 Middle East were women, infected mainly through
- 5 heterosexual transmission. In Africa, 6 out of 7 chil-
- 6 dren who are HIV positive are girls.

- (6) An estimated 1,400,000 children under age 15 were living with HIV/AIDS at the end of 2000, of which 1,100,000 were children living in sub-Saharan Africa. An estimated 500,000 children died of AIDS during 2000, of which 440,000 were children in sub-Saharan Africa. In addition there are an estimated 13,200,000 children worldwide who have lost one or both of their parents to HIV/AIDS, of which 12,100,000 are children in sub-Saharan Africa.
  - (7) Mother-to-child transmission is the largest source of HIV infection in children under age 15 and the only source for very young children. The total number of births to HIV-infected pregnant women each year in developing countries is approximately 700,000.
  - (8) Counseling and voluntary testing are critical services to help infected women accept their HIV status and the risk it poses to their unborn child. Mothers who are aware of their status can make in-

- formed decisions about treatment, replacement feeding, and future child-bearing.
- 9) Although the HIV/AIDS pandemic has impacted the sub-Saharan Africa disproportionately,
  HIV infection rates are rising rapidly in India and
  other South Asian countries, Brazil, Russia, Eastern
  European countries, and Caribbean countries, and
  pose a serious threat to the security and stability in
  those countries.
  - (10) By 2010, it is estimated that approximately 40,000,000 children worldwide will have lost one or both of their parents to HIV/AIDS.
  - (11) In January 2000, the United States National Intelligence Council estimates that this dramatic increase in AIDS orphans will contribute to economic decay, social fragmentation, and political destabilization in already volatile and strained societies. Children without care or hope are often drawn into prostitution, crime, substance abuse or child soldiery. The Council also stated that, in addition to the reduction of economic activity caused by HIV/AIDS to date, the disease could reduce GDP by as much as 20 percent or more by 2010 in some countries in sub-Saharan Africa.

- (12) The HIV/AIDS epidemic is not just a health crisis but is directly linked to development problems, including chronic poverty, food security and personal debt that are reflected in the capacity of affected households, often headed by elders or or-phaned children, to meet basic needs. Similarly, heavily-indebted countries are stripped of the re-sources necessary to improve health care delivery systems and infrastructure and to prevent, treat, and care for individuals affected by HIV/AIDS.
  - (13) On March 7, 2001, the United States Secretary of State testified before Congress that the United States has an obligation "... if we believe in democracy and freedom, to stop this catastrophe from destroying whole economies and families and societies and cultures and nations".
  - (14) A continuing priority for responding to the HIV/AIDS crisis should be to emphasize and encourage awareness, education, and prevention, including prevention activities that promote behavioral change, while recognizing that behavioral change alone will not conquer this disease. In so doing, priority and support should be given to building capacity in the local public health sector through technical assistance as well as through nongovernmental orga-

- nizations, including faith-based organizations where
   practicable.
  - (15) Effective use should be made of existing health care systems to provide treatment for individuals suffering from HIV/AIDS.
    - (16) Many countries in Africa facing health crises, including high HIV/AIDS infection rates, already have well-developed and high functioning health care systems. Additional resources to expand and improve capacity to respond to these crises can easily be absorbed by the private and public sectors, as well as by nongovernmental organizations, community-based organizations, and faith-based organizations currently engaged in combatting the crises.
    - (17) An effective response to the HIV/AIDS pandemic must also involve assistance to stimulate the development of sound health care delivery systems and infrastructure in countries in sub-Saharan Africa and other developing countries, including assistance to increase the capacity and technical skills of local public health professionals and other personnel in such countries, and improved access to treatment and care for those already infected with HIV/AIDS.

- 1 (18) Access to effective treatment for HIV/
  2 AIDS is determined by issues of price, health care
  3 delivery system and infrastructure, and sustainable
  4 financing and such access can be inhibited by the
  5 stigma and discrimination associated with HIV/
  6 AIDS.
  - (19) The HIV/AIDS crisis must be addressed by a robust, multilateral approach such as the one envisioned by the Congress in the Global AIDS and Tuberculosis Relief Act of 2000, which directed the United States Government to seek to negotiate the creation of an international HIV/AIDS trust fund involving the World Bank.
  - (20) The Secretary General of the United Nations has called for a global fund to halt and reverse the spread of HIV/AIDS and other infectious diseases. The Secretary General has also called for annual expenditures of \$7,000,000,000 to \$10,000,000,000, financed by donor governments and private contributors, for all efforts to combat the HIV/AIDS pandemic and, equally important, called on leaders from developing countries to give a much higher priority in their budgets to development of comprehensive health systems.

- (21) The Administration has advocated a fiduciary role for the World Bank in the Global Fund to Fight AIDS, Tuberculosis, and Malaria and the Transitional Working Group for that fund has decided to invite the World Bank to play such a role.
  - (22) An effective United States response to the HIV/AIDS crisis must also focus on the development of HIV/AIDS vaccines to prevent the spread of the disease as well as the development of microbicides, effective diagnostics, and simpler treatments.
  - (23) The innovative capacity of the United States in the commercial and public pharmaceutical research sectors is among the foremost in the world, and the active participation of both these sectors should be supported as it is critical to combat the global HIV/AIDS pandemic.
- (24) Appropriate treatment of individuals with HIV/AIDS can prolong the lives of such individuals, preserve their families and prevent children from becoming orphans, and increase productivity of such individuals by allowing them to lead active lives and reduce the need for costly hospitalization for treatment of opportunistic infections caused by HIV.
- (25) United States nongovernmental organizations, including faith-based organizations, with expe-

- rience in healthcare and HIV/AIDS counseling, have proven effective in combatting the HIV/AIDS pandemic and can be a resource in assisting sub-Saharan African leaders of traditional, political, business, and women and youth organizations in their efforts to provide treatment and care for individuals infected with HIV/AIDS.
  - (26) Most of the HIV infected poor of the developing world die of deadly diseases such as tuberculosis and malaria. Accordingly, effective HIV/AIDS treatment programs should address the growing threat and spread of tuberculosis, malaria, and other infectious diseases in the developing world.
  - (27) Law enforcement and military personnel of foreign countries often have a high rate of prevalence of HIV/AIDS, and therefore, in order to be effective, HIV/AIDS awareness, prevention, and education programs must include education and related services to such law enforcement and military personnel.
  - (28) Microenterprise development and other income generation programs assist communities afflicted by the HIV/AIDS pandemic and increase the productive capacity of communities and afflicted households. Microenterprise programs are also an ef-

- fective means to support the productive activities of 2 healthy family members caring for the sick and or-3 phaned. Such programs should give priority to
- women infected with the AIDS virus or in HIV/
- AIDS affected families, particularly women in high-5
- 6 risk categories.

- 7 (29) The exploding global HIV/AIDS pandemic 8 has created new challenges for United States bilat-9 eral assistance programs and will require a substan-10 tial increase in the capacity of the United States 11 Agency for International Development and other 12 agencies of the United States to manage and mon-13 itor bilateral HIV/AIDS programs and resources. To 14 meet this challenge, the Agency will need to recruit 15 and retain appropriate technical expertise in the 16 United States as well as in foreign countries to help 17 develop and implement HIV/AIDS strategies in con-18 cert with multilateral agencies, host country govern-19 ments, and nongovernmental organizations.
- 20 (b) Sense of Congress.—It is the sense of Con-21 gress that—
- 22 (1)(A) combatting the HIV/AIDS pandemic in 23 countries in sub-Saharan Africa and other devel-24 oping countries should be a global effort and include 25 the financial support of all developed countries and

the cooperation of governments and the private sector, including faith-based organizations; and

