## MAJOR CHANGES SINCE LAST EDITION

(Back to Table of Contents - [\(##\)](#))

### Activity Codes

Additions: UC6, U2R, T90, DP1, R56

Deletions: **(Refer to Table 11 for Titles)**

A03, A11, A19, A22, A24, C06, D10, D15, D18, D19, D21, D23, D24, D28, D30, D31, D32, D33, D34, D36, D37, D38, D39, F06, F15, F20, F35, G93, G94, HD1, HD2, HD3, HD4, HD5, HD8, HR1, HR2, HS3, HS4, HS5, H08, H1N, H13, H67, H79, H86, KD1, K04, K11, K15, K17, K20, K21, N01, N02, N03, N43, N44, P79, RC1, R09, R23, R34, R35, R36, R84, S03, S07, S14, S15, S20, TU2, T01, T09, T16, T22, T23, UC1, UD1, UD3, UD5, UD6, UD7, UD8, UD9, UR1, UR4, UR5, UR6, UR7, U1D, U1E, U1F, U1G, U1H, U1J, U1K, U1S, U2T, U41, U43, U69, U76, U79, U94, U97, Y01, Y02

### Initial Review Groups (IRGs)

Additions/ Changes: VACC, ELB, HP, HT, CAMP, CONC, RESP, SAT, CLRT, CDRC, ITV, SRV, LSTR, ZMD1

Deletions: ALCB, ALCP, ANES, ARRA, ARRB, ARRC, ARRD, ARRE, ARRF, ARRG, BCA, BCS, BEM, BPC, BPO, BPS, BRC, CAIR, CAPR, CBY, CCI, CCRP, CCS, CCSP, CEC, CFN, CLR, CMBD, CMS, CNBP, CPC, CPP, CPT, CRME, CT, CTY, CVS, DABR, DAPA, EB, EPI, GBD, GRRC, HAR, HBPR, HCRT, HDPR, HEM, HLBA, HQER, HRDI, HTDS, HSR, HUD, IDM, IMM, LBP, LCR, MCHB, MDA, MDCN, MHAI, MHSB, NBSA, NEUA, NEUB, NEUC, NIMH, NIVA, NLS, NPNC, NRC, NSPA, NSPB, NTS, PBN, PEC, PHAR, PHY, PPS, PTR, PYB, RAP, RCMI, RTR, SER, SGP, SOH, SSP, TA, TOX, VSN, VTS, ZHS1, ZOA1, ZOH1, ZRG4, ZRG5, ZRG7

### Administering Organization Codes

Additions: DD

Changes: CI

# ACTIVITY CODES, ORGANIZATIONAL CODES, AND DEFINITIONS USED IN EXTRAMURAL PROGRAMS

## INTRODUCTION [\(##\)](#)

This manual contains the code definitions used now and for the past three fiscal years in the **IMPAC** (Information for Management, Planning, Analysis, and Coordination) and **CRISP** (Computer Retrieval of Information on Scientific Projects) systems to identify various aspects of **extramural** research activities of the Department of Health and Human Services (DHHS).

IMPAC and CRISP are online computer-based information systems for many extramural programs of DHHS. IMPAC contains application and award information on extramural programs. As an NIH system, IMPAC specifications and practices may not apply to all DHHS programs. CRISP contains information on funded research only. CRISP derives its administrative data from the IMPAC system. In addition to its IMPAC data, CRISP has project abstracts and indexing terms. The CRISP system also contains summary information on non-IMPAC DHHS intramural research projects.

Extramural research activities are divided into three main mechanisms: grants, contracts and cooperative agreements. A mechanism is the type of funding application or transaction used at the NIH. In general, with grants, investigators are responsible for developing the concepts, methods, and approach for a research project. With contracts, the DHHS awarding unit is responsible for establishing the detailed requirements. With cooperative agreements, both the awarding unit and the recipient have substantial responsibility. Programs are areas within the funding mechanisms for example research, training, fellowships, and cooperative agreements. And activity codes identify categories applied to various funding mechanisms.

## GRANT APPLICATION/AWARD IDENTIFICATION NUMBERING SYSTEM<sup>1</sup> ([##](#))

The identification number is commonly referred to as the application number or grant number, depending upon its processing status. The identification number consists of several parts, each having a distinct meaning. The following example shows the parts of an ID number assigned to an amendment (A1) to a supplemental (Type 3) application for a traditional research project (R01) referred to the National Cancer Institute (CA). The number further identifies the application serially as the 12921st new proposal submitted to the NCI, and indicates that this is the first supplemental application (S1) to the fourth year (-04) of support to this project.

| <u>Application Type</u> | <u>Activity Code</u> | <u>Administering Organization</u> | <u>*Serial Number</u> | <u>Suffixes Grant Year</u> | <u>Other<sup>1</sup></u> |
|-------------------------|----------------------|-----------------------------------|-----------------------|----------------------------|--------------------------|
| 3                       | R01                  | CA                                | 12921(9)              | -04                        | S1A1                     |

**Application Type Code** - A single-digit code identifying the type of application received and processed. In the example above, the "3" indicates that this is a supplemental request for additional funds. Type code translations are listed in Table 1. More detailed type code definitions are provided in Tables 6 (Grants), 7 (Contracts), and 8 (Agreements).

**Activity Code** (Also referred to as an Instrument Code) - A three-digit code identifying a specific category of extramural activity. All current activity code titles are listed in Table 3. Activity code definitions are provided in Table 9.

**Administering Organization Code** (Also referred to as an IC Code or Admin PHS Org Code) - A two-letter code identifying the first major-level subdivision. In the example above, "CA" refers to the National Cancer Institute. For certain activities, DHHS organizations having Bureau status may use a Division-level code. An inter-agency agreement awarded by NCI, for instance, may be coded 1Y01CM00999-00, where CM refers to NCI's Division of Cancer Treatment. Administering organization codes are translated in Table 2.

**Serial Number** - A five-digit number generally assigned sequentially to a series within an Institute, Center, or Division. \*As grant applications for ICs reach the 99999 five-digit threshold, the ICs will begin using six-digit serial numbers. Currently the National Cancer Institute is the only IC using the six-digit serial number.

**Suffixes** - A field composed of the following components:

**GRANT YEAR** - A two-digit number indicates the actual segment or budget period of a project. The grant year number (01, 02, etc.) is preceded by a dash to separate it from the serial number; e.g., AI 12345-02 or CA 00900-04. The grant year number is increased by one for each succeeding renewal year. Thus, the -02 and -04 year suffixes above identify grants in their second and fourth years.

**SUPPLEMENT** - The letter "S" and related number identify a particular supplemental record; e.g., S1, S2. Supplement designations follow the grant year or the amendment designation, as the case may be; e.g., AI 12345-01S1 and CA 00900-04A1S2.

**AMENDMENT** - The letter "A" and related number identify each amended application e.g., A1, A2, etc. Amendment designations follow the grant year or the supplement designation, as the case may be; e.g., DE 34567-02A1 and HL 45678-01S1A2.

**ALLOWANCE** - The letter "X" and related number identify a fellowship's institutional allowance record. Allowance designations also follow the grant year or other designation; e.g., AG 12345-01X1 and HD 12345-02S1X2.

<sup>1</sup> An additional four-digit suffix may appear in a grant identification number recorded in the CRISP system, to identify separate projects.

