Re: NELSON A. ROCKEFELLER

Dear Sir:

~~DEFERRED RECORDS~~

In an interview with [redacted] motion picture actor, a Special Agent of this office was advised that he attended a dinner on May 25th in Los Angeles, at which time NELSON ROCKEFELLER talked off the record and in a discussion of matters about sabotage, he reportedly stated that Nazi saboteurs are presently being trained in Argentina and that this training was in addition to the schools known to be established in Europe.

This is being submitted for the Bureau's information, and the accuracy of the statement is not, of course, known to this office.

Very truly yours,

MEMORANDUM FOR MR. LADD

Reference is made to the letter from the Los Angeles Office dated May 21, 1943, concerning a statement made by Nelson A. Rockefeller concerning Nazi saboteurs being trained at schools in Argentina, which schools are in addition to those known to be established in Europe. This information was obtained by an Agent from [redacted] a motion picture actor, who said that this statement was made at a dinner attended by Rockefeller and himself on May 25th in Los Angeles.

Mr. Rockefeller has advised he has never made such a statement. He believes that this statement was the result of a misinterpretation of remarks made by him regarding schools in Argentina operated by Nazis. It was explained that there are approximately 800 schools so operated in Argentina. These consist of German faculties and persons of German nationality in administrative positions. The schools are regular educational institutions and are not operated for the training of saboteurs.

It was also believed that this remark concerning the schools, coupled with remarks made on subversive activities which have been carried out in Argentina, might have led the Bureau's informant to believe that such activities were instigated at saboteurs' schools.

Mr. Rockefeller's opinion in this regard was obtained through [redacted] Administrative Council, CIAA, who stated Mr. Rockefeller advised him that if such schools did exist, this Bureau would be the first ones to be advised.

Respectfully,

J. C. [redacted]

You are advised that inquiry has been made of Mr. Rockefeller in Washington and it was learned that he believes the statement attributed to him by [redacted] was the result of a misinterpretation of remarks made by him regarding schools in Argentina operated by Nazis. Mr. Rockefeller believed that his remarks concerning the schools were coupled with his remarks about subversive activities in Argentina that the impression was gained that saboteurs were being trained in Argentina.

It was pointed out that if sabotage schools of this nature existed in Argentina, Mr. Rockefeller would immediately notify the Bureau. This material is being furnished to you for your information.

Dear Mr. Rockefeller:

I am inclosing herewith, for your information, a copy of the new directive issued to me by the Joint Chiefs of Staff.

I have also arranged to have a check made regularly at your home about the matter which we discussed last evening.

It was indeed grand to see you, and I was so happy to have the opportunity of meeting Mrs. Rockefeller.

Sincerely,

J. Edgar Hoover

SUBJECT:

RE: CHECK OF TELEPHONE TERMINALS

Est-16

As you know, monthly checks are made of the terminal appearances of the telephones at the homes and offices of certain individuals including Nelson Rockefeller, the Attorney General, etc., for the purpose of determining whether there is at that time or any indication that there has been a tapping of these telephones.

I have checked into this matter and I find that all of these checks are being made between the 1st and the 14th of each month. Therefore, it can be seen that it would be possible for someone to tap these telephones for the last two weeks of each month and then remove the taps without being discovered unless some evidence were left at the scene.

This would appear to be rather undesirable if our checks are to be thorough, and it would be my suggestion that these checks be staggered even more than they are at the present. For example, a check might be made of Mr. Rockefeller's telephones the 8th of the month, then we might go back on the 13th of the month, etc.

Suggestion OK, but security would also be involved

Reference is made to the attached memorandum from Supervisor [redacted] to Mr. Coffey dated December 22, 1944, concerning the monthly security check of the residence and office of Mr. Nelson Rockefeller, Assistant Secretary of State.

Pursuant to instructions, Mr. Roach inquired of [redacted] of the State Department whether Mr. Rockefeller desired that his new offices at the State Department be checked each month as had been done in the past while he was officed in the Commerce Building. [redacted] stated that he was of the opinion that the check should not be made of Mr. Rockefeller's office in the State Department inasmuch as it would undoubtedly become known to the other Assistant Secretaries of State and they, too, would request the Bureau to make monthly security surveys of their offices. Notwithstanding this, however, he stated that he had discussed the matter with Mr. Rockefeller and that Mr. Rockefeller indicated a desire that the check of his new offices be continued as in the past.

Dear Sir:

During a recent conversation with Mr. Raleigh A. Gibson, First Secretary of the Embassy, he stated that Mr. Nelson Rockefeller would probably visit Mexico during the middle of February, 1945.

This is being supplied for the Bureau's information and it is suggested that the Bureau might desire to discuss with Mr. Rockefeller the relationship that exists between this office and the Ambassador prior to his departure from Washington.

NELSON ALDRICH ROCKEFELLER

PERSONAL HISTORY AND BACKGROUND

Nelson Rockefeller was born in Bar Harbor, Maine, in 1908, one of six children of Abby Greene (Aldrich) and John Davison Rockefeller, Jr. From his maternal grandfather, Senator Nelson W. Aldrich of Rhode Island, he took his name. At Dartmouth, which he entered in 1927, he distinguished himself sufficiently to obtain a Phi Beta Kappa key and a special fellowship, enabling him to spend his senior year abroad studying music, painting, sculpturing, and architecture. Much of this time he spent in India "where he had a long chat with Mahatma Gandhi....." Upon graduation from Dartmouth in 1930 with an A.B. Degree, Rockefeller married Mary Todhunter Clark, the daughter of a Philadelphia attorney, and set off on a world cruise that same year. Of this marriage were born five children. Until he left for Washington, the Nelson Rockefellers lived in Pocantico Hills, near Tarrytown, New York.