- (B) the United States should provide additional funds for multilateral programs and efforts to combat HIV/AIDS and also seek to leverage public and private resources to combat HIV/AIDS on a global basis through the Global Development Alliance Initiative of the United States Agency for International Development and other public and private partnerships with an emphasis on HIV/AIDS awareness, education, prevention, and treatment programs;
- (2)(A) in addition to HIV/AIDS awareness, education, and prevention programs, the United States Government should make its best efforts to support programs that safely make available to public and private entities in countries in sub-Saharan Africa and other developing countries pharmaceuticals and diagnostics for HIV/AIDS therapy in order—
  - (i) to effectively and safely assist such countries in the delivery of HIV/AIDS therapy pharmaceuticals through the establishment of adequate health care delivery systems and treatment monitoring programs; and

1	(ii) to provide treatment for poor individ-
2	uals with HIV/AIDS in such countries; and
3	(B) in carrying out such programs, priority
4	consideration for participation should be given to
5	countries in sub-Saharan Africa;
6	(3)(A) combatting the HIV/AIDS pandemic re-
7	quires that United States Government programs
8	place a priority on the vulnerable populations at
9	greatest risk for contracting HIV;
10	(B) these populations should be determined
11	through qualitative and quantitative assessments at
12	the local level by local government, nongovernmental
13	organizations, people living with HIV/AIDS, and
14	other relevant sectors of civil society; and
15	(C) such assessments should be included in na-
16	tional HIV/AIDS strategies;
17	(4) the United States should promote efforts to
18	expand and develop programs that support the grow-
19	ing number of children or phaned by the HIV/AIDS
20	pandemic;
21	(5) in countries where the United States Gov-
22	ernment is conducting HIV/AIDS awareness, pre-
23	vention, and education programs, such programs
24	should include education and related services to law
25	enforcement and military personnel of foreign coun-

- tries to prevent and control HIV/AIDS, malaria, and
  tuberculosis;
- 3 (6) prevention and treatment for HIV/AIDS
  4 should be a component of a comprehensive inter5 national effort to combat deadly infectious diseases,
  6 including malaria and tuberculosis, and opportun7 istic infections, that kill millions annually in the de8 veloping world;
  - (7) programs developed by the United States Agency for International Development to address the HIV/AID pandemic should preserve personal privacy and confidentiality, should not include compulsory HIV/AIDS testing, and should not be discriminatory;
  - (8)(A) the United States Agency for International Development should carry out HIV/AIDS awareness, prevention, and treatment programs in conjunction with effective international tuberculosis and malaria treatment programs and with programs that address the relationship between HIV/AIDS and a number of opportunistic diseases that include bacterial diseases, fungal diseases, viral diseases and HIV-associated malignancies, such as Kaposi sarcoma, lymphoma, and squamous cell carcinoma; and

- 1 (B) effective intervention against opportunistic 2 diseases requires not only the appropriate drug or 3 other medication for a given medical condition, but 4 also the infrastructure necessary to diagnose the 5 condition, monitor the intervention, and provide 6 counseling services; and
  - (9) the United States Agency for International Development should expand and replicate successful microenterprise programs in Uganda, Zambia, Zimbabwe, and other African countries that provide poor families affected by HIV/AIDS with the means to care for themselves, their children, and orphans;
  - (10) the United States Agency for International Development should substantially increase and improve its capacity to manage and monitor HIV/AIDS programs and resources;
  - (11) the United States Agency for International Development must recruit and retain appropriate technical expertise in the United States as well as in foreign countries to help develop and implement HIV/AIDS strategies in conjunction with multilateral agencies, host country governments, and non-governmental organizations;
  - (12) the United States Agency for International Development must strengthen coordination and col-

- laboration between the technical experts in its central and regional bureaus and foreign country missions in formulating country strategies and implementing HIV/AIDS programs;
  - agencies of the United States, including the Department of State, the United States Agency for International Development, the Department of Health and Human Services, including the Centers for Disease Control and the National Institutes of Health, the Department of the Treasury, the Department of Defense, and other relevant Federal agencies must exist to ensure effective and efficient use of financial and technical resources within the United States Government; and
  - (14) to help alleviate human suffering, and enhance the dignity and quality of life for patients debilitated by HIV/AIDS, the United States should promote, both unilaterally and through multilateral initiatives, the use of palliative and hospice care, and provide financial and technical assistance to palliative and hospice care programs, including programs under which such care is provided by faith-based organizations.

