Senate Office Building, Washington - This week Congress bitterly condemned the Military for using enlisted personnel as servants. At the very same time and very hush hush, the U.S. Senate pigeonholed a rule. This rule would require Senators to make public their own payroll. In other words, everybody wants good government for the other fellow. It is terrible for an enlisted man to work for an officer but perfectly okay for a U.S. Senator's relative to get paid for not working for a Senator.

Gibraltar - Major intelligence departments debunk the so-called rebellion inside Spain. This is claimed to be backed by one of Castro's self-appointed generals. It is without foundation. It does prove that Castro is permitting top Cuban posts to go to pro-Reds. The showdown with Washington will come over the sugar quota when it should come over Cuba going Red.

Comment:

Winchell probably has reference to General Alberto Bayo Giroud, a veteran of the Loyalist Army in the Spanish Civil War who was an instructor in guerrilla warfare for Fidel Castro in Mexico prior to Castro's return to Cuba. Bayo is now in Cuba.

Reporters who heard Hoffa make that threat repeat that he was not misquoted. Hoffa's press department wrote me the following. That Hoffa says he could not tie up transportation nationally nor the lines in New York. That he never even thought of such tactics - quote I wouldn't do anything, said Hoffa, to hurt our country end quote. Winchell said:

The civil rights map of our country provided a very bitter contrast this week along with an unparalleled piece of official hypocrisy. The good side of the ledger was reported from Little Rock where the Americans of that community completely reversed the dark age mentality of Governor Faubus. They recalled his candidates from the Little Rock school board. But in Washington, D.C., a farce was enacted in a Federal courtroom where the Congress, with the help of the U.S. Attorney General, fought to keep secret its own public payroll. The American Society of Newspaper Editors has petitioned Congress to remove from itself the long green curtain which hides from the public where its money goes and so it remained for a newspaperman who filed a lawsuit for his right to know in order to tell you the people. The U.S. Attorney General stepped in to defend the alleged right of Congress to keep secret public payrolls, all of which your hard-earned taxes pay for. How hypocritical can they get. These are the very same politician who urge you to take an interest in your government. They are the ones who blame everything that goes wrong on your lack of interest. These are the very same lawmakers who send people to prison for contempt if they refuse to answer their questions but they, the Congressmen, won't reveal who is on their payroll. What they mean is that they want you to take an interest in all government functions except the one in which their own families are interested. The American Society of Newspaper Editors is fighting. Freedom of the press will not mean much if the government can conceal facts from your newspapers. Ironically, Congressmen who have something to be afraid of can avail themselves of the defense they most rail against - the Fifth Amendment. And why are your editors fighting this fight? Is it really so important that unnamed people can be on the

Philadelphia - Communists in the city of brotherly love have just received orders from the national leadership in New York City that this must be kept a secret; that only those attending the secret Communist Party youth classes in Philadelphia next month should know the dates. Well, I am not attending any of these "commie" classes so I guess it is all right for me to know the dates. They are June 6 to June 15. The next secret meeting of the National Committee of the Reds will be held in Manhattan on July 25 and July 26. Oh yes, a very secret 9-day course to indoctrinate youth in the party will be held in New York City from June 6 to June 14. You know - I feel like a calendar.

Comment:

Winchell said:

1. New York City - Internal Revenue will add to Frank Carbo's troubles. Insiders tell me that Carbo will not be able to settle it. The Government wants him fined and jailed.

2. Managua - The situation here will grow far worse before it gets better. Nicaragua has achieved a new global and strategic importance. Our leading engineers have calculated that six controlled atomic bombs could dig a new Panama Canal through this Central American nation.

3. Halifax - The United States Navy yesterday announced that it took a picture of a Red submarine in the North Atlantic sea lanes. The Navy, however, did not disclose the following news. That this sub was sighted south of Iceland and that it was proceeding west.

4. Paris - ^{Charles} ~~President de Gaulle~~ ^{France} has stunned the NATO command by demanding that all NATO nuclear warheads now stored in France be under control of the French armed forces. This is against American law. D

5. Havana - He will probably deny it, but ^{Fidel} ~~Mr. Castro~~ ^{Cuba} is reconsidering on his land reform act even though it is not official. His own brain trust keeps telling him that he is very likely to give Cuba a financial panic instead of farmers owning their own homes. The big catch, ladies and gentlemen, is this: Cuban farmers do not get the land. They get the right to work on it just like they do in Red China.

Re: Walter Winchell Broadcast

6. Despite the headlines to the contrary, Speaker Rayburn and Committee Chairman Barden grimly state that there will be a labor reform bill with teeth in it.

7. The President's call to investigate the munitions lobby will lead straight to the high contributors to both parties. This means that after the headlines wear off that investigation will quietly commit suicide.

8. Mr. and Mrs. United States - The headlines from Geneva are concealing the news. Neither Geneva nor a summit conference will settle the situation at Berlin, much less the differences between communism and the West. The reason is this simple. Berlin did not cause a crisis. The Reds wanted one and used Berlin for the excuse. The reason Moscow wants a crisis is that it always picks up some concessions and the crisis always takes the spotlight off the next sector they intend to strike.

While you are watching Geneva and the Middle East, they will next strike right under your noses in Latin America. The Red high command right now is plotting two beachheads--Cuba and Brazil. They will get the Czechoslovakia treatment. That is, first a tremendous drive for a coalition government. Then they will attempt to take over the ministries of police and communications. If they accomplish this, it will be curtains--red curtains. For this, Russia is building a great supporting fleet. While your eyes are following their sputniks, the Reds are building submarines 6 times faster than we are. They are building destroyers at 9 times our rate. And they are building cruisers 14 times more rapidly than us. In fact, the Red navy has added 2,700 new ships since the last so-called peace conference at Geneva.

As I stated many weeks ago and as the front pages confirmed all week, there will be no solution at Geneva for the simple reason that the Reds want a continuing crisis and above all they want no solution of anything. They know that the best way to make war is to convince our fools that they, the Russians, want peace. Sure, they want a piece of you. Khrushchev himself minced no words when he threatened publicly "We will bury you."* Russia

Re: Walter Winchell Broadcast

9. Washington - Ladies and gentlemen, the following is supposed to be the low-down on British Foreign Secretary ~~Lloyd~~. The story was a bombshell when the London Times disclosed that he would be removed from his high post, the equivalent of revoking his credentials at the Geneva conference. Although it has since been denied, Mr. Lloyd will be dropped. He is regarded as the least able man of the last 50 years by his superiors, I am told. As an example, he spent hours on his way to the funeral of Mr. Dulles launching a personal attack on our top ambassador Robert ~~Murphy~~. Mr. Lloyd, accordingly, made this attack to our Secretary of State Herter. The Secretary of State and the White House were more disgusted than angered. *Washed*
Switzland

10. Washington - What is the real reason for the U. S. Senate's delay in confirming Admiral Lewis Strauss, the former chief of the Atomic Energy Commission? The people are beginning to sympathize with him. They always do with the underdog. The President especially, because the President does not appoint men to high posts unless they deserve the job. The insiders offer this very simple explanation. When Mr. Strauss was top man in atomic energy, he stepped on a few very sensitive toes, men with power. They have very powerful friends in the U. S. Senate and this is "getting even time." *Wash. DC.*

The following remarks made by Winchell are set forth with appropriate comment for your information.

Comment:

The above statement has been checked with Supervisors handling Smith Act, communist infiltration of labor, Labor-Management Relations Act, and related matters. They are unaware of any specific notice from the Department that it is gathering evidence to obtain indictments of Hawaiian communist leaders.

Winchell said:

13. Philadelphia - Communists will flock to a public meeting to be held June 12 at a leading Philadelphia hotel. The purpose of the gathering is to discuss ways and means to abolish the House Committee on Un-American Activities. The group sponsoring this meeting is called the Emergency Civil Liberties Committee. The FBI will be there representing you.

Re: Walter Winchell Broadcast
June 14, 1959

6. Bagdad - Premier Kassim of Iraq has sent word to London that Nasser and Khrushchev are making overtures to him but getting nowhere.

7. San Jose, Costa Rica - The rebellion in Nicaragua is far from over. New battalions are ready for another attack.

8. Paris - Relations between Paris and Washington are very strained. So much so that American General Norstad has urged that NATO headquarters be moved to Holland. De Gaulle is going very far out of his way to humiliate the American ambassador.

9. Washington - Jimmy Hoffa's new big Teamsters' office building in Washington is up for sale. The Government looked it over as a possible purchaser. They found it too swanky and elegantly appointed for Government use.

10. Washington - Senator McClellan is paying the price of fighting racketeers. He is now receiving the attention of specialists for a very dangerous liver ailment.

11. Mr. and Mrs. United States. The Nation celebrated Flag Day today to remind you that the flags you are flying didn't get there by accident or miracle. Tens of thousands of American men in Washington's army died to raise it. Nearly two million other Americans shed their blood to keep it there. The American flag, ladies and gentlemen, will keep flying so long as there is breath left in one American's body. That flag now flying from your window or porch bears no postmarks. But it was delivered to you over the most heroic route in history. From the home of Betsy Ross it went to the plains of Saratoga. From Saratoga to the fighting mast of the USS Constitution. Then to Chapultepec, up San Juan Hill, then across the Rhine, and back home by way of Iwo Jima and many other places across the not-so-peaceful Pacific. It was carried and protected and fought for by American men and women who passed the ammunition instead of the buck. That's why they call it "Old Glory." Over one million American ghosts are marching down your main street on this summer day saluting that flag. If they weren't, you would be saluting a Nazi or communist parade right now.

Memorandum to Mr. C. A. Tolson
Re: Walter Winchell Broadcast
June 14, 1959

They would be very much alive although your freedom and your soul would be dead. The American flags now flying measure the heritage of the past and our duty to the future. And only if it is flying 100 years from now will we have done our part in paving the American way for our children and the world.

12. Tallahassee - The jury's recommendation of mercy in the rape of a Negro coed made a lot of Americans wince. If a Negro was so charged, he would have received the death penalty or a lynching. If the jury had not recommended mercy when they found these four white cowards guilty, the judge would have been forced to send them to the electric chair. Now his honor can let them off with a reprimand or give them life. He probably will give them a very stiff term in prison. When you lose your liberty 24 hours a day, it is a lot worse than getting the electric chair because you suffer agony trying to remember what a woman looks and feels like.

13. New York City - Police Commissioner Kennedy will release another blast at the mayor very soon.

The following remarks made by Winchell are set forth with appropriate comment for your information.

Winchell said:

14. New York City - A new book, a rehash of the familiar attacks on the late Senator Joseph McCarthy, is due any day. It will be met with a million dollar libel suit before it hits the stores.

Comment:

The book mentioned may be "Senator Joe McCarthy" written by Richard H. Rovere, Washington, D. C., correspondent for "The New Yorker" magazine. It reportedly will be placed on sale to the public this week.

Memorandum to Mr. C. A. Tolson
Re: Walter Winchell Broadcast
June 14, 1959

Winchell said:

15. Detroit - Communist leaders will conduct a secret training course for comrades in Detroit from June 20 to the 28th. Employed persons will attend in the evenings. The unemployed will attend in the days. Some of the subjects will be class struggle, exploitation, imperialism, capitalism, and other red problems. The communists will print 100,000 flyers condemning the U. S. bombing of Hiroshima. They will be passed around from coast to coast during "Hiroshima Week" next August. Communists are backing the hospital strike 100 per cent in New York City. They are supplying food, advice, and pickets to keep it prolonged. My Cleveland editors are herewith informed that communists hope to take over a peace rally planned for the Cleveland Arena. It is sponsored by Protestant churches which probably do not even suspect it.

Comment:

We are aware of the Communist Party, USA, secret training course to be held in Detroit June 20-28. Coverage has been arranged.

The Party plans to issue 100,000 flyers on the U. S. bombing of Hiroshima in 1945. The flyer will reportedly condemn nuclear and atomic weapons testing and complain of fall-out dangers.

The Communist Party, USA, has publicized and supported the strike of New York City hospital workers against six hospitals in that city. Local 1199 of the Retail, Wholesale and Department Store Union AFL-CIO which is involved in the strike is the subject of a communist infiltration of labor investigation.

We are aware of communist intentions to support and infiltrate the peace rally planned for the Cleveland (Ohio) Arena for July, 1959.

Winchell said:

16. Is Batista still in the country to which he fled? One rumor up here says he hasn't been seen there for five days.

Re: Walter Winchell Broadcast
June 14, 1959

Comment:

We have received information that as of June 11 Batista was reportedly still in the Dominican Republic to which he fled in January, 1959.

Winchell said:

17. Detroit - Labor leader Phil Weiss' trial starts on June 15th. He is charged with stealing parts from Willys-Overland. This case will start a fuse which is sure to explode all over Washington, D. C.

Comment:

Phillip Weiss is the subject of an Interstate Transportation of Stolen Property case. A former conviction in the case was reversed on appeal on the grounds of legal technicalities. This case is scheduled for retrial June 16 according to latest information from the Detroit Office.

Winchell said:

18. Washington - The House Committee which investigated Sherman Adams will next open fire on the Department of Justice and the U. S. Attorney General. This committee will investigate charges that the Department of Justice attempted to influence two big Government agencies, namely, the Federal Communications and the Federal Power Commissions.

Comment:

Winchell is probably referring to the Special Subcommittee on Legislative Oversight of the Interstate and Foreign Commerce Committee of the United States House of Representatives.

The following remarks were made by Winchell on which no comments are considered necessary. They are for your information.