For a year Rockefeller worked at the Chase National Bank in New York City where his uncle, Winthrop Aldrich, is the President. He thereafter became a Director of Rockefeller Center in 1931 and in 1937 was elected President of the Center. It is to be noted that during his early days at Rockefeller Center he had occasion to inform the Mexican muralist, Diego Rivera, that his portrait of Lenin did not fit into the scheme of things at the Center and would have to be removed from the murals which Rivera was painting for the buildings.

In addition to his New York interests, Rockefeller has been Director of several South American enterprises, among them being the Creole Petroleum Corporation, a subsidiary of the Standard Oil Company of New Jersey which has large holdings in Venezuela.

With his many business activities, Rockefeller has, since his college days, combined a "careful and diligent trusteeship in the Museum of Modern Art of which his mother was a founder." In May of 1939 he became the Museum's President which he relinquished to John Hay Whitney, Chairman of the Museum's Film Library. In August of 1940 he was appointed "Coordinator of Commercial and Cultural Relations Between the American Republics" as a "dollar a year man." In order to devote all his time to his new position he immediately resigned as Director of several South American enterprises and obtained leave of absence as President of the Rockefeller Center, Incorporated.

RELATIONSHIP WITH BUREAU

Mr. Rockefeller has never been a subject of a Bureau investigation. However, the Bureau files are replete with references concerning his activities

as Coordinator of Inter-American Affairs which are not being digested for this memorandum. Our files indicate that a cordial relationship has existed between Mr. Rockefeller and the Bureau. At the present time and for sometime past Bureau technicians have been examining Rockefeller's telephone equipment to assure that it is free from wire taps. From time to time the Bureau has forwarded to Rockefeller memoranda and reports of an intelligence nature of interest to him as Coordinator of Inter-American Affairs. The Bureau has, in addition, sent to him copies of the monthly intelligence survey summaries since the inception of this program.

In November of 1942, Nelson A. Rockefeller wrote to the Bureau as follows: "We appreciate the cooperation evidenced by the Federal Bureau of Investigation in the dissemination of information and want to assure you that we are ready to collaborate with you in any matters where we can be of assistance."

PROXIMITY TO BUREAU'S JURISDICTION IN LATIN AMERICA

[REDACTED] b1

By report dated June 29, 1942, one of our SIS Agents advised that one [REDACTED] of the Rockefeller Committee advised that he was in San Jose primarily to render a careful report to his boss, Nelson Rockefeller, concerning the United States Legations he visited, [REDACTED] b7c

[REDACTED]

In November of 1942, information was received from the El Paso Office that the Nelson Rockefeller Regional Committee in the State of Chihuahua, Mexico, had been securing and coordinating information of an intelligence nature and had been reporting same to the American Consulate.

COMMUNIST REFERENCES

The New Leader, the official publication of the Social Democratic Federation, composed of a group of anti-Communist liberals, in its issue for November 9, 1940, pointed out that Nelson Rockefeller permitted one Jay Leyda to be one of the Directors of the Film Library of the Museum of Modern Art. In this article, Jay Leyda was referred to as a former employee of Moscow's Bureau of International Revolutionary Literature. One Richard Griffith was listed as the successor to Jay Leyda of whom the New Leader states "..... a close friend and collaborator of Leyda. Griffith is a contributor to Leyda's

magazine 'Film' which closely follows what the Soviet Intelligencia considers a 'line'. Mr. Griffith was a member and one of the chief publicity agents of the Communist controlled Association of Documentary Film Producers."

The New Leader, in its issue for October 4, 1941, states "..... despite repeated warning, Nelson A. Rockefeller has permitted Jay Leyda, Moscow trained film expert, to immerge as a producer of cultural messages for showing south of the border."

The Daily Worker for July 29, 1943, listed Nelson Rockefeller as being among the sponsors of a "Youth for Victory" conference in Mexico City.

Argentine Envoy May Be Recalled

Argentine Ambassador Garcia awaited "instructions" from Buenos Aires last night as a result of the latest flareup in United States-Argentine relations. There was speculation in Latin American diplomatic circles that he may be recalled.

It was understood, meanwhile, that Nelson Rockefeller, who resigned as assistant Secretary of State on Saturday, probably would continue to devote his activities to private organizations interested in fostering inter-American relations.

[The Argentine Foreign Office said it would reply today to Rockefeller's charge that Argentina had failed in her obligations.]

The replacement of Rockefeller in the State Department by Ambassador to Argentina Spruille Braden, following close on the heels of Rockefeller's "strong" speech criticizing Argentina, caused well-informed Latin American sources here to express the opinion that Ambassador Garcia would be recalled soon for "consultation."

The forthcoming Rio de Janeiro conference, scheduled to begin October 29, to redraft the Chapultepec document into a peacetime instrument, will be held according to plan, it was understood, even though it is conceivable that Argentina might decline to attend as the result of the latest break in continental solidarity.

There was some speculation that the conference agenda might be expanded to include other hemispheric problems brought on by mounting tension between Argentina and the United States.

Dear Edgar:

I found your very friendly letter of August twenty-seventh when I got back to New York after a few days in Maine.