#### 1 SEC. 3. ASSISTANCE TO COMBAT HIV/AIDS.

- 2 (a) Assistance.—Section 104(c) of the Foreign As-
- 3 sistance Act of 1961 (22 U.S.C. 2151b(c)) is amended—
- 4 (1) by striking paragraphs (4) through (6); and
- 5 (2) by inserting after paragraph (3) the fol-
- 6 lowing:
- 7 "(4)(A) Congress recognizes that the alarming spread
- 8 of HIV/AIDS in countries in sub-Saharan Africa and
- 9 other developing countries is a major global health, na-
- 10 tional security, and humanitarian crisis. Accordingly, the
- 11 United States and other developed countries should pro-
- 12 vide assistance to countries in sub-Saharan Africa and
- 13 other developing countries to control this crisis through
- 14 HIV/AIDS prevention, treatment, monitoring, and related
- 15 activities, particularly activities focused on women and
- 16 youth, including mother-to-child transmission prevention
- 17 strategies.
- 18 "(B)(i) The Administrator of the United States
- 19 Agency for International Development is authorized to
- 20 provide assistance to prevent, treat, and monitor HIV/
- 21 AIDS, and carry out related activities, in countries in sub-
- 22 Saharan Africa and other developing countries.
- 23 "(ii) It is the sense of Congress that the Adminis-
- 24 trator should provide an appropriate level of assistance
- 25 under clause (i) through nongovernmental organizations

1	in countries in sub-Saharan Africa and other developing
2	countries affected by the HIV/AIDS pandemic.
3	"(iii) The Administrator shall coordinate the provi-
4	sion of assistance under clause (i) with the provision of
5	related assistance by the Joint United Nations Pro-
6	gramme on HIV/AIDS (UNAIDS), the United Nations
7	Children's Fund (UNICEF), the World Health Organiza-
8	tion (WHO), the United Nations Development Programme
9	(UNDP), other appropriate international organizations,
10	such as the World Bank and the relevant regional multi-
11	lateral development institutions, national, state, and local
12	governments of foreign countries, and other appropriate
13	governmental and nongovernmental organizations.
14	"(C) Assistance provided under subparagraph (B)
15	shall, to the maximum extent practicable, be used to carry
16	out the following activities:
17	"(i) Prevention of HIV/AIDS through activities
18	including—
19	"(I) education, voluntary testing, and
20	counseling (including the incorporation of con-
21	fidentiality protections with respect to such
22	testing and counseling), including integration of
23	such programs into women's and children's
24	health programs

1	"(II) assistance to ensure a safe blood sup-
2	ply and to provide post-exposure prophylaxis to
3	victims of rape and sexual assault; and
4	"(III) assistance through nongovernmental
5	organizations, including faith-based organiza-
6	tions, particularly those organizations that uti-
7	lize both professionals and volunteers with ap-
8	propriate skills and experience, to establish and
9	implement culturally appropriate HIV/AIDS
10	education and prevention programs.
11	"(ii) The treatment and care of individuals with
12	HIV/AIDS, including—
13	"(I) assistance to establish and implement
14	programs to strengthen and broaden indigenous
15	health care delivery systems and the capacity of
16	such systems to deliver HIV/AIDS pharma-
17	ceuticals and otherwise provide for the treat-
18	ment of individuals with HIV/AIDS, including
19	clinical training for indigenous organizations
20	and health care providers;
21	"(II) assistance aimed at the prevention of
22	transmission of HIV/AIDS from mother to
23	child, including medications to prevent such
24	transmission and access to infant formula and
25	other alternatives for infant feeding; and

