# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### Introduction

Led by Congresswoman Frederica Wilson and Senator Eleanor Sobel, the creation of the Congressional Consortium for Safe Seniors was prompted by last year's tragedy when a nursing home in Hollywood, Florida lost power during Hurricane Irma, resulting in the loss of fourteen residents. It was created for the purpose of assessing the preparedness of licensed facilities for seniors during disasters, and charged with developing guidelines and gathering other information which might be helpful in strengthening standards and compliance of these facilities to ensure the health, safety, and wellbeing of our seniors are not compromised during these periods. This educational and informative manual reflects the efforts of the Consortium and is intended to serve as a guide to improve our emergency preparedness and response to disasters.

Meetings and activities worthy of note, reflecting the work of the Consortium include:

| <u>DATE</u> | <u>MEETING</u>   | <u>LOCATION</u>                         |
|-------------|--|---|
| 9.19.17     | Press Conference   | North Miami Beach Chamber of Commerce   |
| 10.19.17    | Congressional Field Hearing                                | Miami Dade Community College            |
| 1.25.18     | Meeting with Community Stakeholders                        | Miami Jewish Health System              |
| 3.14.18     | Convening of Advocacy & Outreach Task Force                | FAU Davie Campus                        |
| 4.18.18     | Congressional Workshop with AHCA                           | Hollywood Beach Community Center        |
| 5.31.18     | Congressional Workshop<br>(Emergency Shelter Preparedness) | West Park City Hall                     |
| 7.23.18     | Planning Meeting to Review Draft Manual                    | Congresswoman Wilson's Hollywood Office |

Task forces established with specific goals to support the overall purpose of the Consortium included: Advocacy and Outreach, First Responders, Mayors/Government, Recovery, Utilities/Energy, Long Term Care Facilities, Hospitals/Healthcare, and Legislative.

Participants of the Advocacy and Outreach Task Force were pleased to take the lead in the development of this Emergency Preparedness and Disaster Response Guide for the benefit of our Assisted Living Facilities, Nursing Homes, and other constituents. The guide includes several worksheets that may be helpful. Thanks to the Palm Beach County Division of Emergency Management, worksheets regarding energy resiliency are included which are easily adoptable by any licensed Assisted Living Facility and Nursing Home. Additionally, forms for case managers and others involved in home care are included for use however they may prove helpful.

The work of the Consortium reflects the outstanding collaboration of many agencies and experts working together for common good and purpose, with the overarching goal of providing guidance and support during disasters to those entrusted with the care of one of our most vulnerable populations--our seniors.

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### State Compliance Standards

After Hurricane Irma in 2017, new Emergency Power Plan (EPP) Rules were implemented in 2018.

Emergency rules are usually temporary, as they bypass the normal rulemaking process. The EPP allowed waivers for implementation, *but all of these expired with the ending of the rules.*

The EPP was considered a stand alone plan from the Comprehensive Emergency Management Plan (CEMP). The 2018 legislative session introduced permanent rules to replace the emergency order. This is called the Emergency Environmental Control Plan (EECP).

These 2018 rules supersede the temporary emergency rules; The Florida Legislature passed permanent rules on March 26<sup>th</sup> which went into effect on April 25<sup>th</sup>.

Implementation guidance was provided on April 18<sup>th</sup> and now, once approved, the the EECP will becomes part of the CEMP, once approved.

This 2018 Guide is an introduction to the new Emergency Environmental Control Plan and will hopefully assist you to become compliant with:

**Florida Administrative Code: 27P-20.003, 58A-6.011, 59A-5.018, 59A-3.078, 65B-6, 59A-4.1265, 58A-5.036**

**Florida Statutes: §252.38, §393.067, §395.1055, §400.967, §400.23, §429.929, §429.41**

NOTE: Per AHCA: for ALFs and SNFs/Nursing Homes, plans previously approved under the Emergency Rules published in September, 2017 do not require resubmission unless changes occur.

Any changes to the plan require submission. *To aid in your compliance pursuit, we have included in the next four pages the Agency for Healthcare Administration's Q&A for Nursing Home Rule 59A-4.1265, F.A.C. and Assisted Living Facility Rule 58A-5.036, F.A.C. (dated April 20, 2018) - SOURCE: AHCA*

## NURSING HOME RULE 59A-4.1265, F.A.C. AND ASSISTED LIVING FACILITY RULE 58A-5.036, F.A.C.

### Questions and Answers – April 20, 2018

Please refer to the rules for specific requirements and compliance matters. These Q&As are provided in response to questions and intended to assist facilities with compliance with these important resident protections.

#### Power Source

**Question 1:** The generator requirement seems to be aimed at providing adequate cooling. Are there requirements for lighting and or operational items such as kitchens and laundry areas?

**Answer:** The intent of the rule is to provide adequate cooling and other services necessary to ensure the health, safety, welfare, and comfort of the residents. Life safety and critical systems must be designed to remain operational while the building is occupied. If the governing body determines that additional equipment is necessary to provide for the health, safety, welfare, and comfort of the residents, the alternate power source must be designed to accommodate these loads as well.

**Question 2:** Who approves the electrical (mechanical) information regarding generator or cooling source installation?

**Answer:** Nursing home building and fire safety requirements are regulated by AHCA, so information must be submitted to the AHCA Office of Plans and Construction for review and approval. Assisted living facility building and fire safety requirements are regulated by the local authority having jurisdiction, so information must be submitted to the appropriate local authority for approval – generally building code or fire department officials.

**Question 3:** The rule does not state that the generator(s) needs to run HVAC systems to cool. Are spot coolers considered in the rule?

**Answer:** The rule does not specify the method of cooling required to allow flexibility for each provider to determine the most appropriate equipment to meet their facility needs. These details should be specified in the plan submitted for review and approval.

As an aside, we have heard of issues with portable chillers being used. Remember that portable chillers must be vented to an outside source to prevent forcing the heat exhaust back into the facility. Bottom line – if a facility is using portable chillers, plan in advance for a means of exhaust. Providers should obtain the manufacturer's instructions in advance to ensure they are prepared when the time comes for their use.

**Question 4:** What load should be used to calculate generator run time on, rated load, calculated load or actual load?

**Answer:** The actual demand load is to be used to calculate the amount of fuel needed to operate the generator for the 96 hours specified by the rules.

## 2018-2019

### NURSING HOME RULE 59A-4.1265, F.A.C. AND ASSISTED LIVING FACILITY RULE 58A-5.036, F.A.C. QUESTIONS AND ANSWERS – APRIL 20, 2018 , CONTINUED...

#### Climate Controlled Space

**Question 5:** What is meant by net square feet per resident?

**Answer:** Net square feet refers to occupiable space where temperatures are maintained in accordance with the rule, excluding accessory areas such as stairs, closets, restrooms, and mechanical rooms.

**Question 6:** In square foot space requirements do you need to include space for egress in the calculations?

**Answer:** The areas must conform with life safety requirements. This includes providing the required number of exits from the area, the required exit widths, and the required width of exit access (aisles) formed by furniture. It is not necessary to deduct area for the purpose of providing the required exit access (aisles), but the plan should demonstrate the ability to arrange furniture in a manner that provides code compliant egress.

**Question 7:** If a nursing home is on a campus with an assisted living facility (under common ownership), and their plan is to move the nursing home residents to a shared space in the assisted living facility, is the ALF space required to meet all code requirements applicable to SNF (FBC Section 450)?

**Answer:** Although the space does not have to be modified to meet different building code requirements, nursing home residents must have no less than 30 net square feet per resident. At all times, the health, safety, welfare, and comfort of the residents, must be maintained as required by this rule in all areas of the building where nursing home residents are relocated.

**Question 8:** For the purposes of sharing resources, what would be considered a single campus under common ownership?

**Answer:** This provision relates to facilities located on a single campus (property that is adjacent or connected) who have common ownership (the licensed entity has common ownership).

#### Fuel

**Question 9:** In order to meet the 96 hour fuel provision can the requirement be through an added above ground tank?

**Answer:** The rule does not require a specific fuel storage method to allow flexibility for each provider to determine the most appropriate method to meet their facility needs. These details should be specified in the plan submitted for review and approval.

**Question 10:** Ninety-six hours of fuel must be secured once a state of emergency has been declared and the facility's primary power delivery may be impacted. What is the trigger for determining an event that may impact primary power? At what point does the ALF have to acquire the additional fuel to equal 96 hours?

**Answer:** Depending on the specific situation that results in a declared state of emergency, the facility administration must reasonably determine if such a situation may potentially impact the facility's primary power. The expectation would be that facilities acquire the additional fuel once a state of emergency has been declared.

