

Medicare Accelerated and Advance Payments Program COVID-19 Public Health Emergency Payment Data

The Centers for Medicare & Medicaid Services expanded its Accelerated and Advance Payment (AAP) Program to increase cash flow to Medicare providers and suppliers impacted by the 2019 Novel Coronavirus (COVID-19) Public Health Emergency. These payments are funded from the Hospital Insurance (Part A) and Supplementary Medical Insurance (Part B) trust funds, which are the same funds used to pay Medicare claims each day. Accelerated and advance payments are loans that providers must pay back. In accordance with the *Continuing Appropriations Act, 2021 and Other Extensions Act* enacted on October 1, 2020, the tables below include information on the percentage of payments made from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Insurance Trust Fund. Also displayed is a breakout of payments by provider and supplier type, as well as a listing of payments made by name and National Provider Identifier. **The data below reflects payments made through and including November 18, 2020.**

Program details are available at <https://www.cms.gov/files/document/accelerated-and-advanced-payments-fact-sheet.pdf>

- 1) Many providers offer both Part A and Part B services. The Part A data includes total expenditures (Part A and B) for any provider that furnishes Part A services. The Part B data includes total expenditures for providers who received Part B payment only.

- 2) The Part B suppliers listed here are grouped by specialty codes. The specialty codes may be found here: <https://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/MedicareProviderSupEnroll/Downloads/taxonomy.pdf>. If a provider is not associated with a specialty code, they will be included in the “specialty undefined” category.
