MEMORANDUM FOR MR. TOLSON.

I want to refer to the unsatisfactory manner in which the exhibit card was used in the National Geographic Society's case. I have personal knowledge of the case carrying the last brother's identification, at least in part, and also of our two photographs of two individuals. It has been suggested to me to exhibit the name of one of these individuals, but I am of the opinion that the other individual is unknown and that we have no positive evidence of his identity. I think it is most undesirable that the public should be given photographic reproductions of such cases without the name of the individual or the nation where the picture was portrayed. I think we should endeavor to have a full and detailed record in such cases and that this should be set forth upon the exhibit card.

In addition, I would like to have more care and supervision given to the preparation of material for publication and exhibition. I do not believe that it is necessary that cards can be given to such matters for it is the duty of the Director of this Bureau to see that the Bureau's work becomes known to the public.

I also want to refer to the lack of information available here at the present time concerning the exhibit in this instance. When occasion arose to go to New York, I made some investigation concerning this matter and found there had been no great amount of information to be readily exhibited at New York nor had there been any statement available which could be given to the press concerning the subject. This is indicative of the very condition of which I have previously complained, namely, a failure upon our part to anticipate the public interest in such matters and to have available material for release when the time arrives.

I want insist that memorandum be prepared fully covering matters of this kind so that we will not be embarrassed and delayed in answering inquiries made by the press. Will you please see that Mr. Leibeler is thoroughly informed of the necessity for these charts and in the future I would like to have you personally see that the above suggestions are complied with.

Very truly yours,

67-9524-155

Director.

J. E. C. 8/24/22

RECORDED

August 19, 1943.

August 19, 1943.

RECOMMENDED READING.

With reference to the recent conference of Special Agents held at Quantico, Virginia, on August 11 and 12, it is suggested that the following books be recommended reading, as the literature delves into the substance of the comments made.

Mr. Tolson,<sup>0</sup> following his speech before the agents and his two lectures on counterespionage subjects recently, has released several interesting and well-delivered lectures.

The following recommendations may be useful:

Dr. J. E. Clegg,<sup>X</sup> who is concerned in the scientific value and use of fingerprinting, has written an excellent article on "The Scientific Basis of Fingerprinting," which is published in the "Journal of Forensic Medicine," Vol. 1, No. 1, January, 1940. This article is a must for anyone interested in this subject. Dr. Clegg has also written a book entitled "Fingerprints," which has been highly recommended by Mr. Tolson and is yet to be exhibited in his Bureau. His book is entitled "The Science and Practice of Fingerprinting." It is believed it would be well for ... [redacted] in a copy of this book, to pass it to a counterespionage specialist in your office. However, it is recommended that you do not let him have a copy of this book, as it contains a great deal of information concerning the Bureau's methods of investigation.

Mr. J. M. Appel,<sup>X</sup> author of a well-delivered and popular excellent lecture on "Counter Espionage," It is recommended that he be invited there for another lecture on this subject, as the one he gave on August 11 and 12. The series of lectures he gave on "Counter Espionage" will have clearly convinced you that Mr. Appel is one of the ablest counterespionage experts in the country. It would be well for ... [redacted] in a copy of this book, to pass it to a counterespionage specialist in your office. However, it is recommended that you do not let him have a copy of this book, as it contains a great deal of information concerning the Bureau's methods of investigation.

Mr. Appel,<sup>X</sup> It would seem desirable for Mr. Appel to go into more detail in explaining the scientific investigation of crime. It is suggested that he make his very helpful to field agents - especially of a scientific nature - to go into detail and to give an explanation of all of the scientific aids in criminal investigation mentioned in Mr. Appel in his lecture.

67-9524-153

8-19-56

Mr. E. C. St. John, who was in my office of the Senate at approximately 10:30 A.M. today, indicated it was to be somewhat difficult to get a copy of the speech which he had delivered himself via radio to the members of the Senate.

Mr. St. John said that he had the speech entirely too rapidly.

He would, however, be glad to make it available to all of the members of the Senate.

Mr. St. John also advised me in his letter that the above critical speech was intended to eliminate Mr. B. C. Lee from his subject. He further advised me that the speech was to be broadcast because of the importance of the subject, and that he believed it was important that the speech be made available to all of the members of the Senate so that they might have an opportunity to hear it.

Very truly yours,

Memorandum for Mr. Stewart:

The attached recommendation and increase in compensation for Mr. Tolson is presented upon the fact that he is being assigned additional duties in the Bureau. In addition to the regular duties which he is now performing, Mr. Tolson is of great interest and is assigned to field service. The office Inspector in Grade C-1B, at G-2, is being abolished in order to cover the appropriation and the duties performed by this Inspector will be taken over by Mr. Tolson.

MEMORANDUM FOR MR. GALT  
and C. E. LEE

More care must be exercised in the preparation of memoranda which are intended for publication. I refer particularly to the recent memorandum which you prepared concerning the international exchange of identification documents and potentialities now being established with five countries, namely, Mexico, Brazil, Argentina and Chile. We can see reference to Canada as well and I did not originally send it to you because I had no knowledge of it or I have carefully avoided the subject of civilian identification, the American Director in charge of this situation. However, today, I have a telephone in a conference with a Spanish newspaper correspondent who stated that Canada was not included among the five countries with whom our intent is to enter into civilian identification relations with Canada. Upon making inquiry of the Director, I am informed that, as far as the letter is, formally, the Canadian authorities by reason of the fact that the exchange of identification documents is a civil function. If this is so truly, I do not understand how we can not, without loss of time, take this matter up with the Canadian authorities so as to see to the formal, provision of a system that can be possible for entry. In other words, if I understand it truly, the Canadian authorities have nothing to do with, Brazil, Chile, Argentina and Cuba, except in connection with the Red Cross by reason of a formal agreement and not any cultural relationship. In Canada, therefore, certainly never treated Canada in the class of countries with which we have commercial such relations and I believe we should have formally taken the position of with the Canadian authorities as to have included Canada in the list.

Furthermore, I am at a loss to understand why we have not made some definite efforts in establishing the same relations with Mexico. Certainly, the countries actually bordering the United States should be the first ones with which we would desire to establish such relations and yet neither of them was included in the list which we gave out for publication. I am informed, in connection with the Mexican situation, that by reason of the acuteness of the international relations with Mexico several years ago no steps have been taken toward establishing the exchange of documents. I am not a student of international affairs but my impression is that the relations with Mexico are far more cordial and far less strained than they were several years ago. I do not know whether anyone in the Bureau even knows whether there is or is not a Central Identification Bureau in Mexico. No one in the Bureau should certainly at least concern himself to ascertain what the physical facts are in Mexico concerning the central identification office.

service which can coincide with such person who may have the enforcement of the government and see whether international exchange cannot be established.

The point I desire to make is that apparently this subject was not made through staff or careful checking as would have been given it before it was sent out for publication. It is next to impossible for me to do a hurried bit of these minute details and some arrangement must be affected to take care of such situations before they are brought to me for final approval.

Very truly yours,

Director.

Special Agent in Charge,  
Bureau of Investigation.

Dear Sir:

In order to obtain further information concerning the ability of Special Agents to perform special investigations, the Bureau desires that you obtain and forward to me such information as will afford the information desired with regard to the knowledge of the special training, experience and qualifications possessed by its Special Agents.

Information concerning various vocation and avocations of Bureau employees has been found extremely valuable. For instance, knowledge of the theory and practice of radio from a scientific standpoint, for use in investigating cases of radio stations alleged to be operating in violation of law; knowledge of the use of electricity, the ability to work as a mechanic in repairing and maintaining motor vehicles, to be sufficiently proficient in the use of sports and games as to warrant the assumption of professional ability; an comprehensive knowledge of and ability to operate a motorboat or automobile, an automobile, an airplane or motorcycle, a knowledge of explosives, a comprehensive knowledge of stenography, typing, photography, card reading, shorthand, accounting, including sufficient competency in accountancy to allow a working knowledge of book-keeping.

The Bureau desires that it be furnished with information which will enable it to judge the extent of the variety of its Special Agents in vocations or avocations in which they have a greater or of which they possess knowledge. The vocations and avocations which have been listed are simply given in order to illustrate the purpose of this undertaking. It is desired that the information in question be secured from each Special Agent and Special Agent (A) under your supervision and forwarded to the Bureau on the attached forms at the earliest practicable date. A copy of said form, together with the desired information thereon, should be made a part of the personnel file of each Special Agent and Special Agent (A) attached to your office.

Very truly yours,

Director.

Sepember 1, 1941.

Re presentation by following:

I am enclosing one copy of the form for filling out  
and for distribution among all Civil Service employees  
in professional grades. It is not necessary for all to fill  
it out at present. Some are interested in doing so,  
but others will not fill it out until requested to do so.  
I am enclosing a copy.

Very truly yours,

W. C. Miller.

MEMORANDUM FOR MR. NATHAN.

I have just had my attention called to the Manual of Instructions, which is about ready to be released to the field, the mimeographing of it having been completed, and upon reading Section 20 of this Manual I was astounded at not only the inexcusably poor phraseology, misspellings, but ridiculous expressions which appear therein. Upon examining the original draft of this I find that it was apparently reviewed by you. I have made inquiry of the other members of the Manual Committee, including Mr. Keith, Mr. Egan, Mr. Tolson, and Mr. Cullen, and none of these officials ever saw Section 20 of the Manual until I called it to their attention yesterday. It was my understanding that the Manual Committee, consisting of Messrs. Keith, Egan, Tolson, Cullen, and you were to consider all suggestions submitted for changes in the Manual and that the Committee consisting of Messrs. Nathan and Keith were to phrase these suggestions into the Manual and that following this the other members of the Committee would again read the Manual and approve the phrasings. Apparently this was not done.

In the first place, I was particularly displeased at the manner in which the Manual Conference functioned in the original instance. There were many instances when individual members of the Manual Conference were absent during the course of discussion, some of the members being absent for hours at a time, and when they returned to the Conference they apparently merely affixed their names to the recommendations that had been considered and disposed of during their absence. Obviously they did not have the benefit of the oral discussions concerning such recommendations. It seemed to be impossible to impress upon the members of the Manual Conference the utmost importance of this piece of work and that their entire time and attention should have been given to it. In my estimation it was far from a perfunctory assignment but, as I have indicated, the individual members of the conference did not take the conference seriously if one may judge from the lack of attention which certain members of the conference gave to the work.

