PROCEEDINGS AND DEBATES OF THE 112th CONGRESS, FIRST SESSION

Vol. 157

WASHINGTON, MONDAY, NOVEMBER 14, 2011

No. 173

House of Representatives

The House met at 2 p.m. and was called to order by the Speaker pro tempore (Ms. FOXX).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 14, 2011.

I hereby appoint the Honorable VIRGINIA FOXX to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:

Dear God, we give You thanks for giving us another day. We ask Your special blessing upon the Members of this people's House. They face difficult decisions in difficult times with many forces and interests demanding their attention.

Give them generosity to enter into their work. May they serve You in the work they do as You deserve; give of themselves and not count the cost; fight for what is best for our Nation and not count the political wounds; toil until their work is done and not seek to rest; and labor without seeking any reward, other than knowing they are doing Your will and serving the people of this great Nation.

Bless them, O God, and be with them and with us all this day and every day to come. May all that is done be for Your greater honor and glory.
Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Texas (Mr. BURGESS) come forward and lead the House in the Pledge of Allegiance.

Mr. BURGESS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

SUPREME COURT TO DECIDE CONSTITUTIONALITY OF HEALTH CARE LAW

(Mr. BURGESS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURGESS. Madam Speaker, today the Supreme Court announced plans to take up a judicial review of the President's health care law, the so-called Patient Protection and Affordable Care Act. This was signed into law in March of 2010.

Now the Justices will consider if the Federal Government—indeed, the United States Congress—exceeded its authority by requiring that every American purchase health insurance by 2014.

The American people have made it very clear throughout this process: Give us the reforms that will address the problems, but don't tinker with what is already working well. What people wanted was not a 2,900-page bill that shatters the system that was working well for the vast majority of Americans.

What Congress should have done was to tackle the problems that Americans who need help were requesting. We could have addressed and accomplished reform in stand-alone bills at a much

lower cost. We've seen that the new health care law is not what the American people wanted, and I am encouraged that this law will now be heard before the highest court in the land, and I am hopeful for their expeditious and judicial removal of the Affordable Care Act.

SAM D. HAMILTON NOXUBEE NATIONAL WILDLIFE REFUGE

Mr. HASTINGS of Washington. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 588) to redesignate the Noxubee National Wildlife Refuge as the Sam D. Hamilton Noxubee National Wildlife Refuge.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 588

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REDESIGNATION OF THE NOXUBEE NATIONAL WILDLIFE REFUGE.

(a) IN GENERAL.—The Noxubee National Wildlife Refuge, located in the State of Mississippi, is redesignated as the “Sam D. Hamilton Noxubee National Wildlife Refuge”.

(b) BOUNDARY REVISION.—Nothing in this Act prevents the Secretary of the Interior from making adjustments to the boundaries of the Sam D. Hamilton Noxubee National Wildlife Refuge (referred to in this section as the “Refuge”), as the Secretary determines to be appropriate, to carry out the mission of the National Wildlife Refuge System in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd et seq.) and any other applicable authority.

(c) ADDITION OF LAND.—Nothing in this Act prevents the Secretary of the Interior from adding to the Refuge new land or parcels of the National Wildlife Refuge System, as the Secretary determines to be appropriate, to carry out the mission of the National Wildlife Refuge System in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd et seq.) and any other applicable authority.

(d) REFERENCES.—Any reference in any statute, rule, regulation, executive order, publication, map, paper, or other document of the United States to the Noxubee National Wildlife Refuge is deemed to refer to the Sam D. Hamilton Noxubee National Wildlife Refuge.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Washington (Mr. HASTINGS) and the gentlewoman from Guam (Ms. BORDALLO) each will control 20 minutes.

The Chair recognizes the gentleman from Washington.

GENERAL LEAVE

Mr. HASTINGS of Washington. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. HASTINGS of Washington. Madam Speaker, I yield myself such time as I may consume.

Under H.R. 588, the Noxubee National Wildlife Refuge in Mississippi will be renamed after the former Director of the U.S. Fish and Wildlife Service, Sam Hamilton, who recently died at the young age of 54. It's my understanding, Madam Speaker, that his first outdoors job was at the Noxubee Refuge, where he learned to band wood ducks and manage wildlife habitat.

I want to compliment my friend and colleague from Mississippi, Congressman GREGG HARPER, for introducing this no-cost legislation, which I think is a fitting tribute to Sam Hamilton and all that he stood for.

With that, I urge adoption of the measure, and I reserve the balance of my time.

Ms. BORDALLO. Madam Speaker, I yield myself such time as I may consume.

(Ms. BORDALLO asked and was given permission to revise and extend her remarks.)

Ms. BORDALLO. I rise in support of H.R. 588, which would redesignate the Noxubee National Wildlife Refuge as the Sam D. Hamilton Noxubee National Wildlife Refuge.

Madam Speaker, it is abundantly clear that everyone who worked with Director Hamilton during his three-plus decades of public service had the utmost respect and admiration for him. His lifelong commitment to conservation and restoration of some of the Nation's most important species and ecosystems started at Noxubee National Wildlife Refuge, and so it is fitting that this place is memorialized in his honor.

I commend my colleague, Congressman HARPER from Mississippi, for introducing this bill.

I reserve the balance of my time.

Mr. HASTINGS of Washington. Madam Speaker, I am very pleased to yield 3 minutes to the author of this legislation, the gentleman from Mississippi (Mr. HARPER).

Mr. HARPER. Madam Speaker, I rise today to speak in support of H.R. 588, legislation that I introduced to redesignate the Noxubee National Wildlife Refuge as the Sam D. Hamilton Noxubee National Wildlife Refuge. This legislation is a companion bill to S. 266, introduced by Mississippi Senator THAD COCHRAN, which passed the Senate on February 17, 2011. I want to thank Senator COCHRAN for his leadership on this and many other conservation matters.

H.R. 588 honors Mr. Sam D. Hamilton, a lifetime conservationist and a great man who spent 30 years at the Fish and Wildlife Service, ultimately rising to Director in 2009.

Established in 1940, the Noxubee National Wildlife Refuge consists of 48,000 acres in east-central Mississippi. Approximately 170,000 people visit the refuge annually and enjoy hunting, fishing, hiking, and other outdoor and recreational activities.

Mr. Hamilton had a long and personal history with the refuge. A native of Starkville, Mississippi, he recalled during his confirmation testimony that he caught his first fish at the refuge at the age of 5 and began his conservation career there as an employee at age 15. Sam called the refuge system the “finest collection of public lands and waters dedicated to fish and wildlife conservation in the world.”

Upon graduating from Mississippi State University, Sam started a career that spanned 30 years at the Fish and Wildlife Service. On September 1, 2009, Sam Hamilton was sworn in as the 15th Director of the U.S. Fish and Wildlife Service.

Regrettably, Sam passed away on February 20, 2010. Honoring Sam by renaming the refuge would be a tribute to his remarkable career and his commitment to conservation. The National Fish and Wildlife Foundation recently provided a grant to the Friends of Noxubee Refuge that will allow the name change to occur without the Federal Government's incurring these costs.

I would also like to thank Chairman HASTINGS and Subcommittee Chairman FLEMING for their support and look forward to working with them to ensure this legislation is signed into law to remember a man who devoted his life and career to the ideals formed during his early days at the Noxubee National Wildlife Refuge.

Ms. BORDALLO. Madam Speaker, again I urge my colleagues to support H.R. 588, which is a bill that would rename the Noxubee National Wildlife Refuge as the Sam D. Hamilton Noxubee National Wildlife Refuge.

I yield back the balance of my time.

Mr. HASTINGS of Washington. Madam Speaker, I too urge my colleagues to support the bill, and I yield back the balance of my time.

□ 1640

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Washington (Mr. HASTINGS) that the House suspend the rules and pass the bill, H.R. 588.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

JOHN J. COOK POST OFFICE

Mr. FARENTHOLD. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 2079) to designate the facility of the United States Postal Service located at 10 Main Street in East Rockaway, New York, as the "John J. Cook Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2079

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. JOHN J. COOK POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 10 Main Street in East Rockaway, New York, shall be known and designated as the "John J. Cook Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "John J. Cook Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. I would like to ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Madam Speaker, I yield myself such time as I may consume.

H.R. 2079, introduced by the gentlelady from New York (Mrs. MCCARTHY) would designate the facility of the United States Postal Service located at 10 Main Street in East Rockaway, New York, as the John J. Cook Post Office. This bill was introduced in June of this year and was favorably reported out of the Committee on Oversight and Government Reform on November 3.

John J. Cook served the community of East Rockaway, New York, for more than six decades, working as a letter carrier at the facility to be named after him. Serving his community for 60 years and 4 months, Mr. Cook went above and beyond to serve his neighbors and exemplified professionalism and courtesy each and every day on the job. Mr. Cook delivered mail on the same route for nearly all of his 60 years on the job; and according to many in his community, he continually touched the lives of countless people spanning generations.

According to one East Rockaway resident, he was "the best." He knew all of his customers very well and gave personalized service throughout his career. The resident went on to say that "they don't make people like him anymore."

Sadly, Mr. Cook passed away in 2005 at the age of 78. He left behind his wife, Roberta, and many who will miss this true public servant and model postal employee.

I urge all Members to join me in naming the postal facility in East Rockaway, New York, after John J. Cook; and I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

As the ranking member of the Committee on Oversight and Government Reform, I'm pleased to join my colleagues in supporting H.R. 2079, a bill to designate the facility of the United States Postal Service located at 10 Main Street in East Rockaway, New York, as the John J. Cook Post Office.

The measure before us was introduced by Representative CAROLYN MCCARTHY on June 1, 2011. In accordance with committee requirements, H.R. 2079 is cosponsored by all members of the New York delegation. It was reported out of the Oversight Committee by unanimous consent on November 3, 2011.

H.R. 2079 honors John J. Cook, a man who worked for more than 60 years with our Nation's postal service. Mr. Cook began working for what was then the United States Postal Department on January 8, 1944, after returning from service in World War II. From 1948 until his retirement in 2004, he walked the same route 6 days a week, with neither snow nor sleet nor rain preventing him from completing his appointed duties.

Mr. Cook was a fixture of the East Rockaway community, known and be-

loved by all. Even now, 7 years after his retirement, East Rockaway residents fondly recall Mr. Cook's kindness and empathy as a public servant. By all accounts, he went above and beyond the call of duty to serve his neighbors. His professionalism, courtesy, and dedication to the job made him a model letter carrier.

After 60 years and 4 months of faithful service to the United States Postal Service, Mr. Cook passed away in 2005 at the age of 78. Mr. Cook's career is a stunning example of what our dedicated postal workers contribute to our communities. Even as the postal service faces severe financial and operational strains, we must never forget that the service's success depends on the dedication of employees like John Cook.

Madam Speaker, I ask that we pass H.R. 2079 in recognition of Mr. John J. Cook's commitment to his work at the postal service, his compassion for his community, and his service to a grateful Nation. I also ask that we keep the example of his career in mind as we work together to craft what should be a bipartisan piece of legislation, to ensure that the institution Mr. Cook loved so much can continue to serve our Nation.

With that, I urge the passage of H.R. 2079, and I yield back the balance of my time.

Mr. FARENTHOLD. Madam Speaker, at this point I would like to withdraw my motion.

The SPEAKER pro tempore. The motion is withdrawn.

PRIVATE FIRST CLASS ALEJANDRO R. RUIZ POST OFFICE BUILDING

Mr. FARENTHOLD. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 3004) to designate the facility of the United States Postal Service located at 260 California Drive in Yountville, California, as the "Private First Class Alejandro R. Ruiz Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3004

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PRIVATE FIRST CLASS ALEJANDRO R. RUIZ POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 260 California Drive in Yountville, California, shall be known and designated as the "Private First Class Alejandro R. Ruiz Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Private First Class Alejandro R. Ruiz Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Madam Speaker, I yield myself such time as I may consume.

H.R. 3004, introduced by the gentleman from California (Mr. THOMPSON), would designate the facility of the United States Postal Service located at 260 California Drive in Yountville, California, as the Private First Class Alejandro R. Ruiz Post Office Building. This bill is cosponsored by the entire California State delegation and was reported by the Committee on Oversight and Government Reform on November 3.

Madam Speaker, it is altogether fitting and proper that we name this post office in honor of Private First Class Ruiz. Born on April 26, 1924, in Loving, New Mexico, PFC Ruiz enlisted in the Army during World War II and was deployed to the island of Okinawa in 1945. On April 28, 1945, PFC Ruiz and his platoon were ambushed by Japanese soldiers hiding in fortified bunkers. Under a hail of machine gun fire, with enemy grenades being lobbed from every direction, PFC Ruiz single-handedly killed 12 Japanese soldiers and completely destroyed the enemy machine gun nest.

In the face of overwhelming odds, PFC Ruiz acted with the utmost courage, risking his own life to save the lives of many of his fellow soldiers. While he was shot in the leg during the battle, PFC Ruiz and his squad leader were the only two men to escape death or serious injury that day. For his bravery and valor, Private First Class Ruiz was presented with the Medal of Honor by President Truman in June of 1946. He went on to continue his service in the Army, fighting in the Korean War and retired a master sergeant in the mid-1960s.

Sadly, Madam Speaker, on November 23, 2009, Private First Class Ruiz died of congestive heart failure at a hospital in Napa, California, at 85 years of age. I am truly grateful for the service of Private First Class Ruiz and all the men and women who put their lives on the line to protect and defend our country each day. I urge all Members to join me in strong support of this bill.

With that, I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

I am pleased to join my colleagues in supporting H.R. 3004, which designates the facility of the United States Postal

Service located at 260 California Drive in Yountville, California, as the Private First Class Alejandro R. Ruiz Post Office Building.

This measure was introduced on September 21, 2011, by our colleague from California, Representative MIKE THOMPSON, and has been cosponsored by all members of the California delegation. H.R. 3004 was favorably reported out of the House Oversight and Government Reform Committee on November 3, 2011.

Alejandro R. Ruiz served his country valiantly for nearly 20 years, reaching the rank of master sergeant by the time of his retirement.

□ 1650

Born in New Mexico, Mr. Ruiz served our Nation with exceptional courage and valor. During service in World War II, his unit, the 27th Infantry Division of the 165th Infantry, was ambushed by Japanese troops sheltered in a camouflaged pillbox on Okinawa. Private First Class Ruiz grabbed an automatic rifle and charged forward through a storm of bullets and grenades. As an enemy soldier rushed toward him, his weapon jammed. After clubbing the enemy with the butt of his rifle, Private First Class Ruiz grabbed a different rifle, charged the pillbox and killed 12 enemy soldiers stationed inside. He was awarded the Congressional Medal of Honor for his actions.

Mr. Ruiz died on November 23, 2009, of heart failure in Yountville, California. He was 85 years old.

I ask that we pass H.R. 3004 to honor Alejandro Ruiz' heroic actions in defense of our Nation as well as the long and productive life he lived thereafter.

I reserve the balance of my time.

Mr. FARENTHOLD. Madam Speaker, I have no further requests for time, so I continue to reserve the balance of my time.

Mr. CUMMINGS. I yield 3 minutes to the gentleman from California and sponsor of the bill, Congressman MIKE THOMPSON.

Mr. THOMPSON of California. I thank the gentleman from Texas for bringing this bill to the floor. I also thank the ranking member for his good work on this and for yielding me time to speak on this.

This is very near and dear to me. The California Veterans Home in Yountville, California, is in the heart of my district and my home county. I've known it my entire life, and it's been home to many brave men and women who have served courageously in our military. These are heroes and heroines who put their lives on the line for everything that we as Americans believe in and everything that we enjoy today.

There is a post office on that facility that provides mail service for 1,100 heroes and heroines at the California Veterans Home. These guys get their mail there every day. It saves them from having to make an impossible trek to the closest town. If they were forced to

do that, it would put them again in harm's way because it is a very dangerous route to travel; and in their advanced age, it makes no sense for them to have to do that. So this is a very, very important facility.

And here just recently, a very distinguished hero at the California Veterans Home, Alejandro Ruiz, passed away. The reason we want to name the post office after Alejandro Ruiz is because he earned a Congressional Medal of Honor. Now, it has already been noted on the floor the heroic activities of the day in question, but here's a man who, without any concern for his own safety, charged an enemy pillbox filled with enemy combatants, avoiding rifle fire, avoiding grenades, and took this responsibility on to save his comrades who were there fighting with him.

When his weapon became disabled, he returned, got another weapon, more ammunition, and again charged this pillbox. On the second attempt, he was able to reach the pillbox, get on top of it, and dispatch all those who were trying to kill his comrades. Had it not been for his activities, many Americans would have lost their lives that day, and the advancement of the American troops would have been stopped.

This man is a true hero, and that is probably redundant given he has received the Congressional Medal of Honor, and I think it is the appropriate tribute to name this postal facility after Alejandro Ruiz.

Mr. CUMMINGS. Madam Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FARENTHOLD. Madam Speaker, I urge all Members to support the passage of this bill, H.R. 3004, and I yield back the balance of my time.

Mr. BACA. Madam Speaker, I rise today in recognition of H.R. 3004, to designate a United States Post Office in Yountville, California as the "Private First Class Alejandro R. Ruiz Post Office Building."

Pfc. Ruiz was a former United States Army soldier who served our nation honorably between 1944 to 1964.

He received the Medal of Honor on June 26, 1946 for his actions in the Battle of Okinawa in the Ryukyu Islands during World War II.

President Harry S. Truman presented Pfc. Ruiz with the highest military decoration the United States has to offer.

Pfc. Ruiz's unit was stopped by a camouflaged enemy pillbox where these soldiers encountered machinegun fire and grenade attacks.

Pfc. Ruiz was able to destroy the pillbox under heavy fire and save the lives of many comrades.

He faced overwhelming odds and not only served his unit bravely, but also served his country admirably.

As a Member of Congress, and a veteran, I am proud to stand here before you because of the efforts of Pfc. Ruiz, and soldiers like him.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. FARENTHOLD) that the House suspend the rules and pass the bill, H.R. 3004.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CUMMINGS. Madam Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

OFFICER JOHN MAGUIRE POST OFFICE

Mr. FARENTHOLD. Madam Speaker, I move to suspend the rules and pass the bill (S. 1412) to designate the facility of the United States Postal Service located at 462 Washington Street, Woburn, Massachusetts, as the "Officer John Maguire Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 1412

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. OFFICER JOHN MAGUIRE POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 462 Washington Street, Woburn, Massachusetts, shall be known and designated as the "Officer John Maguire Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Officer John Maguire Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Madam Speaker, I yield myself such time as I may consume.

S. 1412, introduced by Senator JOHN KERRY of Massachusetts, would designate the facility of the United States Postal Service located at 462 Washington Street, Woburn, Massachusetts, as the "Officer John Maguire Post Office." The bill passed the Senate by unanimous consent on October 20 and was reported favorably by the Committee on Oversight and Government Reform on November 3.

Madam Speaker, John Maguire was born and raised in Woburn, Massachu-

setts, growing up in a home where his father was chief of police in Woburn for 15 years. After graduating from the University of Massachusetts-Lowell, Officer Maguire was sworn in as a Woburn police officer by his own father in June of 1977. Wearing badge No. 23, which had been his father's badge number, Officer Maguire worked for over three decades as a tireless public servant, protecting the people of Woburn.

On December 26 of last year, three armed men went into a department store in Woburn and proceeded to steal money and jewelry. Arriving on the scene to back up his fellow officers, Officer Maguire used his cruiser to block the gunmen who were fleeing on foot from the store. Exiting his vehicle, Officer Maguire and one of the suspects exchanged gunfire. Officer Maguire was able to kill the suspect; but, tragically, he was mortally wounded himself. Officer Maguire had celebrated his 60th birthday just 3 days prior to his death and was less than a year away from retirement.

Madam Speaker, it is altogether fitting and proper that we name this post office in Woburn for Officer John Maguire. And to Officer Maguire and all those who wear a badge and courageously protect and serve our towns, cities, and counties each and every day, we are eternally grateful for all that you do and all that you sacrifice. I urge all Members to join me in strong support of this bill.

I reserve the balance of my time.

Mr. CUMMINGS. Madam Speaker, I yield myself such time as I may consume.

I urge the body to pass this legislation.

I rise in strong support of S. 1412, which designates the facility of the United States Postal Service located at 462 Washington Street in Woburn, Massachusetts as the "Officer John Maguire Post Office."

The measure before us was introduced on July 25, 2011 by Senator JOHN KERRY.

Our distinguished colleague, Congressman EDWARD MARKEY of Massachusetts, also introduced a companion version of the underlying bill on July 25, 2011.

Both S. 1412 and H.R. 2640 have met the requirements for consideration established by the Oversight Committee and enjoy the support of all members of the Massachusetts delegation.

S. 1412 was reported out of Committee by voice vote on November 3, 2011.

John "Jack" Maguire was born on December 23, 1950 in the city of Woburn, Massachusetts.

He became a police officer for the Woburn Police Department in June 1977 and was sworn in by his own father, then-Police Chief Thomas Maguire. Throughout his career, he wore Badge Number 23—the same badge his father had worn.

Officer Maguire has been called a 'life-long student.'

He graduated from Austin Prep High School in 1969 and from the University of Massachusetts-Lowell in 1973.

In 1998, more than 20 years later, he earned a master's degree in business administration from Franklin Pierce College.

He went on to earn a second master's in science and criminal justice administration from Western New England College in 1999.

That same year, he earned a doctorate in philosophy from the American College of Metaphysical Theology.

Following the celebration of his 60th birthday late last year, Officer Maguire gave notice of his intention to retire in the fall of 2011.

On December 26, 2010, however, Officer Maguire found himself on duty in the middle of a New England blizzard.

Armed robbers threatened the employees of the Kohl's department store in Woburn and then fled the store with money and jewelry.

Responding to a fellow officer's call for assistance in a foot chase, Officer Maguire rushed to the scene and blocked an escape path with his cruiser.

He then got out of his vehicle to confront an assailant. The two exchanged gunfire, which killed the gunman and left Officer Maguire mortally wounded.

John Maguire was the first officer killed in the line of duty in Woburn, Massachusetts since the department was established in 1847.

I know the City of Woburn, the Commonwealth of Massachusetts, and the family of Officer Maguire are grateful for his service and sacrifice. We are truly indebted to men and women like him, who risk their lives to protect our communities on a daily basis.

Madam Speaker, I ask that we recognize Officer Maguire's devotion to his profession, his community, and our country's safety by passing S. 1412.

Mr. CUMMINGS. I yield 5 minutes to the sponsor of the companion bill, the gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. I thank the gentleman very much for yielding. I thank the gentleman from Texas as well. This is a very important bill.

I rise today in support of H.R. 2640, which I introduced in the House of Representatives, and Senate 1412, introduced by Senator KERRY and Senator BROWN, and that is to name the Woburn Post Office in honor of Officer John—his friends called him "Jack"—Maguire.

□ 1700

At 9 p.m. on December 26, 2010, during the height of a blizzard, two men invaded a Kohl's department store on Washington Street in Woburn, Massachusetts, to rob the jewelry counter as the employees prepared to close. As one robber entered the store, the second stood lookout on the outside, while a third man waited in a nearby getaway vehicle.

The robber in the department store was a career criminal with a long and violent record. He took a large amount of jewelry and fled outside the store into the driving snow. Eyewitnesses and store employees dialed 911. Officer Maguire arrived in the parking lot moments after the robbery. He saw an officer chasing a gunman on foot and drove his cruiser to a location to prevent the escape of the gunmen into a residential neighborhood in Woburn. Officer Maguire jumped out of his cruiser on Washington Street, and the

gunman opened fire on him. Shots were exchanged, and the gunman was killed. Unfortunately, Officer Maguire was shot four times in the torso and was transported to a local trauma center, where it was announced, unfortunately, that he had passed away.

Officer Maguire paid the ultimate price protecting the citizens of Woburn. We are incredibly grateful for his selfless acts that day, which capped 34 years of outstanding dedication to the safety of the people of Woburn.

On June 26, 1977, Officer Maguire began his career by being sworn in by his father, Police Chief Thomas Maguire, a longtime friend of mine, and he was so proud to follow in his father's footsteps. On December 26, 2010, he died wearing badge 23, which had been his own father's badge number. Just days before his death, he had celebrated his 60th birthday and given notice of his intention to retire in October of 2011.

A devoted husband and caring father, Officer Maguire is survived by his wife, Desiree, and children Bryan, Tara, and Sean. Officer Maguire died protecting the residents of Woburn from an armed gunman. He was the first officer killed in the line of duty from the Woburn Police Department since its inception in 1847. It was a tragedy for his family, for the Woburn Police Department, and the Commonwealth of Massachusetts to have lost such an honorable father, a courageous cop, and a hometown hero.

That is why, at the request of Mayor Scott Galvin of Woburn, Police Chief Richard Kelly, and former Police Chief Phillip Mahoney of the Woburn Police Department, I introduced H.R. 2640 to rename the Woburn Post Office in the memory of Officer John "Jack" Maguire. Renaming the post office located at 462 Washington Street—just a few hundred yards across the street from where Officer Maguire was shot and killed—in his honor is the least that we can do to pay tribute to this brave, dedicated first responder. We honor his service and sacrifice. We honor his life and his legacy. And we honor police officers everywhere who go to work every day to protect the safety and security of all citizens.

Today, we are considering an identical bill that was introduced by my colleagues Senator KERRY and Senator BROWN. I urge adoption of this bill, a bill to designate the facility of the United States Postal Service located at 462 Washington Street, Woburn, Massachusetts, as the "Officer John Maguire Post Office" to honor the legacy of a true hometown hero.

Mr. CUMMINGS. I have no further requests for time, and I yield back the balance of my time.

Mr. FARENTHOLD. Madam Speaker, I urge all Members to support the passage of Senate 1412, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr.

FARENTHOLD) that the House suspend the rules and pass the bill, S. 1412.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. FARENTHOLD. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

ARMY SPECIALIST MATTHEW
TROY MORRIS POST OFFICE
BUILDING

Mr. FARENTHOLD. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 298) to designate the facility of the United States Postal Service located at 500 East Whitestone Boulevard in Cedar Park, Texas, as the "Army Specialist Matthew Troy Morris Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 298

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ARMY SPECIALIST MATTHEW TROY MORRIS POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 500 East Whitestone Boulevard in Cedar Park, Texas, shall be known and designated as the "Army Specialist Matthew Troy Morris Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Army Specialist Matthew Troy Morris Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Madam Speaker, I yield myself such time as I may consume.

With the observance of Veterans Day this past Friday, it is timely and fitting that we name this post office in Cedar Park for Army Specialist Matthew Troy Morris, a Texan and a true American hero who gave his life courageously defending freedom.

I would now like to yield such time as he may consume to my distinguished colleague and friend from the great State of Texas, the sponsor of this legislation, Mr. CARTER.

Mr. CARTER. I thank the gentleman for yielding.

Mr. Speaker, I rise today in strong support of H.R. 298, a bill that would designate the United States Post Office located at 500 East Whitestone Boulevard in Cedar Park, Texas, as the Army Specialist Matthew Troy Morris Post Office Building.

Mr. Speaker, I have the high honor of representing the brave men and women of Fort Hood, Texas, the largest military installation in the world. Every day that I have the opportunity to serve in Congress, I do so knowing that my number one responsibility is to give our men and women in uniform the support and resources they need to be successful. Each time I visit Fort Hood, I see America's finest—the soldiers who put it all on the line to allow us to live in the greatest country on Earth. Only 3 days ago, we celebrated Veterans Day, a somber reminder that freedom is not free. And today, here on the House floor, we remember those who gave the ultimate sacrifice for our country, another reminder to all of us that freedom is not free.

Representing Fort Hood, Texas, also comes with the sober reminder of the sacrifice that our young men and women in the military and their families make to the cause of freedom. Since September 11, 2001, 384 Army soldiers have been killed in action from the 31st District in Texas, the highest number of any congressional district in the country. Central Texans and their families have sacrificed much and know that freedom is not free.

Today, we celebrate the life and remember one of those patriots who served our country and gave his all, Army Specialist Matthew Troy Morris. Matthew Morris was born on July 16, 1984, in Fairfax, Virginia. He attended Fishburne Military School in Waynesboro, Virginia, where he earned an ROTC leadership award. He later attended Cedar Park High School in Cedar Park, Texas, and went on to score in the 90th percentile on each section of the General Education Development test.

Specialist Morris enlisted in the United States Army in December 2005 and attended basic combat training at Fort Jackson, South Carolina, followed by advanced individual training at Aberdeen Proving Ground in Maryland. He graduated from AIT in June of 2006 as a power generation equipment mechanic and was assigned to Howitzer Battery, 2nd Squadron, and the 3rd Armored Cavalry Regiment at Fort Hood, Texas.

□ 1710

Specialist Morris served with the 3rd Armored Cavalry Regiment, 1st Cavalry Division in Balad. Despite the dangerous nature of this work, he remained devoted to his mission; and the heroism he demonstrated in Iraq earned him the Bronze Star, Purple Heart, Army Good Conduct Medal, National Defense Service Medal, Iraq

Campaign Medal, Global War on Terrorism Service Medal, Army Service Ribbon, Overseas Service Ribbon, and Combat Action Ribbon.

Matthew Troy Morris was killed on April 6, 2008, when his vehicle encountered a makeshift bomb in Balad, Iraq. Matthew was only 23 years old. He is the oldest of four children, leaving behind Cory, Katie and Sam. Matthew's parents are Lisa and Glenn Morris of Cedar Park, Texas. His father, Glenn, served our country in the Vietnam war, and we should thank him for his service.

Matthew was engaged to be married to Ms. Julia Richardson. He is survived by his grandparents, Nancy Jackson and Joane Walters; his aunt, Diane Afflerbach; and uncles John and Brian Walters. The sacrifice our military families make often goes unnoticed, and I would like the entire Morris family to know that we will never forget Matthew and the pain that they have endured at his loss. Our country and this House have not forgotten Matthew, and we are proud to celebrate his life on this day.

Matthew Morris exemplified the highest ideals of the United States Armed Forces. And although his passing left a void in the lives of those who were fortunate enough to know him, they will forever carry the memories of this heroic young man close to their hearts.

Mr. Speaker, I urge the passage of H.R. 298 and ask my colleagues to join in honoring an American patriot and hero, Army Specialist Matthew Troy Morris of Cedar Park, Texas.

On Saturday, I was at the dedication of the Veterans Memorial in Cedar Park, which holds the likeness of this young specialist, and there were hundreds of citizens—probably 500 people—there to celebrate that memorial.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 298, a bill to designate the facility of the United States Postal Service located at 500 East Whitestone Boulevard in Cedar Park, Texas, as the "Army Specialist Matthew Troy Morris Post Office Building."

The measure before us was introduced by Congressman JOHN CARTER. In accordance with our committee requirements, H.R. 298 has been cosponsored by all the members of the Texas delegation. It was reported favorably by the House Oversight and Government Reform Committee on November 3, 2011.

Army Specialist Matthew Troy Morris was born on July 16, 1984, just across the Potomac River in Fairfax, Virginia. He was killed while serving in Balad, Iraq, on Sunday, April 6, 2008, after only 23 short years of life.

Specialist Morris was a loving son to his parents, Lisa and Glenn Morris, and a caring brother to his siblings Cory, Katie and Sam. Friends and family describe him as a dedicated soldier and an energetic and inspiring young man.

Matthew Morris joined the Army immediately after high school and was assigned to the 2nd Squadron of the 3rd Armored Cavalry Regiment based in Fort Hood, Texas. While serving in Iraq, he earned the Bronze Star, the Purple Heart, the National Service Defense Medal, and several other decorations for heroism. Specialist Morris was a talented young man whose courage and sacrifice will forever be remembered.

Mr. Speaker, I ask that we pass the underlying bill to recognize Specialist Morris' valor.

Having no requests for time, Mr. Speaker, I yield back the balance of my time.

Mr. FARENTHOLD. Mr. Speaker, I yield myself such time as I may consume.

I am truly grateful for the brave and heroic service of Specialist Morris and the countless other veterans who sacrifice their time, the families that sacrifice their time, and the bravery and courage of all our veterans in serving our country and protecting our freedom. It is true that freedom is not free; and veterans like Specialist Matthew Troy Morris, whom we're proposing to name this post office after, are perfect examples of the bravery and courage of the American military.

Specialist Morris was born on July 16, 1984, in Fairfax, Virginia. He later attended Cedar Park High School in Cedar Park, Texas.

Specialist Morris was in Iraq, serving as part of the Army's 2nd Squadron, 3rd Armored Cavalry Regiment, 1st Cavalry Division based out of Fort Hood. Tragically, on April 6, 2008, at just 23 years of age, Specialist Morris was killed when the vehicle he was riding in hit an improvised makeshift bomb. Specialist Morris left behind his parents, three siblings, a fiancée, and dozens of other family and friends. For the bravery, courage, and heroism he displayed, Specialist Morris was awarded the Bronze Star, Purple Heart, and National Service Defense Medal.

Mr. Speaker, our Nation is eternally grateful for his sacrifice, and I urge all Members to join me in strong support of this bill.

I yield back the balance of my time.

The SPEAKER pro tempore (Mr. WESTMORELAND). The question is on the motion offered by the gentleman from Texas (Mr. FARENTHOLD) that the House suspend the rules and pass the bill, H.R. 298.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. FARENTHOLD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

SERGEANT ANGEL MENDEZ POST OFFICE

Mr. FARENTHOLD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2422) to designate the facility of the United States Postal Service located at 45 Bay Street, Suite 2, in Staten Island, New York, as the "Sergeant Angel Mendez Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2422

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SERGEANT ANGEL MENDEZ POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 45 Bay Street, Suite 2, in Staten Island, New York, shall be known and designated as the "Sergeant Angel Mendez Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Sergeant Angel Mendez Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Mr. Speaker, I yield such time as he may consume to the gentleman from New York (Mr. GRIMM).

Mr. GRIMM. Mr. Speaker, I rise today to honor a brother, a member of the United States Marine Corps. He gave his life for his country and fellow marines during the Vietnam war.

Sergeant Angel Mendez was born to Puerto Rican American parents but was raised in the Mission of the Immaculate Virgin, an orphanage located in Mount Loretto, in my hometown in Staten Island, New York.

When Angel graduated from high school in 1964, he volunteered to join the United States Marine Corps. Angel Mendez was assigned to Company Fox-trot, 2nd Battalion, 7th Marines, 1st Marine Division as a corporal and often said he found a family in the United States Marine Corps. His company participated in Operation DeSoto in Duc Pho, Vietnam.

During a search and destroy mission on March 16, 1967, Mendez and his company were taken under intense Viet Cong fire. Half of the company sat across an open rice paddy separated by enemy fire. Among them was the platoon commander, Lieutenant Ronald Castille, who had been shot in his right

leg; and without hesitation, Sergeant Mendez volunteered to lead a small squad to help his fellow marines and move Lieutenant Castille to safety.

Castille remembers Mendez shouting, "I'm coming, Lieutenant, I'm coming," as he crossed the open paddy, providing cover fire for the platoon commander and other wounded marines. Mendez shielded Lieutenant Castille with his own body as he dressed the wound on his leg and attempted to carry the commander to safety, but it was at this point that he was shot in the shoulder. Two marines came to aid Mendez in carrying Lieutenant Castille to safety, but he refused to let go of the lieutenant and chose to directly expose himself to enemy fire while still carrying Castille's legs. Mendez was shielding Castille and the other marines with his own body when he was mortally wounded.

Lieutenant Castille survived the attack, which occurred on his 23rd birthday, and later went on to become the district attorney of Philadelphia and chief justice of the Pennsylvania Supreme Court.

□ 1720

Sergeant Angel Mendez is a true hero who gave his life protecting fellow marines; and in honor of his bravery, he was posthumously promoted to sergeant and awarded the Navy Cross, the second highest award for valor a marine can receive.

Angel Mendez is survived by his brother, Ismael, and sister-in-law, Aida, who have long sought recognition for Angel's heroic actions on that day.

I believe it is important for Congress to honor the sacrifice of my fellow marine. I urge my colleagues to support H.R. 2422 in honor of Sergeant Angel Mendez, and designate the facility of the United States Postal Service located at 45 Bay Street in Staten Island, New York, as the "Sergeant Angel Mendez Post Office."

Mr. CUMMINGS. Mr. Speaker, I yield 5 minutes to the gentleman from Puerto Rico (Mr. PIERLUISI).

Mr. PIERLUISI. I want to commend my colleague, Congressman GRIMM, for introducing this bill to name a post office in his Staten Island district after Sergeant Angel Mendez, who, at age 20, in Vietnam, laid down his life for his fellow marines, earning the Navy Cross for his actions.

Sergeant Mendez died far too young, but his short life was filled with greatness. With this bill, Congressman GRIMM, a Devil Dog himself, honors Sergeant Mendez, the Marine Corps, and this country.

The bond between New York and Puerto Rico is deep and strong. Sergeant Mendez' parents were born in Puerto Rico and, like so many island residents of their generation, moved to New York in search of a better life for themselves and their children.

How Sergeant Mendez came to possess such character and courage will never be known; and, in fact, I am

moved by the description just made by Congressman GRIMM about his valor in Vietnam. But on that day in 1967 when he was mortally wounded on a battlefield thousands of miles from Staten Island, this New York son of Puerto Rican heritage became an American hero. Today, thanks to Congressman GRIMM, we pay tribute to his strength and his sacrifice, and engrave his name in stone.

I am now, more than ever, a proud Puerto Rican American remembering the life of Sergeant Angel Mendez. I urge my colleagues to support H.R. 2422.

Mr. FARENTHOLD. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2422, introduced by the gentleman from New York (Mr. GRIMM), designating the postal facility at 45 Bay Street, Suite 2, in Staten Island as the "Sergeant Angel Mendez Post Office," was introduced in July and favorably reported by the Oversight and Government Reform Committee on November 3.

Stories like that of Sergeant Mendez demonstrate the bravery and courage of all those who have served or are serving in our Armed Forces. I urge all Members to join me in strong support of this bill, and I yield back the balance of my time.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

I am very pleased to join my colleagues in supporting H.R. 2422. Without a doubt, Sergeant Angel Mendez was a very courageous young man. He gave a lot for his country, and he certainly deserves this rich honor.

The measure before us was introduced by Representative MICHAEL GRIMM on July 6, 2011. It has been co-sponsored by all members of the New York delegation and was reported favorably to the House by the Committee on Oversight and Government Reform on November 3, 2011.

This legislation commemorates the bravery and the sacrifice of Sergeant Angel Mendez.

As a child, Sergeant Mendez was raised in an orphanage on Staten Island.

Upon his graduation from high school in 1964, he enlisted in the United States Marine Corps.

During his service with Company F, 2nd Battalion, 7th Marines, 1st Marine Division, Sergeant Mendez was sent to Vietnam.

While on a search and destroy mission on March 16, 1967, Mendez and his company were ambushed by the Viet Cong, and his platoon's lieutenant was injured in a rice paddy some 100 yards away from where Sergeant Mendez was exchanging fire with the enemy.

Sergeant Mendez rushed to his lieutenant's aid and shielded him with his own body as he dressed his wounds. While in the process of carrying his lieutenant to safety, Sergeant Mendez was shot twice and suffered a fatal wound.

He was only 20 years old at the time of his death in battle.

Mr. Speaker, H.R. 2422 honors the ultimate sacrifice made by Sergeant Angel Mendez by renaming the Bay Street Staten Island Post Office in his name.

I urge all of my colleagues to pass this legislation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. FARENTHOLD) that the House suspend the rules and pass the bill, H.R. 2422.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. FARENTHOLD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

TOMBALL VETERANS POST OFFICE

Mr. FARENTHOLD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2660) to designate the facility of the United States Postal Service located at 122 North Holderrieth Boulevard in Tomball, Texas, as the "Tomball Veterans Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2660

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TOMBALL VETERANS POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 122 North Holderrieth Boulevard in Tomball, Texas, shall be known and designated as the "Tomball Veterans Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Tomball Veterans Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2660, introduced by the gentleman from Texas (Mr. MCCAUL), would designate the facility of the United States Postal Service at 122 North Holderrieth Boulevard in Tomball, Texas, as the "Tomball Veterans Post Office." The bill is cosponsored by the entire Texas delegation,

and, Mr. Speaker, I am proud to be an original cosponsor myself.

There's no way a grateful nation can adequately express our thanks to those who serve. However, naming this post office in Tomball after those who serve is a small but fitting gesture to the brave men and women who are the reason this country is free.

I commend my colleague from Texas for introducing this legislation.

With that, Mr. Speaker, I would like to yield such time as he may consume to my distinguished colleague and friend from the great State of Texas, the sponsor of this bill, Mr. McCAUL.

Mr. McCAUL. I thank my good friend and colleague from Texas (Mr. FARENTHOLD) for his support of my legislation.

Mr. Speaker, I rise in support of our Nation's veterans and in support of this legislation, which would designate the post office located at 122 North Holderrieth Boulevard in Tomball, Texas, as the "Tomball Veterans Post Office."

It is appropriate, Mr. Speaker, that on the first legislative day after Veterans Day that this House would honor its veterans for their sacrifice and fidelity to our country. I cannot think of a more deserving community than Tomball, Texas, in my district.

Mr. Speaker, I just returned this weekend from visiting our troops in Iraq and Afghanistan and meeting with the President of Pakistan. I also visited our wounded warriors at Landstuhl Regional Medical Center in Germany on Veterans Day.

I'm pleased to report that our men and women in uniform are doing tremendous work and have made extraordinary progress in the war on terror. I was also humbled by our troops' sacrifice and unwavering commitment to our mission.

In Afghanistan, I witnessed the fruits of our soldiers' labor. For the first time, women are being educated and Afghans are enjoying freedoms, the likes of which they could only dream about under the Taliban's brutal regime.

In Iraq, where Saddam Hussein and his henchmen once brutalized the Iraqi people and silenced their voices, democracy is beginning to take shape. Today the Iraqi people are free to express their diverse points of view and engage in the same kind of political discourse that we are engaged in here right now in this very Chamber.

It is because of our soldiers that this is possible; that the American people can be safe from terror and tyranny; and that others around the world, for the first time in their lives, experience the freedoms which we so often take for granted.

I am so proud of our soldiers and what they have accomplished—soldiers like Marine Corporal Jeffrey Johnson of Tomball, who lost his life in Afghanistan in 2010 defending America and what our country stands for in the world.

Last year I attended Jeffrey's funeral in the small town of Tomball, where over 30,000 people—30,000 grateful Americans—lined up in the streets to show their respect for a true American hero. This unbelievable outpouring of support demonstrated that patriotism and love of country are still alive and well in America.

It's thanks to veterans like Jeffrey Johnson and so many others from Texas and across this great country that this is possible; and, for that, we must honor our men and women who have served in uniform.

That is also why I'm active with the Veterans History Project at the Library of Congress, which preserves and makes accessible the personal accounts of American war veterans so that future generations may hear directly from veterans and better understand the realities of war.

My father, a World War II veteran who flew bombing missions over Nazi Germany, always reminded me that his generation, often called the Greatest Generation, handed down a better America to my generation.

□ 1730

That same can be said for today's veterans, such as Tomball heroes like Jeffery Johnson, whose sacrifices are building a better America today.

And so to all of America's veterans, let me say on behalf of this distinguished body, thank you for your service, and I urge my colleagues to join me in passing this legislation.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of H.R. 2660, a bill to designate the facility of the United States Postal Service located at 122 North Holderrieth Boulevard in Tomball, Texas, as the "Tomball Veterans Post Office." This past Friday, our Nation celebrated and honored the heroic service of all our Nation's veterans. Continuing that celebration, I urge that we enact H.R. 2660, introduced by Congressman MICHAEL GRIMM. This legislation is supported by all of the members of the Texas delegation, and was considered and reported favorably by the Committee on Oversight and Government Reform on November 3, 2011.

According to the Department of Veterans Affairs, an estimated 1.7 million of our Nation's 22.5 million veterans live in the State of Texas. The legislation before us will commemorate the service of veterans of Tomball, Texas, by naming their local post office in their honor.

Such commemoration is but a small token of the debt our Nation owes its veterans. At a time when veterans returning from the wars in Iraq and Afghanistan face higher unemployment rates than the general population and when our veterans urgently need a range of services as they recover from both physical and psychological wounds, we must make it our highest priority to ensure our veterans have

quick and easy access to all the services and benefits they have earned by the commitments they have made and kept to our Nation.

That said, Mr. Speaker, let us come together in support of dedicating the Tomball, Texas, Post Office to its hometown veterans by passing H.R. 2660.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. FARENTHOLD. Mr. Speaker, I join my colleagues in urging strong support for this bill honoring our heroic veterans. There are never enough ways we can thank the veterans who served so bravely this country.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. FARENTHOLD) that the House suspend the rules and pass the bill, H.R. 2660.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CUMMINGS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

TROOPER JOSHUA D. MILLER POST OFFICE BUILDING

Mr. FARENTHOLD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2415) to designate the facility of the United States Postal Service located at 11 Dock Street in Pittston, Pennsylvania, as the "Trooper Joshua D. Miller Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2415

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TROOPER JOSHUA D. MILLER POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 11 Dock Street in Pittston, Pennsylvania, shall be known and designated as the "Trooper Joshua D. Miller Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Trooper Joshua D. Miller Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. FARENTHOLD) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. FARENTHOLD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within

which to revise and extend their remarks and to include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. FARENTHOLD. Mr. Speaker, I yield myself such time as I may consume.

H.R. 2415, introduced by the gentleman from Pennsylvania (Mr. BARLETTA) would designate the facility of the United States Postal Service located at 11 Dock Street in Pittston, Pennsylvania, as the "Trooper Joshua D. Miller Post Office Building."

This bill is cosponsored by the entire Pennsylvania State delegation, and was favorably reported by the Committee on Oversight and Government Reform on the 3rd of November.

Mr. Speaker, while we've considered multiple bills this afternoon to designate postal facilities for fallen military heroes, H.R. 2415 gives us the opportunity to honor those who wear a different kind of uniform—our country's law enforcement officers.

Specifically, this legislation would name the post office in Pittston, Pennsylvania, for Joshua Miller, a Pennsylvania State trooper who was shot and killed in the line of duty on June 7, 2009.

A veteran of the Marine Corps, Trooper Miller was attempting to save a 9-year-old boy from a man who had kidnapped a child at gunpoint when he was tragically shot by the suspect. For going above and beyond a police officer's duty to protect and serve, I thank Trooper Miller and all of those who wear the badge on a daily basis for their selfless service and dedication to our community.

With that, Mr. Speaker, I would now like to yield as much time as he may consume to my distinguished colleague from the State of Pennsylvania, the sponsor of this legislation, Mr. BARLETTA.

Mr. BARLETTA. I thank the gentleman from Texas for those kind remarks.

Mr. Speaker, I rise tonight to honor the life and remember the sacrifice of Pennsylvania State Police Trooper Joshua D. Miller of Pittston.

Trooper Miller was shot and killed on June 7, 2009, while attempting to apprehend a kidnapper who took a 9-year-old boy from his mother at gunpoint and fled. As he and his partner were trying to apprehend the suspect, Trooper Miller was shot in the upper chest and in the leg. While they returned fire, another State trooper and a local law enforcement officer were able to smash the window in the kidnapper's vehicle, grab the 9-year-old boy and carry him to safety.

Trooper Miller was flown to a hospital, but he died from his wounds.

Josh was born on June 13, 1974, a son of Walter Miller of Pittston and Peggy Miller of Plymouth. Josh graduated from Pittston Area High School, class

of 1992. He enlisted in the United States Marine Corps in 1993, serving honorably and achieving the rank of corporal before his discharge.

Upon separation from active duty, Josh worked at the Monroe County Correctional Facility. He enrolled at Lackawanna Junior College and attended the Act 120 course. Upon graduation, Josh joined the Tunkhannock Borough Police Department in 1999. He worked there until September of 2002, when he joined the Pennsylvania State Police.

Trooper Miller first worked at the Bethlehem barracks, then at the Swiftwater barracks in Monroe County. While there, he was selected to be a member of an elite unit that conducted aggressive patrols. Trooper Miller took pride in training new troopers and hoped to instill his work ethic in them.

In 2001, Josh met his wife, Angela, and they were married in October of 2005. He had three daughters: Justine, Breana, and Joslyn.

After his death, thousands attended his viewing. More than 1,700 law enforcement officers from across the country attended his funeral. During the service, then-Governor Ed Rendell awarded Trooper Miller a posthumous Medal of Honor.

On the day he was shot and killed in the line of duty, Trooper Miller sent an email to a colleague. In it he wrote, "I will not let anything happen to my brothers on my watch."

After years of dedicated service as a U.S. Marine, as a law enforcement officer, and as a Pennsylvania State Police trooper, Trooper Miller ended his final watch on June 7, 2009. He died while saving a boy from a kidnapper with a gun. He died serving his community, his commonwealth, and his country.

That is why I encourage you to support H.R. 2415 and name the United States Postal Service facility at 11 Dock Street, Pittston, Pennsylvania, the "Trooper Joshua D. Miller Post Office Building."

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

I rise in strong support of H.R. 2415, a bill to designate the facility of the United States Postal Service located at 11 Dock Street in Pittston, Pennsylvania, as the "Trooper Joshua D. Miller Post Office Building."

The measure before us was authored by Congressman LOU BARLETTA, and cosponsored by all of the members of the Pennsylvania delegation.

H.R. 2415 was favorably reported out of the House Oversight and Government Reform Committee by unanimous consent on November 3, 2011.

□ 1740

Pennsylvania State Trooper Joshua D. Miller spent his life serving his country, the Commonwealth of Pennsylvania, and his local community.

Born to Walter and Peggy Miller in 1974, Trooper Miller enlisted in the Marine Corps in 1993. Upon discharge, he returned to Pennsylvania and joined

the Tunkhannock Borough Police Department before becoming a Pennsylvania State trooper.

Trooper Miller was a member of an elite unit of troopers assigned to handle the most dangerous cases. He made the ultimate sacrifice in the line of duty while trying to rescue a 9-year-old boy who had been kidnapped at gunpoint and was being held hostage. The young boy was ultimately released and returned safely to his family.

On the day of his death, Trooper Miller wrote in an email to a colleague: "I will not let anything happen to my brothers on my watch." His life exemplified his commitment to serving his community and protecting his fellow officers.

Mr. Speaker, I ask that we pass H.R. 2415 to recognize the life and sacrifice of Pennsylvania State Trooper Joshua D. Miller.

I have no requests for time, and I yield back the balance of my time.

Mr. FARENTHOLD. Mr. Speaker, I urge my colleagues to join me in strong support of H.R. 2415.

I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. FARENTHOLD) that the House suspend the rules and pass the bill, H.R. 2415.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CUMMINGS. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

ALTO LEE ADAMS, SR., UNITED STATES COURTHOUSE

Mr. DENHAM. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1791) to designate the United States courthouse under construction at 101 South United States Route 1 in Fort Pierce, Florida, as the "Alto Lee Adams, Sr., United States Courthouse".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1791

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The United States courthouse under construction at 101 South United States Route 1 in Fort Pierce, Florida, shall be known and designated as the "Alto Lee Adams, Sr., United States Courthouse".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the

United States to the United States courthouse referred to in section 1 shall be deemed to be a reference to the "Alto Lee Adams, Sr., United States Courthouse".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. DENHAM) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from California.

GENERAL LEAVE

Mr. DENHAM. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1791.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. DENHAM. I yield myself such time as I may consume.

H.R. 1791 would designate the United States courthouse currently under construction at 101 South United States Route 1 in Fort Pierce, Florida, as the Alto Lee Adams, Sr., United States Courthouse.

I would like to take this opportunity to thank the gentleman from Florida (Mr. ROONEY) for introducing this bipartisan legislation. I also want to thank the 21 cosponsors from the State of Florida for supporting this bill.

Chief Justice Alto Lee Adams, Sr., honorably served his community and the State of Florida throughout his life.

Chief Justice Adams was born in 1899 and was raised on a farm in Walton County, Florida. After graduating from the University of Florida College of Law in 1921, he practiced law in Fort Pierce, Florida, from 1924 to 1938. He was then appointed as circuit court judge for St. Lucie County.

After Floridians adopted an amendment to add a seventh justice on the State supreme court in 1940, Governor Fred Cone appointed Chief Justice Adams to the newly created seat. Chief Justice Adams served on the court from 1940 until 1951, and he was chief justice from 1949 until 1951. He sat on the bench again from 1967 until 1968.

Outside of his judicial career, Chief Justice Adams was active in his community. In 1937 he served as the president of the Florida State Elks Association. From '37 to '38, he served as the vice chair of the State welfare board.

Chief Justice Adams also devoted time to local business interests in St. Lucie County, including citrus groves and Bass Motors. He began a cattle ranch in 1937, which is still run by the Adams family. The ranch now encompasses over 65,000 acres in three counties.

I believe it's appropriate that we honor Chief Justice Adams's dedicated service for community and the State of Florida. I support passage of this legislation and urge my colleagues to do the same.

I reserve the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 1791 and am pleased today to speak in support of the bill that names the courthouse located in Fort Pierce, Florida, as the Alto Lee Adams, Sr., United States Courthouse.

I may seem redundant because my colleague has already mentioned most of the accomplishments of Judge Adams—the fact that he was born in 1899 in Florida and was in the U.S. Navy; that he graduated from the University of Florida Law School in 1921 and began legal practice in Fort Pierce in 1924; then from practicing law for nearly 14 years, Judge Adams was appointed, as was pointed out, to the Florida State Circuit Court in 1938. That was 2 years after I was born. After serving as a circuit court judge, he served as a member of the Florida Supreme Court, again, from 1940 to 1951 and then from 1967 to 1968 and was recognized as the first graduate of the University of Florida to serve as a justice and later chief justice of the Florida Supreme Court.

