## **DIVISION C – DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2018**

The following is an explanation of the effects of this Act, which makes appropriations for the Department of Defense for fiscal year 2018. The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 115-219 warrants full compliance and carries the same weight as language included in this joint explanatory statement unless specifically addressed to the contrary in the bill or this joint explanatory statement. While some language is repeated for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

### **DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY**

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2018, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and

activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2019, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and the “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2019.

#### REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). The dollar threshold for reprogramming funds shall be \$10,000,000 for military personnel; \$20,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation

line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1), an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

#### FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

#### CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

## CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

### SERVICE UNFUNDED REQUIREMENTS LISTS

The House and Senate Defense Appropriations Subcommittees recognize that each military Service submits an annual unfunded requirements list to the congressional defense committees that provides insight into requirements that may have been excluded from the budget request due to budgetary constraints. However, the lists are often divided into various categories of items, thereby obscuring the true prioritization of the requests. The Chiefs of Staff of the Army and the Air Force, the Chief of Naval Operations, and the Commandant of the Marine Corps are directed to provide their individual Service unfunded requirements in consolidated priority lists for future budget submissions.

### RAPID ACQUISITION AUTHORITY

The Secretary of Defense or his designee, in conjunction with the Under Secretary of Defense (Comptroller), is directed to provide to the congressional defense committees, not later than 5 days following notification of the Secretary's intent to execute or previous application of Rapid Acquisition Authority (RAA), the following: the documented requirement intended to be addressed by use of RAA; the Service or defense agency charged with implementing the material solution identified; the identification of funds affected by the use of RAA by appropriations account, line, and/or program

element, to include outyear funding requirements by fiscal year; an explanation as to why source funds are available to fund this higher priority item; and details of, and justification for, the contract type or other transaction authority being utilized.

In addition, the Under Secretary of Defense (Comptroller) is directed to provide to the congressional defense committees a complete accounting of the use of RAA by fiscal year not later than 30 days after the end of each fiscal year. The Under Secretary of Defense (Comptroller) is further directed to provide guidance to the Services and defense agencies to appropriately identify previously received RAA funds and items funded in budget exhibits and briefings provided to the congressional defense committees in support of Department of Defense budget requests and, where appropriate, to update the Financial Management Regulation to that effect. Finally, it is noted that funds for RAA initiatives often are executed in place within the program identified as the funding source regardless of the original purpose for which funds were appropriated or the urgent requirement being addressed, and without any apportionment documents being generated. The Under Secretary of Defense (Comptroller) is directed to provide a briefing on the impact of RAA funding mechanisms on Financial Improvement and Audit Readiness efforts to the congressional defense committees not later than 60 days after the enactment of this Act.

#### BUDGETING FOR THE JOINT IMPROVISED-THREAT DEFEAT ORGANIZATION

The fiscal year 2018 budget request includes \$14,442,000 in base appropriations and \$483,058,000 in overseas contingency operations appropriations for the Joint Improvised-Threat Defeat Organization (JIDO) in the Joint Improvised-Threat Defeat Fund (JITDF). In addition, the fiscal year 2018 budget request includes \$97,788,000 in the Operation and Maintenance, Defense-Wide base appropriation for the JIDO,

reflecting the transition of the activities, functions, and resources of the Joint Improvised-Threat Defeat Agency (JIDA) to the JIDO under the authority, direction, and control of the Defense Threat Reduction Agency, as directed by Congress and implemented as of September 30, 2016.

The agreement includes no funds in base or overseas contingency operations appropriations in the JITDF. Instead, funding for the JIDO is recommended in the Operation and Maintenance, Defense-Wide; Procurement, Defense-Wide; and Research, Development, Test and Evaluation, Defense-Wide overseas contingency operations appropriations accounts only for the purpose of allowing the Director of JIDO to investigate, develop, and provide equipment, supplies, services, training, facilities, personnel, and funds to assist United States forces in the defeat of improvised explosive devices in accordance with JIDO's fiscal year 2018 budget execution plans, as subsequently adjusted.

The Director, Office of Management and Budget, Under Secretary of Defense (Comptroller), and Director, Cost Assessment and Program Evaluation are directed to assist the Director, Defense Threat Reduction Agency and Director, JIDO to ensure a seamless transition of funding for JIDO from the JITDF to regular appropriation accounts in fiscal year 2018 without negatively impacting the mission of JIDO. Funds still available in the JITDF and its predecessor account, the Joint Improvised Explosive Device Defeat Fund (JIEDDF) remain available for execution consistent with prior year guidance. It is expected that the JITDF and JIEDDF will be terminated once those balances liquidate or expire, whichever comes first.

## CYBERSPACE ACTIVITIES

The Under Secretary of Defense (Comptroller), the Department of Defense Chief Information Officer, and the Service Secretaries are directed, with the fiscal year 2020 budget submission, to initiate the establishment of individual cyberspace activity projects for research, development, test and evaluation accounts; individual cyberspace activity sub-activity groups for operation and maintenance accounts; and individual budget line items for procurement accounts. Funds that cross capability lines and are more appropriately documented within non-cyberspace activity projects, sub-activity groups, and line items may continue to be reported as such, but should include specific cyber language and resource amounts within the appropriate non-cyberspace operation and maintenance; procurement; and research, development, test and evaluation budget justification material and shall be referenced in any cyberspace justification materials. Such inclusion of cyber activities in non-cyber projects, sub-activity groups, and line items shall be carried out in the most limited manner as possible to meet congressional intent.

Funding appropriated for cyberspace activities as defined by the classified cyberspace activities information technology investment budget request for fiscal year 2018 may only be used for such activities. The Secretary of Defense is directed to use normal prior approval reprogramming procedures to obligate funding appropriated to the operation and maintenance; procurement; or research, development, test and evaluation accounts for cyberspace activities for any other purpose. The Chief Information Officer is directed to submit to the House and Senate Defense Appropriations Subcommittees two reports not later than May 30, 2018, and November 30, 2018, that provide the mid-year and end of fiscal year financial obligation and execution data for cyberspace activities for the previous and current fiscal years.

## TITLE I - MILITARY PERSONNEL

The agreement provides \$133,367,397,000 in Title I, Military Personnel, as follows:

**MILITARY PERSONNEL OVERVIEW**

The agreement provides the resources required for an additional 8,500 active forces and 1,000 selected reserve forces, as authorized by current law and above the requested end strength levels, in order to meet operational needs for fiscal year 2018. The agreement also provides the funding necessary to support a 2.4 percent pay raise for all military personnel, as authorized, effective January 1, 2018.

**REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS**

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2018 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

#### MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

MILITARY PERSONNEL, ARMY

The agreement provides \$41,628,855,000 for Military Personnel, Army, as follows:

## REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2018 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities, or between sub-activity groups in the case of Operation and Maintenance, Defense-Wide, in excess of \$20,000,000.

The agreement establishes new reprogramming rules for transferring funding out of readiness sub-activity groups, which are defined as follows:

### *Army:*

- Maneuver units
- Modular support brigades
- Aviation assets
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities sustainment, restoration, and modernization
- Specialized skill training

### *Navy:*

- Mission and other flight operations
- Fleet air training
- Aircraft depot maintenance
- Mission and other ship operations
- Ship depot maintenance

Facilities sustainment, restoration, and modernization

*Marine Corps:*

Operational forces

Field logistics

Depot maintenance

Facilities sustainment, restoration, and modernization

*Air Force:*

Primary combat forces

Combat enhancement forces

Depot maintenance

Facilities sustainment, restoration, and modernization

Contractor logistics support and system support

Flying hour program

*Air Force Reserve:*

Depot maintenance

*Air National Guard:*

Depot maintenance

During fiscal year 2018, the Service Secretaries are directed to submit written notification to the congressional defense committees not later than 30 days prior to implementing transfers in excess of \$20,000,000 out of any readiness sub-activity if the funds will be transferred into another readiness sub-activity. However, if funding is transferred out of any readiness sub-activity into a non-readiness sub-activity, the Secretary of Defense is directed to use normal prior approval reprogramming procedures.