## CONTRACT IDENTIFICATION NUMBERING SYSTEM<sup>1</sup> (##)

The contract identification number consists of five parts, each having a distinct meaning. Its elements are structured as follows:

| <u>Type of Action</u> | <u>Activity Code</u> | <u>Administering Organization</u> | <u>Serial Number</u> | <u>Modification Number</u> |
|-----------------------|----------------------|-----------------------------------|----------------------|----------------------------|
| 1                     | N01                  | HV                                | 20002                | -000                       |

**Type of Action Code** - A single-digit code identifying the type of contract transaction. In the above example, "1" indicates a new contractual agreement. Type code translations are listed in Table 1. Contract type code definitions are provided in Table 7.

**Activity Code** (Also referred to as an Instrument Code) - A three-digit code denoting NIH research and research-related contracts. There are seven active research contract activities (N01, N02, N03, N41, N42, N43 and N44), which are listed in Table 3. Definitions of these activities are provided in Table 9.

**Administering Organization Code** (Also referred to as an IC Code or Admin PHS Org Code) - A two-letter code identifying the first major subdivision. In the example above, "HV" refers to the National Heart, Lung, and Blood Institute's Division of Heart and Vascular Diseases. For certain activities, large DHHS organizations with Bureau status may use a first-major-division-level code, as in this example of a contractual agreement awarded by NHLBI through its Division of Heart and Vascular Diseases. These IC codes are identified in Table 2.

**Serial Number** - A five-digit number assigned by an IC's Contracting Office to number sequentially all contracts executed. The first digit indicates the fiscal year in which the contract was initially awarded (e.g., 20002 indicates FY 1992). The last four digits, 0002, indicate the serial number. This is the second new contract awarded by the NHLBI's Division of Heart and Vascular Diseases (HV) in FY 1992.

**Modification Number** - Following the serial number and separated from it by a dash (-) is the modification number, a two-digit number that indicates the number of modifications of the contract. Modification numbers are assigned sequentially from 00 to 99; the number "00" indicating a new contract; "01," the first modification; "02," the second, etc. There is an exception when a contract's type of action is coded "6." In this instance, 4 digits are used to identify the Task Order number written under a Master Agreement; the next two positions identify the number of modifications of the Task Order.

---

<sup>1</sup> The numbering of inter-agency/intra-agency agreements is the same as contracts, with the exception of the activity code.

## **PROCEDURES FOR ESTABLISHING OR CHANGING AN INITIAL REVIEW GROUP (IRG) CODE IN IMPAC II [\(##\)](#)**

An Initial Review Group (IRG) is one of five types of Federal Advisory Committees that are established under the Federal Advisory Committee Act (FACA). The IRG Federal Advisory Committee is composed of primarily non-Federal scientific experts. The IRG Committee carries out the first level of the NIH peer review system by assessing the scientific merit of a grant application.

In IMPAC II, acronyms or alphabetical codes are used to identify IRG committees. These acronyms are called IRG Codes and may also be referred to as peer review codes and integrated review group codes. IMPAC II allows a maximum of four characters per code. Current IRG codes are listed in Table 5 of this manual.

### **Process for NIH Institutes and Centers to Establish, Change or Terminate NIH IRG Code**

A Charter establishes an IRG Committee. Once a Charter is in place an IRG Code can be established in IMPAC II. These IRG Codes are normally posted to incoming applications upon receipt. The IRG Codes appear frequently in reports and on award statements.

The IC official wanting to establish an IRG Code should work with the IC Committee Management Officer to create a unique IRG Code. For example, "AIDS" is an IRG Code that stands for NIAID's Acquired Immunodeficiency Syndrome Research Review Committee. NIH officials can refer to the NIH Committee Handbook Chapter III for steps to establish, change or terminate a committee at the NIH. The handbook's web address is <http://www1.od.nih.gov/cmo/>. You may also contact the NIH Office of Federal Advisory Committee Policy (OFACP) on 301-496-2123 to help establish, change or terminate an NIH Federal Advisory Committee IRG Code.

Once an IRG code is established, changed, or terminated the NIH OFACP (NIH CMO) is responsible for directing and managing all phases of committee management policy and procedure development and dissemination to all NIH Institute, Center and Division staff as well as to federal advisory committee members.

### **Process for Non-NIH Agencies to Establish, Change or Terminate Non-NIH IRG Codes within IMPAC II**

Non-NIH agencies wanting to use the IMPAC II system regarding IRG Codes should first contact their agency committee management officer to assist in establishing, changing, or terminating the IRG code. Once an IRG code is established, changed or terminated within the agency's system, the IMPAC II system can reflect the code's status. The agency can access the IMPAC II system and manually manage the code in the system. The agency can contact the IMPAC II Helpdesk via email [Helpdesk@od.nih.gov](mailto:Helpdesk@od.nih.gov) or phone 301-402-7469 for assistance with entering, changing or terminating the IRG Code in the IMPAC system. The agency should then send a memo via email to the NIH Code Manager ([FSU@od.nih.gov](mailto:FSU@od.nih.gov)) to reflect IRG Code changes in the IMPAC II system.

### **Special Emphasis Panel (SEPs) Federal Advisory Committees**

Special Emphasis Panels (SEPs) are chartered Federal Advisory Committees used for scientific review activities formerly provided by ad hoc groups. SEPs have fluid membership, with members designated to serve for individual meetings rather than formally appointed for fixed terms of service. All SEP committees have a standard IRG code format. The first character will always be a "Z"; the next two characters, the Organization Code (Table 2); and the fourth character, the sequential SEP number (1-9) within that IC. Current SEP codes are listed in Table 5 of this manual.

#### ***Note on Changing an IRG Code***

Once an IRG code is put in the IMPAC II system it is reserved in the database and cannot be reassigned and is not removed. The OFACP is responsible for changing IRG committee names and other information associated with the committee but the IRG Code cannot be changed. The process to change information about the IRG (other than the code) is similar to the creation of an IRG Committee. See the NIH Committee Handbook Section III for more information or contact the OFACP, NIH CMO.

This manual lists only codes used now and for the past three fiscal years in IMPAC. However, the IMPAC II database contains many more IRG codes than the codes listed in Table 5 of this manual.

## PROCEDURES GOVERNING ACTIVITY CODE AUTHORIZATION AND COORDINATION [\(##\)](#)

The NIH Manual Chapter 4101/6304-2, "Establishment of New Activities and Activity Codes" dated 2001 describes policies and procedures for new activity code assignments. The reader should consult the manual chapter if considering a new activity code.

Manual Chapter 4101/6304-2 defines activity for the purpose of tracking, special reporting, and accountability as "a broad group or category applied to various NIH funding mechanisms." Activities should not be synonymous with special program areas within the awarding components, but should be broad in nature, transcending Institute scientific programs or program initiatives. They should be sufficiently different from other activities to justify separate identification and accountability.

This code manual is designed to aid the reader in understanding **current** code definitions within the IMPAC system. The IMPAC activity code database, however, contain many more activity codes than defined in this manual. Section III of this manual contains a complete listing of DHHS Activity Codes.

The official proposing a new IMPAC code should contact Felicia Shingler, NIH Code Manager on (301) 435-0690 EXT. 608, or E-Mail: [Shinglef@OD.NIH.GOV](mailto:Shinglef@OD.NIH.GOV)

Pages vii – xii describe information you will need to request an Activity Code. On these pages you will find A. Items Needed to Establish or Change an Activity Code in IMPAC, B. Sample Memo #1, and C. Sample Memo #2.

A. Items Needed to Establish or Change an Activity Code in IMPAC – See pages viii – xii for additional description or list of each item.