He was very well noted for his short, clear opinions as well as the several books he published and, of course, the legal articles he authored. In 1974 he was awarded the honor of being a distinguished alumnus of the University of Florida.

In addition to his judicial duties, he also served as an active member of his community, serving, as was pointed out, as the president of Florida State Elks Association and also as the vice chair of the State welfare board.

Because of his exemplary career in the public service, both in the military and the Florida Supreme Court, I urge my colleagues to join us in supporting H.R. 1791, which does name the U.S. courthouse at 101 South United States Route 1 in Fort Pierce, Florida, as the Alto Lee Adams, Sr., United States Courthouse.

I reserve the balance of my time.

Mr. DENHAM. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. ROONEY).

Mr. ROONEY. I thank the gentleman from California.

Mr. Speaker, today is a great day for the residents of Fort Pierce, Florida, and the Treasure Coast. Over two decades ago, the late Congressman Tom Lewis and his district director, Ann Decker, started the long process of making the courthouse a reality. The countless hours of dedication and work by those who followed him are now being rewarded with the construction of a new courthouse. I was greatly honored that one of my first official events as Congressman was to participate in the historic groundbreaking for this building.

I introduced this legislation to honor the distinguished life and career of the late Florida Supreme Court chief justice, Alto Lee Adams, by naming the new courthouse in his memory.

This courthouse will fill a vital role for the city of Fort Pierce, bringing much-needed jobs and investment to the community with this greatly needed new Federal courthouse. It is only fitting that the courthouse be named in honor of a man who himself gave so much to his community and the legal community of the State of Florida.

□ 1750

Chief Justice Alto Lee Adams attended the University of Florida College of Law in 1921. As was mentioned, he practiced law in Fort Pierce. He was appointed circuit court judge for St. Lucie County and was appointed to the State supreme court in 1940 by then-Governor Fred P. Cone. He served as a justice on the Florida supreme court from 1940 to 1951 and chief justice from 1949 to 1951.

Chief Justice Adams believed it was important to give back to his community. His service to St. Lucie County served as an example to his children and to those who knew him. Mr. Speaker, I can say, having spoken to some of the Adams family before I took the floor today, they are thrilled that this bill is being brought up as we speak.

In addition to his distinguished legal career, Justice Adams started a successful cattle ranch named the Adams Ranch in St. Lucie County—they just had their bull auction last week—and it is still run by the Adams family.

Judge Adams set a standard for integrity and community service that lives on today, and I believe it's only fitting that this new courthouse is named in his honor. I am proud to sponsor this bill, and I ask my colleagues for their support in naming this courthouse.

Mrs. NAPOLITANO. Mr. Speaker, having no requests for time, I yield back the balance of my time.

Mr. DENHAM. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. DENHAM) that the House suspend the rules and pass the bill, H.R. 1791.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mrs. NAPOLITANO. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 5 o'clock and 51 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1830

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. WESTMORELAND) at 6 o'clock and 30 minutes p.m.

PERMISSION TO FILE CONFERENCE REPORT ON H.R. 2112, CONSOLIDATED AND FURTHER CONTINUING APPROPRIATIONS ACT, 2012

Mr. ROGERS of Kentucky. Mr. Speaker, I ask unanimous consent that the managers on the part of the House have until midnight tonight, November 14, to file the conference report to accompany H.R. 2112.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

SMALL BUSINESS TAX REFORM

(Mr. OLSON asked and was given permission to address the House for 1 minute.)

Mr. OLSON. Madam Speaker, small businesses account for nearly all the new job creation in America and nearly half of America's workforce. Yet in this economy, small business owners are struggling just to stay afloat. Most small businesses file taxes as individuals, so any tax hike, like the one proposed by the White House, or the expiration of previous tax cuts, will kill growth and American jobs.

We need a simpler tax code. Our current Tax Code is so complex that America's businesses spend roughly \$74 an hour on paperwork for compliance. That's real money, money that could give jobs to thousands of Americans struggling to take care of their families.

House Republicans have a plan to fix the Tax Code to help job creators by giving them more time, more money, and more resources to invest in expansion and job creation.

Madam Speaker, America's job creators deserve a simpler and more equitable tax system, and House Republicans plan to give them exactly what they deserve.

BLUESMAN BOBBY RUSH HONORS VETERANS

(Mr. COHEN asked and was given permission to address the House for 1 minute.)

Mr. COHEN. Madam Speaker, this weekend many of us, probably all of us, honored our veterans. And they deserve the honors that we gave them. The Senate honored them with the passage of a COLA increase, which I hope our House will, too—and I'm sure it will—in a bipartisan fashion.

In Memphis, I had a Veterans Day lunch, and so did our city mayors, and we honored Bobby Rush. Not the BOBBY RUSH of the United States Congress, but Bobby Rush, the great blues guitarist, singer, and guitar player; a blues legend in Memphis who has done much to honor veterans throughout this country. Bobby Rush has been the International Ambassador of the Blues, named by the State of Tennessee, and has traveled to Iraq, Kuwait, and Afghanistan to perform for our troops. He holds an annual Red, White and Blues Day Jam in Memphis to honor our veterans. When he visited Iraq, Bobby Rush said: I was just overwhelmed to witness the very real level of commitment and sacrifice they go through so that people like me and you can live our lives without feeling threatened. It is something that must not be forgotten or taken for granted.

So as I did in Memphis last weekend and I do again today, I thank our veterans, and I thank Bobby Rush for taking his talents to entertain our troops and honor our veterans and be a great American.

PROVIDING HOPE FOR THOSE WITH PANCREATIC CANCER

(Mr. PAULSEN asked and was given permission to address the House for 1 minute.)

Mr. PAULSEN. Madam Speaker, I rise today for the 44,030 Americans who will be diagnosed with pancreatic cancer this year and also for the 600 Minnesotans in my own community who, sadly, lost their lives in their fight against this devastating disease in 2010.

November is Pancreatic Cancer Awareness Month. This little-understood disease is the number four killer in the United States and the only one in the top four which does not have a known cure. Of all of the cancers tracked by both the American Cancer Society and the National Cancer Institute, pancreatic cancer has the lowest relative survival rate.

Over the past 5 years, more than 210,000 individuals have been diagnosed with pancreatic cancer, and over 92 percent of those diagnosed have passed away during the first year of their diagnosis. These numbers are simply unacceptable.

To help find a cure, researchers must have the tools they need to learn more about this disease. That's why I've supported legislation that provides funding for assistance and education around pancreatic cancer across our country.

Madam Speaker, pancreatic cancer is one of the few cancers for which survival rates have not improved substantially over the past 40 years. By volunteering and supporting research, we can do a lot to defeat this debilitating disease.

STOPPING SEXUAL ABUSE OF CHILDREN

(Ms. JACKSON LEE of Texas asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE of Texas. Madam Speaker, I apologize for my raspy voice, but my passion for standing up overrules my voice. I am speechless, combined with outrage and anguish over the little boys that have been sexually abused. It is not a question of football and what is king. It is not a question of what State it is and what great university it is. It is a question of adults and institutions ignoring the pain of these children.

It is documented that it takes 2 years before a child is willing to talk about sexual abuse. And in my own State today, an 18-year-old took her life because she had been sexually abused by a family member, and finally, it was investigated. I don't know how long the law enforcement took to investigate it, but she finally took her life

with the belief that no one would be prosecuted.

So I'll be introducing legislation that will immediately suspend all Federal funds of any institution that is found to have covered up—employed someone who has been engaged in sexual abuse and no one reported it, including the prosecutor's office, who are now just saying that they will be looking at this in the State of Texas. It will exclude scholarships and Pell Grants. I intend to introduce that legislation and stop the funding now for any institution that thinks that they are above the law and will watch a grown man perform a sexual act on a child and refuse to do something about it. Refuse to do something about it. It is an outrage.

JOB CREATION AND WHY IS OUR CONGRESS SO DYSFUNCTIONAL

The SPEAKER pro tempore (Ms. HERRERA BEUTLER). Under the Speaker's announced policy of January 5, 2011, the gentleman from Virginia (Mr. RIGELL) is recognized for 60 minutes as the designee of the majority leader.

Mr. RIGELL. Madam Speaker, I rise tonight to address two matters that are of great concern to the good folks of the Second Congressional District of Virginia and, I believe, to every American across this great land. Those two issues are job creation and why our Congress is so dysfunctional. As a businessperson with a lifetime of experience in creating jobs and fixing things, I really want to emphasize the practical solutions that I think we can bring to bear on these two important issues.

I don't think, Madam Speaker, that there is a family in America that has not been affected in some way or another by this painful economy. Unemployment continues to hover around 9 percent. My wife, Teri, and I have two dear families in our lives who have lost their business because of the economy and how difficult things are. They are small businesses. We watched them and walked with them through as they had to file bankruptcy and let go of their employees. And, Madam Speaker, the problem is particularly acute in our black community. For black men, the unemployment rate is over 19 percent. This should concern every American and command our full attention.

Madam Speaker, this is my first elected office—I have been up here about 10½ months or so—but I've had 30 years of experience in job creation. The first business that my wife and I started when I was 22 years old was a cleaning business, and we started it because we had more money going out than we had coming in. I had a couple of options, and it seemed like the best one was to start a small business, and we did—a cleaning business. We hired two people: Teri hired me and I hired her.

□ 1920

That is how we got started. I know, and I fully understand what an entre-

preneur, a small businessowner or a potential small businessowner, experiences when they're trying to put capital at risk to get what I refer to as an entrepreneurial return. I know that healthy fear that really inspires you to work long hours. We would call it key-to-key, open your business and close your business at night. I know the great joy of being able to say to someone these wonderful words, "you're hired." I also know what it's like to sit down with a banker, a good friend, a person who stood by us in difficult times, but yet they've come to the end, and they say, Scott, I can't help you, meaning they can't approve a critical loan. I understand what that's like.

It all revolves around, whether you own a big business or a small business, there's something in common, and that is every business has a financial statement, an income statement. And if we look at the income statement, that document that is being looked at by entrepreneurs across America and if we start at the top and you just go down line by line and if you see the intersection of what we're doing here in Congress in our Federal Government, you see the intersection of the actions that we're taking with each line on a financial statement.

I'd submit, Madam Speaker, that the evidence is clear that the steps that we're taking in this Congress—well, at least on our side I believe the Republicans are taking the right steps, but the cumulative effect of what's taking place in this Chamber, in the Senate, and in the White House has made it ever more difficult for the American entrepreneur to make it, to give them a reasonable expectation that they could achieve what we refer to as an entrepreneurial profit.

Listen, if a person is okay with a 2 percent return or a 1 percent return, they'll just leave their money where it is. It takes a lot of courage, I think, for a person to put a second mortgage on their home, to call a family member to borrow money or save up over years and maybe put \$15,000 at risk. They have to be able to earn a better return than that. And in doing so, they'll start to hire people.

Let's just take a look at a basic job creator's financial statement. Now, it may look slightly different from one industry or one business to another, but it always starts out at the top with this category right here: sales. Nothing happens until you sell something. It could be anything. It could be cupcakes like some wonderful entrepreneurs in our district. It could be automobiles, it could be homes, and it could be energy and those companies that supply and help us become more independent.

Let's look at this critical area. We have over \$500 billion a year that is flowing out of our country, capital that should be circulating within America. Is it here? No. It's going outside of this country to folks like Hugo Chavez. They do not share our values, and we are funding them because of our fail-

ure—Republicans and Democrats—year after year after year in failing to move this great country toward energy independence. It is hurting us, Madam Speaker.

Recently, I stood and clapped for our President as he walked in this Chamber, and I listened intently on September 8. He drew us together as Congress and said, I have a bold message for you. I desperately wanted to hear our President address energy independence. I waited expectantly, sitting right back over there. I didn't even get a chair. I think I was behind everybody and had to stand up. That's all right. The Chamber was full.

There were some things I agreed with, and I said, yes, Mr. President, I can sign up for that. And I looked forward to improving or voting for the veterans bill and the reversal of that 3 percent withholding that would hurt so many contractors within the Second District of Virginia and also across this great country. And it also has a wonderful tax credit in it to help those who are helping and hiring our veterans. I look forward to supporting that and enthusiastically want to vote for it, and I support what the President is doing.

But absent in his remarks, a 4,134-word address to Congress, was the word "energy." Certainly absent was the phrase "energy independence." This is a tragic mistake. It hurts America. It hurts employment in the Second Congressional District of Virginia and across this great land.

We have so much opportunity to put folks at work with great-paying jobs. I'm talking about \$70,000, \$80,000-a-year jobs, and some of them will pay even more—good-paying jobs. We have great potential. And if there were any question about where the President stands on this issue, he made it abundantly clear last week. He said nothing, nothing off the coast of Virginia. The energy resources that are there will be locked up while residents of the Second District are hurting because they don't have employment opportunities.

Madam Speaker, I would submit that our pain in America is largely self-inflicted. We are regulating ourselves out of our prosperity at every opportunity. It's wrong. We can and we should take a different direction.

Let's look at the expenses faced by our small business owners. I just hit one area of sales. I could have gone a lot longer on that. Let's just go down to some of these expenses that we see here. Interest, well, interest rates are extraordinarily low right now. I'd say that is a positive thing. It's only because there's a near collapse of confidence in the European economy. That's why folks are still rushing over here to America, driving down interest rates. Do not be fooled. That will not sustain itself. There is a risk, and I would say it's backed by the evidence that folks ought to be mindful that interest rates can go up, and I think they likely will.

When I talk to the bankers in our area, I'm not talking about the big shots in New York. I'm talking about homegrown banks—our neighbors, our friends—small banks, the ones that sponsor the Little League. They say, SCOTT, listen, we're not hiring account executives to go out and meet with your business and other small- and medium-sized businesses. We're hiring regulatory analysts just to deal with what's coming at us from Dodd-Frank. I had the president of a local bank tell me the other day, he said, SCOTT, listen, we're getting out of this line and this line of business because we just can't handle the regulatory burden.

Now, I am not a no-regulation person. I hate to disappoint my libertarian friends, but I'm not a libertarian. I have a libertarian streak in me, but I'm not a libertarian. There is a proper role for government and, indeed, an essential role for government. I am for wiser, smarter, lighter regulations that will free up the greatest job-producing engine the world has ever known—the American entrepreneur.

Let's look right here. We've covered interest and even the availability of capital. We're paying banks a small interest rate, a small return on their money, the government is; but we're not requiring them to loan it out. It's really a bizarre situation and one that's hurting our ability to grow our economy.

□ 1930

Look at health care. The Affordable Health Care Act, if anything, has exploded the degree of uncertainty. I do not know a fellow entrepreneur in my district who can tell me where their costs are going other than they're going up. The Affordable Health Care Act, which still is an evolving document as it becomes kind of flushed out by the regulators, those who are writing all these regulations, is a moving target; people just don't know where it's going. So we've got uncertainty there on health care.

Look at legal fees. We are the only country in the world that runs about 10 percent of our gross domestic product in legal fees. We are a litigious society, and our laws encourage that. It's wrong, and it puts an unnecessary burden on the American entrepreneur.

And let's pause for just a moment and kind of define the American entrepreneur just for a moment. I'm not talking about highly sophisticated folks and MBAs and all that. I'm talking about the moms and the dads and the young people who are starting businesses out of their homes and relying on maybe some borrowed money from family or friends or a small second mortgage on their homes if they own a home. These are the burdens that we're putting in their way that makes it more difficult to, again, get a return, an entrepreneurial return on their investment.

Accounting, accounting services. I love the CPAs out there in our commu-

nities, but they are having to deal with things, for example, our Tax Code, that is incredibly complex and unnecessarily so. I have found in my 10½ months here that the halls are filled with lobbyists. Now, some I think can provide us with good information; but some have only one mission, and that's just to find a strategic advantage for their industry or sector, and that is expressed in our Tax Code. And I, along with my colleagues—and I certainly can speak for my Republican colleagues and, I trust, for my friends who are Democrats—we can, we must, we will simplify our Tax Code.

When I would sit down with our accountant every year as a small-, medium-sized business owner, my good friend David would say, Well, here's a tax return, Scott. And I would go through it, and with even 25, 30 years of business experience, I would say, David, I just don't understand this. I'm doing my very best to keep up with you. I just don't understand this.

It is not right when an American wants to pay his or her fair share, whatever is expected and the law requires to pay, and there's not a person out there, including within the IRS, that can even confirm that you're paying it correctly. If you call the IRS and ask for guidance, that is no defense if you do it incorrectly. It's not right.

EPA compliance at every turn. Look, we have a moral obligation to leave our children with clean air and clean water and clean soil. I'm a recreational fisherman. I don't have much time to do that now. That's okay. But I used to go out to the second and third island on the Chesapeake Bay Bridge-Tunnel—and those in the Second District know where I'm talking about—and when the strippers are there and they're running, well, it's a fun evening. I never want to catch a striper that has a lesion. I have a great passion to make sure that we meet the deep obligation that we have to the next generation of Americans to be proper stewards of the environment. What I so often disagree with, with my friends who would profess to love the environment more than I do—which is something, frankly, I don't concede—is this: We are headed so often to the same place. Sometimes it's a matter of timing. Are we going to get there over 3 years or can we stretch it out over 10 to 15 so that we can give industry a reasonable time to adjust?

As I've listened carefully to the administration and to my colleagues here on this proverbial other side, I think it, in some ways, can be boiled down to this: that there is this general debate taking place—and I frame it this way—that the administration believes there is a role for the American entrepreneur to play in job creation, but its reliance is principally on government; its belief is principally in stimulus spending—that is, borrowing money to buy things through the government. I think the evidence of this is clear. The administration has doubled down in the jobs bill on a stimulus-driven mindset.

Now, in sharp contrast, we, as Republicans, believe there is a role for government, a proper role for government, but our reliance is upon the American entrepreneur, the small business owner. When we wake up in the morning and when we go to sleep at night, we know that the key to getting through this, to unleashing the great potential of America, is the American entrepreneur, America's small business owner.

Look, I applaud the President for putting forth a jobs bill, but let me share with you this: We've passed a lot of jobs bills. It's right here. And I want to take a moment—this may seem tedious, but we need to slow down and get our facts right. I'd like to cover, briefly, a summary of the 22 jobs bills that we have passed in this body with bipartisan support that are now stalled in the United States Senate.

Now, as a new Member here, I have just found it incredibly frustrating that we have passed good bills, bills that I know would move our country forward in job creation, and they're met with this response from the Senate Majority Leader: Dead on arrival.

Really? Dead on arrival? I think I learned in about eighth or ninth grade in a civics class that here is what's supposed to happen: The Senate passes its own bill or amends ours, and then we go to conference. That doesn't happen very often; very seldom.

Here is a summary of the bills that we have passed in this body.

I am very proud of my party in this respect. And when there are issues with our party, I'm quick to say that, too. And we'll cover those in just a few minutes when we answer the second question: What's wrong with this body?

Let me read just a few of them here, Madam Speaker. H.R. 872, Reducing the Regulatory Burden Act.

If you think through this, we are addressing individual lines on a financial statement, each one of which would give breath and life and hope to the American entrepreneur, saying, You know what? I really think I can do this. I'm going to go ahead and take that second mortgage out.

H.R. 910, the Energy Tax Prevention Act of 2011; H.R. 37, disapproving the rules submitted by the Federal Communications Commission; H.R. 1230, Restarting America Offshore Leasing Now Act; H.R. 1229, Putting the Gulf of Mexico Back to Work Act; and H.R. 1231, which would have reversed the Offshore Moratorium Act.

It goes on and on, Madam Speaker, on and on. These are good bills. I encourage Americans across this great land to take a look at what we are doing as Republicans in leading the way toward true job creation.

I know we can get our country back to work. There are clear steps that we can take so that, when you get to the very bottom, this profit after tax equals a return on investment that is attractive, that makes folks want to put capital at risk.

I want to cover one more thing before I go to that critical question of why our Congress is dysfunctional—taxation. I will just give you one example of how this is having a detrimental impact on our country.

We have a wonderful manufacturer in Virginia Beach, part of the Second District, called Stihl. You may know them from their chain saws, a high-quality product. It's a beautiful, well-run, efficient plant that they have in Virginia Beach. And they shared with me, they said, SCOTT, look, we are competitive with our sister unit in Asia. We are competitive with our sister unit in South America that produces essentially the same parts and the same products. We are competitive on a cost-per-piece basis, but here's where we're not competitive. We are not competitive on an after-tax basis.

Now, whether we like it or not, we are in a global economy. We are competing with countries around the world, not just with our neighbors here in North and Central and South America. We are competing with countries all across the world.

□ 1940

So our tax rate, our tax structure has to move America in the direction of making America the best place to start a business and, particularly, manufacturing.

Madam Speaker, this is the manufacturing base. The fact that we are producing less here in America, I believe that is the principal reason there's a shrinking of the middle class. And so we need to come together as Democrats and Republicans and independents and improve our manufacturing base. The 22 bills that I mentioned address that directly and head-on, and they should be passed by our Senate and then sent to our President for signature.

Let's tackle that second question, Madam Speaker. Why is our Congress so dysfunctional? I believe there are three principal reasons. The first is the harshness of our tone. Both parties are guilty of this—both parties.

Let me give you an example on the Republican side of the ledger. I don't use the term ObamaCare because I believe it's pejorative. Right out of the get-go, it personalizes the debate. My objection to the Affordable Health Care Act has nothing to do with the President, himself. It has to do with what's in the bill. But when we use a term like ObamaCare, it is unnecessarily interjecting into the conversation an angle which so many in our country find divisive.

I've spent a lot of time with our black pastors and bishops in the Second District of Virginia. What a joy it is to go across our great district and worship in different houses of worship and when I sit down with my good friends, our bishops and pastors principally in the black community, and we start talking about these matters, and they say, SCOTT, where are you on the Affordable Health Care Act?

I say, well, pastor, I don't support it. Here's why. But you know I don't use the term ObamaCare. And they said, yeah. Often times they'll say, SCOTT, they see it as a racist term. And I don't speak for every black pastor in my district certainly. But I'll tell you, I've talked to enough to know that some do see it that way.

Why would we use a term that unnecessarily alienates us from our friends and moves us apart as the American people?

And I'd submit to you, Madam Speaker, that what's taking place in this body is hurting every American family. And if wasn't, quite frankly, I wouldn't be here. But it is. It's putting our country at material and serious risk. There's a harshness of tone. And I think the way to respond to that and head in a different direction is to think, well, what would your mom say? I know how my mother taught me to speak to others: with respect.

And, Madam Speaker, I would say this: We should not mistake civility with weakness. We can and should be firm on principle. Civility is not an indication that one does not hold core values.

Now, the second aspect of what's, I think, hurting this body and hurting every American family is this: the misuse and oftentimes the complete dismissal or deliberate failure to reference facts.

I'm a businessperson. I don't know any other way to make a decision other than to first gather the facts. If I start making decisions off of how I feel or where I think the decision ought to go, I would not only not prosper; I would go into bankruptcy. And I think, in some ways, that's where we're headed as a country, because we're not relying on the facts.

Let's take a couple here that just jump out at us. Now, I would say to my friends who are Democrats, let's consider this. Historically, we've been around 19 percent of expenses as a percent of our gross domestic product. Right now we're over 24.5 percent. This is putting America on a perilous course, and I believe it threatens our country in a fundamental way.

Now, to my Republican colleagues, let's look at the other side. Historically, we've been around 18 percent, plus or minus revenue as a percent of gross domestic product. And right now we're less than 15 percent. That too is a problem. Any Republican who will not admit to this or confront it and discuss it head-on is not dealing with reality. These are the numbers. It's not how you feel; it's where the numbers lead us.

We need to be a leadership team here, a body that respects, seeks out and is guided by the facts.

My colleague, who I respect very much, Representative SCHWEIKERT, he was down here one afternoon. I was watching him on C-SPAN. I was in my office and watching him, and he had a wonderful presentation. And what he

did was he put into perspective—it was sometime ago, probably 6 weeks or so, maybe 8—this debate that was taking place where there were some charges coming from our friends on the other side, and they were basically saying, you know, you're trying to crush Medicare on the backs of the poor, giving oil breaks to oil companies. And he did this. He kind of broke it down.

He said, okay, we're borrowing about \$4.7 billion a day. Let's look at all tax cuts for all Americans. If you eliminated every single one of them, it would be about 28 minutes out of that 24-hour day if every tax break was removed. And I'm certainly—you know, we'll walk through which ones we can support; 28 minutes of a 24-hour day could be addressed by these tax cuts.

Tax incentives provided to oil companies amount to about 2.2 minutes under his calculation, and I'm quite confident in his math. So about 2.2 minutes out of a 24-hour day could be addressed by eliminating the tax cuts to oil companies.

And the tax treatment for corporate jets, if you remember that discussion, is about 15 seconds of a 24-hour day. Yet, in this body, right here it was presented as either fix Medicare or eliminate these tax breaks, or hold on to them, rather. It was a false argument.

I mean, you could agree to every single reversal, and we'd still be faced with an enormous, an enormous fiscal challenge. As we head into the days ahead, it looks like a ski slope. Our expenses look like a ski slope. Yet our friends on the other side would present it as, well, all you have to do is basically eliminate these tax breaks and, you know, kind of a no-pain option.

So I think—and both sides do this. You know, you look back—I targeted my own party on the first point of harshness. You know, I could give examples in each category of each party.

Now, questioning of motives here. This has been a most interesting experience as a new Member of Congress. I've sat in this body right here and watched my colleagues—Democrat colleagues—stand up and with great bravado say, you don't care about the poor. You don't care about the elderly. You don't care about our minority communities.

Madam Speaker, how can one judge another's heart? How can one judge another's intent?

I would say to my Democrat colleagues, you may care as much about our environment, but you do not care more. You might care as much about the poor, but you do not care more. You might care as much about ensuring that our seniors have medical coverage, but you do not care more.

Indeed, that is why I voted for the House Republican budget. That is why I voted to ensure that we take the steps now so that Medicare is solvent. The President and I agree on this matter, that without changes in 9 years, we're bankrupt in Medicare.

□ 1950

That's unacceptable. I think it took political courage for our party to put that on the House floor, and I think that's a good segue to this account that I have right here, this idea of questioning people's motives.

I was on my way to a Veterans of Foreign Wars town hall with our fine veterans. I have the great privilege of representing, again, the Second Congressional District of Virginia. It has the highest concentration of veterans in the country. What an honor it is.

So I'm on my way to a VFW breakfast meeting, and these good men and women get up early. I think it started at 7:30. I got a call from our district director. She said, Congressman, she said, MoveOn.org is here. I said, Okay. How many? She said, Oh, I think one or two. And I said, Shannon, there will be more, and don't worry about it.

We pulled up there and the door to the entrance was quite far from where we were on the road. There was quite a distance in the parking lot. And there were a couple of protestors out there—I think by that time it was three or four—and I told my good friend Esmel Meeks who works with me every day, I said, Esmel, stop the car. He said, What are you going to do? I said, Esmel, it's okay. I just want to get out and talk and listen.

I got out of the car, and I said, Good morning. I'm SCOTT RIGELL. The gentleman said, I know who you are. I said, Look, I appreciate you being here this morning. I respect you for getting up early. You care about this topic of Medicare. You care enough to get out here and meet with me or at least send me a message. I said, What's on your mind this morning? I think that caught him off guard a bit.

But as we went through the conversation, he said, Well, you're giving all of these oil subsidies and crushing Medicare. I said, Well, we've got something in common here. Let's talk about this. I don't believe in oil subsidies. I said, I'm looking at this matter right now. It's taking me a little time. It's a complex matter. There are several different areas of tax treatment for oil companies.

I called in one of the most progressive groups in America to give me their take on this: Tell me why these are tax subsidies. And as I met with these young folks in my office—they were first a bit surprised that they found themselves in my office, but I was delighted to have them there. I said, Help me to understand why these are tax subsidies.

There are a number of them, and they started to go down the list, and I almost immediately noticed a problem. I'm a businessperson. I've been in business 30 years. I said, Wait a minute. Some of these are just regular tax deductions that any business would get whether they were a mom-and-pop operation or a large corporation.

Now, these over here, they sure look like tax subsidies to me, and if I deter-

mine that they are, I'll vote to repeal them on the House floor. And I went back to those that were not true tax subsidies, and I said, Listen, don't use hyperbole to make your point. It actually diminishes your argument.

We got through that, and I shared a little bit of that story with this good gentleman from MoveOn.org that met me outside the VFW town hall. And then after that I said, You've accused me, or I should say, You're certainly taking a shot at me here for not caring about the elderly. I said, No, this is why I voted for the House Republican budget. This is the best way to ensure that we protect Medicare.

I said, Do you know how long it takes us to balance the Federal budget under this plan that you say is extreme? He had called it extreme. I said, Sir, do you know how long it's going to be under the Republican plan of borrowing money each and every year? He said, No. I said, I do. It's 25 years. Under the plan that's called extreme, it's 25 years of continuous borrowing. And that's the boldest plan out there right now. At least it's gotten serious consideration. And of course that plan, too, sits in the United States Senate without action.

In the Second Congressional District of Virginia, we are blessed with water. It's all around us. You can't go down a street for four or five miles before hitting beautiful water. And in those waters is one of the most precious and delicious little creatures known to man, the blue crab. And if you're lucky, you can put a couple of chicken necks in a crab pot, throw it in just about any part of the Chesapeake Bay or one of the estuaries in these little bodies of water and little creeks off of the Chesapeake Bay that we're blessed with in the Second Congressional District, come back in about 4 or 5 days, and if you're lucky, you'll have 10 or 12 blue crabs in there.

If you pull the crab pot up on to the dock, as I've done many times, one thing is pretty striking about that. As you look at these crabs, they have no idea what their fate is. And they're just going at it. Claws are flying. Occasionally a claw will be severed and pinched off, but they just keep fighting. They are oblivious to their fate.

If they had any hope, any hope at all, what they would say is, Hey, wait a minute. We're all in this together. This thing is not headed in a very good direction. And they'd say, Listen, our only hope is when this man opens up that little trap door, we all gotta rush him and maybe a few of us at least will make our way back into the water, maybe all of us. But our only hope is to do this together.

Madam Speaker, I would submit to you that in more ways than we might imagine, we are like crabs in a crab pot. We're fighting each other; we're not making good decisions as a body, and it's putting us all at risk.

I believe there is a deep resolve. Notwithstanding what I just shared, I be-

lieve there is a deep resolve among both parties. I trust and I pray that there is because the matters before us are so great that there is a deep resolve to do the right thing; to listen to each other; to treat each other with respect; to watch the harshness of our language and our tone; to bring back a civility in our public discourse; to let the facts guide us to good decisions; to not question the motives of others. This will bring us together.

Yet we know that there will still be spirited debate. This is a good and natural thing. It has been a characteristic of this body since our very founding and even prior to the founding of this great country. There will continue to be spirited debate.

How are jobs created? I have given you, Madam Speaker and others, my core belief on how jobs are created and how we'll unleash the greatest job-producing engine the world has ever known: the American entrepreneur. Some disagree with these priorities. I don't see how. I like my view. It's been tempered by 30 years of reality and experience.

But if we come together under the terms and conditions and under the umbrella of civility that I just outlined, I really believe that we'll meet that deep obligation that we have to the next generation of Americans to pass on the blessings of liberty and freedom.

I close with this, Madam Speaker:

I shared with this body earlier that I had the great privilege of representing the Second District, which has the highest concentration of men and women in uniform in the entire country. My weekend was filled with wonderful events honoring our veterans. Young veterans and older veterans, like my father, Ike, at 88 years old, an Iwo Jima veteran—my favorite veteran, by the way. But as we walked through these events from parades and marathon races and just a host of different events, it was just evident to me that we have so much more in common that binds us together, the full fabric of our community.

Every community, every minority community, every community, old, young, is represented in these wonderful events, our veterans, what they have fought for in this great country. And I believe the best way to honor our men and women in uniform surely is, of course, to stop on Veterans Day, to pause, to look them in the eye to thank them.

But I would say even more importantly, and I think our veterans would agree, they'd say, You know, I appreciate that. But better yet, and indeed your duty, elected official and every American, is to take the legacy that was gifted and handed to you at a heavy price and ensure that we pass it on to the next generation.

□ 2000

So I implore, Madam Speaker, every American to get engaged in this noble

fight for the future of our country, for our children, and for our grandchildren. My favorite modern-day President, President Reagan, said it this way: Freedom is never more than one generation away from extinction. We did not pass it to our children in the bloodstream. It must be fought for and passed on for them to do the same; or one day, in our sunset years, we will tell our children and our children's children what it was once like in America where men were free.

Indeed, we will meet our deep obligation to the next generation of Americans. And as we come through this Veterans Day, may God watch over our veterans, our troops who stand watch tonight, and may God forever bless the United States of America.

I yield back the balance of my time.

CBC HOUR: POVERTY IN AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the gentlewoman from the Virgin Islands (Mrs. CHRISTENSEN) is recognized for 60 minutes as the designee of the minority leader.

Mrs. CHRISTENSEN. Madam Speaker, I want to again thank our leader, NANCY PELOSI, and the Democratic Caucus for allowing the Congressional Black Caucus to have this Special Order hour once again.

Before I begin my discussion today, though, I want to take this opportunity to wish a very happy birthday to my daughter Karida Green. I am blessed to have two wonderful daughters and four fantastic grandchildren, whom I was able to spend the past weekend with as we celebrated Kobi's, one of my grandsons, 5th birthday.

I also want to extend congratulations to the Federal team that's now in place in the U.S. Virgin Islands. Congratulations to our new district court judge, Wilma A. Lewis, who joins Chief Judge Curtis Gomez and Senior Sitting Judge Raymond Finch in the district court of the Virgin Islands; to congratulate U.S. Attorney Ronald W. Sharpe, who had his investiture this morning; and also Chief Marshal Cheryl Jacobs, who was sworn in about 2 weeks ago. We welcome all of them and thank President Obama and Attorney General Holder for their nominations and the Senate for their timely confirmation.

And let me once again thank all of those men and women who have served in our Nation's Armed Forces and those who serve today for their courage and their sacrifice, and I also want to thank their families who serve and sacrifice along with them. We in the Congressional Black Caucus and, indeed, I think, the entire Congress look forward also to sometime in the not-too-distant future to honor the Montford Marines with a well-deserved and long overdue Congressional Gold Medal.

But this evening, Madam Speaker, the Congressional Black Caucus continues our focus on the need for jobs and to reiterate the call for the leader-

ship of this Congress to bring legislation to the floor that would create jobs. But tonight we also want to call our attention to the continuing plight of the poor in this country and how the budget and other battles that have been fought on the floor of this House and over in the Senate have been hurting them and what is at stake for them also if the supercommittee does not come to a balanced agreement that would reduce the deficit by \$1.2 trillion or more—and, I would say, hopefully more.

Earlier this month, nine Members of the House joined the Fighting Poverty with Faith initiative and took the food stamp challenge. We agreed to live on what is the average food stamp allotment for a week, \$31.50, and I can tell you that it is not easy.

There are over 48 million Americans today who are food insecure. More than 16 million children live in households that are food insecure in the richest country in the world. Millions face hunger every day in this country, a fact that we should all be ashamed of.

These numbers are only getting worse, not just because of the recession but because almost all of the growth of wealth in the past decade went to the top 10 percent of people in this country. For most Americans, their incomes dropped; their incomes really crashed. And the gap between the rich and the poor got wider, a dangerous trend for a country already struggling to maintain its leadership in the world, something everyone should want to do everything in our power to maintain.

For all of our 40 years of existence, the goal of the Congressional Black Caucus has been to close the gap that leaves some communities behind or some out altogether; to close the income gap, the job gap, the housing gap, the health gap, the education gap, and all of the disparities that have been so doggedly persistent for some communities, not because those on the losing side didn't want them to change or didn't work for change but because the opportunity too often was just not there.

Colleagues, America is the land of opportunity and all of us, not just the 43 members of the Congressional Black Caucus but all 441 or, really, all 541, need to be working together to make sure that it is for all and not just for some.

This country was founded on the principle that all men and women are created equal and endowed with certain inalienable rights, not to be separated from us. Inalienable rights—the right to life, liberty, and the pursuit of happiness.

Many times even when we pass programs that should have helped, they don't reach communities that need them most. Those communities in some cases are not prepared to compete or they may not be priorities for the Governors of those States who often get to decide where those programs go. And that's why our assistant leader,

JAMES CLYBURN, joined with Congressman RANGEL to develop the 10-20-30 program, an initiative that they have taken to the White House and to the Republican as well as the Democratic leadership.

Under this initiative, which seeks to help out the most chronically distressed communities, 10 percent of all funding and programs would go to communities with 20 percent or higher poverty levels for 30 or more years. And it may surprise everyone, but two-thirds of all of the jurisdictions that would qualify for that 10 percent are in Republican districts. I think if it were under any other administration or if it were proposed by someone on the other side of the aisle, perhaps this would have been passed long ago; but today those communities, not all of which are racial and ethnic minority in makeup—many are, but not all are—would continue to suffer and, in essence, be denied those inalienable rights, and that's not the country that we know and love.

At our annual legislative conference in September, we heard from researchers who reported on persistent poverty and its impact on health and the quality of life in the communities that are chronically distressed. Their report tracked the stubborn persistence of concentrated poverty in U.S. metropolitan areas over a period of nearly 40 years. Neighborhoods with poverty rates above 30 percent have been recognized as places with few opportunities for employment and education, high levels of disinvestment and crime, and meager civic participation. Living in such neighborhoods over extended periods of time reduces the life chances of children, whether their families are poor or not.

The report also looked more deeply at a subset of urban neighborhoods that can be characterized as the "original ghetto," extensive areas whose cores were almost exclusively nonwhite and poor in 1970. The report showed that the Nation continues to suffer from racially and economically divided cities, undercutting efforts to reach important goals for our country, for health, for education, for employment and civic engagement.

More specifically, that report found that concentrated poverty has risen substantially since 2000. About one in 11 residents of American metropolitan areas, or 22.3 million people, now live in a neighborhood where 30 percent or more of their neighbors live in poverty. Such neighborhoods suffer from private sector disinvestment, poor public services and schools, and unacceptable levels of exposure to crime, natural hazards, and pollution. The number of people in high-poverty neighborhoods increased by nearly 5 million people since 2000, when 18.4 million metropolitan residents, 7.9 percent of the total, lived in high-poverty neighborhoods.

□ 2010

The rise since 2000 is a significant setback compared to the progress of

the 1990s. The number of people in high-poverty neighborhoods stabilized in the 1990s and the concentrated poverty rate fell, fueling optimism that faith-based initiatives and rising prosperity were reversing a crisis that had grown dire in the 1980s.

Today, however, it appears that the improvement of the 1990s was just a temporary respite. The increase in the number of Americans living in high-poverty neighborhoods tracks directly with the Nation's increasing poverty rate. Between 2000 and 2009, the number of people in poverty grew by 10 million, from 33 million to 43 million, raising the poverty rate from 11.3 percent to 14.3 percent in 2009. Today it's over 15 percent. And we all have seen the Pew report which shows that white wealth is 20 times more than African American wealth, 18 times more than Hispanic wealth, and that more African Americans live in extreme poverty. If this trend continues, it is a very bad prognosis for the economic health of our Nation.

Also, everyone knows that I'm a family doctor by training, training that I received right here in the Nation's Capital at George Washington University's School of Medicine and Howard University Medical Center, so the health of my fellow Americans is very important to me. So I have to just point out that poverty is a sure prescription for poor health and for premature, preventable disability and death. Just eliminating poverty alone would improve the health of millions and the terrible health standing of our country, which is an embarrassment. Or let me quote one of our Surgeon Generals, "An affront both to our ideals and to the ongoing genius of American medicine," as was said by former Surgeon General Margaret Heckler back in 1985, and it continues to be true today.

As many have said, the American Dream has become a nightmare for too many in this country, including those who recently came in pursuit of it, our immigrant community. The Rebuild American Dream movement and many of the Occupy Wall Street protests are all about making it a good dream again, and not just a dream, but an opportunity to make it a reality. As quiet as it's kept—and we, Democrats, have really been too quiet—Democrats have always been about keeping the American Dream alive for everyone who lives and who comes to this country, for making opportunity available to all for a solid education, good health, a decent job, a home in a safe neighborhood, and a secure retirement. We have never lost sight of or lost faith in this. And we continue to fight for it, despite the big money opposition and the special interests who think they will win out in the end, but they won't because we are on the side of the American people, and they will always side with what is in their best interests and not in the best interests of our country.

Before we went out over our break—one more break than we needed—Con-

gresswoman BARBARA LEE introduced H.R. 3300, the Half in Ten Act of 2011, which proposes to cut poverty in half within the next 10 years. In 2008, House Concurrent Resolution 198 unanimously passed Congress and committed us to doing just that, cutting poverty in half. The new bill provides us with a framework for doing it, and we need to honor the commitment that we made in 2008 and pass the bill, H.R. 3300. The Half in Ten Act would establish a Federal interagency working group on reducing poverty. The working group will develop and implement a national plan to reduce poverty by half in 10 years while working to eliminate extreme poverty, which I talked about earlier, child poverty, and the historic disparity in poverty rates in communities of color. The working group will improve how we collect data on those who are in poverty and near poverty, and make regular reports on their progress so that Congress and the American people can better understand the impact of our policies and programs and make more informed decisions about how we as a people treat our most vulnerable.

The working group will be charged with developing and implementing a national plan on poverty with four distinct but interrelated goals: one, to reduce the national poverty rate by half in 10 years; two, to eliminate extreme poverty, those with income under 50 percent of poverty; three, to eliminate child poverty; and four, to eliminate the historic disparity in poverty rates in communities of color. That working group would consult with experts across all relevant Federal agencies as well as outside poverty groups who work directly with those most affected by those Federal programs so that we can develop a comprehensive, far-reaching, sustainable plan.

I really want to thank the gentlewoman from California, Congresswoman BARBARA LEE, our former chair of the Congressional Black Caucus, for her work on eliminating poverty, for her leadership of the Out of Poverty Caucus, and for introducing H.R. 3300.

We have another bill that will soon be introduced by Congresswoman GWEN MOORE which also speaks to poverty. She's preparing a bill that would reform TANF, and I think everyone would agree that TANF has not really worked as it was intended to. As we look at it, it's created a permanent underclass. Block grants are locked in at 1994 levels. Many who move off of assistance after 5 years still don't have jobs, and they don't have child care. The rise in food stamp usage shows where those pushed off of assistance have gone.

The average age of a TANF recipient is 7.8 years of age. Twenty percent of children live in abject poverty in this country. It has damaged the social safety net that was meant to respond to the countercyclical nature of the economy. When there is a recession, as there is now, it's supposed to be that

last bit of help. So the bill is still being drafted, but some of the things that it would do are, it would stipulate that the number one goal of TANF is child poverty reduction. It would stop the clock during a recession. It would guarantee child care for TANF work-eligible recipients. It would lift all time limits on work participation requirements and the 30 percent safe cap on education. And it would adjust the Federal work participation requirements so that States could get credit when individuals with disabilities participate in work-related activities, even if the nature of those activities or the number of hours do not match the standard TANF requirements. Those are just some of the things that we expect to have going into the bill. And again, in addition to H.R. 3300, when Congresswoman GWEN MOORE introduces her TANF reform bill, we hope that all of our colleagues will support it.

There is an elephant in this hallowed room and every room in this Congress, and that's, of course, the deficit-cutting proposal that the supercommittee is responsible for bringing forth in about 9 days. Actually, it would be more than a proposal because we would have to vote on it as it is, just up or down, no amendments. We hear that there will, more than likely, within those 9 days be an agreement. And if there's any hope for a fair and balanced agreement, it's because we know that the House Members that the Democratic Caucus has placed on the committee will work to ensure that it is. And those are our assistant Democratic leader JIM CLYBURN, vice chair of the caucus XAVIER BECERRA, and our Budget Committee ranking member CHRIS VAN HOLLEN.

We've said over and over again that this plan needs to include a further extension of unemployment benefits, which is something that has been demonstrated over and over again as a guaranteed stimulus for the recession that we're not yet out of. But it also, of course, provides a needed bridge until we can get this Congress to create jobs again. It's been over 300 days, and we still have yet to see the Republican leadership produce and enact a jobs agenda for this country, something that we all know is so badly needed.

And just to talk about where we are, in the third quarter of 2011, 31.8 percent of 14 million Americans who are out of work have been so for more than a year. That amounts to 4.4 million people. Older workers are more likely to remain out of work for a year or longer; 43 percent of unemployed workers older than 55 have been out of work for at least a year. Although those with more education are less likely to lose jobs, once unemployed, long-term joblessness is distributed across all educational levels. And we keep hearing about employers who might have a job opening, saying for those who are jobless, don't apply. Now that just does not make any sense.

□ 2020

Unemployment cuts across every industry and occupation. More than 20 percent of unemployed workers in every industry have been out of work for a year or longer. And in mining, manufacturing, transportation, utilities, financial activities, the percentage of workers who have been jobless for a year or longer is over 40 percent. We cannot get out of this recession without jobs.

So, again, we call on the leadership of this body to enact a jobs agenda. We, the Democrats, have proposed and requested in the strongest way possible that the American Jobs Act be a part of the supercommittee's report. It in itself, because of the tax and other revenue it would generate, is an important part of reducing our deficit. We also want other revenues to be a part of that agreement. This is not in any way class warfare. The poor and the middle class have already given up much, have made major concessions and sacrifices. And in the interest of saving our country, they would likely do more up to a point. But now it's time for everyone else to give. It's the patriotic thing to do.

Unless some, or even all, of the Bush tax cuts, which were meant to be temporary and should have expired already, are allowed to expire, the majority of the deficit will come out of programs that would help the middle class and the poor. The country I pledge allegiance to is a fair country. Congress has a sacred responsibility to keep it fair, and with liberty and justice for all.

If no agreement is reached or if the House and Senate fail to pass whatever agreement is reached, mandatory across-the-board cuts will be imposed. And the President has already said he will prevent any attempts to stop the mandatory cuts from taking place, and I hope that threat extends to mandatory defense cuts, because what we keep hearing is that those defense cuts will just not ever happen. And if defense is spared, the mandatory discretionary cuts would further come out of programs that would help the poor and the middle class and would hurt them even more than some of the budget agreements we have already reached. Some of the cuts that this Congress has already made would hurt the poor and hurt jobs.

Just in 2011, 250 programs were cut that probably eliminated about 370,000 jobs. Those are just some of the things that we have already lost. There are almost 60,000 jobs lost from the spring budget cuts of the Federal Government in three areas, with secondary impact on a wide array of businesses, ranging from automobile producers to local restaurants and dry cleaning establishments. Federal support for law enforcement, environmental cleanup of nuclear weapons production facilities, and General Services Administration Federal buildings fund, those are some of the cuts that have just wiped out

jobs at a time when we need to be creating them.

So we need to make sure that we allow our economy to grow. We need to continue, or begin, to invest in education and health care and renewable energy and innovation of all kinds. The only way we can do this is with a big agreement, but one that includes far more revenue than the mere \$300 billion that is now on the table.

So we want balance and fairness from the supercommittee. We want a jobs agenda enacted. We want to see the American Jobs Act be a part of it. We want to see unemployment payments continued and extended beyond where they are today, and we want to go further to make sure that poverty is reduced in our country because, again, over 16 million children in this country are going hungry every day and living in poverty; and that is something that any country worth its salt should not tolerate.

I would now like to yield to my colleague from Texas, Congresswoman SHEILA JACKSON LEE.

Ms. JACKSON LEE of Texas. I thank the gentlelady from the Virgin Islands for her leadership, and I'm delighted to join her in what I think is an enormously important discussion. Oftentimes, Congresswoman, we don't get a chance to have this kind of discussion when we are debating bills on the floor of the House. So let me, first of all, add again to your statistics. The more we can recite for people what the problem is, the better off we are.

So you will see us standing over the next couple of days and weeks, and isn't it interesting as we approach Thanksgiving and then the Christmas holiday for many of us, and holidays in different names, Chanukah for many, and many other kinds of celebratory holidays that call upon fellowship and food to realize how many are impoverished in this Nation. So I'm delighted to stand with the Congressional Black Caucus, our friend, Congresswoman BARBARA LEE, our chairperson, Chairman CLEAVER, and yourself to firmly stand committed to combating poverty, eliminating hunger, and providing health insurance for all citizens.

Let me just say in light of that, the Supreme Court indicated that they will take up the health care bill. But I'm going to join some pundits and take a risk and say it's going to be upheld. I know there is a lot of rubbing of the hands and excitement because they see in the eyesight the death knell for the Affordable Care Act.

But the good news is that one of the judges that upheld the Affordable Care Act was a conservative judge who analyzed our right to require individuals to have insurance for the greater good—that's not the legal interpretation. And I believe there is sufficient numbers on the court that will look beyond politics and realize that the heavy burden of health care is a heavy burden on the economy. And if you are a conservative, you will look more

closely at individual responsibility. That's what the Affordable Care Act is, along with preventive care and protecting children. So I'm going to be an optimist, and I'm looking forward to the Supreme Court's decision.

But our numbers show one of every six Americans is living in poverty, a total of 46.2 million people. This is the highest number in 17 years in a country with so many resources. And you've heard me say this before, our country is not broke. It can belt tighten. It can move dollars around. I'm glad that the Congressional Black Caucus that is talking about create, protect, and rebuild has the answers.

Let me just say that children represent a disproportionate amount of the United States' poor population. I chair the Congressional Children's Caucus. In 2008, there were 15.45 million impoverished children in the Nation, 20.7 percent of America's youth. The Kaiser Family Foundation estimates that there are currently 5.6 million Texans living in poverty; 2.2 million of them are children; and 17.4 percent of households in the State struggle with food insecurity.

In my district alone, the 18th Congressional District, a very historic district, there are 190,000 people living below the poverty line, the highest number of people living in poverty in 17 years; and then we are thinking about cutting vital social services such as the supplemental excess, SNAP program, that fed 3.9 million residents of Texas in April 2011; the WIC program; and the Census Bureau also reported that there are 49.9 million people in the country without health insurance. We've already discussed that. And Texas happens to be the State with the highest number count.

All of that, and you're literally taking the front door, if there is one, opening the door and kicking people to the street.

I just want to deviate for a moment as I go over some very important aspects that I think, joining with the Congressional Black Caucus, that if they would only listen, if you would only listen, I believe would move us on a pathway of creating jobs, just as we spoke about in the jobs tour that we participated in this summer.

But I want to be very clear, the Second Mile in Pennsylvania was labeled as an organization that dealt with at-risk children. Those are poor children. Some might ask: Where is she going here? They are the most vulnerable. They are the most needy. And because those children were vulnerable, because those parents were vulnerable, because they were looking for relief, looking for a child to have some sort of, if you will, activity and comfort, maybe even food—I'm sure those programs and trips out of town might have also had resources that children do not have—when a child is vulnerable, they become a target for the most heinous of acts.

If I might deviate and indicate that I intend to introduce legislation on two

counts, one to suspend any Federal funding to any entity, academic, non-profit, State and local government, prosecutors' office that has covered up and not prosecuted or not reported the sexual abuse of a child, excluding if it is an academic institution, funding for scholarships and Pell Grants; and to also indicate funding, ramping up funding, for the Department of Justice for anyone who carries a child over State lines for the intent of sexually abusing a child.

□ 2030

What an untoward national image and international image we have just gotten. I don't worry about football. I'm not interested in the State. I'm not interested in the particular academic institution. I'm not pointing fingers, and I don't know the coach's name. I just know that in the course of the activity of this alleged perpetrator, there may be many more vulnerable, poor children which we're talking about tonight, the most impoverished; and that one person, among others, saw a physical sexual act and did nothing about it.

And so poverty is not only a family not having enough to eat, maybe not having clothing, maybe not having a place to live, but it also means it puts a child in the most horrible, horrific of conditions; almost to the extent, even though you would say that the predator is sick, but it puts that vulnerable child—because that parent may be vulnerable, that parent may not be home. They may be a loving parent. They may be struggling with three jobs, and they need a place for their child. The child may need the comfort and nurturing of an adult, and that child then becomes a victim. So don't think that we're standing here and arguing against poverty just to be arguing. It is a systemic atmosphere and condition that will allow you to be victimized.

Let me go to the supercommittee as I talk about what the CBC, Congressional Black Caucus, is looking at. I will follow the quotes of some I have heard who testified before the committee. I had the privilege of sitting in on one meeting, not very long, and I think they are dedicated Members of Congress. But we must know that this is not in the regular order. This was out of the order, and it came about through the forced need to lift the debt ceiling. In essence, we were taken hostage. So, frankly, I'm going to suggest that the supercommittee yield. They can go through the 23rd, but, in essence, accept the inevitable that there will be no agreement and that this Congress come back in 2012, because we have until 2013 for the sequestration, come back in 2012 and do our business and respond to the suggestions of the Congressional Black Caucus and legislation that many of us have introduced to create jobs, to balance the revenue, and do our work.

And so I want to suggest that there are many programs. The Neighborhood

Stabilization Program has been touted all over America. What it does is it brings dollars into depressed areas where these vulnerable children live, and it provides stabilization dollars, making good on 100,000 properties with \$7 billion, and it allows these properties to be restored for families. In the course of doing that, you create jobs and you don't have these big signs that say, "Foreclosure."