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

**Question 11:** What is meant by the phrase declared state of emergency?

**Answer:** A declared state of emergency refers to a state of emergency declared by executive order or proclamation of the Governor, pursuant to Section 252.36, F.S.

**Question 12:** What is meant by the phrase an event that “may impact primary power delivery”?

**Answer:** The phrase “may impact primary power delivery” is meant to distinguish from emergency events that would not typically be associated with loss of electrical power, such as a chemical spill or active shooter event. (This would be consistent with the potential hazards described in the “Hazard Analysis” section of the facility’s overall CEMP.)

### Emergency Power Plans

**Question 13:** Are there any specific items that the consumer-friendly version of the emergency power plan must have when submitted to AHCA?

**Answer:** The Agency has developed a format for submitting a consumer friendly summary of the emergency power plan, which can be accessed online at [http://ahca.myflorida.com/MCHQ/Emergency\\_Activities/EPP.shtml](http://ahca.myflorida.com/MCHQ/Emergency_Activities/EPP.shtml)

**Question 14:** The rules require that residents or their legal representatives must be notified after final implementation. Please confirm if final implementation is based on the State Fire Marshal review; or once the facility has finalized all their steps and awaiting the State Fire Marshal.

**Answer:** The notice is required upon final implementation of the plan by the facility following review by the State Fire Marshal or the Agency’s Office of Plans and Construction.

**Question 15:** What is the deadline for a nursing home or ALF to submit revisions to a proposed plan after receiving notification from the local emergency management agency that the plan must be revised?

**Answer:** The nursing home rule requires the facility to respond within 10 days to deficiencies noted by the local emergency management agency; the assisted living rule does not include a specific deadline. Assisted living facilities are expected to act promptly to resolve any deficiencies. Efforts must be documented and unnecessary delays by the facility may impact eligibility for an implementation extension beyond June 1, 2018.

**Question 16:** There is no defined review timeline for local emergency management review of plans; however facilities are expected to have generators implemented within 60 days. If all plans received on 45th day – there is very little time for review/comment, particularly if permits are required if it is expected that reviews will be completed within the 60 day implementation period. Is it expected that the plan reviews and approvals be completed prior to implementation?

**Answer:** The rule describes plan reviews and approvals prior to implementation. If implementation is delayed due to regulatory approval processes, the provider may request an extension.

*SOURCE: AHCA WEBSITE: [http://ahca.myflorida.com/mchq/emergency\\_activities/docs/EPPRuleQAs4-20-18.pdf](http://ahca.myflorida.com/mchq/emergency_activities/docs/EPPRuleQAs4-20-18.pdf)*

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### NURSING HOME RULE 59A-4.1265, F.A.C. AND ASSISTED LIVING FACILITY RULE 58A-5.036, F.A.C. QUESTIONS AND ANSWERS – APRIL 20, 2018 , CONTINUED...

**Question 17:** Must the Emergency Power Plan (EPP) be submitted annually after initial approval?

**Answer:** The Emergency Power Plan rules address initial submission of the plan for approval, but clarify that these plans are part of each facility's Comprehensive Emergency Management Plan (CEMP). Therefore, the EPP would be submitted annually hereafter as an addendum to the CEMP whenever the CEMP is submitted for review and approval.

**Question 18:** Is any action required if a facility already meets the requirements of the rule?

**Answer:** Many facilities have already taken steps to protect their residents and are in compliance with this rule. Such facilities must submit their plan in accordance with the rule to confirm compliance and will be acknowledged for their proactive implementation. Plans previously approved under the Emergency Rules published in September, 2017 do not require resubmission unless changes occur. Providers whose plans were previously approved under the emergency rules will need to submit a consumer-friendly summary of the emergency power plan to the Agency. The recommended format for submitting a consumer friendly summary of the emergency power plan can be accessed online at: [http://ahca.myflorida.com/MCHQ/Emergency\\_Activities/EPP.shtml](http://ahca.myflorida.com/MCHQ/Emergency_Activities/EPP.shtml)

#### Facility Policies

**Question 19:** The portion of the written policies describing the procedures for monitoring residents for signs of heat related injury is required to be a part of the emergency environmental control plan submitted to the local emergency management agency when a portion of the building will be cooled. Will these policies be required if the operator elects to provide cooling for the entire facility rather than only a portion?

**Answer:** The rule does not require the written policy if the entire facility is cooled, however, facilities are always required to protect the residents in their care.