Few men in public life have so completely won the respect and admiration of the American people as have you. I can easily understand why in the light of the association of the past five years with you and the F.B.I. and the opportunity I have had of knowing you and working with your organization.

Your generous cooperation at all times meant a great deal to me, and I look forward to the continuation of a friendship which I value highly.

With personal regards, and again many thanks,

Sincerely,

Nelson

ASAC Belmont called from New York with regard to Mr. Comroy's conversation with me yesterday concerning his interview with Nelson Rockefeller. Mr. Belmont stated they interviewed [redacted] this afternoon and learned the incident was not exactly as it was first reported to them. [redacted] stated that on the evening of November 8, 1945, at 7:20 PM, while he was driving Mrs. Rockefeller's Ford Roadster on his way from New York to their estate at Farreytown, New York, he stopped for a red light just after he passed the George Washington Bridge on the West Side Highway. It was dark and there was considerable traffic and when he started after the light turned green, a car drew up beside him and the driver asked him whose car it was. He replied, "Why?" and the unknown party said, "Well, whose car is it?" When he replied it was his car, the other driver said it looked like the Rockefeller car, and the chauffeur again replied it was his. At that point, the other driver turned a flashlight on his face. The chauffeur did not have his chauffeur's hat on. He again said, "My name is Smith and if you want to look at any papers I can prove it." The other driver stated again it looked like the Rockefeller car and drove on with the traffic. [redacted] said he followed the car. It was black, possibly a Buick, and he did not believe it had any license numbers. There were two men in front and one in the back but [redacted] had not seen them to describe them since it was dark. He said they did not seem to be rough characters. He followed the car to Dightman (phonetic) Street, where it turned off. He asked a police officer on the corner if he had seen the car and the officer said no but he said he does see cars without license plates since there were dealers in that neighborhood. The chauffeur stated he takes the children to the estate from NYC on Saturday mornings and they stay usually until Sunday afternoon, when Mr. Rockefeller usually brings them back. [redacted] stated that frankly it looked to him like there was unnecessary alarm.

They inquired of [redacted] regarding the maid and he stated she had told the doorman she had gotten this call, but he only knew of it by second or third hand. Mr. Rockefeller has not as yet called Mr. Comroy about the name and address of the maid.

[redacted] mentioned another episode to the effect that some days ago at the estate a Negro woman driving a car wanted to drive through the estate and the guard told her no. She replied, "Well, you let the Jews through here, why don't you let me?" and then drove off. Mr. Belmont stated this probably occurs often.

The maid will be interviewed as soon as Rockefeller furnishes her name.

SUBJECT:

SAC Conroy called from New York in connection with my telephone conversation of November 16, 1945, regarding the alleged Rockefeller kidnaping threat, in which Mr. Belmont stated the maid would be interviewed as soon as Rockefeller furnishes her name and address. Mr. Conroy advised that Rockefeller had told him he would call him, Conroy, personally regarding the maid's name and address as he did not want his secretary or anyone else in the office to know about this; that, since Rockefeller had not yet called him, Conroy called Rockefeller today and learned he is out of the city and will not be back until after December 3. Mr. Conroy stated that since there does not seem to be anything else they can do until after they talk to the maid, they will submit the information they have to date to the Bureau in letter form. He stated he did not believe they should talk to the gatekeeper at the estate until they had discussed this with Rockefeller and interviewed the maid. I suggested that after they interview the maid they will probably contact Rockefeller and give him the results of the interview and they might then mention interviewing the gatekeeper to him.

Mr. Conroy stated Mr. Rockefeller had asked for some recommendations for safeguards, and he inquired as to suggesting to Rockefeller he have the children fingerprinted and advising Rockefeller he may keep the prints in his own file if he desires. I told Mr. Conroy I could see no objection to this.

Re: UNKNOWN SUBJECTS;
Nelson Rockefeller, Informant;
Possible Kidnapping Threat

Dear Sir:

In accordance with instructions given by Mr. Tamm, I personally interviewed Mr. NELSON ROCKEFELLER on the afternoon of November 15th, 1945 relative to information in his possession which inspired his call to the Director on November 13th.

Mr. Rockefeller advised that within the last few days they have had two incidents take place which might or might not be connected with each other and which reflected a possible kidnapping threat.

He stated that the ROCKEFELLERS live at 810 Fifth Avenue and have five children between the ages of about five and fourteen.

The chauffeur who drives the children was stopped within the last few days on the Henry Hudson Highway by two men in an automobile having no license plates on it. One of these men asked the chauffeur, [redacted] whether it was the ROCKEFELLERS' car. The chauffeur denied this and stated that the car belonged to him and that his name was SMITH. Apparently the chauffeur had talked to a New York City policeman, who said he had seen this car with no license plates but apparently he had taken no action. b7c

RECORDED & INDEXED 314 62-75612-47
The other incident related by Mr. ROCKEFELLER was in connection with a maid, name unknown, who was called to the telephone within the last three or four days and heard bantering back and forth over the telephone which sounded like a radio program having to do with police and the fact that police had been called into a case. A short time later she was supposed to have received a telephone call from some person who said, "You can see what happens when you call the police." The maid became extremely nervous after this call and left her position. 588

COPIES DESTROYED

11 NOV 5 1964

Nov. 26, 1945

Arrangements were made by me to have the chauffeur, [redacted] b7c come to the office on the morning of November 16th in order that he might be interviewed in detail as to what had taken place.