The Service Secretaries are further directed to include an enclosure with each written notification that includes increases and decreases by sub-activity group, a detailed justification explaining why the sources of funding are available and why the increases are necessary, and an explanation of the impact on resources included in the fiscal year 2019 budget request for each increase and decrease. All transfers may be implemented

30 days after congressional notification unless an objection is received from one of the congressional defense committees.

Additionally, the Secretary of Defense is directed to use normal prior approval reprogramming procedures when implementing transfers in excess of \$20,000,000 into the following budget sub-activities:

*Operation and Maintenance, Army:*

Other personnel support/recruiting and advertising

*Operation and Maintenance, Army National Guard:*

Other personnel support/recruiting and advertising

This language replaces the language included under the heading "Reprogramming Guidance for Operation and Maintenance Accounts" in House Report 115-219.

#### OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

#### RESTORING READINESS

The agreement provides additional readiness funds for the Services within the operation and maintenance accounts. This funding shall be used only to improve military

readiness, including increased training, depot maintenance, and base operations support. None of the funding provided may be used for recruiting, marketing, or advertising programs. The readiness funding provided is a congressional special interest item. The Secretary of Defense and the Service Secretaries are directed to submit a detailed spend plan by sub-activity group to the House and Senate Defense Appropriations Subcommittees not less than 30 days prior to the obligation of these funds. These transfers may be implemented 30 days after congressional notification unless an objection is received from either the House or Senate Defense Appropriations Subcommittees.

#### OPERATION AND MAINTENANCE FLEXIBILITY

The agreement includes two adjustments for fiscal year 2018 to provide more flexibility of funding within the operation and maintenance accounts of this bill. The changes apply to fiscal year 2018 only and address the concerns expressed by senior leadership of the Department of Defense to be able to expend readiness funding within the confines of existing controls, while still ensuring accountability of the disbursement of taxpayer funds. These adjustments are necessary due to the delay of the final passage of this year's appropriation bill, combined with the large funding increase made possible by the Bipartisan Budget Act of 2018, which provides a stable top-line level of funding for fiscal years 2018 and 2019.

The first adjustment for flexibility is to Section 8004, which restricts obligations in the last two months of the fiscal year to 20 percent. This restriction is also known as the "80/20 rule." The agreement allows for the alleviation of the limitation by increasing the amount from 20 percent to 25 percent. This will allow the Services and the Department more flexibility to obligate annual funds within fiscal year 2018.

The second adjustment is to reprogramming guidelines for readiness funding. The readiness accounts identified in this agreement under “Reprogramming Guidance for Operation and Maintenance Accounts” will not require prior approval, only notification, for realignments between identified readiness budget lines. It is understood that realignments are required for unforeseen operational requirements or changes due to program cost increases or schedule delays. Commensurate with the lifting of the realignment restrictions, for fiscal year 2018, the funding amount for the below threshold limitation has been increased from \$15,000,000 to \$20,000,000.

#### ADDITIONAL READINESS FUNDING FOR OPERATIONS IN THE PACIFIC

The agreement includes funding for the Army and the Air Force to begin the replenishment process in order to accelerate readiness in the Pacific region. The increased funding will yield greater operational readiness to forces serving in the Pacific area of responsibility, specifically in the Republic of Korea, by investing in additional training, equipment, and supplies. This funding is a congressional special interest item. The Secretary of the Army and the Secretary of the Air Force are directed to submit a detailed spend plan by sub-activity group to the House and Senate Defense Appropriations Subcommittees not less than 30 days prior to the obligation of these funds.

#### MAINTENANCE OF REAL PROPERTY

The Under Secretary of Defense (Acquisition and Sustainment), in conjunction with the Service Secretaries, is directed to submit a report to the congressional defense committees not later than 180 days after the enactment of this Act that outlines the total

real property with a zero percent utilization rate of five years or more currently accounted for in the Department of Defense real property inventory database and assesses the feasibility of conveying or selling this property.

#### DRINKING WATER CONTAMINATION

The Secretary of Defense is directed to provide quarterly reports to the congressional defense committees on the extent of the per- and polyfluoroalkyl substances contamination in drinking water problem, plans for community notification, and procedures for timely remediation.

#### BOARDS FOR CORRECTION OF MILITARY RECORDS

The Secretary of Defense, in consultation with the Service Secretaries, is directed to submit a complete needs assessment of each Board for Correction of Military Records to the congressional defense committees not later than 180 days after the enactment of this Act.

#### REPORT ON EDUCATIONAL OPPORTUNITIES IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

The Secretary of Defense is directed to submit a report to the congressional defense committees, not later than two years after the enactment of this Act, that describes and assesses current Department of Defense programs to improve opportunities for Science, Technology, Engineering, and Mathematics (STEM) education for military

children and efforts to increase opportunities and achievement in STEM education for military children.

#### ARMS SALES IMPACT ON INTERNATIONAL HUMANITARIAN LAW

The Secretary of Defense, in coordination with the Secretary of State, is directed to conduct an assessment on whether United States-supplied defense articles and services have contributed to violations of human rights by recipient countries in the past three years. A report detailing the assessment shall be provided to the congressional defense committees not later than 180 days after the enactment of this Act.

OPERATION AND MAINTENANCE, ARMY

The agreement provides \$38,816,957,000 for Operation and Maintenance, Army,  
as follows:

## OPERATION AND MAINTENANCE, AIR FORCE

The agreement provides \$39,544,193,000 for Operation and Maintenance, Air Force, as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

Insert 32A-E

### INVESTING IN SQUADRON INNOVATION

Fostering a culture of innovation at the squadron command level to outpace the efforts of competitors in a more complex and dangerous international security environment is a top priority of the Chief of Staff of the Air Force. The vision is to designate specific resources to spur original, creative thinking by airmen to solve unit, wing, and day-to-day issues and readiness challenges. In support of these efforts, the Secretary of the Air Force may spend up to \$64,100,000 of fiscal year 2018 operation and maintenance funding to encourage this type of innovation across the active, guard, and reserve components. In order to assess this investment, the Secretary of the Air Force is directed to provide a briefing to the House and Senate Defense Appropriations

## SPECIAL OPERATIONS COMMAND BUDGET EXECUTION

The consistent realignment of the Special Operations Command's operation and maintenance funding during the year of execution is concerning. The agreement directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by sub-activity group for the fiscal year 2018 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget sub-activities and the movement of any base funds used to support Overseas Contingency Operations. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$20,000,000 between sub-activity groups. This language replaces the language included under the heading "Special Operations Command Budget Execution" in House Report 115-219.

## SPECIAL OPERATIONS COMMAND OPERATION AND MAINTENANCE BUDGET JUSTIFICATION

The agreement directs the Commander of the Special Operations Command (SOCOM), in coordination with the Under Secretary of Defense (Comptroller) and the Assistant Secretary of Defense (Special Operations/Low-Intensity Conflict), to submit a report that provides a detailed proposal on how to restructure and formalize the budget formulation and execution of the SOCOM budget by sub-activity group. This report shall also address how the proposed restructure will improve visibility of the SOCOM budget and execution and shall be submitted to the House and Senate Defense Appropriations Subcommittees not later than 90 days after the enactment of this Act.

## WOMEN'S MILITARY SERVICE MEMORIALS AND MUSEUMS

The agreement fully funds Women's Military Service Memorials and Museums at \$5,000,000, as requested in fiscal year 2018.

### PROHIBITED INGREDIENTS

The Department's focus on ensuring that servicemembers are provided healthy, nutritious food is an important part of military readiness. The Defense Logistics Agency's (DLA) recent notice regarding certain prohibited ingredients lacked stakeholder input and was rightfully rescinded. Efforts by DLA to work with industry to assess the impact of reducing or eliminating certain ingredients is an important first step. However, concerns remain about the lack of transparency and scientific justification for restricting certain ingredients. Prior to obligating funding to enact guidance on prohibited ingredients, the Director of DLA is directed to publish scientific justification for DLA's August 2017 notice titled "Request for Disclosure Regarding Prohibited Ingredients"; establish a plan to provide transparent scientific justification; and seek input from a broad group of stakeholders including the Department of Agriculture and the Department of Health and Human Services in accordance with the National Nutrition Monitoring and Related Research Act of 1990 (PL 101-445; 7 U.S.C. 5301 et seq.) on all future nutrition, food or ingredient changes. The Director of DLA is also directed to provide notification to the congressional defense subcommittees of the agency's plans to implement the above requirements.