And then, of course, the National Housing Trust, if Congress can provide at least a billion dollars to fund the National Housing Trust, which is a mechanism for affordable housing. When a child has a room, a light, a desk, and a bed and that family feels comfortable, they are less vulnerable to sexual predators, to not having resources, to being thrown to the wolves, if you will. And it will create 15,000 jobs.

Unemployment insurance that many of us have worked on and joined Congresswoman LEE and Congressman SCOTT to extend to the 99ers and to make sure that they can put bread on their table, pay their light bill and get gas to go look for a job, it will save 500,000 jobs—500,000 jobs.

Why is no one listening? It's a simple process. And has anyone heard of a country moving forward without investment in its people? And that's what we are arguing. Very quickly, we have supported this for so long. No one will listen. Everybody that is outsourcing is taxed, and that will generate resources that will allow us to invest back into the Treasury. Then we can invest in the National Housing Trust. We can invest in the Neighborhood Stabilization Program. We can invest in the 99ers, and we can provide money to those who are in need.

Give a tax holiday for the first \$20,000 on payroll tax, which will provide the opportunity for small businesses and put income in, if you will, the pockets of many who are in need, who week to week make ends meet and are very much in need of that. As well, to help those who have been chronically unemployed, to not discriminate against them but to give a payroll tax holiday in order to hire the chronically unemployed; so when they see "Help wanted," they will be excited about hiring someone because they have that benefit.

By the way, can we make an announcement here? We are not broke. Companies have trillions of dollars in their bank accounts, and so do the banks, but they keep saying to us they're afraid to invest and let the money go because it's not a stable economy. How much louder do I have to say it's a chicken and egg? Hire people. That's a stable economy. They invest back into the economy, they begin to buy things, and then you begin to manufacture. It's a chicken and egg. It's the cart and the horse.

Mrs. CHRISTENSEN. Absolutely.

Ms. JACKSON LEE of Texas. Reestablish manufacturing. If manufactur-

ing makes things, we've got to buy things. How do you buy things? You have money to buy it. And I've been supporting this for a very long time. I'm part of the Manufacturing Caucus.

In addition, it's very important that we do as the WPA did during the time of the horrible aftermath of the Depression, and the Workforce Investment Act would be assisting 8 million people and give all of these people a chance to fix the infrastructure all across America. Cars will stop going into potholes, bridges will stop having cracks in them, and we will be able to put people to work.

TANF, if it were fully funded and if it had an emergency contingency fund that many of us have been speaking about, this would make available—create temporary jobs for adults and summer jobs, but, more importantly, it would create 240,000 jobs.

And the same thing with the infrastructure. Again, how many people have traveled with a limited amount of gas but traveled over bridges and freeways and found them in disrepair? This is a simple process.

Mrs. CHRISTENSEN. Absolutely.

Ms. JACKSON LEE of Texas. And I would argue vigorously that it is disappointing that we have not been listened to and members of the Congressional Black Caucus and the Democratic Caucus, and even today the supercommittee is speaking about not fulfilling the promise of putting the revenue on the table necessary to counter the cuts. I, frankly, don't want sequestration. The vulnerable will be hit the hardest with all of the cuts that are pointed toward Medicare, Medicaid, Social Security, food stamps, and others that they allege that are protected, but I would argue that aspects of it are not. I made a public commitment to my veterans last Friday that I would not allow for my vote and my support one iota of veterans' benefits to be cut.

I'm so tired of people talking about that we're not willing to look at Medicare, Medicaid, and Social Security. No, I am not willing to look at it as it has been proposed by my Republican friends. They know full well how they can cut this. They can follow the Affordable Care Act and close the doughnut hole on Medicare part D, the most expensive, heinous, insulting affront to spending money in the United States of America that was voted on in the Republican majority, Medicare part D that all seniors hate.

□ 2040

Our Affordable Care Act, if allowed to be implemented, would close the doughnut hole—that's one way of doing it—and seniors would jump for joy. In addition, if you start talking about provider benefits, I'm going to publicly say I oppose it. Why? Because I cannot trust the knife. What does the knife do? It goes in and slashes hospitals and home care and others possibly. And when you slash it, you do jeopardize seniors who are in hospitals.

We have to find a way to cut the waste, fraud and abuse; and we've determined that waste, fraud and abuse can save us billions of dollars. So out of my lips, I will not support cutting Medicare, Medicaid, and Social Security, or discretionary funding. I will support the creation of 8 million jobs. I will support investing in America's people. I will support getting rid of at-risk children, meaning not getting rid of them but their condition, so that we don't have to find at-risk children. What a disgrace that we take that in such a way that we categorize. These are at-risk children, these are poor children, and we just accept it. They're numbers. Well, at-risk children are impoverished, malnourished, don't have good health care, and are victims. And they can be victims of the most heinous sexual predator story, act, of our recent times. Even we've heard of the faith institution that has been under such siege that has made changes—the Catholic Church spoke out today—because it is a disease, it is an epidemic, and it comes out of poverty and vulnerability. And if we don't cut out the vulnerability of our children and families—and in this great country, even the Bible says the poor will always be with us, but they also say be busy until He comes. And that means we should be busy until the Lord comes, for those of us who believe, should be busy until He comes, making the corrections that we have to make.

So I want to thank the gentlelady for allowing me to join her and to express, as the chairwoman of the Congressional Children's Caucus, the work that should be done, the work that we've done on the issues of bullying and obesity and on nutrition. And areas like that are added to this work that has been done by the Congressional Black Caucus.

And I just simply say: Is anybody listening? Because we have the solution. And if they would only listen, 8 million jobs, children who are protected, and families who can get back on their feet and begin to invest back in this country.

With that, I thank the gentlelady for yielding.

Madam Speaker, I stand today with my colleagues from the Congressional Black Caucus to discuss the recent on poverty and healthcare. Together, we stand, firmly committed to combating poverty, eliminating hunger, and providing health insurance for all our citizens.

I am, as we all are, deeply troubled by the report issued by the U.S. Census Bureau. 1 of every 6 Americans are living in poverty, totaling 46.2 million people, this highest number in 17 years. In a country with so many resources, there is no excuse for this staggering level of poverty.

Children represent a disproportionate amount of the United States poor population. In 2008, there were 15.45 million impoverished children in the nation, 20.7% of America's youth. The Kaiser Family Foundation estimates that there are currently 5.6 million Texans living in poverty, 2.2 million of them chil-

dren, and that 17.4% of households in the state struggle with food insecurity.

In my district, the Texas 18th, more than 190,000 people live below the poverty line. We must not, we cannot, at a time when the Census Bureau places the number of American living in poverty at the highest rate in over 17 years, cut vital social services. Not in the wake of the 2008 financial crisis and persistent unemployment, when so many rely on federal benefits to survive, like the Supplemental Nutrition Access Program (SNAP) that fed 3.9 million residents of Texas in April 2011, or the Women, Infant, and Children (WIC) Program that provides nutritious food to more than 990,000 mothers and children in my home state.

The Census Bureau also reported there are 49.9 million people in this country without health insurance. This is an absolute injustice that must be addressed. We can no longer ignore the fact that nearly 50 million Americans, many of them children, have no health insurance.

Texas has the largest uninsured population in the country; 24.6% of Texans do not have health care coverage. This includes 1.3 million children in the state of Texas alone who do not have health insurance, or access to the healthcare they need.

It is unconscionable that, despite egregiously high poverty rates, Republicans seek to reduce spending by cutting social programs that provide food and healthcare instead of raising taxes on the wealthiest in the nation, or closing corporate tax loopholes.

Perhaps my friends on the other side of the aisle are content to conclude that life simply is not fair, equality is not accessible to everyone, and the less advantaged among us are condemned to remain as they are, but I do not accept that. That kind of complacency is not fitting for America.

I firmly believe that all Americans can come together to protect the most vulnerable citizens in the nation, to provide relief for the poor and the hungry, because 46 million of our fellow countrymen living in poverty, 15 million of them children, is simply unacceptable.

I urge my colleagues in Congress, and people across the nation, to look at what unites us rather than what divides us. We are linked by our compassion, and bound by the fundamental edict of the American dream that says we will strive to provide our children with a better life than we had. We can, and we must reach a compromise that will not cut valuable services from those who need government the most.

Mrs. CHRISTENSEN. Thank you, Congresswoman JACKSON LEE, for joining us. Thank you for the work that you do on the Judiciary Committee, and especially for your strong defense of children and the rights of children and the protection of children in this country. We look forward to the introduction of your bills as well, and we ask for the support of our colleagues for them, both as cosponsors and when they get to the floor.

Ms. JACKSON LEE of Texas. Will the gentlelady yield?

Mrs. CHRISTENSEN. I yield to the gentlewoman.

Ms. JACKSON LEE of Texas. If I might, as I close, I did mention education. Many of us know that we are

facing huge cuts in education. Again, who does it hit? The vulnerable children in public schools. And I just have to, before I leave the microphone, mention the North Forest Independent School District, the only majority minority school district left in the State of Texas, targeted for closing, not because it's not welcomed by parents, teachers, and others, but because the State simply wants to be on a budget-cutting trip, if you will. And I leave the podium by saying to my Governor, Governor Perry, as I've talked about impoverished children, don't close, and don't condemn our children who are trying to learn in North Forest Independent School District. And to my colleagues: Education creates jobs—and I mentioned the teachers—but also, it invests in our children.

I thank the gentlelady for yielding to me.

Mrs. CHRISTENSEN. Thank you. And thank you for the optimism about the outcome of the Affordable Care Act at the Supreme Court. I wish I shared your optimism, but we'll take that as a very positive outlook on the outcome, and I hope that indeed your predictions are correct.

GENERAL LEAVE

Mrs. CHRISTENSEN. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the subject of the Special Order this evening.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the Virgin Islands?

There was no objection.

Ms. EDDIE BERNICE JOHNSON of Texas, Madam Speaker, after more than 300 days in the majority, Republicans have failed to enact a much needed jobs agenda that will strengthen America's weakened economy. While failing to put forth a solid jobs agenda, they have simultaneously said no to President Obama's American Jobs Act. Sadly students, teachers, first responders, and America's families are paying the price.

The clock is running out as the deadline for a deficit plan from Joint Select Committee on Deficit reduction looms ahead. In these last few days, I challenge the Joint Select Committee to put politics aside and to work together to create jobs and protect America's most vulnerable citizens.

As the unemployment rate remains high, millions of Americans continue to live at or below the poverty line. Texas has the second highest rate of food insecure children in the nation. Last year 4.2 million Texans either experienced hunger outright or altered their consumption to avoid going hungry. I urge the Joint Select Committee to reject any policies that will increase hunger and poverty in America.

We must ensure that the Joint Committee on Deficit Reduction focuses on economic growth and job creation to stop the spread of hunger and poverty in our country. Lastly, I urge the Committee to do whatever it takes to prioritize steady growth of our investments in science, technology, and STEM education. It is when our economy is hurting the most that

we should be redoubling our efforts to innovate our way into a brighter future of new jobs, new technologies, and untold societal benefits.

Ms. LEE of California. Madam Speaker, again, I rise to bring attention to the Crisis of Poverty in America.

As a founder and Co-Chair of the Congressional Out of Poverty Caucus, in 2008, I was proud to introduce H. Con. Res. 198, which committed the House of Representatives to setting a goal of cutting poverty in half in ten years. I was proud that the House passed my resolution unanimously.

I hope that together this Congress can take the first steps toward that goal.

The Crisis of Poverty in America is nothing short of a national emergency and we must begin to act like it.

The U.S. Census recently released their supplemental poverty estimates which confirms what every other survey and report has shown, that communities of color continue to face tragically higher rates of poverty than their white counterparts.

27.4 and 26.5 percent of Black and Hispanic communities suffer under poverty respectively when compared to the 9.9 percent rate of their white counterparts. This is no accident, rather the direct result of a long history of disparity and a lack of economic, educational and entrepreneurial opportunity in our communities.

We know that this disparity is reflected in the rates of unemployment, in the ranks of the uninsured, in the impact of health care disparities, in education, in income and in the already vast and expanding wealth gap.

Doing everything that we can to reduce poverty and to end this terrible racial disparity is not only the morally right thing to do, but it is the best way to jump start the economy as well.

There is simply no way forward for our economy that leaves communities of color and the poor behind.

As I said, it is time to take the first step on the road to cutting poverty in half in America.

I have introduced H.R. 3300, the Half in Ten Act of 2011, which 55 of our colleagues have co-sponsored.

My bill would establish the Federal Inter-agency Working Group on Reducing Poverty.

The Working Group will develop and implement a national plan to reduce poverty in half in ten years.

They would also work to eliminate child poverty, extreme poverty, and finally bring an end to the historic and on-going disparity in poverty rates in communities of color.

The Half in Ten Act would dramatically improve how the federal government responds to the needs of families in poverty.

It is time to work together to dramatically improve access to opportunity for low income Americans so that they can climb up the economic ladder and reignite the fire of every American Dream.

It is clear that our policies and programs addressing poverty have not kept pace with the growing needs of millions of Americans. It is time we make the commitment to confront poverty head-on, create pathways out of poverty and provide opportunities for all.

I encourage my colleagues to support H.R. 3300.

Mrs. CHRISTENSEN. Madam Speaker, I yield back the balance of my time.

ISSUES FACING AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the gentleman from Texas (Mr. GOHMERT) is recognized for 30 minutes.

Mr. GOHMERT. It is interesting to see the way the negotiations with the supercommittee are playing out. Some of us didn't vote for the debt ceiling bill. I know in my own case I didn't vote for it because I read it, and I was concerned it was not a good idea.

Our country should not put its national security as a bargaining chip on the table. National security is important to everyone on both sides of the aisle; it should never be used as a bargaining chip, whether or not we're going to devastate it.

On the other side, the defense would be devastated at the same time Medicare would be devastated. If the supercommittee's recommendations are not approved by at least seven of the 12 and then Congress does not pass them into law, Medicare gets cut and so does the national security get devastated.

So who stands to win and who stands to lose in that scenario? Well, we know that when what is commonly referred to as ObamaCare—I don't even remember the real name—when that got passed, AARP indicated, hey, that's a good idea, even though it had \$500 billion in cuts to Medicare. I couldn't believe that some of the groups that endorsed that bill did endorse it because, for one, it had \$500 billion in cuts to Medicare. You know, we've got AARP stirring up seniors right now—send in a petition, tell them you don't want any cuts to Medicare, that you're a member of AARP. And I appreciated those petitions very much. Those people that felt Medicare shouldn't have been cut should have been telling that to AARP back when they were thinking that ObamaCare was a good idea. It wasn't then, it's not now, and it won't be if it kicks into effect fully and people start having rationed care.

So, what would take people's minds off the fact that the President's pride and joy, his health care bill, cut \$500 billion from Medicare and Republicans didn't support it? didn't think it was a good idea? That's 100 percent a Democratic bill that was ramrodded through with most of the country against it. So the President has to carry that mantle, as do the leaders in charge at that time, the people that were in the majority in the House at that time under Speaker PELOSI as she pushed it through, commenting that we needed to pass it so we could find out what was in it. Well, I had read it. I knew what was in it, and knew it was a disaster waiting to happen. I knew that it hurt seniors badly.

So we come back again to this supercommittee. What do Leader REID and the Senate Democrats—even House Democrats—have to gain if the supercommittee's proposals are not adopted? Well, there will be massive cuts to security, and there will be massive cuts

to Medicare. And that will mean, from a political standpoint, that those same people that rammed through ObamaCare against the country's will will then be able to say before next year's election, look what happened.

□ 2050

Republicans caused a massive cut to Medicare. They're the ones to blame. They'll be able to take people's minds off the fact that ObamaCare was a \$500 billion cut to Medicare to our seniors that will result in them having rationed care, getting on long lists before they can get treated, like happens in England, like happens in Canada. You get on a list to get your mammogram, get on a list if there's cancer there to have it biopsied or if there's a lump, having it biopsied, get on a list, have therapy of some kind, whether it's surgery, whether it's radiation, chemo, whatever kind of cancer it is. You get on a list.

I mentioned before a man originally from Canada who said his father died because he was on a list to have a bypass surgery for 2 years. If he'd been in the U.S., the son said he'd still be alive. But he was in Canada, and because they have the socialized medicine program basically embraced by ObamaCare, then you are going to, you know, end up on a list. That's what happens when the government's completely in charge of health care. It doesn't have to be like that.

When you look at the amount that the Federal Government, State governments spend on Medicare and Medicaid, divided by the number of households in the country, we've gotten a bunch of different numbers, but it appears that it may be around \$25,000 for every household on Medicare or Medicaid. Between \$20,000 and \$30,000 just to pay for health insurance?

We'd be far better off buying them a high-deductible policy and giving them cash money in an HSA, a health savings account, with a debit card they control. They decide what doctor they go to; they decide what hospital they go to. They decide whether they want this medicine or that medicine. And when they go through, if they go through the amount of the high deductible, that's all the money to cover that's in their health savings account, then their insurance kicks in, and we finally get the insurance companies out of the health management business and back into the health insurance business. Because right now we don't really have any health insurance companies. We've got health management companies.

I want to go back to having health insurance companies. Insurance is when someone pays a small amount monthly, quarterly, semi-annually, annually to ensure against some unforeseen event, either a catastrophic disease or accident. It's unforeseen. Don't know if it's going to happen. Don't know if you're going to run up health expenses to that kind of high mark so

you've got an insurance policy to ensure against that unforeseen event or disease. That's insurance.

If we don't get the insurance companies back in the business of insurance instead of management, they may not be around because there will always be people that want to push something like the President did last year.

Most of us, I think, don't want the government telling us what medication we can have, what doctor we can see, why we can't see a doctor, why we're going to have to pay through the nose, why we'll have to buy an additional insurance policy to cover all the gaping holes that Medicare or Medicaid leave.

It would be nice if people didn't have to buy the supplemental insurance policies. But here again, you know, follow the money. AARP makes hundreds of millions of dollars each year selling their supplemental insurance, so they had a vested interest—who can blame them?—in wanting to push through ObamaCare when it means even more money for their supplemental policies.

What I'm talking about is a situation where seniors can have a choice. You can have your Medicare. If you're on Medicaid, you can have Medicaid; or we'll give you a debit card where you're back in control of your own health care.

Why not? It would be cheaper. It gets back to a real doctor/patient relationship. It gets people back in charge of their own health situations.

Well, the reason is because for many people, it's all about the GRE, the government running everything. The Founders didn't want the government running everything, but once the government has control of everyone's health care, they have a legitimate right to dictate what you can eat, what you can't eat, what you have to do in the way of exercise, what you can't do in the way of physical activity. They've got a right because they're paying for your health care. If they're paying for the health care, they have a right to tell you what you can or can't do.

I do not want to live in a country where the government gets to tell me what I can eat or not eat, do or not do. Government's role is supposed to protect people against evil, against evil people or countries who want to take away their freedoms and liberty. In other words, it's addressed in the United States Constitution as providing for the common defense. That's what we ought to be doing.

And then on the domestic front, our job is to provide a level playing field where everyone has an equal opportunity to pursue happiness. Nobody's guaranteed happiness—that comes in the heart—but everyone would have an equal opportunity to pursue it. That's what we're supposed to do.

We're supposed to be referees. We're not supposed to be the player/referee. What a terrible game to be in where the government's both player and referee.

But I do want to give the President credit any time I can, and he's been running around, even recently again—I believe it was last night I saw him—talking about Congress doing nothing, that that's what Congress wants to do. Well, again, I've got to give him credit. He's half right on that.

The Senate hasn't passed a budget in over 900 days. He's right. It's a do-nothing Senate. They refused to pass any kind of debt ceiling bill until basically the House passed one that was acceptable. We should have forced them to pass their own CR back in March, their continuing resolution; but they were negotiated with, and a bill was crafted that it appeared they could agree to pass in the Senate.

What the country needs to see is what the House stands for, what the majority in the House stands for and what the majority in the Senate stands for, and I'm not sure that people have seen that. But it means the House should pass what a majority in the House believes is best for the country and then stand, unmoved until the Senate passes something. Instead of trying to hit a mark that we think the Senate can hit, we pass what we believe in, as cut, cap and balance passed, and then don't try to keep coming back and hitting a mark the Senate—make them pass something.

And in the rules, the law is very clear. This is all provided for. The Constitution provides for these two parties. It expected there would be times when they'd pass a different bill from us, and it would go to a conference committee and then a compromise is worked out. And then those of us in the majority in the House can say, see what we passed at first, like cut, cap and balance? This is what we believe in.

See what the Senate passed first? See this monstrosity? That's what they believe in.

□ 2100

So in the next election, when the House can say if you want more of this kind of bill and responsible spending, not continued runaway spending, this is what you do. If you want the continued runaway spending, more and more and more taxes, then go with the Senate.

I think there's some evidence to support that there are people in the opposition party who want to see the supercommittee fail, that want to see the massive cuts to Medicare—not that that would ever be said publicly, but we know that PAT TOOMEY, as he talked about yesterday, JEB HENSARLING talked about, two of our brightest minds on financial issues. We've got some really good quality people on that supercommittee, so-called.

Senator TOOMEY apparently had a framework worked out, and the indications were there were Democrats who were agreeing that it was not a bad setup. There would be some people who

would lose some deductions that would, therefore, raise revenue without raising the taxation rate, but, in fact, the taxation rate would be lowered to a rate in the twenties, corporate tax in the twenties, but there would be enough deductions and write-offs that would be eliminated, it was actually going to raise revenue.

One Democrat even said that was a huge breakthrough when that was proposed. It gave a lot of hope that something was going to be worked out.

But then they talked to Democratic leaders. We're not privy to what was said. Next thing you know, there is no agreement. They're not going to agree to a deal. So you can't help but wonder if that's evidence that they really didn't want this bill to pass because if the supercommittee came up with a way to cut \$1.2 trillion off the budget over the next 10 years—it's only \$120 billion a year—then people next year at election time would really begin to realize just what ObamaCare did in cutting \$500 billion off Medicare.

But if there are these massive cuts to Medicare, then Republicans can be blamed before the next election, even though it obviously would have been them standing in the way of passing a bill through the supercommittee.

One of the things that should be a no-brainer but apparently it's a no-starter, that is a zero baseline budget bill. Chairman RYAN has assured me and on television and Speaker BOEHNER has said, we're going to bring that to the floor this year for a vote. It's going to be passed out of the Budget Committee. I guess you can't guarantee that it will be passed, but I sure feel strongly when it's brought up for a vote in the Budget Committee, it will pass. When it's brought here to the floor, it will pass.

That will end this ridiculous automatic increase in Federal budgets that was begun by a very, very liberal Congress back in 1974, the same one that created CBO and started the ridiculous rules that they're bound by that do not let them consider historic reality in scoring a bill but only has to follow a formula that sometimes forces them to come up with a scoring that is completely unreal and not supported by history.

Well, we've got trouble here, and it's not looking good for that getting accomplished as it should. People are playing games and America will suffer.

The Book of Proverbs tells us that where there is no vision, the people perish, and if we don't get people getting a bigger vision not only of where this country has come from but where it could go, then people are going to perish, and it's so unnecessary.

It was interesting meeting again last week with Prime Minister Netanyahu. He was appreciative of House Resolution 271, I provided a copy, which goes through a lot of whereases. We've got lots of cosponsors on this. I hope if anybody is not on, that they'll sure add their name to this on both sides of the aisle.

The whereases include:

Whereas archeological evidence exists confirming Israel's existence as a nation over 3,000 years ago in the area in which it currently exists, despite assertions of its opponents.

It says 3,000 years ago. That was about the time of King David ruling in Hebron and also the City of David. It just turns out archeologically, it's immediately south of the area where the current walled city is. And of course the walled city is over the area which was original Temple Mount and Herodian Temple Mount and then hundreds of years later became of interest to people of the Islamic religion. But it's actually much more than 3,000 years ago.

Nonetheless, the bill says:

Whereas with the dawn of modern Zionism, the national liberation movement of the Jewish people, some 150 years ago, the Jewish people determined to return to their homeland in the Land of Israel from the lands of their dispersion.

And so that means for people who are really wonderful, big-hearted people like Helen Thomas but are just ignorant of actual history, Jews didn't come from Poland. They were originally in the Promised Land that extended from the Mediterranean to the Euphrates, if you go back and look at the promises made to David.

Whereas in 1922, the League of Nations mandated that the Jewish people were the legal sovereigns over the Land of Israel and that legal mandate has never been superseded;

Whereas in the aftermath of the Nazi-led Holocaust from 1933 to 1945, in which the Germans and their collaborators murdered 6,000,000 Jewish people in a premeditated act of genocide, the international community recognized that the Jewish state, built by Jewish pioneers must gain its independence from Great Britain;

Whereas the United States was the first nation to recognize Israel's independence in 1948, and the State of Israel has since proven herself to be a faithful ally of the United States in the Middle East;

Whereas the United States and Israel have a special friendship based on shared values, and together share the common goal of peace and security in the Middle East;

Whereas, on October 20, 2009, President Barack Obama rightly noted that the United States-Israel relationship is a "bond that is much more than a strategic alliance.";

Whereas the national security of the United States, Israel, and allies in the Middle East face a clear and present danger from the Government of the Islamic Republic of Iran seeking nuclear weapons and the ballistic missile capability to deliver them;

Whereas Israel would face an existential threat from a nuclear weapons-armed Iran;

Whereas President Barack Obama has been firm and clear in declaring United States opposition to a nuclear-armed Iran, stating on November 7, 2008, "Let me state—repeat what I stated during the course of the campaign. Iran's development of a nuclear weapon I believe is unacceptable."

And we know that since President Obama stated it, he absolutely means it, even though he said that the negotiations on health care would be on C-SPAN, would be open for everybody, even though there were comments that

he'd be focused on jobs like a laser. Hopefully he really meant this.

Whereas, on October 26, 2005, at a conference in Tehran called "World Without Zionism", Iranian President Mahmoud Ahmadinejad stated, "God willing, with the force of God behind it, we shall soon experience a world without the United States and Zionism";

Whereas the New York Times reported that during his October 26, 2005, speech, President Ahmadinejad called for "this occupying regime [Israel] to be wiped off the map";

Whereas, on April 14, 2006, Iranian President Ahmadinejad said, "Like it or not, the Zionist regime [Israel] is heading toward annihilation";

Whereas, on June 2, 2008, Iranian President Ahmadinejad said, "I must announce that the Zionist regime [Israel], with a 60-year record of genocide, plunder, invasion, and betrayal is about to die and will soon be erased from the geographical scene";

Whereas, on June 2, 2008, Iranian President Ahmadinejad said, "Today, the time for the fall of the satanic power of the United States has come, and the countdown to the annihilation of the emperor of power and wealth has started";

Whereas, on May 20, 2009, Iran successfully tested a surface-to-surface long range missile with an approximate range of 1,200 miles;

Whereas Iran continues its pursuit of nuclear weapons;

Whereas Iran has been caught building three secret nuclear facilities since 2002;

Whereas Iran continues its support of international terrorism, has ordered its proxy Hizbullah to carry out catastrophic acts of international terrorism such as the bombing of the Jewish AMIA Center in Buenos Aires, Argentina, in 1994, and could give a nuclear weapon to a terrorist organization in the future;

Whereas Iran has refused to provide the International Atomic Energy Agency with full transparency and access to its nuclear program;

Whereas United Nations Security Council Resolution 1803 states that according to the International Atomic Energy Agency, "Iran has not established full and sustained suspension of all enrichment related and reprocessing activities and heavy-water-related projects as set out in resolution 1696 (2006), 1737 (2006) and 1747 (2007) nor resumed its cooperation with the IAEA under the Additional Protocol, nor taken the other steps required by the IAEA Board of Governors, nor complied with the provisions of Security Council resolution 1696 (2006), 1737 (2006) and 1747 (2007) . . .";

Whereas at July 2009's G-8 Summit in Italy, Iran was given a September 2009 deadline to start negotiations over its nuclear programs and Iran offered a five-page document lamenting the "ungodly ways of thinking prevailing in global relations" and included various subjects, but left out any mention of Iran's own nuclear program which was the true issue in question;

Whereas the United States has been fully committed to finding a peaceful resolution to the Iranian nuclear threat, and has made boundless efforts seeking such a resolution and to determine if such a resolution is even possible;

Whereas the United States does not want or seek war with Iran, but it will continue to keep all options open to prevent Iran from obtaining nuclear weapons; and

Whereas Israeli Prime Minister Netanyahu said in January 2011 that a change of course in Iran will not be possible "without a credible military option that is put before them by the international community led by the United States": Now, therefore, be it

Resolved, That the House of Representatives—

(1) condemns the Government of the Islamic Republic of Iran for its threats of "annihilating" the United States and the State of Israel, for its continued support of international terrorism, and for its incitement of genocide of the Israeli people;

(2) supports using all means of persuading the Government of Iran to stop building and acquiring nuclear weapons;

(3) reaffirms the United States bond with Israel and pledges to continue to work with the Government of Israel and the people of Israel to ensure that their sovereign nation continues to receive critical economic and military assistance, including missile defense capabilities, needed to address the threat of Iran; and

(4) expresses support for Israel's right to use all means necessary to confront and eliminate nuclear threats posed by Iran, defend Israeli sovereignty, and protect the lives and safety of the Israeli people, including the use of military force if no other peaceful solution can be found within a reasonable time.

Now there's a bunch of cosponsors on this bill but we need a lot more. We need pressure to bring it to the floor of the House and of the Senate.

Prime Minister Netanyahu is right, sanctions won't do it. Unless Iran knows that the military threat is very real, they're not likely to stop.

People keep talking about sanctions, sanctions. If we just sanction the banks, if we sanction this, if we sanction that. Well, the truth is Russia and China have said they're not going to play that game; they're not going to get involved. And as upset as I have been with Russia and China over some issues, I am grateful that they're honest about this. My concern was Russia and China would say, Okay, we'll have sanctions, knowing that there is no better time to make an absolute fortune than when some sanctions are declared against a country that has something like oil because it means all the other countries that are participating in the sanctions don't get to benefit from any contracts, and, therefore, that means the bigger share for whoever wants to cheat on the sanctions. At least Russia and China have been honest and said, We're not going to do the sanctions. So why in the world are we bothering these days to keep saying sanctions are going to work?

Madam Speaker, it's very clear Iran is a threat to the United States and Israel, and we should not leave it to Israel to defend the United States. We ought to defend ourselves and go after Iran and take care of this problem ourselves.

With that, I yield back the balance of my time.

(1) Firearm traces are designed to assist law enforcement authorities in conducting investiga-

tions by tracking the sale and possession of specific firearms. Law enforcement agencies may request firearms traces for any reason, and those reasons are not necessarily reported to the Federal Government. Not all firearms used in crime are traced and not all firearms traced are used in crime.

(2) Firearms selected for tracing are not chosen for purposes of determining which types, makes, or models of firearms are used for illicit purposes. The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. Firearms are normally traced to the first retail seller, and sources reported for firearms traced do not necessarily represent the sources or methods by which firearms in general are acquired for use in crime.

SEC. 517. The results shall be made available in redacted form to exclude—

(1) any matter described in section 552(b) of title 5, United States Code; and

(2) sensitive personal information for any individual, the public access to which could be used to commit identity theft or for other inappropriate or unlawful purposes.

(c) A grant or contract funded by amounts appropriated by this Act may not be used for the purpose of defraying the costs of a banquet or conference that is not directly and programmatically related to the purpose for which the grant or contract was awarded, such as a banquet or conference held in connection with planning, training, assessment, review, or other routine purposes related to a project funded by the grant or contract.

(d) Any person awarded a grant or contract funded by amounts appropriated by this Act shall submit a statement to the Secretary of Commerce, the Attorney General, the Administrator, Director, or President, as appropriate, certifying that no funds derived from the grant or contract will be made available through a subcontract or in any other manner to another person who has a financial interest in the person awarded the grant or contract.

(e) The provisions of the preceding subsections of this section shall take effect 30 days after the date on which the Director of the Office of Management and Budget, in consultation with the Director of the Office of Government Ethics, determines that a uniform set of rules and requirements, substantially similar to the requirements in such subsections, consistently apply under the executive branch ethics program to all Federal departments, agencies, and entities.

None of the funds appropriated or otherwise made available under this Act may be used by the Departments of Commerce and Justice, the National Aeronautics and Space Administration, or the National Science Foundation to acquire information technology systems unless the respective Secretary or head of agency, in consultation with the Federal Bureau of

Investigation or other appropriate Federal agencies, has assessed any associated risk of cyber-espionage or sabotage.

SEC. 520. (b) The foregoing exemption from obtaining an export license—

(1) does not exempt an exporter from filing any Shipper's Export Declaration or notification letter required by law, or from being otherwise eligible under the laws of the United States to possess, ship, transport, or export the articles enumerated in subsection (a); and

(2) does not permit the export without a license of—

(A) fully automatic firearms and components and parts for such firearms, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada;

(B) barrels, cylinders, receivers (frames) or complete breech mechanisms for any firearm listed in Category I, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada; or

(C) articles for export from Canada to another foreign destination.

(c) In accordance with this section, the District Directors of Customs and postmasters shall permit the permanent or temporary export without a license of any unclassified articles specified in subsection (a) to Canada for end use in Canada or return to the United States, or temporary import of Canadian-origin items from Canada for end use in the United States or return to Canada for a Canadian citizen.

(d) The President may require export licenses under this section on a temporary basis if the President determines, upon publication first in the Federal Register, that the Government of Canada has implemented or maintained inadequate import controls for the articles specified in subsection (a), such that a significant diversion of such articles has and continues to take place for use in international terrorism or in the escalation of a conflict in another nation. The President shall terminate the requirements of a license when reasons for the temporary requirements have ceased.

SEC. 521. Notwithstanding any other provision of law, no department, agency, or instrumentality of the United States receiving appropriated funds under this Act or any other Act shall obligate or expend in any way such funds to pay administrative expenses or the compensation of any officer or employee of the United States to deny any application submitted pursuant to 22 U.S.C. 2778(b)(1)(B) and qualified pursuant to 27 CFR section 478.112 or .113, for a permit to import United States origin "curios or relics" firearms, parts, or ammunition.

SEC. 522. None of the funds made available in this Act may be used to include in any new bilateral or multilateral trade agreement the text of—

(1) paragraph 2 of article 16.7 of the United States-Singapore Free Trade Agreement;

(2) paragraph 4 of article 17.9 of the United States-Australia Free Trade Agreement; or

(3) paragraph 4 of article 15.9 of the United States-Morocco Free Trade Agreement.

SEC. 523. The Secretary, Administrator, or Director shall notify the House and Senate Committees on Appropriations within 30 days in writing of such increase, and shall include in such notice: the date on which such determination was made; a statement of the reasons for such increases; the action taken and proposed to be taken to control future cost growth of the project; changes made in the performance or schedule milestones and the degree to which such changes have contributed to the increase in total program costs or procurement costs; new estimates of the total project or procurement costs; and a statement validating that the project's management structure is adequate to control total project or procurement costs.

SEC. 525. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence or intelligence related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2012 until the enactment of the Intelligence Authorization Act for fiscal year 2012.

SEC. 526. The Departments, agencies, and commissions funded under this Act, shall establish and maintain on the homepages of their Internet websites—

(1) a direct link to the Internet Web sites of their Offices of Inspectors General; and

NEIGHBORHOOD REINVESTMENT CORPORATION
PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION

For payment to the Neighborhood Reinvestment Corporation for use in neighborhood reinvestment activities, as authorized by the Neighborhood Reinvestment Corporation Act (42 U.S.C. 8101–8107), \$135,300,000, of which \$5,000,000 shall be for a multi-family rental housing program: Provided, That in addition, \$80,000,000 shall be made available until expended to the Neighborhood Reinvestment Corporation for mortgage foreclosure mitigation activities, under the following terms and conditions:

(1) The Neighborhood Reinvestment Corporation ("NRC") shall make grants to counseling intermediaries approved by the Department of Housing and Urban Development (HUD) (with match to be determined by the NRC based on affordability and the economic conditions of an area; a match also may be waived by the NRC based on the aforementioned conditions) to provide mortgage foreclosure mitigation assistance primarily to States and areas with high rates of defaults and foreclosures to help eliminate the default and foreclosure of mortgages of owner-occupied single-family homes that are at risk of such foreclosure. Other than areas with high rates of defaults and foreclosures, grants may also be provided to approved counseling intermediaries based on a geographic analysis of the Nation by the NRC which determines where

there is a prevalence of mortgages that are risky and likely to fail, including any trends for mortgages that are likely to default and face foreclosure. A State Housing Finance Agency may also be eligible where the State Housing Finance Agency meets all the requirements under this paragraph. A HUD-approved counseling intermediary shall meet certain mortgage foreclosure mitigation assistance counseling requirements, as determined by the NRC, and shall be approved by HUD or the NRC as meeting these requirements.

(2) Mortgage foreclosure mitigation assistance shall only be made available to homeowners of owner-occupied homes with mortgages in default or in danger of default. These mortgages shall likely be subject to a foreclosure action and homeowners will be provided such assistance that shall consist of activities that are likely to prevent foreclosures and result in the long-term affordability of the mortgage retained pursuant to such activity or another positive outcome for the homeowner. No funds made available under this paragraph may be provided directly to lenders or homeowners to discharge outstanding mortgage balances or for any other direct debt reduction payments.

(3) The use of Mortgage Foreclosure Mitigation Assistance by approved counseling intermediaries and State Housing Finance Agencies shall involve a reasonable analysis of the borrower's financial situation, an evaluation of the current value of the property that is subject to the mortgage, counseling regarding the assumption of the mortgage by another non-Federal party, counseling regarding the possible purchase of the mortgage by a non-Federal third party, counseling and advice of all likely restructuring and refinancing strategies or the approval of a work-out strategy by all interested parties.

(4) NRC may provide up to 15 percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a certification by the NRC that the procedures for selection do not consist of any procedures or activities that could be construed as an unacceptable conflict of interest or have the appearance of impropriety.

(5) HUD-approved counseling entities and State Housing Finance Agencies receiving funds under this paragraph shall have demonstrated experience in successfully working with financial institutions as well as borrowers facing default, delinquency and foreclosure as well as documented counseling capacity, outreach capacity, past successful performance and positive outcomes with documented counseling plans (including post mortgage foreclosure mitigation counseling), loan workout agreements and loan modification agreements. NRC may use other criteria to demonstrate capacity in underserved areas.

(6) Of the total amount made available under this paragraph, up to \$3,000,000 may be made available to build the mortgage foreclosure and default mitigation counseling capacity of counseling intermediaries through NRC training courses with HUD-approved counseling intermediaries and their partners, except that private financial institutions that participate in NRC training shall pay market rates for such training.

(7) Of the total amount made available under this paragraph, up to 5 percent may be used for associated administrative expenses for the NRC to carry out activities provided under this section.

(8) Mortgage foreclosure mitigation assistance grants may include a budget for outreach and advertising, and training, as determined by the NRC.

(9) The NRC shall continue to report bi-annually to the House and Senate Committees on Appropriations as well as the Senate Banking Committee and House Financial Services Committee on its efforts to mitigate mortgage default.

(3) does not require prior employee notification of the content and methods to be used in the training and written end of course evaluation;

(4) contains any methods or content associated with religious or quasi-religious belief systems or "new age" belief systems as defined in Equal Employment Opportunity Commission Notice N-915.022, dated September 2, 1988; or

(b) Nothing in this section shall prohibit, restrict, or otherwise preclude an agency from conducting training bearing directly upon the performance of official duties.

SEC. 409. No funds in this Act may be used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for a public use: Provided, That for purposes of this section, public use shall not be construed to include economic development that primarily benefits private entities: Provided further, That any use of funds for mass transit, railroad, airport, seaport or highway projects as well as utility projects which benefit or serve the general public (including energy-related, communication-related, water-related and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health and safety or brownfield as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107-118) shall be considered a public use for purposes of eminent domain.

SEC. 412. No funds appropriated pursuant to this Act may be expended by an entity unless the entity agrees that in expending the assistance the entity will comply with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a-10c, popularly known as the "Buy American Act").

SEC. 413. No funds appropriated or otherwise made available under this Act shall be made available to any person or entity that has been convicted of violating the Buy American Act (41 U.S.C. 10a-10c).

SEC. 414. None of the funds made available in this Act may be used for first-class airline accommodations in contravention of sections 301-10.122 and 301-10.123 of title 41, Code of Federal Regulations.

SEC. 415. None of the funds made available under this Act or any prior Act may be provided to the Association of Community Organizations for Reform Now (ACORN), or any of its affiliates, subsidiaries, or allied organizations.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2112) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2012, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2012; the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2012; and the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2012. The agreement also includes further continuing appropriations for fiscal year 2012.

The conference agreement does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

The conferees concur with the Senate amendment to the title of the bill.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the House Report (H.Rpt. 112-101) and Senate Report (S.Rpt. 112-73) that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS PRODUCTION, PROCESSING, AND MARKETING OFFICE OF THE SECRETARY

The conference agreement provides \$4,550,000 for the Office of the Secretary instead of \$4,293,000 as proposed by the House and \$4,798,000 as proposed by the Senate.

The conferees appreciate the detailed information provided in the Explanatory Notes and rely on this information when considering budget proposals. As budgetary constraints continue to apply downward pressure on agency resources, it will become increasingly necessary to have budgetary information of the Department in a manner that provides a more complete understanding of all activities occurring within the account totals. For that reason, the conferees direct the Secretary, beginning with presentation of the fiscal year 2013 budget, to provide additional information of Departmental activities measured against a baseline of actual spending for the previous three fiscal years rather than a description only of specific changes from the previous fiscal year with the ultimate goal, over time, of providing to the Committees on Appropriations budgetary estimates as measured against a zero base. The conferees further direct the Department to include an errata sheet in the Explanatory Notes of any proposed budget authority levels that do not conform to the budget appendix. The Explanatory Notes should be assembled with the accounts in the same order as the accounts in the bill unless otherwise approved in advance by the Committees on Appropriations of both Houses of Congress.

The Secretary is directed to provide to the Committees on Appropriations of the House and Senate a report describing plans to implement reductions to salaries and expenses accounts included in this Act.

The conferees direct the Secretary to submit the conference transparency report required by section 14208 of Public Law 110-246 to the Committees on Appropriations of the House and Senate and the Office of Inspector General. In addition, the conferees direct the Secretary to begin submitting this report, and making it publicly available, on a quarterly basis instead of annually. The report shall include the cost of any food or beverages, the cost of any audio-visual services, and a description of the contracting procedures on whether the contracts were awarded on a competitive basis for that conference.

OFFICE OF TRIBAL RELATIONS

The conference agreement provides \$448,000 for the Office of Tribal Relations instead of \$423,000 as proposed by the House and \$473,000 as proposed by the Senate.

HEALTHY FOOD FINANCING INITIATIVE

The conference agreement does not include an appropriation for the Healthy Food Financing Initiative (HFFI). The conferees direct the Department to carefully weigh the benefits between those known results from the expenditure of funds on proven programs in the Rural Development and Marketing and Regulatory Programs mission areas against the unknown results of expenditures on the HFFI. While the HFFI has the laudable goal of ensuring that more people have access to nutritious foods, the initiative has yet to prove that any expenditures made for this initiative have been effective in meeting this goal. The conferees remind the Department that any funding for the HFFI is subject to the reprogramming requirements in this Act, and prior to any reprogramming request; the conferees direct the Department to submit to the Committees on Appropriations of both Houses of Congress a system of metrics to measure the effectiveness and expected results for this initiative. The conferees expect that the Office of Chief Economist will play a key role in the development of such metrics.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The conference agreement provides \$11,177,000 for the Office of the Chief Econo-

mist instead of \$10,707,000 as proposed by the House and \$11,408,000 as proposed by the Senate.

NATIONAL APPEALS DIVISION

The conference agreement provides \$12,841,000 for the National Appeals Division instead of \$12,091,000 as proposed by the House and \$13,514,000 as proposed by the Senate.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The conference agreement provides \$8,946,000 for the Office of Budget and Program Analysis as proposed by the Senate instead of \$8,004,000 as proposed by the House.

OFFICE OF HOMELAND SECURITY AND EMERGENCY COORDINATION

The conference agreement provides \$1,321,000 for the Office of Homeland Security and Emergency Coordination instead of \$1,272,000 as proposed by the House and \$1,421,000 as proposed by the Senate.

OFFICE OF ADVOCACY AND OUTREACH

The conference agreement provides \$1,209,000 for the Office of Advocacy and Outreach as proposed by the House instead of \$1,351,000 as proposed by the Senate.

OFFICE OF THE CHIEF INFORMATION OFFICER

The conference agreement provides \$44,031,000 for the Office of the Chief Information Officer instead of \$34,000,000 as proposed by the House and \$36,031,000 as proposed by the Senate.

The conference agreement includes \$28,000,000 to support cybersecurity requirements of the Department.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The conference agreement provides \$5,650,000 for the Office of the Chief Financial Officer instead of \$5,310,000 as proposed by the House and \$5,935,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The conference agreement provides \$848,000 for the Office of the Assistant Secretary for Civil Rights as proposed by the Senate instead of \$760,000 as proposed by the House.

OFFICE OF CIVIL RIGHTS

The conference agreement provides \$21,000,000 for the Office of Civil Rights instead of \$19,288,000 as proposed by the House and \$21,558,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The conference agreement provides \$764,000 for the Office of the Assistant Secretary for Administration as proposed by the Senate instead of \$683,000 as proposed by the House.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$230,416,000 for Agriculture Buildings and Facilities and Rental Payments as proposed by the Senate instead of \$221,585,000 as proposed by the House. The conference agreement includes \$164,470,000 for rental payments, \$13,800,000 for Department of Homeland Security building security and \$52,146,000 for building operations and maintenance.

HAZARDOUS MATERIALS MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$3,592,000 for Hazardous Materials Management instead of \$3,393,000 as proposed by the House and \$3,792,000 as proposed by the Senate.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$24,165,000 for Departmental Administration

instead of \$16,510,000 as proposed by the House and \$28,165,000 as proposed by the Senate.

The conferees recognize the special management challenges facing the Department in view of serious constraints in fiscal resources, the requirements of a vastly dispersed workforce, and expectations of the public for continuity of vital services. It is clear that recent reductions in discretionary spending and the likely continuation of austere measures in the near term present significant difficulties to those charged with program execution. The conferees fully recognize the need, and expect the Department to achieve the most efficient methods possible to maintain the responsibilities of governance for the benefit of both the customers of USDA and the personnel charged with carrying out the missions of the Department.

The conferees expect that any substantive changes to the functions and organization of USDA follow a thoughtful analysis of implications for budgetary resources, services to customers and employees, and inherent dynamics within the Department that might result. Toward that objective, before moving forward with the implementation of any substantive reorganization, the Department is instructed to conduct a detailed analysis of the savings, efficiencies, timeline, and implications of these changes. In addition, an understanding of the methodology used for determining these factors and some form of demonstration of the results anticipated is required. Any timetable for implementation of the changes suggested obviously will be driven by the fiscal resources available and it may be prudent to give consideration to a tiered implementation as conditions dictate rather than a full scale departmental shift that would be far more complex and potentially expensive. The Secretary is instructed to provide a report, consistent with the guidance outlined above, to the Committees on Appropriations of both Houses of Congress not less than 60 days prior to the implementation of any departmental reorganization. The Secretary is further reminded of the reprogramming instructions set forth elsewhere in this Act for the purpose of any implementation stage of a proposed reorganization.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$3,576,000 for the Office of the Assistant Secretary for Congressional Relations instead of \$3,289,000 as proposed by the House and \$3,676,000 as proposed by the Senate.

OFFICE OF COMMUNICATIONS

The conference agreement provides \$8,065,000 for the Office of Communications instead of \$8,058,000 as proposed by the House and \$8,105,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$85,621,000 for the Office of Inspector General instead of \$80,000,000 as proposed by the House and \$84,121,000 as proposed by the Senate.

OFFICE OF THE GENERAL COUNSEL

The conference agreement provides \$39,345,000 for the Office of the General Counsel as proposed by the Senate instead of \$35,204,000 as proposed by the House.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

The conference agreement provides \$848,000 for the Office of the Under Secretary for Research, Education and Economics as proposed by the Senate instead of \$760,000 as proposed by the House.

The conferees recognize the broad responsibilities in agricultural research, education,

extension and economics that Congress has given to the Department. Given the current budget constraints and the need for continued investment in agricultural research to ensure productivity growth, the conferees expect USDA to fund only the highest priority agricultural research, as authorized by Congress.

ECONOMIC RESEARCH SERVICE

The conference agreement provides \$77,723,000 for the Economic Research Service as proposed by the Senate instead of \$70,000,000 as proposed by the House. This includes continued funding for the Organic Production and Market Data Initiative.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The conference agreement provides \$158,616,000 for the National Agricultural Statistics Service instead of \$149,500,000 as proposed by the House and \$152,616,000 as proposed by the Senate. This includes \$41,639,000 for the Census of Agriculture.

On October 4, 2011, the National Agricultural Statistics Service announced it was eliminating or reducing the frequency of 14 reports. While it is imperative for all of USDA's agencies and offices to prepare to address potential reductions in funding, the conferees are concerned that the agency made this announcement before a final appropriation was determined. The conferees direct NASS to reconsider its decision to eliminate or reduce the frequency of these reports and to reinstate as many reports as possible. As the agency considers which to reinstate, the conferees direct the agency to prioritize the reports that do not have similar information captured by other NASS surveys and reports or would be otherwise infrequently published. The conferees remind the agency that reducing or eliminating any survey or report is further subject to the reprogramming requirements in this Act.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$1,094,647,000 for the Agricultural Research Service, Salaries and Expenses, as proposed by the Senate instead of \$995,345,000 as proposed by the House.

The conferees do not concur with the President's budget request regarding the termination of extramural research.

The conferees concur with the proposal to close twelve research laboratories at ten locations, as specified in the President's budget request, and direct the agency to provide a report to the Committees on Appropriations of the House and the Senate on the disposition of these facilities by January 20, 2012. The conferees further direct, in concurrence with the budget proposal, that no other research facilities be closed during fiscal year 2012, except in accordance with the reprogramming requirements in this Act.

The conferees are concerned about recent outbreaks of bacterial spot disease in peppers and tomatoes in Midwestern states. The conferees encourage ARS to continue to work with collaborators on research to combat the disease and minimize economic loss to producers. ARS is directed to provide the Committees on Appropriations of the House and the Senate with a report on the status of bacterial spot disease and ongoing research efforts.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE

RESEARCH AND EDUCATION ACTIVITIES

The conference agreement provides \$705,599,000 for the National Institute of Food and Agriculture's research and education activities instead of \$596,400,000 as proposed by the House and \$709,825,000 as proposed by the Senate.

The conferees express their strong support for USDA's agricultural research, extension and education activities. USDA and other notable philanthropic and scientific organizations have highlighted the need for the United States to invest in agricultural research to ensure productivity growth and to develop and refine sound natural resources management practices for U.S. farmers and ranchers and others around the world. However, the conferees are aware of concerns about the focus of USDA's research programs, particularly projects funded through the Agriculture and Food Research Initiative. The conferees strongly encourage USDA to fund only the highest priority agricultural research, as authorized by Congress.

The conference agreement provides \$9,000,000 for Graduate Fellowship Grants, Institution Challenge Grants, and the Multicultural Scholars Program, to remain available until expended.

The conferees request that the Department make recommendations regarding the consolidation of funding lines in the National Institute of Food and Agriculture's accounts in the President's budget for fiscal year 2013 and to work with interested individuals and organizations, including the House Committee on Agriculture and the Senate Committee on Agriculture, Nutrition, and Forestry, on this issue.

The conferees direct APHIS to submit a report and updates on the status of the system as proposed in the September 28, 2010, Comprehensive Report & Implementation Plan (amended January 28, 2011) by November 30, 2011; April 1, 2012; and by August 1, 2012.

Currently, only one major lender has developed the necessary automated systems capacity. Many small rural banks and state housing agencies are precluded from program participation due to their lack of automated systems enhancements. To provide a short-term solution, the conferees provide authority to the Department to increase the guarantee fee, such that subsidy costs are covered while relying on processes that traditional program participants already have in place. The conference agreement provides \$80,401,722,000 for the Supplemental Nutrition Assistance Program instead of \$71,173,308,000 as proposed by the House and \$80,402,722,000 as proposed by the Senate. The conference agreement includes \$3,000,000,000 to be made available for a contingency reserve. The conferees note that \$3,000,000,000 was also made available in fiscal year 2011 as a contingency reserve and remains available in fiscal year 2012.

COMMODITY ASSISTANCE PROGRAM

The conference agreement provides \$242,336,000 for the Commodity Assistance Program as proposed by the Senate instead of \$197,500,000 as proposed by the House.

The conference agreement includes \$176,788,000 for the Commodity Supplemental Food Program.

The conference agreement provides \$48,000,000 for administrative funding for the Emergency Food Assistance Program (TEFAP). In addition, the conference agreement grants the Secretary authority to transfer up to an additional 10 percent from TEFAP commodities for this purpose.

The conference agreement provides \$16,548,000 for the Farmer's Market Nutrition Program and \$1,000,000 for Pacific Island Assistance.

The conferees direct USDA to make an assessment to determine if State agencies are in compliance with 7 CFR Part 251.5(b), and, if not, they are directed to issue guidance to the respective agencies on how they can comply with this regulation. Additionally, the conferees direct USDA to submit a report to the Committees on Appropriations of the House and the Senate on steps the Department might use to measure participation in the Emergency Food Assistance Program by March 16, 2012.

