6 **SEC. 2. FINDINGS AND PURPOSES.**

7 (a) **FINDINGS.**—The Congress finds the following:

8 (1) Certain areas of the United States tell na-  
9 tionally significant stories; they illustrate significant  
10 aspects of our heritage; possess exceptional natural,  
11 cultural, scenic, and historic resources; and rep-  
12 resent the diversity of our national character.

13 (2) In these areas, the interaction of natural  
14 processes, geography, history, cultural traditions,  
15 and economic and social forces form distinctive land-  
16 scapes that should be recognized, conserved, en-  
17 hanced, and interpreted to improve the quality of life  
18 in the regions and to provide opportunities for public

1 appreciation, education, enjoyment, and economic  
2 sustainability.

3 (3) Local initiatives based on community and  
4 regional visions, involving public/private partner-  
5 ships, are critical to conserving, enhancing, and in-  
6 terpreting natural, historic, scenic, and cultural re-  
7 sources related to our American heritage. These ini-  
8 tiatives should be encouraged and supported by the  
9 Federal Government with the concurrence of the rel-  
10 evant Federal land management agencies and tribal  
11 governments by providing financial and technical as-  
12 sistance.

13 (4) Partnerships among Federal, State, tribal,  
14 and local governments, nonprofit organizations, the  
15 private sector, and citizens provide the most viable  
16 framework to recognize, conserve, enhance, and in-  
17 terpret the resources of places that have made im-  
18 portant contributions to the national story.

19 (5) Communities and regions need assistance to  
20 set resource stewardship and interpretive goals, and  
21 to implement strategies for resource conservation  
22 and renewed economic viability in these areas.

23 (6) A unified national process as well as certain  
24 standards for designation of National Heritage  
25 Areas need to be established to provide a consistent

1 framework. The process should include a system for  
2 approval of heritage area management plans.

3 (7) National Heritage Areas located near or en-  
4 compassing units of the National Park System pro-  
5 vide an additional basis for public enjoyment of  
6 parks and park-related resources, and it is appro-  
7 priate for these parks to participate in, assist with,  
8 and benefit from local heritage initiatives that con-  
9 serve and interpret resources over a larger area be-  
10 yond the park's boundaries.

11 (8) It is in the national interest, and will ben-  
12 efit future generations, to establish a system of Na-  
13 tional Heritage Areas to encourage natural and cul-  
14 tural resource conservation, interpretation, enhance-  
15 ment, and economic sustainability, and for full pub-  
16 lic understanding and appreciation of the many re-  
17 sources, places, events, and peoples that have con-  
18 tributed to the rich heritage of this Nation.

19 (b) PURPOSES.—The purposes of this Act are to—

20 (1) establish a system of regional and commu-  
21 nity-based National Heritage Areas to conserve, en-  
22 hance, and interpret natural, historic, scenic, and  
23 cultural resources that together tell nationally sig-  
24 nificant stories representing our country's heritage;

1           (2) promote public understanding, appreciation  
2           and enjoyment of the many places, events, and peo-  
3           ple that have contributed to our diverse national  
4           story;

5           (3) promote innovative and partnership-driven  
6           management strategies that recognize regional val-  
7           ues, to encourage locally tailored resource steward-  
8           ship and interpretation, to develop economically via-  
9           ble and innovative approaches to community con-  
10          servation, and to provide for the effective leveraging  
11          of Federal funds with State, local, tribal, and private  
12          funding sources;

13          (4) provide unified national standards and proc-  
14          esses for conducting feasibility studies, designating  
15          National Heritage Areas, and approving heritage  
16          area management plans;

17          (5) provide appropriate linkages among units of  
18          the National Park System, and communities, govern-  
19          ments, and organizations within National Heritage  
20          Areas to conserve, enhance, and interpret resources  
21          outside of park boundaries; and

22          (6) authorize the Secretary of the Interior to  
23          provide financial and technical assistance to local co-  
24          ordinating entities that act as a catalyst for diverse  
25          regions, communities, organizations, and citizens to