This was sufficiently unfortunate but when I discovered that a Section of the Manual of Instructions has been mimeographed and incorporated therein without anyone adequately reviewing the same, I am fearful that the entire work may have to be completely reviewed. It is obvious, I believe, that Section 20 could not have been carefully reviewed by you for certainly the glaring error in the same would have been discovered. I am also at a complete loss to understand why Section 20 was not submitted to the other members of the Manual Conference. It is possible, of course, that even if it

MEMORANDUM FOR THE DIRECTOR.

Reference is made to your notations in connection with the memoranda submitted by Supervisors Coffey and Metcalfe in connection with their attendance at various lectures given at the training course held at the Local Office on August 15 and 16.

Mr. Schilder requested instructions from me concerning the attendance of his Supervisors at the various lectures. I informed him that he should endeavor to have his supervisors attend as many lectures as possible but did not instruct him that they should attend each and every session of the school due to the fact that it would have resulted in a lack of sufficient supervisory personnel in the Identification Division. The failure of Messrs. Coffey and Metcalfe to attend all lectures is chargeable to the writer.

Respectfully,

  
Clyde A. Tolson.

3-1-31

had been submitted it would have been initialed without any careful reading or analysis but at least I could have given responsibility up to the person who had initialed it.

I yesterday directed that Messrs. Egan, Keith, Tolson, and Clegg immediately review the Manual of Rules and Regulations and the Manual of Instructions, both for substance and phraseology, and that they then affix their signatures to the same before the Manuals are released to the public.

I consider that the manner in which the preparation of these two Manuals was handled by the members of the Manual Committee to be most insufficient and to have manifested a rather lack of interest in the two major phases of the Bureau's activities.

I trust that, the next time we have occasion to consider the revision of the Manuals, the officials assigned to this work will attach to it a proportionate commensurability with the importance to the Bureau's operations.

Very truly yours,

Director.

GENERAL SECRETARY OF THE AMERICAN

CONFEDERATION OF TRADE UNIONS

Dear Sir: I enclose a copy of a circular letter from Chairman W. E. Clegg, of the National Committee on Industrial Safety, which you will see that we have sent to all State Presidents and other national organizations, asking them to do the same thing. I hope you will accept it and forward it to your state conference. It is a general circular, so it will be of service to all. I hope you will do us the favor to send us a copy of the same when you do receive it. I would like to have you do this, so that all the public may know of our efforts to help secure the safety of workers.

I am sending you a copy of another circular letter from Chairman Clegg, which you will see that we have sent to all State Presidents and other national organizations. It is a general circular, so it will be of service to all. I hope you will accept it and forward it to your state conference. It is a general circular, so it will be of service to all. I hope you will do us the favor to send us a copy of the same when you do receive it. I would like to have you do this, so that all the public may know of our efforts to help secure the safety of workers. It will be of great value to our work if you will do this, and it will be of great value to our work if you will do this.

With the above you will find a copy of the Circular Letter to the State Presidents and other national organizations.

Very truly yours,

Director.

200-1070

JULY 25, 1971.

RECOMMENDED FOR MR. TOLSON  
MR. LADD X

I have commented on several occasions the incomplete agreement or lack thereof which I found in the original possible schedule and copy for a revised set of the manuals which for the new training school will be required at the earliest time. It is to be born in mind that the training will be given on August third, but I consider it to be most unlikely that we would be in agreement beyond that date. In the past we have had difficulty too in instances where we had been given a certain date and then were unable to be involved in the work, such as the time to edit the first set of manuals, which was given to begin on August third and finish by the end of the month. If, however, there ultimately no conflict in the dates that the Manuals will be finished prior to that.

It may not be taken to move these Manuals completed and sent by the first of October July 31, 1971 nor if it becomes necessary to work overtime to accomplish this. If it is necessary to do so, it will be paid for to work overtime I will issue orders issued at once.

Frankly, I am very much disengaged in the tally-tallying that has been going on in connection with this entire matter. The Manuals were reviewed recently ago and by reason of numerous changes, some of which have been possibly unavoidable but many of which have been incurable, we have not yet received the revised copies of the Manuals. If this continues to strum along, it is very likely that the revised copies of the Manuals will not be out before we are asking for suggestions for changes which will be reflected on October first.

Very truly yours,

Director.

July 15, 1931.

REPLYING FOR MR. REED.

Mr. Reed, one of the leaders in the Department, has a letter from his brother asking you will kindly give him a position in the Bureau. He states in his letter that the Bureau has not violated any colored in service. And he stated that his brother has been offered a position by the Post Office Department to the National Association of Colored Farmers or the Colored Legion in order to live. I am referring officially with the anti-unification of colored in government and the rule of Jim Crow. I understand that Mr. Reed's brother is in the service and had no right to be discharged from the service. There were a number of colored discharged in the Bureau was only to force her resignation but in case of the other clerical person who has the same as, this is so, I do no pre-judge anyone in the appointment of colored persons to positions mentioned they were fitted.

I assure that the applicants who called to see you understand you but I would like to leave it more certain in the future to let any man calling and giving me assurance that there is any prejudice upon the part of the Bureau to the appointment of persons based upon race, color or religious belief, for, as in well known, there is no feeling in the Bureau in regard to these matters.

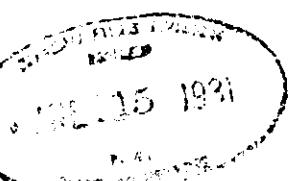

Very truly yours,

Director.

MEMORANDUM FOR MR. TOLSON

MR. SCHLESSINGER

MR. PURVIS.

