

Annual Report of the Department of Justice Asset Forfeiture Program Fiscal Years 1995 and 1996

Office of the Attorney General

Washington, D.C. 20530

Foreword

To the Senate and House of Representatives
of the United States of America in Congress Assembled:

In accordance with 28 U.S.C. § 524(c)(6), I submit the Department of Justice's Annual Report on the Asset Forfeiture Program for Fiscal Years 1995 and 1996. This Report, prepared by the Asset Forfeiture and Money Laundering Section of the Criminal Division and the Asset Forfeiture Management Staff of the Justice Management Division, provides information regarding the activities of the Department of Justice's Asset Forfeiture Program.

Asset forfeiture remains a powerful weapon in combating crime and stripping criminals of the proceeds of their illegal activities. This Report highlights these successful efforts.

Respectfully submitted,

A handwritten signature in cursive script that reads "Janet Reno".

Janet Reno

Chapter I: Program Overview

The Department of Justice's Asset Forfeiture Program (*hereinafter* the Program) is a nationwide law enforcement program that continues to be an effective and powerful weapon in the Department's fight against crime. More than two hundred forfeiture laws have been enacted to fight against organized crime, drug trafficking, money laundering, and other illegal activities. Thousands of federal prosecutors, investigators, property managers, and support staff are involved in the seizure and forfeiture process to achieve the Program's objectives. As part of the historical development, thousands of state and local law enforcement officials work cooperatively with their federal counterparts in the investigation and prosecution of criminal cases to strip criminals of their ill-gotten gains.

Background

Forfeiture is of ancient origin; it can be traced back to biblical times. The forfeiture of instrumentalities of illegal activity has been a part of American jurisprudence since the Colonial period. Historically, governments have recognized the need to protect their citizens against persons both inside and outside their borders who smuggle contraband into their territory. The First Congress enacted laws in 1789 subjecting vessels and cargoes to civil forfeiture for violations of the Customs laws. By arresting the captain and crew of a foreign smuggling ship and returning the ship to its owner, little was accomplished. The owner merely hired a new crew and sent the ship back on another smuggling run. Obvious parallels exist between age-old smuggling and modern-day drug trafficking—they both require methods to protect our citizens from criminals inside and outside our borders. With the emergence of illicit drug trafficking and organized crime, asset forfeiture has become an increasingly vital weapon in the United States' anti-crime arsenal.

Asset Forfeiture Mission

The primary mission of the Program is to maximize the effectiveness of forfeiture as a deterrent to crime. Wealth is power. Illegal organizations--large and small--are enhanced by the profits and proceeds obtained through such illicit activity. Illegal enterprises are damaged or destroyed by seizing and forfeiting their accumulated wealth. Accordingly, the Program is committed to destroying criminal organizations by means of depriving drug traffickers, racketeers, and other criminal syndicates of their ill-gotten proceeds and the instrumentalities of their trade; and to enhance law enforcement and intergovernmental cooperation among federal, state, local, and foreign law enforcement agencies through the equitable sharing of forfeiture proceeds.

Forfeiture Statutes

Since its early Colonial origins, forfeiture has since been enhanced by several statutes. The Racketeer Influenced and Corrupt Organizations Act of 1970 and the Controlled Substances Act of 1970 authorized criminal forfeiture for racketeering and continuing criminal enterprise or "drug kingpin" offenses. The Comprehensive Crime Control Act of 1984 established the Department of Justice Assets Forfeiture Fund (*hereinafter* the Fund) to hold proceeds of forfeitures and to finance forfeiture-related expenses as well as certain law enforcement activities. This Act also authorized the Attorney General to equitably share forfeited property with cooperating state and local law enforcement agencies. The Anti-Drug Abuse Act of 1988 further strengthened the forfeiture program by providing for international sharing through transfers pursuant to international agreements rather than formal treaties. The Act also expanded money laundering forfeiture authority and authorized the forfeiture of pornography.

Assets Forfeiture Fund

Authorized in 1984 under the Comprehensive Crime Control Act, the Fund is an account in the Department of the Treasury that receives forfeited cash and the proceeds from all cases involving the Department of Justice and the judicial cases from non-Justice agencies participating in the Program. These funds may be spent only for purposes authorized by 28 U.S.C. § 524(c).

The primary purpose of the Fund is to ensure an adequate and appropriate source of funding for seizure and forfeiture related expenses. Otherwise, these expenses would be paid by seizing agencies out of budgets funded by taxpayer dollars. The Fund puts the drug dealers or other criminals' monies to work for the taxpayer.

Forfeiture Process

Recognizing that forfeiture is a powerful weapon, the Department employs this tool with discretion. The Program strives to take the profit out of crime and to weaken criminal syndicates through the confiscation of wealth generated by criminal activity, as well as to protect the property rights of innocent owners and third parties. Property is forfeited only if it is determined to be a tool of or the proceeds of illegal activities such as drug trafficking, organized crime, and money laundering.

Civil Forfeiture

Civil forfeiture is an essential component of the asset forfeiture program. In fact, many more statutes authorize civil forfeiture than criminal forfeiture.

Civil forfeiture actions are brought directly against the proceeds or instrumentalities of the crime. For that reason,

civil forfeiture is available, even if the owner of the property is not convicted of an offense. For example civil forfeiture is the only tool available to recover criminal proceeds and instrumentalities if the perpetrator has died or is a fugitive. It is also used to forfeit property belonging to a third party that a criminal uses to commit a crime. For example, if a pilot uses an airplane to smuggle drugs into the country and is arrested, civil forfeiture may be used to confiscate the airplane--and thus, prevent its use for an illegal purpose in the future--even if the plane doesn't belong to the pilot, but instead is registered to a foreign corporation beyond the reach of U.S. law enforcement.

Other instances in which civil forfeiture is essential to removing the proceeds and instrumentalities of crime from the hands of wrongdoers include: cases in which a spouse or other third party--who had knowledge of the offense, but was not charged in the criminal indictment--has an interest in the property; cases in which Congress has enacted a civil forfeiture statute but not a criminal forfeiture counterpart; and cases in which a defendant commits a series of offenses, only some of which are included in a criminal indictment.

Criminal Forfeiture

Criminal forfeiture is a relatively new sanction, dating back only to the Racketeer Influenced and Corrupt Organizations Act of 1970 and the Controlled Substances Act of 1970. Since then, the Comprehensive Crime Control Act of 1984 and the Anti-Drug Abuse Acts of 1986 and 1988 have greatly enhanced and expanded federal criminal forfeiture laws. In criminal forfeiture, the forfeiture of property is contingent upon the conviction of its owner. Criminal forfeiture is based upon the jurisdiction of the court over the defendant rather than the property, and thus allows the Government greater flexibility over property holdings than in civil forfeiture cases.

Program Components

The Department of Justice's forfeiture program consists of the following components: the Asset Forfeiture and Money Laundering Section (AFMLS) of the Criminal Division, the Asset Forfeiture Management Staff (AFMS) of the Justice Management Division, the Drug Enforcement Administration (DEA), the Federal Bureau of Investigation (FBI), the Immigration and Naturalization Service (INS), the United States Marshals Service (USMS), and the United States Attorneys' Offices (USAOs). Three non-Justice investigative agencies—the United States Postal Inspection Service (USPIS), the Food and Drug Administration (FDA), and the United States Park Police (USPP)—are also important participants in the Program.

Asset Forfeiture and Money Laundering Section (AFMLS)

In December 1994, the responsibility of coordination, direction, and general oversight of the Program was transferred to the Asset Forfeiture and Money Laundering Section (AFMLS) of the Criminal Division. AFMLS continues to handle both civil and criminal forfeiture litigation, to provide legal support to the U.S. Attorneys' Offices, to establish and promulgate standard policies and procedures for the Program, to advise the Appellate Section and the Solicitor General's Office on appellate forfeiture litigation, to coordinate multi-district asset seizures and related litigation, to determine petitions for remission or mitigation in judicial cases, to administer the equitable sharing program, and to coordinate and litigate on matters related to international forfeiture and the sharing of assets with foreign governments. AFMLS is responsible also for developing and implementing a wide variety of forfeiture training seminars for federal, state, and local law enforcement personnel.

Asset Forfeiture Management Staff (AFMS)

The reorganization of the Program created the Asset Forfeiture Management Staff (AFMS) in the Justice Management Division. AFMS has the responsibility for the administrative and financial management of the Program. These functions include: the management of the Assets Forfeiture Fund; implementation and operation of the Consolidated Asset Tracking System (CATS); the management of the internal and external budget processes regarding Fund monies; the investment of the Fund surplus balances; and the development, administration, and oversight of asset forfeiture program-wide contracts.

In FY 1995, the Program components continued their efforts to support the Program's mission of using forfeiture sanctions to dismantle criminal enterprise and to serve as a deterrent to future criminal activity. Listed below is a brief discussion of each component's activities.

Drug Enforcement Administration (DEA)

In implementing major investigative strategies and innovative operations in the fight against drug networks and international drug cartels, DEA seized a total of 13,869 items, 2,838 of which were from cases adopted from state and local law enforcement agencies. In FY 1995, DEA completed a total of 7,061 administrative forfeitures.

Federal Bureau of Investigation (FBI)

With an emphasis in white collar crime, in FY 1995, the FBI seized a total of 2,685 items of varying types, 529 of which were assets from cases adopted from state and local law enforcement agencies. The FBI completed a total of 1,382 administrative forfeitures during FY 1995.

Immigration and Naturalization Service (INS)

Using forfeiture sanctions in cases involving the violation of immigration and smuggling laws, the INS made a total of 19,398 conveyance seizures and completed a total of 11,006 administrative forfeitures.

United States Attorneys' Offices (USAOs)

The USAOs are responsible for the prosecution of both criminal defendants and civil actions against property used or acquired during illegal activity. In FY 1995, the USAOs prosecuted 1,387 criminal cases involving a total of 4,727 assets that were subject to forfeiture. Criminal forfeiture of 1,649 assets was ordered in 430 criminal cases. Of the 2,193 civil forfeiture cases filed, civil forfeiture was ordered in 1,379 cases.

United States Marshals Service (USMS)

As the primary custodian of seized property for the Program, the USMS manages and disposes of the majority of property seized for forfeiture. The USMS retained property valued at approximately \$515,477 for official use and transferred property valued at approximately \$363,070 to non-participating agencies for official use. (*See also* Seized Asset Inventory in chapter II.)

United States Postal Inspection Service (USPIS)

In an effort to discourage profit-motivated crimes such as mail fraud, money laundering, and drug trafficking using the U.S. mail, the USPIS seized 599 items, 4 of these items were from cases adopted from state and local agencies. The USPIS completed a total of 256 administrative forfeitures in FY 1995.

United States Park Police (USPP)

In its continuing effort to protect parkways and major arteries from being used as conduits for transporting illegal drugs, the USPP seized numerous types of property, which were adopted by the FBI and DEA. Twenty-two administrative forfeitures resulted from these seizures.

Food and Drug Administration (FDA)

The FDA's Office of Criminal Investigations investigates: health care fraud schemes, counterfeit pharmaceutical drugs, illegal distribution of adulterated foods and drugs, and product tampering. The FDA handled five cases involving asset forfeiture this fiscal year. These cases were adopted by the FBI, USPIS, and United States Customs Service on behalf of the FDA.

Chapter II: Program Performance

In pursuit of the Program's mission, funds obtained from forfeitures are reinvested in the fight against crime. Since 1985, more than \$4.3 billion in illicit cash and proceeds from the sale of forfeited property have been deposited into the Assets Forfeiture Fund (*hereinafter* the Fund).