Winchell said:

1. Miami - Paraguay is on the verge of civil war. Dictator Stroessner's army versus university students and farmers. Blood has already been shed.
2. Havana - Doctor ^{Cuba} Castro may be married in the next six weeks. His bride-to-be may be the girl who served with his rebels for over two years.
3. Caracas - Venezuelan intelligence agents have arrested the top undercover gang for Dictator ^{Dominican Republic} Trujillo. They were taken at pistol point.
4. Bern - The odds tonight are 2 to 1 that ^{Russia} Khrushchev will accept the conditions of the West provided a summit conference is held. This means Khrushchev thinks he has the lead in rockets and missiles and he wants another territorial pay off.
5. Mr. and Mrs. United States - Fifty years ago an international conference meant an assembly of nations intent on the common objective of peace by agreement. But history changes the meaning of words as well as boundaries on maps. Today, an international conference means meeting the challenge to an international group where the weapons are threats to define borders by force. To millions who do not understand this, the Geneva Conference is a failure. The fact is, however, that it could never be a failure because it was never a conference in the first place. The Russians insisted on it, not to find any peaceful solution, but to intensify the crisis and then win concessions by pretending to ease the tension. In short, 1939 is repeating itself in 1959. And the really great danger

is in misleading the Reds by giving in to them. The only great danger of war is this: our President has told them that we will yield no further. If we give any sign of yielding, they will think the President is bluffing--and he isn't. Hitler was the most stunned man in the world when the Allies went to war over Danzig. He yelled and he screamed that the Allies had misled him. From his mad man's viewpoint he was correct because they didn't go to war, though they said they would, when he took the Rhineland, when he took Austria, when he took the Sudetenland and so on. So, why shouldn't he believe, he said, that they were bluffing about Danzig? The Allies didn't stop Mussolini when the Duce took Ethiopia and Albania. Why now? That is why 1959 is such a deadly parallel to 1939. The danger is that the Reds, like Hitler, may not believe that they have stretched the elastic to the breaking point until it snaps into another world war. It is doubly ironic that our President's efforts to save the world from war is of greatest service to the Russian people. Eisenhower is trying to save them from the price of Hitler's victory at Munich which the German people had to pay at bombed-out Berlin. It is doubly ironic that our President must remind them of Hitler's folly because Hitler invaded Russia 18 years ago today, and Hitler's fatal mistake is now Khrushchev's policy.

The following remarks made by Winchell are set forth with comment for your information.

Winchell said:

6. Dominican Republic - Insurrection has broken out in this Latin-American country. A liberation movement is fighting day and night. The embassy and consulates in the United States keep denying it. Congressman Porter of Oregon, however, makes it all public in the "Congressional Record" for June 17.

Comment:

Conflicting reports have been received on the invasion of the Dominican Republic on June 14. The Bureau has disseminated considerable data from Dominican exiles in the United States and other Bureau sources.

Winchell said:

7. Newark, N. J. - Executives of the Prolap (Phonetic) Committee which still protests the Rosenberg Spy case will soon receive a very big shock. Charges of criminal contempt.

Comment:

Bureau files are negative re the Prolap Committee. A letter has been directed to the Newark Office on today's date on above matter.

Winchell said:

8. Oslo - American federal men have discovered the secret of the so-called fishing trawlers flying the Soviet flag. They carry electronic devices which enable them to tap the underwater telegraph and telephone cables.

Winchell said:

9. Los Angeles - ^{Col. 8} Communists from five western states and British Columbia will meet in ~~LA~~ from June 26 to 28. They are gathering there to figure out how to get Morton Sobell free. Sobell is doing 30 years in Alcatraz for his part in the Julius and Ethel Rosenberg spy case. The next secret meeting of top reds will be held in New York City June 25. At another secret meeting held here, the communists decided to support a steel strike if strike talk stays. On June the 11 top red leaders here decided on their strategy for both parties in the 1960 national campaign. "Peace with Russia at any price." It will be rejected except, of course, by the pinks.

Comment:

The Bureau is aware of the above items. Appropriate action is being taken.

The following remarks were made by Winchell on which no comments are considered necessary. They are for your information.

Winchell said:

1. Caracas - The tension is mounting all over South America. The intelligence war is employing new tactics. Instead of sporadic invasions, insiders expect a wave of outright assassinations. From Buenos Aires to Havana the whole continent is nearing explosive eruption.
2. Veracruz - Dictator Somoza of troubled Nicaragua is trying to get assurance of political asylum from England or France. The rebels, by the way, are not yet decisively defeated despite this man's (Somoza's) statement.
3. Havana - Cuban schoolbooks are now printed with red propaganda in the text.
4. Miami - Another troop ship has left Venezuela. It is on its way to Cuba to pick up more men for a landing in the Dominican Republic.
5. Mr. and Mrs. United States - Practically everyone knows that there is an international crisis. But the question of why, especially at this time, remains unanswered. The answer is mathematically simple. At this time, Russian production has reached 40 per cent of American production. That is, country for country, we are two and one-half times stronger than Russia. But the European NATO countries produce nearly 75 per cent as much as we do. Therefore, if Russia can dominate those countries, she can add that 75 per cent to her 40 and thus be stronger than us. Cheerful arithmetic, isn't it? Mr. Khrushchev believes he can do this at Berlin right now without fighting a war. He thinks that if he can show that he is so powerful at Berlin, we will back down and the rest of Europe will fall in line. In this Mr. Khrushchev is correct. Because, without American support, the European nations are mere suicide battalions against the powerful Red Army. They would

collapse without fighting overnight. That is why, even though the Geneva conference is called a draw so far, it is a very great victory for President Eisenhower. If Berlin falls, the Reds will not have to march to the channel. Their great shadow from Berlin will fall over and dominate every European city. It is a heart-breaking fact tonight that no man in history has ever carried one-tenth the burden of our President. Let us be thankful that civilization and freedom never had a stronger champion.

6. Miami - Dictator ~~Trujillo~~ has the yacht Angelita anchored near his shoreline loaded with loot and relatives. It is ready in case the dictator has to flee. The rebels are beating his army in the mountains. The Angelita, by the way, is the same yacht that made the headlines when his son entertained Zsa Zsa Gabor, Kim Novak, and other Hollywood characters.

The following remarks made by Winchell are set forth with comment for your information.

Winchell said:

7. Washington - Jimmy ~~Hoffa~~ and the ~~Teamsters~~ Union have more hot water coming up. Attorney General Rogers of the Department of Justice has eight Federal grand juries investigating that union right now. In Washington, New York, Miami, Los Angeles, Philadelphia, Pittsburgh, Chicago, and Indianapolis.

Comment:

We are not aware of any investigations of Hoffa and his union by Federal grand juries.

Winchell said:

8. New York City - ~~Leading~~ communists are meeting secretly right now in New York City. They came from many states. The FBI is there in bunches, too.

Comment:

We are aware of this meeting which was called to discuss plans for the Seventeenth National Convention of the Communist Party, USA, to be held in November, 1959, in New York City.

Winchell said:

9. Havana - Another Cuban rebellion may explode around August 1st if plans to assassinate both Castro brothers come off.

Comment:

We have received and disseminated information on plans for a revolt in Cuba and for the assassination of Fidel Castro.

