

2021 END OF YEAR REPORT

FROM CONGRESSWOMAN HALEY STEVENS:

Dear Residents of Michigan's 11th Congressional District,

This year Congress passed historic legislation to fix Michigan's badly outdated roads and bridges, fund scientific research at historic levels, and shore up pensions for those on the brink of losing their retirements. I am proud of the work that has been done to strengthen America's middle class and lower costs for hardworking Michigan families through the Child Tax Credit.

In November, the House of Representatives passed the Infrastructure Investment and Jobs Act. This legislation will deliver about \$8.97 billion in badly needed hard infrastructure funds to Michigan alone. Billions of federal dollars will transform our roads, bridges and pipes. Further, a \$110 million investment to boost electric vehicle charging station infrastructure will help Michigan lead the way in innovation and sustainability.

Since coming to Congress, I have been a champion for STEM education and am proud to have overseen the House passage of the bipartisan National Science Foundation For the Future Act. The bill puts forth a suite of sweeping proposals – from scaling up PreK-12 STEM education research innovations to modernizing higher education student training. National Science Foundation funded research has spurred innovation and launched new industries that advance our competitiveness and improve our quality of life. Countries around the world have taken notice and are investing aggressively to replicate our success by building their own research base. The United States must lead by example and restore and expand funding for the National Science Foundation. I look forward to seeing this legislation signed into law by President Biden in 2022.

Michigan's small businesses and manufacturers are the backbone of our economy, and this year I launched my Women Owned Wednesday initiative as well as the House Democratic Manufacturing Working Group with House Majority Whip Jim Clyburn. Michigan has an incredibly diverse and talented workforce, and it is time we uplift the women-owned businesses that help power our regional economy. I have met with so many incredible business owners this year and continue to advocate for small businesses who are still feeling the effects of the COVID-19 pandemic. The Democratic Manufacturing Working Group aims to ensure that our small and mid-sized manufacturers can compete in the global economy and ensure supply chain security and environmental sustainability. These issues are more important than ever before and supply chain resilience remains one of my top priorities in Congress.

In 2021 alone, my office has returned \$37,512,892.88 to constituents and closed 1,612 federal issue cases ranging from passport assistance to Department of Veterans Affairs challenges. This means that my office has returned our annual operating budget to the taxpayers of Michigan's 11th Congressional District 25 times over.

This report is just a snapshot of the work that I have done this year alongside my staff in Washington and Livonia. I encourage you to follow me on Facebook, Twitter and Instagram as well as signing up for my email newsletters to get the most up to date information about what I am working on in Congress.

Thank you for placing your trust in me. I look forward to another productive year in Congress delivering for Michiganders and lowering costs for working families!

Sincerely,
Haley Stevens

CASEWORK TESTIMONIALS

"You often hear that our government doesn't work for us. I can say in our [IRS] case, Congresswoman Stevens' office hit it out of the ballpark. In my opinion, we are very lucky to have her working for us."

-Randy Soper, Livonia

"Our daughter's passport was sent to the passport agency and with all the delays due to COVID, it was hard to get a real date on when we should expect it. To my surprise, someone [at Congresswoman Stevens' office] answered and was willing to help me without hesitation; it was a reassuring feeling to have someone have your back. Party affiliation didn't matter at any point during our conversation. They realized I needed help and stepped up. I have faith that Haley Stevens and her team have the best interest of the residents in the 11th Congressional district."

-Hosam Issa, Canton

"After finally getting possession of my fathers ashes - thirty years after passing away - the Office of Congresswoman Stevens helped me get the permission to have both my father and mother placed at the Great Lakes National Cemetery - a great honor for my dad, a WWII veteran. I had no paperwork during this pandemic, it seemed like I couldn't get anything done. Congresswoman Stevens' office made all this happen for my parents. My family is so grateful for all of their help."

-Joan Bennett, Rochester Hills

"Very grateful for the quick response and compassion for our business, staff, livelihood. To receive a response [from Congresswoman Stevens' office for my SBA issue] in literally less than one hour was truly a blessing."

- Jason Corbett, Commerce Township

"I would like to express my sincere thanks to the office of Congresswoman Haley Stevens' for the wonderful help and service her office gave me to resolve my Social Security problem. Previously, I worked for almost two years with Social Security myself without getting any resolve to the problem. [Her staff] got almost immediate results! Thank you so much for your service!"

-Laura Petar, Waterford

DELIVERING FEDERAL DOLLARS TO MI-11

**Rep. Stevens Delivers \$8.97 Billion
for Infrastructure Improvements
in MI-11**

Rep. Haley Stevens ✓
@RepHaleyStevens

10% of 911 calls in the US are mental health related. More needs to be done to assist those in crisis in our community & to support our officers who are often the first responders, which is why I secured \$260K for Oakland County Health Network as part of legislation in the House.

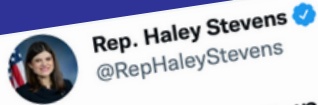

**Rep. Stevens Secures \$17,807,600
in Federal Funding for Michigan's
11th Congressional District**

Rep. Haley Stevens ✓
@RepHaleyStevens

During my 1st term in Congress, while on my district tour, I noticed that the #1 issue facing my constituents was lack of infrastructure. This congress, I was proud to secure nearly \$23 million in new funding to make desperately needed fixes to the Beck Road Improvement Corridor.

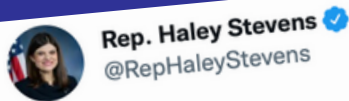

LOWERING COSTS FOR MICHIGAN FAMILIES

The September round of the [#ChildTaxCredit](#) was deposited into bank accounts today, which will impact almost 120,000 kids in our district.

Every day I am proud of the work that the 117th Congress performed to help families and cut child poverty in half.

Stevens, Scott, Norcross, Morelle Introduce Legislation to Protect Retirees' Pensions Amid COVID-19 Crisis

Nearly 1 in 4 Americans struggle to afford prescription drugs. Yet, Medicare is currently prohibited from negotiating prescription drug costs. It's time to change that. The [#BuildBackBetter](#) Act will end this unfair prohibition and reduce the costs of prescription drugs.