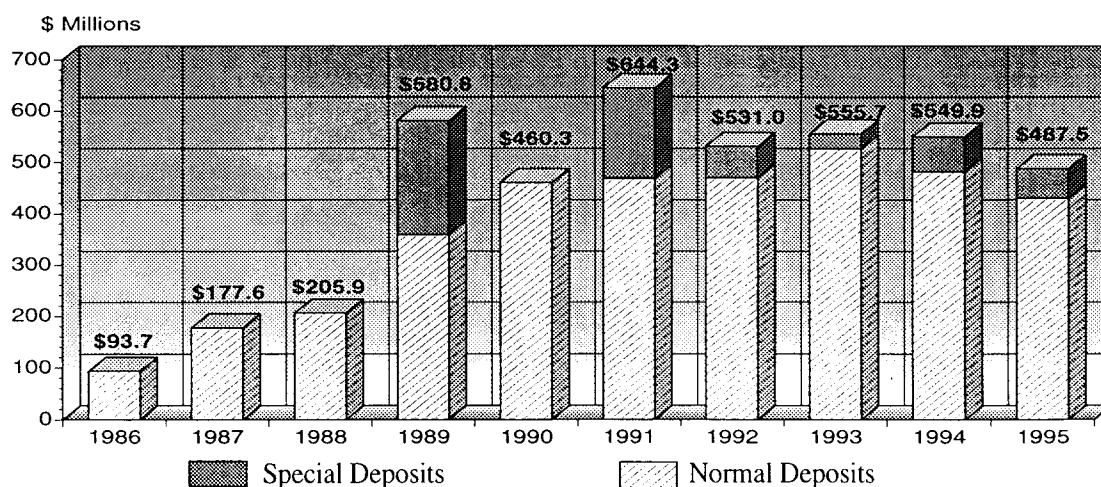

The Fund provides a mechanism by which proceeds of successful forfeiture cases are re-invested directly into law enforcement efforts. Revenue produced from forfeitures is an invaluable source of funding that enhances the efforts of federal, state, local, and international law enforcement in the fight against crime. Fund revenue is measured in terms of net deposits to the Fund. Without the Assets Forfeiture Fund, law enforcement agencies would not have adequate resources to aggressively implement the Asset Forfeiture Program.

Fund Receipts and Deposits

In FY 1995, law enforcement received \$487.5 million in proceeds forfeited from criminals to be used for investigations, equipment, operations, and training. In an austere budget environment, the Fund has provided law enforcement with critical resources to fight against crime.

The Fund began FY 1995 with a balance of \$549.9 million and ended the fiscal year with total net deposits of \$487.5 million. Net deposits to the Fund are primarily derived from forfeited cash and the proceeds from the sale of forfeited property. In FY 1995, \$316.4 million in forfeited cash accounted for 65 percent of net deposits to the Fund and \$143.1 million in proceeds from the sale of forfeited property represented 29 percent of net deposits to the Fund.

**Department of Justice
Net Assets Forfeiture Fund Deposits**

FY 89 includes \$222M from Drexel Burnham Lambert case.
 FY 91 includes \$176.3M from the Michael Milken case.
 FY 92 includes \$55.3M from the Solomon Brothers case and \$6M from BCCI interest.
 FY 93 includes \$9.7M from the McNamara case, \$9.7M from BCCI interest, \$13.6M from BCCI interest, and \$28.2M from BCCI principal deposits.
Asset Forfeiture Management Staff, JMD

FY94 includes \$26.7M from the McNamara case, \$13.6M from BCCI interest, and \$28.2M from BCCI principal deposits.
 FY 95 includes \$27.7M from the McNamara case, \$25.6M from BCCI interest, \$25.5M from the Caxton Anti-Trust case, and \$21.1M from BCCI interest accumulated in the Fund.

In addition to deposits provided by forfeitures, income is also derived from the investment of seized and forfeited fund balances. Investment earnings in FY 1995, including interest related to the BCCI case, totalled \$54.9 million. Interest earnings accumulated to \$16.4 million for forfeited cash balances, \$12.9 million for seized cash balances, and \$25.6 million for BCCI balances. Interest earned on BCCI funds is limited to distribution by order of the court. A court order was executed in FY 1995 that resulted in the distribution of \$21.1 million of accumulated BCCI interest.

Other deposits to the Fund in FY 1995 consisted of payments and penalties in lieu of forfeiture of \$10 million, recovery of asset management costs of \$3.5 million, miscellaneous income of \$1.8 million, and transfers from other federal agencies of \$1.7 million. Refunds of \$22.7 million were paid from net deposits to the Fund.

Official Use

In addition to the authority to sell property forfeited under laws enforced or administered by the Department, the Attorney General is also authorized to retain forfeited property for official use, and to transfer forfeited property to another federal agency or to any state or local law enforcement agency that participated directly in the seizure or forfeiture of the property. In FY 1995, federally forfeited conveyances and other tangible property worth approximately \$5 million were transferred to state and local law enforcement agencies through the equitable sharing program. Conveyances and personal property worth approximately \$7.6 million were retained for official use by the FBI, DEA, INS, USMS, USPIS, and the USPP.

Program Expenses

Net deposits into the Fund are available to the Attorney General to meet program operation expenses. Following these amounts, any remaining deposits to the Fund are available to the Attorney General for investigative expenses up to the amount of appropriated authority. Authorities and limitations governing the use of the Fund are specified in 28 U.S.C. § 524(c).

Pursuant to 28 U.S.C. § 524(c), the Attorney General has discretion to use the Fund to pay any necessary expenses associated with the seizure, detention, management, forfeiture, and disposal of seized property.

In FY 1995, a total of \$85.8 million was expended for the business costs of the Program associated with the management and disposal of seized and forfeited assets, case-

related expenses, and innocent third party payments. Another \$137.3 million has helped finance program management and investigative expenses associated with the anti-crime efforts of the federal law enforcement agencies participating in the Program.

Liens and Mortgages

The Fund paid a total amount of \$40.2 million in liens and mortgages. As a general rule, valid liens or mortgages are deducted from gross sale proceeds before the proceeds are deposited to the Fund. The amount reported also includes payments from the Fund in connection with the remission or mitigation of a forfeiture, in accordance with procedures outlined in 28 C.F.R. Part 9.

Assets Forfeiture Fund Total Equitable Sharing

Asset Forfeiture Management Staff, JMD

Data current through 9/30/95

Equitable Sharing

The Attorney General has the authority to make equitable sharing payments from the Fund to state, local, and foreign law enforcement agencies for their assistance in conducting a successful forfeiture case. The equitable sharing payments reflect the degree of direct participation in the law enforcement effort resulting in the forfeiture. Equitable sharing serves to enhance law enforcement cooperation and effectiveness by investing the proceeds of forfeitures into enhanced law enforcement activities. The increased cooperation that the equitable sharing program has fostered among federal, state, local, and foreign law enforcement agencies has been highly successful and is a major factor in the dramatic growth of federal forfeitures.

In FY 1995, a total of \$223.9 million in forfeited cash and \$5 million in tangible property was shared with state and local law enforcement agencies. Of this amount, \$194.9 million has been disbursed. Since the Program began in 1986, almost \$1.6 billion in cash and tangible property have been reinvested into law enforcement efforts at the state and local levels and over \$38.2 million in cash has been shared at the foreign government level. The sharing of funds supplements state and local resources without further taxing the public. The equitable sharing program is the cornerstone of the national and international drug enforcement effort.

International Sharing

Following legislation authorizing the Department of Justice to share forfeited property with cooperating foreign governments that assist in cases that lead to a forfeiture, the United States has entered into several international agreements and mutual legal assistance treaties, which contain provisions encouraging the sharing of forfeited property. To that end, the Department is authorized to share forfeited drug property or proceeds with foreign governments that participate directly or indirectly in the seizure and forfei-

ture of property under U.S. law pursuant to 21 U.S.C. § 881(e)(1)(E) and 18 U.S.C. § 981(i).

The Department of Justice continues its commitment to promoting international forfeiture cooperation and asset sharing with its international law enforcement partners as a way to attack serious transnational financial crime and drug trafficking. In FY 1995, the Program transferred more than \$1.5 million in forfeited proceeds to six foreign countries that provided assistance in United States forfeiture cases. These countries include Switzerland, Canada, Israel, Guernsey, the Netherlands Antilles, and the Bahamas.

In 1991, an amendment of 28 U.S.C. § 524(c)(4)(B) allowed any forfeited proceeds shared with the United States by foreign governments to be deposited into the Fund. In FY 1995, the Isle of Jersey shared forfeited assets with the United States in the amount of \$337,332.

End-of-Year Fund Balances

After paying out all expenses and adding in prior year adjustments, the Fund ended the fiscal year with a balance of \$160.0 million. \$90 million of this amount is committed balance, which includes BCCI interest of \$33.8 million, BCCI principal of \$28.2 million, FY 1992 super surplus of \$600,000, and FY 1993 super surplus of \$10.7 million, \$16.2 million in *United States v. McNamara* assets to be paid to innocent third party interests during FY 1995 and \$500,000 in interest payable to the Department of the Treasury Assets Forfeiture Fund. More than \$9.3 million of the end-of-year fund balance is for obligated FY 1995 balances subject to delivery in FY 1996. Approximately \$75 million will remain in the Fund to cover initial FY 1996 expenses.

Seized Assets Inventory

At the end of FY 1995, the inventory of seized assets held pending forfeiture consisted of more than 17,916 cash cases and properties valued at nearly \$1.4 billion. This

inventory of seized property included 981 real properties and 16 businesses valued at \$288.5 million. In addition to property, the end-of-year seized inventory included 6,834 cash cases. Seized cash is deposited into the Seized Asset Deposit Fund (SADF), a special holding account at the

U.S. Treasury. The SADF ended the fiscal year with a balance of \$618.2 million. The balance includes deposits in the amount of \$289.3 million associated with the forfeiture of BCCI. Seized cash held as evidence and not deposited to the SADF totaled \$15.9 million in FY 1995.

Seized Properties on Hand Fiscal Year 1995

Note: These figures do not include any liens/claims that might have been placed on an asset. Further, the data contained herein was drawn from CATS & SAMS, independent of FMIS. The method employed for the valuation of cash within CATS & SAMS is different from the method used in FMIS; therefore, the cash figure shown here will not correspond to the figure shown in the financial statements.

Forfeited Properties on Hand Fiscal Year 1995

**DEPARTMENT OF JUSTICE ASSETS FORFEITURE FUND
FOOTNOTES TO THE STATEMENT OF RECEIPTS AND DISBURSEMENTS ACTIVITY
FISCAL YEAR 1995
(October 1, 1994 through September 30, 1995)**

(a) Interest earned from the investment of proceeds relating to the BCCI forfeiture is limited to distribution by order of the court. Of the \$54,830,588 interest earnings in FY 1995, \$25,561,339 was earned from BCCI principal deposits and accumulated interest. In FY 1995, there was a court ordered disbursement of interest related to the BCCI case totaling \$21,082,041 resulting in net BCCI interest earnings in FY 1995 of \$4,479,298.

(b) The U.S. Government filed a successful motion to disburse unclaimed forfeited funds from assets identified in Round 1 and Round 2 of the BCCI Plea Agreement. The disbursement resulted in refunds of \$10,000,000 to the State of New York and \$244,128,802 to the World Wide Victims Fund (including \$21,082,042 of interest accumulated in the AFF since fiscal year 1992). These refunds leave the amount of \$182,416,834 forfeited to the U.S. Fund. Of the total amount disbursed to the U.S. Fund, \$160,146,615 remains in the SADF in accordance with court order provisions and \$22,270,219 remains in the AFF.