With reference to the investigation of Frank T. Florman which was initiated on April 21, 1931, there are several comments which I am desirous of making concerning the handling of this matter. It was not handled in the manner best desired.

In the first place, I consider that a very serious mistake was made in the placing of a blank sheet of paper in the envelope which was delivered by Mr. Lock to Mr. Tolson, and which was supposed to contain the prints of Arthur J. Klein. No one other than those of Arthur J. Klein could have been placed in the envelope. By placing a blank sheet of paper in the envelope, I believe that no man with any degree of intelligence, would have known from simply upon opening the envelope that there was something peculiar about the situation and would have immediately left town.

In the second place, I gave specific instructions that Florman be kept under surveillance until a warrant was obtained and the arrest made. These instructions were not followed and Florman was permitted, after having received the envelope, and having paid a balance of the money to Lockout to depart without any surveillance being effected.

In the third place, the Agent assigned to the case from the Washington Field Office did not keep in contact with his field office and consequently could not be located. This on the evening of Tuesday May 6th, when I learned of the improper handling of the information and was desirous of contacting with the Agent. I believe that the Agent in Charge of the Washington Field Office should insist upon each of his Agents keeping in touch with the local office and keeping the local office advised of their whereabouts so they can be promptly contacted with, if necessary.

Very truly yours,

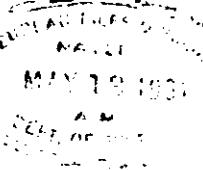

Director.

MEMORANDUM FOR THE DIRECTOR.

I beg to refer to your memorandum of May 5, 1931, in which you make inquiry as to why your recent instructions concerning the use of envelopes were not complied with in the preparation of the attached letters to the Chairman, Boards of Pardon.

I have been informed by Miss White, Supervisor of the Stenographic Pool, that the letters attached hereto were prepared and left the Pool prior to the receipt of the instructions contained in the inter-office memo. r. m. dated May 4, 1931, relative to the use of envelopes. I naturally, at the time of the preparation of this memorandum thought any communications which had been prepared contrary to these instructions would be caught and the envelopes removed by the Billing Clerk prior to transmission to the Department.

Respectfully,

C. A. T.  
Clyde A. Tolson.

MEMORANDUM FOR MR. TOLSON.

I give specific orders several days ago concerning the addressing of envelopes in the Bureau and yet yesterday afternoon I received for signature many memorandum addressed to various Department officials, notably Mr. Gruber, for which were addressed individual envelopes. I would like to have you take immediate action in my instructions that no envelopes are to be prepared for any memorandum or communication according to any Department official and that such memorandums shall be held by the Mail Clerk until the end of the day at which time he shall sort the same and forward them to the concerned in an envelope which will be accessible to him at his desk. I assume that there will be envelopes addressed for all departmental officials in sufficient supply so that the Mail Clerk may have them available at all times.

In regard to the manuscripts and communications addressed to Bureau officials at the Seat of Government, it is my desire that no envelope be prepared therefor and that the same rule be applicable as set forth in the preceding paragraph, with the exception that in matters of urgency or those of a strictly confidential character individual envelopes may be immediately prepared and that such communication will be at once transmitted to the Bureau official at the Seat of Government.

In regard to communications sent to field offices of the Bureau, I would like to have a study made for a period of a week to ascertain how many communications are sent to each Bureau office during the course of that week so that I may determine as to the desirability of having all such communications sent in one envelope each day.

Very truly yours,

Director.

April 17, 1934.

RECOMMENDATION FOR INSPECTION METHODS  
COL. 1  
COL. 2  
M. DIRECTOR X0  
1934

Conforming verbal conference, it is desired that  
the methods listed below be followed in the inspection of field  
officers:

It is desired that in offering tests to Special Agents  
on Bureau Details, the Inspectors engage in no explanatory arguments  
with the Agent. The Agent's answers should be followed up in  
promptly and sharply. Wherever this is, the individual questions  
should be asked, if the Agent does not understand the question, it  
will, of course, be explained to him; the Agent shall then be given  
a reasonable amount of time in which to answer the entire question and  
will be asked then by the Inspector on the completeness and correctness  
of the answer.

Authorization is also granted to Inspectors to deduct  
from final ratings in which tests are made from each Bureau rating  
when the Agent indicates, in the nature of his replies, that he is  
guessing; that he only vaguely knows the correct answer, or when  
he requires so much length of time to reply to give the individual  
questions. It is understood that if the foregoing provision is  
followed closely, only in rare instances will it necessarily be  
necessary to deduct the ten points specified in the foregoing.

Authorization is further granted to deduct an additional  
five points on each Bureau when the answer to a specific question is  
found to demonstrate beyond a doubt, in view of the nature of the  
facts of bureau, a manifest thereby, that the Agent is really lacking  
in the knowledge necessary to conduct the routine investigative work  
of the Bureau and of the procedure necessary therein.

66-13-755

Inspector Smith  
Gillis  
Fox  
Ho. Tolson  
Lynn

4/27/31.

It is desired to add five points to the individual section in XII concerning the practice of inspecting or investigating, during the time specified, and giving to the Agent of the Bureau, the Agent of the State Department, the Agent of the FBI and Inspector all of the details of which is in connection with said agents.