1. Mechanisms Code
2. Award Authorization Code
3. Budget Account Codes
4. Research Supported by Project Control?
5. TAGGS Activity Code

B. Sample Memo #1

Use the sample memo #1 as a template putting the information associated with your requested code in the blanks.

C. Sample Memo #2

Use the sample memo #2 as a guide for submitting your request to the OER. Sample memo #2 is an example of a template filled in by an IC, i.e. your final request should look like this.

## ITEMS NEEDED TO ESTABLISH OR CHANGE AN ACTIVITY CODE IN IMPAC [\(##\)](#)

The IMPAC II database stores information used for management, planning, analysis, coordination, and reporting. The following lists information associated with activity codes. The NIH Codes' Manager collects this information when an activity code is established or changed. The information is then stored in the IMPAC II database. Various extramural program areas use the information to produce reports, track mechanisms and plan programs.

### MECHANISM CODE

In IMPAC II the Mechanism Code is reported. Currently there are 14 mechanism codes that correspond to the activity codes in the IMPAC II database.

|    |                         |    |                         |
|----|-------------------------|----|-------------------------|
| RP | Research Projects       | SB | SBIR-STTR               |
| RC | Research Centers        | OR | Other Research Related  |
| TR | Training, Individual    | TI | Training, Institutional |
| CE | Contracts, Extramural   | CC | Contracts, Control      |
| CN | Contracts, Construction | CO | Construction            |
| OT | Other                   | IM | Intramural Research     |
| UK | Unknown                 | CP | Cancer Control          |

### AWARD AUTHORIZATION CODE

The Award Authorization is a code that references Federal laws and rules (general and permanent) that validate federally funded research. These codes are found in the Request For Application (RFA) or Program Announcement (PA). The Award Authorization should be included in all requests for a new activity code. The following is an example and the breakdown of an Award Authorization code for an R01 Activity Code at the National Library of Medicine.

#### 42 USC 241 42 CFR Part 52

**42** = Title Number – 42 represents The Public Health and Welfare; **USC**= United States Code; **241**= Section - 241 represents Research and Investigations generally; **CFR**= Code of Federal Regulations; Part= a subdivision of the Chapter that cover specific regulatory areas: 52 represents grants for Research Projects. (Only the code appears in IMPAC II. The breakdown is not included in the database.)

## BUDGET ACCOUNT CODE

This code is used for budget accountability. A complete table follows. Appropriate budget account codes from this table should be included in all requests for new activity codes.

| <u>Account Description</u>                  | <u>Account Code</u> | <u>Data Indicator Code</u> |
|---|---------------------|----------------------------|
| Contract Cost Items                         | 2000                | A                          |
| Special Emphasis Categories                 | 2100                | A                          |
| AIDS  | 2110                | A                          |
| AIDS Affiliated                             | 2111                | A                          |
| Set-Asides and Subcontracting               | 2200                | A                          |
| Set-Asides                                  | 2210                | A                          |
| Set-Aside, Labor Surplus Area               | 2211                | A                          |
| Set-Aside, Small Business, Construction     | 2212                | A                          |
| Set-Aside, Small Business, Not Construction | 2213                | A                          |
| Subcontracting                              | 2220                | A                          |
| Subcontracting Plan, Disadv. Business Goal  | 2221                | A                          |
| Subcontracting Plan, Small Business Goal    | 2222                | A                          |
| Total in Subcontracting Plan                | 2223                | A                          |
| Fees and Adjustments                        | 2800                | A                          |
| Adjustments                                 | 2810                | A                          |
| Amount of Deobligation                      | 2811                | A                          |
| Cost Overrun, Direct Cost                   | 2812                | A                          |

SAMPLE MEMO # 1

DATE:

TO: Joe Ellis  
Acting Director, Office of Policy for Extramural Research Administration,  
OER, NIH

FROM:

SUBJECT: New Activity Code Request: U2R (Activity Code that you are requesting)

In your request, include why the new codes are needed and any PA, RFP or RFAs the new codes apply to.

The request should include NIH Budget Category, Mechanism Code, Award Authorization Code(s), and Budget Account Codes. See the Activity Codes, Organization Codes, and Definitions Used in Extramural Programs book, <http://impacii.nih.gov/doc/pdf/AC.pdf> March 2003, pages viii - x for explanation of these codes.

This office will then route your request through the Director of Office of Extramural Programs to the Deputy Director Extramural Research for final approval.

|                 |   |
|-----------------|---|
| (Activity Code) | (Title of Code)                                     |
| <b>U2R</b>      | <b>International Training Cooperative Agreement</b> |

(Definition of Activity Code)

In cooperation with public and private nonprofit organizations, to improve and strengthen epidemiology, clinical, operational and health services research capacity in foreign countries through support of training programs.

Cc: Felicia Shingler, OD

**SAMPLE MEMO # 2**

DATE:

TO: Joe Ellis  
Acting Director, Office of Policy for Extramural Research Administration,  
OER, NIH

FROM: Dr. Robin A. Barr, OEA, NIA

SUBJECT: New Activity Code Request: R36

**Sample Doc**

Several ICs, (NIA, NIDA) and AHRQ currently provide dissertation awards to students. All use the R03 mechanism for these awards. The NIH R03 committee and EPMC have recommended that the R03 not be used for dissertation awards. The arguments include that the structure of these awards does not fit the modular budget format and that the student status of the investigators should be recognized in the award program. Therefore there is a need for a new activity code for these award programs.

The purpose of dissertation awards is to support research. Though they are supervised research conducted to fulfill requirements for a doctorate, nevertheless a dissertation is intended to be an independent research project in all programs of doctoral study and dissertations are routinely published in research journals. Therefore an RPG activity code is appropriate.

We request the following activity code, title, definition, and associated codes be added to the IMPACII system.

**R36 Dissertation Award**

To support dissertation research costs of students in accredited research doctoral programs in the United States (including Puerto Rico and other U.S. territories or possessions). Dissertation awards are not renewable.

**NIH Budget Category:** Research Project Grants

**Mechanism Code:** RP

**Award Authorization Code:** 42 USC 241, 42 CFR 52, 42 CFR 67

**Budget Account Codes:**

Personnel 3110

Consultant Costs 3120

Travel Costs 3410

Equipment 3423

Other Costs 3431

Facilities and Administrative Costs (F&A) 3820

**Data Indicator Code:** A

**Project Control, CSR Used:** Yes

**Research Supported:** Yes

## SECTION I - CODE TRANSLATION FOR GRANTS, CONTRACTS, AND AGREEMENTS

TABLE 1 [\(##\)](#)

### TYPE OF APPLICATION/TRANSACTION

Code

#### GRANTS AND COOPERATIVE AGREEMENTS

- 1 New
- 2 Competing Continuation
- 3 Supplement
- 4 Extension
- 5 Noncompeting Continuation
- 6 Change of Institute or Division (Successor-In-Interest and Name Change Agreements)
- 7 Change of Grantee or Training Institution
- 8 Change of Institute or Division (noncompeting continuation)
- 9 Change of Institute or Division (competing continuation)

#### CONTRACTS

- 1 New
- 2 Renewal
- 3 Modification (other than renewal or continuation)
- 4 Letter Contract (temporary code)
- 5 Continuation (incrementally funded contracts only)
- 6 Task Orders and Subsequent Modifications
- 7 Exercise Option

#### INTER-AGENCY/INTRA-AGENCY AGREEMENTS

- 1 New
- 2 Renewal
- 3 Modification

## SECTION II - CODE DEFINITIONS (GRANTS, CONTRACTS, AND AGREEMENTS)

TABLE 6 [\(##\)](#)