**BCCI COURT ORDERED DISTRIBUTIONS FOR ASSETS IDENTIFIED
IN ROUND ONE AND ROUND TWO OF THE PLEA AGREEMENT:**

Total Principal Round 1 and Round 2 deposits (from the SADF)		\$436,233,191
LESS: Pending Claims		(41,659,230)
LESS: Settled and Undistributed Claims		(1,380,585)
Total principal Round 1 and Round 2 deposits available for distribution		\$393,193,376
Total interest earned on Round 1 and Round 2 deposits available for distribution	\$48,292,543	
LESS: Interest earned on Pending and Settled and Undistributed Claims	(4,940,283)	
LESS: Interest earned on Distribution to State of New York deposit (To: U.S. Fund)	(1,188,177)	
Total interest earned on Round 1 & 2 deposits available for distribution		42,164,084
Grand Total interest earned on principal Round 1 & 2 deposits available for distribution		\$435,357,460

Appendix B

Department of Justice Assets Forfeiture Fund Summary of Receipts and Disbursement Activity Fiscal Year 1995

(October 1, 1994, through September 30, 1995)

Source of Receipts: \$487,545,517

Total net deposits to the Fund in the amount of \$487,545,517 consisted of forfeited cash of \$316,404,910; proceeds from the sale of property of \$143,062,626; payments in lieu of forfeiture of \$9,996,693; net BCCI investment income of \$4,479,298 (\$25,561,339 interest earned less \$21,082,041 interest disbursed); other investment income of \$29,269,249; recovery of asset management costs of \$3,558,895; transfers from other agencies of \$1,688,528; miscellaneous income of \$1,817,009; and less refunds totalling \$22,731,691.

Liens and Mortgages: \$40,170,810

A total of \$40,170,810 in liens and mortgages was paid from the Fund. As a general rule, valid liens or mortgages are deducted from gross sales proceeds before the proceeds are deposited to the Fund. In accordance with procedures outlined in 28 C.F.R. Part 9, payments from the Fund in connection with the remission or mitigation of a forfeiture are also included in the amount reported.

Equitable Sharing: \$223,862,891

Equitable sharing payments represent the transfer of portions of federally forfeited cash and sale proceeds to state and local law enforcement agencies and foreign governments that directly participated in an investigation and prosecution that resulted in forfeiture. Most task force cases, for example, result in property forfeitures whose proceeds are shared among the participating agencies. In FY 1995, a total of \$223,862,891 in forfeited cash was shared with foreign, state, and local law enforcement agencies. In addition, the Department transferred forfeited property worth \$5,044,370 to state and local law enforcement agencies through the equitable sharing program.

Estimated Value of Property Forfeited and Not Deposited into the Assets Forfeiture Fund in FY 1995: \$225,380,000

In addition to the authority to sell forfeited property under the laws enforced or administered by the Department, the Attorney General is also authorized to retain forfeited property for official use, and to transfer forfeited property to another federal agency or to any state and local law enforcement agency that participated directly in the seizure and forfeiture of the property.

A total of \$7,592,269 worth of conveyances and personal property were retained for official use by federal agencies participating in the Program. Of this amount, the following components retained conveyances and other tangible property for official use: DEA retained \$2,584,958; the FBI retained \$3,032,711; the INS kept \$887,305; the USMS retained \$515,477; the USPIS retained \$178,373; and the USPP kept \$30,375. In addition, \$363,070 in forfeited property was transferred by the Department to non-participating federal agencies for official use.

In FY 1995, federally forfeited conveyances and other tangible property worth \$5,044,370 were transferred to state and local law enforcement agencies that directly participated in an investigation and prosecution that resulted in forfeiture through equitable sharing.

Amount of Seized Cash Held as Evidence: \$15,939,372

Most of the cash seized by the Department of Justice was used in or derived from violations of the Controlled Substances Act. A forfeiture proceeding determines that, alternatively, the money should be forfeited to the United States or returned to the person from whom it was seized or to another innocent party.

Department of Justice policy requires that, unless there are compelling reasons to retain seized cash as evidence in a criminal proceeding, it must be deposited into the SADF. The SADF ended the fiscal year with a balance of \$618,230,358 including deposits associated with the forfeiture of the BCCI totalling \$289,326,885.

A total of \$15,939,372.37 in seized and forfeited cash not on deposit in the SADF as of September 1995 was held

as evidence by the FBI (\$12,807,831), DEA (\$2,613,388), the USPIS (\$515,153), and the USPP (\$3,000). The Department of Justice's efforts, through periodic reviews of seized and forfeited cash not on deposit with the SADF, have resulted in significant progress toward improving the cash management practices among the participating agencies in the Program.

Appendix F

Note: The accompanying financial statements represent the financial position and results of operations of the Assets Forfeiture Fund and the Seized Asset Deposit Fund. They do not include salaries and administrative expenses of the Asset Forfeiture Program participants. These financial statements are part of the FY 1995 Annual Financial Statement. The overview and supplemental financial and management information contained in the FY 1995 Annual Financial Statement have not been included in this report. The auditor's reports on the FY 1995 financial statement, along with the Reports on the Internal Control Structure and Compliance with Laws and Regulations, related solely to the FY 1995 Annual Financial Statement and not to the information contained in this report.

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

U.S. Department of Justice
Washington, D.C.

We have audited the accompanying statements of financial position of the Department of Justice Asset Forfeiture Program as of September 30, 1995 and 1994, and the related statements of operations and changes in net position, cash flows, and budget and actual expenses for the years then ended. We have also audited the combining statements of financial position as of September 30, 1995 and 1994. These financial statements are the responsibility of the U.S. Department of Justice. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards; *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 93-06, *Audit Requirements for Federal Financial Statements*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the principal financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, these financial statements were prepared in accordance with OMB Bulletin 94-01, *Form and Content of Agency Financial Statements*, which constitutes a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of the Department of Justice Asset Forfeiture Program as of September 30, 1995 and 1994, and the results of its operations and changes in net position, its cash flows, and budget and actual expenses for the years then ended in conformity with the basis of accounting described in Note 1. Also, in our opinion, the combining statements present fairly, in all material respect, the financial position of each of the individual funds comprising the Asset Forfeiture Program as of September 30, 1995 and 1994

in conformity with the accounting policies described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued a report dated May 31, 1996, on our consideration of the Department of Justice Asset Forfeiture Program's internal control structure and a report dated May 31, 1996, on its compliance with laws and regulations.

Our audits were conducted for the purpose of forming an opinion on the principal financial statements described above. We have inspected the financial information presented in management's overview of the Asset Forfeiture Program and in the supplemental financial and management information. The information presented in the overview and supplemental financial and management information is provided for the purposes of additional analysis. Such information has not been audited by us and, accordingly, we do not express our opinion on this information.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE

U.S. Department of Justice
Washington, D.C.

We have audited the principal financial statements of the Department of Justice Asset Forfeiture Program as of and for the years ended September 30, 1995 and 1994, and have issued our report thereon dated May 31, 1996.

We conducted our audits in accordance with generally accepted auditing standards, *Government Auditing Standards*, issued by the Comptroller General of the United States, and the Office of Management and Budget (OMB) Bulletin No. 93-06, *Audit Requirements for Federal Financial Statements*. Those standards require that we plan and perform the audit to obtain reasonable assurance that the principal financial statements are free of material misstatement.

Compliance with laws and regulations applicable to the Asset Forfeiture Program is the responsibility of the U.S. Department of Justice. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of compliance with laws and regulations designated by OMB and the U.S. Department of Justice. As part of our audits, we reviewed management's process for evaluating and reporting on internal control and accounting systems as required by the Federal Managers' Financial Integrity Act and compared the agency's most recent reports required by the Act with the evaluation we conducted of the Asset Forfeiture Program's internal control structure. We also reviewed and tested the Asset Forfeiture Program's policies, procedures, and systems for documenting and supporting financial, statistical, and other information presented in the overview and supplemental financial and management information. However, providing an opinion on overall compliance with such provisions was not an objective of our audit of the financial statements. Accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance that are required to be reported herein under *Government Auditing Standards*.

weakness.

We also noted other matters involving the internal control structure of the Department of Justice Asset Forfeiture Program that we have reported to the Justice Management Division in a separate letter dated May 31, 1996.

This report is intended for the information of the management of the U.S. Department of Justice. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

The accompanying notes are an integral part of these financial statements.

Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements have been prepared to report the financial position and results of operations of the Asset Forfeiture Program, including the Assets Forfeiture Fund (AFF) and the Seized Asset Deposit Fund (SADF), as required by the Chief Financial Officers Act of 1990. The statements have been prepared from the books and records of the Asset Forfeiture Program in accordance with Office of Management and Budget (OMB) Bulletin 94-01, Form and Content of Agency Financial Statements, dated November 16, 1993, and the Asset Forfeiture Program accounting policies which are summarized in these notes. These statements are therefore different from the financial reports, also prepared by the Asset Forfeiture Program pursuant to Office of Management and Budget directives, used to monitor and control the program's use of budgetary resources. The Statement of Cash Flows was prepared using the direct method.

Reporting Entity

The Asset Forfeiture Program is a nationwide law enforcement program administered by the Department of Justice. The Program is comprised of the following: the Drug Enforcement Administration, the Federal Bureau of Investigation, the Immigration and Naturalization Service, the U.S. Marshals Service, the U.S. Attorneys, and the Asset Forfeiture and Money Laundering Section, Criminal Division. The U.S. Postal Inspection Service, the Food and Drug Administration, and the U.S. Park Police are non-Department of Justice participants in the program.

The accompanying financial statements include the accounts of the AFF and the SADF. The AFF is a special fund and is listed in the U.S. Treasury Federal Account Symbols and Titles as 15X5042. The cash balance in the AFF is considered an entity asset. The SADF is a deposit fund and is listed in the U.S. Treasury Federal Account Symbols and Titles as 15X6874. Seized cash is deposited and accounted for in the SADF until a determination has been made as to its disposition. If title passes to the U.S. Government, the forfeited cash is then transferred from the SADF to the AFF. The cash balance in the SADF is not available to finance the Asset Forfeiture Program activities, and is considered a non-entity asset. Pursuant to 28 U.S.C. § 524 (C), idle SADF and AFF cash is invested in U.S. Treasury securities and the income derived is deposited in the AFF. The earnings on Bank of Credit and Commerce International (BCCI) funds held by the SADF and AFF are tracked separately due to special disposition requirements. Most noncash property is held by the U.S. Marshals Service from the point of seizure until disposition. In certain cases, the investigative agency will keep seized property in custody if the intention is to place the property into official use. If title passes to the U.S. Government, the proceeds from the sale of forfeited property are deposited in the AFF.

*Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements-Continued*

The accompanying financial statements of the Asset Forfeiture Program do not include the salaries and administrative expenses incurred by the Asset Forfeiture Program participants while conducting investigations leading to seizure and forfeiture. Salaries are paid out of the AFF for the Asset Forfeiture Management Staff (AFMS) and administrative costs are paid for the U.S. Marshals Service and AFMS. There are no operating expenses charged to the SADF.