OPERATION AND MAINTENANCE, ARMY RESERVE

The agreement provides \$2,877,104,000 for Operation and Maintenance, Army Reserve, as follows:

## UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

The agreement provides \$14,538,000 for the United States Court of Appeals for the Armed Forces.

## ENVIRONMENTAL RESTORATION, ARMY

The agreement provides \$235,809,000, an increase of \$20,000,000 above the budget request, for Environmental Restoration, Army.

## ENVIRONMENTAL RESTORATION, NAVY

The agreement provides \$365,883,000, an increase of \$84,468,000 above the budget request, for Environmental Restoration, Navy. Specifically, \$42,234,000 is provided as a general program increase and \$42,234,000 is provided to address costs associated with remediating contamination caused by perfluorinated chemicals.

## VIEQUES AND CULEBRA ENVIRONMENTAL RESTORATION

The agreement retains the language included under the heading "Vieques and Culebra Environmental Restoration" in House Report 115-219; however, the Secretary of the Navy is directed to provide the report on Vieques and the Secretary of the Army is directed to provide the report on Culebra.

## ENVIRONMENTAL RESTORATION, AIR FORCE

The agreement provides \$352,549,000, an increase of \$58,800,000 above the budget request, for Environmental Restoration, Air Force. Specifically, \$15,000,000 is provided as a general program increase and \$43,800,000 is provided to address costs associated with remediating contamination caused by perfluorinated chemicals.

## ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The agreement provides \$19,002,000, an increase of \$10,000,000 above the budget request, for Environmental Restoration, Defense-Wide. The increase is provided to address health screenings related to contaminated water.

## ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

The agreement provides \$248,673,000, an increase of \$40,000,000 above the budget request, for Environmental Restoration, Formerly Used Defense Sites.

## OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The agreement provides \$129,900,000, an increase of \$25,000,000 above the budget request, for Overseas Humanitarian, Disaster, and Civic Aid. Specifically, \$10,000,000 is provided as a program increase for the Humanitarian Mine Action Program, of which \$7,000,000 is for activities in Southeast Asia, and \$15,000,000 is provided as a program increase for Humanitarian Assistance, South China Sea regional engagement.

## COOPERATIVE THREAT REDUCTION ACCOUNT

The agreement provides \$350,000,000 for the Cooperative Threat Reduction Account, as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	Budget Request	Final Bill
Strategic Offensive Arms Elimination	12,188	12,188
Chemical Weapons Destruction	5,000	5,000
Global Nuclear Security	17,887	43,287

<b>TOTAL, DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND</b>	<b>0</b>	<b>500,000</b>

BUDGETING FOR THE DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE

To restore program and funding stability for the Department of Defense acquisition workforce, while retaining its unique authorities to ensure the Department of Defense has the capacity in both personnel and skills needed to perform its acquisition mission, the agreement provides a direct appropriation of \$500,000,000 for the Department of Defense Acquisition Workforce Development Fund (DAWDF). As with the President's budget request for fiscal year 2019, the Under Secretary of Defense (Comptroller) is expected to follow this budgeting approach in future budget submissions.

The Under Secretary of Defense (Acquisition and Sustainment) is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that identifies all budgeted costs for the Department of Defense

acquisition workforce by fiscal year and funding category across the future years defense program in the DAWDF, as well as in regular operation and maintenance and research, development, test and evaluation accounts. In addition, the Under Secretary of Defense (Acquisition and Sustainment) is directed to identify to the congressional defense committees the costs budgeted to pay the salaries of personnel to manage the DAWDF, per Section 843 of the National Defense Authorization Act for Fiscal Year 2018; to provide a cost estimate for the proposed Program Manager Development Program, per Section 841 of the National Defense Authorization Act for Fiscal Year 2018; and to identify any unfunded fiscal year 2019 requirements for the Department of Defense acquisition workforce.

#### REPORTING REQUIREMENTS RELATING TO THE ACQUISITION WORKFORCE

The Secretary of Defense is directed to provide the comprehensive plan required in accordance with Section 841 of the National Defense Authorization Act for Fiscal Year 2018 to the House and Senate Defense Appropriations Subcommittees as well as the Committees on Armed Services of the Senate and the House of Representatives. In addition, the report to be submitted by the Under Secretary of Defense (Acquisition and Sustainment) to the Committees on Armed Services of the Senate and the House of Representatives in accordance with Section 843(c) of the National Defense Authorization Act for Fiscal Year 2018 shall also be provided to the House and Senate Defense Appropriations Subcommittees.

### TITLE III – PROCUREMENT

The agreement provides \$133,868,632,000 in Title III, Procurement, as follows:

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

## PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

## ARSENAL SUSTAINMENT INITIATIVE

The agreement supports ongoing efforts of the Department of the Army to develop the Army Organic Industrial Base Strategy. This process is identifying manufacturing capabilities at each organic industrial facility that are critical for the country to sustain in wartime and peacetime if the military is called to action. However, there are concerns that while the Army Organic Industrial Base Strategy is identifying capabilities, they have not been prioritized in annual budget requests to Congress. In particular, the Nation’s arsenals are at risk of not having the capacity to respond rapidly to meet the Department’s needs. Addressing this concern, in comments the Army provided to the Government Accountability Office (GAO) in advance of its December 2015 report, “Actions Needed to Identify and Sustain Critical Capabilities,” the Army concurred with the GAO’s recommendation that it must issue “clear and detailed implementation guidance, such as an instruction or guidebook, on the process for conducting make-or-buy analysis in a consistent manner.” The Secretary of the Army is directed to issue such guidance as soon as possible. Further, the Secretary of the Army is directed to assign the arsenals sufficient workload to maintain the critical capabilities identified in the Army Organic Industrial Base Strategy Report and ensure cost efficiency and technical

competence in peacetime, while preserving the ability to provide an effective and timely response to mobilizations, national defense contingency situations, and other emergency requirements. Additionally, it is noted that the congressional defense committees have not received detailed recommendations from the Secretary of Defense on how the Air Force, Navy, and Marine Corps can better use the arsenals for their manufacturing needs, or what opportunities may exist for the arsenals to assist the Services and the Defense Logistics Agency to procure spare parts, as required by Senate Report 114-63.

#### ARMY ORGANIC INDUSTRIAL BASE

The Secretary of the Army is directed to provide written notification to the congressional defense committees not fewer than 45 days prior to the Secretary approving civilian reductions in force that will result in an employment loss of 50 or more full-time employees at any Army organic industrial base facility.

## AIRCRAFT PROCUREMENT, ARMY

The agreement provides \$5,535,794,000 for Aircraft Procurement, Army, as follows:

~~(INSERT PROJECT LEVEL TABLE)~~ **Insert 52A-D**

### UH-60 BLACK HAWK

The agreement includes funding for 56 UH-60 Black Hawk M models, an increase of eight aircraft above the budget request. Of the 48 aircraft funded within the budget request, 12 are designated only for the Army National Guard. In addition, the eight aircraft included above the budget request are designated only for the Army National Guard.

## OTHER PROCUREMENT, ARMY

The agreement provides \$8,298,418,000 for Other Procurement, Army, as follows:

~~(INSERT COMPUTER TABLE)~~ e

~~(INSERT PROJECT LEVEL TABLE)~~ Insert 56A-K

## GROUND MOBILITY VEHICLE

The Army plan to procure a limited quantity of ground mobility vehicles (GMV) for use by airborne brigades raises concerns due to the high unit cost of the existing vehicles. However, due to the urgent requirement and the advanced stage of the Special Operations Command GMV program, the agreement includes full funding for this program and supports the interim acquisition strategy for 295 A-GMV 1.1 vehicles for fielding to conventional Army airborne brigades and 317 GMV 1.1 vehicles for fielding to the United States Army Special Operations Command. However, it is noted that a comparison of GMV unit cost targets proposed by the Army against actual unit costs contained in other Department of Defense contracts indicates that a developmental vehicle may cost more per unit than available non-development vehicles. Therefore, the

Secretary of the Army is directed to conduct a full and open competition for procurement of the remaining vehicles that satisfy the airborne brigade requirement.