### GRANT AND COOPERATIVE AGREEMENT TYPES - DEFINITION

Code

- 1 **New** - Request for Department of Health and Human Services support of a project that has not yet been funded.
- 2 **Competing Continuation** - Request for an additional term of support based on a funded previous project; must compete for available funds.
- 3 **Supplement** - Request for additional funds for a current award, to cover increased costs (noncompeting) or to expand the scope of work (competing).
- 4 **Extension** - Request for additional funds beyond the years previously awarded; limited to certain activities, including MERIT (R37) and certain Fellowship (F) and Career (K) awards. These F and K applications do not compete for funds. R37's do require National Advisory Council review.
- 5 **Noncompeting Continuation** - Request to pay next budget increment of a current award; does not compete for available funds.
- \*6 **Change of Institute or Division** - Request for support (cf. Type 1) of a fellowship or training project that has been transferred from one ICD to another.
- 7 **Change of Grantee or Training Institution** - Request for support of a funded project that has been transferred from one grantee or training institution to another.
- 8 **Change of Institute or Division** - Noncompeting continuation (cf. Type 5) that has been transferred from one ICD to another.
- 9 **Change of Institute or Division** - Competing continuation (cf. Type 2) that has been transferred from one ICD to another.

---

\* Not on any record in the open or pending file as of October 1994.

TABLE 7 (##)

**CONTRACT TRANSACTION TYPES - DEFINITION**

Code

- 1 **New Contract** - New work that defines the specifications, conditions, and negotiated clauses pertaining to a contractual agreement between the Government and a contractor. If any prior agreement exists with the contractor, the contractual document sets forth the scope of work, price, delivery, and additional matters peculiar to the particular procurement, and incorporates by reference or appends the negotiated clauses agreed upon in the prior agreement.
- 2 **Renewal** - Supplemental agreement to an existing contract with the incumbent contractor that provides for the performance of additional work similar or identical in nature to that previously required, obligates additional funds, and extends the performance period a minimum of six months (usually one year).
- 3 **Modification** - Change Order or Supplemental Agreement not meeting the requirements for a renewal as shown above; however, alters or amends one or more provisions of an existing contract (i.e., extensions of less than six months, overhead adjustments, and/or obligation of additional funds with or without extending the contract).
- 4 **Letter Contract** - Written preliminary contractual document that authorizes immediate commencement of work and stipulates maximum fund obligations that may be incurred prior to negotiation of a definitive contract. A letter contract will be superseded by a definitive contract at the earliest possible date, usually within 90 days.
- 5 **Continuation of an Incrementally Funded Contract** - Supplemental Agreement that allocates funds for the next increment of work to be performed under a multiple-year, incrementally funded contract, and stipulates the additional time period covered by such funds. The code should not be used to report contract extensions that do not require additional funds to cover the extensions (see Code 3 above).
- 6 **Task Orders and Subsequent Modifications (Relating to Existing Basic Ordering Agreements)** - An order placed under an existing Basic Ordering Agreement that specifies the delivery schedule and the obligation of funds. Code 6 is used to report both the initial Task Order and any subsequent modifications to the Task Orders.
- 7 **Exercise of Option** - Action taken to implement the Government's right to require the contractor to accomplish work under the contract as negotiated in the original contract. Further negotiation is not necessary, since the original contract included the potential requirement.

TABLE 8 [\(##\)](#)

**INTER-AGENCY/INTRA-AGENCY AGREEMENT TRANSACTION TYPES -DEFINITION**

Code

- 1        **New** - A document covering a new work requirement that defines the specifications and conditions agreed upon between the Government agencies involved.
- 2        **Renewal** - A continuation to an existing inter-agency/intra-agency agreement that provides for the performance of new or additional work similar or identical in nature to that previously required, obligates additional funds, and extends the performance period by more than six months.
- 3        **Modification** - Altering or amending one or more provisions of an existing inter-agency/intra-agency agreement. (Includes extensions of performance periods by less than six months, with or without funds to cover the period of extension.)

**TABLE 9 (##)**

ACTIVITY CODE DEFINITIONS

Training Projects (##)

**D 43 International Training Grants in Epidemiology**

To improve and expand epidemiologic research and the utilization of epidemiology in clinical trials and prevention research in foreign countries through support of training programs for foreign health professionals, technicians, and other health care workers.

**D 71 International Training Program Planning Grant**

To plan for the preparation of an application for a D43 international institutional training grant.

**D P1 NIH Director's Pioneer Award (NDPA)**

To support individuals who have the potential to make extraordinary contributions to medical research. The NIH Director's Pioneer Award is not renewable.

Fellowship Programs

**F 05 International Research Fellowships (FIC)**

To provide collaborative research opportunities for qualified non-immigrant alien scientists who hold a doctoral degree or its equivalent in one of the biomedical or behavioral sciences.

**F 30 Individual Predoctoral NRSA for M.D./Ph.D. Fellowships (ADAMHA)**

Individual fellowships for predoctoral training which leads to the combined M.D./Ph.D. degrees.

**F 31 Predoctoral Individual National Research Service Award**

To provide predoctoral individuals with supervised research training in specified health and health-related areas leading toward the research degree (e.g., Ph.D.).

**F 32 Postdoctoral Individual National Research Service Award**

To provide postdoctoral research training to individuals to broaden their scientific background and extend their potential for research in specified health-related areas.

**F 33 National Research Service Awards for Senior Fellows**

To provide opportunities for experienced scientists to make major changes in the direction of research careers, to broaden scientific background, to acquire new research capabilities, to enlarge command of an allied research field, or to take time from regular professional responsibilities for the purpose of increasing capabilities to engage in health-related research.

## Resource Programs (##)

### G 07 **Resources Improvement Grant**

A non-renewable grant available to health related organizations to establish, expand or improve Internet connectivity and improve access to digital information resources.

### G 08 **Resources Project Grant (NLM)**

A grant available to health-related institutions to improve the organization and management of health related information using computers and networks.

### G 11 **Extramural Associate Research Development Award (EARDA)**

To provide funds to institutions eligible to participate in the NIH Extramural Associates Program for establishing or enhancing an office of sponsored research and for other research infrastructure needs.

### G 12 **Research Centers in Minority Institutions Award**

To assist predominantly minority institutions that offer the doctorate in the health professions and/or health-related sciences in strengthening and augmenting their human and physical resources for the conduct of biomedical research.

### G 13 **Health Sciences Publication Support Awards (NLM)**

To provide short-term assistance for the preparation of book-length manuscripts about important scientific information needed by U.S. health professionals. Grants are awarded for major critical reviews and analyses of historical studies and current developments in informatics, technology, librarianship, and secondary reference materials in the biomedical field. Publication in formats other than print-on-paper (e.g., electronic, film, etc.) are encouraged, as are new and innovative ways of organizing and presenting information. Publication grants do not support journals or other serials and are not suitable for operation of established databases. Work judged to have significant commercial viability will not be supported by these grants

### G 20 **Grants for Repair, Renovation and Modernization of Existing Research Facilities (NCRR)**

To provide funds for major repair, renovation, and modernization of existing research facilities. These facilities may be the clinical research facilities, animal research facilities, and other related research facilities.

## Research Career Programs

### K 01 **Research Scientist Development Award - Research & Training**

For support of a scientist, committed to research, in need of both advanced research training and additional experience.

### K 02 **Research Scientist Development Award - Research**

For support of a scientist, committed to research, in need of additional experience.