Budgets and Budgetary Accounting

All proceeds deposited to the AFF are available to the Attorney General without fiscal year limitation (permanent indefinite budget authority), except for the amounts specified in the Department of Justice annual appropriations act which are subject to fiscal year limitation (current definite budget authority). All cash for AFF budget authority is derived from proceeds of the Asset Forfeiture Program.

Basis of Accounting

Transactions are recorded on both a proprietary and budgetary basis. Expenses are recorded on an accrual basis of accounting whereby expenses are accrued when goods have been delivered or when services have been rendered. Under the accrual method, expenses are recognized when a liability is incurred, without regard to payment of cash. Budgetary accounting facilitates compliance with legal constraints and controls over the use of federal funds.

Accounting Principles and Standards

Until a sufficiently comprehensive set of accounting standards is agreed to and published by the Joint Financial Management Improvement Program (JFMIP) principals, which will constitute generally accepted accounting principles for the Federal Government, the following hierarchy shall constitute an other comprehensive basis of accounting used for preparing these financial statements:

1. Individual standards developed by the Federal Accounting Standards Advisory Board and agreed to and published by the JFMIP principals.
2. Form and content requirements included in OMB Bulletin 94-01.
3. Accounting standards contained in agency accounting policy, procedures manuals, and/or related guidance as of March 29, 1991.
4. Accounting principles published by authoritative standard setting bodies and other authoritative sources (1) in the absence of other guidance in the first three parts of this hierarchy, and (2) if the use of such accounting standards improve the meaningfulness of these financial statements.

*Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements-Continued*

Revenues and Other Financing Sources

Revenue is recognized when cash has been forfeited or proceeds have been deposited from the sale of forfeited property under: (a) any criminal proceeding; (b) any civil judicial forfeiture proceeding; or (c) any civil administrative forfeiture proceeding conducted by the Department of Justice. Revenue from the forfeited property is recognized when the property is: (a) placed into official use; (b) transferred to another federal government agency; (c) distributed to a state or local law enforcement agency; or (d) distributed to a foreign government. No revenue recognition is given to any cash deposited in the SADF which remains subject to forfeiture.

The funds in the AFF are primarily derived from forfeited cash, proceeds from the sale of forfeited property, interest earned on investments, payment of penalties in lieu of forfeiture, and recovery of asset management expenses. The funds in the SADF are seized cash held in trust until a determination has been made as to the disposition. This cash includes seized cash, proceeds from preforfeiture sales of seized property, and income from property under seizure.

Liabilities

Liabilities represent the amount of monies or other resources that are due to be paid by the Asset Forfeiture Program as the result of a transaction or event that has already occurred. Asset Forfeiture Program accounts payable are due principally to nonfederal government entities and are funded by the permanent indefinite portion of the AFF. These liabilities may be met without further appropriation action. All liabilities are therefore classified as Liabilities Covered by Budgetary Resources.

Transfers

Transfers are cash flows out of the AFF to other appropriation accounts of the Treasury. Such transfers of cash require statutory authority. The AFF receives its transfer authority from Public Law No. 100-690, as amended. During FY 1995, no funds were transferred from the fund.

Interest Paid On Late Payments

The Prompt Payment Act, 31 U.S.C. § 3901-3907, requires Federal agencies to pay interest on payments for goods and services made to business concerns after the due date. Payments made pursuant to this law amounted to \$9 thousand and \$12 thousand in FYs 1995 and 1994 respectively.

Department of Justice
 Asset Forfeiture Program
 Notes to Principal Financial Statements-Continued

Note 2. Fund Balance with U.S. Treasury

The amounts reported for FYs 1995 and 1994 represent the unexpended cash balance on the Department's books at September 30 of each FY presented. The variance from the U.S. Treasury balance for account Symbols 15X5042 (AFF) and 15X6874 (SADF) at September 30, 1995, are \$16 thousand and \$2 thousand, respectively, which represents Cash in Transit for disbursements on the Department's books.

The following schedule reconciles the difference between the AFF and SADF balance per the Statement of Financial Position with the Treasury balance.

<i>Dollars in Thousands</i>	<i>1995</i>		<i>1994</i>	
	AFF	SADF	AFF	SADF
Obligated Balance	\$28,921	\$0	\$420,994	\$0
Unobligated Balance:				
Available	70,060	0	41,289	0
Restricted	89,943	71,042	78,900	867,771
Fund Balance with Treasury per Treasury	\$188,924	\$71,042	\$541,183	\$867,771
Cash In Transit	(16)	(2)	125	(2)
Fund Balance with Treasury per Asset Forfeiture Program	\$188,908	\$71,040	\$541,308	\$867,769

Asset Forfeiture Program funds held outside the U.S. Treasury as of September 30, 1995, and 1994, were \$15.9 million and \$10.9 million, respectively. These figures were reported by the investigative agencies maintaining custody of the assets. The funds held outside the U.S. Treasury represent cash held as evidence and are not presented elsewhere in these financial statements.

Note 3. Investments

Investments are short term, nonmarketable, par value Federal debt securities issued by the Bureau of the Public Debt and purchased exclusively through Treasury's Financial Management Service. Investments are recorded at cost. Discounts are recorded for the full amount earned at maturity. No investments are made in nonfederal securities. At September 30, 1995, investments represent 28 day, 5.02 percent and 14 day, 5.09 percent interest bearing U.S. Treasury bills. The following schedule shows the investment balance at

Department of Justice

September 30, 1995.

<i>Dollars in Thousands</i>	<i>Investments</i>	<i>(Discount)</i>	<i>Investments Net</i>
FY 1995			
Assets Forfeiture Fund	\$293,965	(\$1,032)	\$292,933
Seized Asset Deposit Fund	548,775	(1,585)	547,190
Total Investments	\$842,740	(\$2,617)	\$840,123

Note 4. Forfeited Property, Net

Forfeited property consists of monetary instruments, real property, and tangible personal property acquired through forfeiture proceedings. Forfeited property (net of cash) is held for disposition by the U.S. Marshals Service. This property is recorded at the estimated fair-market value at time of forfeiture, with an offsetting deferred revenue when forfeiture judgment is obtained. The net value of this property has been reduced by estimated liens of record. However, the estimate does not reflect all possible liens and claims of innocent third parties. Such information becomes available as the individual cases proceed from seizure to forfeiture. The following tables represent the analysis of change and methods of disposition of forfeited property for FY 1995. With regard to the following tables, Forfeited Property represents assets for which the U.S. Government has title. The financial information supporting the figures presented in the following schedules was provided by the Seized Assets Management System (SAMS) and the Consolidated Asset Tracking System (CATS). SAMS provided data from 81 districts and CATS provided data from 13 districts. Both systems are separate and distinct from the general ledger.

¹ "Other" represents methods of disposition that are unusual or infrequently used. Some examples of the use of the "other" category are: (a) liquidation of financial instruments; (b) aircraft transferred to the Department of the Interior (a non-participating federal agency); (c) real property used in the Weed & Seed Program; (d) real property in which USMS received "substitute res" (the monetary value of the property is substituted in place of the property) for the property; and (e) real property released to a claimant in lieu of cash settlement.

Note 5. Seized Property

A seizure is the act of taking possession of goods in consequence of a violation of public law. Seized property consists of monetary instruments, real property, and tangible personal property of others in the actual or constructive possession of the custodial agency. Seized property and equipment (net of cash) is held for disposition by the U.S. Marshals Service. This property is recorded at the estimated fair-market value at time of seizure. The fair market value of this property has been reduced by estimated liens of record. However, the estimate does not reflect all possible liens and claims of innocent third parties. Such information becomes available as the individual cases proceed from seizure to forfeiture. As of September 30, 1994, the U.S. Marshals Service had seized property and equipment with an estimated fair-market value of \$517.2 million. Liens associated with the property were for the amount of \$51.7 million, leaving a net estimated value of \$465.5 million. The following tables represent the analysis of change and methods of disposition of seized property for FY 1995. With regard to the following tables, Seized Property represents assets which have been seized and are awaiting disposition. The U.S. Government does not have title for these assets. The financial information supporting the figures presented in the following schedules was provided by the Seized Assets Management System (SAMS) and the Consolidated Asset Tracking System (CATS). SAMS provided data from 81 districts and CATS provided data from 13 districts. Both systems are separate and distinct from the general ledger.

² "Other" represents methods of disposition that are unusual or infrequently used. Some examples of the use of the "other" category are: (a) liquidation of financial instruments; (b) aircraft transferred to the Department of the Interior (a non-participating federal agency); (c) real property used in the Weed & Seed Program; (d) real property in which USMS received "substitute res" (the monetary value of the property is substituted in place of the property) for the property; and (e) real property released to a claimant in lieu of cash settlement.

Note 6. Accounts Payable

This balance includes payments due to vendors contracted to perform services relative to maintaining seized and forfeited assets, and equitable sharing payments due to local law enforcement agencies. Some expenses are accrued based upon estimates of amounts due to contractors. For FYs 1995 and 1994, these estimates are provided to the Asset Forfeiture Management Staff by various organizations of the Department of Justice and other participating Government agencies pursuant to reimbursement agreements.

Note 7. Deposit Fund

The SADF is a holding account established for the temporary deposit and control of nonevidentiary cash subject to forfeiture and includes seized cash, proceeds from preforfeiture sales of seized property, and income from property under seizure. The funds are held in the form of U.S. currency with the U.S. Treasury or as investments in U.S. Treasury securities until the U.S. Marshals Service receives a declaration of forfeiture or other court order directing the U.S. Marshals Service as to the disposition. The Deposit Fund liability account offsets the value of seized cash included in the SADF balance with the U.S. Treasury and in investments in U.S. Treasury securities.

Note 8. Net Position

Net Position is the equity of the U.S. Government in the Asset Forfeiture Program. The AFF, which is a Special Fund, accounts for all amounts presented within Net Position. The BCCI Investment Income (see Note 9) is subject to court order and may be used to pay claims of victims of the BCCI fraud. The income is recorded as revenue and the contingent liability is shown separately, for presentation purposes, within Net Position on the Statement of Financial Position. Of the \$160.3 million in Net Position, \$9.3 million represents undelivered orders. To the extent that undelivered orders are delivered during FY 1996, obligations pursuant to those orders will be expensed during FY 1996.

Note 9. Investment Income

The FY 1995 Investment Income was derived from investment of the AFF and SADF in U.S. Treasury securities. The earnings on BCCI funds held by the SADF and AFF are tracked separately due to special disposition requirements (see Note 8). Of the total interest earned in FY 1995, \$21,082,041 was refunded to the Worldwide Victims Fund. The following schedule presents the composition of Investment Income for FYs 1995 and 1994.

Department of Justice
 Asset Forfeiture Program
 Notes to Principal Financial Statements-Continued

<i>Dollars in Thousands</i>	<i>1995</i>	<i>1994</i>
Investment Income from AFF	\$16,378	\$8,030
Investment Income from SADF	12,892	8,970
Investment Income from BCCI	25,561	13,621
Total Investment Income	\$54,831	\$30,621

Note 10. Forfeited Cash

Forfeited Cash includes \$233,046,761 in fiscal year 1995 and \$33,240,886 in fiscal year 1994 from assets forfeited pursuant to the BCCI Plea Agreement. These amounts generally are not available because of special disposition requirements (i.e., court order).