Winchell said:

10. New York City - Department of hypocrisy. Frol Kozlov, the Kremlin's number two man, arrived in the United States today speaking words of peace and friendship. But listen to what he said in Russia. Here it is: "The American imperialists, now taking upon themselves the role of world policemen, are trying everywhere to smother freedom and implant fascism." 1. Havana - Cuba is mobilizing and training all boys from 12 to 16 to fight any invasion.
2. Oriente Province - Dr. Castro will resume the trials for enemies throughout Cuba. There are over fifteen hundred anti-Castro people now awaiting trial and the firing squad.
3. Havana - The Castro government is so divided and unstable that not even the communists want to deal with it. The big question in Cuba today is, who succeeds Castro? - from liberator to fool in six short months.
4. Rio de Janerio - Red submarine packs suspected of running guns are operating off the South American coast from Rio to the Falklands
5. Frankfurt - The West is ready to take advantage of unrest in the Red satellite nations in case real shooting trouble starts, especially a force being trained in Bavaria to organize guerrilla operations in the satellite countries. The Unit involved is the Tenth Special Forces Group of the United States Army.
6. New York - Governor Rockefeller wants former GOP House Leader Joe Martin for permanent chairman of the next Republican Convention. Martin, strong for Rockefeller, could make sure there was no stampede to nominate Mr. Nixon.

us all American imperialists trying to force fascism on the world. He has since confirmed his real feeling about us. He had the gall the other day to tell the National Press Club members that Russia will fight us if we don't agree on Berlin and so on. Thanks to the Mayor of Detroit, who returned that compliment by telling Mr. Kozlov, the Red, he would not welcome him to Detroit and not to come there tomorrow. Our State Department is in a "tizzy" over that Mayor's rebuke. Well! that's too bad. Most Americans probably enjoyed Mayor Miriani's attitude, especially on Independence Day weekend.

8. Santiago - A new rebel force of 450 men was landed in Nicaragua. They proceeded to the mountains to join other forces. Dictator Somoza has a plane ready to escape if they overthrow him. His helicopter is on the alert to fly him to the getaway plane. (We have no information concerning this.)

The following remarks made by Winchell are set forth with comment for your information.

Winchell said:

9. Miami - Two yachts 72 feet long are standing by near the greater Miami area to carry men and arms for an invasion of Paraguay. They will transport anti-dictator fighters from other Latin-American places. They plan to land in Argentina and then march on Paraguay.

Comment:

We have received no information to support the above and we have developed no data indicating that any rebel groups in United States are planning for any invasion of Paraguay. Although there appears to be no violation within our jurisdiction, the Miami Office is being instructed to verify the presence of such yachts and obtain available information concerning them.

Winchell said:

10. Miami - Castro's July 26 Movement is now the date for another revolution against him. The anti-Castro movement is gaining momentum. The resignation of his air chief was the signal to supporters in and outside Cuba that they are ready. The former Castro air chief may head the new rebels if he isn't shot.

The former Chief of the Cuban Air Force, Pedro Luis Diaz Lanz, arrived in the United States on 7/2/59, and has been interviewed by the Miami Office. He advised there is widespread counterrevolutionary sentiment among members of the Cuban government, armed forces and the population toward forming a block of public opinion to oust Castro without violence.

Winchell said:

~~MARCEL LEONIDAS TRUJILLO~~ LATAM

1. Caracas - The Latin-American volcano will erupt at the feet of Secretary Herter. The friendly Latin-American countries will bluntly tell Washington that Trujillo's agents are trying to upset their governments and that they could handle this dictator if Washington would only stop helping him.

~~X. P. - IRAN~~

2. Karachi - The communists are centering a terrific drive on Iran. If Iran goes, the Middle East will be flanked. Persian leaders are very busy sending their fortunes out of that country. That is the real tip-off on big trouble.

3. Bern - The inside story on the Geneva Conference. It will see a lot of bare knuckles again but no military punches. They say a summit conference is almost sure. They will decide on that around the 27th.

4. Bagdad - Iraq is stiffening against Red foreign policy and their fifth column. The good news is that Iraq is far from lost, although many lives will be before that issue is decided.

~~RUSSIA TO VISIT TO RUSSIA~~

5. Washington - Radio Moscow, surprisingly, is ordering the people to give Mr. Nixon a very big welcome. They are urged to make it a wild demonstration. The Vice President has been studying Russian for the past two months. He is expected to astonish the Russian leaders when he talks with them in their own double-talk.

6. Postmaster General Summerfield will run for the Senate in Michigan next year. He will try to win the seat now held by Democrat Pat McNamara.

8. The intimate friends of Governor ^{NELSON} ~~Rockefeller~~ ^{USA} are very certain that he will seek the Republican nomination for President in 1960.

9. Poll taker, Lew Harris, has told Senator ^{JOHN F.} ~~Kennedy~~ ^{DE} that he, Kennedy, can sweep the big State of Pennsylvania at the Democratic Convention.

10. Washington - Here is an ^{PAUL} important fact behind the split in the Democratic Party over Chairman ~~Butler's~~ attack on the Democratic Congress. Mr. Butler is regarded as spokesman for the powerful combination of Stevenson and Governor Brown of California. His tough words are considered attacks on the Johnson-Kennedy slate. Kennedy's forces rallied instantly to Senator Johnson. Kennedy, by the way, will enter the California primaries to fight Governor Brown on his home ground.

Winchell said:

1. New York City-Virginia McManus, former schoolteacher, convicted as a call girl will soon make big news again. She will cover the extortion trial of the police lieutenant who arrested her recently in a vice raid.
2. Geneva-The Foreign Ministers are on the verge of an agreement regarding a summit meeting. They will announce the date about August 14th. Khrushchev wants Stockholm. The West prefers Geneva. There is little chance of a summit affair being held in the U.S. because prima donna De Gaulle feels that Mr. Eisenhower should visit him first.
3. West Berlin-Last year the East German Reds announced that they were cutting down their army from 120,000 to 90,000 men. This week they enlarged their army to 150,000. Moscow, by the way, is supplying new mobile armor and MIG fighting planes. East Germany is forming an army division made up entirely of women.
4. Ankara-Our Government knows definitely that the Russians have a vast arsenal of guided missiles in this area. Even if we had crash program we could not equal their rocket power for at least three years.
5. Chief Justice Earl Warren according to Capital rumor will join the big parade of American leaders to Moscow in the fall.
6. The Panamanian Government is readying a legal case to be presented to the UN demanding possession of the Panama Canal. The inside talk is that they are really using their case to get a big percentage of the canal receipts.

7. Paul Butler, the National Chairman of the Democrats, stated last week that a western senator tried to get his job. He didn't name him. His successor may be Senator Clair Engle of California.

8. Havana-A letter from a friend of mine in Cuba confirms many things we have heard about Castro. His agrarian reform, for instance, gives the Cuban Government control over all the land owned by each individual except 1,000 acres. This farmer's land was once worth about \$1,000,000. It is now reduced to a value of \$50,000. Anyone who opposes the program will be shot. My source in Cuba also said that the Reds in Cuba have rewritten the school books and that Catholic schools will probably be closed. Castro, who denies that he is a red, is the target of a current Cuban wisecrack. It goes like this; Castro is like a watermelon, olive green on the outside, red inside.

The following remarks made by Winchell are set forth with comment for your information.

Winchell said:

9. Havana-This is the explanation of Castro's resignation, more significantly his withdrawal. In internal politics a resignation is only offered in strength, that is, it is offered when it would be impossible for the opposition to accept. Mr. Castro knew that the Cuban president could not govern without his support. Also, that acceptance of his offered resignation would bring Cuba into more fighting which he, Castro, would win. So, he forced his president to quit. Castro found out that he, Castro, is not as strong as he thought and that if his resignation was accepted he might not be strong enough to get back in.

Comment:

We have been advised by the Legal Attache at Havana that Castro resigned without giving a reason. Sources believe the resignation is perhaps due to a disagreement over President Urrutia's statements strongly attacking Communism. Sporadic strikes have broken out and it appears Castro will operate so as to have his recall demanded by a spontaneous demonstration of the people.