Mr. ROCKEFELLER advised that he would call me personally as to the name and address of the maid in order that she might be interviewed discreetly.

With regard to the question of Bureau policy, I told Mr. ROCKEFELLER that we were intensely interested in anything that had any possibility of having to do with a kidnapping and that he should present to us immediately any information which he saw or heard, no matter how frivolous it might be, in order that we might be able to check and evaluate it. I advised him that we very definitely appreciated having our attention called to these two items, which might or might not have significance.

Mr. ROCKEFELLER asked whether any more precautions might be taken. I said very definitely that the Bureau could not adopt any policy of establishing guards and he advised that he understood that thoroughly and did not expect anything of the kind. I told him we would be in a better position to evaluate what might be done after we had talked to the chauffeur and the maid.

I did not discuss the possibility of fingerprinting the children with him at this time as this might be done later should it be deemed feasible.

On the morning of November 16th, 1945 the chauffeur, [redacted] who resides at the ROCKEFELLER estate "Pocantico", Tarrytown, New York, was interviewed at the New York Office by Assistant Special Agent in Charge A. H. Belmont and Special Agents [redacted] and [redacted].

b7c [redacted] has been employed since September 1945 as a chauffeur for Mr. ROCKEFELLER. Prior to that time he was employed as a gardener on the ROCKEFELLER estate for the past three years and before that was employed by a [redacted] whom he described as being the president of the West Virginia Paper Pulp Company. He was employed by [redacted] for a number of years.

[redacted] advised that on November 8th, 1945, at about 7:20 p.m., he was returning via the Henry Hudson Parkway to the ROCKEFELLER estate at Tarrytown in Mrs. ROCKEFELLER's personal car, a maroon Ford roadster. He left the ROCKEFELLER's city

Nov. 26, 1945

apartment and proceeded to the Parkway via the 72nd Street entrance. After passing beneath the George Washington Bridge, he was halted at a stoplight just north of the Cloisters. As the traffic began to move with the change of the light, a car containing three men approached along the left side of his car.

The individual in the front seat with the driver spoke to [redacted] saying "Hey, bud, whose car is that?" The resulting conversation was as follows:

Unknown party: Well, whose car is it?

Chauffeur: Mine. b7c

Unknown party: Looks like the ROCKEFELLER car.

Chauffeur: No, it's mine.

At this point the individual turned a flashlight into [redacted]'s face. At the same time HORTON stated, "My name is SMITH and if you want anything, I can prove it."

Unknown party: Well, it looks like the ROCKEFELLER car. OK.

The unknown car then drove away.

According to [redacted] this car did not have a license but appeared to him to be a 1940 Buick, possibly dark green in color, with two outstanding tail lights down on the bumper. The car contained three men, the driver and the individual who did the talking in the front seat, and another man in the rear seat. [redacted] was unable to describe any of the three men as it was dark, but stated that the man's voice was without accent, he spoke in a normal tone, and the voice was not of the type that would create any suspicion of a "rough character".

[redacted] stated that he was alone in the car at the time and was bareheaded as his chauffeur's cap was in the back seat. The incident occurred just south of the Dyckman Street exit on the Parkway. b7c

[redacted] attempted to follow the car and noted that it turned from the Parkway into the Dyckman Street exit. [redacted] proceeded in the same direction to the intersection of Dyckman and Broadway, where he observed a patrolman. He questioned the patrolman regarding any observation on his part of an automobile without licenses. The patrolman stated that he has frequently observed unlicensed cars in the vicinity but attributed this to the fact that there were automobile dealers in the neighborhood who followed the practice of driving without tags. The patrolman

AHB:ved

Letter to the Director

Nov 11, 1941

further advised him that he did not notice a car without a license plate at this particular time, and therefore it appears that he did not notice the car driven by the unknown individuals.

Although [redacted] at the time of this incident was driving Mrs. ROCKEFELLER's personal car at her request, returning it to the estate, he usually drives a DeSoto sedan, either a 1931 or 1942 model. He advised that the only time he drives the children is on the weekend, when he is requested to conduct them from the city residence to the estate to spend the weekend. Usually on Saturday morning he is notified to drive down from the estate to pick up the children and leaves with them from the city residence between 9:30 and 10:00 a.m., returning to the estate via the Henry Hudson Parkway. [redacted] always uses the Parkway in travelling between the city residence and the estate. On Sundays the children are usually driven from the estate back to the city residence by Mr. NELSON ROCKEFELLER himself. Occasionally [redacted] will drive the children back.

[redacted] advised that the children are all of school age, and the oldest boy, 15 years of age, attends the Riverdale School, while the others attend private schools in New York City. He does not drive the children to school during the week as they are transported to and from their respective schools by school busses. The children have a playroom in the city apartment and when they go outdoors, they are accompanied by a governess, who takes them into Central Park to play.

[redacted] advised that the cars are garaged at Tarrytown within the estate and at New York City in a garage owned by the ROCKEFELLERS and located at 129 West 55th Street between Sixth and Seventh Avenues.

[redacted] further stated that he had been told by the doorman of the 810 Fifth Avenue apartment house that one of the ROCKEFELLER maids had told him that on Sunday, November 11th, a telephone call had been received at the apartment and when she answered the telephone she could hear someone saying "give me me". She waited a few minutes and when she heard nothing she was about to summon the superintendent on the house when a man's voice cut in on the telephone and said, "what happened then you call the police. You'll be next". The [redacted] maid resigned the next day.