### K 05 **Research Scientist Award**

For the support of a research scientist qualified to pursue independent research which would extend the research program of the sponsoring institution, or to direct an essential part of this research program.

**K 06(##) Research Career Awards**

To enable institutions to finance positions favorable to the intellectual growth and research productivity of established investigators of high competence for the duration of their careers.

**K 07 Academic/Teacher Award (ATA)**

To create and encourage a stimulating approach to disease curricula that will attract high quality students, foster academic career development of promising young teacher-investigators, develop and implement excellent multidisciplinary curricula through interchange of ideas and enable the grantee institution to strengthen its existing teaching program.

**K 08 Clinical Investigator Award (CIA)**

To provide the opportunity for promising medical scientists with demonstrated aptitude to develop into independent investigators, or for faculty members to pursue research aspects of categorical areas applicable to the awarding unit, and aid in filling the academic faculty gap in these shortage areas within health profession's institutions of the country.

**K 12 Physician Scientist Award (Program) (PSA)**

For support to a newly trained clinician appointed by an institution for development of independent research skills and experience in a fundamental science within the framework of an interdisciplinary research and development program.

**K 14 Minority School Faculty Development Awards**

To encourage the development of faculty investigators at minority schools and to enhance their research capabilities in specified health and health related areas.

**K 16 Dentist Scientist Award (Program)**

To provide support for dentists with a strong commitment to oral health research to develop into independent biomedical investigators. Primarily, for support to a newly trained dentist appointed by an institution for development of independent research skills through a three phase program: advanced basic science development, advanced clinical science development, and a research experience component.

**K 18 The Career Enhancement Award**

Provides either full-time or part-time support for experienced scientists who wish to broaden their scientific capabilities or to make changes in their research careers by acquiring new research skills or knowledge. Career enhancement experiences supported by this award should usually last no more than one year.

**K 22 Career Transition Award**

To provide support to outstanding newly trained basic or clinical investigators to develop their independent research skills through a two phase program; an initial period involving and intramural appointment at the NIH and a final period of support at an extramural institution. The award is intended to facilitate the establishment of a record of independent research by the investigator in order to sustain or promote a successful research career.

**K 23 Mentored Patient-Oriented Research Career Development Award**

To provide support for the career development of investigators who have made a commitment of focus their research endeavors on patient-oriented research. This mechanism provides support for a 3 year minimum up to 5 year period of supervised study and research for clinically trained professionals who have the potential to develop into productive, clinical investigators.

**K 24(##) Midcareer Investigator Award in Patient-Oriented Research**

To provide support for the clinicians to allow them protected time to devote to patient-oriented research and to act as mentors for beginning clinical investigators.

**K 25 Mentored Quantitative Research Career Development Award**

To engender and foster such activities by supporting the career development of investigators with quantitative scientific and engineering backgrounds outside of biology or medicine who have made a commitment to focus their research endeavors on behavioral and biomedical research (basic or clinical). This mechanism is aimed at research-oriented scientists with experience at the level of junior faculty (e.g., early to mid-levels of assistant professor or research assistant professor ranks). This award provides support for a period of mentored study and research for professionals with such backgrounds who have the potential to integrate their expertise with biomedicine and develop into productive investigators.

Examples of quantitative scientific and technical backgrounds outside of biology or medicine considered appropriate for this award include, but are not limited to: mathematics, statistics, computer science, informatics, physics, chemistry, and engineering.

**K 26 Midcareer Investigator Award in Biomedical and Behavioral Research**

The purpose of the Midcareer Investigator Award in Biomedical and Behavioral Research is to provide grant support for biomedical and behavioral scientists to allow them protected time to devote to their research and mentoring.

**K 30 Clinical Research Curriculum Award (CRCA)**

The CRCA is an award to institutions and is intended to stimulate the inclusion of high-quality, multi-disciplinary didactic training as part of the career development of clinical investigators. This award is intended to support the development of new didactic programs in clinical research at institutions that do not currently offer such programs or, in institutions with existing didactic programs in clinical research to support or expand their programs or to improve the quality of instruction.

**L 30 Loan Repayment Program for Clinical Researchers**

To provide for the repayment of the educational loan debt of qualified health professionals involved in clinical research. Qualified health professionals who contractually agree to conduct qualified clinical research are eligible to apply for this program.

**L 32 Loan Repayment Program for Clinical Researchers from Disadvantaged Backgrounds**

To provide for the repayment of the educational loan debt of qualified health professionals from disadvantaged backgrounds involved in clinical research. Qualified health professionals from disadvantaged backgrounds who contractually agree to conduct qualified clinical research are eligible to apply for this program.

**L 40 Loan Repayment Program for Pediatric Research**

To provide for the repayment of the educational loan debt of qualified health professionals involved in research directly related to diseases, disorders, and other conditions in children. Qualified health professionals who contractually agree to conduct qualified pediatric research are eligible to apply for this program.

**L 50 Loan Repayment Program for Contraception and Infertility Research**

To provide for the repayment of the educational loan debt of qualified health professionals (including graduate students) who contractually agree to commit to conduct qualified contraception and/or infertility research.

## L 60 **(##) Loan Repayment Program for Health Disparities Research**

To provide for the repayment of the educational loan debt of qualified health professionals involved in minority health and health disparities research, for the purposes of improving minority health and reducing health disparities. Qualified health professionals who contractually agree to conduct qualified minority health disparities research or other health disparities research eligible to apply for this program.

### General Clinical Research Centers Program

#### M 01 **General Clinical Research Centers Program**

An award made to an institution solely for the support of a General Clinical Research Center where scientists conduct studies on a wide range of human diseases using the full spectrum of the biomedical sciences. Costs underwritten by these grants include those for renovation, for operational expenses such as staff salaries, equipment, and supplies, and for hospitalization. A General Clinical Research Center is a discrete unit of research beds separated from the general care wards.

### Research Program Projects and Centers

#### P 01 **Research Program Projects**

For the support of a broadly based, multidisciplinary, often long-term research program which has a specific major objective or a basic theme. A program project generally involves the organized efforts of relatively large groups, members of which are conducting research projects designed to elucidate the various aspects or components of this objective. Each research project is usually under the leadership of an established investigator. The grant can provide support for certain basic resources used by these groups in the program, including clinical components, the sharing of which facilitates the total research effort. A program project is directed toward a range of problems having a central research focus, in contrast to the usually narrower thrust of the traditional research project. Each project supported through this mechanism should contribute or be directly related to the common theme of the total research effort. These scientifically meritorious projects should demonstrate an essential element of unity and interdependence, i.e., a system of research activities and projects directed toward a well-defined research program goal.

#### P 20 **Exploratory Grants**

To support planning for new programs, expansion or modification of existing resources, and feasibility studies to explore various approaches to the development of interdisciplinary programs that offer potential solutions to problems of special significance to the mission of the NIH. These exploratory studies may lead to specialized or comprehensive centers.

#### P 30 **Center Core Grants**

To support shared resources and facilities for categorical research by a number of investigators from different disciplines who provide a multidisciplinary approach to a joint research effort or from the same discipline who focus on a common research problem. The core grant is integrated with the center's component projects or program projects, though funded independently from them. This support, by providing more accessible resources, is expected to assure a greater productivity than from the separate projects and program projects.

#### P 40 **Animal (Mammalian and Nonmammalian) Model, and Animal and Biological Material Resource Grants (NCRR)**

To develop and support animal (mammalian and nonmammalian) models, or animal or biological materials resources available to all qualified investigators without regard to the scientific disciplines or disease orientations of their research activities or specifically directed to a categorical program. Nonmammalian resources include nonmammalian vertebrates, invertebrates, cell systems, and nonbiological systems.