**Question 20:** Must the policies and procedures for monitoring heat related injury be submitted with the plans for approval or can they solely be kept at the facility for inspection?

**Answer:** Details that must be included in the Emergency Environmental Control Plan are outlined in Rule 58A-5.036(1), F.A.C. for assisted living facilities and Rule 59A-4.1265(1), F.A.C. for nursing homes. In addition, local emergency management agencies may request additional information in order to demonstrate compliance with these requirements.

#### New Facilities

**Question 21:** For providers seeking a license, plans must be submitted before a license may be granted. Another section of the rule requires facilities to notify residents within 5 business days that the plan has been submitted to the local emergency management agency. Must an applicant for licensure submit a plan prior to being licensed?

**Answer:** Yes, the rule requires new facilities to submit and implement plans prior to licensure.

#### Carbon Monoxide Detectors for Assisted Living Facilities

**Question 22:** What, if any, details are required concerning the carbon monoxide (CO) alarm?

**Answer:** The rule does not provide specific requirements other than the need for all ALFs to

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

have a carbon monoxide detector. For further guidance you may refer to Section 553.885, Florida Statutes, or contact your local authority having jurisdiction. Assisted living facilities must take precautions to assure resident safety at all times.

### Extensions of Deadlines

**Question 23:** How do I find out if a facility is in an evacuation zone?

**Answer:** For planning purposes, the evacuation zones equate to the hurricane evacuation zones identified by each county (typically titled zones A, B, C, D, E and F). Information about county evacuation zones are available at <https://www.floridadisaster.org/info>. Providers can determine if they are in an evacuation zone by clicking on “Know Your Zone” and entering the facility address. (This would be consistent with the potential hazards described in the “Hazard Analysis” section of the facility’s overall CEMP.)

**Question 24:** Should the EPP submitted to the Local EOC address extensions beyond 6/1?

**Answer:** The EPP submitted to the local emergency management agency should include a timeline by which the facility plans to fully implement the emergency power plan.

**Question 25:** Will there be a formal process to have extensions granted? If not, will the Agency be providing guidance as to what they would like to accompany any request for an extension?

**Answer:** Providers may request an extension up to January 1, 2019 and the request can be made in the form of a letter or e-mail. Extension requests must show delays are caused by necessary construction, delivery of ordered equipment, zoning or other regulatory approval processes. The request must demonstrate how arrangements have been made pending full implementation of its plan that provides the residents with an area or areas to congregate that meets the safe indoor air temperature requirements for a minimum of ninety-six (96) hours.

Requests for extension can be submitted via mail or email to the following addresses:

#### Assisted Living Facilities

Assisted Living Unit  
Agency for Health Care Administration  
2727 Mahan Drive, MS #30  
Tallahassee, FL 32308  
ALF\_EmergencyRule@ahca.myflorida.com

#### Nursing Homes

Long Term Care Services Unit  
Agency for Health Care Administration  
2727 Mahan Drive, MS #33  
Tallahassee, FL 32308  
NH\_EmergencyRule@ahca.myflorida.com

Assisted living facilities shall notify the Agency that they will utilize the extension and keep the Agency apprised of progress on a quarterly basis to ensure there are no unnecessary delays. Nursing homes granted an extension must keep the Agency apprised of progress on a monthly basis to ensure there are no unnecessary delays.

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### **NURSING HOME RULE 59A-4.1265, F.A.C. AND ASSISTED LIVING FACILITY RULE 58A-5.036, F.A.C. QUESTIONS AND ANSWERS – APRIL 20, 2018 , CONTINUED...**

**Question 26:** Do I need to file a Section 120.542, F.S. request for waiver or variance in order to receive an extension?

**Answer:** No. A rule waiver or variance request pursuant to Section 120.542, F.S., is not required when requesting an extension. The request can be made in the form of a letter or e-mail.

**Question 27:** Does a delay in approval past June 1, 2018 of the Emergency Environmental Control Plan by the local emergency management agency constitute a delay in a regulatory approval process?

**Answer:** Yes.

**Question 28:** Will AHCA develop a form to fill out or request particular information to be submitted to a specified email address?

**Answer:** Providers must provide details as indicated in the rule specific to their individual circumstances. A form is not required, however, AHCA will provide a suggested format for facilities to utilize.

**Question 29:** Will AHCA develop a form to fill out or request particular information to be submitted to a specified email address for the progress reports?