#### HIGH MOBILITY MULTIPURPOSE WHEELED VEHICLE MODERNIZATION

Important safety technologies like Antilock Brake Systems (ABS) and Electronic Stability Control (ESC) play a critical role on the High Mobility Multipurpose Wheeled Vehicle (HMMWV) fleet. The agreement supports the incorporation of ABS/ESC into the HMMWV new production process and the HMMWV modernization process for active, reserve, and National Guard components. To ensure proper quality control during the ABS/ESC installation process for new and enduring active, reserve, and National Guard HMMWVs, the Secretary of the Army is directed to ensure that installation of ABS on all HMMWVs shall be performed during the HMMWV new production process or the HMMWV modernization process, when the HMMWV produced is new, or returned to a zero-hour, zero-mile, like-new condition.

## AIRCRAFT PROCUREMENT, NAVY

The agreement provides \$19,957,380,000 for Aircraft Procurement, Navy, as follows:

~~(INSERT COMPUTER TABLE)~~ e

~~(INSERT PROJECT LEVEL TABLE)~~

insert 58A-F

### NAVY STRIKE FIGHTER INVENTORY SHORTFALL

The Secretary of the Navy is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of the Navy's strike fighter inventory shortfall. The report should address all investment, modernization, and sustainment efforts that impact the strike fighter inventory shortfall, including the Legacy Hornet modernization effort, the plan to modernize the Super Hornet fleet to a Block III configuration, trends in the utilization and demand of the current F-18 fleet, and the long-term plans to procure F-35C and MQ-25 aircraft.

## SHIPBUILDING AND CONVERSION, NAVY

The agreement provides \$23,824,738,000 for Shipbuilding and Conversion, Navy, as follows:

~~(INSERT COMPUTER TABLE)~~ e

~~(INSERT PROJECT LEVEL TABLE)~~

insert 61A-C

### DDG-51 DESTROYER

The agreement provides \$3,357,079,000 for the procurement of two DDG-51 Arleigh Burke class Flight III guided missile destroyers. The Director of Cost Assessment and Program Evaluation is directed to provide an updated independent cost estimate for the DDG-51 multi-year procurement program to the congressional defense committees not later than 90 days after the enactment of this Act.

## F-15 INFRARED SEARCH AND TRACK

The Secretary of the Air Force is directed not to obligate funds provided for F-15 infrared search and track pods until 15 days after the Secretary of the Air Force submits to the congressional defense committees a report certifying that the pods to be procured will meet or exceed the threshold parameters identified in the report submitted pursuant to Section 219 of the National Defense Authorization Act for Fiscal Year 2016. This report may be submitted in classified form.

## B-2 ANTISKID CONTROL UNIT AND BRAKING SYSTEM

The Secretary of the Air Force is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the condition of B-2 brake systems and a timeline to either replace the entire brake system or replace parts that are no longer available, in short supply, or obsolete.

## SPACE ACQUISITION STRATEGY

In early 2017, the Office of Cost Assessment and Program Evaluation (CAPE) provided an analysis of national security space acquisition that found a troubling pattern of near-simultaneous recapitalization of almost every Department of Defense satellite system. The analysis showed a dramatic decrease in spending on space research and development following recapitalization that resulted in a reduction of scientists and engineers at major satellite contractors in the following decade. This industrial base decline, in turn, resulted in even higher costs during the next recapitalization phase as contractors and the government had to rebuild a skilled workforce for several satellite architectures concurrently.

(67B)

There is a concern that the Air Force is about to embark on another near-simultaneous recapitalization of its space architecture as it plans for new development in space situation awareness; positioning, navigation, and timing; weather; missile warning; wideband communications; and protected communications. In light of the CAPE analysis and future budget constraints, the Secretary of the Air Force is directed to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act, that examines the recapitalization plans for the major systems noted above, certifies that decisions to recapitalize versus continue production of current designs pose acceptable risks to constellation sustainment and the acquisition workforce, and considers budgetary constraints.

#### SPACE BASED INFRARED SYSTEM

Following submission of the fiscal year 2018 budget request, the Air Force changed its acquisition strategy for overhead persistent infrared (OPIR) missile warning systems. The fiscal year 2018 budget request included \$132,400,000 for advance procurement for the next block of Space Based Infrared System (SBIRS) satellites. The agreement reduces this amount by \$50,000,000 and transfers the remaining \$82,400,000 to a new program, Next Generation OPIR, in Research, Development, Test and Evaluation, Air Force, so that the Air Force can begin development of a new system that will provide resiliency upgrades, payload modernization, and other enhancements.

The agreement also transfers \$173,584,000 from SBIRS High and \$71,018,000 from Evolved SBIRS, both in Research, Development, Test and Evaluation, Air Force, to fund the Next Generation OPIR program. However, there is a concern that the OPIR acquisition strategy was still undefined well into fiscal year 2018 and that the new acquisition strategy, including a spend plan, has yet to be formally briefed to the

congressional defense committees. Therefore, OPIR is designated as a congressional special interest item and the Secretary of the Air Force is directed to submit an acquisition plan, to include cost and schedule estimates, to the congressional defense committees not later than 30 days after the enactment of this Act. The Secretary of the Air Force is also directed to provide quarterly briefings to the congressional defense committees detailing progress against cost and schedule milestones.

## PROCUREMENT OF AMMUNITION, AIR FORCE

The agreement provides \$1,651,977,000 for Procurement of Ammunition, Air Force, as follows:

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

### RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

The agreement provides \$10,647,426,000 for Research, Development, Test and Evaluation, Army, as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

Insert 77A-Q

ARMORED MULTI-PURPOSE VEHICLE

To ensure that Armored Multi-Purpose Vehicles are operationally effective before deploying to theater, the Secretary of the Army is encouraged to accelerate testing. The Secretary of the Army is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the results of vehicle testing to date and an explanation of why vehicles are being procured in significant quantities prior to initial operational test and evaluation, currently scheduled for the second quarter of fiscal year 2021.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

The agreement provides \$18,010,754,000 for Research, Development, Test and Evaluation, Navy, as follows:

~~(INSERT COMPUTER TABLE)~~ e

~~(INSERT PROJECT LEVEL TABLE)~~

insert 78A-Q

### RAPID PROTOTYPING, EXPERIMENTATION AND DEMONSTRATION

The fiscal year 2018 President's budget request contains \$162,000,000 in Research, Development, Test and Evaluation, Navy lines 29, 36, and 78 for several Rapid Prototyping, Experimentation and Demonstration (RPED) projects designated as "Accelerated Acquisitions for the Rapid Development, Demonstration and Fielding of Capability" by the Chief of Naval Operations and the Assistant Secretary of the Navy (Research, Development and Acquisition). Subsequent to the budget submission, the Navy identified additional funding requirements of \$121,000,000 for these projects that have been addressed via below threshold reprogramming authority, above threshold reprogramming authority, and additional funds recommended in this Act.

The Secretary of the Navy and the Chief of Naval Operations are directed to provide timely and complete communication to the House and Senate Defense

Appropriations Subcommittees regarding RPED projects, to include cost, schedule, progress against previously identified objectives, and transition plans. Several factors will be considered when reviewing each project: requirements, technology and manufacturing readiness, cost, schedule, performance, test results, and transition plans. Funding recommendations will then be adjusted accordingly. Further, there are concerns that projects are being selected without a full understanding of the technological complexity to achieve desired capabilities. Therefore, the Chief of Naval Operations and the Assistant Secretary of the Navy (Research, Development and Acquisition) are directed to consult with the Director, Operational Test and Evaluation regarding accelerated modeling, simulation, and testing required to achieve and demonstrate defined capabilities prior to the selection of an RPED project, to establish an agreed-upon test plan and to identify full funding requirements.