P 41 **Biotechnology Resource Grants**

To support biotechnology resources available to all qualified investigators without regard to the scientific disciplines or disease orientations of their research activities or specifically directed to a categorical program area.

P 42 **Hazardous Substances Basic Research Grants Program (NIEHS)**

To support basic research directed towards understanding and attenuating the public health effects resulting from exposure to hazardous substances, including 1) advanced techniques for detection, assessment and evaluation of the effects on human health of hazardous substances; 2) methods to assess risks to human health presented by hazardous substances; 3) methods and technologies to detect hazardous substances in the environment and 4) basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances. This special program, authorized under Superfund legislation, is for a broadly based, multi-disciplinary research effort which must include biomedical research components and which may include research components related to engineering, hydrogeology, ecology and epidemiology so long as they are linked to basic biomedical science. Each research project is generally under the leadership of an established investigator. The grant can provide support for certain basic resources used by the groups in the program (cores), including an administrative structure for effective coordination.

P 50 **Specialized Center**

To support any part of the full range of research and development from very basic to clinical; may involve ancillary supportive activities such as protracted patient care necessary to the primary research or R&D effort. The spectrum of activities comprises a multidisciplinary attack on a specific disease entity or biomedical problem area. These grants differ from program project grants in that they are usually developed in response to an announcement of the programmatic needs of an Institute or Division and subsequently receive continuous attention from its staff. Centers may also serve as regional or national resources for special research purposes.

P 51 **Primate Research Center Grants (NCRR)**

To support centers which include a multidisciplinary and multi-categorical core research program using primate animals and to maintain a large and varied primate colony which is available to affiliated, collaborative, and visiting investigators for basic and applied biomedical research and training.

P 60 **Comprehensive Center**

To support a multipurpose unit designed to bring together into a common focus divergent but related facilities within a given community. It may be based in a university or may involve other locally available resources, such as hospitals, computer facilities, regional centers, and primate colonies. It may include specialized centers, program projects and projects as integral components. Regardless of the facilities available to a program, it usually includes the following objectives: to foster biomedical research and development at both the fundamental and clinical levels; to initiate and expand community education, screening, and counseling programs; and to educate medical and allied health professionals concerning the problems of diagnosis and treatment of a specific disease.

Research Projects

R 01 **Research Project**

To support a discrete, specified, circumscribed project to be performed by the named investigator(s) in an area representing his specific interest and competencies.

R 03 **Small Research Grants**

To provide research support specifically limited in time and amount for studies in categorical program areas. Small grants provide flexibility for initiating studies which are generally for preliminary short-term projects and are non-renewable.

R 10(##) **Cooperative Clinical Research (Grants)**

To support clinical evaluation of various methods of therapy and/or prevention in specific disease areas. These represent cooperative programs between participating institutions and principal investigators, and are usually conducted under established protocols.

R 13 **Conference**

To support recipient sponsored and directed international, national or regional meetings, conferences and workshops.

R 15 **Academic Research Enhancement Awards (AREA)**

To support small scale research projects conducted by faculty in primarily baccalaureate degree-granting domestic institutions. Awards are for up to \$75,000 for direct costs (plus applicable indirect costs) for periods not to exceed 36 months.

R 18 **Research Demonstration and Dissemination Projects**

To provide support designed to develop, test, and evaluate health service activities, and to foster the application of existing knowledge for the control of categorical diseases.

R 21 **Exploratory/Developmental Grants**

To encourage the development of new research activities in categorical program areas. (Support generally is restricted in level of support and in time.)

R 24 **Resource-Related Research Projects**

To support research projects that will enhance the capability of resources to serve biomedical research.

R 25 **Education Projects**

For support to develop and/or implement a program as it relates to a category in one or more of the areas of education, information, training, technical assistance, coordination, or evaluation.

R 29 **First Independent Research Support and Transition (FIRST) Award**

To provide a sufficient initial period of research support for newly independent biomedical investigators to develop their research capabilities and demonstrate the merit of their research ideas.

R 33 **Exploratory/Developmental Grants Phase II**

The R33 award is to provide a second phase for the support for innovative exploratory and development research activities initiated under the R21 mechanism. Although only R21 awardees are generally eligible to apply for R33 support, specific program initiatives may establish eligibility criteria under which applications could be accepted from applicants demonstrating progress equivalent to that expected under R33.

R 37 **Method to Extend Research in Time (MERIT) Award**

To provide long-term grant support to investigators whose research competence and productivity are distinctly superior and who are highly likely to continue to perform in an outstanding manner. Investigators may not apply for a MERIT award. Program staff and/or members of the cognizant National Advisory Council/Board will identify candidates for the MERIT award during the course of review of competing research grant applications prepared and submitted in accordance with regular PHS requirements.

R 41(##) **Small Business Technology Transfer (STTR) Grants - Phase I**

To support cooperative R&D projects between small business concerns and research institutions, limited in time and amount, to establish the technical merit and feasibility of ideas that have potential for commercialization. Awards are made to small business concerns only.

R 42 **Small Business Technology Transfer (STTR) Grants - Phase II**

To support in-depth development of cooperative R&D projects between small business concerns and research institutions, limited in time and amount, whose feasibility has been established in Phase I and that have potential for commercialization. Awards are made to small business concerns only.

R 43 **Small Business Innovation Research Grants (SBIR) - Phase I**

To support projects, limited in time and amount, to establish the technical merit and feasibility of R&D ideas which may ultimately lead to a commercial product(s) or service(s).

R 44 **Small Business Innovation Research Grants (SBIR) - Phase II**

To support in-depth development of R&D ideas whose feasibility has been established in Phase I and which are likely to result in commercial products or services. SBIR Phase II are considered "Fast-Track" and do not require National Council Review.

R 55 **James A. Shannon Director's Award**

To provide a limited award to investigators to further develop, test, and refine research techniques; perform secondary analysis of available data sets; test the feasibility of innovative and creative approaches; and conduct other discrete projects that can demonstrate their research capabilities and lend additional weight to their already meritorious applications.

R 56 **High Priority, Short Term Project Award**

To provide limited interim research support based on the merit of a pending R01 application while applicant gathers additional data to revise a new or competing renewal application. This grant will underwrite highly meritorious applications that if given the opportunity to revise their application could meet IC recommended standards and would be missed opportunities if not funded. Interim funded ends when the applicant succeeds in obtaining an R01 or other competing award built on the R56 grant. These awards are not renewable.

Research-Related Programs

S 06 **Minority Biomedical Research Support - MBRS**

To strengthen the biomedical research and research training capability of ethnic minority institutions, and thus establish a more favorable milieu for increasing the involvement of minority faculty and students in biomedical research.

S 10 **Biomedical Research Support Shared Instrumentation Grants (NCRR)**

To make available to institutions with a high concentration of NIH extramural research awards, research instruments which will be used on a shared basis.

S 11 **Minority Biomedical Research Support Thematic Project Grants**

To promote increased faculty and interdepartmental collaboration through programs that focus on specific research themes or scientific disciplines at developing minority institutions. These grants are intended to strengthen the biomedical research capability in defined areas and to attract other competent biomedical scientists through an improved research environment.

S 21(##) **Research and Institutional Resources Health Disparities Endowment Grants -Capacity Building**

To strengthen the research and training infrastructure of the institution, while addressing current and emerging needs in minority health and other health disparities research.

