Atlantic Highly Migratory Species (HMS); Notice of Sea Turtle Release/ Protocol Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of public workshops.

SUMMARY: NMFS is announcing workshops that will demonstrate the proper sea turtle handling and release techniques for vessel operators using pelagic longline gear in the Atlantic Ocean, including the Gulf of Mexico and the Caribbean Sea. The workshops will also show the required release equipment and summarize the current regulations involving the mandatory use of handling and release techniques along with the types of release equipment for sea turtles.

DATES: The workshops will be held from July through September 2004. For specific dates and times see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The workshops will be held in Dulac and Larose, LA; Panama City, Pompano Beach and Ft. Pierce, FL; Charleston, SC; Wanchese, NC; Barnegat Light, NJ; East Setauket, NY; Narragansett, RI; and New Bedford, MA. For specific locations and times see **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Written comments or questions regarding workshops should be addressed to Charlie Bergmann, 3209 Frederic St. Pascagoula, MS 39567 or by phone at (228)-762-4591 or (228)-623-0748.

Any additional information for Highly Migratory Species can be found online at <http://www.nmfs.noaa.gov/sfa/hms> or by calling Highly Migratory Species Management Division at (301)-713-2347.

SUPPLEMENTARY INFORMATION: Atlantic tuna, swordfish, shark, and billfish fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act and regulated pursuant to the Atlantic Tunas Convention Act (ATCA), which authorizes rulemaking to implement recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). Implementing regulations for both the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks and the Billfish Fishery Management Plan are at 50 CFR part 635.

On July 6, 2004, NMFS published a final rule (69 FR 40734) stating that all vessel operators in the pelagic longline fishery in the Atlantic Ocean, including Gulf of Mexico, and Caribbean Sea must follow NMFS Careful Release Protocols For Sea Turtle Release With Minimal Injury. For more information about these protocols, visit the HMS web site or call Charlie Bergman (see **ADDRESSES**).

Also on June 1, 2004, NMFS released a Biological Opinion regarding the Atlantic pelagic longline fishery. This Biological Opinion requires NMFS to hold voluntary workshops demonstrating the new sea turtle handling and releasing techniques and equipment. Proper use will increase the post-release survival of the sea turtles. All pelagic longline fisherman (e.g., permit holders, vessel operators, and crew) in the Atlantic Ocean, including the Gulf of Mexico and Caribbean Sea, and any interested parties are strongly encouraged to attend.

The dates, times, and locations of these workshops are scheduled as follows:
