KEYS USED IN SURREPTITIOUS ENTRIES
SAC FOLDER 20-25 SUB C

THIS SERIAL SHOULD BE MAINTAINED AS TOP SERIAL IN THIS FILE.

On 6/28/76, a comprehensive review of the material contained in this volume was conducted by me. There is no question in my mind that each and every item, with the exception of the top serial which is a memorandum from [REDACTED] dated 7/14/72 which should remain unclassified, contained in this volume requires classification of at least "Confidential", exemption category (intelligence sources and methods) with appropriate declassification.

[REDACTED]

Departmental attorneys assigned to the Civil Rights Division who recently conducted investigation in the NYO, had access to this volume and made xerox copies of six memoranda covering the period from 4/3/70 to 7/14/72. Five of these memoranda, in my opinion, warrant classification of "Confidential", have been individually so stamped, and the Bureau will be requested by teletype to handle appropriate classification at the Department.

The classifying officer is myself, #6392, and the date of the classification affixed as 6/28/76.

Rememo SAC JOHN F. MORLEY, 6/30/72.

A survey of keys included in Tel Kee cabinet of SAC, Division IV, was conducted by [REDACTED] assisted by [REDACTED] on 7/11-12/72. All Division IV supervisors were contacted and proper keys for their individual desks obtained.

Additionally, a review of all other keys used in the past for confidential sources was conducted and keys no longer of value were destroyed. No key was destroyed without specific authority of the supervisor to whom substantive case file involving the key was assigned.

A new numerical index card was typed up and placed in the Tel Kee cabinet.

Reference is made to memorandum of SA [REDACTED] captioned as above, dated 1/16/57 and designated for file 66-6182A.

The two keys described in re memo which were obtained from an informant have been found through later investigation to no longer fit the doors indicated on the third floor of SWP Headquarters. These keys are therefore being destroyed, and it is noted that keys that do fit the present locks on these doors have been obtained as described in a separate memorandum.

Re: NY 100-4013

On 4/20/59, through the service of [REDACTED] a key was obtained to the third floor front room (office of New York Local, SWP) in the SWP Headquarters building at 116 University Place, New York City. This key is also being maintained in the Tel-Kee cabinet in the office of ASAC N. H. McCabe, Hook No. 31, and is to be retained indefinitely.

Note (2/7/66)

SA [REDACTED] #44: In late December, 1965, the SWP moved from 116 University Place, New York City, to 873 Broadway, New York City. Keys for the new address have been obtained and are maintained on hook #53, Tel Kee cabinet in SAC RONEY'S office. These are:

1. Key to front door to building.
2. Key to side door to building on East 18th Street.
3. Key to stair door into boiler room.
4. Backdoor key to SWP space on 2nd floor.

Keys to former address at 116 University Place, NYC, have been destroyed.

On December 2, 1958, [REDACTED] a confidential source of the New York Office, furnished key to [REDACTED] at [REDACTED] New York City, and on the same date a key was made from it. This key has been tested and it works very well. It is to be noted that this apartment is not yet occupied by the subject, but it is contemplated that he will move in in late December, 1958, or early January, 1959. The key is to be retained until it is determined whether the subject occupies the apartment, and if he does so, it is to be kept indefinitely.

This key is being maintained in the Tel-Kee cabinet in the office of ASAC N. H. McCabe, hook No. 29.

In connection with keys maintained in NYO which pertain to confidential techniques employed, the following procedure is recommended:

- (1) Keys obtained for the purpose of carrying out confidential techniques will be maintained under the control, supervision, and custody of the ASAC of the Division handling the cases to which they pertain. They will be maintained in a locked Tel-Kee cabinet at all times. The Tel-Kee cabinet will be maintained in the office of the ASAC. The keys will be released to investigative personnel by the interested ASAC only.
- (2) Upon receipt of a key pertaining to a confidential technique by an investigative Agent, a memorandum will be prepared by him for the subfile of the June file. This is File No. 66-6182-A. This memo, prepared by the investigative Agent, will describe the premises to which the key pertains and any other data believed essential, describing the premises and the utilization of the key. This memo should also include a comment as to the probable duration for which the key should be retained.
- (3) All ASACs maintaining Tel-Kee cabinets with keys pertaining to confidential techniques contained therein, will maintain an administrative tickler on each key in order that he may assure himself periodically whether or not further retention of the key is necessary. If it is ascertained that the key is no longer necessary, appropriate action should be taken to so record this fact in NY File 66-6182-A, and to appropriately dispose of the key.

NOTE: This memo will be the basis for opening a subfile of the June File -- 66-6182 and will be designated as 66-6182-A. (u)

Each ASAC having a Tel-Kee cabinet on keys utilized in connection with confidential techniques must have prepared by the investigative Agent interested in such keys a separate memo, as indicated in Item 2 above, for the Subfile of the June File -- 66-6182-A. When all memoranda have been written, the ASAC should advise [redacted] of same. (u)

Alarm Systems

It has been learned that many of the new apartment houses and office buildings have equipped the space occupied by their tenants with alarm systems, which will alert representatives of the management when unauthorized persons enter the space of their tenants. The alarm is activated by the tenant when he leaves his space, and is deactivated when he returns.

[REDACTED] has brief write-ups on the security setups in a number of office and apartment house buildings where we have made investigations in connection with ITSP violations. These write-ups are available for review to any Agent having an interest in the alarm system in any particular building.

A DIRECT CONTROL FROM APARTMENT
TO BUILDING LOBBY... WHICH SETS
OFF AN ALARM IN A FLASH WHEN
AN INTRUDER ENTERS WHILE A TENANT
IS OUT.

How The Guardsman Alarm System Operates . . .

When a tenant leaves his or her apartment, the tenant informs the doorman who in turn immediately activates the electronically controlled GUARDSMAN ALARM SYSTEM which automatically puts the apartment on the alert.

Upon the tenants return to the building doorman deactivates the apartment. If during the tenant's absence anyone attempts to enter the apartment through the door or tampers with the door, the GUARDSMAN Control Panel alerts the proper authorities who will take immediate action.

What the Guardsman Alarm System means to the tenant and owner

1. Tenants have greater peace of mind and safety.
2. Insurance rates are lower particularly in buildings located in areas of high crime incidence.
3. Tenant can leave the apartment for a day, week or month and the Guardsman Alarm System will be on the constant alert.