S 22 **Research and Student Resources Health Disparities Endowment Grants - Educational Programs**

To increase the investment in student-centered programs: to improve the academic success of underrepresented minorities and socio-economically disadvantaged individuals in biomedical and bio-behavioral fields of study.

Training Programs

T 14 **Conferences**

For support of international and national meetings, conferences and workshops.

T 15 **Continuing Education Training Grants**

To assist professional schools and other public and nonprofit institutions to establish, expand, or improve programs of continuing professional education, especially for programs of extensive continuation, extension, or refresher education dealing with new developments in the science of technology of the profession.

T 32 **Institutional National Research Service Award**

To enable institutions to make National Research Service Awards to individuals selected by them for predoctoral and postdoctoral research training in specified shortage areas.

T 34 **MARC Undergraduate NRSA Institutional Grants**

To enable minority institutions to make National Research Service Awards to individuals selected by them for undergraduate research training in the biomedical and behavioral sciences.

T 35 **NRSA Short-Term Research Training**

To provide individuals with research training during off-quarters or summer periods to encourage research careers and/or research in areas of national need.

T 36 **MARC Ancillary Training Activities (Grant) (NIGMS) <Title Revised>**

To increase the number of well-trained minority scientists in biomedical disciplines and to strengthen the research and teaching capabilities of minority institutions through a variety of training mechanisms such as visits by experienced scientists to minority institutions or workshops/conferences designed to enhance the research training experience of students/faculty from minority institutions.

T 37(##) **Minority International Research Training Grants (FIC)**

Institutional training grants awarded to domestic institutions supporting opportunities for biomedical and behavioral research training for minority students and faculty members at foreign sites.

T90 **Interdisciplinary Research Training Award**

To support comprehensive interdisciplinary research training programs at the undergraduate, predoctoral and/or postdoctoral levels, by capitalizing on the infrastructure of existing multidisciplinary and interdisciplinary research programs.

Cooperative Agreements

U C6 **Construction Cooperative Agreement**

To provide financial support, substantial programmatic involvement and technical assistance for designing, constructing and commissioning of laboratories to be used as extramural facilities for bio-defense and emerging infectious diseases research.

U H1 **HBCU Research Scientist Award**

To assist HBCUs in strengthening and augmenting their human resources by recruiting an established research scientist; to enhance the career of the recruited research scientist; and to strengthen other HBCU resources for the conduct of biomedical and/or behavioral research. The recruited research scientist must have received competitive and independent research support.

U 01 **Research Project--Cooperative Agreements**

To support a discrete, specified, circumscribed project to be performed by the named investigator(s) in an area representing his specific interest and competencies.

U 09 **Scientific Review and Evaluation--Cooperative Agreements**

To provide the chairman of an initial review group funds for operation of the review group.

U 10 **Cooperative Clinical Research--Cooperative Agreements**

To support clinical evaluation of various methods of therapy and/or prevention in specific disease areas. These represent cooperative programs between sponsoring institutions and participating principal investigators, and are usually conducted under established protocols.

U 13 **Conference--Cooperative Agreements**

To support international, national or regional meetings, conferences and workshops where substantial programmatic involvement is planned to assist the recipient.

U 18 **Research Demonstration--Cooperative Agreements**

To provide support for testing, by means of a research design, the effectiveness of the transfer and application of techniques or interventions derived from a research base for the control of diseases or disorders or for the promotion of health. The project should be capable of making conclusions which are generalizable to other sites. These are usually cooperative programs between participating principal investigators, institutions, and the sponsoring Institute(s).

U 19(##) **Research Program--Cooperative Agreements**

To support a research program of multiple projects directed toward a specific major objective, basic theme or program goal, requiring a broadly based, multidisciplinary and often long-term approach. A cooperative agreement research program generally involves the organized efforts of large groups, members of which are conducting research projects designed to elucidate the various aspects of a specific objective. Substantial Federal programmatic staff involvement is intended to assist investigators during performance of the research activities, as defined in the terms and conditions of award. The investigators have primary authorities and responsibilities to define research objectives and approaches, and to plan, conduct, analyze, and publish results, interpretations and conclusions of their studies. Each research project is usually under the leadership of an established investigator in an area representing his/her special interest and competencies. Each project supported through this mechanism should contribute to or be directly related to the common theme of the total research effort. The award can provide support for certain basic shared resources, including clinical components, which facilitate the total research effort. These scientifically meritorious projects should demonstrate an essential element of unity and interdependence.

U 2R **International Training Cooperative Agreement**

In cooperation with public and private nonprofit organizations, to improve and strengthen epidemiology, clinical, operational, and health services research capacity in foreign countries through support of training programs.

U 24 **Resource-Related Research Projects--Cooperative Agreements**

To support research projects contributing to improvement of the capability of resources to serve biomedical research.

U 42 **Animal (Mammalian and Nonmammalian) Model, and Animal and Biological Materials Resource Cooperative Agreements (NCRR)**

To develop and support animal (mammalian and nonmammalian) model, or animal or biological materials resources available to all qualified investigators without regard to the scientific disciplines or disease orientations of their research activities or specifically directed to a categorical program. Nonmammalian resources include nonmammalian vertebrates, invertebrates, cell systems, and nonbiological systems.

U 44 **Small Business Innovation Research (SBIR) Cooperative Agreements - Phase II**

To support in-depth development of R&D ideas whose feasibility has been established in Phase I and that are likely to result in commercial products or services.

U 45 **Hazardous Waste Worker Health and Safety Training Cooperative Agreements (NIEHS)**

To develop, implement, and evaluate programs to train workers who are or may be engaged in activities related to hazardous waste removal, containment, or emergency response.

U 54 **Specialized Center--Cooperative Agreements**

To support any part of the full range of research and development from very basic to clinical; may involve ancillary supportive activities such as protracted patient care necessary to the primary research or R&D effort. The spectrum of activities comprises a multidisciplinary attack on a specific disease entity or biomedical problem area. These differ from program project in that they are usually developed in response to an announcement of the programmatic needs of an Institute or Division and subsequently receive continuous attention from its staff. Centers may also serve as regional or national resources for special research purposes, with funding component staff helping to identify appropriate priority needs.

U 56(##) **Exploratory Grants--Cooperative Agreements**

To support planning for new programs, expansion or modification of existing resources, and feasibility studies to explore various to the development of interdisciplinary programs that offer potential solutions to problems of special significance to the mission of the NIH. These exploratory studies may lead to specialized or comprehensive centers. Substantial Federal programmatic staff involvement is intended to assist investigators during performance of the research activities, as defined in the terms and conditions of award.

U 69 **AIDS National Education and Training Centers--Cooperative Agreements**

To provide assistance to health profession schools, hospitals, health departments and other organizations to develop AIDS National Education and Training Centers which will provide training for health care personnel in the care of people with AIDS and other conditions related to infection with the Human Immunodeficiency Virus (HIV).

U 97 **Cooperative Agreements: Technical Assistance Centers for the Evaluation of Mental Health System Change (SAMHSA)**

In cooperation with State mental health agencies, for States and other organizations receiving funds from the Community Mental Health Service Block Grant (B09), to provide technical assistance centers for the design and implementation of evaluations of changes in their systems of care.