NUTRITION PROGRAMS ADMINISTRATION

The conference agreement provides \$138,500,000 for Nutrition Programs Administration instead of \$125,000,000 as proposed by the House and \$140,130,000 as proposed by the Senate.

TITLE V—FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE
SALARIES AND EXPENSES
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$176,347,000 for the Foreign Agricultural Service (FAS), Salaries and Expenses, as proposed by the Senate instead of \$172,500,000 as proposed by the House.

While the conferees believe that USDA, and its partner USAID, must first focus on addressing immediate emergency needs in places such as the Horn of Africa, the Department must begin to develop plans and corresponding goals aimed at building market-driven institutions and science-based regulatory frameworks that facilitate trade and create an environment conducive to agricultural growth. Therefore, the conferees direct FAS to submit a report within 60 days of enactment of this Act with options for shifting more focus in outyear budgets from long-term or extended emergency food aid programs to programs that support FAS' duties to help developing countries improve their agricultural systems and build trade capacity in order to improve their long-term economic development.

FOOD FOR PEACE TITLE I DIRECT CREDIT AND FOOD FOR PROGRESS ACCOUNT
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$2,500,000 for administrative expenses for the Food for Peace Title I Direct Credit and Food for Progress Program Account, to be transferred to and merged with the appropriation for "Farm Service Agency, Salaries and Expenses", instead of \$2,385,000 as proposed by the House and \$2,666,000 as proposed by the Senate.

FOOD FOR PEACE TITLE II GRANTS

The conference agreement provides \$1,466,000,000 for Food For Peace Title II

Grants instead of \$1,040,198,000 as proposed by the House and \$1,562,000,000 as proposed by the Senate.

The amount provided for this program is more than \$200,000,000 less than the amount requested by the President and even further below the levels appropriated in recent years. Flexibility in providing appropriations for humanitarian food assistance has been constrained by the Budget Control Act of 2011 (BCA) which established a firewall between security and non-security discretionary spending. This conference report includes only two programs under the security heading, PL 480 and the McGovern-Dole International Food for Education and Child Nutrition Program, both of which are related to humanitarian food assistance. Because of this inflexibility in shifting discretionary resources due to the requirements of the BCA, the conferees are unable to provide higher levels of funding for these two programs without being in violation of established budget caps. The conferees remain aware of the acute problems relating to global hunger, especially in view of the declared famine in the Horn of Africa, and will continue to monitor conditions there and elsewhere in the world in order to take whatever steps are available, as conditions warrant.

The conference agreement includes language in Section 741 to ensure humanitarian food assistance programs include sufficient monitoring and control mechanisms. The conferees believe that food aid should not be used as a political tool but that recipient nations do have obligations to ensure transparency and cooperation in the distribution of aid to affected populations. Should the U.S. government consider resumption of food assistance to the Democratic People's Republic of Korea, it is expected that assurances will be given to protect the integrity of program execution, including monitoring, and that any remaining issues regarding previous year program delivery be satisfactorily resolved.

COMMODITY CREDIT CORPORATION EXPORT
(LOANS) CREDIT GUARANTEE PROGRAM ACCOUNT
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$6,820,000 for the Commodity Credit Corporation Export (Loans) Credit Guarantee Program Account as proposed by the House instead of \$6,465,000 as proposed by the Senate.

MCGOVERN-DOLE INTERNATIONAL FOOD FOR
EDUCATION AND CHILD NUTRITION PROGRAM
GRANTS

The conference agreement provides \$184,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program instead of \$180,000,000 as proposed by the House and \$188,000,000 as proposed by the Senate.

The conference agreement includes the following increases: \$39,000,000 to begin implementation of the Food Safety Modernization Act; \$20,038,000 for advancing medical countermeasures; and \$12,962,000 for mandatory rental payments. The conferees also accept FDA's proposed reduction of \$22,000,000 due to administrative and contract savings. The conferees direct FDA to provide a report within 30 days of enactment of this Act on how it intends to allocate these increases.

The conferees direct that, within 90 days of the date of enactment of this Act, FDA report on the average number of calendar days that elapsed from the date that drug applications (including any supplements) were submitted to the agency under section 505 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) until the date that the drugs were approved; the average number of calendar days that elapsed from the date that applications for device clearance (including any supplements) under section 510(k) of the FD&C Act or for premarket approval (including any supplements) under section 515 of the FD&C Act were submitted to the agency until the date that the devices were cleared; and the average number of calendar days that elapsed from the date that biological license applications (including any supplements) were submitted to the agency under section 351 of the Public Health Service Act until the date that the biological products were licensed.

The conferees are concerned that FDA has not issued a proposed rule revising the monograph regulating the labeling of over-the-counter cough and cold products for children. The conferees direct the FDA to publish a proposed rule by December 31, 2011, based on the latest scientific evidence for safety and efficacy in pediatric populations.

The conferees recognize that FDA is developing facilities and expertise to study nano-

technology within FDA's Jefferson Laboratory Campus, including the National Center for Toxicological Research, and its consolidated headquarters at White Oak, Maryland. The conferees support FDA in its mission to expand upon current research in nanotechnology and support the eventual development of a Nanotechnology Core Center to meet its mission.

The conferees are aware that FDA currently inspects less than 2 percent of imported seafood. Further, many of these imports may contain substances that are banned in the United States. Therefore, the conferees direct FDA to develop a comprehensive program for imported seafood.

The conferees note that the most recent CDC estimates are that only 20 percent of foodborne illnesses are from 31 known pathogens such as norovirus, salmonella and clostridium. Since 80 percent of illnesses are caused by unknown sources, FDA is encouraged to work with the public and private sectors to gain a better understanding of the causes of illness. FDA's broader understanding of unknown sources should contribute towards the development of new strategies, policies, and foodborne illness prevention methods. While simultaneously seeking answers to unknown sources and plans to address these hazards, FDA has to do a better job of identifying more effective food safety activities that will reduce illnesses, hospitalizations, and deaths associated with the other 20 percent of foodborne illness. Within the funding level for food safety, FDA is directed to develop a clear strategy on how the agency can prioritize intervention methods along the farm to fork continuum to reduce illness once they have discovered the sources for a much greater proportion of unknown agents and to tie the funding levels for food safety to increased levels of activities to both the known and the unknown sources of illness. The conferees direct FDA to include this information in the fiscal year 2013 budget justifications to Congress.

The conferees emphasize the importance of predictability and transparency in the FDA approval process, and urge FDA to remain focused on its core mission of ensuring the safety, efficacy and security of human and veterinary drugs, biological products, medical devices, fostering the development of medical products to support the counterterrorism effort, and helping to speed innovation of safe and effective products that improve the lives of patients and consumers. The conferees urge FDA to be responsive, timely, and transparent throughout the approval process for all human and veterinary drugs, biological products, medical devices, and medical countermeasures.

BUILDINGS AND FACILITIES

The conference agreement provides \$8,788,000 for the Food and Drug Administration Buildings and Facilities as proposed by the House instead of \$8,982,000 as proposed by the Senate.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The conference agreement provides \$205,294,000, to remain available until September 30, 2013, for the Commodity Futures Trading Commission instead of \$171,930,000 as proposed by the House and \$240,000,000 as proposed by the Senate.

Of the total amount provided, the conference agreement includes \$55,000,000, to remain available until September 30, 2014, for information technology investments.

The conferees direct the CFTC to submit, within 30 days of enactment, a detailed spending plan for the allocation of the funds made available, displayed by discrete program, project, and activity, including staffing projections, specifying both FTEs and

contractors, and planned investments in information technology.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement includes a limitation of \$61,000,000 on administrative expenses of the Farm Credit Administration instead of \$62,000,000 as proposed by the House and the Senate.

The conference agreement does not include a provision (House Section 749) on the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Agriculture, the Commissioner of the Food and Drug Administration and Chairman of the Commodity Futures Trading Commission should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments or agencies should be minimized to the extent possible under the law.

The conference agreement does not include a provision (House Section 750) regarding the "Know Your Farmer, Know Your Food" initiative. DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES

The committee of conference approves report language included in House Report 112-169 or Senate Report 112-78 that is not changed by the conference. The statement of managers, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly. In cases where the House or Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

The conferees expect that each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to funds provided in this Act, unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2012, and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2012. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in the statement accompanying this conference agreement, or in the accompanying reports of the House or Senate and not changed by the conference, shall be construed as the position of the conference and shall not be subject to reductions or reprogramming without prior approval of the Committees. The conferees further expect any department or agency funded in this Act which plans a reduction-in-force to notify by letter the Appropriations Committees of the House and Senate 30 days in advance of the date of any such planned personnel action.

The conferees note that when a department or agency submits a reprogramming or transfer request to the Appropriations Committees of the House and Senate and does not receive identical responses by the House and Senate, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the difference between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved.

In compliance with section 538 of this Act, the conferees direct the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation to submit spending plans, signed by the respective department or agency head, for the Committees' review within 45 days of enactment of this Act.

TITLE I

DEPARTMENT OF COMMERCE

Reporting requirements.—Unless specifically noted in the following narrative, the conferees adopt by reference all House and Senate language regarding reports requested throughout Title I. These reports shall be submitted to the Committees on Appropriations within 120 days of enactment of this Act.

INTERNATIONAL TRADE ADMINISTRATION OPERATIONS AND ADMINISTRATION

The conference agreement includes \$465,000,000 in total resources for the pro-

grams of the International Trade Administration (ITA). This amount is offset by \$9,439,000 in estimated fee collections, resulting in a direct appropriation of \$455,561,000.

Travel reports.—The conferees do not adopt House language regarding quarterly reports on ITA employee travel to China. Additional direction on this matter is included in the Departmental Management heading. Instead, per section 112 of this Act, the conferees direct the Secretary to provide monthly reports to the Committees on Appropriations, beginning with October 1, 2011 data, including separate breakdowns of funding by bureau, the number of trips, and purposes of travel to China. The conferees expect the first such monthly report to be provided within 30 days of enactment of this Act and within 30 days of the end of each subsequent month.

BUREAU OF INDUSTRY AND SECURITY OPERATIONS AND ADMINISTRATION

The conference agreement includes \$101,000,000 for the Bureau of Industry and Security.

ECONOMIC DEVELOPMENT ADMINISTRATION

The conference agreement includes \$457,500,000 for the programs and administrative expenses of the Economic Development Administration (EDA).

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The conference agreement includes \$420,000,000 for Economic Development Assistance Programs, including \$200,000,000 for disaster assistance in response to natural disaster declarations during fiscal year 2011. Of the amounts provided for non-disaster programs, funds are to be distributed as follows; any deviation of funds shall be subject to the procedures set forth in section 505 of this Act:

Public Works	\$111,640,000
Planning	29,000,000
Technical Assistance	12,000,000
Research and Evaluation ...	1,500,000
Trade Adjustment Assistance	15,800,000
Economic Adjustment Assistance	50,060,000
Total	\$220,000,000

Repatriation grants.—The conference agreement includes funds as proposed by the House for EDA to use its programs as a source for working with U.S. companies to bring their services, manufacturing, and/or research and development activities back to economically distressed regions in the United States.

Technical Assistance.—The conference agreement does not adopt House report language directing that EDA provide a review of the University Center program. Instead, the conferees direct the Secretary of Commerce to commission an independent review of the University Center program within 60 days of enactment of this Act. This review shall gather information requested in both House and Senate reports with respect to an evaluation of the University Center program.

Trade Adjustment Assistance.—The conferees note that funds provided under this activity are for manufacturing firms negatively impacted by import competition.

Economic Adjustment Assistance (EAA).—The conference agreement includes funding for new loan guarantee programs as authorized under sections 26 and 27 of the America COMPETES Act (P.L. 111-358). The America COMPETES Act includes a number of safeguards with respect to these programs and the conferees expect EDA to rigorously abide by the requirements outlined in this legislation under 15 U.S.C. 3721 and 15 U.S.C. 3722. Specifically, the Secretary, in consultation with

the Office of Management and Budget, shall implement accountability measures that strongly protect the financial interest of the United States. Finally, the conferees encourage EDA to use a portion of the funds provided in this Act for programs authorized under section 27 of the America COMPETES Act for science parks. The conferees do not adopt the Senate's separate account line for Regional Innovation Partnerships and instead encourage EDA to support such activities from within the EAA program. In addition, the conference agreement includes up to \$1,000,000 to support innovative, energy efficient grant programs for small businesses. The conferees remind EDA to ensure that award decisions are made at the regional level rather than at headquarters, that award decisions reflect geographic equity and that rural areas are among those chosen when awarding EDA funding.

Base realignment and closure.—The conference agreement does not adopt Senate language regarding base realignment and closure matters.

SALARIES AND EXPENSES

The conference agreement includes \$37,500,000 for EDA salaries and expenses.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The conference agreement includes \$30,339,000 for the Minority Business Development Agency.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The conference agreement includes \$96,000,000 for the Economics and Statistics Administration.

BUREAU OF THE CENSUS

The conference agreement includes \$888,336,000 in direct appropriations for the Bureau of the Census plus \$55,000,000 from the Census Working Capital fund for a total program level of \$943,336,000.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$45,568,000 for the salaries and expenses of the National Telecommunications and Information Administration (NTIA).

Spectrum interference issues.—The conferees adopt by reference House report language regarding the Global Positioning System and direct NTIA to report to the Committees on Appropriations within 60 days of enactment of this Act.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The conference agreement includes language making recoveries and unobligated balances of funds previously appropriated available for the administration of open grants.

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes language making available to the United States Patent and Trademark Office (PTO) the full amount of fiscal year 2012 fee collections.

The conferees note that PTO has revised its fee estimates downward twice since September 1, 2011, and now estimates that it will collect \$2,516,000,000 or \$190,313,000 less than the President's request of \$2,706,313,000. The conference agreement appropriates all PTO fees in accordance with section 42(c) of title 35, United States Code, as amended by section 22 of the Leahy-Smith America Invents Act (P. L. 112-29) and includes language making available to the PTO any excess fee collections above the amount appropriated, subject to section 505 reporting requirements in this Act. The conference agreement does not include a general provision carried in previous years prohibiting funds to issue patents on claims directed to or encompassing a human organism. This language is no longer necessary as a similar permanent prohibition was enacted in the Leahy-Smith America Invents Act.

National security concerns.—The conferees adopt by reference House report language regarding the need to update security procedures for patent applications that have national security implications and direct PTO to report to the Committees on Appropriations within 60 days of enactment of this Act regarding practices currently used by third parties to safeguard sensitive patent applications. This report shall provide a framework for suggested improvements for security standards used in the private sector.

Establishment of satellite offices.—The conferees encourage PTO to establish satellite offices in areas that are advantageous to both PTO and its customers.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

The conference agreement includes \$750,824,000 for the National Institute of Standards and Technology (NIST).

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes \$567,000,000 for NIST's scientific and technical core programs, including \$10,000,000 for a Cybersecurity Center of Excellence and \$16,500,000 for the National Strategy for Trusted Identities in Cyberspace. The conferees do not adopt Senate language regarding specific direction pertaining to greenhouse gas measurements but do encourage NIST to pursue research in this area.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement includes \$128,443,000 for the Hollings Manufacturing Extension Partnership Program.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement includes \$55,381,000 for NIST construction. The conferees do not adopt House language designating funds for ongoing construction projects but expect NIST to continue to submit quarterly reports on the status of all construction projects as directed by the Senate.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The conference agreement includes a total of \$4,893,675,000 in discretionary funds for the National Oceanic and Atmospheric Administration (NOAA). The conference agreement does not establish a NOAA Climate Service as proposed by the Senate.

OPERATIONS, RESEARCH, AND FACILITIES (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes a total program level of \$3,139,329,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes: \$3,022,231,000 in direct appropriations; a transfer of \$109,098,000 from balances in the "Promote and Develop Fishery Products and Research Pertaining to American Fisheries" account; and \$8,000,000 derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act.

National Ocean Service.—The conference agreement includes \$465,662,000 for National Ocean Service operations, research, and facilities. The conferees adopt by reference Senate report language regarding Integrated Ocean and Coastal Mapping but clarify that NOAA must ensure that proprietary and/or commercially-important fisheries data is kept confidential or is used only in aggregate datasets.

Response and Restoration.—The conferees adopt by reference House report language regarding the funds NOAA expects to receive from BP in response to the Deepwater Horizon oil spill in the Gulf of Mexico and direct NOAA to submit a spending plan to the Committees on Appropriations within 90 days of enactment of this Act. The conferees adopt by reference House report language regarding the Gulf of Mexico Disaster Response Center and direct NOAA to provide a report to the Committees on Appropriations within 60 days of enactment of this Act.

Fisheries Research and Management.—The conference agreement does not include Senate report language specifying that priority shall be given to international Regional Fishery Management Organizations but instead notes that resources are provided for NMFS to update stock assessments and conduct surveys in fisheries around the U.S. The conferees encourage NMFS to engage the American lobster industry in conducting research and surveys.

Infectious Salmon Anemia.—Not later than six months after enactment of this Act, the National Aquatic Animal Health Task Force shall submit to the Senate Committee on Commerce, Science, and Transportation, the House Committee on Natural Resources and the House and Senate Committees on Appropriations a report assessing the risk Infectious Salmon Anemia poses to wild Pacific

salmon and the coastal economies which rely on these fish. For this report, the Task Force shall establish Infectious Salmon Anemia research objectives, in collaboration with the Government of Canada, and Federal, State, and tribal governments, including the Department of Fish and Wildlife of Washington and the Department of Fish and Game of Alaska, to assess: (1) the prevalence of Infectious Salmon Anemia in both wild and aquaculture salmonid populations throughout Alaska, Washington, Oregon, California, and Idaho; (2) genetic susceptibility by population and species; (3) susceptibility of populations to Infectious Salmon Anemia from geographic and oceanographic factors; (4) potential transmission pathways between infectious Canadian sockeye and uninfected salmonid populations in United States waters; (5) management strategies to rapidly respond to potential Infectious Salmon Anemia outbreaks in both wild and aquaculture populations, including securing the water supplies at conservation hatcheries to pro-

tect hatchery fish from exposure to the Infectious Salmon Anemia virus present in incoming surface water; (6) potential economic impacts of Infectious Salmon Anemia; (7) any role foreign salmon farms may have in spreading Infectious Salmon Anemia to wild populations; (8) the identity of any potential Federal, State, tribal, and international research partners; (9) available baseline data, including baseline data available from a collaborating entity; and (10) other Infectious Salmon Anemia research priorities, as determined by the Task Force.

National Research Council review.—The conferees do not adopt House report language regarding a National Research Council review but instead direct NOAA to report to the Committees on Appropriations and the appropriate authorizing committees within 60 days of enactment of this Act regarding appropriate efforts to address the concerns outlined in the letter referenced in the House report.

National Weather Service (NWS).—The conference agreement includes \$903,098,000 for NWS operations, research, and facilities. Within NOAA, the conference agreement prioritizes funding for these core life and safety programs.

NWS Operations.—NOAA shall enter into a contract with an independent organization with experience in assessing Federal agencies for the purposes of evaluating efficiencies that can be made to NWS operations. This review shall include consultations with emergency managers and other user groups as well as NWS employees. Any recommended efficiencies should not result in any degradation of service to the communities served by local forecast offices and River Forecast Centers, nor should such recommendations place the safety of the public at greater risk. This review shall not be undertaken until the National Academy of

Sciences completes its review of the NWS modernization, which will include recommendations on the NWS workforce and composition and how NWS can improve current partnerships with Federal and non-Federal partners and incorporate new technologies for improved services. The findings and recommendations of the National Academy of Sciences review should inform this new independent assessment.

National mesonet strategy and operations.—The conferees modify Senate language regarding a national mesonet strategy and operations and instead encourage NOAA to convene a peer-reviewed study to create a national mesonet program plan within NOAA with recommendations for implementation as appropriate. The conference agreement includes \$12,000,000 for the competitive procurement of data to continue the National Mesonet Program, but does not pro-

vide specific funding amounts for mesonet activities as directed by the Senate. Instead, the conferees encourage NOAA to support proposals that can improve forecasting of severe weather within local NWS field offices and can achieve effective collaboration among disparate network operators to promote NOAA's objective of a weather ready nation. NOAA is encouraged to continue competitive programs in this area and to include funding for these activities in subsequent budget requests as appropriate.

Flood forecasts.—The conference agreement does not adopt Senate language directing NOAA to enter into formal agreements with river commissions but does provide increased funding for flood forecasts and encourages NOAA to collaborate with river commissions to continue efforts to ensure that critical data is coordinated and used to provide accurate and timely flood forecasts.

NOAA facilities.—The conferees support the requested level for “NOAA Construction” proposed within the NOAA “Procurement, Acquisition and Construction” account but

instead provide this funding within the NOAA Facilities line as this request is for salaries and expenses (S&E) costs and not construction. NOAA shall request future S&E funding associated with construction within the “Operations, Research, and Facilities” account. The conferees clarify Sen-

ate report language regarding the NOAA Pacific Regional Center in that the conferees understand that NOAA is in the process of building an accompanying child development facility at the NOAA Pacific Regional Center using previously appropriated funds.

PROCUREMENT, ACQUISITION AND CONSTRUCTION
The conference agreement includes a total program level of \$1,825,094,000 in direct obli-

gations under this heading, of which \$1,817,094,000 is appropriated from the general fund and \$8,000,000 is derived from recoveries

of prior year obligations. The following narrative description and table identifies the

specific activities and funding levels included in this Act:

Joint Polar Satellite System (JPSS).—The conferees adopt by reference all House and Senate report language regarding JPSS with the exception of Senate report language regarding a lifecycle cost cap. Instead, the conferees direct NOAA to provide outyear fund-

ing estimates for this program prior to submission of the fiscal year 2013 budget request. The conferees note that new bill language is included in NOAA's Operations, Research, and Facilities account which limits the amount of funds that NOAA may obligate pending submission of a revised spend

plan for JPSS and NOAA's other satellite programs. Further, the conferees direct NOAA to outline a framework for developing a compensation policy that would enable NOAA to be reimbursed as appropriate for the use of specialized data products derived from NOAA satellite imagery and data.

FISHERMEN'S CONTINGENCY FUND

The conference agreement includes \$350,000 for the Fishermen's Contingency Fund.

FISHERIES FINANCE PROGRAM ACCOUNT

The conference agreement includes language under this heading limiting obligations of direct loans to \$24,000,000 for Individual Fishing Quota loans and \$59,000,000 for traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement includes \$57,000,000 for Departmental Management salaries and expenses.

Cybersecurity.—The conferees adopt House and Senate report language regarding establishment of a cybersecurity center and expect that each bureau will contribute a prorated amount as directed by the House and that a portion of funds realized from data center consolidation will be used in the effort as directed by the Senate.

Cyber-espionage.—The conferees adopt by reference House report language regarding certification of information technology systems but include this reporting requirement as a new general provision in title V of this Act. The Secretary shall report to the Committees on Appropriations on all such determinations, and the process used to arrive at such determinations, on a quarterly basis beginning 30 days following the second quarter of fiscal year 2012.

Travel reports.—In lieu of the House report language regarding travel of ITA employees the conferees instead expand this language as a Department-wide general provision in this title and direct the Secretary to provide monthly reports to the Committees on Appropriations, beginning with October 1, 2011, data, including separate breakouts of funding by bureau, the number of trips, and purposes of travel to China. The conferees expect the first such monthly report to be provided within 30 days of enactment of this Act and within 30 days of the end of each subsequent month.

Cooperatives.—The conferees adopt by reference House report language regarding cooperatives and clarify that the language shall be interpreted as referring to business cooperatives.

RENOVATION AND MODERNIZATION

The conference agreement includes \$5,000,000 for continuing renovation activities at the Herbert C. Hoover Building.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$26,946,000 for the Office of Inspector General. The conferees adopt Senate language transferring \$1,000,000 each from the Bureau of the Census, the PTO and the NOAA PAC account for audits and reviews of these programs.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING RESCISSION)

The conferees adopt the following general provisions for the Department of Commerce:

Section 101 makes funds available for advanced payments only upon certification of officials, designated by the Secretary, that such payments are considered to be in the public interest.

Section 102 makes appropriations for Department salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriation accounts and requires 15 days advance notification to the Committees on Appropriations for certain actions.

Section 104 provides that any costs incurred by the Department in response to funding reductions shall be absorbed within the total budgetary resources available to the Department and shall be subject to the reprogramming limitations set forth in this Act.

Section 105 updates Congressional notification requirements for NOAA satellite programs.

Section 106 provides for reimbursement for services within Department of Commerce buildings.

Section 107 clarifies that grant recipients under the Department of Commerce may continue to deter child pornography, copyright infringement, or any other unlawful activity over their networks.

Section 108 provides the Administrator with the authority to avail NOAA of needed resources, with the consent of those supplying the resources, to carry out responsibilities of any statute administered by NOAA.

(RESCISSION)

Section 109 rescinds all balances in the Coastal Zone Management Fund.

Section 110 establishes a fisheries enforcement asset forfeiture fund.

Section 111 establishes a sanctuaries enforcement asset forfeiture fund.

Section 113 includes a provision regarding the Convention for the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean.

TITLE II—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$110,822,000 for General Administration, Salaries and Expenses.

Terrorism.—The conferees are concerned that the lack of a current policy on terrorist

detention may be a disincentive to the capture and interrogation of terrorist suspects, thereby depriving the Department of Justice (DOJ) and other agencies of critical intelligence that could inform and improve counterterrorism efforts. The conferees note that the Attorney General co-chaired the Special Interagency Task Force on Detainee Disposition that was tasked with reviewing policies for the detention of individuals captured or apprehended in connection with armed conflicts and counterterrorism operations. The conferees direct the Department, in consultation with other appropriate Federal agencies, to provide to the Committees on Appropriations, not later than 120 days after the enactment of this Act, an unclassified report on U.S. detention policy, including the legal basis for such policy, as it applies to current and future terrorism detainees. If appropriate, such report may be accompanied by a classified annex.

Prison Rape Elimination Act (PREA).—The conferees affirm language in the House report directing the Department to publish, as soon as possible, a final rule adopting national standards for the detection, prevention, reduction and punishment of prison rape, as mandated by the PREA. Upon adoption of the national standards, the Committees on Appropriations will further examine how the Department will continue efforts to provide assistance in the form of training, technical assistance and implementation grants to assist State, local and tribal jurisdictions in achieving compliance with PREA national standards.

With respect to auditing PREA compliance, the conferees strongly encourage the Department to follow the recommendations of the PREA Commission for the reasons outlined in the House report. In addition, the conferees concur with the Commission's proposed standard requiring correctional facilities to make use of cost-effective and appropriate monitoring technologies.

Obscenity enforcement.—The conferees note the concern expressed in the House report regarding the Department's incorporation of the responsibilities of the Obscenity Prosecution Task Force into the Child Exploitation and Obscenity Section of the Criminal Division. The conferees support the work of the Department in investigating and prosecuting major producers and distributors of hardcore adult pornography that meets the test for obscenity, as defined by the Supreme Court, and expect that the responsibilities that had been assigned to the Task Force will not be diminished by this reorganization. The conferees direct the Department to submit a report not later than 120 days after the enactment of this Act on its adult obscenity investigation and prosecution workload statistics and accomplishments, including a comparison of workload statistics and accomplishments during the existence of the Obscenity Prosecution Task Force, and in the period of time following its incorporation into the Child Exploitation and Obscenity Section of the Criminal Division.

Gulf Cost Claims Facility (GCCF).—The conference agreement includes language under section 220 requiring that the Department identify an independent auditor to carry out an evaluation of the GCCF. This evaluation should include assessments of matters such as the claims determination methodologies employed by the GCCF and the qualifications of its personnel. The conferees encourage the Department to consult with the Government Accountability Office (GAO) in identifying an auditor.

International Organized Crime (IOC) strategy.—The conferees support the Department's goal of disrupting and dismantling international criminal organizations that pose the greatest threat to the United States. Given current and anticipated future budget constraints, however, it will be difficult for the Department to set aside funding to expand and enhance the IOC Intelligence and Operations Center (IOC-2), the Organized Crime Council Program Support Office, and IOC resources from other Justice components without impacting staffing levels. If the IOC initiative continues to be a priority in future requests, the Department should develop a strategy for funding this program somewhere other than the executive leadership budget.

Tribal consultation.—The conferees are aware that the Department continues to develop its formal strategy on how to enhance public safety in Indian country. Not later than 120 days after the enactment of this Act, the Attorney General shall provide the Committees on Appropriations a report on how DOJ will use the tribal consultation process to further streamline and coordinate programs and funding opportunities for Native Americans, both within DOJ and with relevant programs of the Department of the Interior.

Violence against law enforcement personnel.—The conferees are concerned about spikes in ambush-style assaults that have taken the lives of law enforcement officers in recent months. The conference agreement includes funds under the State and Local Law Enforcement Assistance account for the Preventing Violence Against Law Enforcement and Ensuring Officer Resilience and Survivability Initiative (VALOR), a program designed to improve officer resilience and survivability. The conferees encourage the Department to make available this type of training for Federal law enforcement officers to further enhance the ability of these officers to anticipate and survive a violent encounter.

Spending plans.—The conferees direct the Department to include in its spending plan for fiscal year 2012 a plan for the use of all funding available under this heading, by decision unit and office.

NATIONAL DRUG INTELLIGENCE CENTER

The conference agreement includes \$20,000,000 for the National Drug Intelligence Center (NDIC). The conferees expect that the funds provided will be used only for necessary expenses related to the closing of the NDIC and the reassignment of functions performed at NDIC to other entities if the continuation of such functions is determined to be necessary by the Attorney General. The conferees direct the Department to submit to the Committees on Appropriations, not later than 120 days after the enactment of this Act, a detailed report of its plans regarding the closure of NDIC. The Department should give priority to solutions that minimize the cost to the Government and disruptions to critical counterdrug and intelligence activities.

JUSTICE INFORMATION SHARING TECHNOLOGY

The conference agreement includes \$44,307,000 for Justice Information Sharing Technology.

Cybersecurity.—The conferees encourage the Department to prioritize, within the funds provided, efforts to defend proactively against and respond to cyber threats and attacks against DOJ's networks.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The conference agreement includes \$87,000,000 for Tactical Law Enforcement Wireless Communications.

The conferees expect DOJ to utilize full and open contracting procedures to the greatest extent possible as it endeavors to migrate from its legacy wideband systems to a standards-based mobile radio system. If the Department determines that it is necessary to award a sole source contract related to this migration, the Department shall report to the Committees on Appropriations on the justification for such action.

The conferees direct the Department to submit a report not later than 120 days after the enactment of this Act to the Committees on Appropriations on the Department's plan for moving forward with the Integrated Wireless Network (IWN) initiative. This plan should identify alternative funding sources and funding options for the provision, deployment, maintenance and operation of a wireless network that addresses security vulnerabilities, improves system reliability, and achieves interoperability with other law enforcement and emergency responder radio infrastructure systems.

ADMINISTRATIVE REVIEW AND APPEALS (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$305,000,000 for the Executive Office for Immigration Review (EOIR) and the Office of the Pardon Attorney.

Legal Orientation Program (LOP).—The conferees expect that EOIR will continue its highly successful LOP. Apprehended individuals benefit from better information about immigration removal proceedings, and U.S. taxpayers benefit from reduced detention costs resulting from a more efficient legal process. The conferees encourage EOIR to dedicate funds to the LOP, as necessary and available, to ensure the continuation of this program. In addition, the conferees expect EOIR to seek alien-specific detention costs and duration of detention data from Immigration and Customs Enforcement in order to develop a more accurate estimate of the cost savings to the Federal Government provided by participation in the LOP. The conferees direct EOIR to submit a report to the Committees on Appropriations providing such data, as well as an estimate of the cost savings generated by the LOP, not later than 120 days after the enactment of this Act.

Immigration and border initiatives.—If additional funds are needed to support EOIR's role in immigration and border initiatives, the conferees urge the Department to submit a reprogramming request in fiscal year 2012 that would reallocate funds from lower priority programs to meet such needs.

DETENTION TRUSTEE

The conference agreement includes \$1,580,595,000 for the Office of the Federal Detention Trustee (OFDT).

The conferees are aware that OFDT's resource needs are directly impacted by law enforcement and prosecutorial priorities, such as increases in immigration enforcement by the Department of Homeland Security and efforts to combat drug and gun smuggling along the Southwest Border. However, the conferees remain concerned about the Department's ability to anticipate the true funding needs for this account. The conferees expect OFDT to keep the Committees on Appropriations apprised of changes in average daily population forecasts so that re-

source requirements for fiscal year 2012 and beyond can be verified and refined, particularly with regard to the impacts of law enforcement initiatives on the Southwest Border. The conferees direct OFDT to resume providing quarterly reports to the Committees on Appropriations, which shall include the actual number of individuals in the detention system, the projected number of individuals in the detention system and the annualized associated costs.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$84,199,000 for the Office of Inspector General (OIG).

UNITED STATES PAROLE COMMISSION SALARIES AND EXPENSES

The conference agreement includes \$12,833,000 for the salaries and expenses of the United States Parole Commission.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement includes \$863,367,000 for General Legal Activities.

Human trafficking.—The conferees direct the Department to maintain funding for the Human Trafficking and Slavery Prosecution Unit (HTSPU) in the Civil Rights Division at not less than the fiscal year 2011 funding level to continue efforts to fight human trafficking and slavery.

Human rights crimes.—The conferees remain concerned about the large number of suspected human rights violators from foreign countries who have found safe haven in the United States, and direct the Criminal Division to continue its efforts to investigate and prosecute perpetrators of serious human rights crimes, including genocide, torture, use or recruitment of child soldiers, and war crimes. For this purpose, the conferees direct the Department to provide not less than the fiscal year 2011 funding level for attorneys, analysts, and support personnel in the Criminal Division to investigate and prosecute individuals who violate Federal laws regarding serious human rights abuses.

VACCINE INJURY COMPENSATION TRUST FUND

The conference agreement includes a reimbursement of \$7,833,000 for DOJ expenses associated with litigating cases under the National Childhood Vaccine Injury Act of 1986 (Public Law 99-660).

SALARIES AND EXPENSES, ANTITRUST DIVISION

The conference agreement includes \$159,587,000 for the Antitrust Division. This appropriation is offset by \$108,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$51,587,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement includes \$1,960,000,000 for the Executive Office for United States Attorneys (EOUSA) and the 94 United States Attorneys' offices.

Human trafficking.—The conference agreement includes language directing each U.S. Attorney to establish or participate in a U.S. Attorney-led human trafficking task force. In instances where it may be preferable, due to geographical or other considerations, to operate joint human trafficking task forces, joint task forces representing no more than two U.S. Attorneys' offices will satisfy the requirement.

The conferees direct such task forces to engage law enforcement, elected leadership, civic and faith-based groups and to convene quarterly, working-level meetings where Federal, State and local law enforcement are represented. Task force meetings should focus specifically on combating human trafficking, with an emphasis on undertaking

proactive investigations. Such investigations shall include, for example, the investigation of persons or entities facilitating trafficking in persons through the use of classified advertising on the Internet. The conferees also direct the Department to submit an annual report to the Committees on Appropriations regarding the work of these task forces. This report shall detail the range of efforts by the task forces, and include information on the use of classified advertising on the Internet to facilitate trafficking and a description of policies and task force actions that respond to such practices.

The conferees further direct the EOUSA, in consultation with each U.S. Attorney, to designate a point of contact in each U.S. Attorney's office who shall serve as the coordinator for all activities within that office concerning human trafficking and slavery matters covered by the Trafficking Victims Protection Act.

In addition, the conferees adopt language in the House report directing the Department to undertake outreach efforts in the form of public notices, such as newspaper advertisements, in ethnic communities in the U.S., the home countries of which represent the top ten countries with regard to the prevalence of human trafficking activities and to report to the Committees on Appropriations regarding such outreach efforts.

Intellectual property rights (IPR) enforcement.—The conferees expect the Department to continue to make IPR enforcement an investigative and prosecutorial priority for Federal prosecutors. The conferees direct the Department to provide to the Committees on Appropriations a report on the activities of its Assistant U.S. Attorneys dedicated to investigating intellectual property crimes pursuant to and authorized under section 402 of the Prioritizing Resources and Organization for Intellectual Property Act of 2008 (Public Law 110-403).

Adam Walsh Act implementation.—The conferees expect the EOUSA to continue to focus on investigations and prosecutions related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006 (Public Law 109-248). The conference agreement includes not less than \$41,000,000 for these purposes in fiscal year 2012.

UNITED STATES TRUSTEE SYSTEM FUND

The conference agreement includes \$223,258,000 for the United States Trustee Program (USTP). The appropriation is fully offset by fee collections.

Debtor audits.—The conferees expect the USTP to make debtor audits a priority and delineate, in the Department's fiscal year 2012 spending plan, the allocation of funds for debtor audits.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The conference agreement includes \$2,000,000 for the Foreign Claims Settlement Commission.

FEES AND EXPENSES OF WITNESSES

The conference agreement includes \$270,000,000 for Fees and Expenses of Witnesses.

Expert witnesses.—Within funds provided, the conference agreement includes the requested \$92,000,000 to respond to the increased need for expert witnesses among the litigating divisions and the U.S. Attorneys' offices. The conferees expect that no funds will be expended for expert witness services from any DOJ accounts except Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The conference agreement includes \$11,456,000 for the Community Relations Service.

ASSETS FORFEITURE FUND

The conference agreement includes \$20,948,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$1,174,000,000 for the salaries and expenses of the United States Marshals Service (USMS).

Spending plan.—The conferees expect that the USMS will include in its fiscal year 2012 spending plan a strategy for how it will approach mandatory protective services, as well as how it will respond to critical law enforcement requirements and congressional mandates to address violent crime reduction, enforce the Adam Walsh Act and combat Southwest Border violence. To help remedy possible funding shortfalls, the conferees encourage the USMS to continue exploring and utilizing new technological capabilities in order to further ensure the fair and efficient administration of justice. If additional funds are needed to support the USMS' Adam Walsh Act enforcement mission, the conferees urge the Department to submit a reprogramming request in fiscal year 2012 that would reallocate funds from lower priority programs to meet such needs.

CONSTRUCTION

The conference agreement includes \$15,000,000 for construction and related expenses in space controlled, occupied or utilized by the USMS for prisoner holding and related support.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The conference agreement includes \$87,000,000 for the salaries and expenses of the National Security Division.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conference agreement includes \$527,512,000 for the Organized Crime and Drug Enforcement Task Forces (OCDETF).

Southwest Border.—The conferees expect OCDETF to prioritize the continuation of support for Assistant U.S. Attorney positions and collocated Strike Forces in the Southwest Border region, and to submit a report to the Committees on Appropriations not later than 90 days after the enactment of this Act showing the current and planned distribution of personnel, by bureau, to each of the collocated Strike Forces.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The conference agreement includes \$8,036,991,000 for the salaries and expenses of the Federal Bureau of Investigation (FBI). The conference agreement incorporates language in the House report on analytic career path training, the Safe Streets/Safe Trails Task Force program, the continuation of positions for Southwest Border law enforcement, the nationwide file inventory program, and the continuation of positions for the investigation of white collar and financial crime.

Computer intrusions.—In recognition of the FBI's unique cyber-related authorities and expertise, the conference agreement includes at least the full request, an increase of \$18,628,000 and 42 positions, including 14 special agents, above the fiscal year 2011 enacted level to further the Bureau's investigatory, intelligence gathering and technological capabilities to address malicious cyber intrusions and protect critical infrastructure in the United States from cyber attacks. The conferees direct the FBI to produce an annual national cyber threat assessment, in both classified and unclassified versions, and submit such report to the Committees on Appropriations not later than 120 days after the enactment of this Act.

National security.—The conference agreement includes program increases totaling \$48,870,000 as described in the House report. The conferees direct the FBI to submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act detailing the research activities conducted under the auspices of the High-value Detainee Interrogation Group, the results of such research, and any recommendations for the development of new techniques.

Electronic surveillance.—The conference agreement incorporates language in the House report related to increases provided to improve lawful electronic surveillance capabilities. The conference agreement does not include language in the Senate report directing a percentage of these funds to be used for Special Surveillance Groups.

Render Safe.—The conference agreement includes a program increase of \$40,000,000 and 13 positions to support the acquisition and refurbishment of two aircraft to carry out the Render Safe mission. The conferees note that the Senate had approved the use of previously appropriated funding for this same purpose. The FBI shall submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on the plan for Render Safe procurement.

Trafficking in persons.—The conferees agree that, within the funding provided, the FBI shall increase activities related to the investigation of severe forms of trafficking in persons. The FBI shall submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on agent utilization and overall staff resources dedicated to trafficking investigations in fiscal years 2010, 2011 and 2012. In addition, the conferees expect the FBI to share trafficking case information on an ongoing basis with other law enforcement agencies and task forces working similar cases. The conferees agree that funds shall be used for conducting investigations into trafficking and slavery and providing victim witness coordinators on an emergency basis when needed.

IPR enforcement.—The conferees agree that the FBI shall continue to prioritize the investigation of IPR cases and coordinate with IPR units at the U.S. Attorneys and the Criminal Division. The FBI shall submit a report, not later than 120 days after the enactment of this Act, on agent utilization and overall staff resources dedicated to investigating intellectual property cases, and an accounting of the agents placed in specific field offices since fiscal year 2010.

DNA programs.—The conferees encourage the FBI to undertake activities to facilitate familial DNA searches of the Combined DNA Index System database of convicted offenders and work with the National DNA Index System (NDIS) Procedures Board to consider the establishment of procedures allowing familial searches only for serious violent and sexual crimes where other investigative leads have been exhausted. The procedures should provide appropriate protections for the privacy rights of those in the NDIS database.

Sentinel.—The conferees continue to monitor closely Sentinel, the FBI's information and investigation case management system, and remain understandably concerned about Sentinel's development. The FBI shall adhere to the language included in the House report regarding the expectation that the FBI will continue all necessary periodic oversight reviews in accordance with recommendations of the Inspector General, and in the Senate report regarding the prohibition on spending anything in excess of \$451,000,000 on Sentinel without first providing notification to the Committees on Appropriations and developing a work breakdown structure. In addition, the conference

agreement includes language under section 213 requiring the Attorney General to submit to the Committees on Appropriations a report containing a cost and schedule estimate for the final operating capability of the Sentinel program, and a detailed list of the functionalities included in the final operating capability. The FBI shall submit this report concurrently to the Department's OIG for review and comment.

Cyber training for field agents.—The conferees agree that, within funds provided, the FBI shall expand training for FBI cyber agents involved in national security intrusions cases. Such training should focus on increasing the number of agents qualified to understand current techniques and tactics used by those engaged in illicit cyber activities, and respond to shortfalls identified by the DOJ OIG.

Criminal Justice Information Services Division.—The conference agreement includes the full requested amount of appropriated funds and user fees for the Criminal Justice Information Services Division.

Human rights violations.—The conferees direct the FBI to increase efforts to investigate and support DOJ's criminal prosecution of serious human rights crimes committed by foreign nationals who are in the United States.

Liaison partnerships.—The conferees support the FBI's policy prohibiting any formal non-investigative cooperation with unindicted co-conspirators in terrorism cases. The conference agreement does not include language in the House report on synthetic drugs.

Afghanistan operations.—The conference agreement incorporates language in the House report regarding DEA's Afghanistan operations. The conferees direct the DEA to report to the Committees on Appropriations, not later than 30 days after enactment of this Act, on DEA's planned presence and operations activities in Afghanistan, expected transfers of funding from other Departments or agencies, and DEA's direct appropriations requirements for such activities.

Field staffing.—The conference agreement incorporates language in the House report concerning a reporting requirement on personnel vacancy rates. The conferees agree that the DEA shall provide such report to the Committees on Appropriations not later than 120 days after the enactment of this Act.

CONSTRUCTION

The conference agreement includes \$10,000,000 for DEA Construction. The conferees expect this funding level to support an expansion of the El Paso Intelligence Center

facility to accommodate approximately 100 additional staff.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES SALARIES AND EXPENSES

The conference agreement includes \$1,152,000,000 for the salaries and expenses of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). The conference agreement also includes language permanently prohibiting the Department from consolidating or centralizing the records of the acquisition and disposition of firearms maintained by firearms dealers and permanently prohibiting the Department from electronically retrieving information provided to the Attorney General by firearms dealers that have gone out of business.

Operation Fast and Furious.—The conferees are concerned by allegations that ATF mismanaged a U.S.-Mexico border operation known as Fast and Furious, and expect that the Department's OIG, to which the investigation of this matter has been referred by the Attorney General, will fulfill its oversight duties by conducting a thorough investigation. The conferees expect the Department and ATF to cooperate fully with all oversight investigations into Operation Fast and Furious—whether by the OIG, an independent, government-appointed investigator, or Congress—by promptly and thoroughly responding to all requests for information regarding this matter.

Furthermore, the conferees are aware that the Attorney General has instructed, and subsequently reiterated, that Department law enforcement personnel are not knowingly to allow any firearms to be illegally transported into Mexico for any reason. Finally, the conferees note that Operation Fast and Furious is but a small part of ATF's extensive operations along the Southwest Border and should not detract from ATF's efforts to protect Americans from illegal firearms trafficking, gun violence, and parallel drug and human trafficking across the U.S.-Mexico border and into the Nation's interior.

United States-Mexico firearms trafficking.—Beginning in fiscal year 2012 and thereafter, the ATF shall provide the Committees on Appropriations with annual data on the total number of firearms recovered by the Government of Mexico, and of those, the number for which an ATF trace is attempted, the number successfully traced and the number determined to be manufactured in or imported into the United States prior to being recovered in Mexico.

National Integrated Ballistic Information Network (NIBIN).—The conferees continue to support the NIBIN, including the significant investment made by State and local law enforcement partners to build the current NIBIN database. The conferees believe that ATF should move expeditiously to ensure that ballistic imaging technology is routinely refreshed, upgraded and deployed to State and local law enforcement. The conferees urge ATF to prioritize the upgrading and replacement of aging ballistic imaging equipment in its fiscal year 2012 operating plan and in future budget requests. ATF should ensure upgrades and replacements maximize and protect the resources invested by State and local law enforcement.

FEDERAL PRISON SYSTEM SALARIES AND EXPENSES (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$6,551,281,000 for the salaries and expenses of the Federal Prison System.

Activations and expansions.—The conference agreement includes funds for the commencement or completion of activation of new prison facilities constructed by the Bureau

of Prisons (BOP). The conferees expect BOP to make adherence to the activation schedule for these prisons, as detailed in BOP's fiscal year 2012 budget submission, a top priority, and to immediately notify the Committees on Appropriations of any changes to this schedule. In addition, as part of the Department's fiscal year 2012 spending plan, BOP shall include the allocation of funds by decision unit.

Radicalization in Federal prisons.—The conference agreement incorporates language in the House report regarding radicalization in Federal prisons and the conferees instruct the Department to take the necessary actions to eliminate prisoner access to radicalizing material. The conferees further direct the Department to submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on its maintenance of a central registry of acceptable materials and the processes employed to ensure that potentially radicalizing materials are not included.

Work in prisons.—The conferees affirm the language in the House report expressing the belief that increasing work opportunities for Federal prisoners is an important priority. Statistics from BOP indicate that inmates who participate in work programs are 24 percent less likely to offend again, 14 percent more likely to find work outside of prison and 23 percent less likely to have misconduct issues in prison. The conferees direct the Department to report to the Committees on Appropriations not later than 120 days after the enactment of this Act on actions taken and planned to increase meaningful work opportunities available to inmates.

Sentence reduction opportunities.—The conferees are concerned that the current upward trend in the prison inmate population is unsustainable and, if left unchecked, will eventually engulf the Department's budgetary resources. The conferees encourage BOP to work with the authorizing committees on proposals that reduce both recidivism and appropriations requirements.

Employee retaliation.—The conferees are concerned that BOP employees were cited recently by the Equal Employment Opportunity Commission (EEOC) as having the highest and most widespread fear of retaliation compared to the rest of the Federal workforce. The conferees expect BOP to certify to the Committees on Appropriations that it has implemented and met the recommendations included in the EEOC's November 2010 Final Program Evaluation Report for the Federal Bureau of Prisons, and submit concurrently a report on its compliance with the recommendations to the Department's OIG for review and comment.

BUILDINGS AND FACILITIES

The conference agreement includes \$90,000,000 for the construction, acquisition, modernization, maintenance and repair of prison and detention facilities housing Federal inmates.

Status of construction reports.—The conferees direct BOP to resume providing to the Committees on Appropriations, not later than 30 days after the enactment of this Act, the most recent monthly status of construction report and to notify the Committees on Appropriations of any deviations from the construction and activation schedule identified in that report, including detailed explanations of the causes of delays and actions proposed to address them.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The conference agreement includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated.

Federal Prison Industries (FPI).—In addition to its function as a reentry tool, the conferees believe that FPI, if allowed to enter

into partnerships with private businesses, could bring some lost manufacturing back into the United States while providing inmates with opportunities to learn skills that will be marketable after release. Therefore, the conference agreement includes language under section 221 of this Act to allow FPI to carry out pilot projects to produce items that are currently manufactured outside of the United States.

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

In total, the conference agreement includes \$2,227,300,000 for State and local law enforcement and crime prevention programs.

Salaries and expenses.—The Omnibus Appropriations Act, 2009 (P.L. 111-8) established a common salaries and expenses appropriation to provide for the cost of all management and administration activities of the Department's grant offices. The establishment of this account was in response to inadequate agency budgeting mechanisms for management and administration activities and a lack of transparency about the actual costs of those activities. Since fiscal year 2009, the grant offices have made important and marked progress in this regard.

During fiscal year 2012, the conferees direct the Department to support management and administration expenses with program funding subject to the submission of details related to planned management and administration expenses, by program, as part of the Department's fiscal year 2012 spending plan. In addition, the spending plan should include

planned expenses for training and technical assistance, research and statistics activities, interagency agreements, cooperative agreements and peer review, along with any additional general category of expense other than grants. The conferees encourage grant offices to minimize administrative spending in order to maximize the amount of funding that can be used for grants or training and technical assistance.

As part of the budget submission for future fiscal years, the Department is directed to detail the actual costs for each grant office in each of the categories noted above for the prior fiscal year, by program, along with estimates of planned expenditures for each grant office in each of these categories, by program, for the current year and the budget year. In addition, the Office of Justice Programs (OJP), the Office on Violence Against Women (OVW), and the Office of Community Oriented Policing Services (COPS) are directed to report to the Committees on Appropriations on their formal definitions of management and administration costs or on the detailed guidance that governs decisions about the types of costs that should be considered management and administration costs.

Workload analysis.—The conferees are aware that OVW, OJP and COPS have each initiated a workload analysis to ensure that their respective staffing levels and mix of personnel accurately reflect workload and requirements. The conferees direct each office to provide a report to the GAO and the

Committees on Appropriations not later than 120 days after the enactment of this Act describing its updated staffing model based on the results of its workload analysis. In addition, the conferees direct GAO to examine each office's staffing model and report to the Committees on Appropriations, not later than 6 months after the date the offices submit their reports, with an evaluation of the models, and recommendations (as warranted), on how each office's staffing model could be further improved.

Non-compliant grantees.—The conference agreement incorporates language from the Senate report noting that OJP, COPS and OVW appear to be using different sanctions and remedies for grantees that are determined to be out of compliance with grant requirements. The conferees expect the Department to work to consolidate rules and procedures across the three offices in order to produce the most consistent compliance enforcement process possible.

Evidence-based programs.—The conferees strongly urge OJP, COPS and OVW to ensure that, to the greatest extent practicable, competitive grants are used for evidence-based programs and activities.

The conferees expect NIJ to carry out new initiatives proposed for fiscal year 2012 to the extent possible within the funds provided, including initiatives in

the following areas: maximizing the value of forensic evidence; establishing the effectiveness of criminal justice diversion methods and strategies; eliminating rape kit backlogs (pilots); conducting Indian country crime and victimization research; improving prescription drug monitoring; improving inmate reentry; improving risk-based decision-making in the criminal justice system; and establishing a better understanding of the risk-based factors leading to domestic

radicalization and related acts of violence/terrorism, among others.

Evaluation Clearinghouse.—The conferees adopt the language in the Senate report regarding funding for an Evaluation Clearinghouse/What Works Repository.

Presidential nominating conventions.—The conference agreement includes \$100,000,000 to address extraordinary local law enforcement costs related to the 2012 presidential nominating conventions. The conferees note that the Department failed to request any funding for this activity, and expect that future budget requests will address known resource requirements associated with convention security. The conferees expect that the funds included in this agreement will be used solely for extraordinary law enforcement expenses incurred with respect to local law enforcement's role in providing security for these events. The conferees expect the Department to develop clear guidelines to govern allowable expenses, and all payments or reimbursements shall be reviewed and approved by the Department, as well as audited by the OIG, to ensure efficiency and accountability. Finally, the conferees expect that planning committees for the nominating conventions will assist in addressing security needs to the greatest extent possible from other funding sources.

Human trafficking.—The conference agreement includes \$10,500,000 for human traf-

ficking task force activities and services for U.S. citizens, permanent residents and foreign nationals who are victims of trafficking. The conferees expect that the human trafficking task forces funded by the Department will continue to bring together Federal, State and local law enforcement and victim services organizations to investigate all forms of human trafficking and assist the victims. OJP shall consult with stakeholder groups in determining the overall allocation of Victims of Trafficking funding, including with respect to amounts allocated to assist foreign national victims, and provide to the Committees on Appropriations a plan for the use of these funds as part of the Department's fiscal year 2012 spending plan. The plan should be guided by the best information available on the regions of the United States with the highest incidence of trafficking.

