I. Funding Opportunity Description

Rural Cooperative Development Grants (RCDG) are authorized by section 310B(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932(e)). Regulations are contained in 7 CFR part 4284, subparts A and F. The primary objective of the RCDG program is to improve the economic condition of rural areas through cooperative development. RCDG grants are used to facilitate the creation or retention of jobs in rural areas through the development of new rural cooperatives, value-added processing and other rural businesses. The program is administered through USDA Rural Development State Offices acting on behalf of RBS.

Section 310B(e) of the Consolidated Farm and Rural Development Act was amended by the Farm Security and Rural Investment Act of 2002 (Pub. L. 107-171) (Mar. 13, 2002) to modify the matching requirement required of RCDG grant applicants that are "1994 Institutions" (as defined in section 532 of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 301 note; Pub. L. 103-382)). (The final rule implementing this amendment was published in the April 29, 2004, Federal Register. See 69 FR 23418-23436.) 1994 Institutions are not required to provide non-Federal financial support (matching funds) greater than 5 percent of the grant awarded. In the case of all applicants, preference points will be awarded where applicants commit to providing greater than the minimum 25 percent matching contribution. A current list of 1994 Institutions may be obtained from RBS.

This summary should include the status of cooperative businesses organized and all eligible grant purpose activities. The applicant

Those personnel having a track record of positive solutions for complex cooperative development or marketing problems, or those with a record of conducting feasibility studies that later proved to be accurate, business planning, marketing analysis, or other activities relevant to the Center's success should be highlighted.
- (i) Support and commitments. Applicants must describe the level of support and commitment in the community for the proposed Center and the services it would provide. This support can be from industry groups, commodity groups, and potential customers of the Center. Plans for coordinating with other developmental organizations in the proposed service area, or with State and local government institutions should be included. Letters supporting cooperation and coordination from potential local customers should be provided. If the matching funds are to be provided by a third party in cash, the application must include a signed letter from that third party verifying how much cash will be donated and when it will be donated. Verification for funds donated outside the proposed time period of the grant will not be accepted. If the matching funds are to be provided by a third party in-kind donation, the application must include a signed letter from the third party verifying the goods or services to be donated, when the goods and services will be donated, and the value of the goods or services. Verification for in-kind contributions donated outside the proposed time period of the grant will not be accepted. Verification for inkind contributions that are over-valued will not be accepted.

If matching funds are in cash, they must be spent on goods and services that are eligible expenditures for this grant program. If matching funds are inkind contributions, the donated goods or services must be considered eligible expenditures for this grant program as well as be used for eligible purposes. The matching funds must be spent or donated during the grant period and the funds must be expended at a rate equal to or greater than the rate grant funds are expended. (7) Certification of Matching Funds. Applicants must certify that matching funds will be available at the same time grant funds are anticipated to be spent and that matching funds will be spent at a rate equal to or greater than the rate grant funds are spent throughout the duration of the grant period. Unless provided by other authorizing legislation, other Federal grant funds cannot be used as matching funds. However, matching funds contributed by the applicant may include a loan from another Federal source.

In general, grant and matching funds can be used to assist farmers and ranchers in organizing new or improving existing agriculture cooperatives, including those involved in value-added activities. Grant and matching funds can also be used to help rural residents form other cooperatively operated businesses such as housing cooperatives, including the conversion of properties administered under the section 515 program administered by the Rural Housing Service to housing cooperatives. Finally, grant and matching funds can be used to help rural residents form shared-services businesses to support their individually owned rural businesses.

Grant funds and matching funds may be used for, but are not limited to, providing the following to individuals, cooperatives, small businesses and other similar entities in rural areas served by the Center:

- (a) Applied research, feasibility, environmental and other studies that may be useful for the purpose of cooperative development.
- (b) Collection, interpretation and dissemination of principles, facts, technical knowledge, or other information for the purpose of cooperative development.

(c) Providing training and instruction for the purpose of cooperative development.

CFR parts 3015 and 3019.

6. Other Submission Requirements:
Applications must be received by Marc Warman, USDA–RBS–CS, 1400
Independence Avenue, SW., Room 4016-South, Stop 3250, Washington, DC 20250 by 4 p.m. eastern time on the deadline date. Each application submission must contain all required documents in one envelope, if by mail or express delivery service, or all required documents must be in one electronic pdf file if the submission is by e-mail.

V. Application Review Information

1. Criteria: All eligible and complete applications will be evaluated based on the following criteria. Failure to address any one of the following criteria will result in a determination of incomplete and the application will not be considered for funding.