**Answer:** A form is not required, however, AHCA will provide a suggested format for facilities to utilize.

**Question 30:** At the time of ALF extension notification, will AHCA also require submission of the ALF's arrangements to provide residents with an area(s) to congregate that meets the 81-degree temperature requirement pending full implementation of the plan?

**Answer:** Yes.

### **Legal Waivers and Variances**

**Question 31:** If a facility received a variance or waiver under the Emergency Rules (59AER17-1 or 58AER17-1) published in September, 2017, is the variance or waiver still valid?

**Answer:** No, the emergency rules 59AER17-1 and 58AER17-1 are no longer in effect and have been replaced by the permanent rules 59A-4.1265 and 58A-5.036, F.A.C. The permanent rules allow for extensions of the June 1, 2018 implementation deadline up to January 1, 2019, if certain conditions in the rules are met, without requiring a formal legal variance or waiver.

**Question 32:** The initial extension is in force from June 1, 2018 until January 1, 2019; however, an additional extension may be granted through a variance or waiver if unavoidable delays would cause the facility's implementation date to go beyond January 1, 2019. What is AHCA requiring for the Section 120.542, F.S. waiver/variance? Is AHCA contemplating receiving waiver requests at least 90 days prior to January 1, 2019 (Wednesday, October 3, 2018)?

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

**Answer:** Facilities should not assume requests will be approved and should make every effort to meet the requirements of the rule. Agencies generally have 90 days to grant or deny requests for variances or waivers pursuant to Section 120.542, F.S. Any request to extend an implementation date past January 1, 2019 must be timely filed with the Agency for Health Care Administration 90 days prior to avoid being out of compliance with the requirements of the rule.

### Penalties for Non-Compliance

**Question 33:** What are the penalties for failure to comply with the Emergency Power Rules?

**Answer:** The Agency's goal is for all nursing homes and assisted living facilities to comply with the Emergency Power Rules and provide for safe environments for residents during an emergency power outage. Although these rules do not address specific penalties, the Agency may use existing sanction authority in the licensure laws for failure to implement these protections, including fines, license denial, and revocation.

### Resources

**Question 34:** Where can I find information about the EPP, Questions and Answers and any suggested forms?

**Answer:** Visit the AHCA website at: <http://ahca.myflorida.com/> Select: Licensure and Regulation, Select: Bureau of Health Facility Regulation Nursing Homes, Select Long Term Care Unit; Assisted Living Facilities, Select Assisted Living Unit

**Question 35:** Do you have a list of generator companies and electrical engineering contractors who could be hired to help facilities implement the emergency rule?

**Answer:** A number of businesses and associations have offered assistance to help facilities implement the emergency rule. Access <http://dcnonline.org/PropertyOwner> to search the Disaster Contractors Network for contractors in your area. Access <http://www.egsa.org/Membership/MemberDirectory/DirectorySearch.aspx> to search the Electrical Generating Systems Association membership directory for contractors in your area. Please note this information is provided as a resource. It is the responsibility of the facility operator to ensure securing an appropriate contractor for your project with appropriate licensure.

**Question 36:** Will funding be available to assist with any costs of acquiring or installing the generator or fuel source?

**Answer:** Nursing homes may also qualify for additional reimbursement of Medicaid costs through the existing reimbursement process. Housing and Urban Development (HUD) financed properties may qualify for HUD funding assistance through HUD's Lean 232 Program, Office of Residential Care Facilities (ORCF). Please visit HUD website for details at [https://www.hud.gov/federal\\_housing\\_administration/healthcare\\_facilities/residential\\_care](https://www.hud.gov/federal_housing_administration/healthcare_facilities/residential_care).

# ***Emergency Preparedness and Disaster Response Guide***

## **2018-2019**

### **ASSEMBLING A SUBMISSION**

#### **FUEL RULES**

- ALF with 16 or less Beds: 48 Hours minimum
- SNF & ALF with more 17 or more beds: 72 hours minimum
- Local ordinances restricting fuel take precedence.
- Once a disaster is declared, facilities must bring enough fuel on site to meet the 96 hours requirement at least 24 hours before the fuel is depleted.

NOTE: EECF is a separate document.