Reentry.—The conferees urge OJP to assist in the development of State reentry councils in order to foster State-level advancements in reentry and recidivism reduction.

Second Chance Act.—The conferees direct the Department to submit, as part of its

spending plan for fiscal year 2012 a plan for the allocation of funds appropriated for Second Chance Act programs.

Sex offender location, arrest and prosecution/Adam Walsh Act implementation.—The conference agreement includes \$20,000,000 to support the administration's proposal to help States, Indian tribes and territories come into compliance with the Sex Offender Registration and Notification Act (SORNA), as well as provide for sex offender management and treatment. These grants will provide critical support to the comprehensive, nationwide effort to locate, register, monitor, apprehend, prosecute and manage child sexual predators and exploiters that was envisioned by SORNA.

DNA backlog/crime lab improvements.—The conferees continue Congress' strong support for DNA backlog reduction and crime lab improvements by recommending \$125,000,000 to strengthen and improve Federal and State DNA collection and analysis systems that can be used to accelerate the prosecution of the guilty while simultaneously protecting the innocent from wrongful prosecution. Within the funding provided, the conference

agreement includes \$4,000,000 each for Post-Conviction DNA Testing grants, and Sexual Assault Forensic Exam Program grants. The conferees expect that OJP will make funding for DNA analysis and capacity enhancement a priority to meet the purposes of the Debbie Smith DNA Backlog Grant Program. The conferees direct the Department to submit both a spending plan with respect to funds appropriated for DNA-related programs, and a report on the alignment of appropriated funds with the authorized purposes of the Debbie Smith DNA Backlog Grant Program, as part of the Department's spending plan for fiscal year 2012.

In addition, the conferees direct the GAO to examine the use of funds awarded for DNA analysis and capacity enhancement in the past five years that were awarded to any entity other than to a State or local public DNA laboratory. GAO's examination should include an evaluation of the methodology employed in creating the solicitations and the process for awarding these funds; the extent to which DOJ has assessed whether the results of the awards are making a measurable impact with respect to reducing backlogs and increasing capacity; and how the objectives of the solicitations have been fulfilled. The study should also include an analysis of how NIJ inventories and compiles grant data and results, including a breakdown of the funds provided to non-govern-

ment DNA laboratories on an annual basis, and a description of the contribution of NIJ toward increasing capacity and reducing backlogs for government DNA laboratories. Lastly, the study should detail the proportion of DNA funding annually provided to State and local laboratories, non-government entities, NIJ's DNA program office, and other uses by NIJ such as overhead, travel and conferences.

National technical assistance and training.—The conferees affirm language in the Senate report encouraging the Department to continue its efforts to assist States in the development and use of criminal justice information systems that accelerate the automation of identification processes for fingerprints and other criminal justice data, and which improve the compatibility of State and local law enforcement systems with the FBI's Integrated Automated Fingerprint Identification System.

National Motor Vehicle Title Information System (NMVTIS).—The conference agreement incorporates language in the Senate report on the use of NMVTIS as an effective tool to prevent the fraudulent use of vehicle title documents, investigate vehicle thefts and thwart terrorist financing activities.

Tribal assistance.—The conference agreement includes \$38,000,000 for tribal grant programs. The conferees expect OJP to consult closely with tribal stakeholders in deter-

mining how tribal assistance funds will be allocated among grant programs that help improve public safety in tribal communities, such as grants for detention facilities under section 20109 of subtitle A of title II of the Violent Crime Control and Law Enforcement Act of 1994 (Public Law 103-322), civil and criminal legal assistance as authorized by title I of Public Law 106-559, tribal courts, and alcohol and substance abuse reduction assistance programs. The conferees direct OJP to submit, as part of the Department's spending plan for fiscal year 2012, a plan for the use of these funds that has been informed by such consultation. The conferees note that the conference agreement includes additional grant funding for tribal law enforcement programs through COPS and OVW.

Direct legal representation of crime victims.—The conference agreement incorporates language in the Senate report directing the Office for Victims of Crime to submit a report to the Committees on Appropriations within 60 days of notifying States of their Victims of Crime Act victim assistance formula allocation for fiscal year 2012.

JUVENILE JUSTICE PROGRAMS

The conference agreement includes \$262,500,000 for Juvenile Justice programs. These funds are distributed as follows:

JUVENILE JUSTICE PROGRAMS

Youth mentoring grants.—The conferees direct OJP to submit, as part of the Department's spending plan for fiscal year 2012, a report detailing the criteria and methodology that will be used to award youth mentoring grants and a spending plan for youth mentoring funds. The conferees expect that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) will take all steps necessary to ensure fairness and objectivity in the award of these and future competitive grants.

Missing and exploited children/Internet Crimes Against Children (ICAC).—The conference agreement includes \$65,000,000 for missing and exploited children programs, including funds for the ICAC task force program, to continue to expand efforts to protect the Nation's children, focusing on the areas of locating missing children, and addressing the growing wave of child sexual ex-

ploitation facilitated by the Internet. The conferees direct OJP to provide a spending plan for the use of these funds as part of the Department's spending plan for fiscal year 2012. The conferees are aware that one way OJP addresses the proliferation of Internet crimes against children is through ICAC task forces. With regard to ICAC task forces, the conferees encourage the Department to fund programs with proven training results and low administrative costs.

Victims of Child Abuse Act.—The conference agreement includes \$18,000,000 for the various programs authorized under the Victims of Child Abuse Act (Public Law 101-647). Within the funds provided, \$5,000,000 shall be used to fund Regional Children's Advocacy Centers Programs.

PUBLIC SAFETY OFFICER BENEFITS

The conference agreement includes \$78,300,000 for the Public Safety Officer Bene-

fits program for fiscal year 2012. Within the funds provided, \$62,000,000 is for death benefits for survivors, an amount estimated by the Congressional Budget Office that is considered mandatory for scorekeeping purposes. In addition, \$16,300,000 is provided for disability benefits for public safety officers permanently and totally disabled as a result of a catastrophic injury and for education benefits for the spouses and children of officers killed in the line of duty or permanently and totally disabled as a result of a catastrophic injury sustained in the line of duty.

Tribal Resources Grant Program (TRGP).—The conference agreement provides a total of \$35,000,000 in funding targeted entirely to tribal communities through the TRGP. Within the TRGP, \$20,000,000 is provided through direct appropriations and \$15,000,000 is provided by transfer from the COPS Hiring program. The conferees note that all funds available to the TRGP may be used for equipment and hiring or training of tribal law enforcement.

TITLE III—SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement includes \$4,500,000 for the Office of Science and Technology Policy (OSTP).

Cooperation with China.—In fiscal year 2011, OSTP, acting on guidance from the Department of Justice and the Office of White House Counsel, engaged in bilateral activities with the Chinese government that the Government Accountability Office (GAO) found to be prohibited by section 1340 of the Department of Defense and Full Year Continuing Appropriations Act, 2011 (P.L. 112-10). Section 1340 was enacted due to congressional concern that our scientific cooperation with the Chinese government was failing to sufficiently take into account the risks posed by such activities. These risks include the transfer of sensitive technology, data and other information that could adversely impact our national security or disadvantage American companies relative to their Chinese counterparts.

The conference agreement contains language restricting any OSTP activities that would carry the risk of such transfers to China while allowing (subject to certification and notification requirements) other activities to proceed. This should enable OSTP to engage in beneficial collaborative endeavors, such as public health planning or disaster response activities, while providing greater protection for U.S. economic and national security interests.

Science, Technology, Engineering and Math (STEM) education.—The conferees support OSTP's recent efforts to improve and better coordinate Federal STEM education programs and to develop a government-wide STEM education strategic plan. The conferees encourage OSTP to include in the strategic plan goals relating to the improved dissemination of STEM education research and best practices.

Neuroscience.—The conferees believe there is a potential in the near future for significant, transformative advances in our fundamental understanding of learning, brain development, and brain health and recovery. Such advances will require enhanced tools to better understand the working of the brain, enhanced data and data infrastructure, and expanded interdisciplinary and large-scale research efforts. Neuroscience research is supported by the National Institutes of Health, the National Science Foundation (NSF), the Department of Veterans Affairs, the Department of Defense and other Federal agencies. The conferees encourage OSTP to establish, through the National Science and Technology Council (NSTC), an interagency working group to coordinate Federal investments in neuroscience research. The interagency working group should help focus and enhance Federal efforts toward: developing future clinical treatments for traumatic and acquired brain injuries; better understanding cognition and learning, and applying that understanding to improving education and learning; and improving our understanding of and developing better therapies for Alzheimer's disease, childhood developmental disorders and other neurological conditions.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The conference agreement includes \$17,800,000,000 for the National Aeronautics and Space Administration (NASA).

Fiscal oversight.—In order to promote strong fiscal oversight, the Committees on Appropriations have been pursuing with NASA a number of crosscutting issues, including cost estimation and control, financial management, acquisition reform and grants management. The conferees direct NASA to stay engaged in these ongoing efforts and to comply with all related reporting requirements and directives on these topics that were contained in the House and Senate reports.

Budget structure.—Funds have been allocated according to an account and program structure that generally conforms to the structure proposed in the budget request. After several consecutive years of major structural modifications, however, the conferees expect that NASA will refrain from proposing additional account changes unless directed to do so by the Committees.

The conferees' table of recommendations for NASA is delineated below. Additional detail may be found under the relevant account headings.

SCIENCE

The conference agreement includes \$5,090,000,000 for Science.

Program, project and activity level funding designations.—The conferees have not included a detailed, line-item funding table for the Science Mission Directorate. Instead, the conference table provides totals for Earth Science, Planetary Science, Astrophysics, the James Webb Space Telescope and Heliophysics. Using these totals, as well as any additional funding direction provided below, NASA should develop a budget plan for each division that incorporates any necessary reductions and submit these proposals as part of the spending plan required by section 538 of this Act. In proposing reductions, NASA should take care to protect, to the extent possible, high priority missions of the decadal surveys, as well as missions with near-term launch readiness dates. In addition, NASA should be careful to propose a funding portfolio that maintains an essential balance between actual spaceflight projects and the critical mission-enabling activities (research and data analysis, data application, etc.) that support and enhance the value of those projects.

Earth Science.—The conference agreement adopts, by reference, language from the Senate report on carbon monitoring systems and

the Deformation, Ecosystem Structure and Dynamics of Ice mission.

Planetary Science.—The conference agreement includes no less than \$581,700,000 for Mars Exploration. Within the amount provided, NASA shall continue working to define, plan and execute future Mars missions and continue seeking and taking advantage of opportunities for international cooperation on such missions.

The conference agreement also includes \$43,000,000 for outer planets flagship missions. The conferees understand that required descope studies for planetary flagship missions are at or near completion and direct that those studies be submitted to the Committees on Appropriations as soon as possible. NASA is also directed to continue working on a detailed definition of an appropriately descope flagship mission, consistent with the findings of the most recent planetary science decadal survey.

Astrophysics.—The conference agreement adopts, by reference, language from the Senate report regarding the Hubble Space Telescope and the Explorer Program.

The Wide Field Infrared Survey Telescope (WFIRST) was identified as the first priority of the most recent astronomy and astrophysics decadal survey. NASA should build on the work of the Joint Dark Energy Mission project and pursue WFIRST to the ex-

tent that foreseeable budget resources can accommodate this mission.

James Webb Space Telescope (JWST).—According to the recent JWST budget replan, the program's lifecycle cost estimate is now \$8,835,000,000 (with formulation and development costs totaling \$8,000,000,000). This represents an increase of \$1,208,000,000 over the previous lifecycle cost estimate, including an increase of \$156,000,000 above the budget request for fiscal year 2012. In order to accommodate that increase in this agreement, the conferees received input from the administration and made reductions to the requested levels for Earth and planetary science, astrophysics and the agency's budget for institutional management. Although the amounts provided for these other science activities still constitute an increase over the fiscal year 2011 levels, the conferees note that keeping JWST on schedule from fiscal year 2013 through the planned launch in fiscal year 2018 will require NASA to identify another \$1,052,000,000 over previous JWST estimates while simultaneously working to meet the deficit reduction requirements of the Budget Control Act of 2011 (P.L. 112-25). As a result, outyear work throughout the agency may need to be reconsidered. The conferees expect the Administration to come forward with a realistic long-term budget

plan that conforms to anticipated resources as part of its fiscal year 2013 budget request.

To provide additional assurances that JWST's management and funding problems are under control, the conference agreement includes language strictly limiting JWST formulation and development costs to the current estimate of \$8,000,000,000 and requiring any increase above that amount to be treated according to procedures established for projects in 30 percent breach of their lifecycle cost estimates.

In addition, the conferees direct the GAO to continually assess the program and to report to the Committees on Appropriations on key issues relating to program and risk management; achievement of cost and schedule goals; and program technical status. For its first report, the conferees direct the Comptroller General to assess: (1) the risks and technological challenges faced by JWST; (2) the adequacy of NASA's revised JWST cost estimate based on GAO's cost assessment best practices; and (3) the extent to which NASA has provided adequate resources for and is performing oversight of the JWST project to better ensure mission success. The first report should be provided to the Committees no later than December 1, 2012, with reports continuing on an annual basis thereafter. Periodic updates should also be provided to the Committees upon request or whenever a significant new finding has been made. NASA is directed to cooperate fully and to provide timely access to analyses, data, applications, databases, portals, reviews, milestone decision meetings, and contractor and agency personnel.

Heliophysics.—The conference agreement adopts, by reference, language from the Senate report regarding the Explorer Program, Magnetospheric Multiscale Mission and Solar Probe Plus.

Flagship management.—The conferees believe that flagship missions are an important component of a balanced science mission portfolio but are concerned by NASA's history of problematic management of these projects. Without substantial improvements in cost estimation, requirements definition, cost discipline and other practices, management problems will persist and, ultimately, erode support for NASA's pursuit of these missions. NASA has many sources of expertise, both internal and external, on which to draw for ideas about how to address its problems in flagship management, and the conferees urge NASA to do so. In particular, the conferees encourage NASA to look at lessons learned from reviews of the challenges of prior flagship projects; identify those lessons that address universal management issues; and implement those lessons in flagship projects across the Directorate.

AERONAUTICS

The conference agreement includes \$569,900,000 for Aeronautics.

SPACE TECHNOLOGY

The conference agreement includes \$575,000,000 for Space Technology. All funds under this heading should be prioritized toward the continuation of ongoing programs and activities.

Exploration Technology Development.—With amounts provided, no less than \$190,000,000 shall be dedicated to Exploration Technology Development, which directly supports the achievement of human exploration goals.

Satellite servicing.—The conference agreement provides no less than \$25,000,000 for satellite servicing activities. This funding will contribute to the planned competitive satellite servicing demonstration mission and shall be managed by the Human Exploration and Operations (HEO) Mission Directorate.

EXPLORATION

The conference agreement includes \$3,770,800,000 for Exploration.

Orion Multipurpose Crew Vehicle (MPCV).—The conference agreement provides \$1,200,000,000 for the Orion MPCV. The MPCV is intended both to be launched on the heavy lift rocket system in furtherance of NASA's beyond Earth orbit (BEO) exploration goals and to provide an alternative means of cargo and crew delivery to the International Space Station (ISS) in the event that commercial or partner-supplied vehicles are unable to perform those functions. The MPCV will begin uncrewed and crewed flight operations in conjunction with the Space Launch System (SLS) within the next decade, but the conferees understand that NASA may want to pursue an earlier MPCV flight test utilizing a commercially available launch vehicle. The conferees have no objection to necessary and useful testing as long as the costs of procuring the launch vehicle and executing the test flight can be accommodated within the MPCV budget. Within the larger MPCV program, components should be procured via fixed price contracts wherever possible in order to improve cost control and maximize the impact of all available dollars.

Space Launch System.—The conference agreement provides \$1,860,000,000 for the SLS, which is a sustained, evolvable heavy lift vehicle utilizing a common core. While this evolvable approach will enable NASA to achieve the earliest possible initial flight capability by using a 70 ton SLS configuration, only the 130 ton configuration will allow NASA to achieve its BEO exploration goals. Consequently, NASA is directed to ensure that all work done on the early configurations of the evolvable vehicle is in service of the eventual BEO capability. Similarly, NASA is reminded of its legal obligation to design the system from inception to the 130 ton standard and to proceed with simultaneous development of the core and upper stages. Wherever possible, SLS components should be procured via fixed price contracts in order to improve cost control and maximize the impact of all available dollars.

The conferees note the need for additional clarity on the amount of money being allocated to the development of each major component of the SLS. In order to address this need, NASA is directed to provide quarterly reports to the Committees on Appropriations showing anticipated and actual SLS obligations and outlays by major component (core stage, upper stage, engines, boosters, avionics/instrumentation). NASA is further directed to work with the Committees to refine the content and format of these reports.

Adjustments to MPCV and SLS funding.—Funds provided in this Act for MPCV and SLS are intended for the actual design and development of the vehicles themselves. Therefore, the conferees direct that the charging of related expenses to these program lines be kept to a minimum. Any funds deducted from the total to pay for civil service labor, headquarters program support, program integration, mission operations, extravehicular activities or other related expenses must be separately delineated both in the spending plan submitted pursuant to section 538 of this Act and in all future requests. The conference agreement provides a statutory set-aside for SLS ground operations; therefore, no additional charges to SLS funding for this purpose is permitted. All activities funded with the ground operations set-aside shall primarily serve the SLS program.

The conferees note that the recently completed Independent Cost Assessment (ICA) for the exploration program utilized a different budgetary structure than NASA's fiscal year 2011 operating plan or its fiscal year 2012 budget request. In the ICA, funds were divided into three separate streams: MPCV; SLS, exclusive of any ground operations; and 21st Century Ground Systems, which incor-

porates all SLS ground operations as well as exploration-related ground systems and infrastructure activities from the 21st Century Launch Complex program. The conferees appreciate that this structure makes a clearer distinction between SLS vehicle development work and ground operations and that it unites all exploration-related ground systems spending in a single account (while leaving ground operations and infrastructure in support of multi-user programs within the 21st Century Launch Complex appropriation). NASA is directed to submit its fiscal year 2013 budget request and all future requests using the structure laid out in the ICA. To assist in the transition to this new structure, the fiscal year 2013 request should include a crosswalk between the new and old structures.

Cost caps.—The conferees believe the human exploration programs should be managed under strict cost caps based on NASA's analysis and the recently completed ICA. Within 60 days of the enactment of this Act, NASA shall report to the Committees on Appropriations on planned milestones; expected performance and configurations; planned ground and flight testing programs; and deliverables for SLS, MPCV and ground systems. As part of this report, NASA shall recommend separate cost caps for the SLS, MPCV and associated ground systems (consistent with the funding streams as identified in the ICA) through fiscal year 2017 and shall manage each program to remain within those caps.

Exploration destinations and goals.—The conferees believe that NASA needs to better articulate a set of specific, scientifically meritorious exploration goals to focus its program and provide a common vision for future achievements. Consequently, the conferees direct NASA to develop and report to the Committees on Appropriations a set of science-based exploration goals; a target destination or destinations that will enable the achievement of those goals; a schedule for the proposed attainment of these goals; and a plan for any proposed collaboration with international partners. Proposed international collaboration should enhance NASA's exploration plans rather than replace capabilities NASA is developing with current funds. This report shall be submitted no later than 180 days after the enactment of this Act.

Commercial crew funding.—While significant unanswered questions remain about the long-term viability of the commercial space market, the conferees agree with NASA that the support of domestic aerospace jobs and the provision of redundant access to the ISS are worthy goals. Consequently, the conference agreement provides \$406,000,000 for the commercial crew development program. The agreement withholds \$100,000,000 of these funds pending the completion of specified acquisitions milestones in the human exploration program. The conferees expect, however, that the timely completion of these milestones will result in the prompt release of all withheld funds without any negative impact on the commercial crew program.

Commercial crew management.—All of the commercial crew management and acquisition plans submitted by NASA to date have been predicated on receiving funding far in excess of the authorized level. The conferees are concerned that NASA has not devoted sufficient time to developing a detailed management plan for alternate scenarios. NASA is directed to work expeditiously to alter its management and acquisition strategy for the program as necessary to make the best use of available resources and to define the most cost effective path to the achievement of a commercial crew capability. NASA is encouraged to consider, as part of an altered

strategy, an accelerated down-select process that would concentrate and maximize the impact of each appropriated dollar.

The conferees understand that NASA has several mechanisms in place to ensure that the risk associated with commercial crew development activities is not carried solely by the government. Consistent with normal procurement practices, NASA evaluates through responsibility and commitment assessments the financial stability of potential contractors. In addition, NASA will structure awards to ensure that payments are made only after the achievement of specified performance milestones and to protect the government's ability to retain and use data derived from an award in the event that the contractor defaults or otherwise chooses to discontinue participation in the program. These practices limit the financial exposure of the government and maximize the value of all payments made.

Commercial safety requirements.—The conferees are pleased by NASA's commitment to hold all human-rated launch vehicles and crew systems, including those developed via both the commercial crew program and the Human Exploration Capabilities program, to the same safety requirements regarding the potential loss of crew (LOC) or loss of mission (LOM). The conferees direct NASA to ensure that any tailoring of specific safety standards and procedures going forward does not affect this uniform application of LOC/LOM requirements.

Apollo heritage sites.—Future human and robotic exploration of the Moon poses a threat to the preservation of historically and scientifically significant sites there, including the locations of the first and last Apollo lunar landings. The conferees support NASA's efforts to establish guidelines for the protection of Apollo "heritage sites" and direct NASA to keep the Committees on Appropriations informed of further progress in this area.

SPACE OPERATIONS

The conference agreement includes \$4,233,600,000 for Space Operations.

Space Shuttle.—The conference agreement provides a total of \$573,000,000 for the Space Shuttle program, including \$470,000,000 to cover NASA's liability pursuant to the termination of the pension plan under the Space Program Operations Contract (SPOC). The conferees have derived their numbers from the most recently available actuarial estimate of SPOC liability needs, as provided by NASA. The government is legally obligated to make these payments. If the final calculated pension shortfall differs from this amount, NASA may address the difference by either adding to or deducting from remaining Space Shuttle transition and retirement funds.

The conference agreement adopts, by reference, language in the House report requiring NASA to undertake specified actions relating to the transition of the Shuttle workforce and to provide status reports on the progress of its Space Shuttle orbiter disposition efforts.

International Space Station (ISS).—The conferees support the decision to extend ISS research and operations through 2020. In support of the ISS program, the conference agreement provides \$2,830,000,000 for ISS operations, research and cargo supply.

Satellite servicing.—The conference agreement includes \$50,000,000 from Space Operations to continue satellite servicing activities. These funds are in addition to \$25,000,000 for satellite servicing in the Space Technology account. The HEO Mission Directorate shall continue to be responsible for the overall direction and management of all agency satellite servicing activities, which

are undertaken as a joint project of the HEO, Space Technology and Science mission directorates. Satellite servicing activities shall include mission architecture design, robotic system development, autonomous rendezvous and capture sensor testing, fluid transfer demonstrations and spacecraft design.

Funds are to be used to continue work on a competitive project to develop, in collaboration with a U.S. commercial partner, a satellite servicing mission capable of operating in geosynchronous Earth orbit. The goal for such a mission is to achieve an on-orbit servicing of an observatory-class government satellite by 2016. Any U.S. commercial partner should be willing to invest its own resources in this mission, as it is intended to foster the creation of an ongoing commercial capability that could meet the needs of NASA, other Federal agencies, the commercial satellite sector and the scientific community.

21st Century Launch Complex.—The conference agreement adopts, by reference, language from the Senate report regarding the 21st Century Launch Complex program. As noted under the Exploration heading, the conferees intend to confine the 21st Century Launch Complex appropriation to multi-user projects beginning in fiscal year 2013. Any 21st Century funds that support the ground operations and infrastructure of the human exploration program will be included in the new 21st Century Ground Systems funding stream in future years.

Tracking and Data Relay Satellite-M (TDRS-M).—NASA has authority to fund research and development programs and projects on an incremental basis. However, the conferees understand that TDRS-M, unlike prior TDRS System projects, does not qualify as research and development. In order to remain consistent with historical precedent on TDRS funding, therefore, the conferees have provided bill language permitting NASA to treat TDRS-M as a research and development project for the purposes of incremental funding for the duration of the project.

Launch site infrastructure.—NASA is directed to facilitate the efficient and beneficial re-purposing of vacant or underutilized facilities, equipment and other property at NASA-owned launch sites. To accomplish this re-purposing, NASA is directed to employ all authorities granted by Congress and to involve, to the extent practical, field-level personnel in the decision making.

EDUCATION

The conference agreement includes \$138,400,000 for Education.

Portfolio structure and funding levels.—The conferees have constructed an education portfolio that strikes a balance between NASA's desire to restructure and streamline elements of the portfolio with the need to provide sufficient support to successful existing programs such as Space Grant, the Experimental Program to Stimulate Competitive Research (EPSCoR) and the Minority University Research and Education Program. The conferees direct NASA to consider this balance when developing future education budget requests. The conferees also note the existence of significant educational resources built into the mission directorate budgets and encourage NASA to take all necessary steps to ensure that these educational activities are well integrated with the programs funded under this heading.

Informal Education.—The conferees have provided \$10,000,000 for a competitive grant program to fund informal education programs that develop STEM education activities, including exhibits, at qualifying institutions as described in section 616 of the NASA Authorization Act of 2005 (P.L. 109-

155), and/or at NASA Visitors Centers. In selecting grants, NASA shall prioritize projects according to their links to NASA's missions.

CROSS AGENCY SUPPORT

The conference agreement includes \$2,995,000,000 for Cross Agency Support (CAS).

Civil service labor.—NASA's CAS request included funding for nearly 700 programmatic FTE that had not yet been allocated to a mission directorate. Since the time of the budget submission, NASA has provided updated data showing the appropriate distribution of these FTE. The conference agreement reflects this updated distribution by reallocating both the FTE and associated funding out of the CAS account.

Background investigations.—All members of the NASA workforce, including both civil servants and contractors, should be appropriately and regularly screened to validate their right to access NASA physical or virtual resources. The conferees support the implementation of all necessary security procedures to achieve this goal.

Employee Performance Communications System (EPCS).—The conference agreement adopts, by reference, language in the Senate report requiring a GAO assessment of specified elements of the implementation of the EPCS.

Cybersecurity.—The conference agreement adopts, by reference, language from the House report regarding authorities of the Chief Information Officer to address cybersecurity vulnerabilities.

Independent Verification and Validation (IV&V).—The conference agreement adopts, by reference, language from the Senate report regarding IV&V.

Budget justifications.—The conferees understand that NASA is undertaking changes to the format and content of its annual budget justifications. The Committees on Appropriations should be involved in the discussion about what changes are necessary in order to ensure that the end product is as useful as possible for the conduct of the Committees' work. Consequently, NASA is directed to work jointly with the Committees to define the scope and content of needed changes and to implement those changes in all future budget justifications.

Comprehensive independent assessment.—NASA has a broad mandate to execute a balanced space program that includes science, technology development, aeronautics research, human spaceflight and education. NASA regularly receives management and programmatic recommendations from GAO, the Office of Inspector General (OIG) and various commissions and other entities, as well as outside advice on scientific and technical priorities from the National Academies. While each of these reviews is useful on its own, they are generally targeted to a specific issue or program and therefore do not provide a comprehensive assessment of NASA's activities. The conferees believe that such an agency-wide assessment will provide a means to evaluate whether NASA's overall strategic direction remains viable and whether agency management is optimized to support that direction. Accordingly, the conference agreement recommendation includes \$1,000,000, to be provided by transfer to the OIG, to commission a comprehensive independent assessment of NASA's strategic direction and agency management.

The assessment should consider the relevance and feasibility of NASA's strategic goals; the appropriateness of the budgetary balance between NASA's various programs; and the adequacy of NASA's internal policies, procedures, controls and organizational

structures that support and prioritize its mission activities. Any recommendations made pursuant to the assessment should be predicated on the assumption that NASA's outyear budget profile will be constrained due to continuing deficit reduction efforts. Such recommendations should also take into account the need for a common, unifying vision for NASA's strategic direction that encompasses NASA's varied missions. A report summarizing the conclusions of the assessment and any relevant recommendations shall be provided to the Congress and the President no later than 120 days after the enactment of this Act.

To conduct this assessment, the Inspector General shall choose an organization that will convene individuals with recognized relevant expertise and whose collective credentials sufficiently cover the entire range of NASA's mission activities, including space and Earth science; aeronautics; advanced technology development; space exploration; spaceflight operations and support; STEM education; and/or management of any of these activities. In order to promote objectivity, the Inspector General shall define and implement any conflict of interest protocols deemed necessary, but, at a minimum, the selected individuals shall not be currently employed or retained by NASA or any outside entity that competes for or receives NASA funding.

Working Capital Fund (WCF).—NASA's WCF was initially authorized in fiscal year 2003. In fiscal year 2012, NASA has expanded its use of the WCF to cover activities such as major agency-wide information technology services. The conferees are concerned that such an expansion of the uses of the WCF without adequate advance notification through the normal budget process undermines the oversight role of the Committees on Appropriations. Accordingly, the conferees direct that NASA, as part of its annual congressional budget justification, detail any expected WCF activity for the coming fiscal year, including the source and amount of expected WCF transfers, all expected uses of the Fund, and any balances on hand or expected to remain at the end of the fiscal year. NASA shall also provide quarterly to the Committees an accounting of that quarter's expenditures along with the amount of any unobligated balances in the Fund.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

The conference agreement includes \$390,000,000 for Construction and Environmental Compliance and Restoration (CECR).

Integrated facilities master planning.—The conference agreement adopts, by reference, language from the House report directing the submission of an integrated facilities master plan.

Hangar 1, Moffett Field.—The conference agreement adopts, by reference, language from the House report regarding Hangar 1 at Moffett Field.

Mission-related construction.—NASA continues to request funds for construction of facilities within both the Space Operations and the Exploration accounts. This is an inefficient practice which requires significant post-enactment transfers of funds between accounts. The conference agreement permits such transfers in specified amounts from Space Operations and Exploration in fiscal year 2012, but NASA is directed to ensure that all construction funds in future years are requested solely within the CECR account.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$37,300,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS

The conference agreement includes the following administrative provisions for NASA:

The agreement includes a provision that makes funds for announced prizes available without fiscal year limitation until the prize is claimed or the offer is withdrawn.

The agreement includes a provision that establishes terms and conditions for the transfer of funds.

The agreement includes a provision that allows the transfer of balances under previous appropriations account structures to the new appropriations account structure.

The agreement includes a provision related to the expenditure of interest earned from balances in the Endeavor Teacher Fellowship Trust Fund.

The agreement includes a provision permitting NASA to accept in-kind consideration as part of the Enhanced Use Lease program under specified circumstances. NASA is directed to include in its annual budget justification a description of any in-kind consideration accepted and an estimate of the market value of that consideration.

The agreement includes a provision that subjects the NASA spending plan and specified changes to that spending plan to reprogramming procedures under section 505 of this Act.

NATIONAL SCIENCE FOUNDATION RESEARCH AND RELATED ACTIVITIES

The conference agreement includes \$5,719,000,000 for Research and Related Activities (R&RA).

Research priorities.—The conferees appreciate NSF's commitment to reviewing its portfolio of programs and proposing reductions or terminations where appropriate. Such proposals provide a more fiscally sustainable way to support new or expanded programs. Accordingly, the conference agreement incorporates all of NSF's R&RA termination and reduction proposals except for the requested reduction to the radio astronomy program.

By accepting NSF's proposal to eliminate funding for the Deep Underground Science and Engineering Laboratory (DUSEL), the conference agreement completes a multi-year phase-out of NSF involvement in this project. NSF is directed to report to the Committees on Appropriations about future efforts or commitments, if any, to collaborate with the Department of Energy on a deep underground lab.

Advanced manufacturing.—The conference agreement adopts, by reference, language in the House report regarding advanced manufacturing.

Neuroscience.—NSF is uniquely positioned to advance the non-medical aspects of cognitive sciences and neurosciences, particularly through interdisciplinary science, computational models, visualization techniques, innovative technologies, and the underlying data and data infrastructure needed to transform our understanding of these areas, and the conferees encourage NSF to sustain and expand its investments in these areas. In addition, to better focus the agency's efforts and guide future budget submissions, NSF is encouraged to establish a cognitive sciences and neurosciences crosscutting theme. The conferees note that language is included under the OSTP heading encouraging OSTP to establish a NSTC working group to coordinate Federal investments in neuroscience research.

Giant Segmented Mirror Telescope (GSMT).—The direction in this section is provided in lieu of any language in the Senate report relating to the GSMT program. NSF has decided to proceed with the selection of a viable GSMT project, consistent with the National Research Council's (NRC) 2010 astron-

omy and astrophysics decadal survey recommendations. The conferees expect that this selection will be made expeditiously and utilize a fully competitive process, with a solicitation issued no later than the end of calendar year 2011 and a result announced no later than July 31, 2012.

Cybersecurity research.—The conference agreement adopts, by reference, language from the Senate report regarding cybersecurity research.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The conference agreement includes \$167,055,000 for Major Research Equipment and Facilities Construction (MREFC).

Project priorities.—With the MREFC funding provided either directly or via potential transfer from the R&RA account, NSF will be able to achieve significant progress on its current portfolio of construction projects, but some prioritization of funds will still be necessary. The conferees expect that NSF will dedicate funds first to the completion of projects that are already in the final stages of construction, with remaining funds allocated to projects in earlier phases of development.

Project funding profiles.—NSF should promptly review its current portfolio of MREFC projects and their outyear funding profiles to ensure they are consistent with fiscal year 2011 and 2012 appropriations. If adjustments to the portfolio in either of those fiscal years will necessitate a revision of the outyear funding profiles for any current or planned project, NSF is directed to immediately report the revised profiles to the Committees on Appropriations and to include the new profiles in the fiscal year 2013 budget request.

Construction funding management.—The conferees remain concerned about how NSF and its grantees are defining, estimating and managing construction funding, particularly contingency funds. Stronger management and oversight of these funds could result in improved project efficiencies and, ultimately, cost savings. NSF is directed to report to the Committees on Appropriations on the steps it is taking to impose tighter controls on the drawdown and use of contingencies, as well as steps intended to incentivize grantees to complete construction under budget, for projects managed through the MREFC appropriation and for other large facility projects. This report should be submitted no later than 90 days after the enactment of this Act.

EDUCATION AND HUMAN RESOURCES

The conference agreement includes \$829,000,000 for Education and Human Resources (EHR).

Program changes.—In parallel with terminations and reductions proposed in the R&RA account, NSF has proposed a number of program reductions or terminations within EHR. For the most part, these cuts were proposed not due to any dissatisfaction with the programs in question but rather because NSF would prefer to implement new initiatives. The conferees have no objection to this approach, with the exception of the proposed reductions to the Robert Noyce Scholarship Program and the Math and Science Partnership program. The conferees do not believe that those cuts are warranted solely to make room for new activities.

Broadening Participation at the Core.—The conference agreement adopts, by reference, language from the House report regarding funding levels for the existing Broadening Participation at the Core programs.

Best practices in K-12 STEM education.—NSF is encouraged to find more effective mechanisms for disseminating the results of its education research to the K-12 STEM

education community. Such mechanisms could include partnerships with nonprofits and professional associations, webinars, newsletters and workshops, drawing when possible on the resources of existing networks.

In particular, NSF is directed to ensure that the NRC report entitled *Successful K–12 STEM Education: Identifying Effective Approaches in Science, Technology, Engineering, and Mathematics* is widely distributed within the educational and scientific communities. In addition, NSF is directed to begin work to identify methods for tracking and evaluating the implementation of the recommendations in the NRC's report. NSF and its collaborators should provide an evaluation plan to the Committees on Appropriations within 12 months of the enactment of this Act that describes these methods and recommends the necessary steps that should be taken by NSF and other Federal agencies to implement that plan. Within the amounts available in this account, up to \$500,000 should be used for the formulation of the evaluation plan.

Hispanic Serving Institutions.—The conference agreement adopts, by reference, language from the House report on Hispanic Serving Institutions.

Federal Cyber Service: Scholarships for Service.—The conferees adopt the Senate recommendation to expand the Federal Cyber Service: Scholarships for Service program. The agreement provides \$45,000,000 for this program, which is \$20,000,000 above the requested level.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The conference agreement includes \$299,400,000 for Agency Operations and Award Management.

OFFICE OF THE NATIONAL SCIENCE BOARD

The conference agreement includes \$4,440,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$14,200,000 for the OIG.

ADMINISTRATIVE PROVISION

The conference agreement includes a provision that establishes terms and conditions for the transfer of funds.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$9,193,000 for the Commission on Civil Rights.

Improving oversight.—For fiscal year 2012, the conference agreement establishes an inspector general (IG) function for the Commission on Civil Rights and provides that the function will be carried out by the individual holding the position of IG at the Government Accountability Office (GAO). The IG is tasked with the duties and responsibilities specified in the Inspector General Act of 1978, including conducting audits and reviews of Commission programs, finances and personnel. The conference agreement provides funding for these operations, in the amount of \$250,000, by direct transfer to the Office of Inspector General of the GAO.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$360,000,000 for the Equal Employment Opportunity Commission (EEOC). The conference agreement directs that \$29,500,000 shall be available for payments to State and local enforcement agencies to ensure that the EEOC provides adequate resources to its State and local partners.

Backlog reduction.—In order to advance EEOC's backlog reduction goals, the conferees expect the EEOC to prioritize efforts both to address the inventory of private sector charges, such as through hiring or backfilling positions of frontline mission critical staff, and to examine new ways to address the backlog and increase productivity.

To assist in the monitoring of EEOC's hiring progress, the conferees direct the EEOC to continue submitting quarterly staffing reports, consistent with the direction provided in the statement accompanying Public Law 111–117.

INTERNATIONAL TRADE COMMISSION SALARIES AND EXPENSES

The conference agreement includes \$80,000,000 for the International Trade Commission (ITC).

The conferees adopt by reference House report language regarding internal control, financial management and information technology security weaknesses and direct the ITC to submit a report to the Committees on Appropriations not later than 120 days after enactment of this Act.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The conference agreement includes \$348,000,000 for the Legal Services Corporation (LSC).

Pro bono legal services.—The conferees are pleased that LSC launched a pro bono task force in 2011 and urge the LSC to implement the recommendations of this task force as it continues to work with LSC-funded programs to adopt measures aimed at increasing the involvement of private attorneys in the delivery of legal services to its clients.

Legal aid fellowships.—The conferees understand that LSC is considering a proposal to create a fellowship program for retirees or recent law school graduates who will commit to working in legal aid for a designated period of time. The conferees direct LSC to conduct a study of this proposal in order to further develop how such a fellowship program would work and how much it would cost to implement. LSC shall report to the Committees on Appropriations with the results of that study not later than 120 days after the enactment of this Act.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

Unauthorized uses of funds.—The conferees encourage the Inspector General of the LSC to conduct annual audits of LSC grantees to ensure that funds are not being used in contravention of the restrictions on engaging in political activities or any of the other restrictions by which LSC grantees are required to abide. The conferees also recommend the removal of funds from any LSC grantee determined by the Inspector General to have engaged in political activity.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$3,025,000 for the Marine Mammal Commission.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The conference agreement includes \$51,251,000 for the Office of the U.S. Trade Representative (USTR). The conferees expect that funds provided will be used to vigorously enforce existing trade agreements.

Monitoring and enforcement.—The conferees direct the USTR, from funds provided in this Act, to hire no less than four additional staff for the office of the Assistant USTR for Monitoring and Enforcement. These staff, who

shall be fluent in Chinese, shall monitor and enforce China's compliance with its WTO obligations and assist in early stage identification and review of Chinese measures arising out of its Five Year Plans.

Responsiveness.—The conferees note that the USTR Office of Legislative Affairs does not respond in a timely manner to requests for information from the Committees on Appropriations. Indifference shown by USTR Legislative Affairs in providing yearly budget justifications or in responding to information requests hampers the ability of the Congress to evaluate proposals and conduct oversight. Accordingly, the conferees direct the USTR to submit its detailed fiscal year 2013 budget request to the Committees on Appropriations not later than two days after the President's fiscal year 2013 budget request is submitted.

Critical vacancies.—The conferees adopt by reference House report language regarding a report on critical vacancies and direct the USTR to provide a report to the Committees on Appropriations not later than 60 days after enactment of this Act.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The conference agreement includes \$5,121,000 for the State Justice Institute.

TITLE V—GENERAL PROVISIONS

(INCLUDING RESCISSIONS)

The conference agreement includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive Order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of the Act and the application of other provisions shall not be affected.

Section 505 prohibits a reprogramming of funds that: (1) creates or initiates a new program, project or activity; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employee; (5) reorganizes or renames offices, programs or activities; (6) contracts out or privatizes any function or activity presently performed by Federal employees; (7) augments funds for existing programs, projects or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent; or (8) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, activities, or projects as approved by Congress; unless the House and Senate Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

Section 506 permanently prohibits funds from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission covering harassment based on religion similar to proposed guidelines published by the EEOC in October 1993.

Section 507 provides that if it is determined that any person intentionally affixes a "Made in America" label to any product that was not made in America, that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. The section further provides that to the extent practicable, with respect to purchases of promotional items, funds made available under this Act shall be used to purchase items manufactured, produced or assembled in the United States or its territories or possessions.

Section 508 requires quarterly reporting to Congress on the status of balances of appropriations.

Section 509 provides that any costs incurred by a department or agency funded under this Act resulting from, or to prevent, personnel actions taken in response to funding reductions in the Act shall be absorbed with the budgetary resources available to the department or agency, and provides transfer authority between appropriation accounts to carry out this provision, subject to reprogramming procedures.

Section 510 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 511 permanently prohibits funds from being used to implement a Federal user fee for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and to implement a background check system that does not require and result in the destruction of certain information within 24 hours.

Section 512 delays the obligations of any receipts deposited into the Crime Victims Fund in excess of \$705,000,000 until the following fiscal year. This language is continued to ensure a stable source of funds will remain available for the program, despite inconsistent levels of criminal fines deposited annually into the Fund.

Section 513 prohibits the use of Department of Justice funds for programs that discriminate against or denigrate the religious or moral beliefs of students participating in such programs.

Section 514 prohibits the transfer of funds in the Act to any department, agency or instrumentality of the United States Government, except for transfers made by, or pursuant to authorities provided in, this Act or any other appropriations Act.

Section 515 provides that funds provided for E-Government Initiatives shall be subject to the procedures set forth in section 505 of this Act.

Section 516 requires the Bureau of Alcohol, Tobacco, Firearms and Explosives to include specific language in any release of tracing study data that makes clear that trace data cannot be used to draw broad conclusions about firearms-related crimes.

Section 517 requires certain timetables of audits performed by Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, the National Science Foundation, and the Legal Services Corporation and sets limits and restrictions on the awarding and use of grants or contracts funded by amounts appropriated by this Act.

Section 518 prohibits funds for information technology acquisitions unless the acquiring department or agency has assessed the risk of cyber-espionage or sabotage. Each department or agency covered under section 518 shall submit a quarterly report to the Committees on Appropriations of the House and the Senate describing assessments made pursuant to this section and any associated findings or determinations of risk.

Section 519 prohibits the use of funds in this Act to support or justify the use of torture by any official or contract employee of the United States Government.

Section 520 prohibits the use of funds in this Act to require certain export licenses.

Section 521 prohibits the use of funds in this Act to deny certain import applications regarding "curios or relics" firearms, parts, or ammunition.

Section 522 prohibits the use of funds to include certain language in trade agreements.

Section 523 prohibits the use of funds in this Act to authorize or issue a National Security Letter (NSL) in contravention of certain laws authorizing the Federal Bureau of Investigation to issue NSLs.

Section 524 requires congressional notification for any project within the Departments of Commerce or Justice, the National Science Foundation or the National Aeronautics and Space Administration totaling more than \$75,000,000 that has cost increases of at least 10 percent.

Section 525 deems funds for intelligence or intelligence-related activities as authorized by the Congress until the enactment of the Intelligence Authorization Act for fiscal year 2012.

Section 526 requires the departments and agencies funded in this Act to establish and maintain on the homepages of their Internet websites direct links to the Internet websites of their Offices of Inspectors General, and a mechanism by which individuals may anonymously report cases of waste, fraud or abuse.

Section 527 prohibits contracts or grant awards in excess of \$5,000,000 unless the prospective contractor or grantee certifies that the organization has filed all Federal tax returns, has not been convicted of a criminal offense under the IRS Code of 1986, and has no unpaid Federal tax assessment.

(RESCISSIONS)

Section 528 provides for rescissions of unobligated balances in certain departments and agencies funded in this Act. With respect to rescissions of unobligated balances from the Office on Violence Against Women, the Office of Justice Programs and the Office of Community Oriented Policing Services, the conferees expect that rescissions will be from grant deobligations and recoveries.

Section 529 prohibits the use of funds in this Act in a manner that is inconsistent with the principal negotiating objective of the United States with respect to trade remedy laws.

Section 530 prohibits the use of funds in this Act for the purchase of first class or premium air travel.

Section 531 prohibits the use of funds to pay for the attendance of more than 50 department or agency employees at any single conference outside the United States, unless the conference is a law enforcement training or operational event where the majority of Federal attendees are law enforcement personnel stationed outside the United States.

Section 532 includes language regarding detainees held at Guantanamo Bay.

Section 533 includes language regarding facilities for housing detainees held at Guantanamo Bay.

Section 534 prohibits the distribution of funds contained in this Act to the Association of Community Organizations for Reform Now or its subsidiaries.

Section 535 includes language regarding the purchase of light bulbs.

Section 536 requires any department, agency or instrumentality of the United States Government receiving funds appropriated under this Act to track and report on undisbursed balances in expired grant accounts.

Section 537 prohibits the use of funds to relocate the Bureau of the Census or employees from the Department of Commerce to the jurisdiction of the Executive Office of the President.

Section 538 requires the Departments of Commerce and Justice, the National Aeronautics and Space Administration, and the National Science Foundation to submit spending plans.

Section 539 prohibits the use of funds by the National Aeronautics and Space Administration or the Office of Science and Technology Policy to engage in bilateral activities with China or a Chinese-owned company unless the activities are authorized by subsequent legislation or NASA or OSTP have made a certification pursuant to subsections (c) and (d) of this section.

Section 540 specifies reporting requirements for certain conferences held by any department, agency, board or commission funded by this Act.

Section 541 prohibits funds made available by this Act from being used to deny the importation of shotgun models if no application for the importation of such models, in the same configuration, had been denied prior to January 1, 2011, on the basis that the shotgun was not particularly suitable for or readily adaptable to sporting purposes.

Section 542 prohibits the use of funds to establish or maintain a computer network that does not block pornography, except for law enforcement purposes.

Section 543 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that was convicted of a felony criminal violation under any Federal law within the preceding 24 months, unless an agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 544 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless an agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 545 specifies reporting requirements regarding vehicle fleets for all agencies and departments funded by this Act.

Section 546 prohibits any funds from being used to implement, administer, or enforce the “Wage Methodology for the Temporary Non-agricultural Employment H-2B Program” prior to January 1, 2012, to allow time for Congress to address this rulemaking. In making prevailing wage determinations for the H-2B nonimmigrant visa program for employment prior to January 1, 2012, the conferees direct the Secretary of Labor to continue to apply the rule entitled “Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H-2B Workers), and Other Technical Changes” published by the Department of Labor on December 19, 2008 (73 Fed. Reg. 78020 et seq.).

DIVISION C—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

CONGRESSIONAL DIRECTIVES

The legislative intent in the House and Senate versions in H.R. 2112 set forth in the accompanying Senate report (S. Rept. 112-93) and in the report approved by the House Transportation, Housing and Urban Development, and Related Agencies Subcommittee on September 8, 2011 should be complied with unless specifically addressed to the contrary in the conference report and the statement of the managers. Report language included by the House, which is not changed by the report of the Senate or this statement of managers, and Senate report language, which is not changed by this statement of managers, is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The conferees direct the Department of Transportation and the Department of Housing and Urban Development to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program or authority.

The conferees reiterate direction included in the Senate report regarding the definitions of program, project and activity; reductions made pursuant to sequestration; reprogramming guidelines and requirements; operating plans; working capital funds; and budget justifications. Further, the conferees direct each department to include justifications on each administrative and general provision requested in the budget request materials.

TITLE I—DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
SALARIES AND EXPENSES

The conference agreement provides \$102,481,000 for the salaries and expenses of the Office of the Secretary of Transportation as an overall funding level as proposed by the House rather than \$102,202,000 as proposed by the Senate. The agreement includes funding by office as specified below:

Immediate Office of the Secretary	\$2,618,000
Immediate Office of the Deputy Secretary	984,000
Office of the Executive Secretariat	1,595,000
Office of the Under Secretary for Transportation Policy	10,107,000
Office of Small and Disadvantaged Business Utilization	1,369,000
Office of Intelligence, Security, and Emergency Response	10,778,000
Office of the Chief Information Officer	14,988,000
Office of the General Counsel	19,515,000
Office of the Assistant Secretary for Governmental Affairs	2,500,000

Office of Public Affairs	2,020,000
Office of Workforce Development	—

The conferees direct the Office of General Counsel to provide a continued level of effort to protect airline passengers.

NATIONAL INFRASTRUCTURE INVESTMENTS

The conference agreement provides \$500,000,000 for capital investments in surface transportation infrastructure, instead of \$550,000,000 as proposed by the Senate. The House did not propose funding for this account. The conferees direct the Secretary to focus on road, transit, rail and port projects. No funds are provided for planning activities and the Department is limited to \$20,000,000 for program administration.

FINANCIAL MANAGEMENT CAPITAL

The conference agreement provides \$4,990,000 for the financial management capital program as proposed by the Senate, instead of \$5,000,000 as proposed by the House.

CYBER SECURITY INITIATIVES

The conference agreement provides \$10,000,000 for cyber security initiatives as proposed by the Senate. The House did not propose funding for this account.

OFFICE OF CIVIL RIGHTS

The conference agreement provides \$9,384,000 for the office of civil rights as proposed by the House, instead of \$9,648,000 as proposed by the Senate.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

The conference agreement provides \$9,000,000 for transportation planning, research and development as proposed by the House and Senate. The conferees agree to provide not more than \$1,000,000 to do a complete study authorized in Section 9007 of Public Law 109-59.

WORKING CAPITAL FUND

The conference agreement includes a limitation of \$172,000,000 for working capital fund activities, rather than \$147,596,000 as proposed by the House and the Senate. The conferees include language allowing for the transfer of funds to the Working Capital Fund upon a majority approval of the Working Capital Fund Steering Committee.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The conference agreement provides a total appropriation of \$922,000 as proposed by the House for the minority business resource center program, instead of \$921,000 as proposed by the Senate. Within the funds provided \$333,000 is for the costs of guaranteed loans for short-term working capital and \$589,000 is provided for administrative expenses. The bill limits loans made under this program to \$18,367,000 as proposed by the House and Senate.

MINORITY BUSINESS OUTREACH

The conference agreement provides \$3,068,000 for minority business outreach as proposed by the House and Senate.

PAYMENTS TO AIR CARRIERS
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$143,000,000 for payments to air carriers as proposed by the Senate instead of \$100,000,000 as proposed by the House. In addition to these funds, the program will receive \$50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. The agreement includes language, as proposed by the Senate, that would limit

funds to communities that received subsidy or received a 90-day notice of intent to terminate service and the Secretary required the air carrier to continue providing service any time between September 30, 2010, and September 30, 2011. The conference agreement also includes language to direct the Secretary to transfer such sums as may be necessary from the Office of the Secretary if funding is insufficient to meet the costs of the program.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 prohibits funds in this Act available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Secretary of Transportation or his designee to engage with states to consider proposals related to the reduction of motorcycle fatalities.

Section 103 prohibits funds from being obligated or expended to establish or implement a program where essential air service communities are required to assume subsidy costs commonly referred to as local participation.

Section 104 authorizes the Department of Transportation to provide payments in advance to vendors for the Federal transit pass fringe benefit program.

Section 105 requires the Secretary of Transportation to post on the DOT website a schedule and an agenda of all Credit Council meetings. The conferees direct the Department to maintain records of the factors and criteria leading to funding determinations on applications.

Section 106 rescinds unobligated balances made available by section 185 of Public Law 109-115.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$9,653,395,000 for operations of the Federal Aviation Administration instead of \$9,673,962,000 as proposed by the House and \$9,635,710,000 as proposed by the Senate. Of the total amount provided, \$5,060,694,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity. The Conference agreement includes all Operations base transfers requested in the budget, and the conferees expect that FAA's fiscal year 2013 budget will provide the same level of detail on the offices within the new Finance and Management organization as in previous years. In addition, the conferees direct that FAA move the Office of Audit and Evaluation (AAE) from within Office of the Chief Counsel (AGC) and realign it as an independent Staff Office reporting directly to the FAA Administrator.

The following table compares the conference agreement to the levels proposed in the House and Senate bills by budget activity, pursuant to the reorganizational reprogramming activity approved by the Committees in September:

The letter report should also include a year-to-year comparison of hiring statistics and shall be submitted to the House and Senate Appropriations Committees by January 15, 2012.

En Route Automation Modernization (ERAM) Operations funding.—The conference agree-

ment provides no additional funding for ERAM related cost increases and directs the FAA to pay for all ERAM related program activities from the Facilities and Equipment account until operational readiness is achieved at Salt Lake or Seattle Center, consistent with prior program management practice.