### SECTION III - DEPT. OF HEALTH & HUMAN SERVICES ACTIVITY CODE LISTING

TABLE 10 (##)

#### CURRENT DHHS ACTIVITY CODE LIST

This list includes all Activity Codes currently being used by the Department of Health and Human Services, their titles and the organizations which initiated each code.

| <b>Activity Code</b> | <b>Title</b> | <b>Initiating Organization</b> |
|----------------------|--------------|--------------------------------|
|----------------------|--------------|--------------------------------|

Training Projects(##)

|     |   |        |
|-----|---|--------|
| D43 | International Training Grants in Epidemiology | TW     |
| D71 | International Training Program Planning Grant | TW     |
| DP1 | NIH Director's Pioneer Award                  | NIH/AI |

Fellowship Programs

|     |   |        |
|-----|---|--------|
| F05 | International Fellowships                               | TW     |
| F30 | Individual Predoc. NRSA for MD-PhD Fellowships          | AD     |
| F31 | Predocctoral Individual National Research Service Award | OD/NIH |
| F32 | Postdoctoral Individual National Research Service Award | OD/NIH |
| F33 | National Research Service Award for Senior Fellows      | OD/NIH |
| F34 | MARC (NRSA) Faculty Fellowships                         | GM/NIH |
| F37 | Medical Informatics Fellowships                         | LM     |
| F38 | Applied Medical Informatics Fellowships                 | LM     |

Resource Programs

|     |   |     |
|-----|---|-----|
| G07 | Resources Improvement Grant                             | LM  |
| G08 | Resources Project Grant                                 | LM  |
| G11 | Extramural Associate Research Development Award (EARDA) | NIH |
| G12 | Research Centers in Minority Institutions Award         | RR  |
| G13 | Health Sciences Publication Support Awards (NLM)        | LM  |
| G20 | Repair/Renov./Moderniz'n, Existing Res. Facil           | RR  |
|     |   | CC  |

Research Career Programs

|     |  |     |
|-----|--|-----|
| K01 | Research Scientist Development Award - Research and Training | NIH |
| K02 | Research Scientist Development Award - Research              | NIH |
| K05 | Research Scientist Award                                     | NIH |
| K06 | Research Career Award  | NIH |
| K07 | Academic/Teacher Award                                       | NIH |

| <b>Activity Code</b>                             | <b>Title</b>  | <b>Initiating Organization</b> |
|--|---|--------------------------------|
| K08(##)  | Clinical Investigator Award   | NIH                            |
| K12  | Physician Scientist Award (Program)   | NIH                            |
| K14  | Minority School Faculty Development Award   | NIH                            |
| K16  | Dentist Scientist Award (Program)   | NIH                            |
| K18  | The Career Enhancement Award  | NIH                            |
| K22  | Career Transition Award   | NIH/CA                         |
| K23  | Mentored Patient-Oriented Research Career Development Award                                   | NIH                            |
| K24  | Midcareer Investigator Award in Patient-Oriented Research                                     | NIH                            |
| K25  | Mentored Quantitative Research Career Development Award                                       | NIH/OD                         |
| K26  | Midcareer Investigator Award in Biomedical and Behavioral Research                            | NIH                            |
| K30  | Clinical Research Curriculum Award (CRCA)   | NIH                            |
| L30  | Loan Repayment Program for Clinical Researchers   | NIH/OD                         |
| L32  | Loan Repayment Program for Clinical Researchers from Disadvantaged Backgrounds                | NIH/OD                         |
| L40  | Loan Repayment Program for Pediatric Research   | NIH/OD                         |
| L50  | Loan Repayment Program for Contraception and Infertility Research                             | NIH/OD                         |
| L60  | Loan Repayment Program for Health Disparities Research  | NIH/OD                         |
| <u>General Clinical Research Centers Program</u> |   |                                |
| M01  | General Clinical Research Centers (NCRR)  | NIH                            |
| <u>Research Program Projects and Centers</u>     |   |                                |
| P01  | Research Program Projects   |                                |
| P20  | Exploratory Grants  |                                |
| P30  | Center Core Grants  |                                |
| P40  | Animal (Mammalian and Nonmammalian) Model, and Animal and Biological Material Resource Grants | NIH/RR                         |
| P41  | Biotechnology Resource Grant Program  |                                |
| P42  | Hazardous Substances Basic Research Grants Program  | NIH/ES                         |
| P50  | Specialized Center  |                                |
| P51  | Primate Research Center Grants  | NIH/RR                         |
| P60  | Comprehensive Center  |                                |
| <u>Research Projects</u>                         |   |                                |
| R01  | Research Project  |                                |
| R03  | Small Research Grants   |                                |
| R10  | Cooperative Clinical Research (Grants)  | NIH/HL                         |
| R13  | Conferences   |                                |
| R15  | Academic Research Enhancement Awards (AREA)   |                                |
| R18  | Research Demonstration and Dissemination Projects   |                                |
| R21  | Exploratory/Developmental Grants  |                                |
| R24  | Resource-Related Research Projects  | NIH/RR                         |
| R25  | Education Projects  |                                |

| Activity Code | Title   | Initiating Organization |
|---------------|---|-------------------------|
| R29(##)       | First Independent Research Support and Transition (FIRST) Award |                         |
| R33           | Exploratory/Developmental Grants Phase II                       | NIH                     |
| R37           | Method to Extend Research in Time (MERIT) Award                 |                         |
| R41           | Small Business Technology Transfer (STTR) Grants - Phase I      | NIH/OD                  |
| R42           | Small Business Technology Transfer (STTR) Grants - Phase II     | NIH/OD                  |
| R43           | Small Business Innovation Research Grants (SBIR) - Phase I      | NIH/OD                  |
| R44           | Small Business Innovation Research Grants (SBIR) - Phase II     | NIH/OD                  |
| R55           | James A. Shannon Director's Award                               | NIH                     |
| R56           | High Priority, Short Term Project Award                         | NIH/AI                  |

#### Research Related Programs

|     |   |        |
|-----|---|--------|

**TABLE 11(##)**

**INACTIVE DHHS ACTIVITY CODE LIST**

This list includes all activity codes known to have been used by the Department of Health and Human Services but are not currently being used. The table lists the title and the organization which initiated the code.

| <b>Activity Code</b>         | <b>Title</b>  | <b>Initiating Organization</b> |
|------------------------------|---|--------------------------------|
| <u>Training Programs(##)</u> |   |                                |
| A01                          | Traineeship Awards to Individuals                                     |                                |
| A02                          | Allied Health Professions Traineeship Grants for Advanced Training    | BHP/HRSA                       |
| A03                          | General Purpose Traineeship Grants to Schools of Public Health        | DAHP-BHP                       |
| A04                          | Special Purpose Traineeship Grant                                     | BHP/HRSA                       |
| A05                          | Public Health Nursing Traineeship Grants to Colleges and Universities |                                |
| A06                          | Traineeship Grants for Short-term Training                            | AH                             |
| A07                          | Apprenticeship Training in a Health Profession                        | BHP/HRSA                       |
| A08                          | Residency Traineeship Grants in Preventive Medicine and Dentistry     | BHP/HRSA                       |
| A10                          | Environmental Health Traineeship Grants                               |                                |
| A11                          | Professional Nurse Traineeship (long-term)                            | DN-BHP                         |
| A12                          | Professional Nurse Traineeship Program                                |                                |
| A13                          | Allied Health Professions Grants for Training Institutes              | BHP/HRSA                       |
| A14                          | Occupational Safety/Health Professions Grants for Training Institutes | OH                             |
| A15                          | Training/Traineeships for Health Professions Teaching Personnel       | PE                             |
| A16                          | Nurse Practitioner Traineeship  | BHP/HRSA                       |
| A17                          | Continuing Education Training Program                                 | DH                             |