#### **CEMP (Comprehensive Emergency Management Plan) CHECKLIST**

- 1) Check for amount owed to EOC in your county
- 2) Plan submitted in flat envelope
- 3) Assisted Living Facility Emergency Environmental Control Plan Worksheet and Nursing Home Environmental Control Plan Worksheet
- 4) Policies and Procedures - Operation and Maintenance of Generators
- 5) Floor Plan Maps with areas to be protected outlined and/or marked off
- 6) Service Agreements
  - a) Fuel
  - b) Maintenance
  - c) Installation
- 7) Generator Worksheet
- 8) Letter attesting that you have sufficient alternate power source (from an Engineer, Electrician, Contractor)
- 9) Copy of ordinance from jurisdiction restricting fuel
- 10) AHCA documentation verifying approval of planner project (SNF only)
- 11) Implementation timeline

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### GOALS AND USES

The Florida Atlantic University's International Center for Emergency Management is pleased to provide public health professionals with this *Emergency Preparedness Checklist*.

This checklist is designed to ensure that clients who receive either home care and/or case management services have a conversation with their health professional and develop an emergency plan that makes sense for them. This checklist helps clients understand their plans, have three days' or more supply of nine essential items in preparation for an emergency event, and understand the levels of risk - whether to shelter in place or seek evacuation.

This will help with:

- Integration of emergency preparedness into every day public health practice/case management;
- Preparation of vulnerable populations; and
- Offer a good measurement of personal preparedness

We understand that case management and home care services vary by jurisdictions. Please consider this checklist as a template, adaptable to individual needs and uses. Needs vary depending upon the population being served, but the basic premise is the same - preparation - and peace of mind.

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### **DIRECTIONS**

The Checklist is designed to be completed and placed directly into a client's chart.

### **TIPS**

#### ***Know the population.***

Be familiar with the vulnerable populations. Identify specific needs they may have during an emergency event. For example, infant formula for babies; batteries for hearing aids for older adults.

#### ***Match your checklist and any materials in the interest of the client.***

Select materials appropriate to the client. Materials should always be simple, easy to understand, in their native language, large font, etc. Consider providing completed checklists to the client.

#### ***Find partners.***

Identify community partners who are willing to provide items that might be too costly or complicated for clients to put together. Partners could be religious organizations, the Red Cross, United Way, youth groups, service organizations, even local hospitals and healthcare centers.

### **Case Management Emergency Preparedness Checklist Pilot Results\***

Percentage with Three Days' Supply of Five or More Items After Point of Contact

**First Day: 50%**

**30th Day: 62.5%**

**90th Day: 90.6%**

\* Based on findings published by the Montgomery County Advanced Practice Center for Public Health Emergency Preparedness and Response, Phone 240-777-3038, Website [www.montgomerycountymd.gov/apc](http://www.montgomerycountymd.gov/apc)

## Have a conversation - this is all about planning...

- 1) Why plan for an emergency? (peace of mind • safety • survival)
- 2) Talk about the most likely events: hurricane, flooding, terrorism, hazardous materials, disease, fire
- 3) Where to meet if you're unable to communicate or need to leave? (friend • relative • landmark • in town • out of town)
- 4) Will you stay or go if evacuations are recommended but not mandatory? (shelter • shelter-in-place • another safe place)
- 5) Do you need child care? (by whom • where • any special needs?)
- 6) Do you need pet care? (by whom • where • any special needs?)
- 7) Do you need elder care? (by whom • where • any special needs?)
- 8) Other things to consider: medications • children • other family who need special assistance)

# Emergency Preparedness Checklist for Caregivers and Seniors

## The NINE Essential Items for Emergency Preparedness

Below, you will find the NINE essential items for Emergency Preparedness. With each contact you have with your client, please indicate the date of contact and check off on the list items obtained by the client to prepare. More than 90% of the items should be obtained and stored by the time you see your client for the 3<sup>rd</sup> and 4<sup>th</sup> visit.

|  | 1 <sup>st</sup> contact: _____ | 2 <sup>nd</sup> : _____  | 3 <sup>rd</sup> : _____  | 4 <sup>th</sup> : _____  |
|--|--------------------------------|--------------------------|--------------------------|--------------------------|
| 1) Water<br>(one gallon per person per day for three days)           | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 2) Food<br>(non-perishables, canned or packaged)                     | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 3) Clothes<br>(one change of clothes and footwear per person)        | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 4) Medications<br>(three days worth of medication)                   | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 5) Flashlight<br>(and extra batteries—no candles!)                   | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 6) Can Opener<br>(manual, not electric)                              | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 7) Radio<br>(battery powered or hand crank powered)                  | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 8) Hygiene Items<br>(basics like soap, toilet paper, toothbrush)     | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 9) First Aid<br>(antiseptic, bandages, non-prescription medications) | <input type="checkbox"/>       | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