Winchell said:

10. Washington-The State Department is expected to issue a visa for Mr. Batista next week allowing him to enter. It means we will have to protect him from assassins.

Memorandum to Mr. C. A. Tolson
Re: Walter Winchell Broadcast

Comment:

The Bureau has been aware of the fact that Batista has been attempting to obtain permission to enter the U.S. Since this is a matter for State and INS, we have alerted appropriate field offices to take no action if Batista comes to this country.

Winchell said:

11. Montevideo-The center of a Soviet spy ring in Latin America has been located by U.S. Intelligence. More than 50 diplomatic pouches move every week between Moscow and the Red embassy in Montevideo. This embassy has a staff of 70 to issue tourists visas.

Comment:

We have received no information concerning such a spy ring. A communication will be directed to the Legal Attache for his comments in this matter.

U.S.
 Taylor Grant is substituting for Walter Winchell who is on vacation. During the majority of his program, Mr. Grant discussed the situation in Cuba and Vice President Nixon's visit to Moscow. The following summaries of the afore-mentioned topics are set forth for your information:

The situation in Cuba

A baseball game was called on Sunday because of a revolution. The game between Rochester and Havana was called off when the Rochester team refused to take the field after one of its coaches had been hit by a spent bullet during a game the previous night. The bullet was probably fired by a Cuban celebrating the sixth anniversary of Fidel Castro's July 26th Movement.

Amid the excitement and confusion the question is raised who is Castro? To Major Diaz, his former Air Force chief, Castro is a Moscow-trained communist. To the one-half million peasants he is a god. To the United States he is an enigma, and an increasing problem. The riddle of Castro is illustrated by one of America's newspapers, "The New York Times." "The Times" has two experts on Cuba who take opposite views on Castro. Herbert L. Matthews, veteran Latin-American correspondent, who visited Castro in the mountains during 1957 refutes the opinion of Major Diaz. Matthews claims that Castro is not a communist, that there are no communists in key positions in Cuba and that communists have no influence in Cuba. On the other hand, Mrs. R. Hart Phillips, who has been covering Cuba since 1957, U.S. claims key figures in the Cuban Government are communist sympathizers or collaborators and that Castro's government is following a communist pattern.

Vice President Nixon's visit to Moscow

Although Vice President Nixon's conversation with Khrushchev have been criticized by elements in Great Britain, these conversations may be the communications that could lead the world to peace. Both men revealed the fears and insecurities of their people and by revealing them in a language both sharp and good humored they seemed much more human and understandable

to all people who have trouble decoding the diplomatic double-talk which is the theory of secret diplomacy that the British press is clamoring for tonight. The conversations have been interesting and they have interested many people. These talks could be the missing link in the communications between peoples, that is, the leaders talking, not at some imaginary summit high above the heads of the people but with the people looking over their shoulders and keeping score.

SUBJECT: WALTER WINCHELL BROADCAST
AUGUST 2, 1959

Taylor Grant substituted for Walter Winchell who is vacationing. There was no mention made of the FBI during Grant's commentary. He devoted the major part of the program to expansion of the following points:

1. Khrushchev's prospective visit to the US

Grant speculated as to the probable reactions of various interests in this country to a visit by Khrushchev. He said Congressman Walter would probably act to have Khrushchev's admission barred on the ground of his "Red leanings." Others, said Grant, would jump prematurely on the "swords to plowshares" bandwagon.

The commentator proposed an Eisenhower-Khrushchev meeting which would take the form of a world-wide, unrehearsed radio broadcast. He suggested that such mass communication of a free exchange of ideas between leaders of the US and the USSR could accomplish more in an hour than six weeks of negotiations at Geneva.

2. The proposed 3rd major league for baseball

Without naming names, Grant reported the generally unfavorable reaction among present major league officials to the proposed Continental League. He deplored this attitude and stated that any new league should stand or fall on the basis of its ability to compete and not be smothered by unfavorable public sentiment whipped up by those already in the business.

3. Football-the Liberty Bowl

Grant gave background concerning the first major post-football-season bowl game in the East. The Liberty Bowl, to be held this year on December 19, at Philadelphia Stadium which seats 100,000, will, according to Grant, be a boon to education because the greater portion of the proceeds will go to schools.

Taylor Grant substituted for Walter Winchell who is vacationing. There was no mention made of the FBI during Grant's commentary. He devoted the major part of the program to expansion of the following points:

1. The Cuban Situation

The meeting of the Organization of American States in Santiago, Chile, will consider charges made by General Trujillo that Fidel Castro plotted an invasion of the Dominican Republic. Grant speculated that these charges would not be given great weight in view of the present situation in Cuba where Fidel Castro is reported to be personally leading his forces to suppress a counterrevolution and an invasion of the Isle of Pines which is said to be Dominican inspired.

Raul Castro has blamed the foreign news services for attempting to destroy the Castro revolution and the Cuban Newspaper Association has gone even further in voting censure of American news services, magazines and newspapers for waging a campaign of defamation against the Castro revolution.

2. Boxing

REC-26

62-31615-1115

Ingemar Johansson has refused to honor his contract with Rosensohn Enterprises for a return bout with Floyd Patterson for the heavyweight championship. Johansson demands (1) that an accounting of the funds from the first bout first be made and (2) that the "promotional mess" be cleaned up.

Three separate investigations are currently proceeding in New York concerning the "mess" in boxing promotions. The New York State Attorney General, the Manhattan District Attorney and the New York State Athletic Commission are all probing the matter. A New York County Grand Jury will call Frank Erickson, former bookmaking king, to testify regarding his knowledge of the background of the Johansson-Patterson fight on Monday, 8-10-59. Bill Rosensohn, who was looked upon for a while as the man who would succeed Jim Norris as the boxing kingpin, has apparently been squeezed out of contention through the activities of Irving Kahn of "Teleprompter," Vincent J. Velella, supposedly Rosensohn's lawyer and Constantine (Cus) D'Amato, former manager of Floyd Patterson.

Memorandum Branigan to Belmont
Re: WALTER WINCHELL BROADCAST

The top spot in boxing, according to Grant, is now vacant and there are many candidates. Cus D'Amato appeared to have the inside track until the recent heavyweight fight in which Johansson's victory brought the promoter, Rosensohn, to the forefront. Now it appears that attorney Vellella is, in fact, the majority stockholder in Rosensohn Enterprises. After a meeting in Sweden between Vellella, Kahn and the new champion, Rosensohn resigned from Rosensohn Enterprises and has flown to Paris to meet with the champion. Grant indicated that a fight to secure promotional privileges for the heavyweight championship is apparently on between Kahn and Rosensohn with the winner to take on.....D'Amato?

Grant spelled out what he called the three commandments of boxing. "Who controls the heavyweight champion controls boxing" is the prime commandment, according to Grant, sandwiched in between "Thou shalt not steal and get caught" and "They can't hurt us," the manager's oath.

3. Cold War Diplomacy

Grant criticized the "clearly but bitterly remembered" recent past in which the late John Foster Dulles worried that an Eisenhower-Khrushchev meeting would result in a too-easy propaganda victory for the Russians. He stated that the Administration is now apparently willing to let a few facts stand up against communist propaganda in public as is apparent from the fast moving preparations for top-level conferences.