#### COSTS OF ENGINEERING CHANGE PROPOSALS FOR MISSILE PROGRAMS

The fiscal year 2018 President's budget request includes no less than \$101,000,000 for five development efforts the Navy plans to incorporate into Tomahawk missiles through a series of engineering change proposals during the missiles' recertification process. The development of these modernization initiatives is budgeted at close to \$900,000,000 over the next five years, and incorporating these efforts into production will significantly increase the unit cost of the Tomahawk missile.

While recognizing the need to modernize weapons systems through incremental upgrades, there is concern that the Navy historically has failed to recognize and budget for the full cost of developing and procuring missile upgrades through engineering change proposals upfront. As a result, when previously funded engineering change proposals transitioned from development to production, the Navy has had to reduce

planned procurement quantities due to higher than budgeted cost. This has resulted in reduced capacity in at least two other families of missiles. The Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act after conducting a review of the Navy's acquisition practices for engineering change proposals in all its missile programs, to include cost estimating, and to explore measures on how to inject competition into modernization efforts in sole source acquisitions.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The agreement provides \$37,428,078,000 for Research, Development, Test and Evaluation, Air Force, as follows:

~~(INSERT COMPUTER TABLE)~~ e

~~(INSERT PROJECT LEVEL TABLE)~~

insert 81A-0

CIVILIAN PERSONNEL

The agreement supports the Air Force proposal to transfer civilian personnel costs of the acquisition workforce from the Operation and Maintenance, Air Force account to the Research, Development, Test and Evaluation, Air Force account. To ensure visibility and appropriate execution, the Secretary of the Air Force is directed to submit an annual report on all civilian personnel (not limited to the acquisition workforce) related funding in the Research, Development, Test and Evaluation, Air Force account by program element. The report shall include the budgeted number of civilian full time equivalents (FTEs) and the related funding programmed in the current fiscal year and annually for the

next five fiscal years; the number of actual civilian FTEs and the related funding executed in current and previous fiscal years; an explanation of all below and above threshold reprogrammings involving civilian personnel funding; and the impact on staffing and effectiveness of the acquisition programs. The report shall be submitted to the congressional defense committees not later than 90 days after the end of each fiscal year.

#### DISTRIBUTED COMMON GROUND SYSTEMS

Several deficiencies exist within the Air Force's globally networked intelligence, surveillance, and reconnaissance enterprise, referred to as Distributed Common Ground Systems (DCGS). First, the enterprise is excessively stove-piped which makes it difficult for the warfighter to provide integrated products that incorporate different types of intelligence from weapon systems across different levels of classification. Second, the enterprise is not survivable against cyber threats. Third, the enterprise comprises eight separate acquisition programs, all of which are in the sustainment phase despite new capabilities being regularly tested and fielded. The Secretary of the Air Force is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on a DCGS modernization roadmap, to include a plan to accelerate the transition of the eight acquisition programs and all planned capabilities to an open architecture; a plan to achieve cyber security for the DCGS enterprise; a summary by appropriation of funding to sustain, develop, test, and field capabilities; and opportunities to use agile software development practices.

## JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM RECAPITALIZATION

In February 2018, the Air Force detailed its new position to Congress to terminate the Joint Surveillance Target Attack Radar System (JSTARS) recapitalization program and pursue alternatives. Despite years of affirmations to Congress on the need to pursue JSTARS recapitalization and an ongoing source selection process, the Air Force asserts that the program will not be viable in future contested environments and lacks compelling improvements over legacy capabilities.

The proposal to cancel JSTARS recapitalization, pursue alternatives, and ensure no duplication between efforts requires careful consideration by Congress through the fiscal year 2019 budget process. Therefore, the agreement provides \$405,451,000 for JSTARS recapitalization and designates this funding as a congressional special interest item. The Secretary of the Air Force is directed to neither transfer the funding from JSTARS recapitalization, nor utilize these funds for any purpose other than the JSTARS recapitalization program of record as presented with the fiscal year 2018 budget request, unless the congressional defense committees receive and approve a prior approval reprogramming request.

The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that addresses the following: the plan for divestment of the current E-8C JSTARS fleet and options for sustaining the fleet at a level above that plan; whether it is technically feasible to address concerns regarding the survivability of the JSTARS recapitalization platform by changing system attributes or performance parameters (such as radar range and size, weight, power and cooling margin); the cost and schedule of alternatives to JSTARS recapitalization that are funded in the fiscal year 2019 budget submission and accompanying future years defense plan; and the cost and schedule to procure additional weapon systems (including

Army and Navy systems) that can fulfill mission requirements similar to those performed by JSTARS in order to prevent loss of capacity to support the combatant commanders.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,  
DEFENSE-WIDE

The agreement provides \$22,010,975,000 for Research, Development, Test and Evaluation, Defense-Wide, as follows:

MISSILE DEFENSE AGENCY – SEA-BASED X-BAND RADAR

Pursuant to section 1684 of the National Defense Authorization Act for Fiscal Year 2016, the Director, Missile Defense Agency (MDA), is reviewing possible basing locations for a Sea-Based X-Band Radar (SBX) in the Atlantic. The Director, MDA is encouraged to consult with the Secretary of the Navy to avoid homeport sites that negatively impact national defense infrastructure and priorities, including United States naval operations such as ship and submarine maintenance activities at public shipyards. Further, the Director, MDA and the Secretary of the Navy are directed to include in the forthcoming report an evaluation of potential impacts to public shipyards,

as well as mitigation strategies and associated joint costs, for each Atlantic SBX radar location under consideration.

#### TRUSTED MICROELECTRONICS

The Under Secretary of Defense (Research and Engineering) and the Under Secretary of Defense (Acquisition and Sustainment) are directed to provide a joint report to the congressional defense committees not later than 90 days after the enactment of this Act which defines the scope of the microelectronics challenges the Department of Defense faces; confirms that the United States has adequate infrastructure to provide legacy and future chip needs for weapons systems and what resources are required to provide for that infrastructure; and lists the testing protocols that the Department is utilizing to ensure current microelectronics have achieved security assurance. The report shall also identify policy concerns to ensure the Department of Defense complies sufficiently in conducting the national security mission.

#### STRATEGIC CAPABILITIES OFFICE

The agreement provides \$1,183,506,000 for the Strategic Capabilities Office (SCO). The Under Secretary of Defense (Research and Engineering) is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the Department's plan to preserve the ability of SCO to respond to combatant commanders' critical needs and to augment efforts across the Department with respect to strategic capabilities development with new layers of oversight between the Director of SCO and the Secretary of Defense.

## PROJECT MAVEN

The agreement provides \$100,000,000 to enhance the efforts of the Algorithmic Warfare Cross-Functional Team on Project Maven and designates Project Maven and its activities to date as a congressional special interest item. The Under Secretary of Defense (Intelligence) is directed to provide a spend plan for Project Maven not later than 30 days after the enactment of this Act to the congressional defense committees. Further, the Under Secretary of Defense (Intelligence), the Under Secretary of Defense (Research and Engineering), and the Department of Defense Chief Information Officer are directed to provide an artificial intelligence and machine learning framework for the Department of Defense, and specifically cite the activities of the Services, the Defense Advanced Research Projects Agency, combat support agencies, and laboratories funded in this Act, to the congressional defense committees not later than 90 days after the enactment of this Act. The framework should include an overview of all formal artificial intelligence, machine learning, and big data activities; the amounts enacted in the fiscal year 2018 budget; the amounts included in the fiscal year 2019 budget request; and the costs to complete the initial phases of these activities. The framework should prioritize these efforts based on cost and impact to the enterprise and clearly identify how each works together to advance the Department's ability to leverage artificial intelligence and machine learning technologies. Finally, the framework should delineate which activities align with one or more of the following focus areas at a minimum: vision, text, speech, cybersecurity, situational awareness including social media, and enterprise.

## CLOUD COMPUTING

The Department of Defense seeks to accelerate and streamline the acquisition of cloud computing services at multiple security levels across the Department in an effort to provide the benefits of cloud computing while reducing management and administrative burdens. The Department, under the direction of the Deputy Secretary of Defense, created the Cloud Executive Steering Group to oversee this effort, referred to as the Joint Enterprise Defense Infrastructure (JEDI). This effort would be a tailored acquisition for commercial cloud services that could be a single award indefinite delivery/indefinite quantity contract for a period of up to ten years. There are concerns about the proposed duration of a single contract, questions about the best value for the taxpayer, and how to ensure the highest security is maintained.