The criteria listed in this section will be used to evaluate grants under this subpart. Preference will be given to items in paragraphs (a) through (k). Up to five points will be awarded to each of the 11 criteria. Each criterion will receive equal weight.

For information and documentation that appear in other sections of this funding announcement that already address the following criteria, the applicant may reference that information and documentation by section number and page number. The applicant does not have to repeat information and documentation in section V.1. if it is presented elsewhere. However, the applicant must correctly reference this information and documentation. Reviewers will not be required to search for information and documentation that is incorrectly referenced.

(a) Administrative capabilities. (1–5 points) The application will be evaluated to determine whether the subject Center has a track record of administering a nationally coordinated, regional or State-wide operated project. Centers that have capable financial systems and audit controls, personnel and program administration performance measures and clear rules of governance will receive more points than those not evidencing this capacity.

(b) Technical assistance and other services. (1–5 points) The Agency will evaluate the applicant's demonstrated expertise in providing technical assistance in rural areas. This includes conducting feasibility studies, developing marketing plans, developing business plans, and doing those other activities necessary for a group of individuals to form a cooperative.

(c) Economic development. (1–5 points) The Agency will evaluate the applicant's demonstrated ability to assist in the retention of businesses, facilitate the establishment of cooperatives and new cooperative approaches and generate employment opportunities that will improve the economic conditions of rural areas.

(d) Linkages. (1–5 points) The Agency will evaluate the applicant's demonstrated ability to create horizontal linkages among businesses within and among various sectors in rural areas of the United States and vertical linkages to domestic and international markets. These linkages must be among cooperatives, not development organizations.

(e) Commitment. (1–5 points) The Agency will evaluate the applicant's commitment to providing technical assistance and other services to underserved and economically distressed areas in rural areas of the

United States.

(f) Matching Funds. (1–5 points) All applicants must demonstrate Matching Funds equal to at least 25 percent (5 percent for 1994 Institutions) of the grant amount requested. Applications exceeding these minimum commitment levels will receive more points.

(g) Delivery. (1–5 points) The Agency will evaluate whether the Center has a track record in providing technical assistance in rural areas and accomplishing effective outcomes in cooperative development. The Center's potential for delivering effective cooperative development assistance, the expected effects of that assistance, the sustainability of cooperative organizations receiving the assistance, and the transferability of the Center's cooperative development strategy and focus to other States will also be assessed.

(h) Work Plan/Budget. (1–5 points) The work plan will be reviewed for detailed actions and an accompanying timetable for implementing the proposal. Clear, logical, realistic and efficient plans will result in a higher score. Budgets will be reviewed for completeness and the quality of non-Federal funding commitments.

(i) Qualifications of those Performing the Tasks. (1–5 points) The application will be evaluated to determine if the personnel expected to perform key center tasks have a track record of positive solutions for complex Cooperative development or marketing problems, or a successful record of conducting accurate feasibility studies, business plans, marketing analysis, or other activities relevant to Cooperative development center success.

(j) Local support. (5 points) Applications will be reviewed for previous and expected local support for the Center, plans for coordinating with other developmental organizations in the proposed service area, and coordination with State and local institutions. Support documentation should include recognition of rural values that balance employment opportunities with environmental stewardship and other positive rural amenities. Other than support from potential customers, just reference the support letters and documentation and do not actually submit documents. Centers that demonstrate strong support from potential beneficiaries and formal evidence of the Center's intent to coordinate with other developmental organizations will receive more points than those not evidencing such support and formal intent.

(k) Future support. (1–5 points)
Applications that demonstrate their vision for funding center operations for

future years, including diversification of funding sources and building in-house technical assistance capacity, will receive more points for this criterion.

2. Review and Selection Process: The Agency will conduct an initial screening of all proposals to determine whether the applicant is eligible, complete, and sufficiently responsive to the requirements set forth in this funding announcement so as to allow for an informed review. Incomplete or nonresponsive applications will not be evaluated further. Applicants may revise their applications and re-submit them prior to the published deadline if there is sufficient time to do so. However, given the tight timeline this year, this probably will not be possible. Reviewers appointed by the Agency will evaluate applications.

3. Anticipated Announcement and Award Dates:

Award Date: The announcement of award selections is expected to occur on or about September 30, 2004.

VI. Award Administration Information

1. Award Notices: Successful applicants will receive a notification of tentative selection for funding from Rural Development. Applicants must comply with all applicable statutes and regulations before the grant award will be approved. Unsuccessful applicants will receive notification by mail.