1	"(III) assistance to strengthen and expand
2	hospice and palliative care programs to assist
3	patients debilitated by HIV/AIDS, their fami-
4	lies, and the primary caregivers of such pa-
5	tients, including programs that utilize faith-
6	based organizations.
7	"(iii) The monitoring of programs, projects, and
8	activities carried out pursuant to clauses (i) and (ii),
9	including—
10	"(I) monitoring to ensure that adequate
11	controls are established and implemented to
12	provide HIV/AIDS pharmaceuticals and other
13	appropriate medicines to poor individuals with
14	HIV/AIDS; and
15	"(II) appropriate evaluation and surveil-
16	lance activities.
17	"(iv) The conduct of related activities,
18	including—
19	"(I) the care and support of children who
20	are orphaned by the HIV/AIDS pandemic, in-
21	cluding services designed to care for orphaned
22	children in a family environment which rely on
23	extended family members;
24	"(II) improved infrastructure and institu-
25	tional capacity to develop and manage edu-

1 cation, prevention, and treatment programs, in-2 cluding the resources to collect and maintain accurate HIV surveillance data to target pro-3 4 grams and measure the effectiveness of inter-5 ventions; 6 "(III) vaccine research and development partnership programs with specific plans of ac-7 8 tion to develop a safe, effective, accessible, pre-9 ventive HIV vaccine for use throughout the 10 world; and "(IV) the development and expansion of fi-11 12 nancially-sustainable microfinance institutions 13 and other income generation programs that 14 strengthen the economic and social viability of 15 communities afflicted by the HIV/AIDS pandemic, including support for the savings and 16 17 productive capacity of affected poor households 18 caring for orphans. 19 "(D)(i) Not later than January 31 of each calendar year, the Administrator shall submit to Congress an an-21 nual report on the implementation of this paragraph for 22 the prior fiscal year. "(ii) Such report shall include— 23 "(I) a description of efforts made to implement 24

the policies set forth in this paragraph;

- 1 "(II) a description of the programs established 2 pursuant to this paragraph and section 4 of the
- 3 Global Access to HIV/AIDS Prevention, Awareness,
- 4 Education, and Treatment Act of 2001; and
- 5 "(III) a detailed assessment of the impact of
- 6 programs established pursuant to this paragraph, in-
- 7 cluding the effectiveness of such programs in reduc-
- 8 ing the spread of HIV infection, particularly in
- 9 women and girls, in reducing HIV transmission from
- 10 mother to child, in reducing mortality rates from
- 11 HIV/AIDS, and the progress toward improving
- health care delivery systems and infrastructure to
- ensure increased access to care and treatment.
- 14 "(iii) The Administrator shall consult with the Global
- 15 Health Advisory Board established under section 6 of the
- 16 Global Access to HIV/AIDS Prevention, Awareness, Edu-
- 17 cation, and Treatment Act of 2001 in the preparation of
- 18 the report under clause (i) and on other global health ac-
- 19 tivities carried out by the United States Agency for Inter-
- 20 national Development.
- 21 "(E)(i) There is authorized to be appropriated to the
- 22 President to carry out this paragraph \$485,000,000 for
- 23 fiscal year 2002.
- 24 "(ii) Not more than six percent of the amount appro-
- 25 priated pursuant to the authorization of appropriations

- 1 under clause (i) for fiscal year 2002, and not more than
- 2 four percent of the amount made available to carry out
- 3 this paragraph for any subsequent fiscal year, may be used
- 4 for the administrative expenses of the Agency in carrying
- 5 out this paragraph.
- 6 "(iii) Amounts appropriated pursuant to the author-
- 7 ization of appropriations under clause (i) are in addition
- 8 to amounts otherwise available for such purposes and are
- 9 authorized to remain available until expended.
- 10 "(F) In this paragraph:
- 11 "(i) The term 'HIV' means infection with the
- 12 human immunodeficiency virus.
- 13 "(ii) The term 'AIDS' means acquired immune
- deficiency syndrome.".
- 15 (b) Availability of Assistance Under Section
- 16 104(c).—Section 104(c) of the Foreign Assistance Act of
- 17 1961 (22 U.S.C. 2151b(c)) is amended—
- 18 (1) by redesignating paragraph (7) as para-
- 19 graph (5); and
- 20 (2) by adding at the end the following:
- 21 "(6) Assistance made available under any paragraph
- 22 of this subsection, and assistance made available under
- 23 chapter 4 of part II of this Act to carry out the purposes
- 24 of any paragraph of this subsection, may be made avail-
- 25 able notwithstanding any other provision of law.".