[redacted] advised of another incident which happened at the [redacted] estate some time previous. He related that at the gate in an automobile and requested permission to look over the estate. The [redacted] questioned her and at

Nov. 26, 1945

called [redacted] the superintendent, and reported the incident to him. [redacted] advised the gateman not to call Mr. ROCKEFELLER at this time but to refuse to allow the colored girl to enter the estate. At that time the colored girl was reported to have said, "Well, Mr. ROCKEFELLER allows all the Jews to drive through the estate. Why can't I?" She then drove off. b7c

[redacted] was questioned closely as to any other suspicious circumstances he might have noted in the past several weeks but stated that nothing unusual had happened and said he would be on the alert and would notify this office of any unusual incidents. b7c

It is noted that the Ford driven by [redacted] at the time of the incident on the Parkway was not usually driven by him. He never takes the children to Tarrytown in that automobile as they are usually driven up in the DeSoto and when they return with their father on Sundays, he drives a Lincoln Zephyr. It is noted further that [redacted] stated that Mrs. ROCKEFELLER's car, a Ford driven by him at the time of this incident, is well-known in New York City as Mrs. ROCKEFELLER drives it around town constantly.

[redacted] listed the ROCKEFELLERS' cars as three DeSoto sedans, 1941 and 1942 models, one maroon Ford roadster, and one maroon Lincoln Zephyr. The Lincoln Zephyr is Mr. ROCKEFELLER's personal car and somewhat resembles Mrs. ROCKEFELLER's Ford automobile. Except at close view, it might be mistaken for the Ford. b7c

Mr. ROCKEFELLER has not called to advise me of the name of the maid who reportedly received the telephone call at the ROCKEFELLER apartment. I called him on November 20th and learned that he was out of the city and will not return until December 3rd, 1945. I did not discuss the matter with his secretary inasmuch as he advised that he would prefer to handle the matter personally.

This office will take no further action in this matter until Mr. ROCKEFELLER furnishes the name of the maid. At that time arrangements will be made to interview the maid should it be deemed appropriate and the incident of the colored girl at the gate of the Tarrytown estate will also be discussed with Mr. ROCKEFELLER. Should it be deemed desirable, the gatekeeper of the estate will be interviewed later.

In connection with recommendations as to possible safeguards, the only suggestion which we might make to Mr. ROCKEFELLER is to fingerprint the children. It is suggested that we could tell Mr. ROCKEFELLER that it would be satisfactory for him to retain the prints himself in his own files.

Mr. Conroy, SAC at New York, called at the above time to advise Nelson Rockefeller called him this morning and at that time Conroy advised his agents had interviewed his chauffeur and the matter did not appear as bad as it had been originally thought it would be. Mr. Conroy asked for the name and address of the maid who had worked in the house so that she might be interviewed. Mr. Rockefeller stated his wife had this maid had lost same before he left town. Mr. Conroy suggested the information could be obtained through the employment agency and Mr. Rockefeller said he would check and then advise Conroy.

Mr. Rockefeller advised that during his absence from the city, Mrs. Rockefeller had received a letter from an individual indicating he wanted some help and \$4500 and that he would call about it. This individual called but they were not there to receive any calls

Mr. Conroy advised Rockefeller he would have an agent go to his office, get the letter and that same should be placed in an envelope and not handled any more. Mr. Rockefeller advised that Mrs. Rockefeller, his secretary and himself had handled the letter. Mr. Conroy informed Mr. Rockefeller they would like to have the fingerprints of those who handled the letter to eliminate them and Mr. Rockefeller is to call Mr. Conroy to make an appointment for this purpose. Mr. Rockefeller will also notify the New York Office in the event any further letters are received.

Mr. Conroy advised the letter was postmarked November 27, 1945, and read as follows: "Dear Mrs. Rockefeller: I have take the oppertunity and privilege of writing this letter to you because I know that your kind generosity has aided many troubled people. I am at the moment financially embarrassed and because my life has been threatened if I do not deliver \$4500 by the end of this month I can only look to you for my only helpfulness. This matter has not been mentioned to my parents because I do not wish to worry them or involve them in any way. I will do anything to help repay for this unusual request to the best of my ability. Due to my age, 18, I did not realize the danger of indulging in such kind of a betting venture. I would appreciate ever so much if you could help me out in any way. I will call you at night over the telephone Evening 22. Very truly yours, [redacted] is my first name."

Mr. Conroy stated they will get photographs of the letter, in Rockefeller's office initialed the envelope and there are other letters probably by Mrs. Rockefeller. Mr. Conroy advised when the agent gets prints of more details tomorrow, they will transmit the letter to [redacted]

In the body of the letter it is indicated that the writer is eighteen years of age. From the contents, phraseology and writing of the sentences contained in the original letter it may be possible for the Bureau to make some comments as to the age, nationality, mentality, etc. of the writer. Such comments would be invited. The original letter may be retained at the Bureau and the New York office has been provided with copies of it. The letter should be preserved but any further examination that may be of assistance to this investigation should be conducted at the Bureau. It is requested that this matter be handled expeditiously and that the New York office be immediately advised of the results of the examinations.