Special use airspace of unmanned aerial system (UAS).—The conferees direct FAA to provide a progress report to the House and Senate Appropriations Committees, no later than 60 days after enactment, which describes and assesses the establishment of special use airspace to fill defense research

needs related to UASs, particularly in the development of detection techniques for small unmanned aerial vehicles.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$2,730,731,000 for FAA facilities and equipment instead of \$2,798,250,000 as proposed by the House and \$2,630,731,000 as proposed by the Senate. Performance Based Navigation.—The conference agreement provides \$29,200,000 for Performance Based Navigation, as proposed by the House. The agreement provides \$3,000,000 over the request for a demonstration project to utilize third parties to design, deploy and maintain public use Required Navigation Performance (RNP) procedures at five mid-sized airports where aircraft flying RNP arrivals would achieve measurable benefit.

System-wide information management system (SWIM).—The conference agreement includes \$66,350,000 for the SWIM program. The conferees direct FAA to provide a progress report to the House and Senate Committees on Appropriations by February 15, 2012 on FAA's development and deployment of Segment 1 capabilities and the expected requirements, development and deployment of Segment 2.

Navigation and landing aids-service life extension program (SLEP).—The conference agreement includes \$7,000,000 for navigation and landing aids. Within the amount provided, \$1,000,000 is for the procurement and installation of additional runway end identification light (REIL) systems.

VASI replacement-replace with precision approach path indicator.—The conference agreement includes \$8,000,000 for the replacement of VASI systems with Precision Approach Path Indicator (PAPI) systems. Within the amount provided, \$1,000,000 is for the procurement of additional PAPI systems.

Alternate positioning, navigation and timing (APNT).—The conferees understand FAA is conducting a review of APNT capabilities that support communication, navigation, and surveillance applications in the event of a loss of Global Navigation Satellite Services (GNSS) to ensure that operations are ap-

propriately supported and consistent with the evolution to NextGen. The conferees support this review and encourage the FAA to move forward with research, development and potential implementation of systems, avionics, processes, and procedures that leverage available assets to minimize the impact to system capacity and efficiency during periods of GNSS interference.

NextGen environmental research—aircraft technologies, fuels and metrics.—The conference agreement includes \$23,500,000 for the FAA’s NextGen environmental research aircraft technologies, fuels and metrics program. The conferees direct FAA to use funds above the budget request to expedite the development of viable alternative fuels that can be used in aircraft and to continue the efforts of FAA’s continuous, lower energy, emissions, and noise program (CLEEN). These additional funds are designated as an item of congressional interest and the conferees direct FAA not to reprogram these funds without the specific approval of the House and Senate Committees on Appropriations.

GRANTS-IN-AID FOR AIRPORTS
(LIQUIDATION OF CONTRACT AUTHORIZATION)
(LIMITATION ON OBLIGATIONS)
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes a liquidating cash appropriation of \$3,435,000,000; an obligation limitation of \$3,350,000,000; a limitation on administrative expenses of not more than \$101,000,000; no less than \$15,000,000 for the airport cooperative research program; and no less than \$29,250,000 for airport technology research.

Small community air service development pilot program.—The bill includes \$6,000,000 under the obligation limitation to continue the small community air service development pilot (SCASDP) program and directs the FAA to transfer funds to OST salaries and expenses appropriation.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development as proposed by the House and Senate.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space as proposed by the House and Senate.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303 as proposed by the House and Senate.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account as proposed by the House and Senate.

Section 114 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation

to use public space at the airport for the purpose of conducting outreach on air passenger rights as proposed by the House and Senate.

Section 115 prohibits funds for Sunday premium pay unless work was actually performed on a Sunday as proposed by the House and Senate.

Section 116 prohibits funds in the Act from being used to buy store gift cards with Government issued credit cards as proposed by the House and Senate.

Section 117 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c) as proposed by the Senate.

Section 118 prohibits funds from being obligated or expended for retention bonuses for FAA employees without prior written approval of the DOT Deputy Assistant Secretary for Administration.

Section 119 limits to 20 percent the cost share required under the contract tower cost-share program.

Section 119A reverses changes made to the Block Aircraft Registry Request program and prohibits future changes to the program, as proposed by the House and Senate.

Section 119B prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey as proposed by the House.

FEDERAL HIGHWAY ADMINISTRATION
LIMITATION ON ADMINISTRATIVE EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The conference agreement limits obligations for administrative expenses of the Federal Highway Administration (FHWA) to \$412,000,000, which is equal to the annualized level of contract authority under the latest surface transportation extension, P.L. 112-30, plus \$3,144,750 in carryover contract authority, plus \$16,000,000 in funds that the Secretary may transfer from the 14 discretionary highway programs, if necessary, to ensure proper oversight. The 14 programs impacted are: Delta Region Transportation Development; Ferry Boats Discretionary Projects; Highways for LIFE Demo Projects; Innovative Bridge Research & Deployment; Interstate Maintenance Discretionary; National Historic Covered Bridge Preservation; National Scenic Byways; Public Lands Highway Discretionary; Railway-Highway Crossings Hazard Elimination in HSR Corridors; Transportation, Community, and System Preservation; Truck Parking Pilot Program; Disadvantaged Business Enterprises Services; On-the-Job Training Services; and, Value Pricing Pilot Program.

In addition, the conferees provide \$3,220,000 in contract authority above this limitation for the administrative expenses of the Appa-

lachian Regional Commission pursuant to 23 U.S.C. 104.

Information Technology Improvements.—The conferees recommend at least \$2,000,000 of funds provided should be for the Delphi system and accounting services, the IPv6 transition, and FHWA’s share in the implementation of the financial management business transformation. These are important improvements to the administration of the federal-aid highways program.

FEDERAL-AID HIGHWAYS
(LIMITATION ON OBLIGATIONS)
(HIGHWAY TRUST FUND)

The conference agreement limits obligations for the federal-aid highways program to \$39,143,582,670 in fiscal year 2012, which is the annualized level of contract authority under the latest surface transportation extension, P.L. 112-30.

Solvency of Highway Trust Fund.—The conferees acknowledge this obligation limitation will deplete almost all resources from the Highway Trust Fund by the end of fiscal year 2012, causing the FHWA to begin cash-management procedures that may result in States not receiving timely reimbursement of highway construction expenses. Further, without enactment of a new surface transportation authorization bill with large amounts of additional revenues this year, the Highway Trust Fund will be unable to support a highway program in fiscal year 2013. The conferees strongly urge the committees of jurisdiction to enact surface transportation legislation that provides substantial long-term funding to continue the federal-aid highways program.

Commercial Motor Vehicle Parking.—The conferees direct FHWA to study the shortage of commercial motor vehicle parking, including the impact of such on operators’ compliance with federal safety requirements, and to report findings to the Committees on Appropriations within 180-days of enactment of this Act.

The conference agreement does not include a requirement for FHWA to report on transportation construction projects impacting local roads as proposed by the House.

Additionally, the conference agreement does not include a requirement for FHWA to investigate developing a comprehensive, department-wide corrosion analysis mitigation tool or a requirement for FHWA to report on the viability and cost-savings of developing such tool as proposed by the House.

(LIQUIDATION OF CONTRACT AUTHORIZATION)
(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation of \$39,882,582,670, which is available until expended, to pay the outstanding obligations of the various highway programs at the levels provided in this

Act and prior appropriations Acts. This level reflects the annualized contract authority provided under the latest surface transportation extension, P.L. 112-30, including contract authority both subject to and exempt from the obligation limitation.

EMERGENCY RELIEF

The conference agreement appropriates \$1,662,000,000 in additional funds for the Emergency Relief Program, which is available until expended, for qualifying emergency repair expenses relating to major disasters declared pursuant to the Stafford Act, 42 U.S.C. 5121 et seq.

The conference agreement waives the per-State, per-disaster cap of \$100,000,000 for certain disaster events in fiscal year 2011 relating to Hurricane Irene and flooding of the Missouri River. The conference agreement also directs the Secretary to extend the 180-day time period under 23 U.S.C. 120(e), in consideration of delays in a State's ability to access damaged facilities to evaluate damages and estimate the cost of such repairs, for eligible disasters in fiscal years 2011 and 2012.

RESCISSION

The conference agreement does not include a rescission of \$73,000,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION

Section 120 retains the provision as proposed by the Senate that distributes the federal-aid highways program obligation limitation.

Section 121 retains the provision as proposed by the House and the Senate that allows funds received by the Bureau of Transportation Statistics from the sale of data products to be credited to the federal-aid highways account.

Section 122 retains the provision as proposed by the House and the Senate that provides requirements for any waiver of Buy American requirements.

Section 123 retains the provision as proposed by the House and the Senate that prohibits tolling in Texas, with exceptions.

Section 124 retains with modification the provision proposed by the House that directs GAO to study how States and public transit authorities use their authority to transfer federal funds between the highway and transit programs and to submit a report within a year of enactment.

Section 125 retains with modification the provision proposed by the Senate that allows the State laws of Maine and Vermont regarding vehicle weight limitations to apply to all portions of the Interstate Highway System within each State, notwithstanding the requirements of 23 U.S.C. 127(a)(11), for a time period of approximately twenty years.

Section 126 is a new provision that allows the Secretary to transfer up to \$16,000,000 from discretionary federal-aid highway programs to the FHWA administrative expenses account.

The conference agreement does not include Sections 124 or 128, as proposed by the Senate.

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement includes a liquidation of contract authorization and a limitation on obligations of \$247,724,000 for the operating and program expenses of the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,543,000 is to

remain available for obligation until September 30, 2014, as proposed by the Senate; \$191,918,800 is recommended for operating expenses; and \$47,262,200 is recommended for program expenses. The conference agreement modifies the Senate direction to FMCSA to report on March 30, 2012 on the agency's ability to meet its requirement to conduct compliance safety reviews on high risk carriers.

(INCLUDING RESCISSION)

The conference agreement provides a liquidating cash appropriation and a limitation on obligations of \$307,000,000 for motor carrier safety grants, as proposed by the Senate, modified to provide \$29,000,000 for the audits of new entrant motor carriers, as proposed by the House. The conference agreement provides funding for motor carrier safety grants as follows:

Safety data improvement grants	3,000,000

The conference agreement also permanently rescinds \$1,000,000 in prior-year unobligated balances, as proposed by the Senate, to cover costs associated with FMCSA Administrative Provision 131.

ADMINISTRATIVE PROVISIONS—FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

Section 130 retains the provision proposed by the House and the Senate that subjects funds appropriated in this Act to the terms and conditions of section 350 of Public Law 107-87 and section 6901 of Public Law 110-28, including that the Secretary submit a report on Mexico-domiciled motor carriers.

Section 131 retains the provision proposed by the Senate that does not require repayment of certain Commercial Vehicle Information Systems and Networks (CVISN) grant funds that were awarded improperly by FMCSA to States between 2006 and 2010.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

The conference agreement provides \$140,146,000 from the general fund for operations and research, as proposed by the Senate. Of this amount, a total of \$20,000,000 shall remain available until September 30, 2013, as proposed by the Senate.

OPERATIONS AND RESEARCH

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation and an obligation limitation of \$109,500,000, to remain available until expended. Of the total, \$105,500,000 is provided for the highway safety research and development programs under 23 U.S.C. 403 and \$4,000,000 is provided for the National Driver Register under 49 U.S.C. 303, as proposed by the House and the Senate. Of the total limitation, \$20,000,000 shall remain available until September 30, 2013, and shall be in addition to any limitation imposed on obligations in future fiscal years, as proposed by the Senate.

Repurposed Seatbelt Grants Funding.—The conferees repurpose \$25,000,000 of the Safety Belt Performance Grants to fully fund the

modernization of the National Automotive Sampling System (NASS). The conferees direct NHTSA to follow all directives contained in the Senate Committee report relating to the NASS modernization, including those relating to enhanced data collection and new reporting requirements.

The conferees do not provide any repurposed Safety Belt Performance Grants funding to enhance the ongoing cooperative research effort between NHTSA and the Automotive Coalition for Traffic Safety to develop driver alcohol detection systems, or for the distracted driver program as proposed by the Senate.

Unsecured loads.—The conferees direct the GAO to report to the Committees on Appropriations on the various State laws, associated penalties, exemptions, and enforcement actions associated with unsecured loads within one year of enactment of this Act. Further, NHTSA is directed to collect and classify data from automobile accidents involving road debris as proposed by the Senate.

HIGHWAY TRAFFIC SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation and an obligation limitation of \$550,328,000 for highway traffic safety grants, to remain available until expended, as proposed by the Senate. The conference agreement recommends as follows:

Administrative Expenses	25,328,000

Distracted Driver.—The conferees direct NHTSA, in conjunction with the Centers for Disease Control (CDC), to conduct an analysis of available research on distracted driving, and to report on the extent to which electronic devices can be causally linked to the reported rise in fatal accidents or injuries involving distracted driving, as well as the impact distracted driving prevention laws and enforcement actions can have on motorist behavior.

ADMINISTRATIVE PROVISIONS—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

Section 140 retains the provision as proposed by the House and the Senate that provides funding for travel and related expenses for state management reviews and highway safety core competency development training.

Section 141 retains the provision as proposed by the House and the Senate that exempts obligation authority that was made available in previous public laws for multiple years from the limitations on obligations set for the current year.

Section 142 retains the provision as proposed by the House and Senate that prohibits the use of funds to implement 23 U.S.C. 404.

FEDERAL RAILROAD ADMINISTRATION SAFETY AND OPERATIONS

The conference agreement provides \$178,596,000 for safety and operations of the Federal Railroad Administration (FRA) instead of \$180,867,000 proposed by the House and \$176,596,000 proposed by the Senate. Of the funds provided, \$12,300,000 is available until expended as proposed by the Senate.

Positive Train Control.—The conferees expect the FRA to complete the necessary PTC rulemakings, and directs the FRA to report to the House and Senate Appropriations Committees, by March 1, 2012, on (a) the status of the revisions under consideration and (b) the FRA assessment of the progress being made by the railroad carriers in complying with the PTC statutory deadlines.

RAILROAD RESEARCH AND DEVELOPMENT

The conference agreement provides \$35,000,000 for railroad research and development, instead of \$35,030,000 as proposed by the House and \$30,000,000 as proposed by the Senate. The conferees include funding for the research accounts as proposed by the House with the exception of R&D facilities and test equipment which shall be \$2,345,000.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING PROGRAM

The conference agreement authorizes the Secretary to issue notes or other obligations pursuant to section 512 of P.L. 94-210 as proposed by both the House and Senate.

NATIONAL RAILROAD PASSENGER CORPORATION (AMTRAK)

The conference agreement provides a total of \$1,418,000,000 for the operations, capital improvements and debt service to the National Railroad Passenger Corporation (Amtrak).

OPERATING SUBSIDY GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The conference agreement provides \$466,000,000 in operating grants to Amtrak instead of \$227,000,000 proposed by the House and \$544,000,000 proposed by the Senate.

Business plan.—The conference agreement includes language as proposed by the House that requires Amtrak to provide semiannual reports in electronic format regarding the pending business plan as well as progress against the milestones and target dates contained in its financial performance improvement plan provided in fiscal year 2011. Further, these plans shall include a comprehensive fleet plan which shall establish year-specific goals and milestones and discuss potential, current and preferred financing options for all such activities.

The conference agreement includes bill language as proposed by the House which prohibits Amtrak from discounting tickets at more than 50 percent off the normal, peak fare after March 1, 2012, unless the operating loss due to the discounted fare is covered by a State. The Senate did not propose a similar provision.

The conferees encourage Amtrak to carry \$200,000,000 in reserves within their Operating account, and encourage use of any favorable ticket revenue to get to this amount before using this favorable ticket revenue on Capital expenses unless such Capital expenses are necessary to ensure the safe operation and maintenance of the passenger rail system.

The conference agreement does not include a requirement for the Amtrak IG to report quarterly on Amtrak operational efficiencies and overhead expenses as proposed by the House as Section 207 of the Passenger Rail Investment and Improvement Act requires similar reporting requirements by the Federal Railroad Administration.

The conference agreement does not require Amtrak to report on plans to improve food and beverage service and first class service as proposed by the House.

CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The agreement adopts the Senate bill requirement that grants made after the first \$200,000,000 be provided only on a reimbursable basis.

Americans with Disabilities Act.—Under its compliance plan with the Americans with Disabilities Act (ADA), Amtrak would invest \$175,000,000 during fiscal year 2010 for necessary capital investments. The conferees understand that events outside of Amtrak's control delayed these investments. However, the conferees direct Amtrak to the best of its ability to maintain this plan for complying with the requirements of ADA, and modify bill language requiring Amtrak to invest no less than \$50,000,000 for ADA capital investments.

Rural transit.—In rural communities across the nation, the conferees believe that transit plays an important role in getting families and individuals from their homes to work, medical appointments and day-to-day activities. In order for rural transit service to be efficient, the community must effectively coordinate transit services among human service agencies and job providers. The conference agreement provides \$1,875,000,000 for the Public Housing Capital Fund, as proposed by the Senate. The conference agreement also provides \$50,000,000 for supportive services, service coordinators and congregate services as proposed by the Senate. The amount also includes \$20,000,000 for emergency capital needs, as proposed by the Senate, and \$10,000,000 for the public housing financial and physical assessment activities of REAC as proposed by the Senate instead of \$15,345,000 as proposed by the House.

The conferees direct the Department to report quarterly to the House and Senate Committees on Appropriations on the progress made at each PHA under receivership.

PUBLIC HOUSING OPERATING FUND

The conference agreement provides \$3,961,850,000 for the Public Housing Operating Fund as proposed by the Senate. The agreement provides that the Secretary shall not offset excess reserves by more than \$750,000,000, as proposed by the Senate. The language also provides for a process for PHAs to appeal reserve offsets, and a set-aside of \$20,000,000 to assist any PHAs that encounter financial hardship as a result of this offset.

The conferees direct HUD to submit an implementation plan to offset 2012 allocations based on reserve balances to the Committees on Appropriations within 30 days of the enactment of this Act. The conferees further direct HUD to include in its report a clear methodology for determining excessive reserves and the impact of the plan on each PHA.

The conference agreement includes language proposed by the Senate allowing for the Secretary to provide flexibility to PHAs on the use of excess operating reserves for capital improvements. The conferees direct the Secretary to establish clear guidance on how operating reserves can be used going forward, and in the interim expects this flexibility to be granted to PHAs to make capital improvements, but not to include large modernization projects.

CHOICE NEIGHBORHOODS INITIATIVE

The conference agreement provides \$120,000,000 for the Choice Neighborhoods Initiative, as proposed by the Senate. The conference agreement includes modifications to the language to ensure that the use of such funds doesn't result in housing units unintentionally being deemed as public housing, and ensuring the long-term affordability of rehabilitated housing units.

NATIVE AMERICAN HOUSING BLOCK GRANTS

The conference agreement provides \$650,000,000 for the Native American Housing Block Grants, as proposed by the Senate. These funds will remain available for obligation by HUD until September 30, 2016. When combined with a standard five-year contract term, tribes will have approximately ten years to spend these funds. The conference agreement directs HUD to notify grantees of the availability of funds within 60 days of enactment of this Act.

Timely Expenditure of Funds.—The conferees find it unconscionable that while

there is significant need for affordable housing in Indian country, some tribes and TDHEs have not spent large amounts of block grant funding for several years, resulting in large accumulated balances and reduced housing activities on tribal lands. For this reason, the conferees provide a time limit for this funding and strongly urge tribes to address housing needs in a timely manner.

The conferees note this account had nearly \$1,000,000,000 in unexpended balances at the beginning of fiscal year 2011, with almost half of that amount belonging to a single tribe. This tribe currently has over \$375,000,000 in unexpended funds, with funds dating back twelve fiscal years, and a HUD official testified this tribe was unresponsive to HUD's encouragement to address the backlog. Such large accumulated balances and decade-old unexpended funds call into question the present need for funding in this account. In times of scarce federal funding, all accounts come under closer scrutiny. It is in the interest of all 555 tribes that receive these grants to reduce the unexpended balances and to demonstrate current need through use of these funds.

GAO Study of Tribal Housing Challenges.—The conferees realize there are significant and unique challenges associated with tribal housing, many of which are not within the control of tribes. For this reason, the conferees direct GAO to study the unique barriers and challenges in tribal housing activities.

Technical Assistance.—Of the funds provided, the conference agreement includes \$2,000,000 to support inspection of Indian housing units, contract expertise, training, and technical assistance by HUD. The conferees direct HUD to provide valuable assistance to tribes, especially those with capacity challenges and those receiving small grant awards. Such assistance should reflect the unique needs and culture of Native Americans and include services necessary to improve data collection and increase leveraging.

In addition, the conference agreement includes \$2,000,000 for national or regional organizations representing Native American housing interests to provide training and technical assistance to Indian housing authorities and tribally designated housing entities. The conferees intend these funds to be distributed through a competitive process.

The conference agreement does not include a requirement for HUD's Office of Policy Development and Research to submit a report to the House and Senate Committees on Appropriations proposing alternative data sources for the block grant formula, as proposed by the House.

NATIVE HAWAIIAN HOUSING BLOCK GRANT

The conference agreement provides \$13,000,000 for the Native Hawaiian Housing Block Grant, to remain available until expended, as proposed by the Senate.

INDIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

Persons with AIDS (HOPWA) program. The conference agreement directs HUD to notify grantees of the availability of funds within 60 days of enactment of this Act.

COMMUNITY DEVELOPMENT FUND

The conference agreement provides \$3,308,090,000 for the Community Development Fund, to remain available until September 30, 2014. Of the total, the conference agreement provides no less than \$2,948,090,000 in formula funding and \$60,000,000 for Indian tribes.

The conference agreement includes language allowing 20 percent of formula funds to be used for planning, management, and administration, as proposed by the Senate. The conferees direct the Government Accountability Office to issue a report on how communities use these funds.

Matching Funds.—The conferees direct the Department to provide an analysis of how much CDBG funding is used by grantees as matching dollars for other federal programs. The conferees also direct the Department to gather data on the use of fiscal year 2012 CDBG funds to match other federal programs, including which programs are being matched, in what amounts, for what purposes, whether other funds are leveraged, and any other relevant data.

Sustainable Communities.—The conference agreement does not include funding for the Senate proposed Sustainable Communities Initiative and does not include language proposed by the House prohibiting the use of any funds for the Sustainable Communities Initiative. While direct funding for the Sustainable Communities Initiative is not included in the conference agreement, the conferees remind the Secretary and CDBG formula fund recipients that sustainable activities are an eligible use of formula funds. The conferees support coordination by the Departments of Transportation and Housing and Urban Development to reduce duplication of federal investments. The Secretary may use the Office of Sustainable Housing and Communities and the technical assistance resources of the Transformation Initiative to identify opportunities for communities to work together to integrate transportation and housing and to assist local grantees in performing these activities.

The conferees do not include any directives relating to Regional Integrated Planning Grants, which are not funded in the conference agreement.

Disaster Funding.—The conference agreement provides that of the funds made available for the Community Development Fund, up to \$300,000,000 plus an additional \$100,000,000 in disaster funds is available for necessary and eligible expenses related to disaster relief and long-term recovery in the most impacted and distressed areas resulting from major disasters in 2011, as declared pursuant to the Stafford Act. The conference agreement further provides that these funds may not be used on activities for which funding already is made available by FEMA or the Army Corps of Engineers.

COMMUNITY DEVELOPMENT LOAN GUARANTEES PROGRAM ACCOUNT

HOME INVESTMENT PARTNERSHIPS PROGRAM

The conference agreement provides \$1,000,000,000 for this account, as proposed by the Senate. These funds will remain available until September 30, 2014.

Program Oversight.—The conferees direct HUD, in its report to the Committees on Appropriations pursuant to Section 232 of this

Act, to include an explanation of how HUD is monitoring and evaluating grantee performance in the HOME program, including how participating jurisdictions get approval to restart a stalled or cancelled project.

The conferees also direct HUD to provide a report by March 16, 2012, and annually thereafter, on all HOME funds that are 5 years old or older.

SELF-HELP AND ASSISTED HOMEOWNERSHIP OPPORTUNITY PROGRAM

The conference agreement provides \$53,500,000 for this account, to remain available until September 30, 2014. Of the total, \$13,500,000 is provided for the SHOP program and \$35,000,000 is provided for the second, third and fourth capacity building activities authorized under section 4(b)(3), of which not less than \$5,000,000 may be for rural capacity building activities. In addition, \$5,000,000 is provided for capacity building activities by national organizations with expertise in rural housing, as similarly proposed by the House and the Senate. The conference agreement directs HUD to notify grantees of the availability of funds within 60 days of the date of enactment of this Act.

CAPACITY BUILDING

The conference agreement does not include funding for Section 4 Capacity Building as a separate account, as proposed by the House.

HOMELESS ASSISTANCE GRANTS (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,901,190,000 for Homeless Assistance Grants, as proposed by the House and the Senate. Of the amount provided, not less than \$250,000,000 is for the emergency solutions grants (ESG) program; not less than \$1,593,000,000 is for the continuum of care and rural housing stability assistance program; and \$7,000,000 is for the national homeless data analysis project. The conferees have provided sufficient funding to ensure the renewal of all eligible projects under the continuum of care competition. The conferees direct any remaining funding to be put towards the ESG and rural housing stability programs.

Delayed Implementation of HEARTH.—The conferees note it has been two and a half years since the HEARTH Act amended the homeless assistance grant programs. The conferees express concern that HUD continued to implement pre-HEARTH grant programs in fiscal year 2011, due to a lack of regulations. The conferees direct HUD to publish at least interim guidelines for the Emergency Solutions Grants and Continuum of Care this fiscal year and to implement the new grant programs as soon as possible, so that the updated policies and practices in HEARTH can begin to govern the delivery of homeless assistance funding.

HOUSING PROGRAMS

PROJECT-BASED RENTAL ASSISTANCE

The conference agreement provides \$9,339,672,000 for project-based rental assistance activities, as opposed to \$9,428,672,000 as proposed by the House and \$9,418,672,000 as proposed by the Senate. The conference agreement also provides an advance appropriation of \$400,000,000 for fiscal year 2013. The conference agreement provides \$9,050,672,000 for contract renewals and not to exceed \$289,000,000 for contract administrators. This funding level reflects revised cost estimates from HUD based on updated projections and programmatic reforms that result in significant cost savings.

HOUSING FOR THE ELDERLY

The conference agreement provides \$374,627,000 for the section 202 program, instead of \$600,000,000 as proposed by the House and \$369,627,000 as proposed by the Senate.

The conference agreement provides that up to \$91,000,000 shall be for service coordinators and existing congregate service grants as proposed by the Senate, and up to \$25,000,000 shall be for the conversion of eligible projects to assisted living or emergency capital repairs as proposed by the House. The conference agreement does not include funds for new construction.

HOUSING FOR PERSONS WITH DISABILITIES

The conference agreement provides \$165,000,000 for the section 811 program, instead of \$196,000,000 as proposed by the House and \$150,000,000 as proposed by the Senate. The conference agreement does not include funds for new construction. The conference agreement also provides the Secretary with the authority to fund activities authorized under section 811(b)(3) of the Cranston-Gonzalez National Affordable Housing Act to allow for project rental assistance to State housing finance agencies and other appropriate entities.

HOUSING COUNSELING ASSISTANCE

The conference agreement provides \$45,000,000 for Housing Counseling Assistance, instead of \$60,000,000 as proposed by the Senate. The House did not propose funding this account. The conference agreement includes Senate language requiring HUD to award this funding within 120 days of enactment.

The conferees direct HUD to submit a report on the reforms HUD is proposing in establishing a new Housing Counseling Office within the Office of Housing. This report, due within 90 days of enactment, should address how the Department is prepared to expend funds effectively, how HUD will focus its activities to reduce duplication of other government-funded programs, how many FTE will be needed for this activity, and what steps will be taken to streamline the grant making process.

OTHER ASSISTED HOUSING PROGRAMS

RENTAL HOUSING ASSISTANCE

The conference agreement provides \$1,300,000 for Section 236 payments to State-aided, non-insured projects, as proposed by the Senate, instead of \$15,733,000 as proposed by the House.

RENT SUPPLEMENT (RESCISSION)

The conference agreement rescinds \$231,600,000 from the Rent Supplement account, as proposed by Senate.

PAYMENT TO MANUFACTURED HOUSING FEES TRUST FUND

The conference agreement provides \$6,500,000 for authorized activities, of which \$4,000,000 is to be derived from the Manufactured Housing Fees Trust Fund, instead of \$7,000,000 to be fully funded by the Trust Fund as proposed by the House, and \$9,000,000, of which \$4,000,000 to be funded by the Trust Fund as proposed by the Senate.

The conferees are perplexed by the paucity of information provided in the Congressional Justification for the Manufactured Housing Fees Trust Fund. Given the information HUD has provided, it is hard to make a rational case for any funding for the Fund. Fortunately, HUD has provided the Committees with additional information that illuminates the uniquely Federal role the Fund plays in the housing market. HUD must provide the Congress with adequate, appropriate and accurate information in its future budget justifications.

FEDERAL HOUSING ADMINISTRATION

MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

The conference agreement establishes a \$25,000,000,000 limitation on multifamily and specialized loan guarantees during fiscal year 2012, as proposed by the House and Senate. The conference agreement includes \$300,000 to continue the translation and promotion of materials to assist persons with limited English proficiency, as proposed by the Senate.

OFFICE OF HEALTHY HOMES AND LEAD HAZARD CONTROL

LEAD HAZARD REDUCTION

The conference agreement provides \$120,000,000 for the Lead Hazard Reduction

program, as proposed by the Senate. Of this amount, the conference agreement includes up to \$10,000,000 for the Healthy Homes Initiative, as similarly proposed by the House, and \$45,000,000 for areas with the highest lead abatement needs, as proposed by the Senate.

The conference agreement provides \$124,000,000 for the Office of Inspector General, as opposed to \$115,000,000 as proposed by the House and \$124,750,000 as proposed by the Senate.

The conferees are concerned about the number of HUD IG field offices and their associated costs, and direct the IG to conduct a review of its field office location policy. In conducting this review, the IG should look for opportunities to achieve efficiencies in its operations, and use existing performance measures such as cases and audits opened and closed, total dollars recovered, convictions made, program improvements identified, and other pertinent measures to determine potential cost savings and office consolidation. This review shall be completed within 180 days of enactment of this Act and delivered to the Committees on Appropriations of the House and Senate.

TRANSFORMATION INITIATIVE

The conference agreement provides \$50,000,000 for activities of the Transformation Initiative (TI), instead of \$49,745,000 as proposed by the House and a 0.5 percent takedown and transfer as proposed by the Senate. Funds are available until September 30, 2014.

Of the funds provided, the conference agreement recommends funding the following activities: biennial NOFAs; continuation of the study on the impact of housing on young children; the disciplinary research team; continuation of the pre-purchase counseling study; continuation of the rent reform demonstration; independent PHA assessments, physical needs assessments, and technical assistance for troubled PHAs; the joint core skills certification proposal; Office of Native American Programs technical assistance; and the fair housing and equal opportunity assessment. Further, at least \$23,000,000 shall be for OneCPD.

Article I of the U.S. Constitution grants Congress the power to appropriate funds from the Treasury, pay the obligations of and raise revenue for the Federal Government, and publish statements and accounts of all financial transactions.

By law, Congress is also obligated to write a budget representing its plan to carry out these transactions in the forthcoming fiscal years. While the President is required to propose his administration's budget requests for Congress' consideration, Congress is solely responsible for writing the laws that raise revenues, appropriate funds, and prioritize taxpayer dollars within an overall federal budget.

The budget resolution is the only legislative vehicle that views government comprehensively. It provides the framework for the consideration of other legislation. Ultimately, a budget is more than a series of

numbers; it also serves as an expression of Congress' principles, vision and philosophy of governing.

This budget resolution intends to recommend the nation fully to the timeless principles of American government enshrined in the U.S. Constitution—liberty, limited government, and equality under the rule of law. It is submitted, as prescribed by law, to apply these principles, to reflect this vision, and to provide a framework for the orderly execution of Congress' constitutional duties for fiscal year 2012 and beyond.

PROCEEDINGS AND DEBATES OF THE 112th CONGRESS, FIRST SESSION

Vol. 157

WASHINGTON, MONDAY, NOVEMBER 14, 2011

No. 173

Senate

The Senate met at 10 a.m. and was called to order by the Honorable CHRISTOPHER A. COONS, a Senator from the State of Delaware.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Holy God, the source of our strength, we need You this day and always. Continue to sustain our lawmakers, fulfilling Your promise to supply their needs.

Lord, we confess that we don't have all the answers, for our judgment is sometimes inadequate for the challenges we face. We need You, therefore, to guide our Senators to know what is right and do it, to discern Your best for America and to act promptly.

Lord, we know You are willing to help those who confess their dependence on You, leading them toward workable solutions and creative compromise.

We pray in Your mighty Name. Amen.

The PRESIDING OFFICER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, we will be in a period of morning business until 3 p.m. today. During that period of time, Senators will be allowed to speak therein for up to 10 minutes each. Following morning business, the Senate will adopt the motion to proceed to the consideration of H.R. 2354. There will be no rollcall votes today. The next rollcall votes will be Tuesday morning in relation to two U.S. district judges.

SPIRIT OF COOPERATION

Mr. REID. Mr. President, last week something wonderful and unusual happened here in the Senate: We passed a worthy piece of legislation with a nearly unanimous vote. On the eve of Veterans Day, we honored this Nation's service men and women by passing bipartisan legislation to spur hiring of this country's nearly 900,000 out-of-work veterans. Two hundred fifty thousand of these unemployed veterans became members of the Armed Services because of the global fight on terror basically in the last 10 years. I trust our action last week meant as much, or more, than our words of thanks and praise for these dedicated men and women who serve us so well. But the Senate has much more work to do this work period, this week and into next week, if necessary. I hope that same

spirit of cooperation will hold during this next few days. The Senate has much more work to be done, as I have indicated, because we have work that is essential to the functioning of our government.

As we continue to focus on the efforts to create jobs and get our economy moving again, we must also pass appropriations bills, which is part of our yearly responsibility. This week, we will consider an appropriations package that includes Energy and Water, Financial Services, and State and Foreign Operations. We need cooperation to move this important piece of legislation. The legislative tree will not be filled, but we need to agree on the way forward. We need to have some responsible way to move forward on these amendments. We are not going to have another situation such as we had a few weeks ago, where we worked until early in the morning—not that the long hours hurt, but we had hundreds of amendments and we had no way of moving through those without having a lot of votes, some of which were totally unnecessary.

We have the continuing resolution we must do before the end of this work period. Although I know there will be some strident debate over amendments to both the appropriations bill and the Defense authorization bill we have to do, we have to work together if we are going to move forward on the Nation's business.

Last month, the Senate passed a bipartisan minibus that included Agriculture, Commerce-State-Justice, Transportation, and Housing and Urban Development. Those appropriations bills were essential, and we were able to complete that. That experience proved that, with cooperation, the Senate can work through the normal appropriations process, but it does take cooperation.

The Senate will consider the conference report on that minibus this week. That conference report will include another short-term continuing

resolution that will take us through December 16, which will give Congress the time it needs to complete important work—passing appropriations bills.

This week we will also confirm a number of judges who are crucial to help ease the backlog in our Nation's jam-packed courts. We have the supercommittee which is functioning. All 12 members are trying to come up with some reasonable way forward to do something about the debt.

So we have the supercommittee, we have the Defense authorization bill, we have the appropriations bill, we have a conference report, and we have the deadline that is facing us. We have to get all this work done by this weekend. If not, then we get it done before Thanksgiving, which is a week from Thursday. So as you can see, the Senate has a substantial amount of work to complete in the 10 days before Thanksgiving. I want to be clear that we are going to work up until the last moment before the holiday, if that is what it takes, to get these important tasks done. With cooperation, we can get it all done this week. But we have a lot to do, and I understand that, but I do hope we can work together to complete this country's necessary work.

Would the Chair announce the business of the day.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will be in a period of morning business until 3 p.m., with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees.

Mr. REID. Mr. President, I failed to note that Senators FEINSTEIN and ALEXANDER, the managers of this appropriations bill we have, are going to be here on the floor this afternoon to give their opening statements. So if Senators have amendments, they should talk to the two managers of the bill. I think that works much better than firing up amendments and hoping some of them stick.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

This Act may be cited as the “Energy and Water Development and Related Agencies Appropriations Act, 2012”.

Mrs. FEINSTEIN. Mr. President, I am very pleased to rise in support of the fiscal year 2012 energy and water development appropriations bill with my ranking member, the distinguished Senator ALEXANDER, with whom I have had the great pleasure of working. I want to say this up front: It has been a pleasure to work with this particular ranking member. He is respected, he is credible, he is direct, and he is reasonable, which I have learned is an endangered species around here. So I very much appreciate that.

This Energy and Water bill has an allocation of \$31.625 billion, which is \$57 million or .1 percent below last year’s enacted levels and nearly \$3 billion or 9.4 percent below the President’s request. The \$31.625 billion is split between security and nonsecurity funding, consistent with the Budget Control Act of 2011. The Budget Control Act established caps on discretionary spending over 10 years, with separate caps for security and nonsecurity spending. Now, this becomes relevant, as I will explain.

The security allocation for energy and water is \$11.05 billion. The \$11.05 billion funds only four programs under

the National Nuclear Security Administration, called NNSA: nuclear weapons, nonproliferation, naval reactors, and the Office of the Administrator.

I would like to point out right up front that funding for the NNSA makes up a growing portion of this bill. Last year the NNSA made up 30 percent of the total allocation. This year it has increased to 35 percent. In addition, because of the Budget Control Act, a firewall is created between security and nonsecurity funding so we cannot transfer funding back and forth. No funding from the NNSA can be used to fund energy and water projects, and no funds from energy and water can be used to fund the National Nuclear Security Administration.

While funding increases for the National Nuclear Security Administration to help advance national security priorities, it comes at the expense of water and energy projects in the rest of our bill. Our nonsecurity allocation, which funds the Corps of Engineers, the Bureau of Reclamation under the Department of the Interior, and the Department of Energy, is \$20.575 billion. While our security allocation grew by \$528 million or 5 percent, the nonsecurity allocation is \$584 million or 2.8 percent less than for fiscal year 2011 and \$3.5 billion or 17 percent less than for fiscal year 2010. So we can see the crunch that is put on one part of the budget and the other part of our appropriations bill has actually expanded.

As I mentioned, the security allocation is \$11.05 billion, which is an increase of \$528 million or 5 percent over fiscal year 2011. This is an increase of \$1.163 billion or close to 12 percent for the security portion of this appropriations bill over fiscal year 2010.

To clarify, NNSA is responsible for three primary national security missions: first, maintaining the safety, security, and reliability of the Nation’s nuclear weapons stockpile; second, responsibility for reducing the threat of nuclear terrorism through nonproliferation programs; and third, it designs and builds nuclear reactors for safe and effective nuclear propulsion for aircraft carriers and submarines in the U.S. Navy.

Taking into account competing funding priorities for national security activities, I think this bill strikes as good a balance as it can between funding for nuclear weapons modernization and reducing the threat of nuclear proliferation. The Nuclear Weapons Program under the bill would see an increase of \$294 million or 4.2 percent above fiscal year 2011. With \$7.2 billion, the NNSA, which is the agency of concern, will be able to meet the highest priorities of the Nuclear Posture Review and modernization activities discussed during negotiations of the New START Treaty.

These are three primary activities: First, funds will continue for life extension programs for the W76 submarine-launched warhead, the B61 bomb, and the W78 intercontinental ballistic missile warhead.

Second, funds allow for completing design work for two aging nuclear facilities that may need to be replaced to meet modern safety standards—one for handling plutonium at Los Alamos National Lab and the other for uranium at the Y-12 facility in Tennessee.

Third, funds will maintain the science, technology, and engineering base to continue assessing the safety, security, and reliability of the nuclear weapons stockpile.

The nonproliferation program would see an increase of \$109 million or 4.7 percent above fiscal year 2011. NNSA would stay on track to meet its goals to secure and remove the most vulnerable nuclear materials from around the world by the end of 2013. These are materials that could be used by terrorists to build nuclear devices. The United States has already removed 3,086 kilograms of highly enriched uranium—120 nuclear weapons' worth of material—from dozens of countries.

NNSA would also be able to continue deploying portal monitors at seaports and border crossings to detect nuclear smuggling and help countries increase security at nuclear facilities. The United States has installed radiation detection equipment at more than 399 sites across the world.

Finally, the security allocation will be used to fund the naval reactors program that provides propulsion for the country's submarines and aircraft carriers. An increase of \$141 million or 14.6 percent above fiscal year 2011 is directed to help design a nuclear reactor that will last 40 years for ballistic missile submarines, the most survivable leg of our nuclear deterrent.

Turning to nonsecurity funding, as I mentioned earlier, our allocation is \$20.575 billion—\$584 million or 2.8 percent less than fiscal year 2011. With this significant decrease in funding, the bill focuses its limited nonsecurity funding on the highest priorities: critical water infrastructure projects and accelerating energy technology.

Let me speak for a moment about water infrastructure. The Corps of Engineers would receive \$4.864 billion. That is an increase of \$7 million or one-tenth of 1 percent, above fiscal year 2011 and \$291 million or 5.9 percent above the President's request. Here is why. I strongly believe the Corps of Engineers is responsible for such a wide array of projects—building, maintaining, repairing locks, levees, dams, dredging for waterway navigation. Devastating floods and hurricanes in the last few months that have damaged many communities across the United States are a stark reminder of why Corps of Engineers infrastructure projects remain such a high congressional priority.

With a ban on congressionally directed projects—or, as they are not so fondly called, earmarks—Congress cannot direct needed funding to projects that may have been overlooked by the administration or to address emerging needs after the President's budget sub-

mission. The President's fiscal year 2012 budget request did not include more than 100 studies and projects for navigation, flood control, and environmental restoration that the administration included in the fiscal year 2011 work plan. Without funding in 2012, these studies and projects will likely be suspended.

I think that is important to keep in mind. While our bill does not fund any new projects, our bill provides \$291 million above the President's request to support these ongoing studies and projects for the Corps that were either unfunded or underfunded in the President's budget request.

The bill also provides the Department of the Interior \$1.067 billion, which is \$27 million or 2½ percent less than fiscal year 2011 but still \$16 million or 1.4 percent more than the President's request. Funding for the Department of Interior includes the Bureau of Reclamation, which is responsible for oversight and operation of water projects related to irrigation, water supply, and hydroelectric power generation in the 17 Western States.

Finally, the bill provides \$1.045 billion in disaster relief funding—and I wish to speak about that—this is on top of our base allocation—to repair damaged Corps of Engineers owned, operated, or fixed infrastructure from flooding on the Mississippi and Missouri Rivers and other natural disasters.

This level of funding covers damages the Corps identified when the committee reported this bill. As I mentioned during committee markup, we know this amount is insufficient based on the number and severity of natural disasters that have occurred this year. The Corps has updated their disaster needs. We will be working throughout the floor process to ensure that increased funding to address disaster recovery needs is provided. I think both the ranking member and I, our subcommittee, and the Appropriations Committee as a whole understand that responding to these disaster needs is of the highest priority.

Regarding clean energy, the bill provides stable funding to support science, technology, and engineering programs to advance clean energy technologies. It provides the Office of Science \$4.84 billion, the same as in 2011. The Office of Science conducts basic research in physics, chemistry, and biology to improve our understanding of energy and matter. New discoveries will advance energy technologies. Our bill focuses the limited resources of the Office of Science toward the highest priorities, which include material support, developing the next generation of biofuels, and maintaining the leadership of the United States in high-performance computing.

Our bill continues to fund three hubs, which are research centers made up of scientists and engineers from the national labs, universities, and private industry to address a specific energy

challenge. The three hubs focus on developing fuels that can be produced directly from sunlight, improving energy efficiency of existing buildings, and using modeling and simulation tools to improve the operation of nuclear reactors.

Our bill also funds a new hub, the fourth hub, to improve batteries for electric vehicles and for storage of wind, solar, and other intermittent power sources—something which the ranking member was very much interested in and which I was very pleased to agree to.

In addition to the Office of Science, the bill also provides \$250 million for ARPA-E, an increase of \$70 million, or 39 percent. ARPA-E funds new and innovative energy technologies that would significantly reduce our dependence on foreign oil and reduce carbon emissions.

ARPA-E's goal is to demonstrate the feasibility of new technology and then find a private company to commercialize the technology. As a sign of early success in attracting private investment, last year ARPA-E awarded a startup company \$750,000 to demonstrate its new innovative technology related to energy storage. An early demonstration of this startup's new technology has already attracted \$12 million in private investment to help commercialize it. I think that is good news.

While the government continues to invest in innovative energy technologies, nuclear energy continues to provide 20 percent of the Nation's electricity, but it is 70 percent of its carbon-free electricity. This, to me, is a stunning figure, that it is 20 percent of all power but 70 percent of carbon-free power.

Currently, nuclear energy will continue to be an important source of energy for us in the future. However, I deeply believe that before we expand nuclear power in the United States, we must address our spent fuel situation in order to limit the government's liability from its failure to take this waste.

Today, high-level nuclear spent fuels are stored at 74 locations most directly adjacent to an active reactor. The fuel remains in either spent fuel pools or dry casks meant to be temporary but, in reality, has been stored permanently. There is simply no place to put it.

Today, to date, the U.S. Government has paid out \$1 billion to the nuclear industry because of its failure to take custody of this fuel as required by law. Few people know this. This liability will grow to \$15.4 billion by 2020 and another \$500 million for each year of delay after 2020.

My distinguished ranking member, we simply have to get cracking and find either regional repositories or a central waste repository where nuclear waste can be stored essentially forever. The United States is responsible for 65,000 tons of spent fuel at these 74

sites. This is enough material to cover one football field 20-feet deep. And our liability continues to grow. According to the blue ribbon commission, if no nuclear reactors are built and the existing fleet of 104 reactors operate until the end of their licenses, the total inventory of spent fuel by 2050 would be 150,000 metric tons.

That is 2½ times as much as we have now. The current absence of a spent fuel policy and repository to store spent nuclear fuel is unacceptable and unsustainable. For these reasons, this bill takes the first step in requiring the Department of Energy to create a strategy for spent fuel storage, including options for consolidating and storing spent fuel at one or more regional sites.

With regard to funding for the nuclear energy program, the bill provides \$584 million, which is a reduction of \$142 million, or 24 percent, available funding that will focus more on safety and the back end of the nuclear fuel cycle. For example, the bill provides \$52 million—that is an increase of \$12 million from 2011—to accelerate development of new cladding materials for nuclear fuel that reduce the likelihood of meltdowns and hydrogen explosions, which were observed at Fukushima.

I believe as more becomes available about what actually happened at Fukushima and the aftereffects of Fukushima, cladding material is going to become much more significant.

In closing, I again thank my colleague and ranking member, Senator ALEXANDER, for working with me in a cooperative and constructive manner to draft this bill. I believe we have developed a well-balanced and responsible bill that addresses the water, infrastructure, energy, and national security needs of this Nation.

I hope every Senator can support the bill, and I hope we can conclude floor action in a timely manner.

I yield the floor to my distinguished ranking member.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee is recognized.

Mr. ALEXANDER. I thank the Senator from California. She is a delight to work with. Without disparaging any other Member of the Senate, it is nice to work with former mayors or county executives or even Governors because we are accustomed to making decisions and talking directly and coming to a result. That is what we are able to do. Even when we disagree—which we sometimes do—Senator FEINSTEIN and I are able to keep working on these issues and still try to come to a result. So it is a real privilege to work with Senator FEINSTEIN. I thank her for her courtesy and diligence.

Last week we spent an hour and a half on a very small part of this budget—actually, not even part of the budget but a related matter—making sure we understood all sides of the issues. I don't think in the whole hour and a half there was ever a Republican or

Democratic comment. We were trying to find out the right thing to do for our country, which I think is the goal of each of us.

There is no need to repeat what the chairman said and said very accurately. I will summarize and comment on a few of the points. I will highlight the areas of agreement, which are, for the most part, a couple of areas where we have different points of view which we are still working on. She emphasized—and I thought it was important to emphasize—that except for disaster spending, this Energy and Water bill is slightly below the spending levels of last year. When we add in disaster funding, which I will talk about in a minute, it is above that level.

There is no mandatory spending in the bill. Sometimes our bills get complicated by what we call automatic or mandatory spending. If it is included within an appropriations bill. Some of us wonder why, since we cannot do anything to change it in the appropriations process, but it is there. There is not any of that here. As the Senator emphasized, our bill is divided into two major parts—the security part or the defense part, and the nonsecurity part or the nondefense part. The security part is up; we are spending more. The reason for that is, in the first place, we asked the leaders of the committee to reallocate some money toward our subcommittee so we could try to, as much as we could, live up to our commitment to fund nuclear weapons modernization, an important issue that came up when the Senate ratified the new START treaty.

In other words, the new START treaty was about limiting the number of nuclear weapons here and in Russia, making sure we could inspect what the Russians are doing and, at the same time, we wanted to make sure what we have left works. This is about making sure what we have works. We made a commitment to try to go to certain levels. We are moving in that direction. We have not gotten there yet, but that is one reason, perhaps the main reason, we spend more on the security part.

On the nonsecurity part, as the Senator said, except for disaster spending, it is down. We are spending 3 percent less than we did before. I want to say a word about disaster funding. In the Budget Control Act, in August, a subject of great debate around here—one of the things done was to create a formula over the last 10 years that determines how much money we may be able to spend on disasters. The thought was that disaster spending, like other emergency spending, was getting out of control, and we need to think about it. Obviously, whenever there is a flood, hurricane, or other terrible disaster, we rush to help. But that is real money too, and it has to come from somewhere. This formula that was created says that during this fiscal year—the one about a month and a half old—that we may spend about \$11.3 billion based

on spending over the last 10 years. After that, we will have to reduce spending somewhere if we are going to spend more on disasters.

With respect to disaster relief, our bill is part of that. It is in the Corps of Engineers. We moved quickly in our subcommittee and in the Appropriations Committee to deal with the epic flooding the Senator described on the Mississippi and Missouri Rivers this past year, which, in some cases, exceeded the flood heights of the massive 1927 and 1933 floods.

To give an idea of how unusual these floods were, at our meeting of the Environment and Public Works Committee 3 weeks ago, 14 Senators in both parties came to the committee to say to the authorizing committee—the EPW Committee—we needed to do more to deal with the floods—14 Senators. I have never seen that many Senators testify before a committee before on behalf of any subject. That is how much we are concerned about it, and that is how much people in the areas affected are concerned about it.

In the Appropriations Committee, we had a discussion about how much of that disaster funding to fund. We recommended \$1.04 billion. There was an amendment by the Senator from Missouri that said it needs to be more because we know it will be more than that. We said, in a bipartisan way—I remember the chairman and ranking member said we don't have the estimates definite yet from the Corps of Engineers or from FEMA, so we are only going to fund those areas that are declared to be Presidential disasters, No. 1, and where we have definite estimates, No. 2. When we have more definite estimates of additional damage, we will recommend the funding.

We defeated the amendment offered by the Senator from Missouri with the promise that as real damage estimates come in, they will be met. Well, the Senator and I will be offering an amendment to address this increase. I want my colleagues to be aware of this because, particularly on our side of the aisle, we have had a good deal of discussion about funding for disasters.

In the amendment we will be offering, part of the money fits within the formula we agreed to in the Budget Control Act. About \$550 million will not, and we will have to find some other place in the budget to reduce spending in order to properly fund this disaster spending. I doubt if there is any Senator who would not want to fund that because this is spending to be prepared for the next disaster. This will be money for preparedness, sandbags. I can guarantee, if the Missouri and Mississippi Rivers flood next year, and sandbags are not available because we could not find the money somewhere else, there will be 28 Senators at the next meeting of the EPW Committee, not just 14.

So this is an urgent request. We are suggesting a way to reduce spending. So with the disaster funding, the only

thing that drives our total recommendations above last year's spending, we are, No. 1, staying within the cap created by the Budget Control Committee; and, No. 2, for the amount of money for the sandbags and other preparedness, we are going to recommend a way to reduce spending somewhere else in order to be prepared for the next flood.

With respect to the security allocation, Senator FEINSTEIN mentioned that one part of our budget has to do with national security and another has to do with nonsecurity. Most people, when they think of energy, don't think of the national security parts. It is among the most important national defense requirements we have. As she said, it includes modernizing all of our nuclear weapons to make sure they work. It includes trying to make sure they don't spread around the world. That stands up at the top—those two items—of our national defense posture.

There was a letter that came from Members of the House of Representatives that seemed to be critical of the Senate for using "defense money given to water-related projects." I want to clear that up. There must have been some confusion on the other side of the Capitol because under the rules of the Budget Control Committee, we cannot use defense money for water projects, period. That is against the rules. Not only did we not do it, we could not do it if we wanted to. In fact, we came up with \$100 million more for nuclear weapons modernization than the House did.

So perhaps the House letter was sent to the wrong address. It should have been sent on that side of the Capitol and not sent to the Senate. We understand very well we should not be using defense money for water projects or water project money for defense money. We have not done that. We are not allowed to do that. We cannot cut weapons to fund water projects.

Now, as I said earlier, as Senator FEINSTEIN and I and Senators COCHRAN and INOUE all said, we would support the President's request for appropriate funding for nuclear weapons modernization, which is why Senator FEINSTEIN and I asked our ranking member and chairman to allocate more money to the security side of our budget, and they did that.