Therefore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act detailing a framework for all Department entities, to include combat support agencies, to acquire cloud computing services including standards, best practices, contract types, and exit strategies to ensure government flexibility as requirements evolve. The report should also include justification, to include cost considerations, for executing a single award contract rather than creating an infrastructure capable of storing and sharing data across multiple cloud computing service providers concurrently, to include data migration and middleware costs.

In addition, not later than 45 days after the enactment of this Act, the Deputy Secretary of Defense is directed to provide a report on the JEDI cloud computing services contract request for proposals (RFP) to the congressional defense committees. The report shall include the following: the amounts requested in the fiscal year 2018 and 2019 budget for this and all other cloud computing services acquisitions by appropriation; the

fiscal year 2019 future years defense program levels for cloud computing services; identification and justification for acquisitions where “other transactional authorities” will be utilized; certification from the Department of Defense Chief Information Officer that each of the military Services, the combatant commands, Defense Information Systems Agency, and the Chief Information Officers of each of the Services have been consulted during the drafting of the RFP; provisions within the contract to ensure security is maintained over the period of the contract; and provisions for mitigation actions if the commercial entity were to provide services to or be acquired by a foreign entity or government.

## OPERATIONAL TEST AND EVALUATION, DEFENSE

The agreement provides \$210,900,000 for Operational Test and Evaluation, Defense, as follows:

## REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

Concerns remain regarding the transfer of funds from the In-House Care budget sub-activity to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, the agreement includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care and Private Sector Care budget sub-activities are designated as congressional special interest items. Any transfer of funds in excess of \$15,000,000 into or out of these sub-activities requires the Secretary of Defense to follow prior approval reprogramming procedures.

The Secretary of Defense is directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds in excess of \$10,000,000, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity groups for fiscal year 2017.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports to the congressional defense committees on budget execution data for all of the Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

## CARRYOVER

For fiscal year 2018, one percent carryover authority for the operation and maintenance account of the Defense Health Program is recommended. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2017 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

The Assistant Secretary of Defense (Health Affairs) is further directed to prioritize the payment of arrears to state vaccine programs, as authorized by section 719 of the National Defense Authorization Act for Fiscal Year 2017, in expenditure of these carryover funds.

## PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$80,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, kidney, and lung cancer research programs.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: adrenal cancer, bladder cancer, blood cancers, brain cancer, colorectal cancer, immunotherapy, listeria-based regimens for cancer, liver cancer, lymphoma, melanoma and other skin cancers, mesothelioma, myeloma, neuroblastoma, pancreatic cancer, pediatric brain tumors, stomach cancer, and cancer in children, adolescents, and young adults.

The reports directed under this heading in House Report 115-219 and the Senate Chairman's Explanatory Statement of November 21, 2017 are still required.

## PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$330,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acute lung injury, antimicrobial resistance, arthritis, burn pit exposure, cardiomyopathy, cerebellar ataxia, chronic migraine and post-traumatic headache, chronic pain management, congenital heart disease, constrictive bronchiolitis, diabetes, dystonia, eating disorders, emerging infectious diseases, endometriosis, epidermolysis bullosa, focal segmental glomerulosclerosis, Fragile X, frontotemporal degeneration, Guillain-Barre syndrome, hepatitis B and C, hereditary angioedema, hydrocephalus, immunomonitoring of intestinal transplants, inflammatory bowel diseases, interstitial cystitis, lung injury, malaria, metals toxicology, mitochondrial disease, musculoskeletal disorders, myotonic dystrophy, non-opioid pain management, nutrition optimization, pancreatitis, pathogen-inactivated blood products, post-traumatic osteoarthritis, pressure ulcers, pulmonary fibrosis, respiratory health, Rett syndrome, rheumatoid arthritis, scleroderma, sleep disorders, spinal muscular atrophy, sustained-release drug delivery, tinnitus, tissue regeneration, tuberculosis, vaccine development for infectious diseases, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

## ELECTRONIC HEALTH RECORD

The Program Executive Officer (PEO) for Defense Healthcare Management Systems (DHMS), in conjunction with the Director of the Interagency Program Office (IPO), is directed to provide quarterly reports to the congressional defense committees on the cost and schedule of the electronic health record program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. These reports should also include any changes to the deployment timeline, including benchmarks, for full operating capability; any refinements to the cost estimate for full operating capability and the total lifecycle cost of the project; and the progress toward developing, implementing, and fielding the interoperable electronic health record throughout the medical facilities of the Department of Defense and the Department of Veterans Affairs. The PEO DHMS is further directed to continue briefing the House and Senate Defense Appropriations Subcommittees on a quarterly basis, coinciding with the report submission.

Finally, the Director of the IPO is directed to continue to provide quarterly reports to the House and Senate Appropriations Committees, Subcommittees on Defense and Military Construction, Veterans Affairs, and Related Agencies on the progress of interoperability between the two Departments.

## CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

The agreement provides \$961,732,000 for Chemical Agents and Munitions Destruction, Defense, as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	Budget Request	Final Bill
OPERATION AND MAINTENANCE	104,237	104,237
PROCUREMENT	18,081	18,081
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	839,414	839,414
<b>TOTAL, CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE</b>	<b>961,732</b>	<b>961,732</b>

## DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The agreement provides \$934,814,000 for Drug Interdiction and Counter-Drug Activities, Defense, as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

Line	Budget Request	Final Bill
<b>010 COUNTER-NARCOTICS SUPPORT</b>	<b>557,648</b>	<b>552,648</b>

## JOINT URGENT OPERATIONAL NEEDS FUND

The agreement does not recommend funding for the Joint Urgent Operational Needs Fund.

## OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$321,887,000 for the Office of the Inspector General, as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	Budget Request	Final Bill
<b>OPERATION AND MAINTENANCE</b>	<b>334,087</b>	<b>319,087</b>
Overestimation of civilian full-time equivalents		-15,000
<b>RESEARCH, DEVELOPMENT, TEST AND EVALUATION</b>	<b>2,800</b>	<b>2,800</b>
<b>TOTAL, OFFICE OF THE INSPECTOR GENERAL</b>	<b>336,887</b>	<b>321,887</b>

### QUARTERLY END STRENGTH AND EXECUTION REPORTS

The Department of Defense Inspector General is directed to provide quarterly reports to the congressional defense committees on civilian personnel end strength, full-time equivalents, and budget execution not later than 15 days after the end of each fiscal quarter. The reports should contain quarterly civilian personnel end strength and full-time equivalents as well as an estimate of fiscal year end strength and fiscal year full-time equivalents. The reports should also include quarterly budget execution data along with revised fiscal year estimated execution data. The Inspector General is directed to provide realistic end of fiscal year estimates based on personnel trends to date.

## TITLE VII - RELATED AGENCIES

The agreement provides \$1,051,600,000 in Title VII, Related Agencies, as follows:

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate, detailed, and comprehensive classified annex. The Intelligence Community, the Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2018.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY  
SYSTEM FUND

The agreement provides \$514,000,000 for the Central Intelligence Agency Retirement and Disability Fund.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The agreement provides \$537,600,000, an increase of \$5,600,000 above the budget request, for the Intelligence Community Management Account.

## TITLE VIII – GENERAL PROVISIONS

The agreement incorporates general provisions which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement modifies a provision proposed by the House which requires that no more than 25 percent of the funding made available in this Act be obligated in the last two months of the fiscal year.

### (TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House which provides general transfer authority not to exceed \$4,250,000,000.

The agreement retains a provision proposed by the House which identifies tables as Explanation of Project Level Adjustments.

The agreement retains a provision proposed by the House which provides for the establishment of a baseline for the application of reprogramming and transfer authorities for the current fiscal year.

The agreement modifies a provision proposed by the House which places restrictions on multiyear procurement contracts.

The agreement retains a provision proposed by the House regarding management of civilian personnel of the Department of Defense.