RECORDED 24, New York

January 7, 1946

EX - 1 John Edgar Hoover, Director, Federal Bureau of Investigation

**UNKNOWN SUBJECTS; NELSON ROCKEFELLER - INFORMANT
POSSIBLE KIDNAPPING THREAT
Bureau file #10-72612**

Reference is made to your letter of December 14, 1945, transmitting an extortion letter and the envelope in which it was mailed for examination, together with the fingerprints of Nelson A. Rockefeller, Mary G. Rockefeller and [redacted] for elimination purposes, in connection with the above-mentioned case, your file #7-424.

b7c

You are advised that the envelope and the letter, designated specimens Q 1 and Q 2, respectively, have been examined in the Single Fingerprint Section and five fragmentary latent fingerprints of value were developed, two on specimen Q 1 and three on Q 2. Upon comparison, one of the impressions developed on specimen Q 1 has been eliminated, inasmuch as it has been identified with the right ring fingerprint of Nelson A. Rockefeller.

A separate report is being submitted relative to the laboratory examination conducted.

This report confirms and supplements the Bureau's wire of December 26, 1945.

ASAC Belmont of the New York Office called at the above time and advised that the captioned matter was presented to the United States Attorney and he said there was no case inasmuch as it was probably the work of a "crank". Mr. Belmont stated that the only thing they were waiting on so that Mr. Conroy ^{could} wind it up with Mr. Rockefeller, was the report on the fingerprint examination. Belmont advised that the report from the Laboratory was received on December 21, 1945, showing the examination of the evidence and stated that a separate report would be submitted on the results of the fingerprint examination.

Belmont asked that we endeavor to expedite the submission of the report containing the results of the fingerprint examination and I advised that I would check into this matter.

DETAILS: Investigation in this case is predicated on a phone call received on November 13, 1945 by Special Agent in Charge E. E. CONROY from Mr. E. A. TAMM, Assistant to the Director, at the Bureau, advising that Mr. WILSON A. ROCKEFELLER had called the Director about a situation over which he was concerned.

Mr. TAMM suggested that Mr. CONROY contact Mr. ROCKEFELLER at his office, 30 Rockefeller Plaza, Radio City, New York.

Mr. ROCKEFELLER on November 15, 1945 was contacted by Mr. CONROY and he related the following:

Mr. ROCKEFELLER advised that within the last few days they have had two incidents take place which might or might not be connected with each other and which reflected a possible kidnapping threat.

He stated that the ROCKEFELLERS live at 810 5th Avenue and have five children between the ages of about five and fourteen.

The chauffeur who drives the children was stopped on November 8, 1945 at 7.20 p.m. on the Henry Hudson Highway by two men in an automobile having no license plates on it. One of these men asked the chauffeur, whether it was the ROCKEFELLERS' car. The chauffeur denied this and stated that the car belonged to him and that his name was SMITH. Apparently the chauffeur had talked to a New York City policeman, who said he had seen this car with no license plates but apparently he had taken no action. b7c

The other incident related by Mr. ROCKEFELLER was in connection with a maid, name unknown, who was called to the telephone within the last three or four days and heard bantering back and forth over the telephone which sounded like a radio program having to do with police and the fact that police had been called into a case. A short time later she was supposed to have received a telephone call from some person who said, "You can see what happens when you call the police." The maid became extremely nervous after this call and left her position.

On the morning of November 16, 1945 the chauffeur, who resides at the ROCKEFELLER estate "Pocantico", Tarrytown, New York, was interviewed at the New York Office by Assistant Special Agent in Charge A.H. BELMONT and Special Agents [redacted] and [redacted]. b7c

[redacted] stated he has been employed since September, 1945 as a chauffeur for Mr. ROCKEFELLER. Prior to that time he was employed as a gardener on the ROCKEFELLER estate for the past three years and before that was employed by [redacted] whom he described as being the president of the West Virginia Paper Pulp Company. He was employed by [redacted] for a number of years. b7c

██████████ advised that on November 8, 1945 at about 7:30 p.m. he was returning via the Henry Hudson Parkway to the ROCKEFELLER estate at Tarrytown in Mrs. ROCKEFELLER's personal car, a maroon Ford roadster. He left the ROCKEFELLER's city apartment and proceeded to the Parkway via the 72nd Street entrance. After passing beneath the George Washington Bridge, he was halted at a stoplight just north of the Cloisters. As the traffic began to move with the change of the light, a car containing three men approached along the left side of his car.

The individual in the front seat with the driver spoke to ██████████ saying "Hey, bud, whose car is that?" The resulting conversation was as follows:

Unknown party: Well, whose car is it?

Chauffeur: Mine.

Unknown party: Looks like the ROCKEFELLER car.

Chauffeur: No, it's mine.

At this point the individual turned a flashlight into ██████████ face. At the same time ██████████ stated, "My name is SMITH and if you want anything, I can prove it."

Unknown party: Well, it looks like the ROCKEFELLER car. OK.

The unknown car then drove away.

According to ██████████ this car did not have a license but appeared to him to be a 1940 Buick, possibly dark green in color, with two outstanding tail lights down on the bumper. The car contained three men, the driver and the individual who did the talking in the front seat, and another man in the rear seat. ██████████ was unable to describe any of the three men as it was dark, but stated that the man's voice was without accent, he spoke in a normal tone, and the voice was not of the type that would create any suspicion of a "rough character."

██████████ stated that he was alone in the car at the time and was bareheaded as his chauffeur's cap was in the back seat. The incident occurred just south of the Dyckman Street exit on the Parkway.