1	SEC. 4. ASSISTANCE FOR PROCUREMENT AND DISTRIBU-
2	TION OF HIV/AIDS PHARMACEUTICALS AND
3	RELATED MEDICINES.
4	(a) Assistance.—The Administrator of the United
5	States Agency for International Development shall provide
6	assistance to countries in sub-Saharan Africa and other
7	developing countries for—
8	(1) the procurement of HIV/AIDS pharma-
9	ceuticals, anti-viral therapies, and other appropriate
10	medicines; and
11	(2) the distribution of such HIV/AIDS pharma-
12	ceuticals, anti-viral therapies, and other appropriate
13	medicines to qualified national, regional, or local or-
14	ganizations for the treatment of individuals with
15	HIV/AIDS in accordance with appropriate HIV/
16	AIDS testing and monitoring requirements and for
17	the prevention of transmission of HIV/AIDS from
18	mother to child.
19	(b) Additional Authority.—The authority con-
20	tained in section 104(c)(6) of the Foreign Assistance Act
21	of 1961, as amended by section 3(b) of this Act, shall
22	apply to assistance made available under subsection (a).
23	(c) Authorization of Appropriations.—There is
24	authorized to be appropriated to the President to carry
25	out this section \$50,000,000 for fiscal year 2002.

#### 1 SEC. 5. INTERAGENCY TASK FORCE ON HIV/AIDS.

- 2 (a) Establishment.—The President shall establish
- 3 an interagency task force (hereafter referred to as the
- 4 "task force") to ensure coordination of all Federal pro-
- 5 grams related to the prevention, treatment, and moni-
- 6 toring of HIV/AIDS in foreign countries.
- 7 (b) Duties.—The duties of the task force shall
- 8 include—
- 9 (1) reviewing all Federal programs related to
- the prevention, treatment, and monitoring of HIV/
- AIDS in foreign countries to ensure proper coordi-
- 12 nation and compatibility of activities and policies of
- such programs;
- 14 (2) exchanging information regarding design
- and impact of such programs to ensure that the
- 16 United States Government can catalogue the best
- possible practices for HIV/AIDS prevention, treat-
- ment, and monitoring and improve the effectiveness
- of such programs in the countries in which they op-
- 20 erate; and
- 21 (3) fostering discussions with United States
- and foreign nongovernmental organizations to deter-
- 23 mine how United States Government programs can
- be improved, including by engaging in a dialogue
- with the Global Health Advisory Board established
- under section 6 of this Act.

### (c) Membership.—

1

- 2 (1) Composition.—The task force shall be 3 composed of the Secretary of State, the Administrator of the United States Agency for International 5 Development, the Secretary of Health and Human 6 Services, the Secretary of the Treasury, the Director 7 of the National Institutes of Health, the Director of 8 the Centers for Disease Control, the Secretary of 9 Defense, and the head of any other agency that the 10 President determines is appropriate.
- 11 (2) CHAIRPERSON.—The Secretary of State 12 shall serve as chairperson of the task force.
- 13 (d) Public Meetings.—At least once each calendar 14 year, the task force shall hold a public meeting in order 15 to afford an opportunity for any person to present views 16 regarding the activities of the United States Government 17 with respect to the prevention, treatment, and monitoring 18 of HIV/AIDS in foreign countries. The Secretary of State 19 shall maintain a record of each meeting and shall make
- 21 (e) AVAILABILITY OF FUNDS.—Amounts made available for a fiscal year pursuant to section 104(c)(4)(E)(ii)
  23 of the Foreign Assistance Act of 1961, as amended by section 3(a) of this Act, are authorized to be made available
- 25 to carry out this section for such fiscal year.

the record available to the public.