The agreement retains a provision proposed by the House regarding limitations on the use of funds to purchase anchor and mooring chains.

The agreement includes a provision which restricts the use of funds to support any nonappropriated funds activity that procures malt beverages and wine. The House bill contained no similar provision.

The agreement retains a provision proposed by the House regarding incentive payments authorized by the Indian Financing Act of 1974.

The agreement modifies a provision proposed by the House which prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers with certain limitations.

The agreement includes a provision which provides for the revocation of blanket waivers of the Buy American Act. The House bill contained a similar provision.

The agreement includes a provision which provides for the conveyance, without consideration, of relocatable housing units that are excess to the needs of the Air Force. The House bill contained a similar provision.

The agreement does not retain a provision proposed by the House which was made permanent in the fiscal year 2017 Act that provided the authority for the Defense Intelligence Agency to use funds provided in this Act for the provisioning of information systems.

The agreement includes a provision which provides funds for the Asia Pacific Regional Initiative Program for the purpose of enabling the Pacific Command to execute Theater Security Cooperation activities. The House bill contained no similar provision.

The agreement retains a provision proposed by the House regarding mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

The agreement includes a provision which requires the Department of Defense to comply with the Buy American Act, chapter 83 of title 41, United States Code. The House bill contained a similar provision.

(RESCISSIONS)

The agreement modifies a provision proposed by the House recommending rescissions and provides for the rescission of \$942,242,000. The rescissions agreed to are:

The agreement retains a provision proposed by the House which restricts procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

The agreement includes a provision which makes funds available to maintain competitive rates at the arsenals. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which provides funding to the United Service Organizations and the Red Cross.

(TRANSFER OF FUNDS)

The agreement retains a provision proposed by the House which provides funding for the Sexual Assault Victims Special Counsel Program.

The agreement modifies a provision proposed by the House regarding the use of funding appropriated in title IV of this Act to procure end-items.

The agreement retains a provision proposed by the House which restricts funding for repairs and maintenance of military housing units.

(TRANSFER OF FUNDS)

The agreement includes a provision which directs that Operation and Maintenance, Navy funds shall be available for transfer to the John C. Stennis Center for Public Service Development Trust Fund. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which provides a grant to the Fisher House Foundation, Inc.

The agreement includes a provision which requires notification upon the use of rapid acquisition authorities. The House bill contained no similar provision.

(TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House related to funding for the Israeli Cooperative Defense programs.

(TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House which provides for the funding of prior year shipbuilding cost increases.

The agreement includes a provision which provides that the budget of the President for the subsequent fiscal year shall include separate budget justification documents for costs of the United States Armed Forces' participation in contingency operations. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which reduces funding due to favorable foreign exchange rates.

The agreement includes a provision which makes funds available for rapid acquisition and deployment of supplies. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits changes to the Army Contracting Command-New Jersey without prior notification.

The agreement includes a provision which places restrictions on the use of funds to support friendly foreign countries. The House bill contained no similar provision.

The agreement does not retain a provision proposed by the House recommending a rescission from the Department of Defense Acquisition Workforce Development Fund.

The agreement includes a provision which applies reprogramming procedures on the Department of Defense Acquisition Workforce Development Fund. The House bill contained no similar provision.

The agreement includes a provision that prohibits the transfer of funds into the Department of Defense Acquisition Workforce Development Fund. The House bill contained a similar provision.

The agreement retains a provision proposed by the House related to agreements with the Russian Federation pertaining to United States ballistic missile defense systems.

(TRANSFER OF FUNDS)

The agreement includes a provision which provides the Director of National Intelligence with general transfer authority with certain limitations. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, U.S.C.

The agreement includes a provision which requires reporting on the National Instant Criminal Background Check System. The House bill contained no similar provision.

The agreement retains a provision proposed by the House that requires the Secretary of Defense to post grant awards on a public website in a searchable format.

The agreement includes a provision which provides guidance on cost overrun reductions and the Rapid Prototyping Fund. The House bill contained no similar provision.

The agreement retains a provision proposed by the House regarding funding for flight demonstration teams at locations outside the United States.

The agreement retains a provision proposed by the House which prohibits the use of funds to implement the Arms Trade Treaty until the treaty is ratified by the Senate.

The agreement includes a provision which prohibits the transfer of funds to any organization not funded in this Act with certain exceptions. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits introducing armed forces into Iraq in contravention of the War Powers Act.

The agreement modifies a provision proposed by the House which limits the use of funds for the T-AO program.

The agreement does not retain a provision proposed by the House which reduces Working Capital Funds to reflect excess cash balances.

The agreement modifies a provision proposed by the House which reduces the total amount appropriated to reflect lower than anticipated fuel costs.

The agreement retains a provision proposed by the House which prohibits the use of funds for gaming or entertainment that involves nude entertainers.

The agreement retains a provision proposed by the House which prohibits the use of funds for Base Realignment and Closure.

(TRANSFER OF FUNDS)

The agreement includes a provision which grants the Secretary of Defense the authority to use funds for Office of Personnel and Management background investigations. The House bill contained no similar provision.

The agreement does not retain a provision proposed by the House which restricts the use of funds for the Joint Surveillance Target Attack Radar System recapitalization program for pre-milestone B activities.

The agreement does not retain a provision proposed by the House which provides authority to use readiness funds for Zika related activities.

The agreement includes a provision which provides reprogramming authority for the Global Engagement Center. The House bill contained a similar provision.

The agreement does not retain a provision proposed by the House which provides funds for the military personnel accounts for purposes of a military pay raise.

The agreement retains a provision proposed by the House which makes funds available through the Office of Economic Adjustment for transfer to the Secretary of Education, to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations.

The agreement does not retain a provision proposed by the House which limits the availability of funds to carry out changes to the Joint Travel Regulations of the Department of Defense.

The agreement retains a provision proposed by the House which provides guidance on the implementation of the Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured Active Duty Service Members.

The agreement retains a provision proposed by the House which prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

The agreement retains a provision proposed by the House which prohibits the use of funds to purchase heavy water from Iran.

The agreement adds a provision which amends Section 316(a)(2) of the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91) by striking “the study under this subsection” and inserting “the study and assessment under this section”.

The agreement does not retain a provision proposed by the House which provides guidance on references to this Act.

The agreement does not retain a provision proposed by the House which provides guidelines on the interpretation of House Report 115-219.

The agreement does not retain a provision proposed by the House which provides spending reduction account guidance.

The agreement does not retain a provision proposed by the House which prohibits the use of funds in the Afghanistan Security Forces Fund to procure uniforms for the Afghan National Army.

The agreement does not retain a provision proposed by the House which prohibits the use of funds to close biosafety level 4 laboratories.

The agreement does not retain a provision proposed by the House which prohibits the use of funds for public-private partnerships under Office of Management and Budget circular A-76.

The agreement adds a provision which makes funds available for the Secretary of Defense for use in a designated country.

**TITLE IX – OVERSEAS CONTINGENCY OPERATIONS/  
GLOBAL WAR ON TERRORISM**

The agreement provides \$65,166,000,000 in Title IX, Overseas Contingency Operations/Global War on Terrorism.

**REPORTING REQUIREMENTS**

The agreement includes a number of reporting requirements related to contingency operations and building capacity efforts. The Secretary of Defense is directed to continue to report incremental costs for all named operations in the Central Command Area of Responsibility on a quarterly basis and to submit, also on a quarterly basis, commitment, obligation, and expenditure data for the Afghanistan Security Forces Fund, the Counter-Islamic State of Iraq and Syria Train and Equip Fund, and for all security cooperation programs funded under the Defense Security Cooperation Agency in the Operation and Maintenance, Defense-Wide account.

MILITARY PERSONNEL

The agreement provides \$4,326,172,000 for Military Personnel, as follows:

## OPERATION AND MAINTENANCE

The agreement provides \$50,317,919,000 for Operation and Maintenance, as follows:

~~(INSERT O&M OCO TABLE)~~

insert 119A-G

## PRIVATE SECURITY COMPANIES

The Secretary of Defense is commended for the Department's assistance in developing principles, standards, and a code of conduct based on international law, to ensure that private security companies respect human rights and the rule of law in the provision of security assistance services. The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 90 days after enactment of this Act, on the Department's standards and oversight and accountability mechanisms that apply to private security companies contracted by the Department of Defense compared to the standards and mechanisms that apply to private security companies contracted by the Department of State.

## AFGHANISTAN SECURITY FORCES FUND CONTRACT COSTS

There remain concerns about the excessive costs of training contracts awarded using the Afghanistan Security Forces Fund (ASFF). Therefore, the Comptroller General is directed to examine all ASFF training contracts and provide a report detailing his

findings to the congressional defense committees not later than 180 days after the enactment of this Act. Additionally, the Secretary of Defense is directed to provide an accounting of all contracts funded with ASFF, the annual value of each contract, and the ASFF line item that funds each contract, to the congressional defense committees not later than 180 days after the enactment of this Act.

#### AFGHANISTAN SECURITY FORCES FUND BUDGET JUSTIFICATION

The Secretary of Defense is commended for efforts to improve the Afghanistan Security Forces Fund (ASFF) budget justification materials and Financial Activity Plans (FAPs). To further inform budget reviews, the Secretary of Defense is directed to provide budget justification materials that include the budget request amount, the appropriated amount, and the actual obligation amount by line item, for the prior two fiscal years. In addition, concurrent with the submission of each FAP, the Secretary of Defense shall provide the congressional defense committees with line item detail of planned funding movements within ASFF using line item titles from the appropriate year's budget justification submission. Any line item that did not appear in the budget justification submission shall be delineated as a new line item.

#### AFGHAN NATIONAL ARMY UNIFORMS

The House-passed bill included a provision, Section 10004, banning the use of funds provided for the Afghanistan Security Forces Fund to procure uniforms for the Afghan National Army (ANA). The Special Inspector General for Afghanistan Reconstruction reported in June 2017 that the Department of Defense acquired uniforms for the ANA that were not appropriate for use in Afghanistan. The agreement removes

the legislative provision; however, due to underlying concerns of mismanagement by the Department of Defense and the ANA, the Secretary of Defense is directed to provide a report to the congressional defense committees, not later than 90 days after the enactment of this Act, that determines whether current contracting practices for ANA and Afghan National Police uniforms conform to all Federal Acquisition Regulation requirements.

#### COUNTER-LORD'S RESISTANCE ARMY

The Secretary of Defense, in coordination with the Secretary of State, is directed to provide a report on the lessons learned from Operation Observant Compass, including in the area of civil-military coordination, and an assessment of how these lessons are being institutionalized and applied to other complex crises. The report shall be provided to the congressional defense and foreign relations committees not later than 270 days after the enactment of this Act.

#### SECURITY SECTOR ASSISTANCE STEERING COMMITTEE

The Secretary of Defense, in coordination with the Secretary of State, is directed to provide a report on the activities and progress of the Defense Security Sector Assistance Steering Committee to the congressional defense and foreign relations committees not later than 180 days after the enactment of this Act.

## PROCUREMENT

## NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$1,300,000,000 for National Guard and Reserve Equipment. Of that amount \$429,000,000 is designated for the Army National Guard; \$429,000,000 for the Air National Guard; \$169,000,000 for the Army Reserve; \$65,000,000 for the Navy Reserve; \$13,000,000 for the Marine Corps Reserve; and \$195,000,000 for the Air Force Reserve.

This funding will allow the reserve components to procure high priority equipment that may be used for combat and domestic response missions. Current reserve component equipping levels are among the highest in recent history and the funding provided by the agreement will help ensure component interoperability and sustained reserve component modernization.

The Secretary of Defense is directed to ensure that the account be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: acoustic hailing devices, active electronically scanned array radars, advanced cargo handling systems for CH-47s, advanced targeting pods, combat uniforms and cold weather protective clothing, crashworthy ballistically tolerant auxiliary internal and external fuel systems, digital radar warning receivers for F-16s, electromagnetic in-flight propeller balance systems, joint threat emitters, large aircraft infrared countermeasures, modular container systems for palletized cargo, modular and self-contained ranges, MQ-9 deployable launch and recovery element mission support kits, portable high frequency radios and antennas, radar warning receivers for C-17s, radiac sets, satellite broadband for aircraft, commercial-off-the-shelf training systems/simulators – including for small arms simulation, sun shades, unmanned systems for rapid emergency search and rescue support, unstabilized gunnery crew and small arms trainers, and wireless mobile mesh self-healing network systems.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The agreement provides \$926,937,000 for Research, Development, Test and Evaluation, as follows:

<b>TOTAL, JOINT IMPROVISED-THREAT DEFEAT FUND</b>	<b>483,058</b>	<b>0</b>

### TRANSFER AUTHORITY FOR THE JOINT IMPROVISED-THREAT DEFEAT ORGANIZATION

The agreement includes \$314,558,000 in Operation and Maintenance, Defense-Wide; \$5,200,000 in Procurement, Defense-Wide; and \$168,300,000 in Research, Development, Test and Evaluation, Defense-Wide overseas contingency operations appropriations accounts for the Joint Improvised-Threat Defeat Organization (JIDO). At the Director, JIDO's request, the distribution of funds among appropriation accounts has been adjusted based on JIDO's revised execution plans for fiscal year 2018, as briefed to the House and Senate Defense Appropriations Subcommittees in the first quarter of fiscal year 2018. Further, funds are not delineated by project within each appropriation, providing the Director, JIDO significant discretion to meet the requirements pursuant to JIDO's mission. Should the Director, JIDO identify requirements necessitating the transfer of funds between appropriation accounts, the Under Secretary of Defense

(Comptroller) is directed to expedite any such transfer as a stand-alone reprogramming action in accordance with congressional guidance.

## OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$24,692,000 for the Office of the Inspector General.

### GENERAL PROVISIONS – THIS TITLE

The agreement for title IX incorporates general provisions which were not amended. Those general provisions that were addressed in the agreement are as follows:

#### (TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House which provides for special transfer authority within title IX.

The agreement includes a provision which provides funds for logistical support to allied forces supporting military and stability operations in Afghanistan and to counter the Islamic State of Iraq and Syria. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which provides security assistance to the Government of Jordan.

The agreement modifies a provision proposed by the House which prohibits the use of the Counter-ISIS Train and Equip Fund to procure or transfer man-portable air defense systems.

The agreement modifies a provision proposed by the House which provides assistance and sustainment to the military and national security forces of Ukraine.

The agreement retains a provision proposed by the House related to the replacement of funds for items provided to the Government of Ukraine.

The agreement retains a provision proposed by the House which prohibits the use of assistance and sustainment to the military and national security forces of Ukraine to procure or transfer man-portable air defense systems.

(TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House which provides funds to the Department of Defense to improve intelligence, surveillance, and reconnaissance capabilities.

The agreement retains a provision proposed by the House which prohibits the use of funds with respect to Syria in contravention of the War Powers Resolution.

The agreement includes a provision which prohibits the use of funds to transfer additional C-130 aircraft to Afghanistan. The House bill contained no similar provision.

(RESCISSIONS)

The agreement modifies a provision proposed by the House recommending rescissions and provides for the rescission of \$2,565,100,000. The rescissions agreed to are:

2017 Appropriations:

Operation and Maintenance, Defense-Wide:

Coalition Support Fund.....\$500,000,000

DSCA security cooperation .....250,000,000

Afghanistan Security Forces Fund:

Afghanistan Security Forces Fund.....100,000,000

Counter-ISIL Train and Equip Fund:

Counter-ISIL Train and Equip Fund.....80,000,000

Other Procurement, Air Force:

Classified program .....25,100,000

No-year Appropriations:

Counter-ISIL Overseas Contingency Operations Transfer Fund:

Counter-ISIL OCOTF .....1,610,000,000

The agreement does not retain a provision proposed by the House which requires the President to designate Overseas Contingency Operations/Global War on Terrorism amounts accordingly.

The agreement modifies a provision proposed by the House which requires the President to submit a report to Congress on his strategy to defeat certain adversary forces.

The agreement adds a provision which requires the Secretary of Defense to certify the use of funds in the Afghanistan Security Forces Fund under certain conditions.