██████████ attempted to follow the car and noted that it turned from the Parkway into the Dyckman Street exit. ██████████ proceeded in the same direction to the intersection of Dyckman and Broadway, where he observed a patrolman. He questioned the patrolman regarding any observation on his part of an automobile without licenses. The patrolman stated that he has

NY 7-488

frequently observed unlicensed cars in the vicinity but attributed this to the fact that there were automobile dealers in the neighborhood who followed the practice of driving without tags. The patrolman further advised him that he did not notice a car without a license plate at this particular time, and therefore it appears that he did not notice the car driven by the unknown individuals.

Although [redacted] at the time of this incident was driving Mrs. ROCKEFELLER's personal car at her request, returning it to the estate, he usually drives a DeSoto sedan, either a 1941 or 1942 model. He advised that the only time he drives the children is on the weekend, when he is requested to conduct them from the city residence to the estate to spend the weekend. Usually on Saturday morning he is notified to drive down from the estate to pick up the children and leaves with them from the city residence between 9.30 and 10 a.m., returning to the estate via the Henry Hudson Parkway. [redacted] always uses the Parkway in travelling between the city residence and the estate. On Sundays the children are usually driven from the estate back to the city residence by Mr. NELSON ROCKEFELLER himself. Occasionally [redacted] will drive the children back.

[redacted] advised that the children are all of school age, and the eldest boy, 13 years of age, attends the Riverdale School, while the others attend private schools in New York City. He does not drive the children to school during the week as they are transported to and from their respective schools by school busses. The children have a playroom in the city apartment and when they go outdoors, they are accompanied by a governess who takes them into Central Park to play.

[redacted] advised that the cars are garaged at Tarrytown within the estate and at New York City in a garage owned by the ROCKEFELLERS and located at 129 West 55th Street between Sixth and Seventh Avenues.

[redacted] was questioned closely as to any other suspicious circumstances he might have noted in the past several weeks but stated that nothing unusual had happened and said he would be on the alert and would notify this office of any unusual incidents.

It is noted that the Ford driven by [redacted] at the time of the incident on the Parkway was not usually driven by him. He never takes the children to Tarrytown in that automobile as they are usually driven up in the DeSoto and when they return with their father on Sundays, he drives a Lincoln Zephyr. It is noted further that [redacted] stated that Mrs. ROCKEFELLER's car, a Ford driven by him at the time of this incident, is well-known in New York City as Mrs. ROCKEFELLER drives it around town constantly.

ALL
b7c

NY 7-484

[redacted] listed the ROCKEFELLER'S cars as three DeSoto sedans, 1941 and 1942 models, one maroon Ford roadster, and one maroon Lincoln Zephyr. The Lincoln Zephyr is Mr. ROCKEFELLER'S personal car and somewhat resembles Mrs. ROCKEFELLER'S Ford automobile. Except at close view, it might be mistaken for the Ford.

Subsequently, on December 11, 1945 Mr. ROCKEFELLER was contacted by Mr. CONROY and he advised that, during his absence from the city, Mrs. ROCKEFELLER had received a letter from an individual indicating he wanted to get some help and wanted \$4,500. and that he would call about it, and that he had been threatened himself. Mr. ROCKEFELLER said the individual called as he said he would in his letter about three or four times but this was around November 28th and that they were not there to receive the call.

The letter was obtained by reporting agent on December 11, 1945. It was photographed and then submitted to the FBI Laboratory by letter dated December 14, 1945.

The address of [redacted] was obtained from Mrs. ROCKEFELLER. She was interviewed regarding the phone call and also for any information she might have as to the identity of "FRANK", who is the signer of the letter. The letter will be set out later in this report.

[redacted] or [redacted] was interviewed at the New York Field Office on December 14, 1945 by Special Agent [redacted] and the writer. She is the waitress who received the mysterious telephone call at the ROCKEFELLER residence on November 11, 1945. She advised that she had been employed at the ROCKEFELLER household, 610 Fifth Avenue, New York City from November 1, 1945 to November 12, 1945 and that early in the last week of her employment there, she had informed Mrs. ROCKEFELLER that she intended to resign.

Regarding the phone call, [redacted] furnished the following information:

On November 11, 1945, a Sunday, at about 6.25 p.m., the telephone rang. It was on the telephone number RE 4-4757 which is listed in the Manhattan telephone directory. The voice was a woman's voice saying: "Help, I ---- can't stand it. I ---- want to report...", a scream, "is ---- is this a police station?" A voice in the background said "I would not dare if I were you." The woman's voice appeared choking and the sound of a body falling was heard. The woman's voice said: "Stop. I can't stand it." There was a guttural sound as one being choked. [redacted] stated

AK
67X

NY 7-621

that the receiver on the caller's end of the phone appeared to be off so that she could hear the above. She, herself, was highly upset and then hung up. Her cook was in the kitchen at the time, and [redacted] said to her a murder had been committed and asked whether she should report it. The cook told her not to. About four minutes later, [redacted] related, the phone rang again and a man's voice said: "If I saw you, I would forget about the incident, because you may be next." [redacted] said she was highly upset and after the phone calls, she had everybody in the household all upset so that they all locked themselves in their rooms at night. She then hurriedly departed from the ROCKEFELLER apartment the next morning. She stated that she was really scared and acted crazy because she was so upset.