As a result of that, security spending for weapons activities is up 5 percent—\$100 million more than the House was able to provide for Energy and Water appropriations.

It is the single largest percentage increase compared to all appropriations subcommittees with security spending in the budget. But it is still \$400 million less than the President's full request and \$400 million less than I would like to see spent on nuclear weapons modernization. I am concerned about that.

I am committed to continue to work with the full committee, the House, and the administration to come as

close as we possibly can to the President's number on nuclear weapons modernization. I want to make it clear that we have bent over backward to make it a top priority—or the top priority to begin with—and have had good cooperation from the senior members of our committee.

Senator FEINSTEIN has worked hard to put this bill together in a fair and accommodating manner. She mentioned the Office of Science and talked about clean energy. Recently, I was at one of our National Laboratories, Sandia in New Mexico. The Director of Science there reminded me that almost every major physical and biological invention of any importance in the United States since World War II has been funded by government-sponsored research—almost all through our 17 or 18 National Laboratories or our 50 or 60 top research universities. These are our real secret weapons for job growth. It was out of the laboratories and out of this kind of government research that came the Internet, the Human Genome Project, nuclear power itself—whether it is nuclear weapons or the 104 civilian reactors or the 104 reactors that run our Navy ships—and stealth technology came of this. It is hard to think of any major invention or discovery in physical or biological sciences that didn't have some government-sponsored research. So when we talk about spending the same amount of money this year that we did last year for the Office of Science, we are talking about a major effort of any jobs bill that the Senate could possibly pass.

If we are talking about jobs growth, this is a very big, important part of it. Low taxes is a part of it, fewer regulations, the right national labor relations policies are a part, but any progrowth plan for the United States has to include government-sponsored research. No other country in the world has anything like our 18 laboratories or our 50 or 60 top research universities. If we want a high standard of living—you know, we still produce about 25 percent of all the money in the world—we would do well to invest every spare dollar we have there, as long as it is wisely spent. So as long as we are cutting over here, I am all for that. I don't want to see a situation where we have runaway entitlement spending and as a result of that we squeeze the inventions that give us the job growth we need.

I made a speech at the Oak Ridge National Laboratory in 2008 where I suggested we have a new Manhattan project for clean energy independence, focusing on electric cars and trucks, carbon capture, solar power, nuclear waste, advanced biofuels, green building fusion. I am a big supporter of research as an appropriate role for the Federal Government, and we will talk more, as we have time over the next 2 days, I hope, about the wisdom of the proper priorities in spending. I would say yes to more for research and no to more for subsidies.

The New York Times had a big article on Saturday where it talked about rich subsidies powering solar and wind projects, and these are for companies that can pay us back. These are extravagant subsidies, which I think are completely unnecessary, particularly at a budget time such as this. If we have any extra dollars, let's put them into the secret weapons at the research universities and the national laboratories and tackle the big challenges, such as the 500-mile battery for cars or finding a solar panel that is so cheap it is \$1 per kilowatt installed.

I agree with Senator FEINSTEIN that Dr. Chu is on the right track with his energy remarks. I was suggesting in my remarks that we pick these grand challenges, such as used nuclear fuel, as one—what to do with it, where do we dispose of the waste. Dr. Chu is doing that, with batteries, with solar, with others, and I think it is a good way to concentrate the focus of the Federal Government and the Energy Department to solve the problems of rising gasoline prices, electricity prices, and do it in a way that helps clean the air.

During our debate, I hope we have a chance to talk about more for research and less for permanent subsidies in the energy area, and I hope we have a way to talk about restraining entitlement spending so we can have sufficient funds to fund our secret weapons that have produced almost every major biological and physical discovery since World War II. We have broad support for that here. We passed the America COMPETES Act in 2007 which set a path for funding for sciences. We had 35 Democrats and 35 Republicans as co-sponsors of that bill. It was introduced by the Democratic leader and the Republican leader, and when we changed parties after an election, it was introduced by the Republican leader and the Democratic leader. So we have bipartisan support for that. We need to make sure it is part of the debate.

The Corps of Engineers, the Senator talked about. Those are critical ideas. Those are the areas she and I agree on. I will spend a moment, if I may, on some areas where we have some more work to do before we have an agreement. One is in the area of nuclear power. Here is what I agree with her about nuclear power. One is that it is a remarkable statistic that 20 percent of our electricity is produced by one of our greatest inventions—nuclear power—and that it is 70 percent of our electricity without carbon but also without nitrogen or sulfur or mercury pollution.

We had a big debate here in the Senate last week about clean air. Well, if all of our power were nuclear power, as almost all of it is in France, we wouldn't have a clean air debate because our powerplants wouldn't be producing any mercury or producing any nitrogen or sulfur oxides as well as carbon. So nuclear is a remarkable advantage for the United States and one which we should continue to take advantage of.

I am disappointed we do not fund in this bill the first steps of a several-year program to jump-start the small nuclear reactor program. This is not just our idea. France, Russia, Brazil, and other countries around the world are working on this. There are 60 countries that want to introduce nuclear energy onto their grid for the first time. We have the phenomenon like South Korea building a nuclear powerplant for the United Arab Emirates. So if we don't do it, that doesn't mean no one will do it; it just means we will be at the back of the line with an invention we invented and that today produces 20 percent of our electricity and 70 percent of our clean electricity.

Now, the "it" we are talking about are these smaller reactors. We already produce a lot of small reactors for the more than 100 Navy vessels, but they are of a little different kind. But small reactors that might be 100 to 300 megawatts would be cheaper, they would be made in the United States, and they could be put together like LEGO blocks would. They could be hauled back and forth from wherever they were produced to different places. They might be especially useful on a military base or around a national laboratory, where you don't need 1,200 new megawatts of electricity. And they might be better for an investor-owned utility to buy, because they would only have to spend one-fourth or one-fifth or one-sixth as much money. The big reactors we now build are \$5 billion, \$6 billion, \$7 billion, \$8 billion or more. Quite a big number. So the President and Dr. Chu have recommended we move ahead with the small reactor program. The House of Representatives agrees, I agree, and we are trying to work a way out here where we can join that parade—in fact, lead the parade.

I think the way to do it is to take seriously Senator FEINSTEIN's concern about used nuclear fuel. She is exactly right, we have blindfolds on our eyes if we think it is responsible for us to move ahead producing so much nuclear power—even if it is just a football field 20 feet deep—without a permanent place to put the spent fuel. It is safe to keep it there, in my opinion. And not just mine. The Nuclear Regulatory Commission and Secretary Chu, the President's Nobel prize-winning Energy Secretary, say it is safe for 100 years. But what that says to me is that it is safe while we figure out the right way to dispose of it. I am convinced our scientists can figure out an even better way of disposing of it than France does, for example, which reprocesses nuclear fuel and then stores it there. I suspect we will be able, in the next 10 or 15 years, to figure out a way to recycle, reuse nuclear fuel, and reduce the waste by 95 percent. But we will still need a permanent place to store it.

What I am committed to do, working with Senator FEINSTEIN—and I am delighted she has this intense level of interest—and Senators BINGAMAN and MURKOWSKI, the ranking members of

the Energy Committee, is trying to create an inexorable process toward a result on finding a proper place to store used nuclear fuel. I hope we can do that within a year. That doesn't mean we will have all the decisions made, but it means we could have, I believe, a process established that will produce a result.

I am hoping at the same time we can move ahead with small nuclear reactors, because by 2020, the idea is we would only have two or three. And between now and then, the Nuclear Regulatory Commission would need this help in creating the proper license and approving the design and working through all the things one has to do. It is going to have to do that anyway, because someone will bring one over from Korea or France or Russia or Brazil and they will apply for a license in the United States and we will be using their reactors instead of ours.

Another area of disagreement is there are some provisions in the bill, which I won't go into at great length, but I don't think they belong in an appropriations bill, with all respect. They are based on several recommendations of the 90-day commission created by the Nuclear Regulatory Commission. Since our bill was reported, the NRC has taken several steps to prioritize their recommendations.

Of the five representations that are in language in our bill, the Commission only considered one to be of that urgent a priority. It is going to do the rest of them in the regular order of things. I think we should let our experts do their job. Perhaps this calls attention to the importance of it, but I would rather let the Nuclear Regulatory Commission do its job and us to concentrate our efforts on finding a place to put used nuclear fuel.

One other area I suspect within the next few days we will have a discussion about is the subsidy cost for renewable energy projects, but I think I will delay that until we have an opportunity to discuss it on the floor, and to have some discussions about the loan guarantee program, which hasn't worked as intended. The loan guarantee program was supposed to help put a priority on certain forms of energy and loan monies to companies that could pay it back, not to companies that couldn't pay it back. Apparently, that has been an issue.

There is also a provision in the bill about requiring grantees of the Department of Energy to change lightbulbs in their factories if they do not meet the standards for the new lightbulbs. This will be costly, it is inconsistent with current law, and I hope we can remove it as the bill moves forward.

In a bill this large and this important, I think Chairman FEINSTEIN and other members of the subcommittee and the full committee have come up with a good result, a result about which there is a consensus between us, with very few areas of disagreement, a result that is below last year's spend-

ing level, except for disaster spending, and a result that gives a special emphasis to nuclear weapons modernization that we are committed to and that the President asked for and that does better than the House number but still doesn't reach, I will acknowledge, where I had hoped we could go.

It has been a great privilege to work with Chairman FEINSTEIN. I like the idea that we have an appropriations bill on the floor. This is the basic work of government. We ought to do this before we do anything else. If we can't have an appropriations bill to fund the basic work of government, people might say, can you do anything at all? So we have done our part, we have the bill here, and I thank the majority leader for bringing it up. I hope our colleagues will give us the chance to move forward the bill this week, to bring their amendments to the floor, debate on them, have a final vote, and pass it into law and do something we can be proud of.

I thank the Chair, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from California.

Mrs. FEINSTEIN. Mr. President, I rise to thank the Senator. Once again, it has been a great pleasure to work with him. I do think we have a lot of this bill in common, but we do have some points of difference, and I want to say a little bit about my point of difference.

I very much want to leave a world for my grandchildren where there is not danger from nuclear weapons or nuclear fuels, and today I don't believe I can say we have achieved that. The ranking member was correct, the head of the NRC did testify in his view the hot rods were safe for 100 years in those spent fuel pools. Well, you know, there were problems with spent fuel pools at Fukushima. I think, as life goes on, we are going to see more of that.

We know cladding has to be improved. We know that, perhaps, the design basis of a new nuclear reactor has to meet events which are not necessarily predicted. Who would have thought a 47-foot tsunami would hit Fukushima? But it happened.

I am in California. We are in the ring of fire. Sure enough, there have been earthquakes in the southern tip of South America, in Asia, in Christchurch, New Zealand, going right around. These have been very large earthquakes, approaching 9, and the concern is, what happens next. So I think safety is a very real problem, and I think as we appropriate monies we should be concerned with safety.

Spent fuel pools were designed to harbor hot rods for a relatively short period of time. The rods can be moved 5 to 7 years out, and then they are generally moved into passive storage and the dry casks. The dry casks, it was thought, would be transported to repositories—either permanent repositories or repositories on a regional basis—under the supervision of the Federal Government.

I always felt that affecting that was an extraordinary challenge for us and particularly when I learned we were being fined an egregious amount of money because we can't do that every year. So my view is, we have to get cracking and move that on, and the five things we have in the bill I think all take us to a much safer place with respect to nuclear activities.

With respect to the small modular nuclear reactors, what they are is essentially less than 300 megawatts modular small actors. I understand there are still problems with the cladding. But what was asked for was \$192 million, not alone but a proposal to essentially subsidize up to 50 percent of the licensing costs of financial and technically viable corporations. These aren't small corporations; they are big corporations, and the Department would have to pick two winners for the subsidy. That would leave at least five American companies out. This is a restricted bid. It doesn't include everybody. It includes only one kind of reactor—light water reactor. Who knows. Maybe others of the five are as viable.

So firms not receiving assistance would be substantially disadvantaged. The likely winners include these companies: Babcock and Wilcox, I have nothing against them, 2010 revenues exceeding \$2.6 billion—can't they afford their own licensing certification fees?—and Westinghouse, owned by the Japanese conglomerate Toshiba, which has \$64 billion in assets and more than 200,000 employees.

In other sectors, we don't invest Federal dollars to help profitable private companies obtain safety licenses. We don't help Ford comply with crash test regulations, nor do we pay for Boeing to obtain FAA certification. So before we commit these moneys, we should seriously evaluate whether any company would change its decision about pursuing a license because of this.

So I am kind of at a different point in looking at subsidies. I think most subsidies by the Federal Government should just go, wherever they are—oil, gas, nuclear, ag, you name it—at a time when we should not be subsidizing private industry.

There is also a fundamental contradiction in the nuclear industry's argument for funding small modular reactor licensing. On one hand, the industry argues that the market will be enormous, and we can't afford to fall behind international competitors. On the other hand, these same industry experts argue they will not develop and license a product unless government pays them to apply for an NRC license. They argue that the United States must provide each firm with more than \$200 million to motivate them to pursue this business.

The bottom line, the small modular reactor cannot be both a massive economic opportunity, with the potential to change the way we power our economy, and an opportunity that industry will not pursue unless the government pays them to do that.

So I have real questions about funding this item. We will have more to say about it as this goes on. I know it is popular. If there were a spent fuel policy, if we knew we were going to go for regional repositories, that there was some limit to the storage of fuel at a site—74 sites now, and with advanced modular reactors this is more because many people think the only way this can be cost competitive is you have to group these two together. So in a given site, you would have five or six small reactors, but you would have the same spent fuel problem. It seems to me we need a place to put spent fuel. I am not opposed to nuclear if we can properly take care of its waste.

I wanted to respond when my distinguished ranking member raised this. We have had one meeting with the chairman of the Energy Committee, the ranking member of the Energy Committee, Senator ALEXANDER, and myself to discuss how to proceed toward a nuclear storage policy. I think we need to continue this. We are going to ask the Secretary in to talk with us in December, and Senator ALEXANDER has been great in doing this—put forward a little agenda of how to proceed toward this so I know he is, in fact, in good faith suggesting it, and I do. He has always been a straight shooter.

But it is just very hard for me to go ahead and say, OK, we are going to promote a whole new class of nuclear reactors when we don't have a place to dispose of hot spent fuels that will be hot and dangerous for literally hundreds of years. If we can move fast, I am all for it.

I know the Senator wants to respond, and I welcome the debate.

Mr. ALEXANDER. I thank the Senator. I am not going to respond at great length because I want to eventually find us in agreement about this, but I appreciate it. Your points are very important and very good points.

On safety and nuclear power, I think it is always important to start off by pointing out that a nuclear reactor is a big, complex operation and obviously there is some risk to it. But nuclear power has the best safety record of any form of energy production in the United States. There has never been a death in connection with any 1 of our 104 civilian reactors. There hasn't been one with the more than 100 Navy reactors where we have sailors actually living on top of reactors. We have all heard about Three Mile Island, which is the most important nuclear accident we have had in the United States, but no one was even hurt in Three Mile Island.

I see the Senator from Pennsylvania is presiding today. When I say that to people around the country, they say: What do you mean no one was hurt at Three Mile Island? No one was hurt. There have been tests on families who lived around there, and no one was even hurt either from any kind of explosion or from radioactivity at a later time.

So we always have to look for better ways to be safe, but we have that safe record. We do have the Chairman of the NRC saying this used fuel is stored safely for 100 years, and we have our scientists telling us in 10 or 15 years we can find a way to recycle. Within that time, we ought to find a place to put it. We have a place to put it if we could go ahead with Yucca Mountain, but that has been stopped for a variety of reasons, some of them political. Let us say they are all principled. But for whatever reason, it is stuck.

The other thing I would say is, there is a certain urgency about this. As the Senator said, 20 percent of our electricity is nuclear power, 70 percent of our clean energy. What if we didn't have that 20 percent? We don't have to look far to see. In Japan they have shut down temporarily enough of their reactors as a result of Fukushima to be without 20 percent of their electricity. What have they been doing? Their car manufacturers have been working on the weekends. That is 5 million workers in Japan. Temperatures are turned to 82 during the summer heat; 22,000 people have been brought into the hospitals from heat stroke. The Emperor and Empress are wandering around the Imperial Palace with candlesticks and flashlights.

We don't want the United States of America like that. This is an important part of our ability to create jobs and to have lots of low-cost electricity. We use 25 percent of all the energy in the world in the United States.

As far as subsidies go, after we get through finding a place to put used nuclear fuel, maybe this is the second area on which the Senator from California and I can work which would be to do something about energy subsidies. Estimates are the Federal Government probably spends about \$20 billion a year on energy subsidies of one kind or another.

The Energy Information Administration did a study 3 years ago on where that money goes, and this is where it goes: Subsidies for wind dwarf everything else. It is not Big Oil, it is big wind, \$18.82 per megawatt hour subsidy for wind turbines; \$3.67 for solar; \$1.36 for landfill gas; 67 cents per megawatt hour for hydroelectric; 18 cents for biomass; 12 cents for coal; and almost 0 for nuclear.

It is often cited the insurance program the nuclear powerplants have as a subsidy. It is a Federal law that never has cost the taxpayer a penny. It simply requires all the nuclear operators to put in, I believe, \$11 billion or \$12 billion per reactor in case there is an incident. They all share in the result, which might be a pretty good way to do with oil producers that are drilling in the gulf, make them all worry about each other's plant and not just their own. So I believe nuclear power is safe.

As far as subsidies go, I would like to move some of those subsidies into the energy research column and maybe into the reduce the debt column.

I ask unanimous consent to have printed in the RECORD a copy of the New York Times article.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

A GOLD RUSH OF SUBSIDIES IN CLEAN ENERGY SEARCH

(By Eric Lipton and Clifford Krauss)

WASHINGTON.—Halfway between Los Angeles and San Francisco, on a former cattle ranch and gypsum mine, NRG Energy is building an engineering marvel: a compound of nearly a million solar panels that will produce enough electricity to power about 100,000 homes.

The project is also a marvel in another, less obvious way: Taxpayers and ratepayers are providing subsidies worth almost as much as the entire \$1.6 billion cost of the project. Similar subsidy packages have been given to 15 other solar- and wind-power electric plants since 2009.

The government support—which includes loan guarantees, cash grants and contracts that require electric customers to pay higher rates—largely eliminated the risk to the private investors and almost guaranteed them large profits for years to come. The beneficiaries include financial firms like Goldman Sachs and Morgan Stanley, conglomerates like General Electric, utilities like Exelon and NRG—even Google.

A great deal of attention has been focused on Solyndra, a start-up that received \$528 million in federal loans to develop cutting-edge solar technology before it went bankrupt, but nearly 90 percent of the \$16 billion in clean-energy loans guaranteed by the federal government since 2009 went to subsidize these lower-risk power plants, which in many cases were backed by big companies with vast resources.

When the Obama administration and Congress expanded the clean-energy incentives in 2009, a gold-rush mentality took over.

As NRG's chief executive, David W. Crane, put it to Wall Street analysts early this year, the government's largess was a once-in-a-generation opportunity, and "we intend to do as much of this business as we can get our hands on." NRG, along with partners, ultimately secured \$5.2 billion in federal loan guarantees plus hundreds of millions in other subsidies for four large solar projects.

"I have never seen anything that I have had to do in my 20 years in the power industry that involved less risk than these projects," he said in a recent interview. "It is just filling the desert with panels."

From 2007 to 2010, federal subsidies jumped to \$14.7 billion from \$5.1 billion, according to a recent study.

Most of the surge came from the economic stimulus bill, which was passed in 2009 and financed an Energy Department loan guarantee program and a separate Treasury Department grant program that were promoted as important in creating green jobs.

States like California sweetened the pot by offering their own tax breaks and by approving long-term power-purchase contracts that, while promoting clean energy, will also require ratepayers to pay billions of dollars more for electricity for as long as two decades. The federal loan guarantee program expired on Sept. 30. The Treasury grant program is scheduled to expire at the end of December, although the energy industry is lobbying Congress to extend it. But other subsidies will remain.

The windfall for the industry over the last three years raises questions of whether the Obama administration and state governments went too far in their support of solar

and wind power projects, some of which would have been built anyway, according to the companies involved.

Obama administration officials argue that the incentives, which began on a large scale late in the Bush administration but were expanded by the stimulus legislation, make economic and environmental sense. Beyond the short-term increase in construction hiring, they say, the cleaner air and lower carbon emissions will benefit the country for decades.

"Subsidies and government support have been part of many key industries in U.S. history—railroads, oil, gas and coal, aviation," said Damien LaVera, an Energy Department spokesman.

A CASE STUDY

NRG's California Valley Solar Ranch project is a case study in the banquet of government subsidies available to the owners of a renewable-energy plant.

The first subsidy is for construction. The plant is expected to cost \$1.6 billion to build, with key components made by SunPower at factories in California and Asia. In late September, the Energy Department agreed to guarantee a \$1.2 billion construction loan, with the Treasury Department lending the money at an exceptionally low interest rate of about 3.5 percent, compared with the 7 percent that executives said they would otherwise have had to pay.

That support alone is worth about \$205 million to NRG over the life of the loan, according to an analysis performed for The New York Times by Booz & Company, a strategic consulting firm that regularly performs such studies for private investors.

When construction is complete, NRG is eligible to receive a \$430 million check from the Treasury Department—part of a change made in 2009 that allows clean-energy projects to receive 30 percent of their cost as a cash grant upfront instead of taking other tax breaks gradually over several years.

Californians are also making a big contribution. Under a state law passed to encourage the construction of more solar projects, NRG will not have to pay property taxes to San Luis Obispo County on its solar panels, saving it an estimated \$14 million a year.

Assisted by another state law, which mandates that California utilities buy 33 percent of their power from clean-energy sources by 2020, the project's developers struck lucrative contracts with the local utility, Pacific Gas & Electric, to buy the plant's power for 25 years.

P.G.& E., and ultimately its electric customers, will pay NRG \$150 to \$180 a megawatt-hour, according to a person familiar with the project, who asked not to be identified because the price information was confidential. At the time the contract was awarded, that was about 50 percent more than the expected market cost of electricity in California from a newly built gas-powered plant, state officials said.

While neither state regulators nor the companies will divulge all the details, the extra cost to ratepayers amounts to a \$462 million subsidy, according to Booz, which calculated the present value of the higher rates over the life of the contracts.

Additional depreciation tax breaks for renewable energy plants could save the company an additional \$110 million, according to Christopher Dann, the Booz analyst who examined the project.

The total value of all those subsidies in today's dollars is about \$1.4 billion, leading to an expected rate of return of 25 percent for the project's equity investors, according to Booz.

Mr. Crane of NRG disputed the Booz estimate, saying that the company's return on equity was "in the midteens."

NRG, which initially is investing about \$400 million of its own money in the project, expects to get all of its equity back in two to five years, according to a statement it made in August to Wall Street analysts.

By 2015, NRG expects to be earning at least \$300 million a year in profits from all of its solar projects combined, making these investments some of the more lucrative pieces in its sprawling portfolio, which includes dozens of power plants fueled by coal, natural gas and oil.

NRG is not the only company gobbling up subsidies. At least 10 of the 16 solar or wind electricity generation projects that secured Energy Department loan guarantees intend to also take the Treasury Department grant, and all but two of the projects have long-term agreements to sell almost all of their power, according to a survey of the companies by The Times.

These projects, in almost all cases, benefit from legislation that has been passed in about 30 states that pushes local utility companies to buy a significant share of their power from renewable sources, like solar or wind power. These mandates often have resulted in contracts with above-market rates for the project developers, and a guarantee of a steady revenue stream.

"It is like building a hotel, where you know in advance you are going to have 100 percent room occupancy for 25 years," said Kevin Smith, chief executive of SolarReserve. His Nevada solar project has secured a 25-year power-purchase agreement with the state's largest utility and a \$737 million Energy Department loan guarantee and is on track to receive a \$200 million Treasury grant.

Because the purchase mandates can drive up electricity rates significantly, some states, including New Jersey and Colorado, are considering softening the requirements on utilities.

Brookfield Asset Management, a giant Canadian investment firm, will receive so many subsidies for a New Hampshire wind farm that they are worth 46 percent to 80 percent of the \$229 million price of the project, when measured in today's dollars, according to analyses for The Times performed by Booz and two other two industry financial experts. (The wide range reflects a disagreement between the experts on the future price of electricity in New Hampshire.)

Richard Legault, the chief executive of Brookfield Renewable Power, the division that oversees the Granite Reliable project in New Hampshire, declined to discuss his profit expectations in detail, but said the project might not have happened without government assistance.

"When everything has come together, it is a good investment for Brookfield, it is no doubt," Mr. Legault said. "We are quite happy with it." (Brookfield is also the owner of the small park in Manhattan that is home to the Occupy Wall Street protesters.)

Even companies whose business has little to do with energy or finance, like the Internet giant Google, benefit from the public subsidies. Google has invested in several renewable energy projects, including a giant solar plant in the California desert and a wind farm in Oregon, in part to get federal tax breaks that it can use to offset its profits from Web advertising.

Industry executives and other supporters of the subsidies say that the public money was vital to the projects, in part because financing for renewable energy projects dried up during the recession. They also note that more traditional energy sectors, like oil and natural gas, get heavy subsidies of their own. For example, in the 2010 fiscal year, the oil and gas producers got federal tax breaks of \$2.7 billion, according to an analysis by the Energy Information Administration.

"These programs just level the playing field for what oil and gas and nuclear industries have enjoyed for the last 50 years," said Rhone Resch, president of Solar Energy Industries Association. "Do you have to provide more policy support and funding initially? Absolutely. But the result is more energy security, clean energy and domestic jobs."

Michael E. Webber, associate director of the Center for International Energy and Environmental Policy at the University of Texas, Austin, said renewable energy subsidies were a worthy investment. "It is a form of corporate welfare that is consistent with other social goals like job creation, clean air and boosting a domestic source of energy," he said.

OVERFLOWING BREAKS

Obama administration officials said the subsidies were intended to help renewable-energy plants that were jumbo-sized or used innovative technology, both potential obstacles to getting private financing. But even proponents of the subsidies say the administration may have gone overboard.

Concerns that the government was being too generous reached all the way to President Obama. In an October 2010 memo prepared for the president, Lawrence H. Summers, then his top economic adviser; Carol M. Browner, then his adviser on energy matters; and Ronald A. Klain, then the vice president's chief of staff, expressed discomfort with the "double dipping" that was starting to take place. They said investors had little "skin in the game."

Officials involved in reviewing the loan applications said that Treasury Department officials pressed the Energy Department to respond to these concerns.

Officials at both agencies declined to discuss the anticipated financial returns of the clean-energy projects the federal government has agreed to guarantee, saying the information was confidential.

But Energy Department officials said they had carefully evaluated every project to try to calculate how much money the developers and investors stood to make. "They were rejected, if they looked too rich or too risky," Mr. LaVera, the Energy Department spokesman said.

In at least one instance—NRG's Agua Caliente solar project in Yuma County, Ariz.—the Energy Department demanded that the company agree not to apply for a Treasury grant it was legally entitled to receive. The government was concerned the extra subsidy would result in excessive profit, NRG executives confirmed.

In other cases, the agency required that companies use most of the Treasury grants that they would get when construction was complete to pay down part of the government-guaranteed construction loans instead of cashing out the equity investors.

"The private sector really has more skin in the game than the public realizes," said Andy Katell, a spokesman for GE Energy Financial Services, which like Goldman Sachs, Morgan Stanley and other financial firms has large investments in several of these projects.

But there is no doubt that the deals are lucrative for the companies involved.

G.E., for example, lobbied Congress in 2009 to help expand the subsidy programs, and it now profits from every aspect of the boom in renewable-power plant construction.

It is also an investor in one solar and one wind project that have secured about \$2 billion in federal loan guarantees and expects to collect nearly \$1 billion in Treasury grants. The company has also won hundreds of millions of dollars in contracts to sell its turbines to wind plants built with public subsidies.

Mr. Katell said G.E. and other companies were simply "playing ball" under the rules set by Congress and the Obama administration to promote the industry. "It is good for the country, and good for our company," he said.

Satya Kumar, an analyst at Credit Suisse who specializes in renewable energy companies, said there was no question the country would see real benefits from the surge in renewable energy projects.

"But the industry could have done a lot more solar for a lot less price, in terms of subsidy," he said.

Mr. ALEXANDER. I was reading in the New York Times on Saturday: Rich subsidies powering solar and wind projects; big rise in company aid; companies are virtually assured of profits. This is the New York Times. This isn't the conservative Washington, DC, Journal saying this. It is a very thorough article that talks about something I have been concerned about for a long time. It said:

Taxpayers and ratepayers are providing subsidies worth almost as much as the entire \$1.6 billion cost of a solar plant halfway between Los Angeles and San Francisco on a former cattle ranch.

It quotes the head of NRG, a very substantial company, saying:

I have never seen anything that I have had to do in my 20 years in the power industry that involved less risk than these projects. It is just filling the desert with panels.

From 2007 to 2010, Federal subsidies jumped to \$14.7 billion from \$5.1 billion, according to a recent study.

It goes on and on.

My own research shows, the Joint Tax Committee said that over the next 10 years taxpayer funding for wind—which our energy secretary testified is a mature technology—will cost the taxpayers \$26 billion over the next 10 years. Wouldn't that money be better spent on energy research for clean energy, for finding ways to deal with used nuclear fuel, for getting a 500-mile battery, for getting an installed dollar kilowatt or reducing the debt at a time when we are borrowing 40 cents of every \$1 we spend?

So I am absolutely committed to working with Senator FEINSTEIN on finding a way to deal with the problem of used nuclear fuel. We urgently need to do that. We are fortunate it is safe where it is while we do that, and I hope we can find a way to agree that over the next few years we can move ahead so we at least get started on small modular reactors.

I am also willing to work with the chairman or anyone else, any other Senator who is willing to take a good, hard look at energy substitutes of all kinds and say, OK, let's take look at our own positions on that, especially in light of the budget deficit, and let's take that money and put some of it into energy research so we can get up to where we need to be and use the rest of it to reduce the debt.

So this is a good discussion and one I look forward to continuing, and I am delighted to have a chance to continue it with someone I respect as much as the Senator from California.

Mrs. FEINSTEIN. If I may, I wish to thank the distinguished ranking member. I believe that completes the opening statements on the bill.

I notice the distinguished Senator is on the floor. So if it is agreeable with Senator ALEXANDER, we can yield at this time to him.

The PRESIDING OFFICER (Mr. CASEY). The Senator from Indiana.

Mr. COATS. Mr. President, I didn't come to interrupt opening statements. I guess they are completed. I do have a point that is directly related to this particular appropriations bill which I would like to discuss, and I am going to offer to put forward an amendment as a consequence of this.

I am glad the chairwoman and the ranking member are here so I can put this on the RECORD, and they are familiar with what I am going to do.

This is a matter that is important both to my State of Indiana and, I believe, the Federal Government's involvement in subsidizing or loan guarantees or other support for various energy development projects.

All of us, I think, are concerned over the situation with Solyndra, where a \$535 million loan guarantee from the Department of Energy to construct a solar panel manufacturing facility has now gone bust, and the taxpayer is on the hook for over \$½ billion of loan guarantee and money that is lost to the taxpayer. That money likely will never be repaid. However, my concern goes beyond Solyndra. I didn't come here to talk about Solyndra. But there is a similar situation that may be occurring and I want to raise this issue because it goes, again, to decisions that are being made by the Department's energy renewal offices relative to loans to private entities and loan guarantees to private entities.

This particular situation involves the Advanced Technology Vehicles Manufacturing, or ATVM, Loan Program. Some of those loans are going to what may turn out to be viable improvements in our ability to lighten vehicles, to increase mileage, to provide for alternative sources of fuel. I think that is still up in the air and still to be determined. But this particular program I want to talk about involves a program that I am not sure fits within the proper category. Earlier this year the Department issued a nearly three-quarters—\$730 million—conditional loan commitment to Severstal North America under the ATVM program. Let me read from the Department's press release.

The funding will support the modernization of [Severstal's] existing facilities in Dearborn, MI, in addition to the design, manufacture and construction of new facilities to produce the next generation of automotive advanced high-strength steel. The Severstal project has the potential to significantly increase the supply of this advanced high strength steel in North America as demand continues to grow for fuel efficient vehicles.

Continuing the release:

An increased supply for this breakthrough technology steel will help U.S. automotive

manufacturers meet the pending and future design, weight and safety requirements of advanced technology vehicles. Severstal estimates the project will generate over 2,500 construction jobs and over 260 permanent manufacturing jobs.

That is the end of the Department's press release.

The Department of Energy makes it sound as though this loan to Severstal will promote a completely new breakthrough technology. The problem is, this simply is not true. In fact, six companies already manufacture the advanced high-strength steel that Severstal is seeking to receive a loan to help produce. Three of those companies have production facilities in my home State of Indiana: Arcelor Mittal, Steel Dynamics, and U.S. Steel.

Evidence shows that the market for this type of steel is strong and robust in the United States, with multiple producers already manufacturing these high-technology products. In fact, I am told that this high-strength steel has been manufactured in the United States since the 1980s, and the current capacity for this steel actually surpasses current demand. All of this information should be available to the Energy Department for their consideration as to whether they should go forward with this loan, but the Department spokesperson is quoted as saying that advanced high-strength steel is "in short supply."

This begs the question as to whether the administration has seriously conducted any type of market analysis before deciding to award this loan. Did the Department research what advanced high-strength steel products are already in the marketplace and whether a taxpayer loan was even needed? Based on the Department's public comments it seems unlikely that the administration made any estimates of current and future capacity in the United States for the production of this steel or talked to any steel producers outside of Severstal.

I think a legitimate question is: What is the impact of this loan? Should it be finalized? Subsidizing Severstal to produce a product already being manufactured would undercut competitors because Severstal, of course, will have lower costs due to the nearly \$¾ billion loan guarantee.

There is also no job creation here that fits the description of what the Department indicated would be the case with new jobs. Given the state of supply and demand, any new jobs created at Severstal would come at a cost to other producers, creating, at best, a net zero job gain. That means job losses in Indiana and Pennsylvania where the high-strength steel already is manufactured.

Moreover, the Department claims that "over 2,500 construction jobs" would be created by the issuance of the loan. That claim is dubious at best, since most of the plant construction is already manufactured. Moreover, the Department claims that Severstal's

own documents claim that two of the three required lines will be finished by December 2011. Only an annealing line valued at one-third of the amount of the loan is awaiting final approval, and the Department's own Web site states, "Loans will not be available on a retroactive basis."

Here we have a situation where the Department's own release and justification of the loan states a number of construction jobs to be put in place when the construction is virtually finished. Second, when most of the completion includes, with one exception, what only amounts to one-third of the loan that is being asked for, it makes you wonder why the loan is two-thirds greater than that.

We have to ask the question, is it proper to give a company nearly \$¾ billion for facilities that have already been built and for production of a product that is already manufactured and in excess supply in the United States—particularly for two States that are impacted by this, the State of Indiana and the State of Pennsylvania? Here we are back in a situation where the Federal Government is picking winners and losers in a fully functioning and growing product market.

Based on these concerns, I sent a letter to the Department of Energy Secretary Chu in August, seeking answers to a number of these questions I have been raising. Unfortunately the Department sent back a very nonresponsive reply that did not address any of my concerns.

As a result, I believe it is necessary to call on the inspector general of the Department of Energy to investigate the Severstal loan and report back to Congress his findings. American taxpayers deserve to know what is happening with our tax dollars and the hardworking employees of other steel companies manufacturing the same steel deserve to know why the Department of Energy is attempting to undercut their job security by subsidizing a competitor.

Today I am introducing an amendment to the Energy and Water Appropriations bill that would direct the Energy Department's inspector general to submit a report to Congress on the conditional loan agreement currently in place to Severstal. Such a report by the inspector general can help clarify why or why not this conditional loan to Severstal should be granted. The Department needs to be more transparent and forthcoming with how it is using taxpayers' dollars. We need to learn lessons from the disaster that is Solyndra and the cost to the taxpayer. The last thing the Department of Energy, this administration, or this Congress needs to do is to authorize a nearly \$¾ billion loan for a product that is already being manufactured by domestic steel suppliers and is not needed. We need that determination. That is why I am offering this amendment.

Mr. President, if time permits, I wish also to step aside from the current

topic to briefly discuss another matter. I do not want to exceed the time limitation that might be in place. It appears I can go forward with that without a problem.

Mr. President, I also want to discuss the subject of a vote last week by UNESCO, the United Nations Education and Scientific Cultural Organization, to grant membership to the Palestinian Authority even though it is not a recognized country. UNESCO should not have the authority to do so, but through a vote in the United Nations it did just that. The United States has been an on-and-off supporter of UNESCO. There has been a lot of controversy with UNESCO over its lack of effectiveness and the cost to the taxpayer. It has resulted in questions as to whether we should continue funding that organization. We currently support that.

This action that has been taken to admit the Palestinian Authority as a member state is, I submit, completely misguided and deeply damaging. UNESCO's decision has further dimmed prospects for a negotiated peace in the Middle East. My fear is that this step—which the Palestinians mistakenly regard as a success—will encourage them to press for membership in other U.N. bodies as well. Doing so will harm Israel, harm the Palestinians' own interests, harm the U.N. agencies involved, and harm our own national interests. As a consequence of this, the United States is obligated under law to terminate all funding for UNESCO and any other U.N. body that admits the Palestinian Authority. Public law 101-246, which passed in 1990, states that: "no funds authorized to be appropriated by this Act or any other Act shall be available for the United Nations or any specialized agency thereof which accords the Palestinian Liberation Organization [the PLO] the same standing as member states."

That is the law. That is what has been enacted through votes in this body and signed by Presidents of the United States. In 1994, Congress passed Public Law 103-236, which prohibits "voluntary or assessed contribution to any affiliated organization of the United Nations which grants full membership as a state to any organization or group that does not have the internationally recognized attributes of statehood," which the PLO does not have. The Senate, on a vote codifying these laws—or reaffirming them, I should say—passed this legislation 92 to 8, indicating that this clearly should be a noncontroversial and nonpartisan issue, clearly, a 92-to-8 vote.

The reason I am speaking here today is despite our legal obligation to suspend funding as a result of UNESCO's latest action, there has been some speculation that it may be possible to find alternative ways to financially support U.N. agencies such as UNESCO that have taken this step of admitting the Palestinians as a member. That

would be a total mistake. I want to reiterate the fact that it would be a violation of the law.

Therefore, I come to the floor today to introduce a bill that serves as an emphatic restatement of that law, making its consequences more certain.

Furthermore, I am introducing this language as an amendment to the current appropriations bill, that will clarify that no taxpayer dollars can be used to fund UNESCO. We must slam the door on any speculation of any kind of backdoor financial support for the United Nations agencies that grant membership to Palestine. This bill is exactly that. There is no reason why this purposeful reinstatement of existing law should not have bipartisan support. The threat to prospects for negotiated, just, and lasting peace that is posed by this recent Palestinian tactic is more tangible now than in the past. Our determination to discourage such a dangerous tactic should be stronger than ever.

I ask that my colleagues join in support of this legislation that makes it clear to UNESCO, the United Nations, Israel, the Palestinian Authority, and clear to the rest of the world that the United States will not tolerate attempts to admit the Palestinian Authority and undercut negotiated peace efforts in the Middle East.

I am hoping we will have a vote on this to once again reaffirm our determined commitment to live by the laws we have passed and to not allow an agency of the United Nations or any part of the United Nations be used to grant statesmanship and nationhood to an entity that has not qualified for that. I hope this reaffirmation will also put to rest any speculation or any attempts to circumvent the laws that exist on the books.

I yield the floor.

Mrs. FEINSTEIN. I note the absence of a quorum.

The PRESIDING OFFICER (Mr. CASEY). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business with Senators allowed to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUSINESS-METHOD PATENTS

Mr. KYL. Mr. President, I ask unanimous consent to have printed in the RECORD a letter concerning section 18 of the America Invents Act, sent to me and others by the chairman of the House Judiciary Committee.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON THE JUDICIARY,
Washington, DC September 8, 2011.

Hon. JON KYL

*U.S. Senate,
Washington, D.C.*

Hon. CHARLES E. SCHUMER,

*U.S. Senate,
Washington, D.C.*

Hon. PATRICK LEAHY,

*U.S. Senate,
Washington, D.C.*

Hon. CHUCK GRASSLEY,

*U.S. Senate,
Washington, D.C.*

DEAR SENATORS KYL, SCHUMER, LEAHY AND GRASSLEY: I am writing to discuss further the importance of the transitional program for business method patents as included in H.R. 1249, the Leahy-Smith America Invents Act. As you know, this provision enables the U.S. Patent and Trademark Office (‘USPTO’) to correct egregious errors that were made in the granting of a wide range of business method patents.

Business methods were generally not patentable in the United States before the late 1990s, and generally are not patentable elsewhere in the world. The Federal Circuit, however, created this new class of patents in its 1998 State Street decision. In its 2010 decision in *Bilski v. Kappos*, the U.S. Supreme Court clamped down on the patenting of business methods and other patents of poor quality. It is likely that many or most of the business method patents that were issued after State Street are now invalid under *Bilski*.

There really is no sense in allowing expensive litigation over patents that are no longer valid in light of the Supreme Court’s clarification of the law. The new transitional program included in the House bill creates an inexpensive and speedy alternative to litigation—allowing parties to resolve these disputes more efficiently rather than spending millions of dollars in litigation costs. In the process, the proceeding will also prevent nuisance litigation settlements.

Moreover, the new administrative proceeding allows business method patents to be reviewed by the experts at the USPTO under the correct (*Bilski*) standard. To use this proceeding, a challenger must make an upfront showing to the USPTO of evidence that the business method patent is more likely than not invalid. This is a high standard. Only the worst patents, which probably never should have been issued, will be eligible for review in this proceeding.

This program provides the Patent Office with a fast, precise vehicle to review low-quality business method patents, which the Supreme Court has acknowledged are often abstract and overly broad.

Specifically, the bill’s provision applies to patents that describe a series of steps used to conduct every-day business applications in the financial products and retail services sectors. These are patents that can be and have been asserted against all types of businesses—from community banks and credit unions to retailers and businesses of all sizes and from all industries.

The provision is, indeed, limited to patents that are non-technological in nature (i.e., business methods) and that involve a process or related apparatus used in the practice, administration, or management of a financial product or service. The program’s exception for “technological inventions” precludes review of patents for inventions based on application of the natural sciences or related engineering or inventions in computer operations. And by requiring that the covered patents be applicable to a financial product or service, the proceeding in the House bill ensures that the patents eligible for review

will generally include only those that have some business or commercial orientation.

Nothing in the bill, however, limits use of the proceeding to one industry; rather, it applies to non-technological patents that can apply to financial products or services. Any business that sells or purchases goods or services “practices” or “administers” a financial service by conducting such transactions. Most business-method patents are fairly plastic in nature and could apply to a whole host of business activities. See 157 Cong. Rec. 1363, 1365 (daily ed. March 8, 2011) (statement of Sen. Schumer) (“To meet this requirement, the patent need not recite a specific financial product or service. Rather the patent claims must only be broad enough to cover a financial product or service.”). To be sure, the fact that a patent has been asserted against a financial institution with respect to products or processes that are unique to such institutions will be a fairly clear indicator that the patent applies to a “financial product or service,” and should provide guidance to the USPTO in administering the program. See 157 Cong. Rec. 1368, 1379 (daily ed. March 8, 2011) (statement of Sen. Kyl).

The transitional program can be used to review patents for “a method or a corresponding apparatus.” The distinction between a “process” and a “machine” (two of the terms used in section 101 of the patent code to define what is patentable) is not a firm one, and many inventions can be characterized either way. A “corresponding apparatus” for a business method would include, for example, a computer that was programmed to carry out the business process. Wary of the stigma that attaches to business-method patents, many applicants try to obscure the nature of these patents by characterizing a computer that has been programmed to execute the process as the invention, and thus asserting that the process is really a “machine” or a “system.”

The program’s definition of “covered business-method patent” includes a “corresponding apparatus” in order to prevent such obvious evasions. Any other approach would elevate claim-drafting form over invention substance. Finally, any “apparatus” that is subject to review under the program would need to be used to implement or effect a business method. Legitimate inventions in technological fields will not be subject to review under this program.

The transitional program also extends to privies of parties charged with infringement. This was done specifically to prevent downstream customers or users from being dragged into frivolous litigation over suspect or improperly granted patents. H.R. 1249 also extends the time frame for the transitional program. This change is important to prevent patent trolls from waiting out the program. This issue of folks “lying in wait” may actually be a significant argument for extending or making permanent this program in the future. Similarly, the program’s definition was expanded in H.R. 1249 so that it is not limited to class 705 patents. This change is key to the program’s success, because many business method patents are assigned to classes other than 705, and it makes no sense to exclude them because of the quirks of USPTO’s classification regime.

This program is not tied to one industry or sector of the economy—it affects everyone. The provision as developed in the Senate and later perfected in the House will ensure that the vast majority of non-technological business method patents will be eligible for review under this program. As the USPTO had a presumption to grant many of these erroneous patents, they should now have a presumption to allow most non-technological

business method patents that have a commercial nexus into this new program for review. This program was designed to be construed as broadly as possible and as USPTO develops regulations to administer the program that must remain the goal.

The strength of our patent system relies on not simply the mechanical granting of a patent, but the granting of strong patents, ones that are truly novel and non-obvious inventions, that are true innovations and not the product of legal gamesmanship. This provision is an integral component of H.R. 1249 and will not only help correct past mistakes but ensure a stronger U.S. patent system going forward.

Sincerely,

LAMAR SMITH,
Chairman, Committee on the Judiciary,
House of Representatives.

ADDITIONAL STATEMENTS

TRIBUTE TO MARGE THOMAS

• Mr. CARDIN. Mr. President, today I honor Marge Thomas, who is retiring as the president and chief executive officer of Goodwill Industries of the Chesapeake. Ms. Thomas began her career with Goodwill in Milwaukee in 1974 and rose to become the first woman executive in the enterprise to win a national Goodwill Industries leadership award, to go along with Outstanding Management and Distinguished Career Awards.

Ms. Thomas took over Goodwill Industries of the Chesapeake in 1994 and transformed the agency into one of Baltimore's largest nonprofit organizations during her nearly 18-year tenure. When she joined Goodwill Chesapeake in 1994, the agency served 453 people, operated 17 stores, and had total revenues of \$8 million. Today, it serves more than 17,000 people, and the organization has expanded to include nine training sites and 26 retail stores, and it has government contracts throughout the greater Baltimore region and the Eastern Shore. Total revenues have grown to \$40 million, with nearly \$30 million generated through the agency's retail operations. Her accomplishments include expanding Goodwill services to provide a variety of training and employment needs for individuals who have mental and physical disabilities, including those needing public assistance, and those who have criminal backgrounds or face other employment challenges.

Congress would do well to learn from Ms. Thomas, who has found ways during these trying economic times to create jobs, train employees, and increase revenues. She has offered a helping hand and, more important, hope to many people struggling to climb onto the first rung of the economic ladder. I ask my colleagues to join me in thanking Ms. Thomas for a job well done; for her lifelong commitment to public service and for her many outstanding contributions in helping the less fortunate among us. She has made a positive difference in so many people's lives. I know her future plans include

some travel, attending some classes at Anne Arundel Community College, and serving as a mentor to women nonprofit executives. Please join me in sending best wishes to Marge Thomas for a happy, productive, and well-deserved retirement.●

TRIBUTE TO TERIGI ROSSI

• Mr. KERRY. Mr. President, today I would like to join the Massachusetts relatives and friends of Massachusetts native son Terigi Rossi in celebrating 15 remarkable years as a police officer in Dallas, TX, the last 10 as a member of that city's elite SWAT Team.

The name Terigi Rossi may be familiar to television viewers. Officer Rossi was featured in "Dallas SWAT," a reality television series on the A&E Network that followed members of the Dallas SWAT Team in 2006-2007. The TV cameras captured the gritty, life-on-the-line experiences of Officer Rossi and his fellow SWAT Team members, but they also followed them home, showing the family life of officers whose lives are always in danger but who always put family first.

In Officer Rossi's case, viewer had an intimate view of a man who with his fellow officer is called out to capture a bank robbery suspect barricaded inside a garage, or responding to another call, trying to stop a suspected drug dealer from destroying evidence. But when the work day is done, the cameras followed Officer Rossi through training for an amateur boxing match, then back home where he cooks chicken cutlets for dinner with his wife Grace and their two sons, 15-year-old Antonio and 11-year-old Terigi. Then, it is off to his part time job as a security guard to supplement the family income.

As a prosecutor in Middlesex County in the 1970s, I worked with hundreds of police officers. And it was clear how much we ask of these officers. They are required to be many things to many people—minister, social worker, keeper of the peace, the lawman with the courage to face the armed suspects at great personal risk. And since the late 1960s, some of the best of these lawmen have been recruited into elite tactical units to perform dangerous and high-risk operations—lawmen like Terigi Rossi.

Terigi Rossi grew up on Harley Avenue in the city of Everett, MA. He graduated from Malden Catholic High School where, not surprisingly, this 6-foot 230-pound athlete was a lineman on the football team, playing offense and defense. He graduated from Suffolk University where he was recruited by the city of Dallas to serve on their police force, one of the largest in the Nation, with 2,977 sworn officers and 556 civilians.

And I have to say—Massachusetts's loss was Texas's gain, because Terigi Rossi would have been a great addition to any police force in our State. Just look at the 15 years this always-on-the-go officer has spent on the Dallas po-

lice force, including 10 years with the city's always-ready-to-go 50-member SWAT Team as a specialist in gas and chemical weaponry.

Officer Rossi's family and friends back home in Massachusetts, particularly my friend Tom Ciulla, are justifiably proud of his record of public service. I join them in celebrating not only his 15 years in a police uniform but also his 10 years in the armor of the Dallas SWAT Team. And I send thanks to Grace, Antonio and Terigi for their support of Officer Rossi. They know as well as any that law enforcement officers are never off duty. They protect the public any time and any place that the peace is threatened. And we should give them all they help they need.●

TRIBUTE TO JUDGE BRUCE Q. MORIN

• Mr. WHITEHOUSE. Mr. President, today I express my thanks and congratulations to a son and servant of my State of Rhode Island. Bruce Q. Morin, associate judge of the Rhode Island Workers' Compensation Court, has recently retired after a long career in public service.

I first had the pleasure of getting to know Judge Morin in the early 1990s, when I was a policy adviser to then-Rhode Island Governor Bruce Sundlun. At the time, the Rhode Island worker's compensation system was broken and on the verge of insolvency. Costs had risen to unbearable levels. Insurers were departing the Rhode Island system. The problem seemed politically intractable. And worst of all, the means of providing adequate support to injured workers in Rhode Island was in danger.

Well, working together we completely overhauled the system. A central component of the overhaul was the creation of Rhode Island's Workers' Compensation Court, specifically designed to hear and decide all disputes between an injured employee and an employer relating to workers' compensation benefits. Governor Sundlun appointed Bruce Morin to the court in 1991, the year it was created, and he has dutifully and honorably served both the state of Rhode Island and the citizens who have come before his bench for 20 years.

Today, the Rhode Island workers' compensation system stands as a national model. Rhode Island has been able to permanently reduce costs, stabilize the workers' compensation market, eliminate fraud, protect injured workers, and save Rhode Island businesses hundreds of millions of dollars. Rhode Island's system now has the lowest average medical cost per employee per year in the entire country.

We owe a great measure of that success to Judge Morin, Chief Judge Healey, former Chief Judge Arrigan, and the rest of the court for implementation of the law in the best interests of the State of Rhode Island.

From his days serving his country, both with the Judge Advocate General

Corps of the U.S. Naval Reserve and as an instructor at the Naval Justice School in Newport; to his time as a member of the Rhode Island State senate; to his distinguished tenure on the Workers' Compensation Court, Bruce Morin has been a lifelong public servant.

After a long and successful career in Rhode Island, I know Judge Morin is looking forward to an enjoyable retirement, more hours on the links, and more time to share with his two wonderful children Jeffrey and Amy. I congratulate him on his many accomplishments and wish him great luck and happiness in all his future endeavors.●

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 322—DESIGNATING NOVEMBER 2011 AS "COPD AWARENESS MONTH"

Mr. CRAPO (for himself and Mr. DURBIN) submitted the following resolution; which was considered and agreed to:

S. RES. 322

Whereas chronic obstructive pulmonary disease (referred to in this preamble as "COPD"), also known as chronic bronchitis and emphysema, is the third leading cause of death in the United States and is the only 1 of the top 5 causes of death with a rising prevalence and death rate;

Whereas COPD is a chronic and progressive disease that affects over 24,000,000 people in the United States, ½ of whom have not been properly diagnosed;

Whereas COPD claims the lives of more than 120,000 people of the United States each year, with a person dying every 4 minutes from COPD;

Whereas COPD is considered to be the second leading cause of disability in the United States;

Whereas in 2011 COPD cost the United States approximately \$49,900,000,000 per year;

Whereas the major risk factor for COPD is smoking and other risk factors include exposure to air pollution, industrial irritants, and burned biomass fuels;

Whereas COPD can also result from genetic conditions, such as alpha-1 antitrypsin deficiency;

Whereas many patients suffering with COPD are not diagnosed until they have reached an advanced stage of COPD;

Whereas a diagnostic test for COPD, known as spirometry, is available for office use, allowing early diagnosis of COPD;

Whereas the National Institutes of Health, Centers for Disease Control and Prevention, and the Department of Veterans Affairs play a critical role in advancing the prevention, diagnosis, treatment, and ultimately a cure for COPD;

Whereas primary care physicians are in a key position to provide optimal care to patients with COPD and need to be trained to diagnose and treat the disease;

Whereas individuals with COPD who are able to receive education from allied health professionals, such as respiratory therapists, have better health outcomes;

Whereas appropriately treating COPD with medication and health management can reduce hospital readmissions and costly exacerbations; and

Whereas increased public awareness, screening, early detection, and treatment of COPD are crucial in the prevention or slowing the progression of lung disease and can lead to reduced costs and better quality of life: Now, therefore, be it

Resolved, That the Senate—

(1) designates November 2011 as "COPD Awareness Month";

(2) encourages all people of the United States to become more informed about chronic obstructive pulmonary disease (referred to in this resolution as "COPD") and get screened if they are at risk; and

(3) encourages further partnership between the Federal government and private entities to enhance patient education about COPD.

