TITLE: CIB 96-24 - Monitoring and Evaluating Performance

October 11, 1996

MEMORANDUM FOR ALL CONTRACTING OFFICERS AND NEGOTIATORS

FROM: M/OP/OD, Marcus L. Stevenson, Procurement Executive

SUBJECT: Monitoring and Evaluating Performance

CONTRACT INFORMATION BULLETIN 96-24

The purpose of this CIB is to make performance reporting procedures consistent with FAR provisions requiring past performance evaluations. The AIDAR reports clause (752.7026) is being modified. Until such time, all service contracts in excess of \$100,000 shall include language requiring both periodic performance monitoring reports and past performance evaluation reports as specified in this CIB and in CIB 96-18, Interim and Final Evaluation Reports.

This CIB supersedes and cancels CIB 94-21, New AIDAR Reports Clause. The clause at AIDAR 752.7026 is hereby suspended and shall not be used in any solicitations or contracts issued after the date of this CIB. Instead, the attached version of the clause, which will be published in the Federal Register as a Proposed Rule for comments, shall be used.

Periodic performance monitoring reports (PMRs), initiated by the contractor, will be the principal instrument for monitoring performance. Agency-initiated performance evaluation reports (PERs) will be the principal instrument for assessing performance.

The revised AIDAR reports clause reduces the reporting requirements for contractors. Contractors no longer have to submit completion reports as required by AIDAR 752.7026(b). Instead, the Agency will conduct an evaluation of performance (PER), as required by FAR 42.1502, upon completion of activities.

The revised clause also makes better use of the contractor's periodic PMRs which are required by AIDAR 752.7026(a). The Agency will use the PMRs periodically submitted by the contractor as the primary source of information in preparing the PERs.

All Agency policies relating to performance reporting remain in effect. The revised version of AIDAR 752.7026 simplifies procedures, integrates the monitoring and evaluation functions, and makes better use of the information collected.