Note 11. Forfeited Property Revenue

The Federal Accounting Standards Advisory Board's Statement of Federal Financial Accounting Standards Number 3, Accounting for Inventory and Related Property, requires that revenue associated with property not disposed of through sale be recognized upon approval of distribution. During FYs 1995 and 1994, the property was distributed pursuant to the Attorney General's authority to share forfeiture revenues with state and local law enforcement agencies that participated in the forfeiture that generated the property, and pursuant to the Department's authority to place forfeited property into official use by the Government. The amounts for the respective property distributions are as follows:

<i>Dollars in Thousands</i>	<i>1995</i>	<i>1994</i>
Property Retained by USMS	\$516	\$1,570
Property Transferred to State or Local Agencies	5,044	7,299
Property Transferred to Federal Agencies	7,077	12,872
Total Revenue	\$12,637	\$21,741

Department of Justice
 Asset Forfeiture Program
 Notes to Principal Financial Statements-Continued

Note 12. Return of Forfeiture Income

Included in the line item "Return of Forfeiture Income" are the following amounts:

	<i>1995</i>	<i>1994</i>
Payments to individuals or organizations for assets forfeited and deposited into the AFF and subsequently returned to them through a settlement agreement or by court order	\$7,395,655	\$8,403,853
Return of forfeiture income to the Treasury Forfeiture Fund for its participation in seizure which led to forfeiture	13,160,232	17,314,517
Return of forfeiture income to the Resolution Trust Corporation, the Federal Deposit Insurance Corporation, or other Federal financial institutions or regulatory agencies for monies recovered under the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA)	468,214	161,799
Return of forfeiture income to the U.S. Postal Service for its participation in seizure which led to forfeiture	914,862	9,013,141
Return of forfeiture income to other Federal agencies for their participation in seizure which led to forfeiture	731,107	537,373
BCCI Distributions to victims and other permanent court-ordered distributions	254,128,802	5,000,000
Return of forfeiture income to the Treasury Forfeiture Fund (TFF) from the sale of TFF assets in the custody of the USMS	61,621	124,863
Total Return of Forfeiture Income	\$276,860,493	\$40,555,546

*Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements-Continued*

Note 13. Operating Expenses

Expenses incurred in the Statement of Operations and Changes in Net Position are classified by major type of program versus object classification. Operating expenses, including distributions of revenue, by object classification are shown in the following schedule:

<i>Dollars in Thousands</i>	<i>1995</i>	<i>1994</i>
Personnel Compensation and Benefits	\$1,202	\$537
Travel and Transportation of Persons and Things	4,760	8,417
Rent, Communications, and Utilities	13,014	7,930
Printing and Reproduction	410	213
Consulting and Other Services	422,012	440,981
Supplies and Materials	2,961	185
Equipment	2,044	9,404
Grants, Subsidies, and Contributions	3	28
Insurance Claims and Indemnities	107	370
Forfeited Property	12,637	21,741
Interest and Dividends	503	890
Total Expenses by Object Classification	\$459,653	\$490,696

Note 14. Allocation of Prior Year Surplus

28 U.S.C. § 524(c)(9)(E), provides authority for the Attorney General to use excess end-of-year monies, without fiscal year limitation, in the AFF for Federal law enforcement, prosecution, correctional activities, and related training requirements. The figure shown in the fiscal year 1994 column does not include unexpended allocations of Super Surplus funding totalling \$6,807,758, which is included in the fiscal year 1995 column. The following schedule shows the allocation of surplus funds:

*Department of Justice
 Asset Forfeiture Program
 Notes to Principal Financial Statements-Continued*

<i>Dollars in Thousands</i>	<i>1995</i>	<i>1994</i>

Total Allocations	\$7,250	\$59,930
1991 Capital Surplus	\$0	\$3,097
1992 Super Surplus	(166)	13,544
1993 Super Surplus	7,416	43,289
Total Allocations	\$7,250	\$59,930

Note 15. Commitments and Contingencies

The AFF is committed under obligation for goods and services which have been ordered but not yet received (undelivered orders) at FY end. The total undelivered orders for all AFF activities amounted to \$9.3 million and \$6.8 million as of September 30, 1995 and 1994, respectively.

*Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements-Continued*

On deposit in the SADF were two sums of money that are actually forfeited pending distribution decisions. Funds in the amount of \$22,156,379 forfeited pursuant to the U.S. v Duboc case and funds in the amount of \$184,805,874 forfeited pursuant to the U.S. v. BCCI case were on deposit in the SADF on September 30, 1995.

The funds in the Duboc case are subject to a Sharing Request from the Department of Treasury. Until the merits of that sharing request can be fully evaluated, the Department of Justice can not establish an equitable sharing obligation.

The funds in the BCCI case will be used to reimburse certain expenses associated with the case. Until the various appeals for reimbursement can be evaluated, it is imperative that sums available for that purpose be preserved. Rather than shift the funds from the SADF to the AFF and carry forward increasingly larger balances associated with the BCCI matter, it was decided that the best management approach would be to retain these funds in the SADF pending decisions about their use.

Program Performance

The total revenue for FY 1996 was \$348.2 million. Approximately 51 percent of total FY 1996 revenue was distributed to fund equitable sharing payments, joint law enforcement operations, awards for information, and the purchase of evidence. About 29 percent of the total

revenue in FY 1996 was used to fund forfeiture program expenses. Total expenses and distributions for FY 1996 were \$292.8 million. Forfeiture program expenses as a percentage of total expenses and distributions remained relatively constant in FYs 1996 and 1995.

Department of Justice Net Assets Forfeiture Fund Deposits

FY 89 includes \$222M from Drexel Burnham Lambert case.
 FY 91 includes \$176.3M from the Michael Milken case.
 FY 92 includes \$55.3M from the Solomon Brothers case and \$6M from BCCI interest.
 FY 93 includes \$19.7M from the McNamara case and \$9.7M from BCCI interest.
 FY94 includes \$26.7M from the McNamara case, \$13.6M from BCCI interest, and \$28.2M from BCCI principal deposits.
 Source: Asset Forfeiture Management Staff, JMD

FY 95 includes \$27.7M from the McNamara case, \$25.6M from BCCI interest, \$25.5M from the Caxton Anti-Trust case, and \$21.1M from BCCI interest accumulated in the Fund.
 FY 96 includes \$0.6M from the McNamara case, \$45.2M distributed from U.S. Fund balances, \$4.8M in BCCI interest, \$1.3M distributed from BCCI balances, \$11.6M from Ortiz/Guyton case deposits, and \$17.1M in DuBoch case deposits.

Receipts and Deposits to the Fund

The Assets Foreiture Fund (*hereinafter* the fund) ended FY 1996 with net deposits of \$338.1 million. Net deposits to the Fund were primarily derived from forfeited cash and the proceeds from the sale of forfeited property. In FY 1996, \$249.8 million in forfeited cash accounted for 73.9 percent of net deposits to the Fund, and \$73.5 million

in proceeds from the sale of forfeited property represented 21.7 percent of net deposits to the Fund.

Other deposits to the Fund in FY 1996 consisted of payments and penalties in lieu of forfeiture of \$17.8 million, recovery of asset management costs of \$4.8 million, which includes \$195,000 of recovery of expenses for

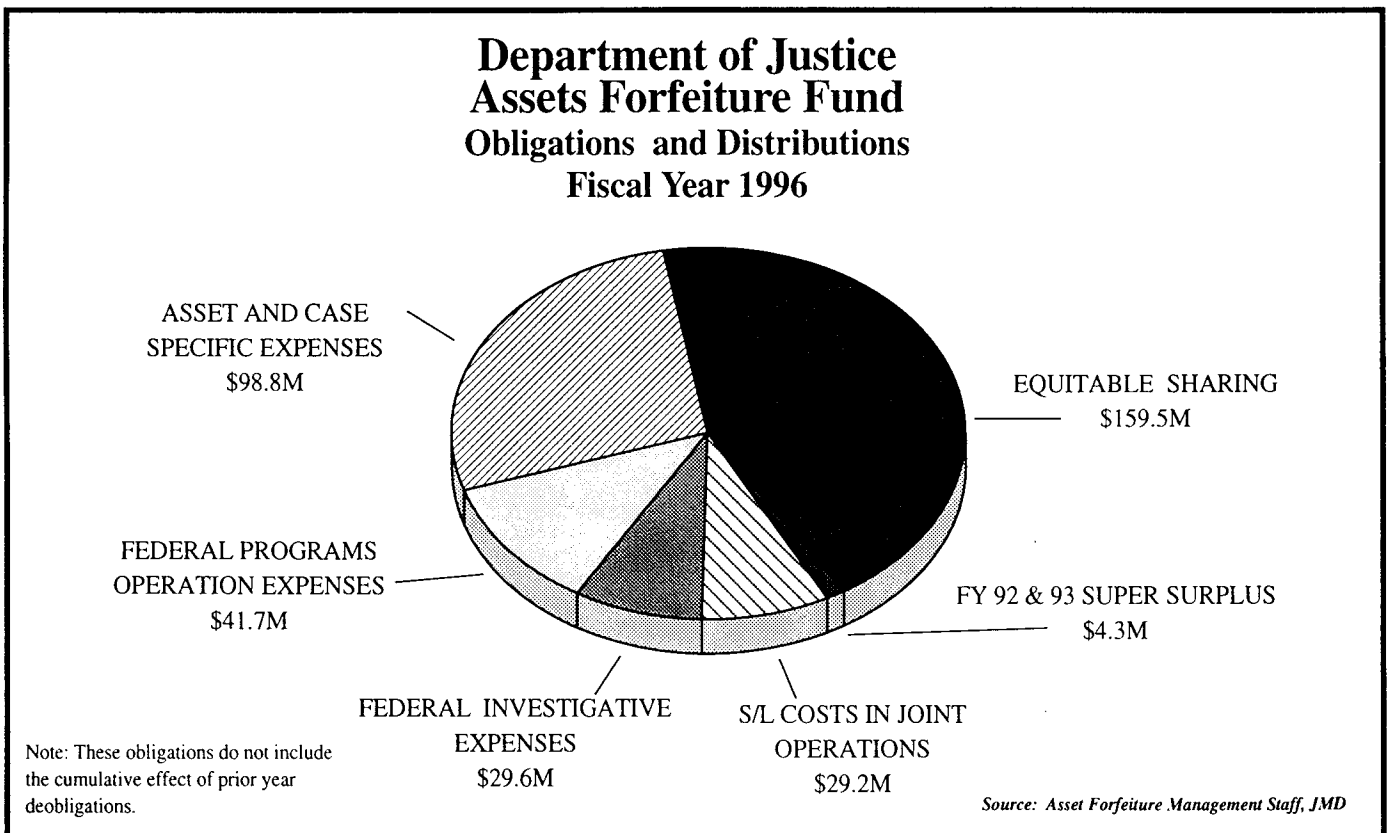

Treasury Forfeiture Fund assets; miscellaneous income of \$13.6 million; and transfers from the Treasury Forfeiture Fund of \$8.9 million. Paid from deposits to the Fund were refunds of \$246.5 million

In addition to deposits provided by forfeitures, income was also derived from the investment of seized and forfeited fund balances. Investment earnings in FY 1996 totaled \$42.7 million. Interest earnings accumulated to \$12.3 million for forfeited cash balances, \$15 million for seized cash balances, and \$15.5 million for BCCI balances. Interest earned on BCCI funds was limited to distribution by order of the court. A court order was executed in FY 1996 that resulted in the distribution of \$28.7 million of accumulated BCCI interest.

Official Use

In addition to the authority to sell property forfeited under laws enforced or administered by the Department, the Attorney General has the authority to retain forfeited property for official use and to transfer forfeited property to another federal agency or to any state or local law enforcement agency that participated directly in the seizure or forfeiture of the property.