# ***Emergency Preparedness and Disaster Response Guide***

## ***2018-2019***

### **Power Outages Can and Do Occur: What does that mean for ALFs and Nursing Homes?**

- Loss of HVAC systems that rely on electricity for heating, cooling, and ventilation
- Loss of respiratory devices and other critical equipment for patients in intensive care or cardiac units
- Loss of lighting for high-risk surgical procedures and potential black-out of rooms with no emergency lighting
- Loss of pressure in water distribution systems
- Potential loss of access to other hospitals and healthcare facilities if they are also affected
- Inability to access electronic patient medical records and other data (ALF and NH data)
- Loss of patient signaling system for assistance by medical and hospital staff

### **How Prepared Are You? Questions to ask your team and local utility.**

- What is my electric utility's contact information in the event of power loss?
- Where is my facility located on the "grid" (electricity distribution network)?
- What other hospitals/healthcare facilities are located on the same "grid"?
- How reliable is the "grid" where the facility located?
- Have you discussed with your utility provider whether your facility is considered a priority when responding to a power outage?
- Have you considered participating with your utility provider when they conduct drills or exercises to respond to a power loss?
- Do you have partnerships in place with healthcare facilities?
- Have you determined your energy usage under normal operating conditions?
- Have you identified your essential functions and minimum electricity needs and sized your backup generators appropriately?
- Do you have procedures to prioritize emergency power allocation to key resources (HVAC, ventilators, patient monitors, water systems)?
- How often is your emergency generator system tested to assure reliable startup and sustained operation?
- How long will your supply of emergency generator fuel last, and how can you be assured of continued fuel delivery in the event of an extended power outage?

### **NURSING HOME AND ASSISTED LIVING FACILITY: EMERGENCY ENVIRONMENTAL CONTROL PLAN**

Nursing Home and Assisted Living Facility  
EMERGENCY ENVIRONMENTAL CONTROL PLAN  
RULE 59A-4.1265, FLORIDA ADMINISTRATIVE CODE (F.A.C.)

**(Based upon AHCA Criteria dated March 2018)**

The worksheet on the following pages is here to help you prepare for the next Hurricane Season.

This is especially helpful to submit to your county, since the review process for Emergency Control Plans has become more stringent from lessons learned.

This worksheet is adapted from the Palm Beach County Division of Emergency Management and we thank them for their assistance.

#### **1. Facility Information:**

Facility Name: \_\_\_\_\_

Street Address: \_\_\_\_\_

City, County, Zip: \_\_\_\_\_

Administrator Name: \_\_\_\_\_

Contact Number(s): \_\_\_\_\_

Email(s): \_\_\_\_\_

License Number: \_\_\_\_\_

Number of Licensed Beds: \_\_\_\_\_

## 2018-2019

### NURSING HOME AND ASSISTED LIVING FACILITY: EMERGENCY ENVIRONMENTAL CONTROL PLAN

Is the facility:

- Located on a campus with other facilities under common ownership
- Located in a multistory building
- Stand-alone single story building
- Located in a mandatory evacuation zone (If so, provide details below).

Details:

#### 2. Alternate Power Source: Description of onsite alternate power source:

- Portable generator                       Fixed generator
- Other: \_\_\_\_\_

First Alternate Provider:

Make: \_\_\_\_\_

Model: \_\_\_\_\_

Size: \_\_\_\_\_

Second Alternate Provider:

Make: \_\_\_\_\_

Model: \_\_\_\_\_

Size: \_\_\_\_\_

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### NURSING HOME AND ASSISTED LIVING FACILITY: EMERGENCY ENVIRONMENTAL CONTROL PLAN

The alternate power source is capable of powering the following equipment:

Entire Facility       Lights       Refrigeration       Life Safety Systems

Air Conditioning       Heating Systems       Other: \_\_\_\_\_

Provide the date implementation of the alternate power source will be complete:

\_\_\_\_\_

Date Complete: \_\_\_\_\_

#### 3. Fuel Information:

Type of Fuel:  Diesel       Propane       Piped Gas       Gasoline

Hours of runtime with onsite fuel: \_\_\_\_\_

Hours Fuel Distributor: \_\_\_\_\_

Are there local restrictions on the amount of fuel stored onsite?  Yes       No

If yes, list regulation and limitation: \_\_\_\_\_

Describe how your fuel will be stored onsite: \_\_\_\_\_

Describe how your facility will refuel before, during, and after an emergency:  
\_\_\_\_\_

#### 4. Cooling Method:

What kind of equipment will be used to cool the facility?

Air Conditioner(s)       Spot Cooler(s)       Chiller       Fan(s)

Other:

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### NURSING HOME AND ASSISTED LIVING FACILITY: EMERGENCY ENVIRONMENTAL CONTROL PLAN

#### 5. Cooled Area:

What area(s) of the facility do you plan to keep at or below 81 degrees?

- Entire Facility       Living Room       Dining Room       Resident Room(s)
- Common Area(s)       Hallways       Other Area(s)

What is the net square footage of the area to be cooled? \_\_\_\_\_

How many people (residents and staff) do you plan to locate in this cooled space/area?  
(Please keep in mind the required square footage requirements per person for your facility type.)

\_\_\_\_\_

Will there be beds available in the cooled area?  Yes       No

If yes, are these beds currently onsite?  Yes       No

Describe how you will ensure the facility does not exceed the required temperature and how the facility and residents will be monitored.

\_\_\_\_\_

#### 6. Policies and Procedures

Provide a training procedure to ensure staff are aware of how to operate the emergency power to the facility. Describe:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Provide a maintenance and testing schedule for both the alternate power source and cooling system. Describe:

\_\_\_\_\_

\_\_\_\_\_

# Emergency Preparedness and Disaster Response Guide

## 2018-2019

### NURSING HOME AND ASSISTED LIVING FACILITY: EMERGENCY ENVIRONMENTAL CONTROL PLAN

#### 7. Supporting Documentation

Submit the following documentation with the plan:

- Policies and Procedures (Operation and Maintenance of Generator(s))
- Facility floor plan. Area(s) intended to be used as the “cooled area” identified in Section 5 should be outlined/highlighted on the facility floor plan.
- Service Agreements
  - a. Fuel
  - b. Maintenance (if applicable)
  - c. Installation (if applicable)
- Generator worksheet (for each generator)
- Letter attesting sufficient alternate power source (letter from engineer, Licensed electrical contractor)
- Copy of ordinance from jurisdiction restricting fuel (if applicable)
- Documentation verifying approval of the planned project from the Agency for Health Care Administration’s Office of Plans and Construction
- Implementation timeline (if applicable, and not included in worksheet)

Once the plan is implemented (completed), submit documentation that the alternate power source is installed and operable.

#### ATTESTATION

I attest that the facility is in compliance with all of the requirements and standards that are contained in Rule 59A-4.1265, F.A.C. (Emergency Environmental Control for Nursing Homes)

Signature of Licensee or Authorized Representative

#### **Resiliency**

“the ability to prepare for and adapt to changing conditions and withstand and recover rapidly from disruptions. Resilience includes the ability to withstand and recover from deliberate attacks, accidents, or naturally occurring threats or incidents.”

*-Presidential Policy Directive-2013, pg. 21: Critical Infrastructure Security and Resilience*

#### **Key terms of Energy Security/Resiliency Planning in this guide:**

##### **Transfer Switch**

A transfer switch is an electrical switch that transmits a load between two sources. Some transfer switches are manual - an operator effects the transfer by throwing a switch - while others are automatic, and trigger when one of the sources has lost or gained power.

An **Automatic Transfer Switch** is often installed where a backup generator is located, so that the generator may provide temporary electrical power if the utility source fails. ATS is common at gas stations to provide fuel during power outages.

#### **Acronyms in this guide:**

**EPP:** Emergency Power Plans (2017 and earlier)

**EECP:** replaced EPPs in 2018; Emergency Environment Control Plan

**CEMP:** Comprehensive Emergency Management Plan

**PPD:** Presidential Policy Directive

**AHCA:** Agency for Health Care Administration in Florida

**ALF:** Assisted Living Facility

**SNF:** Skilled Nursing Facility, which offers more care than Nursing Homes, and are certified to participate in and accept payment from Medicare and Medicaid.

**HVAC:** Heating, ventilation, and air conditioning is the technology of indoor and vehicular environmental comfort. Its goal is to provide thermal comfort and acceptable indoor air quality.

**ATS:** Automatic Transfer Switch