AMENDMENTS SUBMITTED AND PROPOSED

To the Senate of the United States:

I transmit herewith, for the advice and consent of the Senate to its ratification, the Agreement on Port State Measures to Prevent, Deter, and Eliminate Illegal, Unreported, and Unregulated Fishing, done at the Food and Agriculture Organization of the United Nations, in Rome, Italy, on November 22, 2009 (the "Agreement"). I also transmit, for the information of the Senate, the report of the Department of State with respect to the Agreement.

The Agreement established, for the first time at the global level, legally binding minimum standards for port states to control port access by foreign fishing vessels, as well as by foreign transport and supply ships that support fishing vessels. The Agreement also encourages Parties to apply similar measures to their own vessels. Involved Federal agencies and stakeholders strongly support the Agreement. The Agreement establishes practical provisions to prevent fish from illegal, unreported, and unregulated fisheries from entering the stream of commerce. If widely ratified and properly implemented, the Agreement will thereby serve as a valuable tool in combating illegal, unreported, and unregulated fishing worldwide.

The legislation necessary to implement the Agreement will be submitted separately to the Congress. I recommend that the Senate give early and

favorable consideration to this Agreement and give its advice and consent to ratification.

EXTENSIONS OF REMARKS

IN RECOGNITION OF GERARD AND LILO LEEDS' COMMITMENT TO IMPROVING EDUCATION FOR AMERICA'S YOUTH

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. GEORGE MILLER of California. Mr. Speaker, I rise today to pay tribute to two people who have dedicated their lives to improving the educational outcomes for our Nation's youth. Gerard and Lilo Leeds are a shining example of two people who are giving something important back to a society that once offered them the opportunity to experience so much success in their own lives.

The Leeds came to the United States in 1939 as refugees from Hitler's Germany. After launching a successful media corporation, Mr. and Mrs. Leeds founded the Institute for Student Achievement—an organization that partners with low-income middle schools and high schools to improve student achievement for at-risk youth. They also created the Campaign for Fiscal Equity, Inc, a coalition of concerned parents and education advocates seeking to reform New York State's school finance system. The Leeds also established the Caroline and Sigmund Schott Foundation—an organization that works on early childhood education and care, gender equity, and education financing issues.

The Leeds continued their philanthropic efforts on behalf of adolescent youth by founding the Alliance for Excellent Education in 2001 and charged it with reducing the nation's high school dropout rate and preparing each secondary school student to graduate ready for success at the college level.

Gerard and Lilo Leeds are recipients of many civic awards, including Socially Responsible Entrepreneurs of the Year, the Long Island Association Humanitarian Award, and Outstanding Philanthropists of the year for the Long Island chapter of the National Society of Fund Raising Executives.

The couple also has been honored by the Urban League of Long Island, the New York State chapter of the NAACP, the New York State United Teachers union, and the American Jewish Committee. They were cited by *Newsday* in its report on "100 Who Shaped a Century," and were among the ten honorees selected by WCBS-TV for recognition in its annual "Fulfilling the Dream" celebration of the birthday of Dr. Martin Luther King, Jr.

Their spirit is filled with humanitarianism, kindness, and commitment to serve others. As displayed by their social ventures, they are fully dedicated to helping disadvantaged youth achieve and exceed expectations. When asked where their sense of responsibility comes from, they said the only thing that allowed them to succeed, especially as immigrants fleeing Germany during World War II, was a quality education. As lifetime learners earning both a bachelors and masters degree,

they believe the same academic experience they received should be the standard—not the exception—for every boy and girl in the United States.

Mr. Speaker, I would like to thank Gerard and Lilo Leeds for their tremendous leadership and dedication to helping students across the United States receive a quality education.

HONORING SERGEANT MAJOR HENRY WELFORD JACKSON II'S 33 YEARS OF SERVICE IN THE UNITED STATES ARMY

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. MORAN. Mr. Speaker, I rise today to recognize and pay tribute to Sergeant Major Henry Welford Jackson II for 33 years of exceptional service to the United States Army. Sergeant Major Jackson plans to retire from active duty on December 3, 2011.

Henry W. Jackson II entered the United States Army on July 5, 1977. His extensive military education and training has allowed him to excel as both a soldier and a teacher. He received an Associate Degree in Criminal Justice from the University of Hawaii in Honolulu, Hawaii, a Bachelor of Arts Degree in Criminal Justice from Park University in Parkville, Missouri and is currently pursuing a Masters in Criminal Justice with Troy University.

Since 2004, Sergeant Major Jackson has served as the Inspector General Sergeant Major with the Office of the Inspector General, where he worked with utmost distinction as the senior enlisted advisor and assistant to the Inspector General, Senior Noncommissioned Officer, and Senior Assistant Inspector General.

His outstanding leadership during his final tour of a distinguished 33-year active duty career exemplifies the highest traditions of service while positively influencing virtually every major aspect of the Army. During this period, Sergeant Major Jackson's record of accomplishments set a standard of excellence in keeping with the proudest traditions of military service. As the principal enlisted advisor, his candid and insightful counsel was essential in informing senior Army leadership on issues impacting the force and representing the Soldier's perspective on these issues.

Within the Agency, he supervised readiness and training of IG offices worldwide for attendance in the Army's premiere training institution—the Inspector General School; and he was instrumental in the selection of senior non-commissioned officers for Inspector General assignments across the Army. He also served as a trusted confidant to the Sergeant Major of the Army, advising him on all aspects of Army and Soldier issues. During his time with the United States Army Inspector General Agency, he personally mentored and inspired over 4,230 officers, non-commissioned offi-

cers, and civilians to graduate from the Inspector General School. He meticulously ensured that Inspectors General across the Army provide only the finest support to the Army's senior leaders, and that those personnel selected to be Army Inspectors General were only soldiers and civilians of the highest caliber. He has continuously trained and mentored Inspector General Personnel across the Army, ensuring they maintain the highest degree of professionalism and expertise in their assignments as Army Inspectors General.

Prior to his current assignment, SGM Jackson served as the Chief Operations Sergeant and the Assistance and Investigations Non-Commissioned Officer for Headquarters, Fifth United States Army at Fort Sam Houston.

SGM Jackson has served in a variety of staff and leadership positions both in the states and overseas. Throughout his military career, he has served in a variety of units such as Airborne, Light & Mechanized Infantry assignments. Additionally, he has served as a Rifleman, Drill Sergeant, Senior Drill Sergeant, Platoon Sergeant, Operations Sergeant, and as an S-2 Non-Commissioned Officer.

He has honorably been decorated with numerous awards and decorations, all of which are a true testament to his hard work and commitment to making our country a safer, more peaceful place.

I would like to give my utmost sincere thanks to Henry for his 33 years of service. SGM Jackson's decisive leadership and mentorship has left a lasting impression on the thousands of Soldiers he has interacted while in service, helping to develop Army Values and Warrior Ethos within all of them. Throughout his entire career, he has embodied the Noncommissioned Officer Creed and ensured mission accomplishment while always taking care of soldiers. I congratulate Sergeant Major Jackson on the completion of an exemplary active-duty career and wish him and his wife Jennifer well on the next phase of their life.

COMMEMORATING BOBBY THOMSON, A BASEBALL LEGEND AND COMMUNITY ACTIVIST

HON. JACK KINGSTON

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. KINGSTON. Mr. Speaker, I rise today to recognize the life and accomplishments of Bobby Thomson, a baseball legend and pillar of his community.

Bobby Thomson was born in 1923 in Glasgow, Scotland, the youngest of 6 children and emigrated to the United States with his mother and siblings in 1925 to join his father in Staten Island, New York. He grew up in Staten Island and quickly became a baseball standout both in school athletic leagues and on the city's sandlots. After graduating from high school in 1942, he signed with the New York Giants for \$100 a month.

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Despite his fledgling professional baseball career, Bobby Thomson left the Giants in 1943 to enlist in the Army Air Corps and trained as a bombardier in Victorville, California, and served until 1945. After leaving the Army Air Corps he rejoined the New York Giants and became a starter by 1947. He played with the Giants through 1953 with a batting average of .279 and an average of 25 home runs and 94 runs batted in (RBI) each season. He had a career-best season in 1949 with a .309 batting average, 27 home runs, and 109 RBI.

On October 3, 1951, Bobby Thomson hit what became known as "The Shot Heard 'Round the World." It was in the bottom of the ninth inning in the deciding game of a playoff for the National League pennant. The New York Giants were trailing the Brooklyn Dodgers two runs to four and there were runners on second and third. Thomson stepped up and proceeded to knock Dodger pitcher Ralph Branca's second pitch down the left-field line and over the fence for a game- and pennant-winning three run home run. The "Shot Heard 'Round the World" was so spectacular that it caused WMCA-AM broadcaster Russ Hodges to famously exclaim, "The Giants win the pennant! The Giants win the pennant! The Giants win the pennant! Bobby Thomson hits into the lower deck of the left-field stands! The Giants win the pennant and they're goin' crazy, they're goin' crazy!"

Forever the humble hardworker, Bobby Thomson continued his baseball career through 1963 and thereafter worked as a sales executive in order to, in his own words, "stay home more with my wife and daughter and live a normal life." His integrity, work ethic, and positive outlook helped him excel in private business and led him to become involved in nonprofit foundations, such as New Jersey Arthritis Foundation, Tomorrow's Children Fund, and the Optimist Club. In 2006, he moved to Savannah, Georgia, to be closer to his daughter and he quickly made friends in the community due to his warm demeanor and he continued to live the life of a humble living legend, father, uncle, and grandfather.

After a long and fruitful life, Bobby Thomson passed away during the evening of August 16, 2010, in his Skidaway Island home in Savannah at the age of 86.

We commend Bobby Thomson on his outstanding baseball career and his famous three run home run known as the "Shot Heard 'Round the World" and express admiration for the devotion of Bobby Thomson to various charities and nonprofit foundations after his retirement from baseball.

IN RECOGNITION OF CONNIE
CORVELO

HON. DENNIS A. CARDOZA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. CARDOZA. Mr. Speaker, it is with great honor that I rise today to recognize a faithful and tireless volunteer in the Atwater community, Connie Corvelo.

Connie grew up in the Visalia area on her family dairy in Goshen where her parents, Joseph Pereira and Balvina Orique Pereira, were dairy farmers dating back to 1935. Connie's

father immigrated to the United States from the Azores Islands and her mother was born in California. She attended schools in Goshen and graduated from Mt. Whitney High School in Visalia in 1955.

Connie married her loving husband George Corvelo in 1988. George farmed and Connie worked for the Merced Sun Star as an Administrative Assistant to the General Manager for 10 years. Connie and George purchased "Out to Lunch" in 1993 and started a catering business. As Atwater Chamber members, Connie and George have catered meals for organizations, reunions, birthdays and many other events. Connie and George retired from the restaurant business in 2000 but have continued their catering company to this day. Their catering company was named Business of the Year in 2004–2005 by the Atwater Chamber of Commerce.

Shortly thereafter, Connie embarked on a cookbook writing adventure. Her first cookbook, titled *My Portuguese Mother's Kitchen*, was published in 2010. Her second cookbook, *Out to Lunch: Memories and Recipes*, has recently been released.

Connie is an active member of the Atwater community. George and Connie have been members of the Atwater-Winton Lions club for many years. In 2006, as a member of the Atwater Women's Club, Connie volunteered to share her prized chicken salad recipe and expertise as a fundraiser for the restoration of the clubhouse and yard. Within a few years, this spirit of volunteerism has spread throughout the community and the historic building has been painted, fenced, landscaped, air conditioned and much more. Connie and George continue to help with the salad event twice a year. It is this selfless volunteerism that has earned Connie the Atwater Women's Club Volunteer of the Year Award.

Connie has three children whom she adores spending time with. Her son, Dr. Jon Nunes, is a scientist with Roche and is married to Kelly Tanner Nunes. They have two daughters, Jordan and Julie. Connie's daughter, Annemarie Nunes Cousino, lives with her husband Richard "Rick" Cousino in Maryland. Rick recently retired from the United States Air Force after serving as Crew Chief for many years on Air Force One. They have two children, Gabrielle and Zachary. Connie's third child, Allison Nunes, is a meeting and event planner for an international company in Phoenix.

Mr. Speaker, I ask that my colleagues join me, and the Atwater Women's Club, in honoring a truly wonderful member of the Atwater community, Connie Corvelo.

ARTICLE OF CHINESE TELECOM
FIRM HUAWEI'S ROLE IN ENABLING
IRAN'S STATE SECURITY
NETWORK

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. WOLF. Mr. Speaker, I submit an October 27 Wall Street Journal article that summarizes Chinese telecom firm Huawei's role in enabling Iran's state security network. At the same time that the U.S. and its allies are increasing efforts to support pro-democracy and

human rights activists, Huawei is empowering the Iranian regime to suppress these groups.

[From the Wall Street Journal, Oct. 27, 2011]

CHINESE TECH GIANT AIDS IRAN

(By Steve Stecklow, Farnaz Fassihi and Loretta Chao)

When Western companies pulled back from Iran after the government's bloody crackdown on its citizens two years ago, a Chinese telecom giant filled the vacuum.

Huawei Technologies Co. now dominates Iran's government-controlled mobile-phone industry. In doing so, it plays a role in enabling Iran's state security network.

Huawei recently signed a contract to install equipment for a system at Iran's largest mobile-phone operator that allows police to track people based on the locations of their cellphones, according to interviews with telecom employees both in Iran and abroad, and corporate bidding documents reviewed by The Wall Street Journal. It also has provided support for similar services at Iran's second-largest mobile-phone provider. Huawei notes that nearly all countries require police access to cell networks, including the U.S.

Huawei's role in Iran demonstrates the ease with which countries can obtain foreign technology that can be used to stifle dissent through censorship or surveillance. Many of the technologies Huawei supports in Iran—such as location services—are available on Western networks as well. The difference is that, in the hands of repressive regimes, it can be a critical tool in helping to quash dissent.

Last year, Egyptian state security intercepted conversations among pro-democracy activists over Skype using a system provided by a British company. In Libya, agents working for Moammar Gadhafi spied on emails and chat messages using technology from a French firm. Unlike in Egypt and Libya, where the governments this year were overthrown, Iran's sophisticated spying network remains intact.

In Iran, three student activists described in interviews being arrested shortly after turning on their phones. Iran's government didn't respond to requests for comment.

Iran beefed up surveillance of its citizens after a controversial 2009 election spawned the nation's broadest antigovernment uprising in decades. Authorities launched a major crackdown on personal freedom and dissent. More than 6,000 people have been arrested and hundreds remain in jail, according to Iranian human-rights organizations.

This year Huawei made a pitch to Iranian government officials to sell equipment for a mobile news service on Iran's second-largest mobile-phone operator, MTN Irancell. According to a person who attended the meeting, Huawei representatives emphasized that, being from China, they had expertise censoring the news.

The company won the contract and the operator rolled out the service, according to this person. MTN Irancell made no reference to censorship in its announcement about its "mobile newspaper" service. But Iran routinely censors the Internet using sophisticated filtering technology. The Journal reported in June that Iran was planning to create its own domestic Internet to combat Western ideas, culture and influence.

In winning Iranian contracts, Huawei has sometimes partnered with Zaeim Electronic Industries Co., an Iranian electronics firm whose website says its clients include the intelligence and defense ministries, as well as the country's elite special-forces unit, the Islamic Revolutionary Guards Corps. This month the U.S. accused a branch of the Revolutionary Guards of plotting to kill Saudi

Arabia's ambassador to the U.S. Iran denies the claim. Huawei's chief spokesman, Ross Gan, said, "It is our corporate commitment to comply strictly with all U.N. economic sanctions, Chinese regulations and applicable national regulations on export control. We believe our business operations in Iran fully meet all of these relevant regulations."

William Plummer, Huawei's vice president of external affairs in Washington, said the company's location-based-service offerings comply with "global specifications" that require lawful-interception capabilities. "What we're doing in Iran is the same as what we're doing in any market," he said. "Our goal is to enrich people's lives through communications."

Huawei has about 1,000 employees in Iran, according to people familiar with its Iran operations. In an interview in China, a Huawei executive played down the company's activities in Iran's mobile-phone industry, saying its technicians only service Huawei equipment, primarily routers.

But a person familiar with Huawei's Midwest operations says the company's role is considerably greater, and includes a contract for "managed services"—overseeing parts of the network—at MTN Irancell, which is majority owned by the government. During 2009's demonstrations, this person said, Huawei carried out government orders on behalf of its client, MTN Irancell, that MTN and other carriers had received to suspend text messaging and block the Internet phone service, Skype, which is popular among dissidents. Huawei's Mr. Plummer disputed that the company blocked such services.

Huawei, one of the world's top makers of telecom equipment, has been trying to expand in the U.S. It has met resistance because of concerns it could be tied to the Chinese government and military, which the company denies.

Last month the U.S. Commerce Department barred Huawei from participating in the development of a national wireless emergency network for police, fire and medical personnel because of "national security concerns." A Commerce Department official declined to elaborate.

In February, Huawei withdrew its attempt to win U.S. approval for acquiring assets and server technology from 3Leaf Systems Inc. of California, citing opposition by the Committee on Foreign Investment in the United States. The panel reviews U.S. acquisitions by foreign companies that may have national-security implications. Last year, Sprint Nextel Corp. excluded Huawei from a multibillion-dollar contract because of national-security concerns in Washington, according to people familiar with the matter.

Huawei has operated in Iran's telecommunications industry since 1999, according to China's embassy in Tehran. Prior to Iran's political unrest in 2009, Huawei was already a major supplier to Iran's mobile-phone networks, along with Telefon AB L.M. Ericsson and Nokia Siemens Networks, a joint venture between Nokia Corp. and Siemens AG, according to MTN Irancell documents.

Iran's telecom market, which generated an estimated \$9.1 billion in revenue last year, has been growing significantly, especially its mobile-phone business. As of last year, Iran had about 66 million mobile-phone subscribers covering about 70% of the population, according to Pyramid Research in Cambridge, Mass. In contrast, about 36% of Iranians had fixed-line phones.

As a result, mobile phones provide Iran's police network with far more opportunity for monitoring and tracking people. Iranian human-rights organizations outside Iran say there are dozens of documented cases in which dissidents were traced and arrested

through the government's ability to track the location of their cellphones.

Many dissidents in Iran believe they are being tracked by their cellphones. Abbas Hakimzadeh, a 27-year-old student activist on a committee that published an article questioning the actions of Iran's president, said he expected to be arrested in late 2009 after several of his friends were jailed. Worried he could be tracked by his mobile phone, he says he turned it off, removed the battery and left Tehran to hide at his father's house in the northeastern city of Mashhad.

A month later, he turned his cellphone back on. Within 24 hours, he says, authorities arrested him at his father's house. "The interrogators were holding my phone records, SMS and emails," he said.

He eventually was released and later fled to Turkey where he is seeking asylum. In interviews with the Journal, two other student activists who were arrested said they also believe authorities found them in hiding via the location of their cellphones.

In early 2009, Siemens disclosed that its joint venture with Nokia, NSN, had provided Iran's largest telecom, government-owned Telecommunications Company of Iran, with a monitoring center capable of intercepting and recording voice calls on its mobile networks. It wasn't capable of location tracking. NSN also had provided network equipment to TCI's mobile-phone operator, as well as MTN Irancell, that permitted interception. Like most countries, Iran requires phone networks to allow police to monitor conversations for crime prevention.

NSN sold its global monitoring-center business in March 2009. The company says it hasn't sought new business in Iran and has established a human-rights policy to reduce the potential for abuse of its products.

A spokesman for Ericsson said it delivered "standard" equipment to Iranian telecom companies until 2008, which included built-in lawful-interception capabilities. "Products can be used in a way that was not the intention of the manufacturer," the spokesman said. He said Ericsson began decreasing its business in Iran as a result of the 2009 political upheaval and now doesn't seek any new contracts.

As NSN and Ericsson pulled back, Huawei's business grew. In August 2009, two months after mass protests began, the website of China's embassy in Tehran reprinted a local article under the headline, "Huawei Plans Takeover of Iran's Telecom Market." The article said the company "has gained the trust and alliance of Major governmental and private entities within a short period," and that its clients included "military industries."

The same month the Chinese embassy posted the article, Creativity Software, a British company that specializes in "location-based services," announced it had won a contract to supply a system to MTN Irancell. "Creativity Software has worked in partnership with Huawei, where they will provide first and second level support to the operator," the company said.

The announcement said the system would enable "Home Zone Billing"—which encourages people to use their cellphones at home (and give up their land lines) by offering low rates—as well as other consumer and business applications that track user locations. In a description of the service, Creativity Software says its technology also enables mobile-phone operators to "comply with lawful-intercept government legislation," which gives police access to communications and location information.

A former telecommunications engineer at MTN Irancell said the company grew more interested in location-based services during the antigovernment protests. He said a team

from the government's telecom-monitoring center routinely visited the operator to verify the government had access to people's location data. The engineer said location tracking has expanded greatly since the system first was installed.

An official with Creativity Software confirmed that MTN Irancell is a customer and said the company couldn't comment because of "contractual confidentiality."

A spokesman for MTN Group Ltd., a South African company that owns 49% of the Iranian operator, declined to answer questions, writing in an email, "The majority of MTN Irancell is owned by the government of Iran." He referred questions to the telecommunications regulator, which didn't respond.

In 2008, the Iranian government began soliciting bids for location-based services for the largest mobile operator, TCI's Mobile Communication Co. of Iran, or MCCI. A copy of the bidding requirements, reviewed by the Journal, says the contractor "shall support and deliver offline and real-time lawful interception." It also states that for "public security," the service must allow "tracking a specified phone/subscriber on map."

Ericsson participated in the early stages of the bidding process, a spokesman said. Internal company documents reviewed by the Journal show Ericsson was partnering with an Estonian company, Reach-U, to provide a "security solution" that included "Monitor Security—application for security agencies for locating and tracking suspects."

The Ericsson spokesman says its offering didn't meet the operator's requirements so it dropped out. An executive with Reach-U said, "Yes, we made an offer but this ended nowhere."

One of the ultimate winners: Huawei. According to a Huawei manager in Tehran, the company signed a contract this year to provide equipment for location-based services to MCCI in the south of Iran and is now ramping up hiring for the project.

One local Iranian company Huawei has done considerable business with is Zaeim Electronic Industries. "Zaeim is the security and intelligence wing of every telecom bid," said an engineer who worked on several projects with Zaeim inside the telecom ministry. Internal Ericsson records show that Zaeim was handling the "security part" of the lawful-interception capabilities of the location-based services contract for MCCI.

On its Persian-language website, Zaeim says it launched its telecommunications division in 2000 in partnership with Huawei, and that they have completed 46 telecommunications projects together. It says they now are working on the country's largest fiber-optic transfer network for Iran's telecom ministry, which will enable simultaneous data, voice and video services.

Zaeim's website lists clients including major government branches such as the ministries of intelligence and defense. Also listed are the Revolutionary Guard and the president's office.

Mr. Gan, the Huawei spokesman, said: "We provide Zaeim with commercial public use products and services." Zaeim didn't respond to requests for comment.

HONORING THE U.S. ARMY CORPS
OF ENGINEERS BALTIMORE DISTRICT

HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. RUPPERSBERGER. Mr. Speaker, I rise before you today to honor the U.S. Army Corps of Engineers, Baltimore District, on the successful completion of a record military construction and Base Realignment and Closure mission. The Baltimore District worked on this complex mission for six years in the State of Maryland and throughout the mid-Atlantic region.

In 2005, the U.S. Department of Defense was given the difficult task to reorganize itself to more efficiently and effectively support our forces, increase operational readiness and facilitate new ways of doing business. The Baltimore District was tasked with managing more than \$4.2 billion in construction projects—more than any other in the Nation.

Their work has provided our service members, their families and our civilian workforce with cutting-edge facilities that will allow the Department of Defense to continue its mission of protecting our Nation for years to come. These include the U.S. Army Test and Evaluation Command at Aberdeen Proving Ground and the Defense Information Systems Agency Headquarters at Fort Meade, among others. I am proud to welcome these distinguished agencies to the State of Maryland.

The Baltimore District's work extends beyond Maryland's boundaries. In Pennsylvania, the Defense Distribution Depot Susquehanna, Letterkenny Army Depot and Tobyhanna Army Depot are now better prepared to meet the needs of our service members. Fort Belvoir in Virginia has expanded exponentially and is now home to the National Geospatial-Intelligence Agency, the U.S. Army Legal Services Agency and the Northern Regional Medical Command. Their new proximity to Washington, D.C. is critical for the continued security of our Nation.

The Baltimore District also contributed significantly to the economic stability of the region when we needed it most. The mission was executed with the help of many small businesses, including some owned by veterans, and created thousands of new jobs.

Mr. Speaker, the Department of Defense set high expectations and aggressive schedules for this round of BRAC and expected them to be met. I applaud the Baltimore District, the North Atlantic Division and the U.S. Army Corps of Engineers for their hard work, dedication, and persistence. I ask that you join me in thanking them for their excellent construction, design and engineering services.

COMMEMORATING WORLD STROKE
DAY

HON. VIRGINIA FOXX

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Ms. FOXX. Mr. Speaker, I rise today to commemorate World Stroke Day and to help increase awareness of stroke, stroke preven-

tion and the challenges faced by stroke survivors and their families. Although I was unable to mark this day when it occurred last month, it is an important cause that is worth recognizing.

A stroke is a brain attack. It occurs when a blood clot blocks an artery, or a blood vessel breaks, interrupting blood flow to an area of the brain. While most strokes occur in older adults, it's a myth that strokes only occur in this population—anyone can have a stroke. Risk factors include high blood pressure, irregular heartbeat, smoking, high cholesterol, diabetes, lack of regular exercise and poor diet. Family history of stroke is also a risk factor.

The state of North Carolina is part of the “Stroke Belt” where death rates due to stroke are consistently more than 10 percent higher than in other parts of the country. The higher mortality rate may be linked to a higher than average population of African Americans and elderly residents, who are more likely to have a stroke than other ethnicities and age groups, as well as dietary factors.

In the United States, about 795,000 people will have a stroke this year, averaging one every 40 seconds. While stroke kills 137,000 people and is the fourth leading cause of death, there are seven million adult stroke survivors in the United States. Stroke is also a leading cause of serious, long-term disability. Although between 50 and 70 percent of stroke survivors regain functional independence, many survivors require the support of a caregiver or have difficulties returning to work.

The estimated direct and indirect cost of stroke was \$73.7 billion in 2010. While these statistics by themselves are startling, the impact of stroke goes beyond my district/State or even our Nation. Stroke is a global health crisis that kills one person worldwide every six seconds—that's six million people annually. If nothing is done, the predicted number of people who will die from stroke will increase to almost seven million each year by 2015.

The goal of World Stroke Day is to bring attention to the risk factors and warning signs of stroke as well as to honor those living with the impacts of stroke around the world. I urge my colleagues and constituents to know their stroke risk and learn the warning signs. Stand with me today in support of the seven million stroke survivors, their caregivers and families and the rest of the stroke community around the globe to do our part to reduce the impact of stroke in the future.

RECOGNIZING MAYOR JEFFREY
SLAVIN, 2011 COMMUNITY FOUNDATION
FOR MONTGOMERY
COUNTY'S PHILANTHROPIST OF
THE YEAR

HON. GWEN MOORE

Ms. MOORE. Mr. Speaker, I rise to pay tribute to Mayor Jeffrey Slavin on being named the Community Foundation for Montgomery County's Philanthropist of the Year.

Mayor Slavin is among the most generous people I have ever met. He donates his time, his money, and his tremendous wisdom to others on a daily basis. Mayor Slavin's persistent dedication to the needs of the underserved in his community, in addition to his invaluable role supporting dozens of non-profit

organizations and service on the boards of many charitable organizations have made him such an incredible asset to Montgomery County, the State of Maryland and the nation as a whole. It is with great honor and privilege that I congratulate Mayor Jeffrey Slavin for his work as a public servant and philanthropist.

**SUPPORT FOR STROKE SURVIVORS
AND CAREGIVERS**

HON. CAROLYN MCCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mrs. MCCARTHY of New York. Mr. Speaker, I rise today in support for stroke survivors and caregivers. Although World Stroke Day has passed, support for stroke victims and caregivers must never end. As a long-time nurse, I have seen first-hand the effects of debilitating diseases. I understand the hard work and dedication of many of our caregivers in helping these victims get back to health.

Awareness is integral in reducing the occurrence of a stroke. According to the American Stroke Association, one in every six people worldwide is expected to die from a stroke. This disease is also the number three cause of death in United States. These numbers are alarming, and I believe Congress must do all that it can to raise awareness and provide policies to address the needs of stroke victims.

Last Congress, the Democratic House passed H.R. 1032, the Heart Disease Education, Analysis Research, and Treatment for Women Act, which would have required the Secretary of Health and Human Services to report on the quality of and access to care for women affected by a stroke. In this report, the HHS Secretary would have been required to include guidance on reducing these disparities in improving treatment for women suffering from a stroke. While this legislation did not become law, I hope Congress can continue in its efforts to reduce the occurrence of and effects of a stroke.

I ask my colleagues to join me in support of stroke survivors and their caregivers. Congress must continue to fight for research and quality healthcare, so that all Americans affected by a stroke can live healthy, productive lives.

IN HONOR OF STEPHEN JEROME

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. ENGEL. Mr. Speaker, this year marks the 45th year of Mr. Stephen Jerome's work as president of Monroe College, who has given four and a half decades to providing service to the faculty, staff, and students. Mr. Jerome's efforts have been truly outstanding. Because of his work, Monroe has become a regionally-accredited college that provides a core value of unmatched personal and professional service to more than ten thousand students. He achieves this by providing an environment that solidifies the fullest potential of each student.

As President, Mr. Jerome has fostered many new applications to the university. These new programs include the introduction of the college's championship-caliber athletic programs and a unique foundation that can only be described as an excellent work environment; this has led to the college becoming the number one provider of undergraduate degrees to minority students in New York State. As well as supporting award-winning student academic organizations, Mr. Jerome is thoroughly involved in the community. He has helped to provide lighting, security, street cleaning, and holiday parties for children. Mr. Jerome also provides entrepreneurial assistance to the local neighborhood residents and businesses. In accordance with his community efforts, Mr. Jerome has offered college-level classes at the high school level, through the Jumpstart program, to encourage young students to attend college.

Even as the active President of Monroe College, Mr. Jerome continues to assume many leadership roles. He is currently the President of the New York State Association of Proprietary Colleges and has held this position for over two decades. He also holds a position as a Trustee of the Bronx Chamber of Commerce. TRIBUTE TO JOE FRAZIER

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. CLYBURN. Mr. Speaker, I rise today to pay tribute to a notable South Carolinian, who rose from humble beginnings to make an indelible mark on the world. Smokin' Joe—Joe Frazier—passed from this life on November 7, 2011, but his legacy lives on through his extraordinary achievements in the boxing ring.

Joe Frazier was born to sharecroppers in Beaufort, South Carolina, on June 22, 1944. He was one of 13 children, who never had "a little-boy life." He grew up helping his father chop wood. His father had lost his left arm after being shot as a young man, and Joe always took the left handle on a two-handed saw, which he attributes to helping him build his devastating left hook.

Most people know of Joe Frazier's athletic accomplishments as America's first gold-medal winning boxer and his thrilling defeat of Muhammad Ali in March 1971. It was what occurred on April 7, 1971, that provided me my greatest memory of the boxing legend.

At the time, I was the first African American to hold an advisory position with a sitting South Carolina governor. Governor John West hired me in January 1971 and just three months later, the governor and the South Carolina Legislature invited Joe Frazier, fresh off his defeat of Ali, to come speak to the South Carolina General Assembly.

This was a remarkable occasion. In January 1971, the first three African Americans since Reconstruction were sworn in as members of the South Carolina House of Representatives. Desegregation was just beginning to take hold in many public schools in the state. And the South Carolina Human Affairs Commission had not yet been established to eliminate and prevent unlawful discrimination.

Joe Frazier was the first African American since Reconstruction to receive an invitation to speak to the South Carolina General Assembly. As World Heavyweight Champion, he could have easily declined the opportunity. Instead, he chose to embrace it. He used the opportunity to try and build bridges and encourage race relations.

In his remarks, Smokin' Joe said our country could get beyond our racial problems if blacks and whites would "play together, work together and pray together." He went on to say, "We must save our people, and when I say 'our people' I mean white and black. We need to quit thinking about who drives the fanciest car or who is my little daughter going to play with, who is she going to sit next to in school. We don't have time for that." His 10-year-old daughter then stole the show by exclaiming, "Float like a butterfly, sting like a bee. My daddy is the one who whipped Muhammad Ali."

But Joe Frazier's most poignant comments were when he talked about attaining his dreams. "I am here today as a young man whose boyhood dream was realized when I won the heavyweight championship of the world." That was proof he said "you can do

anything you want to do if you really put your heart and soul and mind into it."

That young man with his dream fulfilled used that same trip back to South Carolina to purchase his mother, Dolly Frazier, a new home to fulfill one of her dreams. He moved his widowed mother and his sisters, who remained at home, into what became known as the Frazier Plantation near Yemassee, South Carolina. This was a far cry from the small home he grew up in without indoor plumbing and holes in the roof.

I had the great fortune of visiting and dining with Joe, his mother and sisters in the new Frazier homestead. They were great supporters of my political endeavors, and they remained salt-of-the-earth people despite the success of the youngest Frazier son.

Joe Frazier died at the age of 67 in his adopted home of Philadelphia, Pennsylvania. He, like so many other young African Americans born in the segregated South, left to find better opportunities in the world. In doing so, Smokin' Joe made the world a better place.

Mr. Speaker, I ask you and my colleagues to join me in celebrating the remarkable life of Joe Frazier. He will always represent the extraordinary combination of talent and tenacity. He was blessed with tremendous determination and a mental toughness that served him well as a boxer and outstanding human being. He served as an inspiration to so many, and that is a true sign of a life well lived.

HONORING RON GASTIA FOR HIS SERVICE TO THE PEOPLE OF BANGOR, ME

HON. MICHAEL H. MICHAUD

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. MICHAUD. Mr. Speaker, I rise today to recognize Bangor Police Chief Ron Gastia for his remarkable leadership in raising awareness on the bath salts crisis that is currently sweeping through the nation.

Chief Gastia has been a trusted and effective member of Maine law enforcement for nearly three decades. Since becoming chief of Bangor PD in 2007, Ron has gone above and beyond to make the city safer for its residents. In particular, his exemplary response to the sudden emergence of the synthetic drug known as "bath salts" illustrates the impressive scope of his leadership.

In the last year, Bangor and several surrounding areas have been flooded with a synthetic hallucinogenic stimulant known as "bath salts." Although largely unknown a year ago, bath salts have become one of the preeminent health and safety issues in Maine. The reported incidents involving this highly dangerous drug have skyrocketed in recent months, reaching epidemic levels in Maine and throughout the country.

Chief Gastia's efforts to raise awareness about this crisis have been remarkable. In addition to being vocal in the media, he was instrumental in working with state legislators to criminalize the drug in Maine. Further, on October 20, 2011 Chief Gastia briefed me, the Office of National Drug Control Policy Deputy Director Benjamin Tucker and an assembled body of federal law enforcement officials on

Bangor's experience with bath salts. His testimony will be a valuable resource as drug enforcement agencies develop comprehensive strategies to address the emergency of synthetic drugs like bath salts.

While much work still needs to be done to address the threat of bath salts, I know that the Bangor community and the State of Maine are fortunate to have Chief Gastia on watch. I wish him and the Bangor Police Department the best of luck as we continue to tackle this important problem.

Mr. Speaker, I ask you to join me in thanking Chief Ron Gastia for his tremendous service to the people of the City of Bangor and the State of Maine.

THE PASSING OF "MR. WINCHESTER," BEN DUTTON

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. WOLF. Mr. Speaker, I share with the House today the sad news of the passing of iconic Winchester, Virginia, native, Benjamin Dutton, Jr., 86. Known as "Mr. Winchester," Ben died November 9 at his home with his wife Jean, fondly called "Whip," at his side.

A man of honor and the highest moral character, Ben was one of the finest Virginia gentlemen that I have ever known.

After Whip and their three daughters and their families, Ben's lifelong love was Winchester and especially the annual Shenandoah Apple Blossom Festival. He was one of the festival's longest serving contributors, holding positions of executive director, president, and board member. Ben continued to be involved in "the Bloom" up until his passing.

The son of the late Dr. Benjamin and Ann Dutton, Ben attended Winchester public schools, graduating from Handley High School in 1943. He served his country in the U.S. Army infantry from 1943–46 and afterward attended the University of Virginia in Charlottesville, receiving an A.B. degree in 1950. After college, he began a career in the insurance industry, serving as an agent in Louisiana and Roanoke, Virginia, from 1951–63. But the tug of his native city brought him back to Winchester in 1963 and he became associated with J.V. Arthur Inc. as a vice president and partner, retiring from there in 1987.

Never one to sit idly, Ben soon found a second career as a public servant. He first served as the field representative in the Winchester office of our former colleague, the late D. French Slaughter Jr., who represented Winchester and Frederick and Clarke counties until 1991 when the area was part of the 7th Congressional District, and later served in the same position for George Allen, who succeeded Congressman Slaughter for a year before his successful election as governor of Virginia. When redistricting in 1992 brought that area of Virginia into the 10th District, I was proud that Ben became a member of my constituent services staff in my Winchester office, serving for 15 years until his retirement in 2010.

Ben was a "people" person. When you met Ben, you became his friend for life. He had a warm and infectious smile and always made time for anyone who crossed his path. His foremost motivation in life was helping people and thousands of residents of Winchester and the surrounding area can attest to his servant's heart.

Ben also was a "doer." He was involved throughout his long life in city government and numerous civic and community organizations. Among his citations of public recognition were the Outstanding Citizen Award from the Winchester-Frederick County Chamber of Commerce and the President's Award for Community Service from Shenandoah University. I will submit for the RECORD, Ben's obituary from the Winchester Star, which includes greater detail on Ben's illustrious life.

Ben truly fulfilled in his life the biblical praise: "Well done, good and faithful servant." We are all better for having had the honor of knowing Ben and calling him our friend.

To Whip, his wife of 59 years, and their daughters Fay, Virginia, and Whipple, and their families, I express on behalf of the people of the 10th District our heartfelt sympathy and also our gratitude to you for sharing Ben with us.

IN RECOGNITION OF CHAPLAIN DALE GOETZ

HON. DOUG LAMBORN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. LAMBORN. Mr. Speaker, I rise today to pay tribute to a fallen American hero—Army Chaplain Dale Allen Goetz. Goetz is the first Army clergyman killed in action since the Vietnam War. Goetz was killed a year ago while serving his country in Afghanistan.

On August 30, 2010, Goetz was riding with a resupply convoy when the enemy attacked with an improvised explosive device near the Arghandab River Valley.

Four of his fellow soldiers from Fort Carson died with him in that attack.

Army Chaplains are considered noncombatants and do not carry weapons. Chaplains do not go on combat patrol, but do go onto battlefields to conduct services and counsel soldiers.

Goetz was serving with the 1st Battalion, 66th Armor Regiment, 1st Brigade Combat Team with the 4th Infantry Division of Fort Carson, Colorado.

Goetz grew up in Hood River, Oregon. His first job after high school was working at an old-fashioned dairy where he processed milk and sold ice cream cones at a drive-up window. A year before graduating from high school, Goetz became a Christian. After graduating, he joined the Air Force then attended Maranatha Baptist Bible College. He later earned his Master of Divinity at Central Baptist Theological Seminary. Goetz moved to White, South Dakota where he was pastor before joining the Army to serve our soldiers.

Goetz served his country for nearly 11 years before he was killed. It was his third deployment.

Goetz, who was 43-years old, left behind his wife, Christy, and their three young boys. He is also survived by his mother, Hope, and his sisters, Kim Sumner and Ann Senetar.

In paying tribute to Chaplain Goetz, I would like to enter into the CONGRESSIONAL RECORD a short poem written by a longtime Capitol Tour Guide Bert Caswell.

THE FAITH OF HIS FATHER IN HONOR OF A
FALLEN HERO CHAPLAIN CAPTAIN DALE
GOETZ THE LORD AND THE UNITED STATES
ARMY

Goodness!

Evil!

Darkness!

Light!

Those brave hearts who evil must fight!

Who bring their light!

All in the darkness of war. . . .

Unarmed. . . .

There are but all of those on battlefields of
honor,

Chaplains who so ensure. . . .

The Faith of our Father. . . .

Who but bring our Lord's light!

The Faith of Our Father, to help souls to en-
dure. . . .

Armed, with but only Bible in hand. . . .

As it was there midst of such evil, Dale, you
were to so stand!

Bringing hope and so comfort, to woman and man. . . .
 In the darkest of all places. . . .
 While, at death's door they'd so stand!
 Giving them the strength to so pray. . . .
 Offering your hand, while reaching out on each day. . . .
 As from out of that darkness, the light you so gave!
 Something, far much more precious than what of gold is so made!
 To so find the right words, as you were so heard. . . .in the sacred moments of death. . . .
 Giving such strength to all of their hearts to so bless. . . .
 For War is Hell, and Hell is War!
 And for all your sons, all of the ones. . . . you cared for so deep. . . .
 As upon each day, all in their beautiful faces. . . .to you will so speak!
 And to your fine wife, who has suffered the greatest lost of her life. . . .
 We pray to our Lord to let her find peace!
 It's for you now, Dale, the Angels up in heaven now so weep!
 And to his family, somehow so find the strength. . . .
 All in what his fine life has meant!
 As now we they lay your fine body, Dale, down to sleep. . . .
 As into this soft cold dark quiet ground, Dale, so deep. . . .
 As, it was you, Dale, our Lord's son. . . .
 Who to Him, your promises did so keep!
 As a new Angel up in Heaven, one day again you'll meet!
 To watch over us now as we so sleep!
 With The Faith of His Father So Very Deep!
 Amen!

COMMENDING THE ACHIEVEMENTS
 OF ALBERT BIERSTADT AND
 SANFORD ROBINSON GIFFORD

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
 IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Ms. NORTON. Mr. Speaker, I rise today to ask the House of Representatives to commend the achievements of two 19th century Hudson River School painters, Albert Bierstadt and Sanford Robinson Gifford. Two of Albert Bierstadt's paintings are currently displayed in the Capitol Visitor Center, "Discovery of the Hudson River" and "Entrance into Monterey." The paintings were part of the first American school of painting, the Hudson River School, which focused on accurately capturing nature and a close attention to detail as a new style of romantic landscapes became popular.

A fellow Hudson River School painter, Sanford Robinson Gifford, used the District of Columbia as a backdrop in many paintings about the Civil War, including "Sunday Morning at Camp Cameron," which depicts soldiers listening to a Sunday sermon on the grassy hills of an area in the Northwest part of the city now known as Meridian Hill Park. Gifford, who traveled to Europe, the Middle East, and North Africa seeking new sources of inspiration, was known particularly for his use of indistinct light, which sometimes masked the landscape and was achieved through tiny, delicate brushstrokes, a characteristic of the Hudson River School.

As we recognize the 150th anniversary of the start of the Civil War, I ask the House of Representatives to commend the achieve-

ments of Albert Bierstadt and Sanford Robinson Gifford, and the impact and legacy of the Hudson River School.

RECOGNIZING THE 10TH ANNIVERSARY OF HONDA MANUFACTURING OF ALABAMA

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. ROGERS of Alabama. Mr. Speaker, I respectfully request the House's attention today to help congratulate Honda Manufacturing of Alabama on its 10th anniversary as an economic engine and community partner in Lincoln, Alabama.

Ten years ago, on November 14, 2001, Honda Manufacturing of Alabama (HMA) started production of the first customer-ready Odyssey minivans and V-6 engines at its new plant in Lincoln. Today, the plant is Honda Motor Co.'s largest global light truck production source, with the capacity to produce more than 300,000 vehicles and engines each year. Its 3.5 million square foot manufacturing facility represents a capital investment of more than \$2 billion.

In the midst of challenging economic times, HMA has provided a stable work environment for many people across the 3rd Congressional District and surrounding region. HMA employs more than 4,000 associates and recently announced plans to hire an additional 50 workers in manufacturing, engineering, purchasing and production management positions. Along with its 35 suppliers, HMA is responsible for more than 45,000 direct and indirect jobs in Alabama. Annually, Honda purchases more than \$2 billion in goods and services from suppliers and businesses located in the state.

Honda's flexible manufacturing system allows the Lincoln facility to produce multiple models on the same assembly line, including Odyssey minivans, Pilot sport utility vehicles and Ridgeline pickup trucks. The plant will also begin manufacturing the Acura MDX sport utility vehicle in 2013, making it the first Acura product built by Alabama associates.

HMA is also a generous community partner and good neighbor. Over the last decade, HMA philanthropic contributions to Alabama charities, community and civic groups have totaled more than \$7 million. Just this year, HMA associates committed both time and money to support local tornado relief efforts, in addition to Honda's corporate commitment of \$150,000.

Mr. Speaker, I ask that my colleagues join me today in recognizing Honda Manufacturing of Alabama on its 10th anniversary. HMA has been a dedicated partner to the citizens of Alabama in strengthening the relationships with the communities where its associates live and work. I am proud to congratulate them on their first ten years in our community, and wish them well in the coming decades.

CONGRATULATIONS TO
 STANISLAUS FOOD PRODUCTS

HON. JEFF DENHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. DEHNAM. Mr. Speaker, I rise today to recognize and congratulate Stanislaus Food Products and the Cortopassi Family who were inducted as Stanislaus County Ag Hall of Fame "Legends in Agriculture" during a ceremony in Modesto, California on November 10, 2011.

Stanislaus Food Products employs about 160 people year-round and nearly 1,400 during the peak of packing each summer. It was founded in 1942 by the Quartaroli family, which sold it to the Piciullo family in 1969. The Cortopassi family bought it in 1978.

The son and grandson of Italian immigrants, Dean Cortopassi was born in 1937. Even though his family worked hard, he remembers plenty of laughter in their home. For the first 10 years of Cortopassi's life, the family lived on a farm. In 1947, they moved to a working-class Italian neighborhood, and Cortopassi's father commuted to their farm on the outskirts of town. "In my community everyone was focused on 'getting ahead' to achieve a better life. It was a very insular community that was strong on values and family honor. My parents concentrated on work and 'getting ahead.' They would constantly say 'go to school, get a good job, and have a good life.' They both saw farming as a tough way to make a living and they didn't want that for their children, but it was all I ever wanted to do."

As a youngster, Cortopassi clearly remembers playing farmer in his sandbox with toy wooden tractors his father had made for him. "My father was a hero for me," he says, "and I think that's why I loved farming so much." Cortopassi began working on the farm when he was 10, driving a grain truck from field to bin, and when he was 12, graduated to the top tractor job on the farm: pulling the grain harvester.

Cortopassi attended a one-room schoolhouse during his first three years and was skipped ahead one grade when the family moved to town. In his last semester of high school, Cortopassi contracted rheumatic fever, which left him with a damaged heart valve and a prohibition against physical activity. He attended junior college for two semesters, trying to catch up with friends away at college, but quit school to work full time as a commercial/truck driver. Within six months his high-energy work habits resulted in a mild heart attack and complete prohibition from any physical labor for two years.

Having few options, Cortopassi enrolled in a two-year agriculture course at the University of California-Davis, graduating in 1958. He joined the Pillsbury Company as a grain buyer/trader, and at the same time he and his younger brother began farming 65 rented acres with rented equipment. By 1961, the brothers were into full-time farming, followed by years of both adversities and success. Twenty years later, Cortopassi Farms included 10,000 acres.

By 1968, Cortopassi had achieved his dream of farming on a large scale, but felt limited by farming's strategic limitations, so he went into partnership with another farmer and bought a small Los Angeles-based food specialties company that sold its products through

the supermarket channel. Ten years later, the partners sold the specialties company and raised a larger partnership to buy a tomato processing company, Stanislaus Food Products (SFP), which became Cortopassi's primary endeavor as he began scaling down farming activities.

Following a poor farming year in 1982, his partner elected to sell his SFP stock ownership, which Cortopassi bought with borrowed bank debt. In 1986, he re-mortgaged his entire SFP ownership to buy out all remaining shareholders. Over the past 25 years, SFP has become the largest "fresh-pack" cannery in the world, and is the market-share leader of tomato products for Italian restaurants/pizzerias throughout the United States and Canada.

Cortopassi currently serves as CEO of San Tomo Group, and in that position provides "coaching" to younger presidents of agribusiness entities in which his family are shareholders, including Stanislaus Food Products, Cortopassi Partners, Cocoa Farms, Lodi Farming Company, and Del Rio Partners.

When asked how he defines success, Cortopassi says, "It's constantly striving to perform at maximum potential without compromising personal values. It's about my word, my family, and my honor. I always remember a metaphor from the Greek classics about Plato's ring. Plato told his students that to know your own morality, imagine slipping on a magic ring that made you invisible and therefore able to do bad deeds without anyone ever knowing. If you had such a ring, how would you behave? The answer to that question is the definition of your morality."

Cortopassi advises young people to choose a line of work they can be passionate about, and then to seek work from the best company in that industry. "When you go to work for the best doing something you like, you're earning double pay because in addition to salary you're learning keys to success."

Outside of his family and business, Cortopassi is passionate about America. He says, "I'm glad for my Italian roots, but I'm proud to be an American. My parents were particularly passionate about their American citizenship and are a living example of moving from meager circumstances in Italy and through determination and hard work achiev-

ing a better life in America. I believe in free enterprise and I want our country to continue providing 'getting ahead' opportunities for entrepreneurs."

The company stresses quality in the products, whether it's sauce for a pizza or tomato strips with the trademarked name Filets. "We only pack in the 70 days when the tomatoes are vine-ripe," Executive Vice President Bill Butler said. "We do not remanufacture from paste."

The products are sold under several labels, such as Alta Cucina, Saporito, Full Red and 7/11. These are not household names, and the company is fine with that. The growth in demand has slowed since the boom in Italian cuisine from the 1970s to 1990s, but the market remains strong. The products are widely distributed in the United States and Canada. The company works with growers to assure tomatoes with the right traits. It cooks the sealed cans for as short a time as possible, in the belief that overcooking impairs the flavor.

Stanislaus is part of a processing tomato industry that remains fairly strong in California, thanks to ideal growing conditions and the demand for pasta sauce, ketchup, salsa and other products. And food processing in general has kept people at work amid the economic slump.

Mr. Speaker, please join me in praising Stanislaus Food Products and the Cortopassi Family for their significant contributions to agriculture and to the people of the local community.

IN RECOGNITION OF THE HUMANITARIAN CONTRIBUTIONS OF CHARLES L. PERKINS SR.

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 14, 2011

Mr. CONNOLLY of Virginia. Mr. Speaker, I rise today to commend Charles L. Perkins, Sr. for his selfless dedication and commitment to our community. Charlie was recently honored by Youth for Tomorrow for his humanitarian

activities, specifically his actions in providing food, clothing, and financial support to assist those in need in Northern Virginia.

I have had the privilege of personally knowing Charlie and his wife, Marian, for many years. Throughout this time, I have been struck by Charlie's persistent efforts to improve the lives of those in our community. Charlie, both personally and through his charitable trust foundation, has supported numerous organizations including Youth for Tomorrow, Homestretch, Legal Services of Northern Virginia, Special Olympics, as well as religious organizations that provide a path to escape gang violence and feed the hungry.

In addition to the many contributions to community non-profits, Charlie and his foundation provide assistance to individuals who have experienced financial hardships due to illness, unemployment or monetary shortages. Always looking ahead to build a better life for the next generation, the foundation also provides college tuition assistance. Charlie's mission is brilliant in its simplicity—to help those in need and enhance the dignity and quality of life of individuals, families, and communities by seeking out those in need. Charlie has more than accomplished this mission, and he has previously received the Lions of Virginia Distinguished Humanitarian Award and was named the Jobs for Virginia Graduates "Man of the Decade".

Through his own hard work and perseverance, Charlie rose from humble beginnings to become a highly successful business owner; however, he never rested on his many accomplishments and he always sought to give back to the community with great fervor, but little fanfare. In fact, Charlie eschews personal recognition, and it is only through the insistence of others that his many noble efforts receive the accolades they so richly deserve.

Mr. Speaker, I ask that my colleagues rise to join me in recognizing Charles L. Perkins, Sr. and in thanking him for his steadfast support of those in need within our community. I personally feel blessed to call Charlie a friend, and extend to him my deepest appreciation and respect.