Taylor Grant substituted for Walter Winchell who is vacationing. There was no mention made of the FBI during Grant's commentary. He devoted the major part of the program to expansion of the following points:

1. Red China

The current lull in the cold war, occasioned by the forthcoming Eisenhower-Khrushchev talks, has had the effect of diverting attention from the problem of Red China. The commentator opined that problems which have kept the U.S. on the "brink of war" in recent years have resulted more from the behavior of the Red Chinese than from Russian actions. Against this background, Grant believes it to be paradoxical that the leadership of the U.S. should be encouraging the populace to be polite and civil to Khrushchev when the Government is simultaneously deterring any improvement in communication with Red China, even in the United Nations where it isn't necessary to be polite and civil. The U.S. manages to block Red Chinese admission to the United Nations for reasons which grow weaker each year. Eventually the U.S. may be realistic with Red China as it is now being with Khrushchev.

2. Fidel Castro

Castro has shown an admirable distaste for General Trujillo. His expressed wish for something fortunately fatal to overtake Trujillo is an appealing idea but one which the democracies cannot allow Castro to implement. Castro must be convinced that he cannot use dictatorial means to further the ends of democracy. The Organization of American States, from its meeting in Santiago, Chile, can have little more than hope that it will find a solution to the Caribbean problem. Most of its delegates want nothing to do with either Trujillo or Castro.

3. Civil Rights

Jacob Javits, Republican Senator from New York, will hold out for continuing the current session of Congress through the summer, if necessary, to insure passage of a workable civil rights measure. Grant commented that a Khrushchev visit to the U.S. while Congress was haggling over whether it should guarantee the basic rights of man would hardly prompt him to submit a request for asylum.

Taylor Grant substituted for Walter Winchell who is vacationing. There was no mention made of the FBI during Grant's commentary. Among the regular news items presented were the following points of possible interest:

1. Rockefeller Wedding *11/4*

The marriage of Nelson Rockefeller's son to a "commoner" who had served as a maid in the Rockefeller household has had the effect of dulling any antiaristocratic feeling which the public may have had toward New York's Governor. He has been vaulted by this event into a position of real contention for the 1960 presidential race, according to Grant.

2. Boxing *11/4*

Grant predicted that Jack Dempsey's handling of the negotiations for the return match of Ingemar Johansson and Floyd Patterson would result in a bout next November at Los Angeles.

3. Mickey Cohen *11/4*

Chicago police want to talk to Mickey Cohen in connection with the slaying of Fred Evans, one time associate of Al Capone. Evans was shot down in broad daylight at Chicago on Saturday, 8-22-59, and Chicago police determined that Cohen had been in that city for a five-hour stopover while en route to Miami, Florida. Chicago authorities have requested Miami police to detain Cohen for questioning.

4. Khrushchev's Visit *11/4*

Grant made an appeal for "intelligent" popular reaction to the visit of Khrushchev. He played down the anxiety expressed by Iowa's Governor Lovelace concerning possible demonstrations by Iron Curtain immigrants during Khrushchev's scheduled visit to Ames, Iowa, indicating that Federal security measures are invariably efficient and adequate.

Taylor Grant substituted for Walter Winchell who is vacationing. There was no mention made of the FBI during Grant's commentary. He devoted the major part of the program to expansion of the following points:

1. Presidential Visit to India

Correspondents covering the President's visit to Europe have repeated a rumor that there may be plans for a visit by Mr. Eisenhower to India in the future. Grant dealt somewhat sarcastically with Press Secretary James Hagerty for having told newspaper correspondents it would be wrong for them to speculate concerning a presidential visit to India.

2. Red China

The present encroachments of Red China in Tibet and India are reminiscent of the minor wars which came as a prelude to World War II. The aggressive activities of the Red Chinese Government can be easily overlooked by our Government, however, since without recognition of the Red Chinese there is no official channel of communication between governments.

Comment: Grant has in the past been outspoken in favor of recognition of Red China by the U.S. and of acceptance of Red China in the United Nations.

3. Juvenile Murders

The murders of two juveniles in a New York City playground this weekend underline a basic problem in our society. While deploring the crimes, the commentator asked how our youth can be educated to execute obligations to society when adult conduct fails to furnish any example for youth to follow. As long as children can read and understand they will be aware of the modern adult's lack of sensitivity to the welfare of his fellow man. As long as the attitude of our adults continues to show lack of feeling for the welfare of other people and other nations, our youth can be expected to deal violently and selfishly with their own problems, heedless of the rights or lives of others.

Further, we have received information from the Legal Attache, Havana, that much newspaper publicity had been given to the inability of the U.S. Ambassador to see Castro between June and September, 1959. [The Legal Attache confidentially advised he had learned the U.S. Ambassador had a five-hour conference with Castro September 3, 1959, which was amicable and during which Castro agreed to henceforth see the U.S. Ambassador within 48 hours following his request for such an interview.] 5-1

Winchell said:

Every intelligence service already knows the Khrushchev visit to the United States will be a diplomatic catastrophe for the west. The communist policy is to break up any combination against it and the Soviet Union has used this method in the past. The Khrushchev visit is being advertised that Washington and Moscow will decide the fate of all nations. For this reason, it was necessary for President Eisenhower to go abroad to reassure the western allies. The fact that

Memorandum to Mr. Belmont
RE: WALTER WINCHELL BROADCAST

this trip was necessary demonstrates the tremendous effect of the Khrushchev visit. It was pointed out that Khrushchev during the first summit conference aroused the fear of small nations that the United Nations would not protect them - a fear only too well founded in the case of Indochina and now Laos. Khrushchev also proved to the fighting underground that the west would not come to its assistance when he shot down the Hungarians. Khrushchev further proved to the world that the west could not hold the strategic narrow seas by getting Nasser to grab Suez. Now, by these visits he is trying to show that President Eisenhower must confer with him and that our President may sell out the other countries.

Khrushchev is making a mistake because he does not understand President Eisenhower. However, the allies know this country will accept war if necessary to stand behind its pledges.

The President in his radio and television talk reminded all of us to be courteous, dignified during the visit of Public Enemy Number 1 (Khrushchev, the world's political criminal No. 1).

Khrushchev's record includes:

He has killed more people than the Barbarian, Genghis Khan.

Khrushchev personally managed the mass execution of the Ukrainian Peasantry.

He ordered the shooting down of the Hungarian Patriots.

In addition to political murder for Russia, Khrushchev, for personal advancement and for private gain, has shot down all opposition within his own party. His method of operation is to talk his opponents into a position where defense is impossible as was illustrated in the case of Beria's death and his assurance to Hungary that Russian troops were being withdrawn from that country when actually they were regrouping for an assault. Further, Khrushchev pledged if Premier Nagy (his former pal and comrade) left the neutral Yugoslav Embassy, he would be protected; Khrushchev then murdered him.

This is the criminal coming to the United States on Tuesday who once said "we will bury you," the man whose flag of truce is a shroud.

New York City - State and city fathers have decided to build new camps for juvenile delinquents, but the problem has been getting locations for such camps. The Irish should be copied; they have no juvenile jungle to speak of. The Irish send a juvenile to camp for three months for violating a law. The juveniles are engaged at such camps from 5 a.m. to 5 p. m. each day pulling weeds - no recreation, no radio or television, just terrible food, backaches day and night. No delinquent has ever come back.

MR. AND MRS. NORTH & SOUTH AMERICA, AND ALL THE SHIPS AT SEA NET'S
GO TO PRESS!

NEW YORK: The Communist Party held a secret meeting here on August
29th. Leaders decided that open association by American Reds with
Mr. K was not advisable. Comrades will mingle with the crowds, start
the cheering and fling flowers.

WASHINGTON: The Labor Day weekend highway death toll is now--206. The
total is 25 percent ahead of last year.

SYOSETT, LONG ISLAND: Louise Walker, ten years old, was kicked to
death by her shetland pony last night. Her father is a prominent
socialite-banker.

PRESTONSBURG, KENTUCKY: Former Congressman Andrew May, died today.
He was 84. He served a term in Federal prison for taking war-time
bribes.

NEW YORK: The police are rounding up teen-agers and others--in the
fight against Midget Murder, Incorporated...Over 200 arrests today.

THE BRONX: Three bullies--6 feet tall--beat up a 16 year old boy,
just because he is a Puerto Rican. The boy is in a hospital.
Broken nose and other injuries.

HELL'S KITCHEN: The nationwide publicity about the teen-age gangsters
cost the N Y hotels over 2,000 cancellations this week.

WASHINGTON: Mystery man Alexander Guterma, under two indictments,
disappeared...He has just been found by the F.B.I.

BROOKLYN: The Federal Grand Jury will announce several indictments.
They involve a Securities fraud in a prominent household product
company.

ALBANY: Rockefeller forces are expected to enter the Governor in the
Wisconsin primary. And keep him out of New Hampshire. Wisconsin

TARRYTOWN: Tom Dewey, Jr., son of the former Governor, and Anne Lawlor will be married on the 13th. St. Mary's Episcopal Church, Tarrytown, N. Y.

SHUBERT ALLEY: Theater magnate John Shubert and his wife -- they drifted apart for several months, have reconciled.

TIA JUANA, MEXICO: Jim Madden, ex-husband of song star Beatrice Kay, was secretly married to Doris Franklin, an heiress. On Aug. 28th. They will be married again in Los Angeles this week.

MILAN, ITALY: Greek shipping tycoon Aristotle Onassis made a big mistake when he attacked cameramen taking his picture with opera star Mair Callas. His temper put their secret dates on the front pages. N. Y. newspapers laid off their alleged long-time trysts -- because both are married.

PAGE 2 - APPROVED WINCHELL SCRIPT 9/6

THE INTERNATIONAL NEWS:

SINGAPORE: Red artillery is now in action against Laos...It is 10 to 1 that the little country will fall. Perhaps in 10 days. It is as helpless as a mouse against a cobra.

JOHANNESBURG: The greatest uprisings in African history are about to explode. The Belgian Congo--Portugese Angola and the French Camerouns are now on the blue alert.

BAGDAD: Tunisia and Iraq are forming an anti-Nasser, anti-Communist alliance. Both will boycott the Arab League Conference at Casa Blanca

STOCKHOLM: The very best Intelligence sources say that Russia's arsenal--for Inter-Continental rockets, will be ready for sustained operations. In just one year from now, September 1960. The same source tole me 18 months in advance -- the exact week the Russians would explode their first atomic bomb.

NEW DELHI: The ~~Indian~~ Army chiefs have pr~~o~~ accused Krishna

~~Menon~~, the Defense Minister, of being India's Benedict Arnold. The India
Red attack on India's borders--has been going on for months. Menon,
once a Former Communist Party member, not only allegedly concealed that
news--but will urge the U. N. to accept Red China as a member.

THE SOUTH AMERICAN SCENE: The Red Trade Mission to Cuba -- is Cuba
actually a Soviet Intelligence operation. It has ordered 175,000
tons of sugar from Castro and promises to buy more. Castro has
ordered the deep freeze on the American Embassy. If Castro thinks
he is fooling Washington on his pro-Commy policy--he is kidding no-
body but himself. PANAMA CITY: France is sending a military mission
to train the Guatemalen Army. BUENOS AIRES: Argentina, the granary
of the world--is facing a desperate food shortage. The scarcity of
food and the very high prices may cause that Government's downfall.
WASHINGTON: The Administration expects Secy of Labor Mitchell to
settle the steel strike within the next 3 weeks. Mr. Mitchell is a
Republican dark horse -- and the White House favorite for 2nd place
on the Republican ticket. GOP insiders know that Gov. Dewey will
support Gov. Rockefeller at the Convention. Eisenhower will
support Nixon!

Diplomats familiar with Krushchev's arrogance, are worried. They
fear he will touch off trouble over here with his favorite interrup-
tion: "You're stupid".

AND NOW LET'S LOOK INTO YOUR NEIGHBORHOOD.

PAGE 3 - APPROVED WINCHELL SCRIPT 9/6

MR. AND MRS. UNITED STATES!

There is a great deal of nonsense being written and spoken about the
meaning, objective and outcome of Mr. K's visit. The American people
have not been told. But every major Intelligence service knows--

4

241

that the verdict is (already in. Khrushchev's visit) it is a diplomatic catastrophe for the West. This is why. The foundation of Communist diplomacy is to break up any possible combination of powers against it. The method (time-honored from Rome to Hitler) is to divide the Allies. Accordingly, Stalin and Khrushchev plotted to undermine the U. N., by forcing the Big 4 Conference. They succeeded.

Although the United Nations had all the necessary machinery--it was by-passed. When the first Summit Conference was held in 1955 at Geneva, Washington knew this was coming, but Mr. Eden insisted... Ironically, Great Britain was the first victim--at Suez.

Khrushchev's next objective was to split the Big 3. He forced the Berlin crisis and again struck pay dirt. Britain was so afraid of losing her European markets--through the German-French alliance--that London temporarily weakened on Berlin. But Mr. Eisenhower didn't State-mate at Geneva--Khrushchev conceived the current plan of a Big Two exchange of views. His visit here is being advertised to the world--that Moscow and Washington--will decide the fate of all other countries. That is why your President went abroad--where he has been nailing the Big Lie. Where it will do the most damage. But the fact that our President had to fly to our major allies--to re-assure them--shows the tremendous effect of Mr. Red's visit. This is the deadly record: Khrushchev -- by his first summit conference--aroused the fear of every small nation. That the U. N. would not protect them. A fear only too well founded. As the subsequent fall of Indo-China--and now Laos--is proving. Khrushchev then proved to the fighting undergrounds--that the West would not come to their assistance. When he shot down the Hungarians.

Mr. Khrushchev then proved to the world that the West could not hold the strategic narrow seas. By getting Nasser to grab Suez. Now he is

trying to make the p of visits -- appear in the world -- that Eisenhower must confer with him. And that our President may sell them all out. Khrushchev is making one big

PAGE 4 - APPROVED WINCHELL SCRIPT 9/6

mistake...He doesn't understand our President -- anymore than Hitler understood Mr. Roosevelt. But our allies know tonight -- by word of the President himself--that Americans will stand by their pledges. That the United States will accept war--any kind of war Russia starts. Rather than dishonor our solemn treaties.