It is desired that each and every report of individual Agents by the Inspector who has conducted the Agent, "Bureau", "State", "FBI", "Local", and "Foreign", shall commence his last place and in detail. A copy of this will be sent to a second Agent, then to a third Agent or a warrant for each place. A copy of this will be kept by the Agent, in the same manner, in the same manner, similarly to a Bureau agent, and active action to make ready in the Bureau's own files, all financial records from the Agent in the same manner. When on duty at the Bureau or in field office, similarly, so it is now agreed, when that Agent is in the Bureau's office, he is to know then, the Agent is not responsible to him personally or to his Bureau's own office. A copy of such report by the Agent, shall be sent to the service three years or more will be considered unsatisfactory by the Bureau. "State" agrees that the Agent in a field office is satisfactory agent. The Agent will exchange the last fifteen days of his tenure together with eight days additional time to perform executive ability. "Bureau" would like to find the Agent in a Bureau office ten days prior to all such instances to be unsatisfactory and the Agent to return back person executive ability. The amount of said executive ability should be given out by the Inspector.

It is desired that every effort be made by Inspectors to secure information relative to the ability to fight to the very end executive of Agents. It is believed that considerable value can be placed upon the necessary work of the Bureau and connection of strenuous work is caused by inefficient executives.

It is desired that all Inspectors, prior to leaving Washington, make a certified service of all personnel files of Agents in charge in order to ascertain the nature of all communications relative to excess, either minor or major, occurring at the offices to be inspected. They shall also review all other letters contained in office administrative files or otherwise which fall through when correspondence between the Bureau and the Agents in case the Agent has been existing between said date and the date of the previous inspection.

Inspector 1220  
Cables  
Cable  
D.P. 1.2.202  
Spc

4/17/22.

It will be well for all Inspectors to communicate with all Posts or Stations under their charge on an immediate trip for the purpose of ascertaining any notices that said Heads of Post have issued to be kept by the Inspectors.

The procedure now being followed of sending from headquarters agents and cables at random is due to complete, and would, upon individual cases, be very royal by the Bureau. The general desire is, however, to do away the Inspector to submit himself after the telephone personnel by the agent of the Bureau, his name recorded, a copy of which may be given to him to be used in calling the number of C.P. 1.2.202 or the code on any occasion and he will, and to be identified by agents.

It is desired that it may be often made with a view to eliminating what is to be known as "unofficial" lists. The desirability of and necessity for a list of this kind has been discussed this day.

It is desired that Inspectors make inquiries into the nature and efficiency of telephone systems maintained in Bureau offices.

It is also desired that in giving tests to field office clerks, etc., a preliminary or trial test of the same number of words to first, then, then; that this be dictated at the same rate of speed and that it be completed in the course of a preliminary interview, as it were, so causing the stenographer time opportunity to acquire the proper intonations, etc., and to accustom themselves to the inflections and intonation of the Inspector's voice.

Very truly yours,

Director.

MISCELLANEOUS FOR MR. SPENCER  
Mr. Tolson  
Mr. Quinn  
Mr. Quinn

I am attaching hereto a copy of a letter written by Inspector Culley covering an inspection of the Detroit office in March, 1931. I personally went to Detroit, after I had received this letter, and found the three days after Mr. Culley had left Detroit. I found conditions almost as bad as Mr. Culley had reported. There had been a rather feeble attempt by an agent in charge to correct a few of the conditions. It has been my opinion, however, in the fact that in my examination of the Detroit office, and in a study of all the employees therein, I found that many of the conditions referred to by Mr. Culley had existed for over a period of several years.

I note that the Detroit office has been corrected on three occasions since March 1930; namely by Inspector Tolson in March 1930; Inspector Quinn in July 1930; Inspector Quinn in October 1930; and Inspector Culley in January 1931. However, on none of these inspections did the Inspector correct the conditions as referred to by Inspector Culley in March 1931. As at the time of those inspections, if not most of them, the same is existence over a period of several years. There is but one conclusion that I can draw and that is that the Inspectors have not been as thorough in the examination of this office as they should have been.

I have emphasized over and over again, in writing and verbally, to the Inspectors that I want a real inspection to be made of each of the field offices. Within the last week or two days I have made a visit to six field offices and in two of these field offices I made a detailed examination; in the others a general examination was made. I have been very careful, however, with the fact that but little or no attention is given directly to the physical appearance of an office and the condition of its premises; its inventories; its files, and the contents of the desks in the offices. I am not dubious of Bureau officials interfering with the personal effects of employees in their desks, but I do think that when desks come in official papers bearing dates as far back as a year ago, which papers have never been put in the files of the Bureau and have not been charged to the employee, and when the desks are filled with surplus supplies, and无关 articles of Government property, it is a matter that should receive attention. When an office is improperly administered along this line, it is safe to assume that it is equally as improperly administered along the investigative line.

Enclosed to Mr. Nathan

2

2-22-31

I am frank to state that I think the Inspectors have become entirely too perfunctory in the examination of the offices and there must be a marked tightening up by the Inspectors of their work in the individual field offices.

Very truly yours,

Enclo.

Director.

MEMORANDUM FOR THE DIRECTOR.

Reference is made to your inquiry as to the reason why I failed to detect the error appearing in the address of the communication prepared in Division Six on March 6, 1931, addressed to Mrs. Amy Hine of West Palm Beach, Florida.

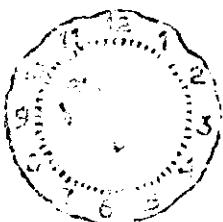

The communication in question was read by me and the error was undetected. I have not made it a practice to carefully check the addresses in all communications forwarded through my office for your signature. I have attempted, however, to read all correspondence except form letters sent to you for signature from Divisions Six and Seven. I have delegated to Miss Shaeffer the duty of checking form letters prepared in these Divisions.

Steps have been taken to re-write the letter to Mrs. Hine, correcting the error in question.

I very much regret that the same was not detected by me prior to transmitting the communication to your office.

Respectfully,

Clyde A. Tolson  
Clyde A. Tolson.

10. Steps should be taken immediately to have all remaining articles carried  
of any unnecessary articles. I write this to you specifically  
every article is required now in the way of our flour, onions, flour,  
fruit, eggs, bacon, potatoes, and other articles of food. In  
this case a large amount of value of our goods. Under no circumstances  
can any articles of food or clothing be left in the car.  
as this will inevitably bring about want of some kind. A portion  
of clothing should certainly not be placed in boats.

and 1914, upon his voluntary leave no supervision whatsoever is required to the above employees. A decent coat which is placed in each vest is a supply which the men will consider too valuable to place in the cabinet. I noticed particularly in the 1914 account, where the Atlanta office does not appear to be carrying out the usual erosion reforms and a check on the damage in view of this. In the 1914 section there were on the other hand some ties which should have been removed in more advanced stages of erosion control. In this case it is evident that a number of the old methods of working are still being practiced. I think the most important thing here seems to be that the old methods are still in use. It would be well to have a number of different types of methods tried out on the various sections of the river, and not to assume that what has worked in one place will work in another. It is also apparent that the 1914 account does not seem to have in their report any mention of the fact that they have to leave in their boats to go upstream to take up the survey work. I think that an extra boat or two would be of great assistance and could be provided the same amount of time in the different sections of the river, so as to reduce the time lost, so as to give the supervisor of an office to take care of.

It is well to keep in mind the importance of having a good map of the river, and the various points of interest. And, to do this satisfactorily, probably the best way is to have one of the State Surveyors, who are obviously uninterested in any particular scheme for a river, to make the map, and that the map be kept up to date. This is the best method of the division, but our Dept. of Interior has the best map of the river, per se.

The difficulties of the roads of the division, the same type problems exist in all areas. I have personal experience in the 1914 section which, notwithstanding the excellent efforts of the Indians, Indians by name, who prepared the roads, made a number of them which were not well constructed. I found problems in the 1914 section, which were very easily rectified and eliminated, which had taken off more time than was ever lost because of the roads. I noticed also that there is a considerable variation in the quality of roads and roads which have been repaired or replaced. Some roads should have been noted by the visitor of the division and the people who have traveled the division are apparently no attention has been given to those details.

The 1914 section appears to be carrying less load of work than the 1913 section employed in that section, supervised first by Mr. and Mrs. H. Holloman and been out to in the last year, probably, all of whom of which

and I have not had opportunity to do so. I have had occasion to show Mr. Schilcher my memorandum to Mr. Clegg, but I consider his answer to be sufficient to support the statement that he is not responsible in that Division, as well as I, for serious employees. Certainly seven employees are not serious enough to warrant fourteen employees. It is obvious, therefore, that Mr. Schilcher has given little or no attention to matters of this nature.

There were at the time of the incident sixteen or more employees scattered throughout the office, in their file cases, not on desks, and some on the floor. The only thing to go by of the evidence was left on the floor, and it was a small pile of papers. In the Card Index Room there was nothing found about.

The papers scattered on the floor were usually typed appearance with the desks and typewriters being in a physical proximity for the clerical work of the Division. They had accumulated on top of desks, on the floor, on chairs, on note books, ledgers, and other office equipment, and were very large in volume. I could have easily been able to pick them up with minimal effort at the writer of the letter to Mr. Clegg, but obviously it is impossible to hold all of them in one's hands. I can only say that I could not have cleaned the floor of all of them, and continuing in this, it is left at the end of this letter.

On the next occasion, in fact same, male shorts, and a pair of socks, and a pair of men's slacks and a shirt and tie were left in our office. This was also a result of the lack of a cleaner and right in the Card Index Room. I think it is the duty of the Director for possibly the Division, or the Division, to accept in the recognition of what that last paragraph states.

There were a number of other observations which I made which refer to the carelessness of the Division, and which could easily have been obvious to the Director of the Division, the Assistant Director of the Division, and to the Inspectors who are responsible for the Division. I see absolutely no excuse that the Assistant Director, who has been charged with the responsibility of the operation of the Division, for the conduct of the Division which I observed yesterday. The Assistant Director's, normal function of a Division is to conduct its work in an efficient, orderly, and prompt, but as I have above stated, no Division can be conducted efficiently and promptly when its administrative routine is as inefficient as the Division.

In this statement, therefore, be taken to correct this inexorable conclusion. It should not be necessary for me to leave to you a personal examination of a Division in the manner in which I had to do the examination of Division 16 last evening. The Assistant Director in charge of the Division, the Inspectors responsible for the Division, and the Clerk of the IV, for whom I correctly have held him in the place of the Director, and I cannot express too strongly my dissatisfaction with all three of them for failing in properly meeting their responsibilities in

MEMORANDUM FOR MR. CULLIGAN  
CIEGGI  
DELMAT  
KNUSTIN  
TOLSON & CO.

I am desirous of bringing to the attention of the officials of the Bureau at various times the work of inspection which I consider to be most deplorable and which I trust will not fail to bring to your attention. I find from my understanding that, when an Inspector inspects a Division or field office every element in the operation of such Division or office is thoroughly gone into and which would cover the physical appearance of the office or station in the office of unuseable furniture, and the contents of the desks, tables, and cabinets in the Division or office. I note particularly that some of the Inspectors in their reports have referred to the inspection of the desks of employees and I had assumed that all Inspectors were giving this matter proper attention.

Recently, I had occasion to visit Division Nine, which had just had an inspection by the officials of the Bureau. Upon visiting that Division I was compelled to note the deplorable appearance of the same and the absolute lack of any proper administrative supervision of the routine operations of the Division. All desks which I examined contained excessive quantities of supplies, food, fruit, candy, shoes, stockings, and other most dangerous articles. Right underneath radiators and in corners of the room were shoes, stockings and coats. All in all the condition of the Division was a disgrace to the Bureau. The issuance of supplies and received absolutely no supervision and the lossage in this item alone, I think, must have run into the hundreds, if not thousands, of dollars. However, as I have stated, this Division had been but several weeks before inspected by two officials of the Bureau and they, apparently, had ignored these important features in their inspection work.

I am bringing this to your attention in order that there can be steps taken immediately by all persons performing inspection work to give proper attention to their responsibility along this line. The inspection of an office or a division is not to be performed in a perfunctory manner nor do I think that it should be necessary for me, or any other official of this Bureau, to have to inspect the work of an Inspector. I have had complete confidence in all of the Inspectors and in the fact that I have felt they were fully appreciative of the responsibilities resting upon them. I do not want to be forced to doubt in any way my confidence in them.

I hope it will not be necessary for me again to have to call attention of the officials of the Bureau performing inspecting work in any such delinquencies as it has been necessary for me to call attention to in this memorandum.

Very truly yours,

Director.

I, Clyde A. Falanga do solemnly  
swear that I will support and defend the Constitution of the United States  
against all enemies, foreign and domestic; that I will bear true faith and  
allegiance to the same; that I take this obligation freely, without any  
mental reservation or purpose of evasion; and that I will well and faithfully  
discharge the duties of the office of

Dear:

I am sending herewith a letter from Director to Agent in Charge, FBI Laboratory, concerning the return of evidence, received at the Bureau, in the case. Your prompt and ready compliance will be greatly appreciated.

Very truly yours with the required compliment of office.

Respectfully,

for the Attorney General,

(Signed) Charles P. Sisco  
Assistant Attorney General.

MEMORANDUM FOR MR. TOLSON.

I regret the necessity of bringing to your attention this particular situation. It concerns the inaccessibility of me to persons from my office bringing papers and messages which I have specifically instructed be directly conveyed to you. My intention was called to the matter many times but I have disregarded it until recently there have been several occasions when I have directed that certain information be at once given to you, or obtained from you, and upon calling inquiry of the assistants in my office, I have been informed that they have been unable to see you.

Today I had occasion to direct that a message be at once conveyed to you about a matter on which a Senator had called, and on which I wanted to advise you. Miss O'Brien, of my office, went to convey the message to you and, upon learning that Mr. Nathan was with you, left word with you for Harry to be called as soon as Mr. Nathan terminated his conference with you. Miss O'Brien was not called, even after Mr. Nathan left your office and was out of your office for a considerable length of time, until she took the matter up with you again.

I must insist that some steps be taken by you to arrange for prompt and ready access by employees from my office to you upon matters which are pressing.

Very truly yours,

Director.

MEMORANDUM FOR THE DIRECTOR.

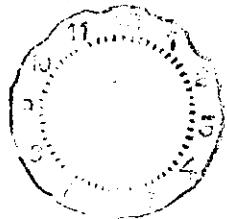

A letter addressed to Mr. A. H. Lewis, 121 Fernwood Street, Saint Louis, Missouri, on January 9, has been returned to the Bureau. It appears that this applicant resides in Saint Joseph, Missouri, and that the letter was inadvertently addressed by Miss Shaeffer X and the error was not detected by her in reading the correspondence. I regret the occurrence of this error.

Respectfully,

J. EDGAR HOOVER  
DIRECTOR

Department of Justice  
Bureau of Investigation  
Washington, D. C.  
December 3, 1930.

MEMORANDUM FOR THE DIRECTOR.

In reviewing the printed Annual Report, an error has been noted at the top of page 83 wherein it is stated that during the year 1412 Federal fugitives from justice were located by Bureau employees. This number is incorrect and should have been shown as 1413 in accordance with the tabulation of fugitives located which appears on the same page. The error in this instance was made by the writer.

The first draft of the Annual Report showed 1412 fugitives as having been located and a check of the figures in Division Seven by an accountant disclosed that this figure was in error. In re-preparing the material, the figure was corrected in the tabulation but not in the copy. I exceedingly regret the occurrence of this error.

Respectfully,

Clyde A. Tolson.

October 13, 1950.

MEMORANDUM FOR THE DIRECTOR.

I desire to recommend that certain changes be made in the Manual of Rules and Regulations in order to obviate difficulties which have arisen in Division Seven in handling personnel matters.

It is suggested that the following action be taken to the manual:- "Vouchers for Personal Service." Prior authority must be secured from the Bureau before appointing persons for permanent or temporary employment. Vouchers covering personal services should contain a reference to the Bureau communication authorizing same and the number given by the fiscal control section."

Add to Section 14, Paragraph 2:- "In order with the date said employee actually entered on duty in the field office."

Add to Section 14, Paragraph 3:- "When the services of a temporary employee are terminated, the Bureau shall be promptly advised of the actual date of the termination of such services."

Add to Section 14, Paragraph 8:- "Bureau application blanks shall be executed by all appointees."

Add following section:- "Resignations. Agents in Charge of field offices shall notify the Bureau promptly of the date of the actual resignation of official duty of employees who resign or are otherwise separated from the service."

It may be that the suggested phrasology should be amended in certain respects but I am of the opinion that the committee handling suggestions should give consideration to the foregoing in connection with possible changes in the Manual of Rules and Regulations.

Respectfully,

Clyde A. Tolson.

MEMORANDUM FOR THE DIRECTOR.

I desire to recommend that certain changes be made in the Manual of Rules & Regulations in order to obviate difficulties which have arisen in Division Seven in handling personnel matters.

It is suggested that the following section be added to the Manual:- "Whenever the Bureau authorizes temporary employment of agents and attaches and annual leave applications for permanent and temporary employees. Vouchers covering permanent services should contain a reference to the Bureau communication authorizing same and the number given by the payroll control section."

(1) Add to Section 64, Paragraph 2:- "together with the date said employee actually entered on duty in the field office."

(2) Add to Section 64:- "When the services of a temporary employee are terminated, Bureau shall be promptly advised of the actual date of the termination of such services."

(3) Add to Section 61, Paragraph 2:- "Bureau application blanks shall be enclosed in all applications."

(4) Add following section:- "Resignations. Agents in Charge of field offices shall notify the Bureau promptly of the date of the actual termination of official duty of employees who resign or are otherwise separated from the service."

It may be that the suggested phrasology should be amended in certain respects but I am of the opinion that the committee handling suggestions should give consideration to the foregoing in connection with possible changes in the Manual of Rules and Regulations.

MEMORANDUM FOR THE DIRECTOR.

I beg to refer to your recent request for information as to why the order directing Special Accountant J. S. Bryan to report at the Training School on October 6, was dispatched from the Bureau.

The records indicate that at the time of the transmission of the order for Accountant Bryan's appearance, it was not known that he was submitting his resignation. However, information to this effect was received on the same day that the letter went out from the Bureau. The error occurred in not canceling the instructions to have him report for training and the responsibility for failing to do this is chargeable to the writer.

I have discussed this matter with Mr. Egan, with whom I conferred frequently in connection with the preparation of orders regarding the Training School and he feels that both of us are at fault in not properly following out the matter.

Respectfully,

Clyde A. Tolson.

October 2, 1960.

MEMORANDUM FOR MR. CARDINAL.

I today requested that Mr. Clyde A. Tolson's name be included in those officials of the Bureau to whom invitations for official functions at the White House are issued. I have been personally advised that Mr. Tolson has ruled that it is not proper to include Mr. Tolson's name because of the fact that he is not given a field appointment. Presently I do not know who is to go with the selection of the members to whom these invitations should be sent. Mr. Mohr and Mr. Tolson are the two investigating Directors of the Bureau of Investigation. Mr. Tolson was appointed to this position on the first of September, 1930, and, notwithstanding that his salary comes from the field appointment of the Bureau of Investigation, it is my opinion that he should be included with the names of the other officials of the Department whose names are placed upon the list for the White House invitations.

I, therefore, again request, that Mr. Tolson's name be included in the list.

Very truly yours,

Director.

September 30, 1930

MEMORANDUM FOR THE DIRECTOR.

Reference is made to your recent memorandum relative to the errors which were found to exist in the Bureau's statistics for the fiscal year 1930, and in the bankruptcy statistics for previous years.

A careful check of the figures used in the annual report for the fiscal year 1930 has been made by Accountant Jackson, under the supervision of Inspector Egan, and he has found the minor errors existed in the statistics covering probationary sentences, fines, and fugitives. The errors in the first two instances occurred in the addition of the monthly recapitulation sheets, and an error of one fugitive in the total located during the year was not properly recorded.

On July 2, 1930, you addressed a memorandum to the undersigned, stating that it was your desire that the figures and statistics appearing in the annual report be very carefully checked by the writer, with the assistance of Inspectors Keith, and Egan. Copies of this memorandum were forwarded to the two Inspectors. The annual report was prepared and approved in its entirety by all Division Heads and Supervisors, with the exception of Mr. Harvey, and by Inspectors Keith and Egan. So far as I know, none of the Division Heads, Inspectors, or Supervisors, checked these statistics, but accepted the figures prepared in Division Seven. To completely check the statistics recorded in the annual report would take considerable time. Mr. Egan believes that it would take one person from three weeks to a month to thoroughly check these figures. It would appear, therefore, that the responsibility for the errors appearing in the 1930 annual report devolve upon the writer, and that Inspectors Keith and Mr. Egan were at fault in failing to carry out the instructions contained in your memorandum, to the effect that the figures should be very carefully checked.

In order to obviate the possibility of errors appearing in Bureau statistics in the future, I am submitting herewith a memorandum addressed to Division Seven, instructing that the monthly compilation of statistics prepared from the abstract slips be minutely checked by a Bureau Accountant, and that the recapitulation sheets at the end of six months and yearly periods be also checked by an Accountant.