## 1 SEC. 6. GLOBAL HEALTH ADVISORY BOARD.

2	(a) Establishment.—There is established a perma-
3	nent Global Health Advisory Board (hereafter referred to
4	as the "Board") to assist the President and other Federal
5	officials, including the Secretary of State and the Adminis-
6	trator of the United States Agency for International De-
7	velopment, in the administration and implementation of
8	United States international health programs, particularly
9	programs relating to the prevention, treatment, and moni-
10	toring of HIV/AIDS.
11	(b) Duties.—
12	(1) IN GENERAL.—The Board shall serve as a
13	liaison between the United States Government and
14	private and voluntary organizations, other non-
15	governmental organizations, and academic institu-
16	tions in the United States that are active in inter-
17	national health issues, particularly prevention, treat-
18	ment, and care with respect to HIV/AIDS and other
19	infectious diseases.
20	(2) Specific activities.—In carrying out
21	paragraph (1), the Board—
22	(A) shall provide advice to the United
23	States Agency for International Development
24	and other Federal agencies on health and man-
25	agement issues relating to foreign assistance in

which both the United States Government and private and voluntary organizations participate;

- (B) shall provide advice on the formulation of basic policy, procedures, and criteria for the review, selection, and monitoring of project proposals for United States Government international health programs and for the establishment of transparency in the provision and implementation of grants made under such programs;
- (C) shall provide advice on the establishment of evaluation and monitoring programs to measure the effectiveness of United States Government international health programs, including standards and criteria to assess the extent to which programs have met their goals and objectives and the development of indicators to track progress of specific initiatives;
- (D) shall review and evaluate the overall health strategy for United States bilateral assistance for each country receiving significant United States bilateral assistance in the health sector;
- (E) shall recommend which developing countries could benefit most from programs

1	carried out under United States Government
2	international health programs; and
3	(F) shall assess the impact and effective-
4	ness of programs carried out under section
5	104(c)(4) of the Foreign Assistance Act of
6	1961, as amended by section 3(a) of this Act,
7	in meeting the objectives set out in the HIV/
8	AIDS country strategy established by the
9	United States Agency for International Devel-
10	opment.
11	(e) Membership.—
12	(1) Composition.—The Board shall be com-
13	posed of 12 members—
14	(A)(i) all of whom shall have a substantial
15	expertise and background in international
16	health research, policy, or management, par-
17	ticularly in the area of prevention, treatment,
18	and care with respect to HIV/AIDS and other
19	infectious diseases; and
20	(ii) of whom at least one member shall be
21	an expert on women's and children's health
22	issues; and
23	(B) of whom—
24	(i) three members shall be individuals
25	from academic institutions;

1	(ii) five members shall be individuals
2	from nongovernmental organizations active
3	in international health programs, particu-
4	larly HIV/AIDS prevention, treatment and
5	monitoring programs in foreign countries,
6	of which not more than two members may
7	be from faith-based organizations;
8	(iii) two members shall be individuals
9	from health policy and advocacy institutes;
10	and
11	(iv) two members shall be individuals
12	from private foundations that make sub-
13	stantial contributions to global health pro-
14	grams.
15	(2) Appointment.—The individuals referred to
16	in paragraph (1) shall be appointed by the Presi-
17	dent, after consultation with the chairman and rank-
18	ing member of the Committee on International Rela-
19	tions of the House of Representatives and the Com-
20	mittee on Foreign Relations of the Senate.
21	(3) Terms.—
22	(A) In general.—Except as provided in
23	subparagraph (B), each member shall be ap-
24	pointed for a term of two years and no member

1	or organization shall serve on the Advisory
2	Board for more than two consecutive terms.
3	(B) TERMS OF INITIAL APPOINTEES.—As
4	designated by the President at the time of ap-
5	pointment, of the members first appointed—
6	(i) six members shall be appointed for
7	a term of three years; and
8	(ii) six members, to the extent prac-
9	ticable equally divided among the cat-
10	egories described in clauses (i) through (iv)
11	of paragraph (1)(B), shall be appointed for
12	a term of two years.
13	(4) Chairperson.—At the first meeting of the
14	Board in each calendar year, a majority of the mem-
15	bers of the Commission present and voting shall
16	elect, from among the members of the Board, an in-
17	dividual to serve as chairperson of the Board.
18	(d) Travel Expenses.—Each member of the Board
19	shall receive travel expenses, including per diem in lieu
20	of subsistence, in accordance with applicable provisions
21	under subchapter I of chapter 57 of title 5, United States
22	Code.
23	(e) Availability of Funds.—Amounts made avail-
24	able for a fiscal year pursuant to section $104(c)(4)(E)(ii)$
25	of the Foreign Assistance Act of 1961, as amended by sec-