A REPORTER'S REPORT TO THE NATION:

NEW YORK CITY: The Governor, the Mayor and other leaders have met to do something about the murderous teen-age gangsters in Greater New York. Psychiatrists blame the parents--others blame the streets and the public scolders blame public morals. But the fact is that the menace is like a forest fire. The question is--not who started it. But how to stop it. The solution is clear. Restore law and order--at once. No matter what force it takes. When New Yorkers have to depend upon the so-called treaties of neighborhood gangs to keep the peace--the whole nation is held up to ridicule--and world-wide contempt..It will be necessary to handcuff fewer delinquents--when the city takes the handcuffs off the police. They are not afraid of the gangs. But some politicians are (as usual) afraid of a vote.

NEW YORK: The N. Y. Times ran a big advertisement the other day. It said: "We applaud the President for inviting Mr. Khrushchev". The news, for me, in that ad, was in some of the signatures. They included Eleanor Roosevelt, Adlai Stevenson and (of all people!) Hamilton Fish. Mr. Fish is the former congressman scorned by President Roosevelt as an isolationist who did so much to make Hitler think we all wouldn't fight dictators. After reading that ad -- I was never more proud or supporting the greatest debunker of them all -- FDR.

DOGE CITY: The ~~tion~~ ion of "Gunsmoke", t t television show, is Dodge City. This teevee favorite is seen all over the nation-except in Dodge City. The station there can't show it because one of the sponsors won't pay the tab in that city. The irritated Chamber of Commerce will do something about it next Tuesday. They are changing the name of their 2nd most important street. From "Gunsmoke" to "Gun Shy" and Doge City stores that carry products of the Gunsmoke sponsors will throw them into the gutters. Followed by a boycott. I'LL BE BACK WITH TIPS TO THE PAPERS!

PAGE 5 - APPROVED WINCHELL SCRIPT 9/6

AND NOW TO BEAT THE HAND AROUND THE CLOCK:

WALL STREET: International Harvester (on the Big Board) will shortly make news. Sales for the fiscal year (ending October 31st) will hit an all-time high. Of about one (and a third) BILLION dollars.

This means that International Harvester earnings will be about \$5.50 per share. As against \$2.60 last year.

~~NYXXXMXXXX~~

WASHINGTON POST: Frank Costello, former underworld czar, comes up for parole again shortly. His plea, 3 months ago, was rejected. If granted, he will leave the country.

CHICAGO AMERICAN: Laurence Rockefeller's statement--reassured the people frightened by rumors of peace. Because of Mr. Khrushchev's visit. Rockefeller, brother of the N. Y. Governor, says we will spend more than ever for defense.

PHILA. INQUIRER: Phyllis McGuire of the McGuire sisters--apparently has changed her mind about marrying a wealthy Philadelphia business man. No third party.

ALL DONORS to the Runyon Cancer Fund. We have just hit the 14 million mark. Thanks very much. Never a penny deducted from your dollar for expenses.

VARIETY: G-Man (John Edgar Hoover to) , from "The
F.B.I. Story" pi. real thriller. The mov. ompany's
appreciation will go to the FBI Welfare Fund. 11

N. Y. JOURNAL AMERICAN: The Broadway rumor is that Billy Rose and
Eleanor Holm might re-marry each other. This is very unlikely.

AND THAT--winds up another edition. This is Walter Winchell--who
understands that our government--doesn't want any of us--to insult
Mr. Khrushchev...I assume--it is all right--to call the So and so -
a Communist.

HENRY CHERT

The above was set out, among other items, in a memorandum from Mr. Scatterday to you, dated 9/28/59.

Concerning the above-captioned item, it was indicated that Mr. Murphy had been mentioned in the press earlier this month as the new Ambassador to Bonn, Germany; however, Murphy advised Liaison that this was strictly rumor. Concerning Winchell's comments in his broadcast of 9/27/59, Mr. Bartlett, of the Liaison Section, made casual inquiry today (9/28) at the Department of State and talked to responsible persons in Mr. Murphy's office, as well as persons in the office of Mr. John W. Hanes, Administrator, Bureau of Security and Consular Affairs. It appears that no one at State has any information concerning the comments put out by Winchell. Therefore, it can be assumed for the time being that these items are speculation on his part.

ACTION:

For information. Liaison will continue to be on the alert for the outgrowth of any of these rumors which may be of interest to the Bureau.

Braniff Airways Electra Turbo-Jet crashed near Buffalo, Texas, 9-29-59. San Antonio established liaison with Civil Aeronautics Board in event inquiry indicates possibility of intentional destruction which would give us jurisdiction. Our disaster squad was sent to the scene to assist in identification of bodies. One of the passengers killed was George Uffner, reported to be a leg-man for Frank Erickson a leading New York gambler. Dallas Office made discreet inquiries on 9-30-59, at Dallas Sheraton Hotel where Uffner stopped prior to going to Houston. These inquiries were designed to obtain local and long distance calls made by Uffner. We have no information at this time to indicate FBI investigative interest concerning the crash.

Winchell said:

A reporter's report to the Nation - Washington - Ladies and gentlemen, the following is the low-down on Khrushchev's recent boast that his spies got "American code, etcetera." When he made that boast, our Central Intelligence Agency already knew it, because they planted it. Although the code was in the Middle East section, the Secret Red agents in Berlin were notified by Moscow and played right into our hands. CIA Chief Allen Dulles won the exchange about all this when the two men met recently in Washington. The actual conversation, revealed now for the first time, was as follows: "Said 'Mr. K.': Hello, Mr. Dulles, I'm glad to meet the man who writes my speeches. Replied Mr. Dulles: And I find that you deliver them very well. End Quote." The truth is that Khrushchev and Russian Intelligence are furious over being outsmarted by American Central Intelligence.

Comment:

The basis of the information by which Winchell implies that this was a CIA triumph is not known to the Bureau. We have made inquiries of CIA for their comments concerning Khrushchev's boast that the Soviets had stolen United States codes. As to the Winchell account of the exchange between Dulles and Khrushchev, this is brand new and materially differs from the account CIA gave to our Liaison agent.

Winchell said:

Havana - Here is concrete example of ingratitude. Castro's government announced, the other day, a deal to sell Russia three hundred and thirty thousand tons of Cuban sugar at only three cents a pound. What the Cuban newspapers did not report, is the fact that the United States keeps Cubans from starving by paying Cuba twice as much for ten times as much sugar.

BOMBING OF **St. Patrick's Cathedral (New York City) - The bomb squad was all over this famous church today. Phone calls about a bomb timed to explode during a Mass honoring Dictator Trujillo. No bomb.**

Comment:

New York Office received a telephone call from an unidentified male at 12:30 p.m., October 25, 1959. He stated a bomb had been placed in the pulpit in St. Patrick's Cathedral but made no mention of Trujillo. This information was furnished to New York City Police Department (NYCPD), G-2, ONI, OSI, and the Cathedral. The Cathedral was searched by NYCPD and they were unable to locate any bomb. Father Bernard Donachie of St. Patrick's Cathedral advised that October 25 was General Trujillo's birthday and a Mass is held each year for Trujillo. He stated "anti-Trujillo sentiment" might have prompted the call. New York Office advised that NYCPD had detail of ten men stationed in the vicinity of the church due to a picketing demonstration because of the Mass. We are maintaining close liaison with local police and have offered our full cooperation including the facilities of the Laboratory.