In FY 1996, federally forfeited conveyances and other tangible property worth approximately \$2.1 million were transferred to state and local law enforcement agencies through the equitable sharing program. Conveyances and personal property worth approximately \$8 million were retained for official use by the Drug Enforcement

Administration, Federal Bureau of Investigation, Immigration and Naturalization Service, United States Marshals Service, and United States Postal Inspection Service.

Program Expenses

Net deposits into the Fund are available to the Attorney General to meet program operation expenses. Authorities and limitations governing the use of the Fund are specified in 28 U.S.C. § 524(c). Any remaining deposits to the Fund are available to the Attorney General for investigative expenses up to the amount of appropriated authority. The Attorney General has discretion to use the Fund to pay any necessary expenses associated with the seizure, detention, management, forfeiture, and disposal of seized property.

In FY 1996, a total of \$39.7 million was expended for the business costs of the Program associated with the management and disposal of seized and forfeited assets, case-related expenses, and innocent third-party payments. Another \$93 million helped finance program management and investigative expenses associated with the anti-crime efforts of the federal law enforcement agencies participating in the Program.

Liens and Mortgages

The Fund paid a total amount of \$15.9 million in liens and mortgages. As a general rule, valid liens or mortgages are deducted from gross sale proceeds before the proceeds are deposited to the Fund. The amount reported also includes payments from the Fund in connection with the remission or mitigation of a forfeiture, in accordance with procedures outlined in 28 C.F.R. Part 9.

Equitable Sharing

The Attorney General has the authority to make equitable sharing payments from the Fund to state, local, and foreign law enforcement agencies for their assistance in conducting a successful forfeiture case. The equitable sharing payments reflect the degree of direct participation in the law enforcement effort resulting in the forfeiture. Equitable sharing serves to enhance law enforcement cooperation and effectiveness by investing the proceeds of forfeitures into enhanced law enforcement activities. The increased cooperation that the equitable sharing program has fostered among federal, state, local, and foreign law enforcement agencies has been highly successful and is a major factor in the growth of federal forfeitures.

In FY 1996, a total of \$150 million in forfeited cash was expensed for sharing. Of this amount, \$140.7 million was disbursed to participating state and local law enforcement agencies at the end of the fiscal year. Since the Program began in 1986, almost \$1.9 billion in cash and tangible property have been reinvested into law enforcement efforts at the state and local levels and over \$42.3 million in cash has been disbursed at the foreign government level. The sharing of funds supplements state and local resources without further taxing the public. The equitable sharing program is the cornerstone of the national and international drug enforcement effort.

International Sharing

Criminals continue to pay more attention to the risk of forfeiture and are becoming more sophisticated in hiding their assets, both here and abroad. The Department continues to place a high priority on international cooperation to identify and seize foreign assets involved in criminal activity. Following legislation authorizing the Department of Justice to share forfeited property with cooperating foreign governments that assist in cases that lead to a forfeiture, the United States has entered into several international agreements and mutual legal assistance

treaties, which contain provisions encouraging the sharing of forfeited property. To that end, the Department is authorized to share forfeited drug property or proceeds with foreign governments that participate directly or indirectly in the seizure and forfeiture of property under United States law pursuant to 21 U.S.C. § 881(e)(1)(E) and 18 U.S.C. § 981(i).

In 1991, an amendment of 28 U.S.C. § 524(c)(4)(B) allowed any forfeited proceeds shared with the United States by foreign governments to be deposited into the Fund. In FY 1996, the governments of Switzerland and Canada shared forfeited assets with the United States in the amount of \$12.2 million. In FY 1996, approximately \$9 million was distributed to five foreign countries that provided assistance in the United States forfeiture case. These countries include the Isle of Man, Ecuador, Canada, Switzerland, the United Kingdom, and Luxembourg. The Department of Justice continues its commitment to promoting international forfeiture cooperation and asset sharing with its international law enforcement partners as a way to attack serious transnational financial crime and drug trafficking.

End-of-Year Fund Balances

The Program ended FY 1996 with an unobligated balance of \$184 million, of which \$107.3 million was unrestricted, *i.e.*, available for start-up expenses and/or other statutorily authorized uses. Restrictions to the unobligated balance totaled \$76.7 million at the end of the fiscal year.

Seized Assets Inventory

At the end of FY 1996, the inventory of seized assets held pending forfeiture consisted of more than 23,077 cash cases and properties valued at nearly \$1.11 billion. This inventory of seized property included 910 real property and businesses valued at \$214.3 million. In addition to property, the end-of-year seized inventory included 11,359 cash cases.

Seized cash is deposited into the Seized Asset Deposit Fund (SADF), a special holding account at the U.S. Treasury. The SADF ended the fiscal year with a balance of \$644.7 million. The balance included deposits

in the amount of \$15.8 million associated with the forfeiture of BCCI. Seized cash held as evidence and not deposited to the SADF totaled \$24.4 million in FY 1996.

Appendix B

Department of Justice Assets Forfeiture Fund Summary of Receipts and Disbursement Activity Fiscal Year 1996

(October 1, 1995, through September 30, 1996)

Source of Receipts

Total net deposits to the Fund totalled \$338,133,791 from the following sources:

DESCRIPTION	AMOUNT
Cash	\$249,777,459
Sale of Property	73,506,451
Payments in lieu of Forfeiture	17,833,647
BCCI Investment Income	15,452,001
Other Investment Income	27,216,571
Transfers from Treasury Forfeiture Fund	8,920,237
Recovery of Asset Management Costs	4,813,995
Miscellaneous Income	13,596,052
Refunds	(16,056,696)
BCCI Transfers	(56,925,926)
TOTAL	\$338,133,791

Program Expenses

Total expenses associated with the business costs of maintaining the Program were \$39,729,000 for FY 1996. An additional \$93,018,000 was expended to support program management and investigative expenses for the fiscal year.

Business Expenses:

DESCRIPTION	AMOUNT
Asset Management Expenses	\$23,036,000
Forfeiture Case Prosecution	761,000
Payments to Innocent Third Parties	15,932,000
TOTAL	\$39,729,000

Management and Investigative Expenses:

DESCRIPTION	AMOUNT
Special Contract Services	\$32,199,000
ADP Equipment	25,361,000
Forfeiture Training and Printing	(1,237,000)
Other Program Management	6,354,000
Awards for Information	9,409,000
Purchase of Evidence	819,000
Equipping of Conveyance and Miscellaneous Expenses	2,385,000
Joint Law Enforcement Operations	16,453,000
Contracts to Identify Assets	1,275,000
TOTAL	\$93,018,000

Other Expenses:

DESCRIPTION	AMOUNT
Transfers of Forfeited Property Revenue	\$ 10,077,000
Equitable Sharing	149,977,770

Official Use

RECIPIENTS	TOTAL
Participating Federal Components	\$7,970,000
Participating State and Local Law Enforcement Agencies through Equitable Sharing	\$2,106,448
TOTAL	\$10,076,448

Seized Cash Not on Deposit

A total of \$24,428,550 in seized and forfeited cash was not deposited in the SADF. The following cash amounts were held by the components as evidence:

AGENCIES	AMOUNTS
DEA	\$ 1,627,921
FBI	19,312,599
USPIS	3,488,030
TOTAL	24,428,550

0 These figures represent official accounting transactions. They do not reflect total forfeiture activity for any jurisdiction

- 1/ The "Other" line is comprised of deposits made to the Assets Forfeiture Fund (AFF) where a district has not been identified. Examples are U.S. Treasury Assets Forfeiture Fund reimbursements for U.S. Attorneys costs and Consolidated Asset Tracking System costs, GSA sales, INS mitigation payments, and AFF portions of BCCI distributions.
- 2/ The BCCI total interest earned in FY 95 is \$25,561,338.83. In conjunction with the BCCI interest earned, there was a BCCI disbursement of interest pursuant to court order signed 8/18/95 and filed 8/28/95 (Criminal No. 91-0655, Defendants 01-04). The transfer occurred in September 1995, in the amount of \$21,082,041.45, resulting in net interest earned in FY 95 of \$4,479,297.
- 3/ The BCCI interest earned through September 1996 for FY 96 is \$15,452,001.27. Of this amount, \$1,293,426.42 was disbursed for interest earned on the UBAF case along with a principal amount of \$17,755,323.57 in October 1995. In addition, \$885,545.89 was transferred from BCCI to Non-BCCI in August 1996 to reimburse the AFF for some of the legal costs incurred in BCCI case and \$11,103,745.05 of interest earned on BCCI cases along with the principal amount of \$72,548,118.19 was transferred to the WVF in August 1996. Also, \$15,402,321.53 of interest earned on BCCI cases along with the principal amount of \$10,632,764.47 was transferred to the FDIC in September, resulting in net interest earned through September 1996 of (\$13,233,038).

① These figures represent official accounting transactions. They do not reflect total forfeiture activity for any jurisdiction

- 1/ The "Other" line is comprised of deposits made to the Assets Forfeiture Fund (AFF) where a district has not been identified. Examples are U.S. Treasury Assets Forfeiture Fund reimbursements for U.S. Attorneys costs and Consolidated Asset Tracking System costs, GSA sales, INS mitigation payments, and AFF portions of BCCI distributions.
- 2/ The BCCI total interest earned in FY 95 is \$25,561,338.83. In conjunction with the BCCI interest earned, there was a BCCI disbursement of interest pursuant to court order signed 8/18/95 and filed 8/28/95 (Criminal No. 91-0655, Defendants 01-04). The transfer occurred in September 1995, in the amount of \$21,082,041.45, resulting in net interest earned in FY 95 of \$4,479,297.
- 3/ The BCCI interest earned through September 1996 for FY 96 is \$15,452,001.27. Of this amount, \$1,293,426.42 was disbursed for interest earned on the UBAF case along with a principal amount of \$17,755,323.57 in October 1995. In addition, \$885,545.89 was transferred from BCCI to Non-BCCI in August 1996 to reimburse the AFF for some of the legal costs incurred in BCCI case and \$11,103,745.05 of interest earned on BCCI cases along with the principal amount of \$72,548,118.19 was transferred to the WVF in August 1996. Also, \$15,402,321.53 of interest earned on BCCI cases along with the principal amount of \$10,632,764.47 was transferred to the FDIC in September, resulting in net interest earned through September 1996 of (\$13,233,038).

Appendix F

Note: The accompanying financial statements represent the financial position and results of operations of the Assets Forfeiture Fund and the Seized Asset Deposit Fund. They do not include salaries and administrative expenses of the Asset Forfeiture Program participants. These financial statements are part of the FY 1996 Annual Financial Statement. The overview and supplemental financial and management information contained in the FY 1996 Annual Financial Statement have not been included in this report. The auditor's reports on the FY 1996 financial statement, along with the Reports on the Internal Control Structure and Compliance with Laws and Regulations, related solely to the FY 1996 Annual Financial Statement and not to the information contained in this report.

During the audit of the FY 1997 financial statements, the Asset Forfeiture Management Staff became aware of information affecting the FY 1996 financial statements and related disclosures for seized and forfeited property. As of the publication date, the effect on the financial statement and related disclosures of this additional information discovered has not been determined. Management is currently researching the nature and effect of the matter identified, and the results, if material, will be properly reported.

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

U.S. Department of Justice
Washington, D.C.

We have audited the accompanying statements of financial position of the Department of Justice Asset Forfeiture Program as of September 30, 1996 and 1995, and the related statements of operations and changes in net position for the years then ended. We have also audited the combining statements of financial position as of September 30, 1996 and 1995. These financial statements are the responsibility of the U.S. Department of Justice. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards; *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 93-06, *Audit Requirements for Federal Financial Statements*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the principal financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, these financial statements were prepared in accordance with OMB Bulletin 94-01, *Form and Content of Agency Financial Statements*, which constitutes a comprehensive basis of accounting other than generally accepted accounting principles. Further, the OMB granted the Department a waiver of the OMB Bulletin 94-01 requirement to prepare the Statement of Cash Flows and the Statement of Budgetary Resources and Actual Expenses.

In our opinion, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of the Department of Justice Asset Forfeiture Program as of September 30, 1996 and 1995, and the results of its operations and changes in net position for the years then ended in conformity with the basis of accounting described in Note 1. Also, in our opinion, the combining statements present fairly, in all material respects, the financial position of each of the individual funds comprising the Asset Forfeiture Program as of September 30, 1996 and 1995, in conformity with the accounting policies described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued a report dated February 14, 1997, on our consideration of the Department of Justice Asset Forfeiture Program's internal control structure and a report dated February 14, 1997, on its compliance with laws and regulations.

Our audits were conducted for the purpose of forming an opinion on the principal financial statements described above. We have inspected the financial information presented in management's overview of the Asset Forfeiture Program and in the supplemental financial and management information. The information presented in the overview and supplemental financial and management information is provided for the purposes of additional analysis. Such information has not been audited by us and, accordingly, we do not express our opinion on this information.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

U.S. Department of Justice
Washington, D.C.

We have audited the principal financial statements of the Department of Justice Asset Forfeiture Program as of and for the years ended September 30, 1996 and 1995, and have issued our report thereon dated February 14, 1997.

We conducted our audits in accordance with generally accepted auditing standards, *Government Auditing Standards*, issued by the Comptroller General of the United States, and Office of Management and Budget (OMB) Bulletin No. 93-06, *Audit Requirements for Federal Financial Statements*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the principal financial statements are free of material misstatement.

The management of the Asset Forfeiture Program is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the principal financial statements in accordance with OMB Bulletin 94-01, *Form and Content of Agency Financial Statements*. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of the policies and procedures may deteriorate.

In planning and performing our audits of the principal financial statements of the Asset Forfeiture Program for the years ended September 30, 1996 and 1995, we obtained an understanding of the internal control structure. With respect to the internal control structure, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinion on the principal financial statements and not to provide an opinion on the internal control structure. Accordingly, we do not express such an opinion. We also reviewed and tested the Asset Forfeiture Program's policies, procedures, and systems for documenting and supporting financial, statistical, and other information presented in the overview and supplemental financial and management information.

2300 CLARENDON BLVD • SUITE 1100 • ARLINGTON, VA 22201 • (703) 522-0800 • FAX: (703) 522-0806

We noted a matter involving the internal control structure and its operation that we consider to be a reportable condition under standards established by the American Institute of Certified Public Accountants and OMB Bulletin 93-06. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Department of Justice's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

Improper Classification of Unliquidated Obligations (Repeat Condition)

At the end of each fiscal year, the Asset Forfeiture Management Staff (AFMS) reviews recorded expenses and unliquidated obligations under the Assets Forfeiture Fund and prepares adjustments to reclassify transactions recorded by the various Department of Justice organizations that participate in the Asset Forfeiture Program (AFP). For the preparation of the FY 1996 financial statements, the AFMS reclassified to delivered order status unliquidated obligations of \$7,055,337 which were recorded by the United States Marshals Service as undelivered orders. Unliquidated obligations reclassified by the AFMS from undelivered to delivered order status for the FY 1995 financial statements involved eleven USMS district offices and totalled \$3,124,558. For FY 1996, however, only two USMS district offices did not properly classify unliquidated obligations. USMS closing procedures have been enhanced to ensure that significant year-end adjustments by the AFMS will not be necessary in the future for the preparation of accurate financial statements.

Recommendation 1

We recommend that USMS headquarters personnel follow-up with the two district offices to ensure that the district office personnel properly perform year-end close-out procedures.

A material weakness is a reportable condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we do not believe the reportable condition described above to be a material weakness.

We also noted other matters involving the internal control structure of the Department of Justice Asset Forfeiture Program that we have reported to the Justice Management Division in a separate letter dated February 14, 1997.

 **BROWN & COMPANY** 

This report is intended for the information of the management of the U.S. Department of Justice. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

The accompanying notes are an integral part of these financial statements.

Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements have been prepared to report the financial position and results of operations of the Asset Forfeiture Program, including the Assets Forfeiture Fund (AFF) and the Seized Asset Deposit Fund (SADF), as required by the Chief Financial Officers Act of 1990. The statements have been prepared from the books and records of the Asset Forfeiture Program in accordance with Office of Management and Budget (OMB) Bulletin 94-01, Form and Content of Agency Financial Statements, dated November 16, 1993, and the Asset Forfeiture Program accounting policies which are summarized in these notes. These statements are therefore different from the financial reports, also prepared by the Asset Forfeiture Program pursuant to Office of Management and Budget directives, used to monitor and control the program's use of budgetary resources.

Reporting Entity

The Asset Forfeiture Program is a nationwide law enforcement program administered by the Department of Justice. The Program is comprised of the following: the Drug Enforcement Administration, the Federal Bureau of Investigation, the Immigration and Naturalization Service, the U.S. Marshals Service, the U.S. Attorneys, and the Asset Forfeiture and Money Laundering Section, Criminal Division. The U.S. Postal Inspection Service, the Food and Drug Administration, and the U.S. Park Police are non-Department of Justice participants in the program.

The accompanying financial statements include the accounts of the AFF and the SADF. The AFF is a special fund and is listed in the U.S. Treasury Federal Account Symbols and Titles as 15X5042. The cash balance in the AFF is considered an entity asset. The SADF is a deposit fund and is listed in the U.S. Treasury Federal Account Symbols and Titles as 15X6874. Seized cash is deposited and accounted for in the SADF until a determination has been made as to its disposition. If title passes to the U.S. Government, the forfeited cash is then transferred from the SADF to the AFF. The cash balance in the SADF is not available to finance the Asset Forfeiture Program activities, and is considered a non-entity asset. Pursuant to 28 U.S.C. § 524 (C), idle SADF and AFF cash is invested in U.S. Treasury securities and the income derived is deposited in the AFF. The earnings on Bank of Credit and Commerce International (BCCI) funds held by the SADF and AFF are tracked separately due to special disposition requirements. Most noncash property is held by the U.S. Marshals Service from the point of seizure until disposition. In certain cases, the investigative agency will keep seized property in custody if the intention is to place the property into official use after forfeiture. If title passes to the U.S. Government, the proceeds from the sale of forfeited property are deposited in the AFF.

The accompanying financial statements of the Asset Forfeiture Program do not include the salaries and administrative expenses incurred by the Asset Forfeiture Program participants while conducting investigations leading to seizure and forfeiture. Salaries are paid out of the AFF for the Asset Forfeiture Management Staff (AFMS) and administrative costs are paid for the U.S. Marshals Service and the AFMS. There are no operating expenses charged to the SADF.

Budgets and Budgetary Accounting

All proceeds deposited to the AFF are available to the Attorney General without fiscal year limitation (permanent indefinite budget authority), except for the amounts specified in the Department of Justice annual appropriations act which are subject to fiscal year limitation (current definite budget authority). All cash for AFF budget authority is derived from proceeds of the Asset Forfeiture Program.

Basis of Accounting

Transactions are recorded on both a proprietary and budgetary basis. Expenses are recorded on an accrual basis of accounting whereby expenses are accrued when goods have been delivered or when services have been rendered. Under the accrual method, expenses are recognized when a liability is incurred, without regard to payment of cash. Budgetary accounting facilitates compliance with legal constraints and controls over the use of federal funds.

Accounting Principles and Standards

Until a sufficiently comprehensive set of accounting standards is agreed to and published by the Joint Financial Management Improvement Program (JFMIP) principals, which will constitute generally accepted accounting principles for the Federal Government, the following hierarchy shall constitute an other comprehensive basis of accounting used for preparing these financial statements:

1. Individual standards developed by the Federal Accounting Standards Advisory Board and agreed to and published by the JFMIP principals.
2. Form and content requirements included in OMB Bulletin 94-01.
3. Accounting standards contained in agency accounting policy, procedures manuals, and/or related guidance as of March 29, 1991.
4. Accounting principles published by authoritative standard setting bodies and other authoritative sources (1) in the absence of other guidance in the first three parts of this hierarchy, and (2) if the use of such accounting standards improve the meaningfulness of these financial statements.

*Department of Justice
Asset Forfeiture Program
Notes to Principal Financial Statements-Continued*

Revenues and Other Financing Sources

Revenue is recognized when cash has been forfeited or proceeds have been deposited from the sale of forfeited property under: (a) any criminal proceeding; (b) any civil judicial forfeiture proceeding; or (c) any civil administrative forfeiture proceeding conducted by the Department of Justice. Revenue from the forfeited property is recognized when the property is: (a) placed into official use; (b) transferred to another federal government agency; (c) distributed to a state or local law enforcement agency; or (d) distributed to a foreign government. No revenue recognition is given to any cash deposited in the SADF which remains subject to forfeiture.

The funds in the AFF are primarily derived from forfeited cash, proceeds from the sale of forfeited property, interest earned on investments, payment of penalties in lieu of forfeiture, and recovery of asset management expenses. The funds in the SADF are seized cash held in trust until a determination has been made as to the disposition. This cash includes seized cash, proceeds from preforfeiture sales of seized property, and income from property under seizure.

Liabilities

Liabilities represent the amount of monies or other resources that are due to be paid by the Asset Forfeiture Program as the result of a transaction or event that has already occurred. Asset Forfeiture Program accounts payable are due principally to nonfederal government entities and are funded by the permanent indefinite portion of the AFF. These liabilities may be met without further appropriation action. All liabilities are therefore classified as Liabilities Covered by Budgetary Resources.

Interest Paid On Late Payments

The Prompt Payment Act, 31 U.S.C. § 3901-3907, requires Federal agencies to pay interest on payments for goods and services made to business concerns after the due date. Payments made pursuant to this law amounted to \$37 thousand and \$9 thousand in FYs 1996 and 1995.

Note 2. Fund Balance with U.S. Treasury

The amounts reported for FYs 1996 and 1995 represent the unexpended cash balance on the Department's books at September 30 of each FY presented. The variance from the U.S. Treasury balance for Account Symbol 15X5042 (AFF) at September 30, 1996, is \$806 thousand, which represents Cash in Transit on the Department's books.

The following schedule reconciles the difference between the AFF and SADF balance per the Statement of Financial Position with the Treasury balance.

<i>Dollars in Thousands</i>	<i>1996</i>		<i>1995</i>	
	AFF	SADF	AFF	SADF
Obligated Balance	\$(104,109)	\$0	\$28,921	\$0
Unobligated Balance:				
Available	107,278	0	70,060	0
Restricted	76,710	56,778	89,943	71,042
Fund Balance with Treasury per Treasury	\$79,879	\$56,778	\$188,924	\$71,042
Cash In Transit	806	0	(16)	(2)
Fund Balance with Treasury per Asset Forfeiture Program	\$80,685	\$56,778	\$188,908	\$71,040

Asset Forfeiture Program funds held outside the U.S. Treasury as of September 30, 1996, and 1995, were \$24.4 million and \$15.9 million, respectively. These figures were reported by the investigative agencies maintaining custody of the assets. The funds held outside the U.S. Treasury represent cash held as evidence (or funds not yet forwarded to the USMS as of September 30, 1996), and are not presented elsewhere in these financial statements.

Note 3. Investments

All Investments are short term, nonmarketable, par value Federal debt securities issued by the Bureau of the Public Debt and purchased exclusively through Treasury's Financial Management Service. Investment are recorded at cost. Discounts are recorded for the full amount earned at maturity. No investments are made in nonfederal securities.

Department of Justice

The following schedule shows the investment balance at September 30, 1996.

<i>Dollars in Thousands</i>	<i>Investments</i>	<i>(Discount)</i>	<i>Investments Net</i>
FY 1996			
Assets Forfeiture Fund	\$282,130	(\$1,066)	\$281,064
Seized Asset Deposit Fund	590,745	(2,811)	587,934
Total Investments	\$872,875	(\$3,877)	\$868,998

Note 4. Forfeited Property, Net

Forfeited property consists of monetary instruments, real property, and tangible personal property acquired through forfeiture proceedings. Forfeited property (net of cash) is held for disposition by the U.S. Marshals Service. This property is recorded at the estimated fair-market value at time of forfeiture, with an offsetting deferred revenue when a forfeiture judgment is obtained. The net value of this property has been reduced by estimated liens of record. However, the estimate does not reflect all possible liens and claims of innocent third parties. Such information becomes available as the individual cases proceed from seizure to forfeiture. The following tables represent the analysis of change and methods of disposition of forfeited property for FY 1996. With regard to the following tables, Forfeited Property represents assets for which the U.S. Government has title. The financial information supporting the figures presented in the following schedules was provided by the Seized Assets Management System (SAMS) and the Consolidated Asset Tracking System (CATS). SAMS provided data from 69 districts and CATS provided data from 25 districts. Both systems are separate and distinct from the general ledger.

¹ "Other" represents methods of disposition that are unusual or infrequently used. Some examples of the use of the "other" category are: (a) liquidation of financial instruments; (b) aircraft transferred to the Department of the Interior (a non-participating federal agency); (c) real property used in the Weed & Seed Program; (d) real property in which USMS received "substitute res" (the monetary value of the property is substituted in place of the property) for the property; and (e) real property released to a claimant in lieu of cash settlement.

Note 5. Seized Property

A seizure is the act of taking possession of goods in consequence of a violation of public law. Seized property consists of monetary instruments, real property, and tangible personal property of others in the actual or constructive possession of the custodial agency. Seized property and equipment (net of cash) is held for disposition by the U.S. Marshals Service. This property is recorded at the estimated fair-market value at the time of seizure. The fair market value of this property has been reduced by estimated liens and claims of third parties. However, the estimate does not reflect all possible liens and claims of innocent third parties. Such information becomes available as the individual cases proceed from seizure to forfeiture. The following tables represent the analysis of change and methods of disposition of seized property for FY 1996. With regard to the following tables, Seized Property represents assets which have been seized and are awaiting disposition. The U.S. Government does not have title for these assets. The financial information supporting the figures presented in the following schedules was provided by the Seized Assets Management System (SAMS) and the Consolidated Asset Tracking System (CATS). SAMS provided data from 69 districts and CATS provided data from 25 districts. Both systems are separate and distinct from the general ledger.

Analysis of the Change in Seized Property - FY 1996

Note 6. Accounts Payable

This balance includes payments due to vendors contracted to perform services relative to maintaining seized and forfeited assets, and equitable sharing payments due to state and local law enforcement agencies. Some expenses are accrued based upon estimates of amounts due to contractors. For FYs 1996 and 1995, these estimates are provided to the Asset Forfeiture Management Staff by various organizations of the Department of Justice and other participating Government agencies pursuant to reimbursement agreements.

Note 7. Deposit Fund

The SADF is a holding account established for the temporary deposit and control of nonevidentiary cash subject to forfeiture and includes seized cash, proceeds from preforfeiture sales of seized property, and income from property under seizure. The funds are held in the form of U.S. currency with the U.S. Treasury or as investments in U.S. Treasury securities until the U.S. Marshals Service receives a declaration of forfeiture or other court order directing the U.S. Marshals Service as to the disposition. The Deposit Fund liability account offsets the value of seized cash included in the SADF balance with the U.S. Treasury and in investments in U.S. Treasury securities.

Note 8. Net Position

Net Position is the equity of the U.S. Government in the Asset Forfeiture Program. The AFF, which is a Special Fund, accounts for all amounts presented within Net Position. The BCCI Investment Income (see Note 9) is subject to court order and may be used to pay claims of victims of the BCCI fraud. The income is recorded as revenue and the contingent liability is shown separately, for presentation purposes, within Net Position on the Statement of Financial Position. Of the \$219.1 million in Net Position, \$28.6 million represents undelivered orders. To the extent that services and/or supplies classified as undelivered orders are delivered during FY 1997, obligations pursuant to those orders will be expensed during FY 1997.

Note 9. Investment Income

The FY 1996 Investment Income was derived from investment of the AFF and SADF in U.S. Treasury securities. The earnings on BCCI funds held by the SADF and AFF are tracked separately due to special disposition requirements (see Note 8). Of the total BCCI investment income for 1996 (see below \$15.5 million), U.S. Fund interest earned for FY 1996 totals \$10.7 million and BCCI interest earned totals \$4.8 million. Of the total interest earned in FY 1995, \$21,082,041 was refunded to the Worldwide Victims Fund.

Department of Justice

The following schedule presents the composition of Investment Income for FYs 1996 and 1995.

<i>Dollars in Thousands</i>	<i>1996</i>	<i>1995</i>
Investment Income from AFF	\$12,252	\$16,378
Investment Income from SADF	14,965	12,892
Investment Income from BCCI	15,452	25,561
Total Investment Income	\$42,669	\$54,831

Note 10. Forfeited Cash

Forfeited Cash includes \$173,539,291 in FY 1996 and \$233,046,761 in FY 1995 from assets forfeited pursuant to the BCCI Plea Agreement. These amounts generally are not available because of special disposition requirements (i.e., court order).

Note 11. Forfeited Property Revenue

The Federal Accounting Standards Advisory Board's Statement of Federal Financial Accounting Standards Number 3, Accounting for Inventory and Related Property, requires that revenue associated with property not disposed of through sale be recognized upon approval of distribution. During FYs 1996 and 1995, the property was distributed pursuant to the Attorney General's authority to share forfeiture revenues with state and local law enforcement agencies that participated in the forfeiture that generated the property, and pursuant to the Department's authority to place forfeited property into official use by the Government. The amounts for the respective property distributions are as follows:

<i>Dollars in Thousands</i>	<i>1996</i>	<i>1995</i>
Property Transferred to the USMS	\$314	\$516
Property Transferred to State or Local Agencies	2,107	5,044
Property Transferred to Federal Agencies	7,656	7,077
Total Forfeited Property Revenue	\$10,077	\$12,637

Note 12. Return of Forfeiture Income

Included in the line item "Return of Forfeiture Income" on the Statement of Operations and Changes in Net Position are the following amounts:

	<i>1996</i>	<i>1995</i>
Payments to individuals or organizations for proceeds from assets forfeited and deposited into the AFF and subsequently returned to them through a settlement agreement or by court order	\$5,481,900	\$7,395,655
Return of forfeiture income to the Treasury Forfeiture Fund for its participation in seizure which led to forfeiture	7,333,967	13,160,232
Return of forfeiture income to the Resolution Trust Corporation, the Federal Deposit Insurance Corporation, or other Federal financial institutions or regulatory agencies for monies recovered under the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA)	663,323	468,214
Return of forfeiture income to the U.S. Postal Service for its participation in seizure which led to forfeiture	2,156,002	914,862
Return of forfeiture income to other Federal agencies for their participation in seizure which led to forfeiture	444,083	731,107
BCCI Distributions to the Asset Forfeiture Fund	6,671,404	0
BCCI Distributions to victims and other permanent court-ordered distributions	223,793,813	254,128,802
Return of forfeiture income to the Treasury Forfeiture Fund (TFF) from the sale of TFF assets in the custody of the USMS	(22,579)	61,621
Total Return of Forfeiture Income	\$246,521,913	\$276,860,493

Department of Justice

Note 13. Operating Expenses/Distribution of Revenues

Expenses incurred as shown in the Statement of Operations and Changes in Net Position are classified by major type of program versus object classification. Operating expenses, including distributions of revenue, by object classification are shown in the following schedule:

<i>Dollars in Thousands</i>	<i>1996</i>	<i>1995</i>
Personnel Compensation and Benefits	\$986	\$1,202
Travel and Transportation of Persons and Things	2,250	4,760
Rent, Communications, and Utilities	9,483	13,014
Printing and Reproduction	2,070	410
Consulting and Other Services	270,374	422,012
Supplies and Materials	(501)	2,961
Equipment	(2,381)	2,044
Grants, Subsidies, and Contributions	29	3
Insurance Claims and Indemnities	14	107
Forfeited Property	10,077	12,637
Interest and Dividends	401	503
Total Expenses and Distribution of Revenues by Object Classification	\$292,802	\$459,653

Department of Justice

Note 14. Allocation of Prior Year Surplus

28 U.S.C. § 524(c)(9)(E), provides authority for the Attorney General to use excess end-of-year monies, without fiscal year limitation, in the AFF for Federal law enforcement, prosecution, correctional activities, and related training requirements. The following schedule includes unexpended allocations of Super Surplus funding totaling \$6,807,758 in the FY 1995 column.

<i>Dollars in Thousands</i>	<i>1996</i>	<i>1995</i>
Asset Forfeiture Management Staff	\$0	\$(43)
Asset Forfeiture and Money Laundering, Criminal Division	0	1,596
United States Attorneys	0	1,600
National Institute of Justice	0	125

United States Postal Service	0	0
United States Food and Drug Administration	0	0
Department of Health and Human Services, Inspector General	0	0
Internal Revenue Service	(3,000)	0
Total Allocations	\$(3,000)	\$7,250
1991 Capital Surplus	\$0	\$0
1992 Super Surplus	0	(166)
1993 Super Surplus	(3,000)	7,416
Total Allocations	\$(3,000)	\$7,250

Note 15. Transfers

Transfers differ from expenses in that transfers are cash flows out of the AFF to another appropriation account of the Treasury. Such transfers of cash require statutory authority. From there, expenses are recorded by the recipient organization against its own appropriation. Expenses are outflows of funds recorded as obligations directly against the AFF. The AFF receives its transfer authority from Public Law No. 100-690, as amended. The transfer from the AFF to the DOJ Working Capital Fund will be reversed in FY 1997. During FYs 1996 and 1995, funds were transferred from the AFF as follows:

<i>Dollars in Thousands</i>	<i>1996</i>	<i>1995</i>
Drug Enforcement Administration	\$(15)	\$0
U.S. Marshals Service	(1)	0
Immigration and Naturalization Service	(515)	0
Working Capital Fund	55	0
Bureau of Alcohol, Tobacco and Firearms	(15)	0
Total Transfers	\$(491)	\$0
Transfers from FY 1991 Surplus	\$(546)	\$0
Transfers from Working Capital Fund	55	0
Total Transfers	\$(491)	\$0

Note 16. Commitments and Contingencies

The AFF is committed under obligation for goods and/or services which have been ordered but not yet received (undelivered orders) at FY end. The total undelivered orders for all AFF activities amounted to \$28.6 million and \$9.3 million as of September 30, 1996 and 1995, respectively.
