13          law.

14          “(b) TITLE 13 AND TITLE 44, UNITED STATES  
15          CODE.—This subchapter does not diminish the authority

13 “(e) SECTION 201 OF CONGRESSIONAL BUDGET ACT  
14 OF 1974.—This subchapter shall not be construed to limit  
15 any authorities of the Congressional Budget Office to  
16 work (consistent with laws governing the confidentiality  
17 of information the disclosure of which would be a violation  
18 of law) with databases of Designated Statistical Agencies  
19 (as defined in section 3576(e)), either separately or, for  
20 data that may be shared pursuant to section 3576(e) or

4       “(g) STATUTES REGARDING FALSE STATEMENTS.—  
5 Notwithstanding section 3572, information collected by an

21       “(i) AUTHORITY OF CONGRESS.—Nothing in this

3           **“PART B—CONFIDENTIAL INFORMATION**  
4   **PROTECTION**

5   **“§ 3571. Findings**

6           “The Congress finds the following:

7                   “(1) Individuals, businesses, and other organi-  
8                   zations have varying degrees of legal protection  
9                   when providing information to the agencies for  
10                  strictly statistical purposes.

11                  “(2) Pledges of confidentiality by agencies pro-  
12                  vide assurances to the public that information about  
13                  individuals or organizations or provided by individ-  
14                  uals or organizations for exclusively statistical pur-  
15                  poses will be held in confidence and will not be used  
16                  against such individuals or organizations in any  
17                  agency action.

18                  “(3) Protecting the confidentiality interests of  
19                  individuals or organizations who provide information  
20                  under a pledge of confidentiality for Federal statis-  
21                  tical programs serves both the interests of the public  
22                  and the needs of society.

23                  “(4) Declining trust of the public in the protec-  
24                  tion of information provided under a pledge of con-

1        confidentiality to the agencies adversely affects both the  
2        accuracy and completeness of statistical analyses.

3            “(5) Ensuring that information provided under  
4        a pledge of confidentiality for statistical purposes re-  
5        ceives protection is essential in continuing public co-  
6        operation in statistical programs.

7        **“§ 3572. Confidential information protection**

8            “(a) PURPOSES.—The purposes of this section are  
9        the following:

10            “(1) To ensure that information supplied by in-  
11        dividuals or organizations to an agency for statistical  
12        purposes under a pledge of confidentiality is used ex-  
13        clusively for statistical purposes.

14            “(2) To ensure that individuals or organizations  
15        who supply information under a pledge of confiden-  
16        tiality to agencies for statistical purposes will neither  
17        have that information disclosed in identifiable form  
18        to anyone not authorized by this subchapter nor  
19        have that information used for any purpose other  
20        than a statistical purpose.

21            “(3) To safeguard the confidentiality of individ-  
22        ually identifiable information acquired under a  
23        pledge of confidentiality for statistical purposes by  
24        controlling access to, and uses made of, such infor-  
25        mation.

1       “(b) USE OF STATISTICAL DATA OR INFORMA-  
2 TION.—Data or information acquired by an agency under  
3 a pledge of confidentiality and for exclusively statistical  
4 purposes shall be used by officers, employees, or agents  
5 of the agency exclusively for statistical purposes and pro-  
6 tected in accordance with such pledge.

7       “(c) DISCLOSURE OF STATISTICAL DATA OR INFOR-  
8 MATION.—

9           “(1) Data or information acquired by an agency  
10       under a pledge of confidentiality for exclusively sta-  
11       tistical purposes shall not be disclosed by an agency  
12       in identifiable form, for any use other than an exclu-  
13       sively statistical purpose, except with the informed  
14       consent of the respondent.

15           “(2) A disclosure pursuant to paragraph (1) is  
16       authorized only when the head of the agency ap-  
17       proves such disclosure and the disclosure is not pro-  
18       hibited by any other law.

19           “(3) This section does not restrict or diminish  
20       any confidentiality protections in law that otherwise  
21       apply to data or information acquired by an agency  
22       under a pledge of confidentiality for exclusively sta-  
23       tistical purposes.

24       “(d) RULE FOR USE OF DATA OR INFORMATION FOR  
25 NONSTATISTICAL PURPOSES.—A statistical agency or

1 unit shall clearly distinguish any data or information it  
2 collects for nonstatistical purposes (as authorized by law)  
3 and provide notice to the public, before the data or infor-  
4 mation is collected, that the data or information could be  
5 used for nonstatistical purposes.

6 “(e) DESIGNATION OF AGENTS.—A statistical agency  
7 or unit may designate agents, by contract or by entering  
8 into a special agreement containing the provisions re-  
9 quired under section 3561(2) for treatment as an agent  
10 under that section, who may perform exclusively statistical  
11 activities, subject to the limitations and penalties de-  
12 scribed in this subchapter.

13 “(f) FINES AND PENALTIES.—Whoever, being an of-  
14 ficer, employee, or agent of an agency acquiring informa-  
15 tion for exclusively statistical purposes, having taken and  
16 subscribed the oath of office, or having sworn to observe  
17 the limitations imposed by this section, comes into posses-  
18 sion of such information by reason of his or her being an  
19 officer, employee, or agent and, knowing that the disclo-  
20 sure of the specific information is prohibited under the  
21 provisions of this subchapter, willfully discloses the infor-  
22 mation in any manner to a person or agency not entitled  
23 to receive it, shall be guilty of a class E felony and impris-  
24 oned for not more than five years, or fined not more than  
25 \$250,000, or both.

1           **“PART C—STATISTICAL EFFICIENCY**

2   **“§ 3575. Findings**

3           “The Congress finds the following:

4                   “(1) Federal statistics are an important source  
5           of information for public and private decision-mak-  
6           ers such as policymakers, consumers, businesses, in-  
7           vestors, and workers.

8                   “(2) Federal statistical agencies should continu-  
9           ously seek to improve their efficiency. Statutory con-  
10          straints limit the ability of these agencies to share  
11          data and thus to achieve higher efficiency for Fed-  
12          eral statistical programs.

13                   “(3) The quality of Federal statistics depends  
14          on the willingness of businesses to respond to statis-  
15          tical surveys. Reducing reporting burdens will in-  
16          crease response rates, and therefore lead to more ac-  
17          curate characterizations of the economy.

18                   “(4) Enhanced sharing of business data among  
19          the Bureau of the Census, the Bureau of Economic  
20          Analysis, and the Bureau of Labor Statistics for ex-  
21          clusively statistical purposes will improve their abil-  
22          ity to track more accurately the large and rapidly  
23          changing nature of United States business. In par-  
24          ticular, the statistical agencies will be able to better  
25          ensure that businesses are consistently classified in  
26          appropriate industries, resolve data anomalies,

1 produce statistical samples that are consistently ad-  
2 justed for the entry and exit of new businesses in a  
3 timely manner, and correct faulty reporting errors  
4 quickly and efficiently.

5 “(5) Congress enacted the International Invest-  
6 ment and Trade in Services Survey Act (Public Law  
7 94–472), which allowed the Bureau of the Census,  
8 the Bureau of Economic Analysis, and the Bureau  
9 of Labor Statistics to share data on foreign-owned  
10 companies. The Act not only expanded detailed in-  
11 dustry coverage from 135 industries to over 800 in-  
12 dustries with no increase in the data collected from  
13 respondents but also demonstrated how data sharing  
14 can result in the creation of valuable data products.

15 “(6) With part B of this subchapter, the shar-  
16 ing of business data among the Bureau of the Cen-  
17 sus, the Bureau of Economic Analysis, and the Bu-  
18 reau of Labor Statistics continues to ensure the