1	tion 3(a) of this Act, are authorized to be made available
2	to carry out this section for such fiscal year.
3	SEC. 7. AUTHORIZATION OF APPROPRIATIONS FOR MULTI-
4	LATERAL EFFORTS TO PREVENT, TREAT, AND
5	MONITOR HIV/AIDS.
6	(a) AUTHORIZATION.—There is authorized to be ap-
7	propriated to the President \$750,000,000 for fiscal year
8	2002 for United States contributions to a global health
9	fund negotiated by the United States consistent with the
10	general principles in the Global AIDS and Tuberculosis
11	Relief Act of 2000 and the initiative of the Secretary Gen-
12	eral of the United Nations or other multilateral efforts to
13	prevent, treat, and monitor HIV/AIDS in countries in sub-
14	Saharan Africa and other developing countries, including
15	efforts to provide hospice and palliative care for individ-
16	uals with HIV/AIDS.
17	(b) Characteristics of Global Health Fund.—
18	It is the sense of Congress that, consistent with the gen-
19	eral principles outlined in the Global AIDS and Tuber-
20	culosis Relief Act of 2000, United States contributions
21	should be provided to a global health fund under sub-
22	section (a) only if the fund—
23	(1) is a public-private partnership that includes

participation of, and seeks contributions from, gov-

nongovern-

ernments, foundations, corporations,

24

- 1 mental organizations, organizations that are part of 2 the United Nations system, and other entities or in-3 dividuals:
  - (2) has the World Bank serving as the fiduciary agent of the fund and in any other capacity deemed appropriate by the international community;
  - (3)(A) includes donors, recipient countries, civil society, and other relevant parties in the governance of the fund; and
  - (B) contains safeguards against conflicts of interest in the governance of the fund by the individuals and entities described in subparagraph (A);
  - (4) supports targeted initiatives to address HIV/AIDS, tuberculosis, and malaria through an integrated approach that includes prevention interventions, care and treatment programs, and infrastructure capacity-building;
  - (5) permits strategic targeting of resources to address needs not currently met by existing bilateral and multilateral efforts and includes separate subaccounts for different activities allowing donors to designate funds for specific categories of programs and activities;
- 24 (6) reserves a minimum of 5 percent of its 25 grant funds to support scientific or medical research

1	in connection with the projects it funds in developing
2	countries;
3	(7) provides public disclosure with respect to—
4	(A) the membership and official pro-
5	ceedings of the mechanism established to man-
6	age and disburse amounts contributed to the
7	fund; and
8	(B) grants and projects supported by the
9	fund;
10	(8) authorizes and enforces requirements for
11	the periodic financial and performance auditing of
12	projects and makes future funding conditional upon
13	the results of such audits; and
14	(9) provides public disclosure of the findings of
15	all financial and performance audits of the fund.
16	SEC. 8. DEFINITION.
17	In this Act:
18	(1) HIV.—The term "HIV" means infection
19	with the human immunodeficiency virus.
20	(2) AIDS.—The term "AIDS" means acquired
21	immune deficiency syndrome.
22	SEC. 9. EXTENSION OF TIME FOR GAO REPORT ON TRUST
23	FUND EFFECTIVENESS.
24	Section 131(b) of the Global AIDS and Tuberculosis
25	Relief Act of 2000 (22 U.S.C. 6831(b)) is amended by

- 1 striking "of the enactment of this Act" and inserting "the
- 2 Trust Fund is established".

Passed the House of Representatives December 11, 2001.

Attest:

Clerk.