In regard to the phone call, [redacted] advised that the caller did not inquire if she were speaking to the ROCKEFELLER residence, that she [redacted], the receiver of the call, in no way indicated that it was the ROCKEFELLER residence, and that at the time she received the call she really believed it was intended for the police station in the neighborhood at the telephone number BH 4-3756, and that now on reflection she is certain that the phone call was not intended for the ROCKEFELLER residence. In regard to the second phone call that she received four minutes later, Mrs. ROCKEFELLER advised her that it would be very easy for a person who had placed a previous call with the receiver off the hook to request the telephone operator to ring the number to which they were connected and in that way they could get the ROCKEFELLER residence a second time without dialing the number.

Regarding the voices on the telephone, [redacted] stated that the voice of the man sounded very educated, was very mannish and had no accent. Regarding the woman's voice, she said it was very hard to describe it as it was very hysterical.

In regard to the ROCKEFELLER household, [redacted] advised that they have nine in help, including the chauffeur, and that there is a continual turnover of help. She stated in confidence that she believed the trouble with the household is the fact that Mrs. ROCKEFELLER personally tries to run the whole household when it could be better handled by her hiring a housekeeper who would be in charge of all the help. She stated that Mrs. ROCKEFELLER uses nearly all of the employment agencies in New York City to obtain help and besides the one BERTA CARLSON, 782 Lexington Avenue, New York City, through which [redacted] was employed, she uses NELSEN & SEABURY, 132 East 61st Street, New York City.

ALL
b7c

Mrs. NELSON A. ROCKEFELLER advised that the letter which was post-
marked November 27, 1945 had been handled by her secretary, [REDACTED] b7c
[REDACTED], Mr. ROCKEFELLER, and herself.
The fingerprints of these three individuals have been obtained and have been
forwarded to the Bureau. Mrs. ROCKEFELLER furnished the name of the waitress
[REDACTED] as the receiver of the phone call on November 11, 1945 and also
furnished her home address, which has been set out above.

Regarding the phone call received on November 28, 1945 and which
was reportedly made by the signer of the letter received on November 27, 1945,
Mrs. ROCKEFELLER advised that she was not able to determine from the receiver
of the call in her household whether the call was made from a local station
or whether it was a long distance call.

In regard to questioning members of her household regarding the
phone call mentioned directly above, Mrs. ROCKEFELLER stated that she would
strenuously oppose any interrogation of the members of her household because
the phone call received on November 11, 1945 had so upset her entire house-
hold that they were in a highly nervous condition, that they had just settled
down to their normal condition and that any questioning of them would bring
them back to their former nervous state.

Mr. ROCKEFELLER was also interviewed regarding the phone calls of
November 11th and 28th and also regarding the letter of November 27, 1945.
He stated that he could offer no information which would be of assistance
in this regard since he was out of town when the letter of November 27th and
the phone call of November 28th were received.

[REDACTED] Secretary to Mrs. ROCKEFELLER, could offer b7c
no information of assistance to this investigation.

Mrs. ROCKEFELLER stated that all the members of her family were
fingerprinted by the Coast Guard Station that covers their summer home in
Maine. This was done in order that the members of the family might use their
boats for pleasure cruising.

The above information was furnished to the Bureau by phone call
of December 13, 1945 and the Bureau advised that the only fingerprints they
were able to locate of the ROCKEFELLER family was one set for NELSON A.
ROCKEFELLER submitted in 1941. This individual was born in 1908 at Bar Harbor,
Maine and appeared to be the NELSON ROCKEFELLER mentioned in this report.

NY 7-484

A current edition of "Who's Who" lists the following members of the ROCKEFELLER family:

Mr. NELSON ALEXANDER ROCKEFELLER
Wife: MARY TOGHUNTER CLARK ROCKEFELLER
Children: ROEMAN, ANN, STEVEN, MICHAEL and MARY

The envelope which is postmarked "Long Island City, November 27, 6.30 p.m." and addressed to Mrs. NELSON A. ROCKEFELLER, 810 5th Avenue, New York City, has been initialed with the initials of Mrs. ROCKEFELLER. This has been submitted to the FBI Laboratory. The letter, itself, which was contained in the above envelope is set out as follows:

"Dear Mrs Rockefeller,

"I have take the opportunity and privilege of writing this letter to you because I know that your kind generosity has aided many troubled people. I am at the moment financially embarrassed, and because my life has been threatened if I do not deliver \$4500 dollars by the end of this month I can only look to you for my only helpfulness. This matter has not been mentioned to my parents because I do not wish to worry them or involve them in any way I will do anything to help repay for this unus al request to the best of my ability. Due to my age, 18, I did not realise the dangers of indulging in such kind of betting venture. I would appreciate ever so much if you could help me out in anyway. I will call you at night over the telephone Nov 28.

Very Truly Yours

FRANK is my first name."

The initials "MAR" have been placed by Mrs. ROCKEFELLER on the reverse side of the letter.

b1

NY 7-444

A subsequent report from the Laboratory dated January 7, 1946 advised that the Single Fingerprint Section of the Laboratory had examined the five fragmentary latent fingerprints and upon comparison one of these was eliminated inasmuch as it had been identified as the right ring finger of NELSON A. ROCKEFELLER.

On January 2, 1946 Assistant United States Attorney CHARLES WAGNER, JR. of the Southern District of New York was contacted regarding the contents of the extortion letter in this case. Mr. WAGNER reviewed the contents of the letter and advised that there is no basis for federal prosecution from the information contained in the letter and that in his opinion it was very likely the work of a crank.

The description of Mrs. NELSON A. ROCKEFELLER as obtained from observation is as follows:
